Oksana : How do people know? I seemed to strive, and I don't feel any ill will toward anyone. On the contrary, I became completely different. But in fact, it got even worse, and I can't live at home at all and spend the night with a friend.

Maxim : You haven't become completely different yet. I'll tell you more: the situation that you have is, perhaps, one of those tasks that you must go through here.

But you haven't changed completely, you will still change. And if you want to get rid of it, you can get rid of it, but you will have to go through all the circles of hell, your inner development, which you can go through.

Irina : If you spend the night with a friend, then this already indicates that you are not ready to overcome your fear: you are afraid to be alone with them, with your "friends" whom you called and who say that they do not agree. But you, in fact, have nothing to be afraid of, because when you stay with them, and if you shine, they will not appear.

39:34

The practice of getting rid of low vibrational entities through the Light of love.

Irina: There is such a practice: when an entity appears, you need to mentally close your eyes in its direction (for example, you saw smoke or something else) and calmly direct the light and watch what happens. Simply channel the Light of love. If the entity is low vibration, it will move away and will not be able to approach you.

Maxim : Yes, and preferably, when you direct this light from yourself, you see the light falling from above, the light of that God, which you don't even want to talk about, calling it by other names.

Oksana : It's not that I'm afraid to spend the night at home, I just can't get up afterwards: it's very hard for me. It's not that I'm scared anymore, because I've already seen everything here: three-headed snakes, and everything you want. I'm just squeezed like a lemon. Then I can't get up or go outside.

Maxim : Of course, because these snakes of yours, those spider bugs there, are precisely the instillation in you of fear and those necessary emotions, energy that are needed.

The portals in your home will also need to be closed. After all, you have a necrotic attachment - it will also need to be removed, but without your help and without your work in consciously perceiving what is happening to you - this will be impossible to do.

You only heard the first part, when you can't spend the night at home, but you didn't hear the second part: that you should direct your Light to them when they come to you. As soon as you feel that they are coming, you completely open your heart and all the Light of the divine energy that is in you, you direct it to this essence, to the darkness that has come to you.

41:48

Ritual for breaking the necrotic connection.

Irina : You need to break the necrotic connection, and then direct the Light.

Maxim : Erwin, please tell me what are the consequences of the fact that we, for example, now break off the necrotic connection everywhere and close two portals. Is this possible?

Erwin : Only if I break it off now, and she stays on her side, it's a matter of one night. But closing the portal is a consequence. In any case, you must first carry out some actions, say words, and perform certain actions through a ritual. She must do this in her own home, and she must be alone, at least in this room.

Maxim : Oksana, did you believe that this exists and that you did it? And even in what you didn't fully believe?

Oksana : After everything - yes!

Maxim : Great, that means the work is simplified.

So, we do the ceremony. Are candles included in the ceremony?

Irina : Yes, they light up. Only it is held on a certain lunar day, and it is selected according to energy, depending on the connection. It is when there is a necrotic connection that a photograph is taken if it is not clear with whom it is connected, for example, a loved one of a deceased person. This needs to be done in the evening, without light, but, in any case, it must be done.

Before the ritual, thoughts may come from entities that feed on fear, and they can instill this through fear. But you will still need to do the ritual, because this is not so, but not in the cemetery, since there are other rituals there, and you will also have to read prayer.

44:53

Closing a negative portal with a web of icy fire.

Maxim : And, at the moment, what can you advise: how to literally try to maintain your emotional and physical state even with this connection?

Irina : Erwin says that you can even clean the channels from a distance.

Maxim: Through cosmoenergetics?

Irina : Yes, from a distance. You still need permission to close the portal. Erwin says that when we're done, he can go and treat her room where she is with a special web of ice fire and close the portal. After this ritual, the lower necrotic portal will be closed, which will not allow non-incarnates to emerge from there. And you also need her permission to perform the ceremony.

Maxim : Let's do this, and then we will perform the rituals. There is a ton of work there, that is, if you do everything correctly, do everything wisely, not just fool around like many do, but if you really work, then it’s not one, not two or three days of work. So that you understand.

Irina : This will not allow at least demons to be nearby, plasmoids can do that.

If Oksana now gives permission for three days, then she needs to perform rituals during the day. And select according to the lunar day. The problem is that she reminded me of Katya, but here, unlike her, I can’t even use a staff.

47:41

Energy sword from Guardian Angel.

Oksana : May I ask a question? When all this started, it was as if someone had raised my hand, I saw a sword in my hands - who gave it to me?

Irina : Well, yes, they say that your angel showed a sword, and that they need to defend themselves.

Oksana : I see it on the subtle plane, and when I extend my hand now, when there is little energy, it manifests itself weakly.

48:33

About doubts about faith in God.

Maxim : Here the problem is different. Oksan, excuse me, of course, I will still give feedback. Even though she says that you have to believe in God, I don't feel it at all. Here I sit, looking at her, I don't feel it.

Irina : Is she an atheist?

Maxim : No, she's not an atheist, maybe she believes in necrotics, demons, but for some reason she doesn't believe in God. Oksana, do I feel right?

Oksana : I don't have it from my heart that I believe. I understand that it is there, but from the heart it is not. There is some kind of ice wall here. Stone. I can't, I know all this, I believe, but I don't have it coming from my heart.

49:09

The amount of vital energy and emotional level of Oksana.

Irina : We just looked at the astral plane: the energy is only 32% and the color is yellow, then like dark gray. Not just a dense aura saturated with plasmoid energies, but when you start to take it to the emotional level, your soul feels like complete apathy, and so no one can touch it. It's not that there was faith, but to lie there and not be touched by anyone. At the same time, there is no faith that no one should touch it.

Maxim : A vicious circle.

Irina : Yes.

50:03

Oksana's consent to the cleansing of her living space.

Irina : Oksana, you are now saying these words:

"I, Oksana, give freely and consciously consent to Erwin from the Betelgeuse system of the 37th density level to cleanse my living space and my energy structure, consisting of all seven layers of the aura, with the energy of the icy fire of the Orion magician system."

Now he has gone to you and will carry out the cleansing.

Maxim : Oksana, we are finishing our communication now. Irina will give you special rituals, perform them, and then we will connect.

52:22

Reasons for attracting low vibrational Spirits.

Oksana : If I had not started these magical actions, then all this would not have happened?

Irina : Perhaps it would not have happened, perhaps it did. The main thing is not magical actions, but the vibrations and emotions that stand behind them.

That is, those who attracted these low-vibration spirits. If these actions had not taken place, perhaps something else would have happened. Because Mead says that we cannot know what would have happened

then. And what has already happened is what we need to work with.

53:10

Guidance and support from meeting participants.

Maxim: Therefore, you accept the situation that you have already done and work with the situation that already exists.

That's it, that means we're ending the session now. Erwin went to see you. For three days now he will more or less harmonize the field for you so that you can sleep normally and rest normally.

So, see you tomorrow. You will have a practice, a ritual that you will have to do. So don't be upset, I think we will help you with everything we can. We have no other task now - we have a task to help you. Therefore, we will try to do everything that is possible for us. Fine?

That's it, hang in there, I think everything can be fixed. The main thing is to discover within yourself the God who is in you, who created you. Understood?

Oksana : I want that too.

Maxim: Hold on and discover a lot of Light in yourself every time. Get up in the morning, read prayers, do everything necessary in order for you to turn to God, because absolutely everything is in His power and authority.

Irina : Oksana even brightened...

Maxim : Hugs, and happy!

Participants: Irina Podzorova, Maxim Rusan and guest Oksana.

Present:

LiShioni from the planet Shimor is a specialist in the astral world and its interaction with the material world.

MidgasKaus from the planet Esler - biologist, psychologist, researcher of alien life forms.

Answer: Erwin from the planet Erwin is a plasmoid of the 37th density level of the Betelgeuse system of the Magi of Orion.

#101 How to increase your yield. Alien advice. Soil fertility, contact with plasmoids, energy

https://blog.cassiopeia.center/kak-povysit-urozhaj-sovety-inoplanetyan
https://www.youtube.com/watch?v=ZrU9WCgVgdE

00:33

Interlocutor: Fate gave me a unique opportunity to talk and communicate with you.

00:40

Irina Podzorova : Hello, dear friends! My name is Irina Podzorova. I am a contactor with extraterrestrial civilizations.

And today with us are:

1. representatives from the planet Esler: MidgasKaus - biologist, PiosNior - art critic;

2. representative from the planet Shimor - LiShioni, who is a specialist in astral interactions with the material world;

3. and two representatives from the planet Ticht:

RauSimaniTruicht is an ecologist, a specialist in the bioecological restoration of planets, and StrayMani is a biologist, a specialist in the study of anthropomorphic species of our galaxy.

We are waiting for the first questions from you and will immediately explain who is answering.

02:20 Increasing soil fertility in conditions of lack of moisture

Interlocutor : How to dramatically increase soil fertility in conditions of lack of moisture in the south of our country? It's very dry here, there's very little rainfall, and, literally, in the last year something inexplicable has been happening to the planet (I can't explain what?) and it's become very difficult for us to get seedlings of bread - the main crop - what it eats Human.

How can this question be resolved: how can soil fertility be dramatically increased in conditions of lack of moisture in order to obtain good harvests?

MidgasKaus and RauSimani answer:

If there is a lack of moisture and an arid climate, and there are no conditions for reclamation, then you need to supply water underground. After all, there are periods of the year on Earth when there is enough moisture, for example, in winter, when there is more rainfall than in the dry months, then all you can do is to retain moisture in the soil and so that it does not evaporate - to create moisture-retaining measures for earth. During the winter and during the period

of snow melting, moisture accumulates deep in the soil. But when a dry period begins, when the Sun begins to heat the Earth strongly, it comes out and evaporates. And if there is no rain, then even fertile soils into which nutrients are added suffer. And all the nutrients, without moisture, will not dissolve in order to enter the plant and therefore there may be no harvest. From the depths of the soil, tube-like natural capillaries emerge to the surface. And when they come to the surface of the earth, from the evaporation they form a dense water crust, which must be stirred up so that the capillaries collapse and everything remains on the surface. You just need to do this while there is still moisture underground - that's the first thing.

Second: plant the plant as early as possible compared to your usual time, so that it has time to gain green growth before the intense heat. In order for the soil to warm up faster, you need to attract heat to it: for example, while there is still snow, you can sprinkle it with something dark. Firstly, the snow will melt later and remain on the surface longer, and if water from melting snow flows somewhere, then it needs to be retained in this place, in this field where you are planting. Again, look at the topography of the soil: if it is a slope, then you need to plant in a lowland and use all methods of retaining snow moisture.

07:40 Increasing soil fertility

Interlocutor : How to increase the supply of nutrients for microorganisms, which are the basis for restoring soil fertility? To do this, we use plants such as sweet clover, sainfoin - legumes in order to feed this microflora and replenish the supply of nutrients.

MidgasCaus responds:

Esler did a lot of research on this issue on his planet, and there were similar studies on Earth, too. Soil fertility depends on many factors and not only on the amount of certain substances in it, but also on their ability to dissolve in the same water and reach the roots of plants. This very much depends on the level of acidity, because if there is too much acidity, even if you add a lot of nitrogenous substances, potassium, etc., they will turn into a form that is insoluble or poorly absorbed by plants. That is, substances may not be absorbed for some other reason - therefore, before talking about specific measures - it would be

good to take the soil for analysis - several samples from the surface and from a depth, about 10 cm, depending on what you are going to grow (trees, shrubs or herbs). Trees must also grow on fertile soil and fruit plants must be planted deeper.

09:50 Acidity test

Therefore, in order to have a concrete conversation, you need to do an acidity test. If, for example, it is elevated, then it needs to be reduced with special substances, and the simplest thing is calcium Ca+ compounds. This gives an alkaline reaction, and, depending on the type of soil and acidity level, a certain dose is required per square meter.

10:28 About soil insects

The key to the successful development of microflora and fertility in general is the life of soil insects (worms, woodlice, millipedes). Among insects, of course, there are pests. But there are also those who do not feed on cultivated plants, but feed on wild ones and at the same time play a positive role in soil formation. They not only mix the soil, facilitating better penetration of air, for example, to the roots of plants, the same nitrogen. Because if you introduce microbes that can interact with the roots and release nitrogen compounds, in any case these microbes can react with air nitrogen, that is, this requires air supply. Insects mix it all up. And the products of their metabolism and their own bodies, which remain after their death, are also decomposed by microbes, and all this enters the microelement composition. Therefore, it is not so important not to use mineral fertilizers, the most important thing is to reduce the amount of substances that kill insects. Because there are pesticides that kill not only harmful, but also beneficial insects. In addition, there are poisonous ones that, dissolving in the rain and absorbing into the soil, kill the simplest microorganisms living in the soil, whose task is to process, with their enzymes, complex organic substances into simpler substances. These include anaerobic microorganisms that can develop without oxygen, and aerobic microorganisms that develop only with oxygen, and protozoa that are single-celled, and many others. That is, the soil biocenosis can be disturbed not even by mineral fertilizers, but by those pesticides and herbicides that are used against pests. Therefore, if possible, reduce their number and switch to less aggressive methods of controlling

pests of cultivated plants.

14:00 Methods of fertilizing soil biota

Interlocutor : What methods should be used to enhance the vital activity of soil biota, anaerobic and aerobic bacteria?

Answer : Add organic matter that already contains microbes. The simplest and most accessible thing in your conditions is to alternate in a garden or field where something grew last year: in one field, for example, a certain plant grows for one year, and then this plant is transferred to another place, and In that place, in any case, simple grass will naturally grow from seeds brought by wind and water. You can, of course, sow grass, but basically it grows on its own if you don't take care of the soil and this grown grass will become food for animals and then you need to graze the animals in this place all summer. It can also be birds: geese, ducks, chickens that graze this grass and cattle, which in the process of digestion, if they are there, will release substances of their vital activity. And this method is the simplest, since it does not require the introduction of artificial substances, which need to be purchased and sprayed with fertilizer from any microbes or bacteria, since all this is already present in the soil. You can, of course, as you do, also grow green mass from legumes or any other grass or wheat, for example. After all, any green mass contains chlorophyll, a copper compound, etc., that is, in any case, it contains the necessary substances and this mass can be mowed and buried. But all this takes a certain time for the green mass to turn into nutrients. And what comes out of animals and birds requires less time, since they have an active process in their intestines due to part of their own microbes. Therefore this method is better.

17:22 Growing biomass in laboratory conditions:

Interlocutor : Thank you for your answer. But recently, after the collapse of the Soviet Union, the number of animals has decreased so much that this method has already passed the stage for us. Therefore, I would like to get some advice, since we want to use a different technology. We have very few animals, we don't have any birds on our farm, although we have already started raising them, but this is still such a meager supply of feces from them, which we used to use as

fertilizer. And now we take a small amount of this organic substance, place it in water, add carbohydrates and a large amount of oxygen, and thus, within a day, maximum two, we can significantly increase and grow our biomass, which we dissolve in water, and then, through sprayers, we introduce it into the fields to enhance the work of the biocenosis. How can this work be further strengthened? And is this the right direction in crop production in order to increase soil fertility?

19:15 Comparison of different biocenosis methods

Answer : In any case, when you grow microbes in a test tube and then spray them onto the soil, these microbes must feed on something and multiply, even when there are no plants in the soil yet and survive those times when you have not yet planted the plants, and when they are still growing and developing. And if the soil does not have the ready-made organic mass that we talked about, it will be very difficult for microbes to survive in competition with each other. Of course, this will somewhat increase the soil fertility, but I do not see this method as better than what I suggested.

20:10 Method of fertilization using birds.

It is better to buy animals and send some of the workers to care for them. You can buy animals that are easy to care for, the same birds that produce the most of this high-quality biomass, and that eat young weeds well. These are usually geese and ducks, which can quickly restore the soil. You can temporarily fence these birds with nets and avoid hiring a person to herd them. Drive them out on a sunny day in the morning, drive them in in the evening, supply water and don’t give them a lot of grain, otherwise they won’t eat much grass. In addition, in 6-7 months you will additionally grow products to sell and pay for the costs of the same seeds. And after winter, you plant the plants in the same soil that the birds were on all summer and you will have a completely different result. And on top of that, you will also have funds from selling the products that you grow in the form of birds.

22:12 Increasing productivity through low-frequency generators.

Interlocutor : For a long time, scientists and I have been working on the

transfer of nitrogen-phosphorus-potassium information to plants. We took a small amount of fertilizer, made solutions, then used low-frequency generators and tried to transfer this information to the plants. Is this a direct way to increase plant productivity?

Answer : If you have the results of the protocols of these studies in writing, that is, a study of plant growth and the weight of its fruits when using the emitter that you named and the results for plants that were grown in the traditional way. Do you have test reports for different plant species so you can compare them? Because what you call a low-frequency generator that picks up the frequency of phosphorus, what you said, I haven't seen it personally and I can think anything, because the frequency can be encoded in different ways and it can be transferred in different ways. But, in any case, this will enhance the penetration of substances into plants and their ability to absorb substances already present in the soil. Because the installation itself cannot replace substances.

24:06 Helping plants through plasmoid civilizations

There are people who are contactees with plasmoids. You know, right? Some plasmoids, when communicating with contactees, can direct energy through themselves, through the hands of the contactee, precisely to enhance fertility. But this plasmoid energy is always directed not at the soil, but at the plants themselves: a person charges the seeds, charges the water that he waters, trying to communicate with the plant itself, and all plants have a special type of plant group Soul in which it is embodied, supporting energy through such energetic connections, for example, through plasmoids or people themselves who feel it. They configure the plant to take what is useful from a person. And this method is also effective, and your scientists are also researching this. If a plant feels positive energy, then on the same soil the plant will grow faster and taller, it will be more resistant to diseases, and it will have a stronger immune system.

25: 45 About plant immunity and their diseases.

After all, plants also have their own immunity to various unfavorable environmental factors, which include bacteria, fungi and pests, because the plant can also defend itself against pests, for example,

the plant can produce an odor that will be unattractive. That is, plants also have many methods of protection, it's just that in cultivated plants they are knocked down by a person who plants a lot of the same type of plants in one place, without combining them with each other, and carries out pest control on too large a scale. Man has disrupted the process of symbiosis with insects, with other plants, etc. If, for example, you see wild plants growing in nature in the same soil, you can see how many fruits, seeds, and green plant matter they produce without any human care . Although they are also affected by pests, wild herbs, trees, diseases, viral diseases, fungal diseases and others, microbes are also affected, especially without taking care of them. But this cannot be compared with what happens if you leave a cultivated plant without human care at all. That is, you see that the immunity of cultivated plants and their ability to adapt to the environment have already been reduced. Therefore, in order to get a good harvest, it is not so important to increase soil fertility, regulate temperature, regulate humidity and other environmental factors, but it is important to deal with the plants themselves: increasing their vitality and energetic communication with humans. Here it is already clear that such methods are no longer suitable for 2000 hectares, because you are growing in order to use these products in industry, of course. But for private farms that grow plants mostly for themselves, for consumption by their family members and only a little for sale - you have hundreds of thousands of such small farms all over Russia, and they are also looking at us now - and therefore personal contact with these plants.

29:00 Recommendations for interaction with plants

MidgasCaus : I can give recommendations in order to somehow interact and charge. This will increase the energy of the plant itself and its ability to adapt.

Interlocutor : Thank you very much. I listened very carefully to what was just said and I can say that for 30 years I studied with scientists and used my bioenergetic potential. We studied the influence on plants, the human biofield, studied the influence of other technologies, etc.

29:50 Interaction with plants through plasmoids

How can we contact plasmoid contactors directly in order to increase the supply of moisture to the soil in our Crimean conditions? How to contact, with whom and how to carry out this dialogue correctly?

Answer : You already know about the existence of plasmoids, and you already have enough energy to interact with them - you yourself and your friends, than to look for someone from the outside who will not come into contact, perhaps not will want to interact in the rhythm that you want - you and your friends can tune in yourself. Moreover, you love nature and this is evident from you and you feel many things, for example, it is evident from your energy that when you approach a small tree or bush, for example, an apricot tree, you can, by looking at it and touching it, you can understand what he's missing. This is also such an unconscious communication with plasmoids.

31:21 About the Soul of Plants

Because plant Souls, like animal Souls, are created from energies by plasmoid civilizations. That is, plants and animals are, figuratively speaking, their children. Because Souls incarnate there too, and a plant, as you know, is also a living organism: not a creature like an animal, but an already living organism in which there are processes of nutrition, reproduction, etc. This means that there is life in it. And where there is life, the Soul is embodied there. Therefore, in order for you to get in touch with these plasmoid civilizations that supervise the life of plants, try to charge water or seeds through these plasmoids, or the plants themselves, for example, walk among them. Although, there are many different ways and each plasmoid has its own. You or your friends who can tune in to contact can try to become these contactees themselves. There are also many different ways and usually this is done through the Higher Self. The request goes to your Higher Self, and if you want this and match your vibrations, and I feel that this is possible, a plasmoid curator is invited.

33:13 About the use of earthly plants by representatives of other civilizations.

Interlocutor : Thank you very much for your answer. Do representatives of your civilization grow food or its elements on Earth, which they then use for their needs? Esler's and maybe other

civilizations that MidgasCaus knows.

MidgasCaus clarifies: Do you mean on the surface of the Earth or at our bases, since these are different things?

The interlocutor explains: On their planets and, in part, by growing these products at the bases or processing these products, delivering them to the base?

MidgasCaus clarifies : Do you mean, do the Eslerites or other civilizations grow plants from their planet on your Earth?

The interlocutor explains: Yes, on our planet, and then they are used. Or, on the contrary, are our plants grown and used for their own needs?

Answer : More likely, the second one. We study plants that suit us in terms of microelement composition, at least with the same energy. After all, we are similar in that we breathe oxygen, we are similar in many ways in nutrition, but not all of them, of course, since our soil and water contain macro and microelements in a slightly different ratio. And many of your plants and their fruits, not all, but many, will not harm us, and we will not be poisoned by them, but without special additives they will not bring us the same benefit as our plants, because they will not have the microelement composition especially if we constantly use them.

35:35 Use of waste products

Interlocutor : Thank you very much for your answer. I knew a representative of the Russian cosmonaut corps. And he told me that, while in space, they use processed products to support life. What waste products do representatives of other civilizations use during long flights in space?

Answer: We do not have such long flights that we need to use processed products. In any case, even at space bases that are located in open space or on large asteroids, where there are no own resources

necessary for life, no oxygen, water and other substances and energies we need, we most often use water and oxygen. We bring it on other ships in containers. Because our movement through space does not involve such a large energy expenditure as the recycling of substances released from our bodies, as is the case with your astronauts and long-term sailors who also use similar products. But the employees of the Interstellar Union do not need this, because it is easier for them to bring everything they need on ships that operate on gravitational engines, where there is rapid movement, and energy production does not take much time and resources.

38: Protecting plants from frost

Interlocutor: Recently, especially after the beginning of spring, we have been experiencing large frosts. Every year a large number of plants that could bear fruit are lost. Fruit orchards froze in large quantities this year. How to protect yourself from frost?

MidgasCaus : This is the question that I talked about earlier and it is, in general, about adaptation to the environment. You say that some of your crop plants were damaged by cold. But, if you look at the wild plants around them that have been at the same temperature for such a long time, you can see a completely different result: they are more adapted to frost. And because of the problem that I voiced earlier, that their seeds contain such genetic information that they are protected from the cold. Another very important role is played by what kind of plant it is, and what we are talking about in general.

Interlocutor: We are talking about fruit plants: this is a peach, this is a plum, this is a pear. The apple tree is to a lesser extent, since it has a later date. We use smoke, but it is so primitive. Maybe offer some more advanced technologies than our earthly ones.

Answer: More advanced ones are growing indoors. Smoking can only be used in small areas because the smoke is warm and if you burn the substance that is smoking, wet leaves, etc. And the warm smoke that rises will temporarily warm you up. We need to maintain all this until the frost disappears. But this is only possible in small areas, because you can’t spread that much smoke, for example, if it’s a whole garden, then it’s difficult to do, it needs to be constantly maintained, the smoke

actually dissipates. But, here, if you have such an area that plants often cannot withstand when there are late frosts, then you need to grow plants only in sheltered places or when there is a forecast that this is possible, before doing so, use mechanical means of protection that will not allow the blooming ones to die buds, flowers, etc. That is, use some kind of covering measures that will help the soil not freeze, and this depends on the amount of moisture and light. You can cover it with something like straw.

Interlocutor: I understand. Thank you very much for your answers. I am very glad to meet agronomists from other planets and other civilizations.

Irina : MidgasCaus answered as many questions as briefly as possible.

Participants: representatives of the Interstellar Union and an interlocutor (agronomist) from Crimea.

#104 Conference of contactees with extraterrestrial civilizations in St. Petersburg (Part 1)

https://blog.cassiopeia.center/konferenciya-kontaktyorov-v-spb-chast-1
https://www.youtube.com/watch?v=d6yAWUzWjXE

00:00 Start of video

Maxim Rusan : I am a lawyer, economist, psychologist by training, I am involved in esotericism, energy practices and all sorts of nonsense in my life until this moment, until I met Irina. And I've been living with aliens for a year now. I am not kidding. That is, every day, I see structures, I see work, I understand who comes, how they come, why they come, why they come. In my entire practice, in my entire life, Irina is the only person through whom all my questions were answered. Therefore, I would like to introduce you to Irina Podzorova.

I will be leading this event a little today. I will try to conduct it as best I can, in a more homely atmosphere, so that everyone feels comfortable, so as not to turn it all into pathos, into some kind of game and all sorts of things that are unnecessary to us.

I would like to ask: are there any doctors among us? Raise your hand if there are doctors. Any esotericists? Eat. Moms, do you have parents? Hands up. Intelligence agencies, raise your hands. Excellent, excellent, the most important thing is to confess on time, because I know what confidentiality of information is and especially for representatives of the intelligence services I want to say that we are not a sect, we have no desire to create a new religion, we have no desire to unite people into any -incomprehensible groups to achieve some financial goals...

02:30 About the CASSIOPEA project

In general, the meaning of the entire Cassiopeia project is to teach every person to communicate with their Higher Self. Imagine, just teach every person to communicate with their Higher Self, that is, to communicate with their spiritual structure, which, unfortunately, many of us we forgot that we have it. We, unfortunately, are very material, and if we see, then it exists for us, but what we do not see does not exist for us, and in fact, everything only comes from there. All the energies, everything that surrounds you, you yourself, everything that even surrounds you here. It's for you that I was created, you created me. Therefore, the goal of the project is to give people the knowledge that we receive from our interstellar friends.

What does interstellar friends mean? Our Galaxy and not only our Galaxy - it is very alive. And through Irina, we had the opportunity to receive feedback from a large number of representatives of various kinds of civilizations. I won't tell you from which civilizations - I hope you have watched all the videos, you understand everything perfectly.

Oh, yes, here's the most important thing: our interstellar family is still present with us - little by little, when we began to project, we began to find each other. I won't tell you all the secrets where we docked and collided in past incarnations...

04:07 Presentation by Vladislav PULSAR

I would like to introduce you to Vlad Pulsar. Generally a wonderful person. When I saw him for the first time, I realized: "Exactly, I know him." Vlad, please introduce yourself, what do you do in general?

Vladislav : Good afternoon, my name is Vladislav. Better known as Pulsar, and I have a channel "Pulsar" - maybe someone watched some videos or some of them even learned something. My main task is not only to teach a person to interact with his Higher Self, but also, among other things, the basis of what I want to do for the next year is to increase the level of education in the esoteric space. Not only through the presentation of some mystical knowledge, which is very difficult to verify, but also through the natural sciences, therefore, if someone wants, in the fall we will start a project for teaching natural sciences for those who, for example, go into healing or channeling , or just evolves in some way. In order to improve your level in standard

biology, standard geography, standard physics, astronomy, we have come up with such good courses. And if anyone has a desire to teach something in this form for our Russian, Russian-speaking esoteric space, then please write, contact either Maxim or me.

Maxim Rusan : Vlad is our contactee. He is in contact (he is very modest, he never talks much about himself) with the spiritual world, he is in contact with subtle civilizations and with humanoids. He is an absolutely universal contactee and has the ability to communicate at the level of consciousness with various subtle and not only subtle structures.

05:55 Presentation of Aunika

I would also like to introduce you to the fact that we still have Aunika on our interstellar family. She writes music. She says: “Maxim, tell me everything for me, I can’t, I don’t know how to communicate” - in fact, she can do everything. She will tell you a little, and then I will add to it.

Aunika : Hello, dear soul mates! I think that everyone who was here, and everyone I felt, and I always felt closeness in transpersonal influence and communication. It was an interesting feeling, because it seemed to me that I knew everyone I touched. I know this structure, I feel it, we are not just all gathered here, but in order to raise each other’s vibrations and help each other. I am engaged in transpersonal restoration, a team of cosmic doctors from the Pleiades, cosmoenergy specialists, helps me with this. On their planet, this is the main method of interaction, influencing human structures, meridians in general, different structures at different levels. Medicine is different from ours, of course, and I think that we will all come to this, this is the medicine of our future.

I also write music. My name, given by dedication, is Aunika. In fact, my name is Larisa Nazarova according to my passport. They call me that when I write this music, that’s how they address me in a subtle way. And I took this pseudonym for myself, because in fact Larisa Nazarova does not write music. Probably, since I am built on a subtle level, from the space where the music came from, I cannot appropriate it to myself as an individual, which is why I have the pseudonym “Aunika”.

We write music with PiosNiOr - this is a representative of the planet Esler. He was Helena Blavatsky's curator. He is a philosopher, a specialist in the transmission of thought images and thought packets, thought forms, figurative representations, figurative states - what we call materialization and something like that. Very wise, very mature, and therefore he always says such things through me, and even I myself am surprised at how much subtlety they have, how they are built very subtly on Esler, with regard to the relationships between beings. Of course, we need to learn this and I hope that they will teach us this. So, in short, about myself.

Maxim Rusan: Everyone is so modest: Larisa writes music in the flow and is engaged in transpersonal restoration through the energy of the Pleiades civilization. That is, there are different groups of civilizations there, they come upon request, look at a person's energy and through Larisa they accordingly attune to the energy of that person and engage in harmonization and restoration of energy.

09:26 Guzel performance

I would also like to introduce you to our beloved Gulechka. Please tell us what you do (this is also from our interstellar family - by the way, we also found each other recently: at the last session with Gulya, I actually flew away somewhere and didn't want to return from there for a very long time).

Guzel Malyarova : Good afternoon everyone! My name is Guzel, my last name is Malyarova. I am a doctor by first education. In general, I probably worked a lot towards this, and studied Vedic astrology and all Vedic areas. And at some point I became interested in how people can be helped not with pills - to restore health, youth, beauty. And I went to study osteopathy.

Then, when I began to treat, I saw that I didn't need to do anything with the person at all - everything happened on its own. Each person begins to heal himself, and he heals by doing yoga exercises, qigong, pranayama, folding mudras, and this makes the body in such a relaxed state, in a normal state it cannot do this, sometimes even physically.

And I began to wonder who was helping me, what higher powers were helping me, what was happening. The answer came in the form of Irina - that the Pleiades system is also helping me, they call it the intergalactic medical service. And they help to treat a person, and the person heals himself, learns to heal and restore himself, because they are not treated with any pills, that is, a person is trained in self-healing. Then, when the physical body, the subtle body, is restored, it is integrated into the matrix of the universe and the person acquires abilities.

Someone begins to heal in the same way, someone acquires the ability for clairvoyance, clairaudience, claircognizance, because he becomes in harmony with the Universe. And this happens as a manifestation of his talents. Some people start painting pictures, some people start writing poetry. That is, when a person is completely harmonious, he manifests himself as a personality, as a creative principle, and this happens in a very interesting way. There is something inherent in everyone.

How children behave during sessions is also very interesting. Children do asanas, fold mudras, chant mantras, no one taught them this, it all happens during the session. I have about 10 thousand videos, various confirmations of what is happening to people. It's like a miracle, there's no other way to describe it. The energy-informational structure of the entire person is being restored. Well, that's it in a nutshell.

13:13 About contacting, faith and transition.

Maxim Rusan : Here in the hall I see those people who also work as a psychologist, and as an energy practitioner, and as a contactee. But in fact, we are all, of course, contactees, because even contact with our Higher Self is contact with a higher spiritual structure with which we can enter into mutual contact. The Higher Self is the structure that knows absolutely everything: tasks for embodiment, previous lives. And, in principle, if you find contact with your Higher Self, with the light that you have, then your life becomes more conscious, it becomes more pleasant and adequate to perceive, the energies that surround you, you begin differently perceive.

And most importantly: I would like to thank Natalia, she invited us all,

we are very grateful to her, because I have dreamed of such a big conference for a long time. The fact that we have gathered here is really cool, and thank you all so much for coming here, and even if someone doesn't believe in something, you try to believe in it.

Believe me, when I met Irina, I doubted all this for a very long time, I was such a materialist, for me money always triumphed over evil. I knew there was a God, but somewhere. It's definitely not with me, I wore a cross and thought that all my sins could be paid off with money. And, at one fine moment, when I began to communicate with our interstellar friends, every time doubts arose, doubts, and they were thrown more and more and more. And, at one fine moment, after communicating with Mirah Count in the kitchen. Yes, we sat and talked with Mirakh Count. I had a very interesting personal question: I couldn't stop hanging out with women. I'm absolutely open. And I'm with Mirakh Count through Irina, but I don't feel comfortable asking Irina, and Mirakh Count says to me: "Do you want to talk in person?" I say yes".

And then it happened, like in that film with the black woman, when Mirah Count enters Irina, and Irina opens her eyes, and I see that it is not Irina. I'm in tears (seriously, I've never cried), I'm in tears, I'm starting to get scared - no, it can't be, I've only seen this in movies. And such a reverse dialogue, I sat there, I understood everything, he explained everything to me so well. I seem to be a psychologist, but I didn't understand such simple things. And then, accordingly, he leaves Irina, Irina comes and asks me: "Max, why are you crying? Mirah Count, why did you make him cry?" And I cry, I sit: "Irin, everything is fine, everything is fine." And I came up with this phrase: "Now I believe that I believe!" And from that moment I completely relaxed, and I clearly understand that all this exists, all this exists.

Ask: "Isn't it profitable for the state to show it?" No, it's just that the state clearly understands that people are not ready yet. This quantum transition, which all the esotericists are talking about, guys, has been going on for two thousand years, this quantum transition. And Christ, when he came here, he still knew that he would prepare those who were sitting here. And how long this transition will last, how many energies will be replenished - everything will depend only on us, on our level of awareness and perception of what is happening around you. This is a small introduction.

16:52 Conference plan. Participating civilizations.

Let me announce what will happen at the conference today. Mirakh Count came to see us last night and we were deciding what we would do today. Initially, we invited six civilizations. The first to arrive at 12.00, we agreed, will be Mirakh Count, representatives of the Burkhad civilization. Does everyone know who the Burkhadians are? Burkhadians are one of our creators, they are very similar to us, with white skin, long white hair, and large blue glowing eyes. These are some of our creators. There are three races of them: the first race is the Burkhadians, the second race is the Tumesoutians. These are exactly the giants who lived in the pyramids that were their homes. Then, after they left the Earth, people built pyramids for themselves according to their designs, thinking that they would join the gods. And, accordingly, the Selbet civilization. This is a reptilian civilization, we have 5% of them. This coccyx, which is called a rudiment, is precisely the 5% that remains with us from this civilization. I joke so figuratively, but there really is some truth in this. And these crazy actions, parachute jumping, go straight ahead. It seems to me that we Russians have enough reptilians, we are quite charged in this regard. Sometimes we think more emotionally than with our heads about what to do next.

Is it clear who the Burkhadians are? Some of our creators. That is, in that monkey, which used to be a humanoid creature, the genes of three civilizations were put into this primate. And, accordingly, then we were modernized. We had a war here, all sorts of different maneuvers, but in the end what happened was what happened. Here we are, we are their children, they treat us like children.

And for a very long time I did not understand who these subtle-material civilizations, plasmoid civilizations were. I kept wondering why they were interfering. All the time “don’t eat meat, don’t do it, the earth is flat.” They really give all this, but they see it this way, at the energy level it really looks real. That is, if we now turn into an energy ball, then everything around us will be seen as energy. The earth will truly become flat for us, and wherever we move, it will be flat for us. Why? Because they cannot go beyond a certain energy of the Earth, the ionosphere, that is, they are spinning nearby somewhere. Well, then, when I found out that these subtle civilizations helped create this humanoid, I was very surprised, that is, they are also our parents. And many civilizations that are present here help us. That is, how parents

help their children - to grow, develop, receive some information, gain some knowledge, gain experience.

And, in addition to good civilizations, there are, accordingly, destructive civilizations that feed on very low vibrational energies. Emotions that we constantly highlight. We constantly project fears, resentments, hatred, anger - these are precisely the low-vibration emotions that are the fuel for destructive civilizations.

So now representatives of Burhad and representatives of Tumesout are already present. It will be an hour and a half - you can ask absolutely any questions that you consider necessary. That is, a question arises of a personal nature, not of a personal nature - you can ask. Then there will be a break.

After the break, we invited here representatives of the Shimora civilization and the Esler civilization. A specialist in astral interactions - this will be LiShioni, and a specialist in energy-informational structures, diagnostics, doctor, biologist, psychologist - MidgasKaus. He will also answer questions, because many here have already been diagnosed by him, and then I will definitely ask for feedback from any person who wants to give about the diagnosis. Someone might have passed it before, someone might have passed it on Skype, someone else might have passed it somehow – that is, I'll get it.

Then further, after the Shimorians and Eslerians visited, we gave the Tikhtians the opportunity to come (they asked for it themselves; by the way, we did not plan for them).

13.00–14.30 – Burhad, Tumesout. Then we have a break - 14.30–15.00. Then from 15.00 to 16.00 we have Esler and Shimor, 16.00–17.00 - we have the Ticht civilization (a civilization that is engaged in restoring the planet's ecosystem or generally terraforming planets; you can ask questions about ecology and everything else, they are very well versed). Futissa civilization and Hekor civilization. The Gekorians are the ones who gave Petrov cosmoenergetics, that is, they passed on channels to him, they transformed him, so that he could continue to study and pass on this egregor to earthlings. This egregor is quite strongly developed on Earth due to Petrov and Bagirov, who broadcast it.

I left you a snack at 18.00–20.00 - these are the Tashigan and Selbet people. I didn’t immediately call them, I didn’t immediately bring them. Why? Because the energy of the Selbet people is quite complex, I just know it from myself. When the Selbet people come, I feel a little nervous. Confident, well-built energy, it seems to me that I am communicating with a serious warrior when they come. So let's probably start. Ira, who has come up now, who is present?

Irina Podzorova : I want to greet you all again. Now a representative of Burkhad is present with us - Raom Tiyan came up, and two representatives of Tumesout came - one is called Tiar, and the second is called Pulinaru. Tiar is a specialist in creating mental images for setting up channels for earthlings, that is, to put it simply, he is a specialist in mental contacts, and Pulinaru is a process engineer, a specialist in creating robotics. And he was at one time in the 20th century for several years a representative of Tumesout, who operated a base on Earth, in the territory of the former Soviet Union. And now, most of the time, his physical body is at the base, on an asteroid that orbits the star Sirius B.

24:56 Formation of high spiritual relations among residents of highly developed civilizations.

Vladimir: My name is Vladimir. I think most people already know that Burkhad and Tumesout have a very highly developed civilization. Without high spiritual relationships this would be impossible. How were these high spiritual relationships formed among the inhabitants of these planets? This is the first question.

Irina Podzorova : Raom Tiyan, how did you develop high spiritual relationships that allowed you to reach such a high level of development of your civilization?

He says this: the existence of our civilization is about 20 million of your years. Considering that your hybrid civilization has existed for 3 million years, we have existed much longer. And during this huge period of time in the material world, our ancestors, in your simple earthly language, tried all forms of social relations, social structures, economic structures. We had a lot of time to make mistakes and to realize them.

Now you are following the same path that we walked, but you have a slightly different vector of direction for the development of your civilization.

How is it different? The most important thing is in technical equipment, in space exploration. For example, the civilization of Burhad did not physically go into outer space until all wars and all kinds of civil unrest were eliminated. As you know, on Earth everything happens the other way around, that is, your technical development is ahead of your spiritual and moral development. This is what becomes the soil that feeds the materialism of your perception, and this is what poses a threat to the existence of your species. That is why the Interstellar Union has decided not to transfer any new ultra-high technologies to you until laws prohibiting external aggression are fully adopted.

And you may ask how we lived and traveled around the Galaxy back then. Our civilization initially had the idea that so-called spiritual travel, in the spirit that you call astral in modern Russian, had advantages in space exploration before we created physical spaceships. And we have been in contact with the inhabitants of other planets on the astral plane for a very long time, but we did not physically go out ourselves, because we decided not to be distracted from the problems of our planet and not to go into space until we solved the problems on our planet.

You are going in the opposite direction of this, because you have entered outer space and not only to your natural satellite the Moon, but you also have programs to develop flights to other planets, without having yet solved the problems even with wars. I even know that in some of your countries there are laws on the death penalty, which indicates a very great disrespect for the life of a rational being. And I believe, and many representatives of the Interstellar Union believe that with such a consciousness, the exploration of the Galaxy and even your own solar system is futile.

We have come a long way, but it has been covered only because we have prioritized spiritual improvement over material acquisitions. I won’t say now that it was simple, but any experience enriches the development of either an individual or a civilization. Therefore, I urge you, everyone who can hear me now, and who will listen to the video recording, to ensure that your society as a whole reconsiders its

ideology.

It is ideology that becomes the leading driving force in the development of civilization. In the ideology of any state and community of civilizations, and community of states that exists on any planet, for its successful development, including technological and materialistic, the ideology of any civilization must be based on the idea of the spiritual world. If this is not the case, then the entire development of outwardly beautiful things, outwardly useful things that are beneficial only for this very existence in the body, it becomes meaningless at the highest spiritual level.

31:15 How is planetary management carried out on Burkhad and Tumesout?

Vladimir : I see. Without ideology there is no education, so it is the most important thing. I have another follow-up question: how is planets one and two currently managed on these two planets? That is, in what way - living on these planets or through their representatives, because the spheres there are huge: culture, ecology, and education, not to mention the socio-economic aspects? And can I visit, if not physically, then in the astral plane, these two planets?

Irina Podzorova : Good question. The first question is: how is governance carried out in Burhad and Tumesout?

Our representative from Burkhad, Raom Tiyan, will be the first to answer.

Our system of government is very similar to yours, in the sense that we have a single leader who is also elected. But he is elected for a longer term by all representatives of the planet. I remind you that there are currently intelligent beings living, the population of Burkhad is about 25 billion. This is not counting the colonies, of which we currently have 367 colonies in our Galaxy alone. And the leader of Burkhad does not rule the colonies, each colony is independent.

Elections are held electronically, as on many planets, such as on

Esler, that is, this can be vaguely called your computer systems, but every choice of a citizen of the planet is recorded there in an automatic system. And this is how the choice of leader is made, but according to our law, it must still be approved by the Interstellar Union. Each planet that is part of the Interstellar Union, which consists of 116 civilizations. The government of each planet included in this union approves of each other. This is such a union of civilizations, and all such decisions are approved by us already in the union.

The representative of Tumesout is Tiar.

Here they are controlled by the Council of the Planet. Very similar to Esler in this regard - there is no single leader. There are also about 28 billion inhabitants of Tumesout. The planet is a little larger in area, and there are underground floors (multi-story buildings go many floors underground), and their Planetary Council consists of 28 representatives, who, to put it simply, are selected from each region, and they are also approved by the Interstellar Union. And according to the general law of the Interstellar Union, if the policy of any ruler of the planet or the Council of the Planet goes against the inhabitants of the planet itself, then the inhabitants of this planet report to the Interstellar Union, a special commission arrives and can even result in removal from power until new elections. Or they are offered a choice either to remain in the Interstellar Union or to leave it if they do not want to remove such a ruler, that is, if this would violate the laws of the Interstellar Union.

And they, despite all the apparent softness, are quite tough in relation to crimes against the people, because our ancestors, representatives of our law-making structures, believed that indulgence in the base qualities of the spirit can only develop them, and therefore they adopted only such laws that contribute to the development in a society of spirituality, tolerance, love, understanding. And they placed these laws in priority over laws, for example, on trade, on security, etc. and so on. That is, I think the general thrust of the laws is clear. Everything, of course, as you correctly noted, begins with education, because education is the basis for the formation of society.

Raom Tiyan says that in the Interstellar Union, in the vast majority of civilizations that I personally know, education is based on spiritual knowledge. That is, every member of society who is a child (in your

opinion, a minor resident) and who comes to school (I will immediately talk about earthly concepts to make it easier) is immediately explained to him according to educational standards that he is an embodied spirit from the spiritual peace. And he has his own tasks here, failure to fulfill which will lead to his degradation. Degradation will lead him to a decrease in his own vibrations - this does not mean physical, not material vibrations (the word “vibrations” is used here in esotericism by analogy), but vibrations are those qualities of the soul that allow him to be either in the energy of light or without it .

All this is explained by examples, shown, among other things, by historical examples of our own civilization, which raise their children, their future citizens, or by examples of civilizations that exist on other planets. That is, they have such a subject as the history of the Galactic Union, and they examine the case when this or that group on this or that planet prioritized the acquisition of material wealth, sacrificing spiritual ones, and what could come of it. That is, history as a subject —the history of one’s own civilization, even the Galaxy—also has not just informational significance, but also spiritual and moral significance. And it explains why it is so important to have these spiritual guidelines, because raising one’s vibrations, that is, increasing one’s qualities, is endless, just as the creator of the material world and the one who supports it are endless. It is explained that he not only exists, but is also the root cause of this world, its original source.

And the global task of all of us, the intelligent spirits who are here, whether we are embodied or not, is to endlessly approach this source, since this is exactly what was intended at our birth. This is what brings us true happiness, satisfaction in our lives and fulfillment of our purpose. As for all material goods, material technology, science, economics, sociology - all this is only a means for more successful development of light energy. And this is explained to every child who has incarnated in the worlds of the Interstellar Union.

40:36 Is it possible for an earthling to have physical contact with representatives of civilizations included in the MS?

How can he contact? For physical contacts, I do not personally make such decisions; for this purpose, there is a special commission of the Interstellar Union, which considers each candidate for physical contact. In general, not only to visit Burkhad or Tumesout, but also to simply

visit our ship, for example, the Luna base, or even just physical contact. I am a member of this commission, but I am far from the only one there, and in order to receive this approval, you must, firstly, meet the conditions of a physical contactee - they are known. I don't know whether Irina will list them or not, because in fact they have been designated for a long time by her curator from the planet Daraal Kirchiton and are in the group, but if there is such a request, then, of course, I will name them. This is the first, and the second is the understanding by the Interstellar Union commission of why contact is needed, namely physical. That is, there must be a serious reason for this. And the third criterion is not only physical and psychological readiness, but also the coincidence of the vibrations of the physical body with alien representatives who will make physical contact so that no harm is caused to physical health, for example, from the energy of the ship or its inhabitants. Because physical contact is a rather serious energy load, for which the body must also be prepared, and therefore physical contactees usually become like this in childhood.

As far as I know this practice, why does this happen? Because the contract for physical contact is carried out in the spiritual world before the incarnation of the contactee and the curator who comes to him physically. Well, of course, there are cases of physical contact in adulthood. This is usually done so that a person can experience the universe physically. But in many cases, mental or astral contact is sufficient, which is why out of 42 civilizations that officially have contactees on Earth, only 6 of them make physical contact.

Yes, they include Burhad. We have a representative from Bergastre, who is a specialist in physical contacts. He and his group have several ships, and if you want to make contact, you must first voice your goal of physically visiting our planets. And then, if this is necessary for our and your general development, and if you are ready for this, which is checked, among other things, by contact with your Higher Self. Does this generally correspond to your task of incarnation. Of course, if necessary, it will be carried out within the time frame necessary to prepare the place, time, etc. so that the ship could be sent.

As for astral contacts, they are carried out without any not only permission, but even notification of the Interstellar Union, because this decision is made by a specialist in astral or mental contact. Because its implementation does not require equipment, no technical equipment, selection of a location, protection of the ship from radars,

etc. In any case, astral contact is carried out without notifying the Interstellar Union, that is, it is not prohibited. And the specialist who will do this makes the decision himself what to convey, what information, how to do it, when to come, at what time, how to set up the contactee - this is his full responsibility.

45:43 Why were religions given and how relevant are they to us today?

From the spot: We were talking about the spiritual guidelines of humanity, but those religions that were once given to people, do they serve the same function now or are they already outdated? Maybe there are some tips? But the New Age, which appeared as one of the last religions - is this also given as a tool to help us? So what can we focus on now?

Irina Podzorova : Raom Tiyan will probably answer, as far as I understand. Why were religions given?

Raom Tiyan says that he must clarify: by the word “religion,” do you mean simply their ritual side or the path of development of higher consciousness?

From the spot : Probably, everything is together here. It’s just that now, it seems to me, a lot has been lost from what was once upon a time, and they have ceased to be reference points for many. Are those concepts now outdated for us, for our level of development or not?

Irina Podzorova : I will say this: I understood your question. There are 7 billion inhabitants on your planet who are at completely different levels of development, spiritual, moral, social and intellectual, of course. I cannot say that the religions that exist now are outdated for everyone, but I also cannot say that they now represent the same value for everyone - people have very different levels of development. Different religions, different nationalities, different languages were introduced into your society, including with our help. With the help of Burkhad, representatives of the Pleiades and some other civilizations, including plasmoid ones. So that you, having in your genetics 4 different genotypes, 4 different energies, that is, three from other

planets and one from your animal primate, can, having also various teachings, political and economic systems, nationalities and languages, learn, pass a lesson on your planet to fight your own pride, xenophobia, fears and rejection of what you don't understand.

Well, speaking globally, this is a fight against your instinctive manifestation, self-defense, self-preservation instinct, herd instinct and many other instincts, which, according to their program, reject everything incomprehensible, considering it unnecessary. I believe that it is precisely this function of religion that has been preserved in full, since you have not yet gone through this lesson (I don't mean you as an individual, but in general you as a community, your earthly civilization). You have not yet completed this lesson on developing that tolerance, understanding and acceptance of incomprehensible, alien ideas that are called upon to pass through. This is the first thing.

The second is the purpose of religion: to give your, as I already said, materialistically minded world in such a simple, understandable and convenient form the concept of the spiritual world. And if there were no religion, then your civilization would develop in a different direction, there would be much more materialism and non-acceptance of spirituality than there is now. And any society of rational beings, since they themselves are a combination of spiritual and material natures (every person is both a spiritual and a material being at the same time), therefore it is impossible to exist completely without religion. In any case, it will exist in one form or another. If by religion we mean the doctrine of the spiritual world.

As for religion as a system of dogmas and canons that protect it from the penetration of ideas alien to it, we need to understand the evolutionary meaning of the development of this mechanism. It lies in the fact that in the astral world, that is, in the spiritual world, in one of the areas of the spiritual world, which is called the astral world, there is an energy-information formation called an egregor. Any egregor is created from thoughts and feelings that are similar in their vibrations. And if this egregor is large enough, that is, many people produce energy for it, then, one might say, personality traits awaken in it, but it does not become a fully living, intelligent being, but it becomes a thought form that can manifest some programs.

Since people on Earth themselves, as I have already said, are

charged, among other things, with instinctive programs of self-preservation, then, by charging any of their egregors in the noosphere of the Earth, they charge it with this energy of the instinct of self-preservation. This is inevitable because you are this way by nature. And that is why the egregor, becoming large enough, begins, in plain language, to protect itself from the penetration of alien ideas, in order to remain in existence. This is instinct. And it was created by you in any religious egregor, and this can manifest itself in different ways.

In some religious teachings, this may be manifested by teachings, canons, that only one religious direction, for example, exists that is pleasing to God. Some other religious movements may emphasize that all religious movements are pleasing to God, but one of them develops the most, for example, raises vibrations the most. Still other religious teachings may believe that in general only one religion has the right to exist, and all others must be completely destroyed, since they not only do not benefit, but cause harm. This depends on many factors, on the participants of one or another egregor and on the manifestation of this egregor through the consciousness of each person who enters it.

And the perception of religious ideas, as well as any moral, cultural and scientific ideas in general, it very much depends on a specific individual, since, even reading the same book, very simple in subject matter, each person will perceive it in his own way and make up his own opinion. And even more so, this is very clearly visible when it comes to such complex texts as religious ones. That is, if, for example, the same Bible or Koran or Vedas are read by ten different people, they will have completely different conclusions, and they largely depend on the spiritual experience of the person who reads these books.

You should always remember that these texts were written down by people and are very often written down by people, almost always by those whom you now call contactees. These could be contactees with humanoid civilizations of antiquity, in your history, and contactees with plasmoid civilizations, that is, subtle-material civilizations, and contactees with the spiritual world. But most often, contactees formed relationships with one, and another, and a third at the same time. Why? Because every contactee, and this is a person, has naturally or artificially increased sensitivity to the manifestations of the astral world, through which there is a connection with astral bodies or with subtle beings located around him, but not recorded by your ordinary senses

of the physical body. And, as Maxim already said, in reality, each of you is a contactee. Why? Because each of you is not only a body. The body itself cannot be a contactee. He has receptors that perceive only the material world. But you are not only the body. Each of you is also a spirit, and the spirit has its own receptors that perceive the spiritual world and subtle civilizations.

That is why an intelligent spirit, embodied or disembodied, cannot help but be a contactee. But contact occurs at completely different levels of awareness. What is mindfulness? This is the understanding that thoughts, feelings, mental images are something external to the individual and the ability to display them in speech, for example, either written or oral. And awareness is really different for everyone, it also depends on many factors, and I think we will talk about this further, since I feel from the energy that this issue is of interest to many who have gathered here.

And just know that everyone who is here is here for a reason, there are no coincidences. Everything that seems like an accident to your earthly eyes was planned by our mentors in the spiritual world even before our incarnation. And everything has only one goal - increasing the level of awareness, raising one's vibrations and developing in oneself that only energy that supports the whole world and allows us to be happy - this is the energy of love, which is perceived in the spiritual world as a bright white light. The light that you now see with your material eyes is only a reflection, a weak semblance of the light that creates us all every second and supports our existence.

58:10 What or who is God, what to call him, where is he? How does he control all civilizations, galaxies and universes?

Man from the seat : Here is God. Where is he located, geographically or remotely? What should it be called: the One or the Absolute? What should it be called and where is it located? Because I heard a lot of different versions, that well, very far, at some very long distance, where, if you climb into the astral plane, do you fly there and fly in a time period for a very long time?

Maxim Rusan : Actually this is really important, I will explain to you why this is important. It happens that a person has a question, it

seems simple for everyone, but for him it is so relevant that it is the meaning of his life. How many times have I heard simple questions at conferences? The very first conference we held, I had just met Irina, I walked around with my eyes bulging out like that. I thought: “It can’t be, it can’t be! We urgently need to show it to our friends!” I gather friends from the administration, from the prosecutor's office, from law enforcement agencies. That's it, I collected them. Irina talked for four and a half hours about the structure of the universe, how the planets work, where she flew, where she saw what. Four and a half hours. I sat all inspired and waited for the questions to begin. Let my friends think I'm crazy, but they should know this for sure.

That’s it, four and a half hours pass, I say: “Guys, now you can ask questions.” The woman raises her hand: “Why did my dacha burn down?” You won’t believe it, I actually sat down, covered my face with both hands like that and thought: “Oh my goodness, he brought people here. What will the aliens do? What will they answer? But the answer was so life-affirming that after that she cried for an hour and a half and then walked around at the end of the conference, I don’t know, I had a feeling like priests, she constantly kissed hands, said: “Thank you very much, thank you very much.” . Therefore, any question that is raised here will be very vital, very important, no matter how it sounds, and no matter where this dacha burns down.

Woman from the seat : The question about God is actually very interesting, because I myself, although I know a lot of things, but this question constantly arises. How can he control all these civilizations, these galaxies, universes? Where is he anyway?

Maxim Rusan : Did I understand correctly: who is God? Now a specialist will answer, it will be his personal opinion, the opinion of his civilization or his personal opinion. Who is God and where is he anyway?

Irina Podzorova : Thank you for the question. Raom Tiyan understands him perfectly. In general, the question itself is where God lives, why can it arise in a person’s consciousness? It can arise due to the anthropomorphic materialistic concept of God as the same being from some material substance, but only living very far away. Yes, there are religions that present information in a simplified form. Or religious figures who represent God this way, as a certain being who lives in

Heaven and looks at Earth. Anthropomorphic type, that is, like a person.

From the spot : Is it energy or essence?

Irina Podzorova : Yes, I will definitely answer this question now. To answer your question, you must first explain why and why anthropomorphic ideas arose, which give rise to such questions. Anthropomorphic ideas arose due to an inevitable property of your consciousness, namely the idea of spiritual things as some beings or objects.

This begins in childhood and is brought up, for example, in stories, parables, poems, fairy tales and so on. You explain complex concepts to children, also in the form of fairy tales, for example, understanding by images of animals, natural phenomena certain phenomena in society. Mythology works in exactly the same way, for example. That is, the gods are represented in the images of people who live either in a separate country, either on a mountain, or on an island, and who sometimes come to people. You understand that this is a form of presenting information in order to convey complex concepts through figurative form, the form of metaphors, with which people are still unfamiliar due to their development, for example, spiritual development in this case. It is precisely from this spiritual root that the anthropomorphic idea of God grows.

Then what is God if we drop these ideas? Who is this and what is this? If I speak, again I will inevitably simplify. Because to express in words in Russian in terms of the three-dimensional world the concepts not only of some dimension, but of a being that is outside all dimensions and which is outside all types of density of matter, outside matter in general, and which is not just outside matter, but which supports its existence, and speaking about it in the language of a simple Russian person can only be done by greatly simplifying it. Still, you can indicate a few words and concepts related to this creature.

The first concept is the very concept of “God” as a person, as a being, the Absolute; it is completely unknowable for that form of consciousness that is embodied in the body, for completely objective reasons. That is, what is completely unknowable? We can only create

ideas about it. Second, God is simultaneously nowhere and everywhere. What does it mean? This means that everything that you see now, all objects, the Sun, air, water, artificially created material objects around are an infinitesimal part of the thoughts of God, which have acquired a dense material form for perception by your receptors. You are now inside one of the energies of God, to put it very simply. Any atom of which a substance consists is the smallest part, one might say, of a ray of its energy, but which is in dense material form. But you will conclude that then God is the whole world. But this will be only a small part of the truth. God is not the whole world. The world is only a very small part of it. There is also a part of God's energy, which is manifested in the form of subtle civilizations, subtle energies.

If we have three dense material levels - solid, liquid, gaseous states of matter, that is, now all of you, people, are embodied in the third density of matter, then there are 56 more subtle material levels, or plasmoid ones. You can see for yourself how many times there are more of them . And all this is also the energy of God. But it doesn't end there either. Beyond level 56 is the transition to the spiritual world. The spiritual world is also divided into several areas: the astral world, the world of disembodied spirits and the world of Divine light. And there are also many levels in the astral world and in the world of disembodied spirits, and all this is also a manifestation of the energies of God, but only of a slightly different quality. So the energies of God are everywhere, and there is nothing that is not his energy, manifested in one form or another.

You yourself are the self-aware stream of His thoughts. Only 30% of you are in your bodies, 70% of you are in the spiritual world. You yourself are the thought of God, which has realized itself as a separate person. You are the stream of His thoughts.

Now about the names. On any planet, in any civilization, there are millions and billions of names of God, and they are all equal. You can simply call it He, It, you can call it Personality, the Supreme Personality, the Absolute, you can call it Atman, you can call it Lord. There are a lot of words in the languages of people that can be used to call Him. You can call it “God is spirit,” and this is indeed true. You can call it “God is light, there is life.” And, calling it by any name, we must always remember that it reflects only part of its qualities. It is this perception that gives rise to the understanding that the person who calls Him differently also serves the same God, that is, develops and

moves towards Him. This is what removes xenophobia in relations between religions. This is the understanding that God has countless names, countless manifestations of energy. All manifestations of energy give birth to various galaxies, dimensions, subtle worlds, which we, representatives of Burkhad and Tumesout, study, and we are in an endless process of studying and approaching this light, just like you yourself.

If our civilization has advanced a little further along this path, this does not mean that there are no incarnated spirits on your planet who know as much about this as the representatives of our civilizations, because, as I already said, spirits incarnate from different spiritual levels in different worlds. And on Earth there are also people who know a lot about this. As for where God is exactly in relation to you. It is closer to you than your own body. The closest to its energies, to its vibrations, is your spirit. Your body is only its dense material manifestation, a dense material continuation of your spirit, which was created temporarily by your energy, your divine energy to realize the goals of incarnation in this world.

Maxim Rusan : There is an article in the group where a Shimorets answers this question: “Each of us is God!”, please read it. This is also a very interesting idea of God.

01:12:59 Types of spaceships. Their construction and use.

Woman from the audience : Can I ask this question? I once saw a UFO, huge, huge, not just a cigar, but a cigar in the shape of a figure eight. I don’t know, it seemed to me that this device was 800 meters away, maybe more. Who owns this ship? And it wasn’t just me who saw him, but many people, we were traveling on the train. It felt like our train stopped on command from this particular ship, because they were watching us, we understood it all. But an hour later I didn’t remember anything, I remembered 30 years later, maybe. Who owns such a ship? Where are they built so huge, on what planets? And where do they park here?

Irina Podzorova : Thank you for the question. Tiar wants to answer, the representative of Tumesout, he is just an engineer, and although he is a roboticist, he knows how factories for the production of various

types of spaceships work, he knows from training.

The worlds of the Interstellar Union are trying to locate factories either on lifeless planets, or on asteroids, or in outer space. In order not to disturb the ecology of your planet and to free its territory from rather cumbersome structures for the production of all units and mechanisms, of which there are quite a lot in the spacecraft, in its shell, plating, its electronic filling, and so on. That is, it is a rather large building. Usually, all the work is done, in your opinion, by robots, and humanoids only control the process and create programs. All calculations necessary for precise fitting of parts, for precise balancing of electronic systems, are carried out by electronic automatic programs. And so it has existed with us for quite a long time - millennia according to your chronology.

And there are 36 large construction bases in our Galaxy. Well, there are many small ones, of course. What do I call a large base? I call a large base, a ship construction plant, one that can produce about 30-40 medium-range ships in your 120-130 days. And, naturally, they build in various shapes and sizes depending on the purpose, on the civilization, on the preferences of the civilization and on other parameters. For example, if the ship is small, small in size, small in volume, it is usually built in a round shape so that it is convenient to distribute the plasma field around it for protection, for example. If it is some kind of large ship, starship, tourist, it can be built, as you said, more oval, cigar-shaped, so that there are more places for the same tourists, for example. If it is a research ship, if it is long-range, then it can be built more triangular in shape so that more instruments and probes can fit at the bases of the triangle, for example, for automatic exploration of planets.

As you can see, everything depends on the purpose of the ship and on the civilization that ordered, so to speak, its construction. Any representative of civilization can fly to this base and apply for construction. And not only for the construction, but also for the repair of the ship, for its inspection, we have special rules according to which, for example, physical contact with earthlings can only be carried out on ships of a certain construction period and which undergo strict technological control by automatic systems. As for flights not with contactees, but with the specialists themselves, the requirements for this are less stringent and are carried out on those ships that the specialists themselves desire.

But there are different forms, I would now say in your opinion, of property, there is property of the planet, that is, of the society to which the ship belongs, there is property of the government of this planet, the Interstellar Union in general, or individuals, well, or groups of individuals who live in Interstellar Union or even flew from another galaxy. There are analogues of your payment systems, with which you can purchase this or that ship as an individual, but for contactees this is usually irrelevant, because all work with earthlings is carried out by specially trained specialists from a particular planet and the Interstellar Union provides them with ships for this purpose. And this is also why the Interstellar Union gives permission for physical contact.

01:20:11 Are there alien bases on the Moon, Mars, and do earthlings work there?

From the audience : So you want to say that our people fly on ships to other planets? I watch various videos, there is such a program “20 years and back” and there are people who claim that they worked in space, that there are such programs in America when children are taken when they are still small for contact, they are trained and then they go through lunar base are flying to Mars. Mars is like an uninhabited planet, but there are bases inside, and some of them belong to people or some civilizations cooperate with people there. What can you say about this? How true is this?

Irina Podzorova : Raom Tiyan will answer here as a representative of the Interstellar Union, who is on the commission for contacts with your race. About the bases. In general, all alien bases existing on the Moon, on Earth, on Mars (or rather, under its soil) and on other objects of the Solar System belong to the Interstellar Union or representatives of other planets, but in agreement with the Interstellar Union.

As for training. Everything that is said in this video (I haven’t seen it specifically), we cannot talk about specific facts here. Everything that could be told in this video was told by the contactees. And now I don’t know exactly how this information was presented, because I myself have not seen this video, I can only say that in America there are indeed physical contactees who, since childhood, have been flying with representatives of various civilizations, including Tashiga, For example.

There are a lot of contactees from Tashiga who fly to the base on the Moon and visit Selbet bases on Mars. And the specialists who work with them can probably talk about this in more detail; these will be representatives of Tashig and Selbet, who will come this evening in the astral body, I myself invited some of them. These will be the representatives who work with earthlings, contact specialists. Among them there is one representative of Tashiga, who is in charge of the Tashigan sector on the lunar base, where, as is known, there is a base of 18 civilizations (there is an entrance on the far side of the Moon). And the Tashigan sector of the base is represented by a Tashigan man, whom I asked today to come in an astral body by the time Maxim announced. He agreed to come and answer questions.

As for the Martian bases. Under the soil of Mars there are bases of representatives of both Burkhad, Disaru, and Selbet. And I also asked a representative from the Selbet department of the base on Mars to come, I don't think it will be their leader, but someone from their department will come. Selbet is a reptilian planet.

01:24:13 Issues of ownership of spaceships, means of production, planets, colonies.

Man from the audience : Can I ask a question that intersects with this question? I have a slightly private question. Is it possible to own a starship? This question has already been partially answered. Is it possible to have a planet as private property? If you have your own spaceship, you can discover some planet. These questions, of course, come from deeper questions that I want to ask as a second part. What kind of ownership of the means of production is there anyway, and, as far as I understand, is it apparently public? Is it the same everywhere in the universe? Where are we heading?

Irina Podzorova : Let's be more specific. You have three questions: is it possible for an earthling to acquire ownership of a starship? Is it possible to have a planet owned by any individual from the Interstellar Union? And what kind of ownership of the means of production?

Thanks for the questions. Really very interesting. Raom Tiyan.

How much does a starship cost? Well, we need to convert their value into our units. Raom Tiyan says that until civilization has entered the Interstellar Union, it is impossible to exchange money, exchange the intraplanetary currency that you have for the galactic one. The fact is that we do not have a single system; we have a different exchange with each planet. That is, there are several dozen different monetary circulation systems that exist in the Galaxy. But your Earth is not yet included in any of them, because you are not a member of the Interstellar Union. Gold is only available to you on Earth; we have some other payment systems. Most worlds are actually electronic systems. Well, there are worlds with attributes like yours, with material carriers, with banknotes that indicate the cost of certain goods.

As for the acquisition of a starship by an earthling. The fact is that, according to the law of the Interstellar Union, the transfer of technologies for which society is not yet ready for the spiritual reasons I mentioned above, the transfer of technologies for movement in space is prohibited by the Interstellar Union.

From the audience : And for rent, for hire?

Irina Podzorova : The fact is that the transfer of such a starship directly to an earthling will already mean for him that he will leave it after the flight on Earth, for example, that this object can attract the attention of the public, science, your special services, and so on. Since the transfer of technology is prohibited by the Interstellar Union, flights of earthlings in such starships are possible only as contactees, as I already said, that is, with specialists of the Interstellar Union who are either the owners of their own starships. Or, most often, this is carried out by specialists who fly on starships belonging either to the governments of the planets or to the Interstellar Union.

As for the personal planet. All discovered planets are reported to the Interstellar Union and are the common property of the Interstellar Union. It also depends on what planet it is. It very much depends on the planet, because it is first examined to see if, for example, there is intelligent life on it. If intelligent life is discovered on it, then regardless of the forms of this life and the level of development, in any case, the territory of this planet belongs to the people who live on it. If it is a planet with other life forms, with animal life forms, non-intelligent life forms, or even lifeless, then after discovery by specialists of the

Interstellar Union and the transfer of information about it, it belongs to the public meeting of the Interstellar Union for space exploration.

We have a group of individuals to whom it not only belongs... in our country, firstly, the form of ownership is not understood in the same way: ownership is not as management, but rather as research and development. And if a hybrid is created there, for example, as on your Earth, that is, a hybrid is created from an animal form with the intelligent forms of humanoids of the Galaxy, then this planet belongs at the beginning of its formation to those civilizations that participated in this hybridization. Specifically, the Earth, until the period that ended 12 thousand years ago, was considered a colony, and therefore the property of Burkhad, since our genetic apparatus is most abundant in your DNA among intelligent races, although your planet was discovered by representatives of Tumesout. But it was decided, including by the representatives of Tumesout themselves, that the Earth was the property and colony of Burkhad, but after the well-known events of the war, when representatives of Selbet attacked your planet, a disaster occurred. And, after restoring the planet and populating it with inhabitants, Burkhad decided to transfer the planet into the ownership of the people inhabiting it. That is, now the Earth is your property; now, at least according to our laws, it does not belong to Burkhad or anyone else. That is why you yourself are responsible for this world. That is, you yourself are developing here, evolving in order to become our employees in the future.

As for ownership of planets. We do not practice this form of ownership. The only thing that is possible is, one might say, in your opinion, a lease, that is, the transfer of the territory of a planet, or an entire planet, or an asteroid, or some part of outer space, not forever, but for use to achieve some goals. In our country, private property exists only, one might say, for housing, where people live, and for some means of production. For example, individual parts of factories for the production of starships, as well as household items, may belong to private individuals, but natural objects themselves are almost never privately owned.

From the audience : And you were talking about colonies - what is that?

Irina Podzorova : A colony is a planet that is inhabited by people from

the so-called mother planet, for example, we have 368 colonies in our Galaxy, but the ownership of this planet passes to the society that moves to it, it is not even the property of Burkhad. After they have completed this migration, they develop themselves. At the same time, they can even leave the Interstellar Union, as happened, for example, with Futisa and with some of our other colonies.

From the audience : How did this happen in the Soviet Union, right?

#105 Conference of contactees with extraterrestrial civilizations in St. Petersburg (Part 2)

https://blog.cassiopeia.center/konferenciya-kontaktyorov-v-spb-chast-2
https://www.youtube.com/watch?v=xLZ_xs0I-Ww

01:00 Question about St. Petersburg. Were there cities in this place before?

Question: My name is Olga, and I just wanted to ask a question about St. Petersburg. St. Petersburg is such a mystical city. There are a lot of miracles here. I mean not only St. Petersburg itself, the territory on which the city is located, but also the region of South and North Karelia. There is a theory that the city, which is officially over 300 years old, was not built, but excavated. The Pillar of Alexandria, parts of the Hermitage, Atlanta, for example - all these buildings could not have been created by the technologies that people owned in the 17th-18th centuries. And even today's modern technology cannot build something like that. How true is this theory that St. Petersburg is located on the site of some kind of civilization? There is information that buildings go underground to 5, 6, 7 meters. There are floors, huge arched openings, and all this is made for people who are much taller than us. In Karelia they find places where there are huge stones, huge boulders, obviously the former dwellings of creatures that are different from us. I would like to clarify how true this theory is and how much it affects us.

Irina: Thank you, good question. The representative of Tumesout wishes to respond, whose name is Fulinaru. He is now on Sirius at one of the bases on the asteroid. He was in charge of a base on Earth in the former USSR. He says that the entire territory of Russia, the Russian north, the European part of Russia was inhabited long before the time that you named as the date of the construction of St. Petersburg. People lived here not only for 300 years, but also for 500 years, and for 1000 years until the war that happened 12,000 years

ago. And indeed, people who are your ancestors lived in this place.

That is, as your historical research also knows, the city of St. Petersburg was built on the site of an older city. It was located on the shores of the Baltic Sea. It was a wooden military wooden fortress, as he shows me. And this fortress was built on the site of an even more ancient city. But as you know, the older the buildings, the more they go underground for geological, construction and other reasons. That is, old buildings are destroyed and new ones are built in their place. This is known from archaeological excavations, when, for example, a settlement of ancient people or something else is discovered on the site of a particular settlement or slightly beyond its borders. And there is a lot of this in the European part of Russia, including the Moscow region, in the steppes, for example, in forest-steppe areas. The so-called mounds, dolmens are all the remains of ancient civilizations, I would even say. Those peoples who existed here even in the pre-war period (period 12,000 years ago). I want to remind you that at that time there was a different climate on Earth, firstly. Secondly, there was a single continent. What now makes up the European part of Russia was part of this continent. And naturally, after the creation of man 3 million years ago and before the war 12,000 years ago, many, many thousands of years passed. And traces of this, I would say, single civilization, change of generations, naturally remained. But because volcanoes became active, tectonic faults of the Earth began, earthquakes, shifts of glaciers at the north and south poles - all this changed the appearance of the Earth. And many cities of this civilization were buried, flooded, and these traces were indeed preserved. And in the pre-war period, on the site of St. Petersburg, perhaps a little to the southwest, one of the cities of that civilization actually existed. And many of the buildings that you mentioned were built at that time. But you need to look at the building specifically so that you can say what it is. You can ask me the question: “How do I know this?” - because I was born much later than these events. But this is known from our historical data, which is in the databases of the Interstellar Union. For example, we have a map of the ancient pre-war continent, which shows your major transport hubs, roads, our large alien bases and some fairly large cities. I can even say that small ones might not have been designated for maps of such use, for our space research.

Question: Stone or wooden houses?

Irina: They were made of stone and wood. They had different meanings. Firstly, they built with stone to last. These are buildings and structures that served as temples, for example. Scientific laboratories, institutions, schools. Sometimes they were built even with specialists from the Interstellar Union. There was more open contact then.

Maxim Rusan: I would like to explain to everyone that before the so-called global flood, before the change in the continental shelf and so on and so forth, we had contact. We were in contact with them. After this war, contacts were stopped.

10:00 Why were we created, and what is the evolution of the soul?

Question: As I understand it, every civilization in our Universe has its own certain Divine task. And our human civilization was also created with some kind of spiritual task within the framework of our entire Universe. My question is: what is our task as a species? A spiritual task within our entire Universe? And the second question, which follows from the first: what is the task of the human Soul and what is its evolutionary path. Within different religious movements there are different theories. Why does the Soul come to Earth, why does it reincarnate, and what is the final goal of the Soul? In the Vedic tradition, and in many others, for example, it is said that the Soul must return to God. I'm interested in getting an answer to this question. What is the task of each person and what is the task of all humanity? Why was our human civilization created?

Maxim Rusan: I understand the question correctly: why were we created, and why does the Soul incarnate into a body?

Question: The purpose of the Soul’s incarnation on our planet. Can the Soul incarnate in other civilizations, or does it only have a human nature?

Irina: Thank you for the questions and the answer is: why were you created as a race? Answer: the specialists who discovered your world 5 million years ago were from the planet Tumesout. Therefore, this question is answered by representative Tiar, who is in contact with you, from the planet Tumesout. He studied in detail your history of

creation and the discovery of your planet by his ancestors. 5 million years ago your world was discovered, on which there was already plant, biological, living, and animal life. There were birds, fish, insects. Large mammals, large reptiles and the natural microbiological world. And mammals are a group of primates, among which were representatives of various monkeys. When studying these animals, no possibility was found in them for the embodiment of an intelligent Spirit. For the first 2 million years after the discovery of your planet, scientists of the galaxy were waiting for the self-organization and self-evolution of these primates, since they were most suitable for the role of those creatures in which an intelligent Spirit could incarnate on earth. But 2 million years passed, and it was decided to speed up this process by working on hybridization. As I already said, to create a hybrid. Because the genes of the Selbetians, Tumesoutians and Burkhadians, having combined with the genes of the primate's body, made it possible to prepare the nervous system and receptor system of the primate's body for the incarnation of the intelligent Spirit. Why was this done?

The earth had a unique set of flora and fauna. All the riches on your planet: geological, atmospheric, energetic possibilities that exist in your world - they are not very common in the Galaxy. And even more so, the location of the Earth in space, its distance from the Sun, and so on, made it possible to develop here the civilization of the future - an employee of our Interstellar Union. That is why it was decided to help you evolve. This was the goal of the scientific community. And naturally, as I already said, in our country science is not separated from spiritual knowledge. Therefore, the next goal of the scientific community is to enable Spirits from the spiritual world to incarnate on your planet. Intelligent Spirits who live in the spiritual world and incarnate in various worlds. This is the answer to your next question. Yes, incarnations are possible both on Earth and on any of the planets of the dense material world, the humanoid world. Incarnations may alternate. Several may take place on Earth, several in another world, on another planet. And, naturally, incarnations are possible in thin-material civilizations, plasmoid civilizations, of which there are even more simply because of the greater number of density levels than the dense-material world. There are tens of times more such civilizations than dense material ones. They also embody the same intelligent Spirits that we do. And each of us was incarnated in plasmoid civilizations. Next goal. Why do we need Earth employees? Many Spirits wanted to incarnate on your planet. The purpose of incarnation is on your planet. Since through hybridization a unique being was

created with a unique set of properties and energies, namely the earthly primate and the Selbetians, Burkhadians and Tumesoutians in these unique conditions that I listed, then your goal, the goal of the Spirits who go to your planet, is to adapt to this body. To this environment, to this world and use all this for your spiritual development and the spiritual development of the people around you. That is, this allows you to develop those qualities that are very difficult or take a very long time to develop in other worlds. In this respect, your planet is unique. For example, incarnations on Burkhad and incarnations on Esler, and incarnations in plasmoid worlds, they also allow you to develop some qualities that are difficult or impossible to develop on Earth. I want to remind you that incarnations on any planet during one or another period of its existence at one time or another are also not accidental. You could well have incarnated in the past or future of the Earth. But since you have incarnated here and now, it means that you need to go through your lessons, your tasks in this particular time, in this particular society, in this particular environment. And the mentors of the spiritual world, who are consultants of the 22nd level of the spiritual world, Consulting Angels, they always advise the Soul to incarnate in one or another world to gain the missing qualities. What qualities are most suitable for your planet to develop? There are actually a lot of them,but the most important ones are the development of love, the fight against xenophobia, the fight against intolerance, humility, patience, the development of hard work and the ability to live in this society and remain the spiritual being who came here. Despite the materialism of your society, remain that spiritual being who remembers your Light. This develops faith, trust in yourself, faith in this Light and awareness of the perception of this Light in the place in which you were born, in which you work and develop.

19:39 Who are the authors of The Urantia Book? Is Shakespeare the author of his books?

Question: Hello, my name is Elena Grigorievna. I have two questions. The first question concerns the authorship of some very important documents, I believe, for our civilization. And the second question is related to the civilization of our planet Earth. In order to formulate the first question, let me quote very briefly the following passage: “In accordance with the mandate of the Ancients of Uversa, thirty-one documents describing the essence of the Deity, the reality of Paradise (Part I. The Central Universe and Superuniverses), the organization and functioning of the central and superuniverses. universes, the personalities of the grand universe and the high destiny of evolutionary

mortals, was prepared, formulated and expounded in English by a high commission of twenty-four stewards of Orvonton on Urantia, the 606th world of Satania from the constellation Norlatiadek in the universe of Nebadon, in 1934 A.D. »

Who are the authors? Who are these entities that gave us these documents, and is that picture of the universe true (paradise, the Havona Universe, the local Universes that are drawn in this amazing Urantia Book)?

And the second question. For me it is very important because it is connected with my professional activity: is the son of a glover William Shakespeare, born in 1564 in Stratford-upon-Avon in Yorkshire, the author of all those amazing works: Hamlet, Romeo and Juliet ", "Macbeth", 154 sonnets? This is the notorious Shakespearean question that has worried humanity for several centuries, and debate on this issue does not subside.

Irina: Now let's specify the questions. Who is the author of the text you just read? Who is the author of The Urantia Book and how true is the information there? Are all the works of William Shakespeare his own? According to the data of the Interstellar Union and by the name Nebodon, which you pronounced, I recognize (says Raom Tiyan) that the author of the text that used the word Nebodon was a representative of the Pleiades civilization. One of the representatives of the Pleiades civilization, which is called approximately Thriolama. This civilization is not a colony of Burhad, but their genes are there. This is also a hybrid. Thriolama is a civilization that, at one time, also had very close contact with representatives of Earth and Burkhad. It is not part of the Interstellar Union, but of the Galactic Federation of Light. She is in very close contact with the Futissians, and Nebodon is a word in their language that means the so-called local Universe. What is the local universe? It is the universe manifested in a given time and place in space, which can be explored by instruments or known by the mind. If you look at the Urantia Book, I want to immediately emphasize that, according to the Interstellar Union, it was written by several people, contactees who were in contact with representatives of various civilizations. That is, what you can read in the next paragraph could be conveyed by an Eslerite or a Shimorite, or anyone else. Plasmoid civilizations were also transmitted. That is, it was written by several universal contactees. As for the truth, the information that is contained there reflects the ideas of those specialists who came into contact with

contactees, but which was perceived, naturally, through the prism of their beliefs and concepts. That is, in the language that they could perceive. But in order to understand whether it is true or not, it must be translated into the terminology of the Interstellar Union, which we all use. Judging by the text that you just read, they were talking about different names and what they call heaven and hell will need to be specified. This is their version of reality and true for them. As for the truth for me personally, I believe that contactees' information needs to be conveyed in a simpler and more understandable language, without using special terms whenever possible. That is, even the names of planets, galaxies and everything that exists - all worlds, it is advisable to give in the most understandable language of the contactee so that he can adequately convey it to people. Because that is the purpose of contact. So as not to lead astray, so as not to confuse you with complex philosophical categories, but to reveal the truth as much as possible. Therefore, we have entire, one might say, institutes of specialists in developing contact situations. That is, by correct, consistent transmission of contacts with knowledge of a particular contactee. Personally, I believe that the truth is that that heaven and hell are described, they are images of high and low vibrations of the spirit. I just want to emphasize that this or that state does not begin after the death of the body.It begins while still living in the body. You continue to be in the vibrations that you had during life and in the spiritual world. As I already said, there are 24 levels in the world of disembodied Spirits. They are divided, and from 1 to 6 are demon levels. But demons is your Russian name, which is taken from your culture, for example. In reality, these are not creatures with horns, a tail, and so on. These are vibrational Spirits, in the vibrational level of which there is no concept of Light. This is about the Urantia Book. All terminology needs to be agreed upon and translated into the terminology of the Interstellar Union so that I, through the contactee, can adequately and correctly answer your question. I am familiar only indirectly through the study of materials on the contact situations of a given planet. As for Shakespeare, my personal opinion, which is based on what I know and heard about him: not only all of Shakespeare's works belong to his hand, but he was also a contactee. And not only a contactee with subtle-material civilizations and some humanoid ones. I think he had the best contact with his highest spiritual essence, which you call the Higher Self. And in general with the spiritual world. And when he wrote one or another of his works, it really seemed that they belonged to different people in terms of writing the text, in terms of the construction of the text. But we must remember that in the case of contactee texts that are transmitted through him, the Specialist or his Curator, as we call him, transmits his images. Personally, I believe that

most of his works were written in a state of contact or memory of contact. And it is also very possible that his memory of the images of his past incarnations, for example, was partially unlocked. This is my personal opinion, which I base on what I know about this person. And there are many more works that are unpublished and unknown. That is, he wrote a lot.which you call the Higher Self. And in general with the spiritual world. And when he wrote one or another of his works, it really seemed that they belonged to different people in terms of writing the text, in terms of the construction of the text. But we must remember that in the case of contactee texts that are transmitted through him, the Specialist or his Curator, as we call him, transmits his images. Personally, I believe that most of his works were written in a state of contact or memory of contact. And it is also very possible that his memory of the images of his past incarnations, for example, was partially unlocked. This is my personal opinion, which I base on what I know about this person. And there are many more works that are unpublished and unknown. That is, he wrote a lot.which you call the Higher Self. And in general with the spiritual world. And when he wrote one or another of his works, it really seemed that they belonged to different people in terms of writing the text, in terms of the construction of the text. But we must remember that in the case of contactee texts that are transmitted through him, the Specialist or his Curator, as we call him, transmits his images. Personally, I believe that most of his works were written in a state of contact or memory of contact. And it is also very possible that his memory of the images of his past incarnations, for example, was partially unlocked. This is my personal opinion, which I base on what I know about this person. And there are many more works that are unpublished and unknown. That is, he wrote a lot.

Question: Who was he? His class? Job title?

Maxim Rusan: In theory, we should release specialist Burkhad and specialist Tumesout now. Because MidgasCaus has been here for some time and LiSioni. That is, a specialist in the astral worlds approached, and a biologist and psychologist approached. He studies our energy and our diseases very well.

32:30 Are we developing as planned? Is there a plan for the development of civilization, and are we following it? Are there cosmic halves? Soul mates? Are there souls that incarnate together to continue their experience of development from

relationships in other worlds, or the spiritual world?

Question: My name is Vladimir. I wanted to know, everyone says that everything random is not accidental. Since a person lives the life that he planned before incarnating, then the development of civilization is also some kind of planned by the Higher Mind? So we are developing as planned? And the second question: are there really cosmic halves - kindred souls who constantly incarnate together?

Irina: Thank you for your question. About the implementation plan. Is there a plan for the development of civilization, and are we following it? And the second question: are there souls that incarnate together in order to continue their experience of development and relationships in other worlds, or the spiritual world? They can be called cosmic halves, intelligent Souls, twins, and so on; many names can be said now and come up with our minds, which will reflect the same concept. Raom Tiyan wants to answer about the plan of incarnations. About the plan for civilization. With civilizations that are also built according to certain laws of relationships. Egregors, relations between egregors and relations of society from the same planet with its subtle civilizations from the side of the star, for example, all this affects the noosphere, the consciousness of the people who are embodied there. There is a plan, and there is its implementation. And here is exactly the same analogy with the plan of incarnation of Spirits into bodies. Each of you, when incarnating, had a life plan: what he would develop here, what he would strive for, what he would process here, what experience and what negative qualities he would transform into positive ones. But all this seems simple as long as it is all in the spirit's plan. Until it is implemented. But when he embodies here, grows and develops, plans can naturally change. Since our world of matter is itself a changeable structure, in contrast to the world of the Spirit, where there is eternity, that is, immutability. And it happens that after the incarnation the Spirit comes to God and there he learns that there he did not fulfill his plan, but even did the opposite. That is, it did not develop, but degraded. This is also possible. He lowered his level of vibrations and the level of the spiritual world to which he found himself. The same thing happens with civilizations. Your mentor lives now in the spiritual world and is not incarnated, one might say, your leading mentor of planet Earth is that entity that has had many incarnations here and who is known here as Archangel Michael in your consciousness. Naturally, He and the group of His essences in the spiritual world have plans for the Earth, so that the Spirits who incarnate here go through their development plan as successfully as possible. And so that civilization itself is built according

to such laws that would allow us to enter the Interstellar Union as quickly as possible, since this will open up even greater scope for development, including spiritual development. But there are plans, and there is their implementation. For objective reasons that have long been established on your planet, the conditions on it depend on your legislative bodies. In turn, legislative bodies depend on political parties and economic unions. Those people who come to these structures may not at all be aimed at fulfilling the plans of your mentors. They may have opposing goals. If you want to know the answer to the question: is this also part of the plan, then in any case, all this was known to God even before the creation of this world. I will speak in simple terms,so that you understand me. Naturally, in the spiritual world the past, present and future are known. But I want to emphasize that the future has many options. Therefore, for God, who is the light of Love, we can say that the most positive version of the future for you and your development is desirable. That is, this is part of his plan. But since He is a being outside of time and lives in the spiritual world, and has such a quality as knowledge of everything - omniscience, then naturally He knows all the options that do not correspond to His plan. For different reasons. For example, the degradation of this or that Spirit is also known to Him in advance. But not everything that He knew in advance He approved. You may then ask why the implementation of these plans exists. Because for the development of each Spirit, freedom of choice is given. Why there is freedom of choice - so that the Spirit develops and grows in this freedom and love. God knows all the consequences of the elections of any of the representatives of civilizations and the future civilization as a community. But because He gave freedom of choice, He does not interfere with this choice, because this is a lesson for those people and those entities that they must go through for their development. If there is a rigid plan that the Spirits will follow without the possibility of deviating from it, then this will mean that the freedom of choice has been taken away, and all responsibility for development will fall on the one who has deprived the freedom of choice. And since this did not happen, then all responsibility lies with us – individuals. Therefore, we can degrade and grow.

41:00 How to increase your level of awareness? What do we have to do? How can we help other civilizations?

Question: My name is Albina, I am from St. Petersburg. My question is this: everyone talks about mindfulness, but how can you increase your level of awareness? What do we need to do? Pray, meditate?

Answer please. And how can we help these civilizations, the Universe?

Irina: Now MidgasKaus from the planet Esler is present with us - this is my curator, and LiShioni from the planet Shimor is our general curator of the entire Cassiopeia team. LiShioni is a specialist in astral interactions. MidgasKaus is a biologist, psychologist, specialist in alien life forms. For Eslerites, the alien life form is us – earthlings. In answer to your question, Mead says it in such a way that these questions are related. To raise awareness and how you can help civilizations.

In fact, for the civilizations that are here working to reunite you with the Interstellar Union, this is only possible by increasing their level of awareness. Before answering how to do this, you need to say a few words about what mindfulness is in general. Awareness is the Spirit's ability to work with its emotional states, to honestly analyze events around itself and relationships with others, and assess the degree of spiritual development that occurs with this Spirit. Awareness can only be increased through experience. It cannot be increased in any artificial way, which will be connected with the fact that a person does something and his level of awareness will definitely increase. It is largely impossible to do this by any artificial or ritual means. Vibrations are an energetic characteristic of a person's aura, which helps him tune in to the spiritual world, to contact his Higher Self. The more the level of vibrations increases, the more the level of awareness grows. For this, on Esler, on Shimora and on Burkhad, there is one most effective method - this is communication with your Higher Essence. As I said, it is called on Earth the "Higher Self", and it can replace ordinary ritual prayer, any ritual, mantra or any other action that people perform to contact the spiritual world. What prayer is is a conversation with God in that form of address, in the form of one person addressing another. Mantra is a similar form, but it is no longer in the form of address, but in sound vibrations. That is, the implementation of sound vibrations, tuning either one or another egregor, or a spiritual essence, or a plasmoid civilization. You can effectively increase awareness only by working with your emotions, with your etheric, astral, mental and other shells in the aura. That is, analyze their state, the state of energy centers, which are projections on the physical body of certain spiritual qualities. There are many descriptions of these spiritual qualities in your religious, esoteric literature, which were written by embodied Spirits from higher spiritual levels, contactees, and so on. I will give only general advice: to increase your personal level of awareness, free yourself from low vibrational states that are caused by fears, anxieties, resentments, doubts and all other negative emotions and feelings. This

is the first condition. The second condition is the acquisition of knowledge about the spiritual world. In your case, this is possible through the spiritual systems that exist in your society. Starting from religious and esoteric systems and ending with your own spiritual experience, which is carried out in the process of life. In the process of contacts with various curators. In the process of astral travel and so on. And the third is the development of positive qualities, positive energy. This is a set of those energies that correspond to Divine qualities. You all know that Divine qualities are light, goodness, life, love,which can now be called dozens of words. But I'm sure everyone understands what we're talking about. Because in reality, innate qualities are embedded in the Spirit of every person, in the Soul of every person, which are called natural moral Law. And according to this natural moral Law, any person perfectly understands what good is, what good is and what its absence is. Development of positive and transformation of negative qualities into positive ones, by converting the energy previously released to create negative emotional-etheric blocks in the human aura. This increases a person's level of awareness. And in the future, you can specify it from the standpoint of individual counseling. A person, being at one level or another, having himself wished to increase his level of awareness, either does it on his own using one or another of the methods I listed above, or, if he believes that he needs an adviser on this path, a spiritual teacher, so to speak, he contacts to whomever he desires. The student always finds his Teacher by vibrations. Speaking in more general terms, any student of any esoteric school or just an authority can only be approached by someone who matches his vibrations. To put it in earthly language, he won’t like the other one. It will not suit his level of perception. And here there will be an individual question for everyone, how exactly this particular person can increase the level of awareness. But I have already outlined the general path.

50:00 Do you have to have a soul mate? Or should I find her or meet her?

Irina: Yes, I (MidgasKaus) said that we were acquainted with the Spirit of my wife for many incarnations and in fact were acquainted in the spiritual world, and everyone who is here now also has Spirits who incarnated with you and who were acquainted with you in spiritual world. This is simply the ability of the Spirit to unite into a community, whether on Earth, on any other planet, or in the spiritual world. Everyone is attracted according to their vibration level. Because the matching level of vibrations causes mutual sympathy, which is the first

step to that very unconditional Love that then grows from these relationships. But I would not say that each Soul has one soul mate, and all the others are less related. It happens that one Spirit has several such Souls with whom it goes from incarnation to incarnation and, naturally, closely communicates in the spiritual world. They are all soul mates for him. Moreover, this category is completely changeable. That is, for example, having met someone in this life, even if he was not previously your soul mate, with whom you rarely see or even saw each other for the first time, have not met in more than one life, this also happens, but suddenly here You could have struck up some kind of relationship, a relationship of love, helping each other, and you already become kindred Souls here, and in the spiritual world these relationships are even more strengthened. Because you start coming to each other. In this case, you are already here becoming a soul mate to this person and, accordingly, in the future you can agree to incarnate together. This happens quite often. And in general, the concept of relative, for me personally, includes any Spirit that for me is part of the same God of which I am a part.

53:11 Now we receive knowledge from you about the structure of the universe, the spiritual world, but where did you get this knowledge? Our scientists are working on global issues such as a cure for cancer, warming, the creation of new energy, and what global issues are being solved by you?

Question: Dear Mead, please tell me, now we are receiving from you knowledge about the universe, about the structure of the spiritual world from the Interstellar Union. Where did you get this knowledge? Did you come up with this yourself or did some other civilization contact you and pass this knowledge on to you? I'm interested in the same thing about Burkhad. Where do they get their knowledge about the universe? And the second question: our scientists are now working on global problems. For example, discover a new type of energy or find a cure for cancer. Or solve the problem of global warming. What global issues are being resolved on your planet? What do you need to achieve? Thank you.

Irina: To clarify the question a little: where do other dense material civilizations Burkhad and Esler get their knowledge from? And the second question: what global issues are facing the civilizations of Esler and Shimor, and the Interstellar Union as a whole? Thanks for the question.

All sources of knowledge in the civilizations of the Interstellar Union, in this case, are the database that is the scientific property of the cultural community of the Interstellar Union. This is the sum of all knowledge about the universe and all mental attitudes that were recorded, in your opinion, in the form of books, for example, which were the processing of this knowledge. All this forms the basis of the Interstellar Union. All this was accumulated directly by learning how to act in certain situations. For any Spirit embodied in any body, the process of cognition is no different. It goes through certain receptors in the body and through processing by the mind. For example, if you observe the same phenomenon, say, electric current, then it can be explained in completely different ways from different positions of the concept of the universe. If you already have an atomic system of knowledge in your mind, then you will explain these phenomena from its position. If you have a system of knowledge in your mind that is not based on the planetary model of the atom, then these will be different explanations. Here it is very important to understand that explanations, theories, concepts and other mental attitudes that are both described in books and expressed in words in general are only part of that universal Truth that becomes known along one or another path of development of a civilization or an individual. Our source of knowledge, like yours, is the universe that we study and of which we are a part.

As for the global problems facing the Interstellar Union, they are not too different from the global problems facing each planet that is part of the Interstellar Union. The first is further study of the Galaxy, the creation of colonies there. In the systems of those stars where this may be possible, the formation of planets is possible. Further study of the theory of hybridization. That is, crossing different species to manifest certain qualities of intelligent Spirits. Contacts with those races that were not included in the Interstellar Union, with the goal that they become part of us. Since we believe that our path of development corresponds to the plan of spiritual development that is intended by God. Our next global task is contact with Interstellar Unions of other galaxies. Work in the Intergalactic Union. Harmonization of contacts with completely different forms of races that were not formed in our galaxy. Another task is contacts with plasmoid civilizations. Developing a general concept of the universe, common terminology and ending disagreements over the different structure of the world, which cause various negative emotions and reduce vibrations. Further study of all the laws of the universe. Studying the free energy of vacuum and creating devices and ships based on it. Study of black holes, quasars

and all forms of galactic energy that may be in our galaxy. These are the challenges facing our society. Everything else follows from them.

1:00:25 The knowledge that we received here, how to pass it on to children? How to bring them to life?

Question: Hello, my name is Alla. I welcome our distinguished guests and everyone present here. I gained knowledge about the Higher Self at the seminar and am already applying it, thanks to Irina and her companions. I am very pleased with this work. But more down to earth, how can we pass on the knowledge that we have gained here to children? Small ones, bigger ones. Because each of us is a mother, father, grandfather, future grandfather. How exactly to make this a reality? Because the next generation will build and communicate so that there is creative energy. Thank you.

Irina: Yes, Allah, thank you for the question. It is indeed a very important question regarding the transfer of knowledge to other generations. Moreover, it becomes very important in the absence of educational programs on your planet and in your society that teach using this methodology. The only way that is real to transform the situation on your planet for the better at this point in time is the transfer through families of the knowledge that is necessary for further spiritual improvement and development in material structures: science, philosophy, art, medicine, which are already implied , as I already said, from spiritual knowledge. What would I recommend doing here for this? Considering the peculiarities of your society, I would advise preparing for raising children, for having children, by raising and creating yourself. What does it mean? This means that you, as future parents, must be fully aware of the responsibility for the development of this person whom you will bring into the world and his adaptation to this society. This is for those who plan. For those who have already become parents, in any case, education in the spirit of knowledge of the Higher Self, you need to start with yourself and continue to work with yourself throughout this transfer of knowledge. Simply put, any parent who plans to do this should already have experience working with their Higher Self, connecting with Him, communicating with Him, exchanging energies. Everything we tell our contactees. What the contactee talks about and what he can teach other people. Only having your direct experience of these states can you pass them on to your children. In what form to do this: it all depends on the age of the child and on your relationship, but it should be presented in a non-

violent form. And in the form that this is necessary for further successful movement in the society in which the child will develop. You all know that the first thing parents should show to their children is love. This is much more important than the norms of education that exist in a particular family. Because educational norms are mental attitudes. And love develops in the soul, and it raises the vibrations so much that this is the most important thing. If you teach your child to love himself, to love those around him, to thank and love God for this world, then you will have already done a very great thing. You will already transfer to him the energy that will help him in life. Because the energy of love is the energy of life. And if at the same time you tell him from a very young age in a form accessible to him that he is not just this body. And that he is an immortal Spirit, embodied in this body for certain tasks, that there is no death for the Spirit, exists only for the body, and after the death of the body, the development of the Spirit will continue, you will do a great job so that it will continue to act in awareness. What does it mean to act in mindfulness? So that he acts in one way or another, not guided by immediate gain or pleasure,but by those spiritual higher principles and laws that are now religious dogmas or commandments for you. If this becomes the norm for the entire society, then the need for religion will gradually disappear. This is also stated in religious texts, the Bible: a time will come on Earth when the law of God will be written in everyone's heart. When it is written in the heart, any need to write it in canons or on paper disappears. Because the Spirit is primary. Matter is secondary. The idea that the Spirit, its high vibrations, its Divine properties are primary, and matter is secondary - it is this ideology that is most important to convey to children.

1:07:43 About blood groups and the Rh factor. What does blue blood mean?

Question: Sergey. I have a question regarding biology and genetics. At the moment, it is officially known on our planet that there is a division into 4 blood groups and 2 Rh factors. There are all kinds of theories that deviate from official science, in particular, the concept of blue bloods. Clans that are close to the government, royal dynasties, they have some kind of special blood. There is a theory that being Rh negative means that he lacks the monkey gene. How is this seen from the point of view of the sciences of the Intergalactic Union?

Irina: MidgasCaus: the first thing I will answer is about the Rh factor.

This is just one of the many genes of the primate whose body participated in your creation. As you can see, there are many other genes in your body from this primate that are not turned off. And if there is no Rh factor in your blood, this does not mean that other genes are not turned on. This only indicates a mutational change in DNA that has been inherited. And in fact, blood formation is still ongoing. Those mutations are possible that will lead to the identification of people with 5, 6 blood groups. What is blood type? These are certain sets of proteins that are found in blood plasma and erythrocytes, as well as in platelets and leukocytes, in its formed elements. What are proteins and where do they come from? Proteins are the building materials of cells that are taken from the environment when a person eats. Why are they like this for one person, and completely different for another? A cell fragment such as DNA is responsible for this. Absolutely all the proteins that make up your hair, your skin, your blood and generally all the structures of your body are encoded there biochemically. If group 1 does not contain the proteins that are in 2 and 3, then it is called 1, 2 and 3. And 4 contains the proteins that are in 2 and 3. Why is it encoded this way? Because initially people were with the most common blood type 1. And only then, during the mutation process, later, switched-off DNA sections appeared. This happens for completely different reasons, which can form either during the period of cell division, intrauterine development, or generally before the conception of this organism. Various factors can act, ranging from diseases, ending with the effects of poisons and even increased solar radiation. About blue blood clans. Underneath this image lies a very real basis: in ancient times, many government families that were in power were indeed either the children of aliens or their descendants. This is very common in Russia. Since you are an Aryan race, you had very common contacts with the Shimorians, whose skin color and blood color are somewhat bluish. Because it contains a lot of organic copper compounds. Therefore, in ancient times, many leaders of the Aryan, and then Slavic and European tribes were descendants of marriages between Shimorians and earthlings. This is where the concept of blue blood comes from. Blood types have now dissipated as mixing still occurs within families. And if there are only family ties, then mutations are inevitable due to the fact that similar DNA carries suppressed genes for various diseases. A well-known case of hemophilia in royal families.

1:14:57 Could doctors from the Pleiades treat you now while the conference is going on?

Question to Aunika: could those Pleiades doctors who are helping you treat you take a look at this room.

Aunika: The Pleiades are now undergoing a general harmonization of space. This can be seen in the energies. There is a spectrum of green, soft blue. Almost no yellow. That is, a very beautiful pearlescent green-blue color. This indicates that your DNA is being reconfigured, as well. That is, the perception of your consciousness, the restructuring of your subtle structures. I am very happy about this because there is a global transpersonal session going on. And they are present here.

Maxim Rusan : We always respect the principle of free will. They now say that you work with your mentors. In order for them to start working with you, say: “I agree.” What they will be doing at this point in time is that they will come and see how they can help your structure.

Aunika: Yes, Maxim. Following the rules of free will and freedom of choice. In order to give or not give consent during the transpersonal state, through the transcendental state, all my thoughts are absolutely readable. I am absolutely transparent before the subtle plan. Because the transmission channel must be clean. And before you come to the transpersonal recovery channel itself, you have already been led. And naturally, they know the main reason why you came. You don't even have to voice it, or even me.

Maxim Rusan: Because all these reasons are clearly reflected in your energy, in your fields. Your emotions are visible, your destructive moments, blocks formed over the years are visible. Therefore I agree. I think there will be work.

Aunika: Those requests that come from your mind, from that structure that is associated with the social plan, they are not always primary for your soul, which brought you to this place and to this session. And the answers upon returning from the transpersonal channel may be completely unexpected for yourself.

Maxim Rusan: What is good about such big meetings? Because group work is done here. In fact, some of the mentors know each other. We often begin to face the fact that the same mentor brings

different people to us. Gulya, I know you work with humanoid civilizations. They are, in my opinion, a couple - brother and sister Pleiadians.

Gulya: Irina told me that these are actually my children, and I was incarnated here from the Pleiades. Therefore, the subtleties of the work are already present in the gene structure. So I can heal. I get asked a lot of questions about why I can't do this. I answer that you will succeed as given to you. Because your body structure can do this. When abilities appear in a person after treatment, they appear specifically inherent to you. Exactly what suits you. Some correspond to creativity, some to healing, some to channeling, and so on. They give everyone what is in them and open it up like a flower. A person blossoms like a flower. There are so many talents hidden in him that he may not even suspect or know about. It happens like a discovery. Children are very open. It often happens that a person discovers the ability to heal. He comes with a completely different request, and his ability to see energy points opens, and his hands press there themselves. A connection is being built with the Higher Self. A 20-year-old girl comes and says: "And the answers to all my questions appeared in my head." I say, very good, which means you have the entire channel built.

Maxim Rusan: I would like to add. I believe that engaging in treatment, healing practices, even massages is strictly prohibited for those people who are unbalanced inside, who have destructive emotions, who have blocks, whose own structure is broken. How can you build a normal, good house with a broken stick? Impossible.

Gulya: The main message is Love. Love to everyone who came to you. You wrap yourself in this love, and everything works out, everything reveals itself, and then a miracle happens.

Maxim Rusan: In our understanding, love is that light, that energy with which we can approximately describe the energy of that Creator, that Absolute, God, that structure that helps us. Because for some, God will be that subtle structure that helps him heal. He can also be understood, because for him this will be the Light that he brings to people. Therefore, here we must clearly understand that each person may have a different understanding of God, but the main thing is that this understanding contains the meaning of the love that he carries... (anecdote).

1:23:13 How does Vlad Pulsar ensure that his students have light in their eyes?

Maxim Rusan: Vlad, how did you feel that you could bring this Light and how do you bring it to people? I see how those people who studied with you treat you. How much light should be put into them? Their eyes are burning. They approach, and you can see this light in their eyes. How do you achieve this result?

Vlad: I'll start, perhaps, with one of the poems that are periodically transmitted to me by my spiritual mentors. It may not be entirely clear, but the essence of what is happening at the moment of transmission will be clear to everyone at the heart level, of course.

Those who play at God will stop.
He will wake up and see clearly under the onslaught of truth.
Simplified will enter the Spirit's treasury.
No regrets. Truly!
Everything you have is given by God.
Don't jump up the spatial ladder.
Your place has long been found.
Calm down, cool down, my precious one.
Those who play at God will stumble.
Stops in the truth of greatness.
Don't play, don't rush, be an excellent student.
Give simplicity back its value.
The main roles in the air and space
are ordained by God until the evening.
In the Last Supper, eternity is shown
in order to remove human evil.
Don't play, don't rush, be a grain of sand.
Unique, one of a kind available.
Only in this way will you become a whole storm
that sweeps through infinity.

I believe that the very state of a person over time, first of all, in a natural way, reveals his natural abilities for the same communication with the Higher Self, for communication with mentors. Which is nothing special. And what should be at the head of a person's iconostasis. A person, first of all, with his moral and ethical standards and qualities must prioritize his own development and improvement. Therefore, the spiritual world with which I come into contact conveys such deep and human meanings in the form of poetry, in the form of the classes that I conduct, the atmosphere that is created at the moment of training. My own cultivation is to be an even more pure transparent conductor without the presence of any personality or person who has his own plans, life, definition in space. For every person, working with his own ego is, first of all, accepting this ego, and not fighting it. Because it's normal to be angry, it's normal to be upset, it's normal to be angry that there is injustice in the world and that it hurts you, that's also normal. Therefore, the first and main reason that a person is in an unnatural state, in a state of absence of the free flow of his own consciousness and energy and bodily vitality. This is the inability to accept oneself with all the features that exist. The discipline of healing tells us this. It is not only esoteric, but also completely scientific. This, as an endless discipline in which you can learn and improve, I do and teach it to other people, who write me really good reviews in the hundreds. Something is really changing in their lives. This is a great happiness for a person - to bring benefit not only to his family, his loved ones, but also to other people who, at first glance, seem to us to be strangers due to our upbringing. In fact, we are all one. We are all one. These are not just banal words, but also something that should unite a person in his awareness of every moment, every minute and every day. I would like to voice 3 points for you in order to logically distribute your consciousness where to start. Esotericism sometimes somehow spontaneously answers important questions facing man and humanity. And what concerns the masculine and feminine principles, and the difference in our minds. The male mind is cubic, logical, very similar to the structure of a computer. The female mind is spherical,

abstract and there are a lot of spontaneous quantum phenomena happening in it. Therefore, a woman will always be at the forefront if we are talking about spiritual development and general civilizational enlightenment. The female mind teaches the male mind, so women, wherever we look, are ahead of the rest. And this makes me very happy. So, 3 points: Disclosure of sensory experience, that is, learning. Not only for men, but also for women.Because many women in our Russian ethnic group are accustomed to being on their own and leading their lives on their own. Therefore, the disclosure of the sensory experience of knowing God is the basis on which any esoteric teaching can be superimposed. Including scientific trends, which are increasingly becoming, in my opinion, adequate and similar to the truth. You need to find an ideal practice, master, or state for yourself in which you do not understand or try to understand God, but simply feel Him. This is cliche advice, but it really works. The second is defining oneself in a spiritual, semantic and ideological space. At its core, unfortunately, we do not yet have it in the Russian ethnic group and esoteric space. But, nevertheless, our task is to create it with our own hands. Create proper schools of esoteric education related to natural sciences in every federal district of Russia. This is what can connect the space of the unknowable and sensory experiences. In the process of structuring the mind, a person will be able to see his future and set the right values and build his new quality standard of life. The meaning of any esoteric experience is to get closer to your own happiness and learn to fly to other planets with or without ships. Today, the concept of happiness has changed. It has become more multidimensional, multifaceted, but, nevertheless, we continue to move towards it in an even more complex way. And point 3 is the practical implementation of spiritual experience. Our cooperation and co-creation should be a reality every day. Otherwise, we will only talk or only think about what we are talking about. Let's start living from today!however, we continue to move towards it in an even more difficult way. And point 3 is the practical implementation of spiritual experience. Our cooperation and co-creation should be a reality every day. Otherwise, we will only talk or only think about what we are talking about. Let's start living from today! however, we continue to move towards it in an even more difficult way. And point 3 is the practical implementation of spiritual experience. Our cooperation and co-creation should be a reality every day. Otherwise, we will only talk or only think about what we are talking about. Let's start living from today!

#106 Conference of contactees with extraterrestrial civilizations in St. Petersburg

https://blog.cassiopeia.center/konferenciya-kontaktyorov-v-spb-chast-3
https://www.youtube.com/watch?v=jP1HFi_PoRo

00:52 Representatives of the Gikhor and Tikht civilizations. Organosilicon life form. Cosmoenergetics is an esoteric method of treatment. Emil Bagirov School of Cosmoenergetics.

Irina: Silmani Grikhtori has been here for a long time.

Maxim: This is the Gihor civilization.

Irina: Civilization Gikhor. Next came two Tikhtians, they told me names. This may be a name only in our letters, but one of them is called, approximately, Miliyar. The Futissians approached. Omo Mackerius and Miliyar are from Tichta. They will start a story because you know less about them: what kind of planets they have, what they do, what they look like. So, Gihor, Silmani: the Gihor civilization is located in the constellation Virgo. This planet is inhabited by organosilicon life forms. “You have a carbon form of life,” he says, “and we have an organosilicon life form.” An organosilicon body, a dense material, can adapt to a much wider range of temperatures than a carbon-based body, and can also tolerate concentrations of substances in the atmosphere, such as hydrogen fluoride, that are lethal to your bodies, so for you on our planet there is very high temperature and high hydrogen fluoride concentration. So high that our oceans contain a high percentage of hydrofluoric acid, which is also poison to your life form. But due to the peculiarities of our biochemical processes in our bodies, oxygen, which is found in such quantities on Earth, is also a slow-acting poison for us. Therefore, when visiting your planet, we wear protective suits. Firstly, the temperature here is not suitable for us - it is too cold even on your hot day, and secondly, the atmosphere contains too much oxygen and some other gases, for example nitrogen, which also destroys our body. And, accordingly, when physically visiting our world, earthly contactees also come to us in protective suits, which are given to them by their curators.

Our planet Gikhor is the ancestor of cosmoenergetics education. Cosmoenergy is a healing, restorative system that uses energies created by extraterrestrial civilizations: the Gihors, our close collaborator - Disaam, the planet - Saama - these are the planets of the Interstellar Union, such as Burkhad, Esler and other planets, which also participate in the creation of these energies in various ways : both hardware-based and so-called psychotelepathic. We create various energy flows, which are then combined into the so-called cosmic energy channels. These channels open, that is, with a special password, their effect on a particular person is triggered. Through my student and contactee Vladimir Aleksandrovich Petrov, I personally and my colleagues conveyed the opportunity to use these channels and the teaching about their work to this person. He was also given knowledge about the possibility of connecting to these channels to other people. This is how a system of cosmoenergetics was created, which is still famous in your esoteric space and in the space of your entire society. The leading schools here are the school of Emil Bagirov, his brothers Marat and Rauf and their many students. Well, and, accordingly, the school of Petrov and his students, who also began to combine cosmoenergetics with other forms of esoteric knowledge. I want to emphasize that classical cosmoenergetics is the only esoteric treatment method recognized today, which is officially approved by the World Health Organization.

Maxim: Yes, by the way, this is probably the merit of Bagirov. He conducted a huge number of experiments. Experimentally, with the help of equipment, he proved the effectiveness of the cosmoenergetics method, showing measurements of a person before exposure to channels and then, measuring a person’s energy after exposure to cosmoenergetics channels. Therefore, many thanks to Bagirov for transforming cosmoenergetics, this esoteric teaching, into a scientific one, that is, the World Health Organization recognized cosmoenergetics as a method of treatment.

Irina: Yes, officially. There is a supporting document.

Voice from the audience: May I ask? Energy of rejuvenation. This is exactly what it is...

Maxim: Wait, are we already asking questions? Do I get it right? Or let our guests first tell us what they look like, and then I'll come up with a microphone and you'll ask questions.

07:25 Appearance of the inhabitants of the planet Gikhor.

Irina: Gikhors look like this: height from 120 to 180 cm, body type similar to Tashigans. He is showing me now: a thin body with long, very flexible limbs, a large head, not pear-shaped, but elongated. Their skin is green, their eyes are black, and they are very thin and long compared to our fingers. Their limb bones are not as rigid as ours, meaning they can move and bend in different directions.

Maxim: Green gutta-percha men with black eyes, with an elongated face, 140–180 cm tall. Great. We will now have questions for these little men.

08:48 Rejuvenation and cosmoenergetics. Channels simlah and sinrah in human harmonization.

Voice from the audience: Thank you! Now they talked about how cosmoenergetics is a very good energy that allows a person not only to rejuvenate, but also to launch DNA, which will then be passed on to generations. Age and everything else will be rejuvenated. I wanted to ask: is cosmoenergetics also a phenomenon of rejuvenation? Is it included here? Or is it something else?

Irina: Yes, indeed, in cosmoenergetics there are channels that restore the hormonal levels of men and women, which can support them in old age and go through this period more calmly. Naturally, it is impossible to reverse this process, because it is caused by genetic factors. But it can significantly slow down manifestations in the physical body and significantly improve well-being and biochemical tests of the body. These are the channels called simlach and sinrah. Indeed, they are compiled by the flows of many civilizations and work to harmonize a person, including working with his DNA.

Maxim: Does anyone else have a question about cosmoenergetics? We now ask him the last question and move on to the next specialist. Because in 20 minutes the reptilians will come to Irina.

10:38 Representatives of alien civilizations about the possibility of contaminating space energy channels on Earth.

Voice from the audience: I have the following question: there is a lot of information that today all those channels of cosmic energy that we have on Earth are polluted due to the fact that a lot of people who used them contributed a lot, maybe to be, students of students, etc. It's no secret that the best thing is to gain knowledge from the original source. The closer you or your teacher are to the source, it is clear that you receive less distorted information. My

question is: is there anyone on Earth other than Bagirov who can give this knowledge, and is there any plan to pass it on to anyone else?

Maxim: Very good, interesting question. Do I understand correctly, do you think that the cosmic energy channels on Earth are polluted?

Voice from the audience: This is not my opinion, just a general opinion.

Maxim: There is an opinion that the channels of cosmic energy on Earth are polluted, and now how can we develop it with these polluted channels?

Voice from the audience: Is this really so? And if this is so, is it possible to give it to us through someone else?

Maxim: I understand. Are the channels of cosmic energy really polluted, and is it possible to transmit this energy directly from the Gikhors?

Irina: Gikhor and that's it. In fact, as I already said, the source of the channels is not on Earth. And since the source of the channels is not on Earth, then in any case, the source of these channels is as initially pure as it was previously pure. This very energy in which you stand has not changed. What do you mean by the concept "canals are polluted" in this case?

Maxim: What does this mean in your opinion?

Voice from the audience: In my opinion, this is what was originally brought into this energy. Well, something was brought in by the people broadcasting these channels. Maybe some other vibrations or frequencies were added.

Irina: No, frequencies cannot be brought in. Silmani says that the number of frequencies is strictly determined for each channel, and it is not that earthlings do not have the right to add any other frequencies, they simply do not know how to do this.

Voice from the audience: In any case, it turns out for today: no matter from which teacher, if he is a certified teacher, we receive cosmic energy channels, they will be absolutely identical to those that you transmit.

Irina: For example, if in one channel a certain number of energy flows that are created only outside the Earth cannot simply be created by earthlings in any form, because in any case, their creation requires knowledge and energy capabilities that exceed the knowledge and capabilities of everyone people of your civilization on Earth. Because for this they use either, as I said, devices, or special psychotelepathic exercises that we have not transmitted and which are unknown. Besides, it would become known. Their work is recorded by our devices. If there is any energy there that does not correspond to the initial transmission of the channel,

then, naturally, this energy is immediately blocked. You don't even need a specialist for this, it's all already built into our devices. Therefore, here is the second question, if you think that the channels are polluted, and we, the Gihorians, choose another person, then there will be no guarantee that they will not say the same about those channels.

14:50 Vlad Pulsar about space energy.

Maxim: Vlad, will you replace it?

Vlad: I just wanted to continue the topic of cosmoenergetics. The question is quite relevant, because most traditions, which initially, as true knowledge, are descended onto the planet by some alien beings, groups of spiritual consciousnesses, they all, indeed, have the chance and opportunity, so to speak, to be "contaminated." In what case does this happen? When, for example, a master who belongs to one or another tradition, he himself is not sufficiently harmonized or consistent with the knowledge that he conveys. This means that the egregor is a local, individual egregor, which grows in the process of the work of a given master, may have some destructive inclusions, it is not entirely balanced, harmonized. In principle, the effect of this egregor is minimized at the moment when you begin to independently practice these channels that are transmitted, because their frequencies are basically always the same. That is, when you go on an individual trajectory, on individual practices, then the egregor to which you were connected at the time of transferring any knowledge is private, home-grown, it gradually lags behind you, and you can go into a completely different story and correspond to those true meanings that were transmitted, for example, by the guardians of cosmic energy channels. Tell me who was announced at the time of the transfer? Did we have gikhor?

Voice from the audience: Yes, Silmani.

Vlad: Naturally, I have my own subjective ideas about the world and what questions you can ask me, what answers I can give you, naturally, in such a semi-flow, so they may differ from someone else. If you are interested, we can continue the discussion or just dialogue.

17:11 Healing fee. Work for donation.

Voice from the audience: I think that you need to look at the essence of what the healer does and how he uses the flows that come to him. The whole point becomes clear: it's self-interest, it's money. Everyone needs to live, survive and heal, it seems that they want and want to earn money. And this concept - money, self-interest, healing flows - it always diverges, naturally, because it seems that flows are good and harmony, healing, but money is still unknown - it is a practically uncontrollable element, easily transformed into both evil and and to goodness. And this is how you solve the process of obtaining funds for living? How do you have to explain that you need to pay for this and how much?

Vlad: Money itself, as a phenomenon of what was created by collective fantasy, the mythology of human civilization, that is, it is a non-existent phenomenon; accordingly, money itself, as a fact of existence, has no basis. The basis is the exchange field, which, accordingly, lies under the money itself, and this exchange field forces a person to carry out certain life processes, including in the spiritual plane. If we take money as a phenomenon of energy exchange, then any energy exchange carried out between people can occur not only through

money. When money is some kind of negative and destructive factor in which this exchange occurs incorrectly or inharmoniously, then this, first of all, reflects the essence of the person himself using this money, energy or this form of exchange. Therefore, whether or not to pay for healing is something everyone decides for themselves. Each guide, depending on what conditions stand between him and his mentor or mentors in the process of transferring healing power. Because someone really works without any reference points, without egregor fields, he simply prays to God, for example, or turns to God and transmits pure light and love to a person for his harmonization or his healing. In this case, a person can also take money, but, as a rule, such people do not take money, that is, they work for donations simply because, by their karma or by their essence, they are such conductors, and through them it flows in abundance. They simply show their way of life, the flows of God, the flows of love and light of God, and with this way of life they can heal or harmonize other people, their events, their problems, their conditions, etc. Before those who are dedicated or work in any tradition, there is an egregorial field; it most often stands even before those who directly turn to God, because everything in our world, in any case, in the noospheric space, is woven from egregorial flesh: a pen, a telephone, the movement of your hand, your body - this is also a type of egregor. Absolute egregor or technogenic egregor does not matter. The only important thing is what a person puts into mental space or into a mental image at the moment of initiation, or at the moment of healing of another person, that is, the energy exchange that occurs depends on the purity of the person, on the harmony of his own ego, his thoughts, his basis as human qualities with the patient, and money here only plays the role of either gratitude or payment for a person's time, because a person spending time on another person, in any case, should receive some kind of energy for it. Not that he should, he can recover himself and not take this energy, but for another person it will be more important to give this energy physically, so as not to create such an equivalent of karma, which will still force him to pay or work out this energy, because The law of conservation of energy remains, including between souls, between spiritual beings.I understand that Ira explains this much more simply, but I am only 24 years old, so while she is resting, I think I will entertain you with some philosophical speeches, among other things.

Voice from the audience: Is there a balance between giving and taking?

Vlad: Of course. If you sincerely atone for a person's sin with your love, unconditional love, you really do not expect any return at that moment, that is, you at that moment, of course, serve the encouragement, healing and formation of another person. At this moment you have no thoughts of getting money or any feedback from him, because contact is taking place at the level of the Higher Selves. This is a pure divine blessing. Therefore, many masters who somehow harmonize or filter a person's karma give him, first of all, a blessing that removes from him part of the burden that trails behind him as a result of any decisions, actions or words that he utters, usually negative. Because the heavy negative karma that trails behind a person's shoulders is, as a rule, very difficult to resolve. Therefore, one has to pray, a person's mental state calls for help from a master, an enlightened one, God, the Universe, in order to alleviate this situation.

23:24 Subjective happiness. Respect for free will. Raising vibrations through prayer in healing.

Vlad: A question of respecting free will. What's the question?

Voice from the audience: When you want to help, but it turns out that you need to give the person freedom of choice.

Vlad: Yes. This is again a story about the fact that if you are not asked, do not interfere. In any message of love, in any message to improve a person's life, give him advice and all those characteristics that appear in a beginning spiritually developing person - this is to help everyone and everyone and give your love, your blessing, and everything that is possible, if only the person , in their opinion, began to live better. During the trip to Elbrus, we talked about a man who drinks a bottle of beer on weekends in front of the TV, and about the phenomenon of his subjective happiness and your subjective happiness. Two different worlds, but happiness as a state in both cases: yours now and that of that guy in front of the TV can be almost the same, that is, he is happy in his own way, you are happy in your own way. It doesn't matter what destructive coefficients he uses at this time, and what positive coefficients you use at this moment. Both are in their own subjective happiness. Therefore, when we try to impose our support or help on another person, first of all, we need to ask permission from his Higher Self. We are with you in a linguistic information space that hears and absorbs your every thought, its intention and essence is determined by the Higher Mind or Your own highest aspect as some specific attitude. At the moment when you wish a person love, goodness, healing or want to support him, but you do not see an outstretched hand from him or the state when he asks for this help from you, then the only way out, rationally observing the laws of free will, is to allow your Higher Self at the level of divine reality, connect and convey this love, this goodness, your sincere message to this person, that is, right in your space in which you are, you can express your intention in ordinary Russian language: I wish healing to such and such according to divine laws, observing free the will of this person. Space will hear you and God will hear you, because we are in a single field of creation, and in any case, your sincere intention will help both the Higher Self of this person and the person himself in further development or in some state of increasing his own vibrations, because spontaneous increase vibrations of a person with the help of prayers addressed to him or unconditional love takes place, and it happens only when this is done unconditionally, unselfishly, of course.

26:40 Healing without direct intervention by turning to the Almighty.

Voice from the audience: And you can consider this action: you are on the road somewhere, you don't think about anything at all, but here you meet people who feel bad. You do nothing but turn to the source and say: "Help him, that's all." Is it possible?

Vlad: This is naturally the true correct decision.

Voice from the audience: You don't know his desire because you are not in contact with him. I simply say: "Creator, send him health, help him."

Vlad: Yes, you don't run up to him, don't shake the person.

Voice from the audience: I just contact him and after a while I see that his condition has improved.

Vlad: That's right. I just need to say, "Everything is right."

Voice from the audience: I just turned to the Almighty.

Vlad: This may be a useful example for someone.

27:30 Self-sacrifice, a sincere message in healing.

Voice from the audience: We are now talking about vibrations, thoughts, thought forms, but sometimes in order to help a person, we have to directly fight with him. When you are dealing with damage, with negative codes sent. Here I have to use fire, and prayer, and the golden cross, and I feel on myself both the devilry, and the demonic, and the dirt, and the so-called larva. By removing these vices from a person, I remove this dirt, I put protection on myself and on the person - here you can't just get rid of it with vibrations.

That is, it's one thing when we change the encoding of a person's body, restart his program, take his original programs directly from the Universe, try to concentrate them and apply them to a person, thereby updating him, and another thing when a lot of encodings have been put into him since childhood, so called, in the form of damage, and the healer himself comes and says: "You will heal me." And I don't know how. "They'll show you," he says. Yes, indeed, after a couple of days or a week they show how, where to do it, in what way, and then the action itself begins directly with the cure. After which rebirth and renewal really comes. He can leave life for 3 days and then return back after a state of some kind of coma. So in this case you have to fight and deal with a world invisible to many people. This world requires the individual to have willpower and support from spiritual, energetic, cosmic, universal, and divinity.

Vlad: Yes.

Voice from the audience: You can't get there on vibrations alone.

Vlad: A very understandable position, because if we remember the karma of Jesus, when a certain being or consciousness sacrifices itself for someone, and the very appearance of this spiritual sacrifice in order to atone for the karma or difficulties, heaviness of other people, it was put as tool in the process of development of our civilization. Many people have it in their genes and moral qualities to help a person through self-sacrifice or some sincere message in order to heal his misfortune, and, indeed, there are cases when a person, to the detriment of himself and in extreme emotional involvement, helps another person, and this is his karma, the karma of the subject and the object. This is his own individual decision, for which he is responsible, and the consequences of which can also negatively affect him if he cannot process it, transform it, heal it and also bring himself to the level of a state in which he would be in harmony with himself and space.

Maxim: Once you are left alone, no one can be torn away from you again.

Vlad: Actually, I'm very worried, and my thoughts are confused.

Maxim: Before the arrival of the reptilians, Kirchiton, which contains 25% of the reptilian structure, is, by the way, Irina's first contactor, whom she simply did not hand over to ufologists for free. When I met Irina, she said: "Ufologists came to me, they sat in the bushes with cameras. I had to give evidence, but I couldn't prove it." I told her: "So what? Did they give you

any money?” She says: "No." Me: “What, free?” And she says: “Well, yes.” I say: “You wanted to sell your own father for free?!” He actually showed his concern in this way, and we deprived him a little. He took part in the process, that is, he showed that he exists, exists, and at the same time he recharged Irina. Even from here you can see her cheeks are red. Harmonized. The Gikhors left with us, the Tikhtians stood by during the process. Well, okay, Irina, who is present with us now before the arrival of the reptilians and Tashigans? Who can I ask a question to?

32:20 Appearance of the Tikhtians. Living conditions on Tichta.

Irina : Miliyar is present here. This means that the Futissians, as I understand it, just want to watch. Miliyar from Tichta. You can ask him questions, he is a leading ecologist.

Maxim: Please describe their planet and what they look like, so that people understand who they are asking the question to.

Irina: Okay. He is a leading ecologist and specialist in terraforming the planets they are developing for life. Lifeless planets are made suitable for life. Tikht is located in the constellation Sculptor. They are short, usually from 110 to 130-150 cm tall, they have white skin and large blue eyes, a head shape like a human, only they have a pointed chin. They are thinner, arms and legs, like those of people, are somewhat similar to Disney, only the shape of the head is different. The Disnit people also have white skin, but they have a pear-shaped head, and these ones have a square skull, they are now showing, with a triangular chin.

Maxim: Where do they live, on the planet? In what atmosphere? And in general, on earth, underground?

Irina: The Tikhtians live on a planet in the constellation Sculptor, its characteristics are very similar to our Earth, but somewhat further from the star, the climate there is colder, on their planet the temperature drops almost like on Mars, to -90 - -1200. They have underground base cities. Of the entire Interstellar Union, they were the last to begin contacting earthlings. Literally in the middle of the 20th century, they were included in the list of civilizations that can officially seek contactees. They have the fewest contactees among the civilizations of the Interstellar Union. Miliyar, who is with me, can answer questions related to ecology and terraforming.

Maxim: Okay, we have a question.

35:35 Ecology on Earth. Ecology of the Spirit in saving the Earth from environmental disaster.

Maxim: I have a question.

Voice from the audience: I have a question. I worry very much about our planet, about the environment. I think that there are a lot of caring people here who are just as concerned about the fate of our planet, people who would like to help our planet. I see in the news how many

environmental disasters are happening due to the fault of our civilization. I understand that now I cannot go and save penguins and dolphins physically, because I am in my place, I am a mother, I have some social obligations. I cannot go and eliminate disasters that occur due to the fault of other people, but I would like to do something in order to make my small feasible contribution to the ecology of our planet. And I have this question: is it possible to give recommendations that each person can do in his own place, as part of his daily life, some simple actions that can help save our planet from a global catastrophe? What exactly can I do? What responsibility can I take upon myself, perhaps on a physical and on some other level, in order to help, in general, preserve the ecology of our planet? Thank you.

Maxim: Very good question.

Irina: Yes, thanks for the question. Miliyar says that, indeed, each person can take their own measure of responsibility for the environment. First of all, they understand ecology somewhat more broadly than just the physical protection of nature from destruction. They understand this, first of all, through the ecology of the Spirit - this is, first of all, the cleansing of consciousness from all destructive forms of thought and feelings leading to the degradation of the spiritual essence. The problems that arise on planets due to the fault of intelligent beings are a consequence of this disorder. Chaos occurs in the consciousness of those beings who manifest on the material plane what is happening in their mental images. The main thing that each of you can do for the ecology of the space where you are is to clear your consciousness, clear your mind and remember that any planet in the understanding of the Tikhtians and many other civilizations is a living being. Why do we think this? Because in its biosphere and noosphere many intelligent entities are embodied in subtle and dense material civilizations; they are the same part of the planet as, for example, its atmosphere, hydrosphere, lithosphere, etc. Therefore, every planet, including the Earth, is an intelligent being. In order to benefit the planet, first of all, you need to cleanse yourself of destructive thoughts in your mind, because it is they that cause negative vibrations that destroy the noosphere, attracting various kinds of low-vibration spirits here to incarnate, which causes consequences for nature and for society as a whole. What exactly can a person do here? I'll start with probably the simplest things: educate yourself and your children in the idea that you need to maintain, firstly, purity in nature, if you start with the simplest. Usually, education starts with the smallest thing - teaching children the idea that they don't need to throw out garbage in the wrong place. This will lead to the fact that such a child, when he grows up, will no longer so calmly throw, for example, production waste into the environment. All this comes from upbringing, and here the position of parents is very important, not only in words, but also in deeds. The second point: raise a child in communication with living nature. This is very useful for the development of his mental and spiritual qualities. I understand that you now live in an urban world where cities are of great importance, but, in any case, try to ensure that your child has contact with wildlife, with animals, with plants, place him in that environment as often as possible. where he will communicate directly with plants and animals. Ideally, you yourself would show him how plants grow, how animals develop, grow and reproduce. Also, in order for him to learn to observe the climate, you need to observe the weather, give him an idea of the starry sky, etc. For example, it is very useful to keep something like an observation diary. For example, what did I see in nature today? This develops observation of these phenomena, and when such a child grows up,he will no longer be indifferent to what is happening around him. It is very important to teach a child, when he is still small and does not yet understand, does not realize what other people's pain is, that small animals and insects around him also feel pain. So that he does not start destroying anthills for fun, for example, that is, in any case, if he does this at a young age, and you do not present him with the correct information that this brings pain to other living beings, then when he grows up, he will already have such mental and mental attitudes in which it will be easier for him to come to negative vibrations towards people, and that this is possible. From all that I have said, one should conclude that the main thing is the ecology of the Spirit. You can find out for yourself about all the actions I have listed and many others that I have not listed, if you yourself are pure and filled with love inside, you will pass on this attitude to your children, and they will naturally take it from you, and then, if the entire planet or

the majority of its inhabitants switch to this way of life, then natural environmental problems, like many others, will simply lose their relevance.

44:18 Observation of the Earth's ecology by alien civilizations.

Voice from the audience: The question is very relevant. I have a question of this nature: are representatives, environmental specialists, currently observers of the ecology of our planet? Why am I asking this question? Because on Andrei Karaulov's channel there was such information that one of our President's associates, who heads the Russian technology industry, participated in the purchase of 100 factories that are environmentally unsuitable for our country, in particular, 4 factories around Moscow, which emit a kilogram of dioxide per year , and already in the Moscow area, where I live, the forest is being cleared. Do they know about this or not?

Irina: We monitor global changes in the composition of the atmosphere, volcanic activity, tectonic shifts and changes in the Earth's magnetic field. Regarding what you asked, this is one of the factors of air pollution and climate change. This particular fact is unknown, because we do not have specialists who would monitor the procurement situation at different plants. In any case, this is my personal opinion: the factor that I cited in the previous answer comes into play again. The person who bought these factories, and the one who built them in general, do not have, first of all, the ecology of the Spirit that I am talking about. In any case, the requirements that have been developed for processing plants of different directions: processing, mining, mining, etc., the standards for hazardous substances in their waste are quite strictly prescribed. I got to know them, and when I studied them, it was clear to me that they were even below the threshold of danger. But, as you know, many violate these laws of your own state. They violate them for a reason, but for many socio-economic reasons. Here I am forced to state the fact that often representatives of the power structures themselves, if not contribute, then in every possible way condone such violations for the same all-understood socio-economic reasons. Regulatory authorities must stop such events. But here it is possible to globally change this situation in your society only over time and subject to the conditions that were discussed throughout the conference by representatives of different civilizations. That is why we, here and through contactees, talk about how to remove the very causes of these phenomena, and not the consequences. It is not just to put in prison any official who has broken the law, but to make sure that he does not appear, and this is much more important.

48:18 Feelings from the influence of reptilian energy.

Maxim: Before continuing further, I would like to tell a small story, very interesting and exciting. I just brought Irina from Povorino; she was just living with Alexei, our mutual friend. We are in Voronezh, and he is in Yamnoy, in the neighboring village. Either with the Pleiadians, then I met someone else there, then some structures, then plasmoids, then demons, I don't know anymore who I didn't meet. I was driving after another shoot, taking Irina to Yamnoye to see Alexey, and I was thinking about my own things while driving. I'm driving and thinking about "heavenly pies", as always: about saving civilization, I'm probably thinking about something like that, inventing something like that. Suddenly I felt as if a stake had been inserted into my head. I almost let go of the steering wheel, I feel a presence - I have already learned through physics to feel that there is something. I say: "Irina, who is this?" She told me: "Oh, Maxim, this is the reptilian Vasya." I say: "Vasya, move away, you make me sick." I mean, in all seriousness, I'm not joking. The energy is so powerful that on a physical level I feel as if something was inserted into the back of my head. I drop her off and think to myself: "Will Vasya stay or not?" Irina looked at me and said: "I'm taking Vasya with me." I say: "Go." Irina, please tell us who is present here now.

49:52 Reptilian from the Mars colony base. Monitoring of asteroid and meteorite hazard for ships and planets.

Irina: Now the Selbet people have arrived, at least we're expecting the Tashigan people. Yes, this is our friend who was in the video. We know him. I remember you, of course, Te Per Khredours. Many have seen this video. He is with representatives of two more colonies. He says that one is a representative of the Selbeta colony, which is also located in the constellation Cassiopeia. I remind you that the constellation Cassiopeia is a huge constellation, and Daraal, where Kirchiton is from, is one of the planets. In fact, there are many planets there. And the second representative is a Selbetian, but he spends a lot of time at the Martian base. The three of them are here now.

Maxim: We just have the opportunity to ask what is happening on Mars?

Irina: The Martian representative says that the colony base can be translated into your language, but it is underground. What is a colony base? It is adapted for long-term living off-grid. Now I will ask what his name is so that I can address him.

Maxim: Te Per Khredours, we know what he looks like.

Irina: He is also a Selbetian.

Maxim: Is he also from Selbet?

Irina: Also from Selbet, only he says: "I haven't been to Selbet for about 6 of your years, I mean I haven't lived there for a long time, because I'm moving around the Galaxy. Through your sounds my name can be rendered as Bariyar."

Maxim: Can you?

Irina: Bariyar. It monitors the surrounding space for asteroid and meteorite danger to ships and planets.

52:46 Harmonization for communication with an insectoid.

Maxim: I'll now tell you a 5-second introduction to this conference. We were filming with a representative of the insectoid planet, and Mead came to harmonize contact so that we could communicate and talk.

She sits and says: "I don't hear."

I say: “How can you not hear? Turn on all the chips and settings there. How can you not hear? How are we going to film it?

She: “I don’t hear!”

So, some kind of workshop, Mid to her there are some energies, i.e. everything is there...

She sits: “I don’t hear at all.”

Meade: "There is one way."

I say: “Which one?”

He says: “Is there any alcohol?”

I told him: “What?”

No, I'm completely serious. We cut this out of the video because we were afraid that they wouldn’t think... And so, when in contact, it seems that she drinks all day long, but in general she definitely drinks! Definitely a drunk.

“Is there any beer?” he says.

I say "No. The moonshine was handed over, it’s been standing for a year now. Will it go?"

He says: "Come on."

Me: “How much?”

He says: "More."

Me: “How much?”

A glass of moonshine.

“Mid, okay, that’s enough,” I say, “her in general..., what are you doing?”

He says: “This dose should help.”

And she's sitting there looking pink...

I say: “Do you hear?”

She: “I’m starting to hear something.”

You know, even though it turns out to be a joke, sometimes you need to adjust. In this case, it was necessary to lower the vibrations to the level of harmonizing with the insectoid. Therefore, Te Per Khredours, I ask you to harmonize Irina not at the level of alcohol, but at a simple level, so that you can move on.

Irina: He says that Bariyar needs to harmonize, because he doesn’t communicate with earthlings very often. Now he will tune in, but I wanted to say that this really happened with the insectoid, and when I saw that Mead and Maxim decided to use this method, I said: “I’ll go, that’s it, to the garden.” Maxim: “Okay, sit!”

Maxim: We work on requests, that is, when we lead a group, everyone asks for insectoids. Invited. And for the first, probably half an hour or an hour, “I don’t hear.” I was upset, but then such questions were good, such answers were great!

Irina: Bariyar says that he would be happy to talk about the base and, if there was such an opportunity, he would show you a video from it, but for obvious reasons this is impossible.

Maxim: He also knows how to joke.

Irina: And Te Per also says that if it were allowed by the Interstellar Union, then there would already be many ships here that want to take you around space.

Maxim: Just a little introduction. You can’t imagine how much work it took to bring the level of contact to what you see now, that is, question - answer, question - answer. Because if you want to see approximately what it looks like, what kind of contact there was in general, then there is a video where she sits in the kitchen and sings nervously. To bring exactly this level of contact is a lot of work, and Irina is so great, she is selfless. For example, when they offered to install a chip or not to install it. What's the problem? Maybe the energy system will break down or the adjustment won’t work. She decisively: “Bet!” She is always in motion, always forward, and at the moment everything you see is the merit of her inner confidence that she can convey something to us, some information through them. Let's applaud. Do you have a question?

57:30 Electronic money of alien civilizations. Possibility of creating a robot with an infused Intelligent Spirit.

Maxim: Technical question?

Voice from the audience: Yes, technical. I wanted to greet the guests. My name is Vitaly, I work in the field of information technology. Do you mind if I ask two questions?

Irina: Okay.

Vitaly: The first question is related to the fact that in our previous conversations we mentioned technologies related to electronic money for paying. As I understand it, this is a more acceptable system. In our civilization, such a technology as blockchain has just recently appeared. I would like to ask if you are familiar with this technology, and how potentially good is it for us in terms of such use? This is the first question.

Voice from the audience: Cryptocurrency.

Vitaly: Cryptocurrency is one of the possibilities for using this technology. Second question. It was told about the Intellectual Spirit, which inhabits a material body that can receive this Spirit. Accordingly, there is an understanding that, for example, technologies are developing, and potentially we can create robots. I understand that you have such an opportunity. Is it possible to create a robot that could be inhabited by an Intelligent Spirit?

Irina: Te Per says: the first question is my personal opinion about electronic money, and the second is is it possible to create a robot that can be inhabited by an Intelligent Spirit?

Vitaly: Yes.

Irina: Okay. On many planets of the Interstellar Union, as already mentioned, there is an electronic form of money. Representatives of these planets believe that this particular form is more convenient... No need to talk through me.

Maxim: I want to say that sometimes it is possible to speak directly if Irina trusts a representative of civilization to speak through her, but here we will not do this, because we do not want to show horror stories.

Irina: For many civilizations, the electronic form of money is a more convenient form of energy exchange in this monetary material form. Our communication system allows us to do this without any difficulties. Regarding the development of electronic currency on Earth. My personal opinion is that it is still a little early, since you have not yet experienced the form of existence of society that should be formed on the back of paper money, paper currency. You are in the process of transition, and making electronic money a common practice for everyone, my personal opinion is a little early, that is, you do not yet have such widespread development of those devices through which such monetary transactions can be carried out, you do not yet have those microchips, through which you can also pay with electronic money, you don't have all this ready yet. Combined forms of currency circulation are exactly what you are going

through now, and this is a necessary stage. As for the further development of your civilization, I see in it the potential for the development of an electronic form of money transfer. Regarding cryptocurrency and the second word you mentioned, I ask you to convey not the word, but the essence of this phenomenon, so that I can more accurately answer the question.

Vitaly: Blockchain is a kind of technology that records data in a chain, relatively speaking, like a kind of network and a kind of record.

Voice from the audience: The literal word is probably too private, and there is no need to go deeper, it's just that in this case of cryptocurrency, blockchain technology provides money, electronic money that is financially independent from the state. That is, it is a completely independent system from anyone. It exists on its own. That's the highlight of it.

Irina: If it is not dependent on the state, then who will provide its value?

Voice from the audience: Now it works for us, there is an exchange, and there are currencies, exchange rates.

Vlad: It's just that the blockchain technology itself is not only about money, it's about the objects that participate in this system, at the same time confirming a specific operation, it cannot be faked.

Irina: In fact, anything can be called a currency, you can also take a piece of paper now and draw yourself 10,000 dollars, but they will not have such an equivalent, you yourself understand why. There is also a currency for which you can actually buy something. Is what you called this currency? If so, what will ensure its cost?

Vitaly: Firstly, reliability and safety, and secondly, limited production.

Probably the energy consumption of production.

Maxim: If I were a reptilian, I definitely wouldn't have answered, seriously, I didn't understand what you answered. What determines the value of a currency?

Vitaly: What is the dollar backed by?

Maxim: US debt bonds.

Vitaly: I'll correct the question. Perhaps you could briefly describe your use of electronic money?

Maxim: What is the currency on Selbet, how is it used, and how is it backed? Is there any money there at all?

Irina: Yes, we also have an electronic form. It is transmitted in the form of electrical signals that encode this or that amount of energy in the transmitter, and is provided by the amount that the Government sets for certain forms of work or goods. We already have a law that ensures on Selbet a certain amount of electronic money, the cost of certain goods, etc. We do not have the same economic system as on Earth; ours is somewhat different. We take into account, for example, not the goods themselves, some metals or something else, but simply the amount of energy.

Maxim: Is it possible to create a robot in which a soul, an Intelligent Spirit, will move in?

Irina: So, if this is a robot, a completely artificial creature, then no. He can only do it according to programs. But if this is a biorobot - a combined organism, an organic being combined with some mechanical parts or cybernetic systems - then yes, this is possible. This exists in many civilizations, and this in no way prevents the infusion of the Intelligent Spirit. But the very structure of the Spirit, united with the life force, does not allow one to unite with the completely inorganic nature of matter.

01:07:16 Protection of alien ships from space debris. The gravitational field as protection of the Earth from an asteroid impact.

Maxim: Yes, ask a question!

Voice from the audience: I want to ask the asteroid specialist this question: a lot of space debris has been left by us, earthlings, around the planet. Does this debris pose a threat to alien ships, and what should be done with it? And the second question, specific to asteroids. Is there a serious danger to planet Earth from an asteroid impact, and who controls it?

Irina: Bariyar says: you have one of my main tasks - to survey the orbits of asteroids that could potentially threaten the Earth, which is why I am at the base on Mars. I work closely on this issue with the Burkhadians who live at the base on your planet. Due to political reasons of some disagreements between my Government and the Interstellar Union, we do not have bases on Earth. But this does not prevent our Government from building bases anywhere in the Solar System or, under an agreement with the owners of bases existing on Earth, from occupying them for its work. As for space debris. Yes, indeed, around your Earth there are already many kilometers of belts of these very diverse objects. Yes, this exists, and many of them, approaching the Earth according to the law of gravity, simply burn up imperceptibly in the atmosphere, especially if this happens on the day side of the planet. If this is a distant orbit, then, naturally, it can fly for many years. As for the danger to ships. There is no danger for our ships, because according to the rules, every ship in space, even the simplest one, must have a so-called plasma generator. It is necessary to create a gravitational jump - for rapid movement in space for many light years, but the same plasma generator by the pilot of the ship or its autopilot can be used to create a plasma field that is supported by external energy. Either the external energy itself, which around the ship, for example, is emitted from a star, or the internal energy accumulated in the power plant. This plasma field has a temperature of several thousand Kelvin, and, naturally, none of the debris can get close to the hull of the ship.

Maxim: Do I understand correctly? When we make a wish, do we make it on falling debris?

Irina: Yes, this happens more often than you think.

Maxim: It just dawned on me.

Irina: Regarding the asteroids that currently threaten the Earth. All potentially dangerous ones are calculated automatically, and if it poses a danger according to the automatic program, this becomes known to us, specialists both from Selbet and from other planets. To protect the Earth from this kind of danger, from large asteroids that can destroy your planet and interrupt life on it, such asteroids actually occur often, especially since the Earth, together with the Sun, flies through the space of the Galaxy, which also has its own star systems, and, Accordingly, asteroids, bases have been built, including on the far side of the Moon, in the asteroid belt itself, on Mars and on the Earth itself. In addition, there is also a base in space, in outer space, I mean in airless space, but they are outside the ecliptic of the planets, that is, in those places where they can be safely based and not be detected by your scientists in order to avoid premature mass contact. Yes, I didn't say: the bases exist so that if there is a real threat to the Earth, these asteroids will be deflected by the gravitational field or sent there ships that can stop this asteroid by directing the gravitational field at it as if for a jump, only in the opposite direction side. He will turn his angle and fly past.

Maxim: Do I understand correctly: our humanity has nothing to worry about or be afraid of? Otherwise, we are making global plans for nuclear bombs aimed at asteroids, developing a space industry that supports what it cannot see, right?

Irina: Many asteroids are deflected before they are detected by your instruments.

01:13:19 The reasons for the appearance of people with low vibrations in power and politics. Overpopulation of planet Earth.

Voice from the audience: Hello, my name is Olga. I want to ask a question in the area of the power-political aspect, something that concerns other states and Russia, in particular. Our societies are run by people with not the highest vibrations - there is such a negative selection in power. Personally, I see a certain injustice in this, but I understand that this injustice has its own laws, or rather, its own patterns. In this regard, I would like to ask a question: what do you think this is related to? There are all sorts of ideas, in particular ideas related to the overpopulation of the planet, with an excess number of so-called eaters, when the value of each individual and specific person is minimized. People who think this way are mostly found either at the helm of financial instruments or at the head of political power structures. I'm interested in your opinion: why did this happen? Who or what gives them such ideas? Where do they even come from, and who supports them?

Irina: How can you, earthlings, talk about overpopulation on a planet where tons of food is sent for processing or even disposed of at a time when in other cities or countries people are dying of hunger?

Olga: Exactly, it's illogical.

Irina: In any case, this is not a problem of overpopulation. This is the problem of distributing the products you have already produced and the things that exist with you. My personal opinion is that the distribution should be made according to strict laws that must be passed by your government agencies. But for reasons that are quite clear to me, and to you, this does not happen. If the reasons are not clear to you, then I will tell you them. It's Tae Par who answers.

Maxim: Te Par is a charismatic person.

Irina: The thing is that those legislative bodies that pass the laws of your states are least of all interested in the distribution of the products you produce in order to ensure uniform development. However, their goals are somewhat different. Now I mean real goals, and not those that they declare. But here it will be no secret to anyone that if a person from your society has decided to build his career in power structures, then he already has some plan of action within himself. This plan includes his realization as an individual, the acquisition of those things, wealth that he is deprived of outside power structures, and the satisfaction of that power instinct that exists in each of you due to the nature of your body. These three main goals constitute the majority of the reasons, and in general the desire, to come to these structures to govern or make laws. Why did it happen this way? Why didn't the opposite situation develop, which the entire Interstellar Union wants to see, and which is that those who want to help come to power? I remind you that Tae Per Hredours answers. My personal opinion is that this is due to your history and those egregors that have already been created in the noosphere of the Earth. Again we return to the ideology of society. The dominant ideology of society, which is supported by science and government power, is materialistic. Individuals brought up in a materialistic ideology, if they have a plan to come to power structures or legislative bodies, are guided by the same materialistic model. You know very well what it is. To put it in simple terms: I am a person on this Earth, I am here temporarily, and my task is to settle here and arrange my children and relatives as best as possible for their body. It is from here, from this model, that all the consequences that I have just given follow. Therefore, I emphasize once again that changing this model is only possible by changing the original idea, that is, by changing the materialistic model to what you call in different words: spiritual, esoteric, maybe even religious somewhere. But due to the fact that you, people, are already a historically established civilization, many generations have grown and developed in this environment, and those egregors that are responsible for the development of materialistic ideas have already grown and developed. To reverse this course of events, to change the vector of development to the opposite, you need to spend not only a lot of effort, but also have the courage to start changing this world from yourself. It is you who can become an example for the people around you, for the next generations who will come after you, an example of the fact that the real value is a person's life, the Spirit of a person, and all those material acquisitions for which he can come to power, legislative bodies or simply secretly from a neighbor to steal his property - there are many ways to do this without his knowledge and even with his consent.All these forms of consciousness must become a thing of the past for your development. Whether they become a thing of the past depends only on you. What you bring to others depends on each of you who sits here. Not from your words, but from your real actions, because a person, be it a child or an adult, is designed in such a way that he observes and believes only real actions that can be seen. You all know from your own experience that words are changeable, like the wind, so each of you is responsible to yourself, to God and to the planet for your own development and for the development of those who follow you. Show what is a priority for you in your life, and then other people, seeing that you really live it, that you like it, that you are not dull, sad creatures who envy those who are materially rich, but truly happy people, even happier than them. You can interest them in this and lead them on the path of spiritual development and, more importantly, their children. I see this path as the only one in your development.

Maxim: I haven't heard this for a long time. Ask questions.

01:23:38 Nutrition of reptilians on the planet Selbet.

Voice from the audience: Did Kirchiton show you that they eat plucked parrots? Some birds.

Irina: Yes, like ostriches.

Voice from the audience: What do the Selbet people eat? How varied is this food?

Irina: Selbet people, like us, are omnivores, but they have a genetic advantage towards predators, since they evolved from them. And only then, through genetically targeted mutations, did they develop the ability to eat and assimilate plants. That is, in fact, they are now omnivores. What are they eating? They have, for example, life forms in the oceans like our fish, birds and lizards. In general, their planet Selbet is poor in mammalian life forms; mostly reptiles live there. They evolved from irrational reptilians into intelligent ones. They had a natural evolution, they are not hybrids. There are many forms of non-intelligent reptilians, something like our lizards, only they are larger. They also catch them, but not themselves, but with special robots; they themselves have not been doing this for a long time. They feed on what lives on this planet, and, naturally, since they are in the Interstellar Union, they transported from other worlds those plants that suit their genetics, and grow them on their planet, at their bases. He now says they have a more varied diet than their ancestors had.

Voices from the audience: Did they also take anything from the Earth? Do they eat people?

Maxim: Please tell me, do you eat people?

Voice from the audience: How to cook them?

Maxim: And what's the best way to bake it?

Irina: He says that, firstly, the earthly form of biological life does not suit them. The animals of the Earth are generally not suitable for them without serious transformations, that is, individual proteins can be used, but the collection that exists in living organisms is in many cases generally harmful for them. I wouldn't say it's poisonous, but it's difficult for any animal to digest.

Maxim: Even reptilians cannot digest us properly.

Irina: Our ancestors were large reptiles, predators who fed mainly on smaller reptilian creatures on our planet. Therefore, those forms of reptiles that are of the same nature, that is, not mammals, are suitable for us to eat. Even your terrestrial reptiles, due to the nature of their

diet on Earth, are poorly suited for our diet. Almost no one used them; we have enough of our own types of food.

Maxim: They ask you to ask a question about alcohol.

01:27:33 Use of minerals and rare metals of planet Earth by alien civilizations.

Voice from the audience: Hello, my name is Andrey. I would like to know: do other civilizations use planet Earth as a resource to extract minerals and rare metals for their consumption?

Irina: They are used only if it is needed for a base on the Earth itself, and then only those metals and minerals that are on the planet itself and preferably in the immediate vicinity of this base. Because it's easier to get them on the planet itself than to bring them from other planets. Likewise, on other planets and bases, it is easier for us, the Interstellar Union in general, and any aliens to extract resources on those planets than to bring them from Earth, because the geological structure of many is similar.

Voice from the audience: Were there any developments in the past? Because they find huge quarries similar to what was produced in huge volumes many thousands or millions of years ago. The Grand Canyon in America, for example.

Irina: What you call canyons are largely traces of tectonic faults and cracks that appeared during the war, after the war, and then after the restoration of the Earth's orbit as a consequence of volcanic eruptions and tectonic shifts.

Voice from the audience: May I ask a question?

Irina: Yes.

01:29:03 Temples, rituals, religion among reptilians. Life expectancy and reproduction of reptilians.

Voice from the audience: Do you have temples and rituals associated with birth and death on your planet?

Irina: What religion? And are there temples?

Voices from the audience: Where does the body go when it is buried? Some kind of rituals. How many years do they live?

Irina: They live about 700 years. About religion. We do not have any more or less organized religion that would require temples. We have a polytheistic system, that is, we can say we have a system of different gods. What we call God is not exactly what you usually call it, that is, some kind of supernatural being that fulfills the requests of believers. For us, God is rather an employee responsible for one or another sector of space, helping it to develop. We clearly understand that the ritual is needed not by God, but by the believer himself in order to create an energy image and charge it with the faith of this person. We have a slightly different form of consciousness, which is the manifestation of the Spirit through our brain, and therefore we do not need such forms of rituals as yours. We can simply mentally communicate with our gods, I have already said who we called gods, and they answer us - this is such a form of contact. No ritual actions are required for this, but, naturally, they are not prohibited. If someone wants to create a new religion on our planet, then this will not be prohibited. But I personally doubt that this religion in anything similar to earthly forms will be successful in our society. For obvious reasons, there is too much difference in consciousness. Regarding birth and death. The intelligent creatures of Selbet are oviparous, that is, we have men and women, but our women lay eggs. They showed a very detailed picture.

Maxim: Did they show a picture before the eggs appear?

Irina: Yes, they showed exactly the whole process and, moreover, quickly, like in a movie. We have forms of marriage similar to your earthly ones, but in our case, birth occurs through the laying of eggs. One woman can lay several dozen eggs during the mating season.

Voice from the audience: Monobracs or different marriages?

Irina: In our society, in this regard, there is complete freedom: there can be mono, there can be several beings, men and women, united for one family.

Maxim: As I understand it, this comes from reptilians, right?

Irina: And not only. He says: “If we now show you the process of birth on our planet on our, one might say, television, you will not only laugh, but it will be strange for you. Yes, another form of life, and the contactee is laughing now, because, indeed, I, as a representative of the planet, showed her images from conception, even a little before conception and ending with the laying of an egg, which she stubbornly wants to call birth, but this is not really the case.” .

Voices from the audience: Who then raises these children? How long is the incubation period?

Maxim: Are there any other serious questions? Have the Tashigans approached us? Is there a Tashigan here?

Irina: Yes, there is a Tashigan here, and a representative of the colony, which is located in the constellation Reticulum. Now they asked what is the incubation period of an egg from laying to the emergence of a Selbetian, or rather a child, from it. He said approximately 38 Earth days.

Voice from the audience: What is the life span of a Selbet resident?

Irina: 700 years.

Voice from the audience: Don't they have overpopulation?

Irina: They have colonies.

Voice from the audience: Do they bury or burn them? What are they doing?

Irina: He says they are being recycled. They do not have a cemetery, a crematorium in the real sense, and the deceased body from which the Spirit came out is processed, very similar to the Daraalians, by the way, in this, and these proteins and nutrients are used to feed those animals, which they then eat themselves. He says that now Te Par is a little surprised, because in fact, the fruits and vegetables that we eat are also largely grown on corpses. In any case, they grow from those people and animals that were previously buried in the ground.

Voice from the audience: They make compound feed.

Irina: He's showing it to me now – like powder. Kirchiton showed me something similar, they feed the Guftembrians there - these worms that the Daraalians feed on, they also feed them with powder, including from the bodies.

Voice from the audience: Waste-free production.

01:37:15 Astrology. Reasons for naming planets after ancient gods.

Voice from the audience: I have the following question: on Earth there is such a science as astrology. But astrology in our understanding is about space, about planets, and very often they say either a parade of planets or an eclipse. So I would like to ask: in fact, how much do these planets that astrologers tell us about affect us, and what should we do at this time? The fact is that not all people even know, not everyone has heard about it, but they lived and developed well. How do they feel about this and do they study it at all? And how does this affect them? What should we expect from this, not expect or not pay attention to? What to do? How to live?

Maxim: The question is how to live with a reptilian? I'm kidding.

Voice from the audience: No. How to react to these planets?

Irina: Astrology is a descriptive system that has no relation to real planets, bodies of the Solar

system. All the planets that are indicated there are symbols of processes occurring in the Spiritual world. This is like numerology: all numbers are symbols of processes occurring in the Spiritual world. There is astro-numerology, which was developed on Esler, and MidgasKaus will better tell you about it, according to which certain data of the incarnate Spirit are calculated. What is astrology? Each planet is associated with certain qualities in a mythological or esoteric way. For example, you know that planets are named after ancient gods. This is not all by chance. In any case, these names reflect astrological characteristics, that is, the planets were called so by those priests who had contact with these gods. In ancient times, only the priesthood observed the planets at that time; there were no scientists in the real sense.

Maxim: Here we need to clarify a little the point - “behind our gods.” What does he mean when he says “god” in relation to those priests?

Irina: I mean that people deified both humanoid aliens and representatives of plasmoid civilizations, and it was quite common to deify a person who was a hero, soldier, warrior, doctor or leader, who after several generations in stories or legends became a god . This also happened quite often in those performances. When they observed the stars and planets, they gave names of gods, but these names, naturally, were not accidental. According to the Interstellar Union, these names were communicated to the priests by representatives of various civilizations, both humanoid and plasmoid, with one specific purpose - to enable the priests, by drawing up astrological charts, to find out who incarnated and for what purposes. In any case, the map of the sky, which is called the natal chart, at the time of birth and in the place of birth that exists, reflects the position of the planets in the sky, their aspects, their degrees, where they are, the relationship between them, and since all planets spiritual qualities have already been given, as I already said, then the quality of the Spirit that has become incarnate, the born person, is calculated from this. All this data is naturally known to the Angels, Consultant Spirits of the 22nd level of the Spiritual World, who calculate and plan which Spirit will be born, in what place and when. That is why there is no random place, time and date of birth.

Maxim: Our next question is the penultimate one at this conference.

01:42:31 Egg or chicken on Selbet.

Voice from the audience: The question is addressed to the residents of Selbet, representatives of the reptilian race. For earthlings, for as long as we have known ourselves, there has been a very important existential question that still has no solution: which came first, the egg or the chicken? Who appeared on your planet first: the egg or the Selbetian? Or do you not ask yourself this question a priori?

Irina: Naturally, first the Selbetian himself appeared, not the Selbetian, but rather an irrational creature in which that natural DNA mutation appeared, which made it possible to give birth to a body for the infusion of the Intelligent Spirit.

Voice from the audience: So, it is possible, accordingly, to transfer this to earthly inhabitants who are also oviparous? Do I get it right?

Maxim: Do you think that there are people on Earth who lay eggs?

Voice from the audience: No, animals that lay eggs.

Maxim Rusan: Yes, you can shift it.

01:44:00 What is higher than the Supreme Mind.

Voice from the audience: How Maxim says the final question. A little introductory part, it's a little longer. I think everyone has seen a video on YouTube, where there is a lecture for FSB officers, and the lecturer is trying to prove, back in Soviet times, that God still exists. Probably many people have seen it. Let me briefly say: the lecturer gives a theory - stone, cabbage, goat and man. Levels of development. There was an interesting fact: when a goat eats cabbage, then for the goat it is divine intervention. The lecturer brings everything to the question: why did we suddenly decide at that time that everything ended with man? What is the Higher Mind for a goat, or rather for a cabbage, the Supreme Mind is a goat, and cabbage cannot understand a goat, this is not its measurement, not its understanding. Just as a person cannot understand higher, further. We have now received information, it has become clear to us that we have also risen, let's say, to another level, that is, to the level of the Supreme Mind, which, let's say, owns our Universe. Do our alien partners have such information that is above this Mind? I am summing up the theory because, as if also using the example of this lecture, it is probably not worth assuming that there is nothing higher. But if we move to a more everyday level, let's say this: our Supreme Mind created our Universe, but why can't we assume that there is another Supreme Mind that created another Universe. For example, they meet and also talk: I created such a Universe..., and I am like this..., - they share their impressions - I have such a piece...

Maxim: Let's drink to your health!

Voice from the audience: Yes, somewhere like that. Is there any knowledge about this? Are there no, that is, are there theories? What's next? What is higher than this Supreme Mind?

Irina: There is only one theory: the process of cognition is actually endless. If now I say that God was created by another God, then it will be impossible to stop there. Do you understand what infinity is? If not, I'll tell you now. I will ask the contactee to draw a circle on paper and ask you to find its beginning and end.

Maxim: Let's do this... This was not the final question, with goat and cabbage, and I don't want to end with the FSB. Have a question?

Voice from the audience: Yes.

Maxim: Look, we have representatives of Tashig here - these are gray little men who supposedly terrorize everyone, kidnap, mock, put chips where - it's not clear, then take them out, nose bleeds... I was joking...

01:47:41 Galactic news from the Tashigan people.

Voice from the audience: If you mean that we offended this representative with questions, then I'll just ask, and then they'll decide. The question is the following, it may be a little non-standard, but it will most likely bring us closer to understanding what is happening: could you at this second in real time read or voice some news from your Universe, from your planet, and if it is most likely , will be incomprehensible to us, then explain it in some form. This is not a trick question, don't think about it, this is a question that will bring me closer to understanding what is going on with you. Thank you!

Maxim: Apparently, I spoke rather rudely towards Tashig.

Irina: This is a question for a representative of which planet?

Voice from the audience: Who cares?

Maxim: To Tashig. What is the latest news from the Tashigan people that he heard, and for him to explain it to us.

Irina: About our planet or about the Galaxy?

Maxim: In general, what kind of galactic news do they have? Bombastic galactic news in all the headlines especially for the Tashigan people.

Irina: I see. The Tashigan man, whose name is Raamsi Kuru, is one of the leaders of the Tashigan sector of the base on the far side of the Moon. What's the news about the planet, the Galaxy, that everyone is talking about? He says the latest news is related to science. In the gravitational radiation of black holes, indicators have been found that indicate the transition of some quanta into others, that is, those types of energies that transform into others. This may indicate that, under certain conditions, not only plasmoid civilizations can travel through black hole portals, but also ordinary ships of dense material civilizations can travel under a plasma field that corresponds to the characteristics of some plasmoid civilizations.

Maxim: I understand, that is, some new type of energy has been found that can envelop the field of a ship in order to travel through black holes.

Irina: This hypothesis is based on studying the very characteristics of the gravitational constant of black holes.

Voice from the audience: What about the climate?

Maxim: Let's ask one last question about the climate. Only to the Tashigan.

01:51:40 Evolution of the Tashigans. Food on planet Tashig.

Voice from the audience: Who do they eat?

Maxim: Tashigans? I understand. Cool question. Please tell me what form of nutrition you have? What you eat? Do you play sports? Do you eat meat? Do you eat herbal remedies? Do you have any pills?

Irina: Our nutrition is based on liquid form. Now he's telling me: "They have liquids, capsules and special, one might say, tablets, powders, which contain all the substances we need. The fact is that we evolved from creatures somewhat similar to your fish, which lived in the water for a long time. Either way, we evolved from creatures that recently emerged from our ocean. These are not fish because they have a different structure. These were underwater creatures, that is, they gradually adapted to the atmosphere, came to land, began to evolve, and they became intelligent Tashigans." The method of reproduction is similar to that of Earth, but they are not mammals. When a child is born, they give him special food. In nature, he immediately began to feed on the species around him: I would not say that these are plants or animals - they are something like some kind of algae, they could eat small living animals from the shell, for example.

Voice from the audience: Do they have heat treatment?

Irina: No, but they have factories. They do not need to cool or heat food. They just have containers of this substance and they absorb it. They have had this diet for many thousands of years.

01:54:04 Targets the "Cassiopeia" project.

Maxim: Thank you very much! In fact, I've been living with aliens for a whole year now and I go for walks on the balcony, each time I find it more and more interesting. I am not surprised at how possible it is to ask these questions, to what extent it is possible to receive these answers. Let's just applaud Irina, our guests, for this conference. I want to thank you all for your presence and trust, because for us the most important thing is trust. We are not putting on a show, we are trying to convey to people through such a structure that the world is so beautiful and so diverse, and we don't know so much, so we remove low vibrations, go to high ones, understand what it means to love yourself, what joy, happiness are, enjoying life. You are never alone, there are always your Spiritual Guides with you, who accompanied you into this incarnation, there is always a Guardian Angel with you, only if you have not yet abandoned him yourself, and due to how much you project yourself, how much you feel, how you think, you have curators on the astral and mental level, but mostly these are subtle-material civilizations, humanoid civilizations in rare cases. Basically, these are subtle civilizations that give you knowledge that guides you. I want to repeat once again: the task of the Cassiopeia project is to give spiritual knowledge to people, to enable a person to understand for himself what his highest spiritual structure is. We will specifically develop a program for communicating with the Higher Self, we will teach people in our school according to the structure of donation - payment according to the heart, we will teach only those people who are ready to continue to give this knowledge in exactly the same structure. Why did we decide to do this? Because, unfortunately, people who receive opportunities for contact with

extraterrestrial civilizations play too much with their egos and instead of giving this knowledge and raising the level of awareness of the perception of the entire civilization, they just raise the level of their physical condition, thinking, that they buy themselves a happy life without thinking about anyone else. Our project wants to take care of all those people who trust us, and we are ready to give feedback to everyone. I will not say that we will be able to accept everyone, but we will at least give the opportunity to unlearn and pass on this knowledge in the form in which we can do it. Thank you all, thank you very much for the conference, we look forward to seeing you next time. We are waiting for you at our school!

June 12, 2020 (part 3)

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

Vlad Pulsar – contactee;

Aunika Larisa Nazarova – contactee;

Guzel – contactee;

Silmani Grikhtori - representative of the planet Gihor, a specialist in creating external fields for restoring external energy structures of humanoid types of civilizations;

Miliyar is a representative of the planet Tikht, a leading ecologist, a specialist in terraforming and bioecological restoration of planets;

Omo Mackerius - representative of the planet Tikht;

Te Per Hredours - representative of the planet Selbet, biologist, ecologist, transformer of genetic information in the cells of reptilian-type humanoids;

Bariyar is a representative of the planet Selbet, a specialist in monitoring the surrounding space for asteroid and meteorite danger;

Raamsi Kuru is a representative of the planet Tashig, the head of the Tashigan sector base on the far side of the Moon.

#110 Periodic table, Nikola Tesla, parallel worlds. Ether - life force?

https://blog.cassiopeia.center/tablica-mendeleeva-nikola-tesla-parallelnye-miry
https://www.youtube.com/watch?v=AUnsqhQ1phE

00:17 Presentation of conference participants.

Konstantin: Hello, my name is Konstantin, I am from the city of Belgorod.

Irina: Hello, my name is Irina Podzorova, I am a contactor with extraterrestrial civilizations. And today Raom Tiyan, a representative of the planet Burkhad, the capital of the Interstellar Union, will answer your questions. This is one of the races that created our bodies. Raom Tiyan himself is a specialist in energy interactions in the material world, i.e. it's like our physicist. He says he listens carefully to the questions.

01:0 1 D.I. Mendeleev - astral contactor of the Pleiades . The main differences between the Periodic Table of Mendeleev and the structure of the atom from the point of view of the Interstellar Union.

Konstantin: Was Mendeleev a contactee because he saw his tables in a dream? For example, in the 1906 periodic table, the elements X and Y were in place zero, which were later named newtonium and coronium. What did he mean when he included these elements in the table? I would like to hear the opinion of representatives of the Interstellar Union. And they say that our table differs from the table of the Interstellar Union. I would like to know the differences.

Irina: Mendeleev was a contactee, but an astral one, not a physical one. Representatives of the planet Raom-Li contacted him. It is a colony of Burkhada and is located in the Pleiades cluster. They contacted many scientists. Your table is based on the planetary model of atoms, and we do not adhere to it. For example, you have all the elements arranged in order of increasing number of electrons, but at the same time you have the doctrine of isotopes, which says that the atoms of one element can contain different numbers of electrons. We can say that these are two different elements, but they have the same properties. We don't count by the number of electrons. We take into account elements according to vibration characteristics or, as you would call them, according to frequencies. For example, how is oxygen different from hydrogen? As you know, they consist of atoms of the same structure. Those. speaking from the point of view of our science, there are three levels of energy in every atom. Oxygen, hydrogen, and other elements are made up of the same material particles called atoms. But

how are they different then? From the perspective of your science, these elements differ in the number of protons, electrons, neutrons, everything that is included in your atoms. But, at the same time, you do not have a clear understanding of what energies the subatomic particles you named consist of. You split atoms, look at the resulting energies, call them by different names, study their properties, etc. But when an atom splits, different types of energy are released, at different levels and in different quantities. And you have the same energy, which was released under different conditions, in different quantities or in different directions, can be called by different names. And you will say that, for example, a neutron consists of several quanta, or that an electron consists of several quanta. But, in any case, you call the same energies by different names, and you discover new ones all the time. But it only seems so to you. You are not discovering new ones, but registering the same energies at a different speed and giving them new names. And at first glance, our concept of the physical world is simpler. Oxygen differs from hydrogen in that the atoms contain different frequency characteristics of the energies of the first, second and third levels. This is why, for example, oxygen and hydrogen together make up water. It depends on their individual properties. You teach that one oxygen atom attaches two hydrogen atoms, and you call this valence, which depends on the number of electrons in a free orbit in the element. And you say that the more free electrons, the greater the valency and the ability to attach atoms. You believe that the ability to attract atoms of other elements is an electromagnetic property. You call an electron a quantum of electromagnetic radiation. He is both a particle and a wave. And at the same time you saythat one of the types of electromagnetic radiation helps atoms to attract and form molecules of the same or different elements. This is not the case with us. For us these are different interactions of energies. What you call electromagnetism, for us, is the first level of energy. What you call valence, the attraction of atoms, is our third energy level, which is called microgravity. Therefore, we do not have a similar table in which we could figure out how many electrons there are. For example, oxygen has 8 electrons or hydrogen has 1. In our language we say that in an oxygen atom the microgravity vibration is 8 times stronger than in hydrogen. This is simplified. Therefore, we arrange them by frequency. And we have no dependence on atomic weight. For you, the very concept of atomic weight used to depend on hydrogen, as far as I remember your history, and now on carbon. Our atomic weight or atomic mass is the microgravity component, that is, the third level of energy. And we explain all physical, chemical, electrical and other processes, as well as gravitational and quantum interactions from the position that the atom has a structure that is uniform among all elements, differing only in the amount of structure and the interaction of different types of energies with each other.

11:00 Potential and mechanical energy.

Konstantin: For you, energy is a vector quantity?

Irina: Do you mean that the energy itself moves?

Konstantin: Energy, as I understand it, has vectors.

Irina: This is the direction of movement. But there is energy that is at rest. You call it potential. This is the same third level of gravitational energy in atoms. Those. it may be in a state of unmanifestation. For example, a stone lies on the ground. If we consider only their gravitational interaction, then the molecules of the substance itself that makes up the stone are influenced by the Earth's gravitational field. In order for the stone to start moving, another energy must be applied to it. What you call mechanical energy. If someone takes it and moves it into space, it means that someone will act with their energy and temporarily direct it in the opposite direction from the Earth's gravitational field, that is, give it a vector.

13:30 Dense material world from the point of view of the Interstellar Union.

Irina: We do not believe that the energies that we have listed for you are composed of particles. We believe, on the contrary, that the entire dense material world consists of energies, at a certain frequency of vibrations. This is what we call everything that relates to the periodic table, i.e. all substances. Even the most rarefied gas, in which there are atoms, is, in our understanding, also a dense material substance. Microgravity, which is in the atoms themselves, either attracts them close to each other, and then we see solid matter, or, under the influence of various internal or external energies, partially comes out of these atoms, and they are located further apart, and this passes into a liquid or gaseous state.

14:30 Physical vacuum. Free energy of vacuum, its composition and state of aggregation.

Konstantin: I would like to talk about the physical vacuum: how rich its composition is, how many elements there are and its properties. It is clear that there is temperature, density, pressure. But what is its state of aggregation under normal conditions, for example, in space or, conversely, in a crystal, in the earth? Are there opportunities or conditions for us to change the state of aggregation of the physical vacuum?

Irina: Raom Tiyan says that he now has the feeling that you are calling a vacuum something different than what we are all used to calling it. Please give me a definition.

Konstantin: We were taught at school **that** a vacuum is an airless space. I am, of course, referring to the medium through which light passes from the Sun to the Earth. A medium in which not only electromagnetic waves travel, but also gravitational waves. An environment in which there are no dense substances, or they exist, but they do not interfere with anything.

Irina: Do you call only those substances dense material that are in a state of aggregation or also electromagnetic energies and other radiations? Those. Are you interested in the free energy of the vacuum?

Konstantin: Free energy of vacuum, its composition, state of aggregation and the possibility of changing its state of aggregation.

Irina: What do you understand by the term “aggregate state of energies”?

Konstantin : By analogy with our earthly states of aggregation: these are gaseous, liquid and solid states of matter.

Irina: So that I understand better, please explain what your ray of light that came out of the Sun is, and in what state of aggregation it is?

Konstantin : A ray of light is a quantum or capsule in which a standing wave of a certain frequency moves.

Irina: We use these terms when we talk about dense substances. When we talk about energy, we talk about vibrational frequency. This somewhat determines your electromagnetic frequency scale. Only the frequency of the free energy of the vacuum is much higher than what your usual earthly instruments can register.

17:55 Extracting free energy from vacuum . Experience with a generator for energy extraction.

Konstantin : Nikola Tesla at one time, answering questions from journalists “Where do you get your energy?” said: “Energy comes from the ether. I cool it down and turn its energy into electricity." Are you talking about a heat pump?

Irina: By cooling he meant reducing vibration, i.e. when one energy is transferred into another. What type of energy it was I will be able to tell when I hear how he did it. A more detailed description is needed to understand what process we are talking about. Otherwise, anything can be assumed here. If you are interested in extracting free energy from a vacuum, then there is such a possibility. But the Interstellar Union does not consider such extraction expedient when spending energy equivalent to moving interstellar ships. If we talk about intergalactic movements, then yes, because... more energy is needed there, because the Galaxies are located too far from each other in space for a conventional gravitational engine to operate effectively. You need a lot of fuel there.

Konstantin : I already realized that extracting energy from a vacuum is unsafe for us, so I want to extract energy in some other way. In particular, a heat pump. That's why I'm turning to you to understand these processes more deeply.

Irina: It is possible to explain, without showing the device itself, how the circuit works, because they can be different due to different building materials. You can explain the principle as you understand it, and I can give my comment.

Konstantin : One of the generators works as follows. A capacitor - a metal ball - is installed in the space, and a frequency of 1 MHz with a fairly high voltage above 4 kW is driven there in periodic portions (modulated). The environment around this capacitor, from my point of view, reduces the density and scatters. After this portion of excitation in this environment is turned off, the environment tries to compensate for this discharged state, and this happens periodically. That is, we first expand the vacuum and accelerate the ether. And when we turn it off, it begins to return to its original state. Next to this source of excitation there are several receivers that capture the processes occurring in the environment and generate energy, which, in the end, produces more than was expended.

Irina: Electrical energy?

Konstantin : Yes, finally.

Irina: You have a conductor through which you conduct it to a certain medium, as I understand it, to a closed vessel in which an airless space has been created.

Konstantin : No, this was all done under our normal conditions.

Irina: Then what is the environment around the ball?

Konstantin : Interatomic.

Irina: Substance?

Konstantin : This is a physical vacuum, ether.

Irina: I mean, did you create this ether artificially on Earth?

Konstantin : No, these are our normal conditions, our atmosphere.

Irina: Do you think that without removing gases from this atomic space, it will be a physical vacuum?

Konstantin : It is present between gas molecules.

Irina: How will you remove the interaction between the energies that you released and the energies that are in the gas atoms?

Konstantin : They are polarizing, I suspect so.

Irina: The type of energy that you release is a radio wave, electricity, magnetism?

Konstantin : Yes, this is an electromagnetic field. This is a bundle of vibrations.

Irina: If there is no vacuum around, then those energy collectors that you have and that receive electricity, in any case, receive electrical interactions between the atoms that are in the air, in any atmosphere. What we call atmospheric electricity. With this radiation, which you can direct there, you can push out the energy of the first level and partially direct it to some devices, so-called catchers. But this is not considered vacuum energy.

26:00 Magnetic energy and magnetic field.

Konstantin : That is, by ionizing the air and gases in the atmosphere, we can get to those peaks where electric potential is present and create a channel for these charges that are at the top to descend closer to the Earth. So?

Irina: You mean atoms that are unstable in their energy system, i.e. gas atoms in the ionosphere?

Konstantin : I don't know. It is unlikely that we can ionize gas to the ionosphere. Don't think.

Irina: That is. do you want to receive energy from the Earth's magnetic field, converting it into electricity?

Konstantin : I would like to know, what is magnetic energy?

Irina: For you, magnetic energy is inseparable from electricity. Because you call it all an electromagnetic field.

Konstantin : We call radio transmission an electromagnetic field, i.e. broadcasting that occurs in our country through an electromagnetic field. But we have an electric field. For example, if we take a comb and comb our hair, and after that we bring a piece of paper, then this paper will begin to be attracted to the comb. As I understand it, in your terminology, this is electrical energy.

Irina: What you just called electrical energy also contains what we call the release of magnetic energy. Magnetic energy exists not only in the atoms of some metals. This is one of the types of energies of the first level, which is found in all elements in different quantities. And their interaction with each other creates different magnetic fields. In other words, a magnetic field is radiation created by the magnetic energy of a particular cluster of atoms (which are strictly individual for each celestial body, for each star or planet), from which, for example, our flying ships can be repelled and attracted. There is a special planetary engine using magnetic fields.

29:00 Electric charge and its explanation from the point of view of the Interstellar Union.

Konstantin : What is an electric charge? From my point of view, this is a discharged state of the ether.

Irina: What is ether?

Konstantin : They took two magnets, put one on top of the palm, and the other on the bottom.

They will interact with each other. Those. This is a medium that penetrates human tissue, through the hand, and penetrates wood.

Irina: By medium you mean a certain substance. I understand correctly?

Konstantin : Yes. This is something that does not feel any obstacle in our material world.

Irina: What you call a homogeneous substance, when analyzing these energies, it may turn out that it consists of different frequencies. This is precisely the fact that some of these frequencies are visible to you in the form of dark matter, dark energy and other states of matter in our galaxy or a neighboring one. You already see it, detect it, but do not know its properties.

Konstantin : Yes. And I would like to know its properties.

31:01 Subtle material energies . Parallel worlds and their Divine protection from the penetration of materialists into them.

Irina: In our terminology, these energies are called subtle energies. Entire worlds and planets are made of these subtle energies. They are not perceptible to humans. Have you heard the expression “parallel world”?

Konstantin : Yes, finally.

Irina: Why parallel? Because he is nearby.

Konstantin : Not studied by us, let’s say so.

Irina: By these frequencies, which you call ether, by these free energies of the vacuum, we mean slightly different energies that are even higher in frequency. These energies create all visible and invisible worlds and support them. Now I will explain our terminology. The dense material world includes planets, stars, galaxies, which are visible in a certain spectrum with human eyes. Spirits are embodied in bodies of the third level of density of the material world. Here you and I live in third density. In this density there are solid, liquid and gaseous states. Those. There are both solid, liquid and gaseous states of matter in your body. And in this substance the Spirit is embodied, a rational living Essence that lives forever and endlessly, in contrast to the dense material body. What does embodied mean? This means that it is placed in the flesh (this Russian word for “flesh” speaks of the density of this body) and is connected to the body by a special type of energy called vital force. This is one of the varieties of ether. You also often call it the etheric body. The spirit initially takes a supply of vital force to connect with the body, and then this energy begins to be produced in the body itself. From the spiritual world, through the subtle-material world, there is a flow of energy into the dense-material world, which we call Spiritual Light, and about which it was said that “In the beginning there was Light.” It comes from the Source itself and, gradually reducing the speed of vibrations of its environment (and it is its own environment), passes into the subtle-material, and then into the dense-material worlds, forming a new Universe, which we call the Universe, where spiritual

levels are already formed. Besides our third level of density, there is a Spiritual world in which there is no matter at all. But between these worlds there are intermediate worlds, which we call subtle. These are those levels of the ether, those levels of dark matter and energy, part of which we see and can detect with earthly instruments. Many cannot be recorded, the frequency of their vibrations is so high. In addition to the three levels of the dense material world, there are 56 more levels. What seems to you to be a homogeneous vacuum, that substance that permeates all your objects and body, is the first ten types of density. In your understanding, there is an even more rarefied gas, where there are no molecules. But the 56th level is not an empty world, and Spirits can also incarnate there, although there is no longer the flesh we are used to. But for them, that world is quite dense, where they can easily interact with each other. They have their own planets, cities and other things that are familiar and unusual to us, humanoids (and earthlings are also humanoids), things. In the terminology of modern earthlings, we translated the name of these creatures with the word “plasmoids”. Let me emphasize right away that this is also an analogy. For you, this is the fourth stage of matter, when gases turn into energy. By analogy, we called them plasmoids, and their world plasmoid, because in these worlds matter gradually turns into a spiritual state. And that energywhich you want to extract from the ether, vacuum, you want to extract from plasmoid worlds. Such things without control over them are not prohibited, but they cannot be done on a large scale. The one who created everything and supports everything, provided for good protection of these worlds from penetration from the dense material world, especially for the purpose of extracting energy from there. When a person is in a dense material state, he does not see or know about their existence. It seems to him that he receives energy from nowhere (from the ether), and that no one needs it. But by taking energy and converting it, say, into electricity, he could take the energy from which they build their cities or even their bodies. In any case, nothing good would come of it. Therefore, our common Creator and Father well protected these worlds from detection and penetration by the devices of materialists. He, as the Supreme Mind, understood that the mind of materialists would be directed, first of all, not to the study of these worlds, not to spiritual interaction and exchange with their experience, but to practical use in their own interests. Therefore, for materialistically minded scientists, these worlds are practically unattainable. And even more so, without understanding where the energy comes from, connect to those worlds, pump energy from there and transfer it to another form. According to the law of conservation of energy, any energy that exists came from somewhere.

42:10 Human influence on subtle worlds.

Konstantin : Do our television towers and cellular translators use subtle worlds to broadcast programs? We listen to the radio, which means we already somehow influence these subtle worlds?

Irina: Your own electrical energy is used for transmissions. The waves you create, of course, affect their worlds. But the plasmoids that incarnate there know about this and can exist with it, just as you can exist with natural phenomena. For them it is also like a natural phenomenon. Their worlds are very heavily protected to greatly influence them.

43:38 Astral contacts and energy exchange with plasmoids.

Irina: Penetration of devices into the subtle-material world is impossible for the safety of these creatures, because for God they are children just like us. And we, too, can incarnate and live there. And there are tens of times more such plasmoid worlds than humanoid ones, because... more levels of density in which they can incarnate. They also make contact with earthlings, and they have tens of times more contactees among earthlings than humanoids. These are

not physical contacts, but contacts on the astral and mental planes, i.e. on spiritual communication. This may be in the state that you call sleep, when the astral body is separated from the physical body and ends up, among other things, in plasmoid worlds, where information and energies are exchanged at such a non-physical level. These contacts can be conscious or unconscious for a person. For various reasons, he himself may not understand what is happening to him. The only safe way for you to exchange energy is through plasmoid contactors, which have communication channels with plasmoids at a subtle level. These channels appear as cords extending from their body and aura. And the life force of these people is precisely aimed at exchanging with the energy of plasmoids in certain vibrational characteristics (the frequency of their worlds is measured in terahertz). To maintain such a connection, a person gives his energy. Because Plasmoids do not have organs for eating; they can only absorb various types of energies to develop and support their existence. Those of them who are determined to contact the human race can consume a person's vital energy, which I have already called one of the varieties of ether, similar to them in vibration. But in any case, there is an energy exchange when the plasmoid, through communication, releases its energy in response, which enters the person's aura and physical body. The outcome of such energy exchanges and contacts is very different. For example, some plasmoids heal many diseases through a person, directing a flow of energies through him, which changes the energy characteristics of cells and metabolism.

Konstantin : I understand, thank you very much. Thanks to Raom Tiyan. It was very interesting.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

Konstantin is a conference guest involved in technical scientific experiments.

Raom Tiyan from the planet Burkhad is a specialist in energy interactions in the material world.

#113 Man God: the key to true faith, enlightenment. How to change your life and get out of suffering?

https://blog.cassiopeia.center/chelovek-bog-klyuch-k-istinnoj-vere-prosvetlenie
https://www.youtube.com/watch?v=8lsi1h0K_NU

#113 Man God: the key to true faith, enlightenment. How to change your life and get out of suffering?

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Natalya - retreat participant;

Retreat participants.

Topic of the broadcast: Man God: the key to true faith, enlightenment. How to change your life and get out of suffering?

00:26 Is enlightenment possible only on Earth?

Natalya: They say that humanity is special because it is only on Earth, and it is in the human body that one can become enlightened. He can, like in an elevator, rise directly to the Creator, that is, here there are very great opportunities for soul growth!?

Irina: No, of course, I like earthly patriotism. I have nothing against him, but then a logical question arises: why did God create all the other worlds and civilizations if it is impossible to become enlightened there?

You will answer me now: that I chose enlightenment a long time ago, and for some reason it does not come to me. What will I have to go through to find it?

Natalya: Yes.

Irina: Now, as you called me – enlightened, I remember my path, what did I go through? I became interested myself.

01:20 Experience of realizing unity with the Creator.

Natalya: You said that you had the experience of this awareness of unity with the Creator at the age of 12?

Irina: Yes, that's it. I remember it now - this experience. I didn't do anything special. I didn't meditate, I can't say I prayed to God. But my grandmother was Orthodox, she taught me.

But I didn't pray at will - consciously every day, didn't observe rituals, etc. I just knew that God exists - from my grandmother, that he sees us everywhere. But many children are told this; you know it very well.

01:57 How to believe in God?

Natalya: You already knew that God exists. But many people try to believe all their lives. Do they understand with their minds that it would be nice to believe, but don't accept it with their hearts?

Irina: You know what - if the heart does not accept faith in something, then there is a reason for this in the heart itself. Something prevents me from accepting this idea. And if a person thinks that there is no God, then a logical question arises: who, then, is the author of the entire universe? Who is the creator?

Someone will say: "Nature itself has created such a complex universe." But we can also now say that the dining room was created on its own. The foundation was brought by the river. The wind brought the roof, etc.

But you won't believe it, will you? If I say: "I don't believe that it has a creator. The roof built itself. There was an explosion and the bricks folded themselves."

02:57 What is enlightenment?

Natalya: But enlightenment is not acceptance of God. So many people truly believe in God with all their soul and heart, but they are not enlightened?

Irina: Then what is enlightenment, let's clarify?

Retreat participant: This is a high level of love for everything that surrounds you, all beings and this "dining room", and in general, acceptance of everything and understanding of your place, your nature, uniqueness and the fact that you are loved by God.

Irina: That's it, that you are loved by God! That's the key. You cannot love yourself or others until you fully believe and feel that you are loved by God. That he accepts you for who you are! And since he accepts you for who you are, it means that in order to be with him and be like him, you also accept everyone as they are.

Do people want to be like God? To be like God? Is there such a desire in something?

Natalya: Of course, I want to feel like God.

Irina: Not to feel, but to be like.

Natalya: To be similar – well, of course.

Irina: For example: what kind of God do we have? Omnipotent. Do we want to be able to do something?

Natalya: Yes.

Irina: God is omniscient. Do we want to know everything?

Retreat participant: Be gifted.

Irina: God – he creates. Do we want to create ourselves? God – he loves, but we want to love?

Natalya: We want to.

Irina: Do we want it or don't we want it?

Natalya: We want to.

Irina: What stands between us and enlightenment if we want it?

Natalya: As they describe this experience, it's some kind of moment when... and the person is already different. He sees the world differently. He knew the essence of things.

Irina: Haven't you had such moments in your life when you were one...and another?

Natalya: There were, of course.

Irina: Have you ever had such moments as if the light... and you are different?

Retreat participants: Yes, there were.

Irina: Everyone had them.

05:14 How to maintain the state of Light, enlightenment?

Natalya: How to maintain this state of light in order to be in it constantly?

Irina: You need to understand what emotions and what feelings lead you away from this state. What do you begin to experience after this: (feelings of) joy, light, enlightenment, enlightenment? What do you begin to experience in conversations with people, at your work?

If you only experience longing and sadness for that state, then you have not yet realized the full depth of love. Because in fact, love is not only pleasure. It is very multifaceted - it is patience, sympathy, to some extent self-sacrifice, but in the form of such dedication.

That is, this state can only be hampered by attitudes: fear of losing love, fear of losing this light, enlightenment, joy. And an attempt to take advantage of this state a little selfishly - not just to teach people, but to have people follow you, so that they give you this love, or, for example, the feeling that you are above them.

The feeling that you are above people is pride. It also arises from the fact that you are afraid of falling from this height. And so you start to think: “Well, they are lower, and that’s why I feel good.” Because you are afraid of losing this state. All this comes from our fears, I think so.

What is pride? This is arrogance from the feeling that I am better, more enlightened than others. The thought itself - “I am more enlightened than others” - is neutral. But what then gives rise to the desire to somehow rise up, to manifest this in behavior, for example, in humiliating another, that he is not like that. Because there is no complete dissolution of Your Self in this other person. You put yourself above or you put yourself below, on the contrary, you humiliate. You must be equal.

Realize, you are the daughter of God? Am I the daughter of God? Is she the daughter of God? An alcoholic, a drunkard - is he the son of God? Is the President also a son of God? Then know that we are all equal in his love, but we are only at different stages of spiritual development.

But we are there of our own free will. That is, we could get carried away, for example, in this life by spiritual development, but got carried away by something else, and we no longer care about it - it was our will.

For example, it was easier for him to go buy a bottle of beer than to sit and read some literature. But everyone chooses for themselves how to spend their time, right?

Natalya: Yes, but those many who drink a bottle of beer are deeply unhappy. Did they choose their misfortunes?

Irina: It's not even about the bottle of beer itself; even an enlightened person can drink it. The point is in the very direction of consciousness. What is it aimed at? When you talk to a person, you can already see from his conversation what his consciousness is directed towards: the spiritual world, the material world, or both to varying degrees.

If consciousness is directed towards the material, it is very difficult for him to explain what enlightenment is. He thinks it's just a flash in his head and that's all. That's not the point, it's not the flash - it's the feelings.

The word ILLUMINATION, indeed, is light, but it is spiritual light.

Why is it called light? Because in the presence of this light, no darkness is scary.

Understand?

No darkness, no beast, no sorrow - nothing is scary. Because you are fully aware of yourself as an immortal being and fully acknowledge that you have come temporarily.

09:56 About the rejection of life or death.

Irina: I believe that the main obstacle on the path to enlightenment comes precisely from the rejection of this life or death - you don't accept something.

Many esotericists do not accept that suffering or death is normal in this world. They begin to fight it, somehow.

Natalya: Or not to notice.

Irina: Now when I say normal, I mean that it's natural. They forget that their body is also temporary, they begin to reject this and fight old age using different methods. The theory of rejuvenation, in any case, is based on the fear of losing youth and getting closer to death.

Do you understand what's going on here?

When you don't accept something in this world as the natural course of things, especially something that was created by God himself, and life and death were created by him, in fact.

Because these are two sides of the same coin - there will be no death, there will be no next birth. And then we will be constantly in this body, and will be deprived of the opportunity for further development in other bodies. If a person does not accept this and struggles with it even in his thoughts, it hinders him. He cannot fully love this world, with what he considers imperfection.

Am I speaking clearly now?

Natalya: Yes.

Irina: In fact, we should not be afraid to face this reality. And at the same time, don't judge her. And just accept her for who she is. Yes, we are mortal people. Yes, it's natural. If you admit this, then the fear of death will disappear. Why will he disappear? Because he will definitely understand that the body will eventually die. It will die - that's 100 percent. There are no people who are immortal in body.

12:04 About the meaning of life.

Irina: But then the question will arise: "What will I have time to do during this time so that my qualities acquired in this life will help me in the further development of me as a spirit?" The main thing will not be the number of years lived and their quality, in the sense of pleasure, like - we don't live here long, let's have some fun. No - that won't be the main thing.

The main thing is to understand this world, feel it with all your soul and give thanks for every day, since we woke up in the morning, we already understood that this light of the sun that we saw is the light of spiritual love that shines for us in the material world, and our eyes can see him.

And in response to this light, we look at it and send our own. My God, Lord - I love you too and thank you. And I send my light of love. I am grateful to you that you again gave me the opportunity on this day, I will not say: "Serve you." Mainly we serve not him, but ourselves, our development. He doesn't need our service, not only that he doesn't need it, he enjoys it, of course – service in love. But believe me, he can do without it, that is, without suffering. But we cannot do without love, without suffering. Do you understand who needs this most!?

Well, what is incomprehensible here, in my opinion, is clear to everyone.

Natalya: Yes, maybe that's understandable. But not everyone can live like this.

13:47 About human suffering.

Natalya: Why can't you live without suffering?

Irina: Then we need to ask the question: “Why can’t they live like this if everything is clear to them?”

This means that for some reason they do not want to follow the path of love. They want to follow the path of pleasures, mistaking these sensual pleasures for the joy of life - this is also the joy of life, but this is not the whole joy, but only one of its parts.

Now they will think that I am speaking only for healthy people, strong in body, who enjoy every day. If a person is sick, suffering, he has constant pain, and he cannot experience something - that’s not the point, that’s not true. You can also treat your suffering differently.

You can treat it as a punishment that some cruel God sent you - it’s not clear why. Or some sorcerers sent it, some reptilians joined. This thought will additionally cause even more suffering in both body and soul - and push this person away from enlightenment.

And if you perceive your pain, your illness, as a certain state of mind and body that you caused yourself, by some mental attitudes, or perhaps not by mental attitudes, but simply by your behavior.

For example, he behaved carelessly with his body, damaged it in some way, allowed microbes to develop in it - because of this, illness. That is, you shift not the blame, but the responsibility onto yourself; feeling guilty will do nothing.

Since I developed this in myself and did not notice the early signs, and now I am suffering, this is not a punishment for me. Nobody beats me, but on the contrary, everyone loves me. I myself caused this state in myself - this is my lesson, not a punishment. I must pass it with dignity. This is called accepting the disease. But this does not mean that it does not need to be treated.

Of course, you need to treat - with spiritual and physical means, but at the same time, without condemning the disease itself and the pain itself.

For example, I had a bad toothache, instead of thinking how bad the microbes are, they eat me, and that’s why I feel so bad - I scold everyone and myself.

Don’t scold, but calmly take a painkiller to wait for a visit to the doctor. Naturally, there is no need to expose yourself to pain, why is this necessary? But at the same time, without judging this pain, but simply say: “Yes, I caused this with my behavior, I did not notice this condition at an early stage and did not visit a doctor in time. And now, this is not a punishment from God for me - this is a lesson for me, so that I can go through it and become wiser in the future. So that next time I know what actions are necessary so that I don’t experience this state again.”

17:12 About immortality and unity with God.

Natalya: This experience that happened to you at the age of 12, do you constantly feel this state from that moment?

Irina: Exactly, the light of dissolution - no, not all the time. Otherwise, I would just sit and dissolve. But from that moment on, I never left the feeling that I was an immortal being, and that God was everywhere around me. Earth, water, trees are a manifestation of his consciousness in dense form. This is not knowledge that I read somewhere - this is such a feeling.

Look at the sky. Have you ever felt in nature that you were looking at the sky, the clouds - and it was as if you were one with them?

Natalya: Of course.

Irina: Well, how do you feel about this feeling? Was there something like an inner light?

Natalya: Yes, it was absolute happiness.

Irina: Was there a feeling of light?

Natalya: It was.

Irina: Congratulations! You are enlightened! Well, did you feel it?

Retreat Participant: So many people look at clouds and feel nothing except that they are white and have a blue background.

Irina: Well, okay - not at the clouds, let them look at the sea.

Natalya: If it didn't work with the clouds, right?

Irina: It's very good to look at the fire.

Retreat participant: Yes, it burns away all the negativity.

Irina: Many begin to feel that they are one with fire - the soul, that is, there is the same fire in the soul.

If they don't perceive it now, that they are merging, let them remember how in childhood they lay in the tall grass, looked at the sky, looked at various figures from the clouds and were surprised at how quickly they changed. How grasshoppers chirped around. Let them remember these images and ask themselves the question: "What else did I need to be happy then? What has changed now?"

These children's feelings are usually very vivid. Because the impression you get is just like the first time – it makes you happy. There is no dullness, apathy, or adult disappointment in something yet; he has not yet experienced them. They say about him - a pure soul, pure consciousness.

Natasha calls me a child, she says: "You have a child's perception of the world."

Natalya: Clean.

Irina: She calls me a child - at 33 years old. Yesterday at the conference Maxim said that this was my first time at sea. You can please her endlessly; she is constantly surprised, like a child.

Do you remember?

Natalya: Yes.

Irina: There are different types of characters. There are people who have developed this impressionability, romanticism. They are even adults - they will be like this until old age.

20:55 Poems about enlightenment.

Irina: Do you like to read poetry?

Natalya: Yes, but rarely.

Irina: Do you like to read poetry?

Retreat participant: Yes, but I rarely read.

Irina: I remember one verse, it's about enlightenment, about a feeling, about some disappointment in this feeling if it is not appreciated by others. This happens to many people - to enlightened people.

Poem:

Don't rush to be Danko in this world.
First understand who you tried so hard for.
Perhaps a crowd could live miles away in the wilderness?
You set out to light the path with your heart.
Understand what those following want?
What will they do with the heart that you take out?
And will they cook dinner for themselves to celebrate?
Celebrating the long-awaited finish noisily.
They will write in dictionaries - well, he was such an eccentric.
He was leading someone out of the darkness, in a hurry somewhere.
The forest was simply paradise.
Life was wonderful, but he led us astray,
and he himself, it seems, lost his way.
They will forget the wilderness and darkness, and hunger, and frost.
They will sit in the warmth with a sweet cup of tea
and will remember the darkness of the forests until they cry,
scolding you for your heartlessness.

Irina: Well, how?

Retreat participant: Whose poems are these?

Irina: I don't remember the author, but this is also an Esler contactor. He has several poems, Mead told me about him. There is also this verse about the plasmoid:

Poem:

A savage living in the middle of the forest
worshiped meadows and bushes.
He didn't know anything in books,
but he knew the greatness of beauty.
He saw God's creation
in the forest, in the grove, in the streams.
The savage felt humility,
holding his spear in his hands. Well, then the kings of nature or demons, the Lords of hellfire, appeared in the wonderful forest,
with engines thundering like thunder. And it became scary on the planet, Even though there are no traces of savages and only small children, They keep repeating - don't kill the bird! But the culture that has taken off from the ground strikes without a miss. Culture, where muscles, Disease and freshness of dawn. The savages' muscles merged with childish simplicity. Civilization managed to take off its own skin.

Irina: Do you like it?

Retreat participants: Yes, I like it.

Irina: Would you like me to read you my poem? This is my first verse. It was written by a fourteen-year-old teenager.

Poem:

Happy New Year!

A new century is coming.

I wish you happiness and love,

Just think - a man.

What will you do for the world?

What did you add and contribute to it?

Maybe he made life like in a shooting gallery,

Maybe he brought blood into it.

Maybe you gave only joy, laughter, smile and kindness.

Only then, a calm conscience,

You're in luck with that!

Think about the future

A new century is coming.

To take a smart step,

Just think - man!

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Natalya - retreat participant;

Retreat participants.

#116 Tisul princess. Mysteries of the burial history.

https://blog.cassiopeia.center/tisulskaya-princessa-zagadki-istorii-zahoroneniya
https://www.youtube.com/watch?v=rtN93ukkgOw

Guest: In September 1969, during excavations in the Tisulsky district of the Kemerovo region of our country, an interesting discovery was made: a two-meter marble casket of amazingly precise mechanical workmanship was discovered. The casket turned out to be a coffin, filled to the brim with pink-blue crystalline liquid, under the surface of the spring lay a tall, about 180 centimeters, slender, extraordinary beautiful woman, apparently about 30 years old, with delicate European features and large, wide-open blue eyes. At the woman's head is a black rectangular metal box, rounded at one edge, something like a cell phone, approximately 25x10 cm in size. It is believed that this was a representative of an extraterrestrial civilization. Do you know anything about this story?

Irina : They have already asked about her, MidgasCaus says they have already requested information from the Interstellar Union regarding this period of time when she could have been buried. This was a representative of earthly civilization, a DNA test could be done, but she was a ruler, lived about 850-900 thousand years ago, and due to the fact that after her death she was placed in a special embalming balm, the atoms of the tissue of her body acquired the property of losing isotopes so much that the method of analyzing her DNA, based on isotopic measurements in tissues, pushed back her age by millions of years. She lived before the war 12 thousand years ago and even before the period when people began to move to Venus and Mars, then there were cities on Earth, states, but they had not yet fought, people followed the path of development without wars. And she was the ruler of one such state and she was then buried.

Guest: It turns out that even if it was a Dugout, it lay in a pink liquid that prevented the tissues from decomposing. It turns out that the knowledge of that civilization was an order of magnitude higher than ours, so that they could develop such things?

Irina : At that time, of course, there were knowledgeable people who could add antiseptic solutions that prevented the body from decomposing and removed those internal organs from which decomposition occurred and where there were the most microbes, for example. The priests and physicians of antiquity knew all this. They had open contact with representatives of extraterrestrial civilization, so many contactees, who later became rulers or priests, asked the aliens about health, about the physical body, and they were given knowledge that a microworld exists, why the body decomposes, etc. Based on this, they developed chemicals that could preserve fabrics without rotting.

Participants in the conversation:

Irina Podzorova - contactor with extraterrestrial civilizations;

Guest - ufologist Maxim Bronevsky.

#119 Live broadcast with Irina Podzorova. MidgasCaus: life and everyday life of the planet Esler.

https://blog.cassiopeia.center/midgaskaus-zhizn-i-byt-planety-ehsler
https://www.youtube.com/watch?v=lp1JZRodM1A

2:38 MidgasCaus, please tell us the most interesting galactic news from this past week. What happened in the galaxy ?

Irina: I follow my news sector. This is my biology outside of Esler's alien life forms. 26 new planets with plant and animal life were discovered. But, according to research by scientists of the Interstellar Union, there are no intelligent creatures. They are also located in our Galaxy. Every day approximately 3-4 planets are discovered.

And I also want to inform you that more news is coming from expeditions that are sent to other Galaxies. Including the one where Irina's curator, Kirchiton, is located. They are now exploring the planet. A biologist from the planet Burkhad is also there with them. They flew to a planet where something like intelligent octopuses live. Like big octopuses. Only in them is the rational spirit embodied. They are now in another Galaxy. And the expedition is now trying to contact them.

4:31 Do alien women have contact with humans?

Irina: We already had contact with Raom Tiyan's wife from the planet Burkhad. And we recently had contact with Saint Germain's wife, one of his wives.

4:49 Where can I learn Burkhadi language?

Irina: I was told that their goal is not to convey the language through me. Moreover, I only have the opportunity and time to convey the information that is given to me in Russian. They are learning our language.

5:12 Many people are afraid to send their donations to the details that we indicate, since the name Maxim Rusan is indicated there.

Irina: Dear viewers and friends, I myself asked Maxim to open an account for himself. So that it is he who deals with the material side of the issue, as well as for the construction of our centers where we can receive everyone. We, and subsequently our students, and I have complete information on the status of these accounts every day and have access to all these accounts at any time when I need it.

Maxim: Irina, am I not keeping you in slavery and locked up, as many people say? Otherwise they are afraid that I will use you for my terrible commercial purposes.

Irina: To those who think that I am in slavery, I invite you to come and see how I live.

6:35 Why do I feel love for you? (to MidgasCaus)

6:35 What civilizations are around Sirius?

Irina: You feel love for me because, perhaps, you are familiar with my energy, I came to you for some purpose, and perhaps you just feel a similarity in vibrations. This happens to creatures from different planets. It's just that our souls seem to be similar in vibration.

7:42 And now about Sirius. There are many bases on the asteroids around Sirius. Firstly, there are subtle civilizations there. There are 7 civilizations of different density levels, which are called plasmoids. And on asteroids there are now bases of dense material civilizations. For example, there is a Tumesout base and a Tikhtian base. There are bases that belong to two Selbet colonies. They are there examining the spectrum of the star, examining those remains from the destroyed planet around Sirius that were preserved on some asteroids. These are fragments of the planet, and they are studying how the radiation from Selbet's weapons affects many thousands of years later.

8:41 Is Irina under alien protection?

Irina: I am completely safe, under the protection of the one who gave birth to me and the aliens, and you personally. And you are also under his protection. His name in our earthly language is God, the Supreme Mind, he can be called Light. We may or may not realize it, but we are all under its protection. Because every day he confirms his protection by giving us a new day of life. So that we can raise our vibrations to the level of his divine energies.

9:35 Have you met earthly people on other planets?

Irina: No, on other planets, I have not met other earthly people. I know that physical contactees are brought there. That's what they told me. But I myself don't remember meeting

exactly earthly people there.

9:52 When did the Old Russian language originate?

Irina: All languages originated from a single proto-language of humanity. It is the Russian language, its modern version, that originated from Church Slavonic in the 17th-19th centuries. When the modern Russian language began to be formed from Church Slavonic. But it is constantly changing. What we now call modern Russian was different twenty years ago. The turns were different, the words. Language is a dynamic structure, not a static one.

10:37 Which of the earth's languages has a high vibration?

Irina: It is not the language itself that vibrates, but the speaker who speaks it. But in any language there are words that carry information about bright feelings, bright thoughts, and love. And there are words that destroy. And the one who uses the tongue has a high vibration. There are languages in which prayers, mantras, etc. are composed. But in any case, they do not have independent meaning, and their vibrations depend on who will pronounce them. If you pronounce them with evil thoughts, feelings and resentment towards someone, then they will have no effect. Or they will have minimal effect. Because the primary thought is the mood for this vibration. And the words themselves can even be beautiful, but if you pronounce, for example, the word “God”, calling for violence, then these will already be low vibrations. Even if you say the word “God” at the same time.

12:30 Why does the Moon glow?

Irina: Because when the Moon is turned to the Sun with one of its sides, it illuminates it. It reflects the light of the Sun. And when it turns the other side to the Sun, we do not see the Moon. This phase, which is the new moon for you. That is, on a lunar day, the illumination of the Moon by the Sun occurs on the side that is invisible on Earth.

13:30 Did the Tumesouts land in Voronezh in 1989?

Irina: We didn’t sit down. These were the Daraals.

14:19 Sacrifices during the Muslim holiday Eid al-Adha.

Irina: Firstly, I congratulate all those who profess Islam on their holiday! MidgasCaus conveys its congratulations to all Muslims.

What are sacrifices on Eid al-Adha? This is a continuation of those traditions that existed during the time of Moses and, as you call him, Moshe. During the time of Moses, the people of Tumesout told him about the rules of animal sacrifice. They are described in detail in the book of Leviticus, which is included in the Torah. These animal sacrifices were made for several

purposes. First, because the appeal of the Tumesoutians was made to Moses and to those people who were mainly engaged in cattle breeding. They were more involved in cattle breeding and crop production than hunting. They had large pastures. That is, for that culture it was in the order of things to make sacrifices to their gods earlier, even before the Tumesoutians. Next, what does it mean to make a sacrifice to the gods? Some plasmoid civilizations feed on the energy released when an animal is killed. For this energy, plasmoids created certain circumstances for the priests: certain weather conditions, healed diseases. You can read this in detail in the books of researchers of ancient religions and anthropologists. For example, in the book “The Golden Bough” by Fraser. Everything is described there in detail, of course, from the point of view of researchers of these ancient religions, cults, etc. As for Islam, those Tumesoutians who came into contact with Mohammed and passed on the Koran to him followed the same ancient path as those Tumesoutans who transmitted the Torah to Moses. That is, they left animal sacrifice to plasmoid civilizations. God Allah himself, as you know, does not need any sacrifices, because he is the spirit that fills heaven and earth. He himself gives life to everything: animals, people, and plasmoids. And the plasmoid civilizations themselves like the energy that is released during the sacrifice of an animal. And the energy released from the people themselves who worship this God, and this cult was decided to be left by the Tumesoutians in ancient Arabia. For the purpose of not knocking the Arabs out of their usual rhythm of life, cattle breeding and sacrifice to the gods to which they were accustomed. They just translated it all into monotheism. This was the goal - to create one strong one out of many weak egregors. Plasmoid civilizations live for many thousands of years. Therefore, they still hear prayers, but now to one God, because you have monotheism. But in any case, they collect energy that is released from these animals and from you. And as payment for this energy, they create protection for people and strengthen your egregor. They create those circumstances in your life that can.

19:49 When the planet Esler emerged as an intelligent civilization.

Irina: Planet Esler arose as an intelligent civilization eight million seven hundred thousand Earth years ago. We evolved naturally from animals. We are not hybrids. During this time, our civilization entered the Interstellar Galactic Union in the third century of your Christian era. Approximately 214-215 years after the birth of Christ.

21:15 Do residents of Esler communicate telepathically with each other?

Irina: We communicate this way not in the body, but in the astral plane. We have such abilities for telepathic communication, we do not develop it like you, we consider these abilities to be meaningless, because it is through telepathy that we can communicate in the astral plane. And in the body, when we are among people, we believe that if the brain’s ability to do this is developed, then it will, firstly, interfere in the affairs of those people who do not want their thoughts to be read. This is unethical. This may provide a reason for such use. And secondly, we simply do not need to do special exercises for the brain in this direction, because everyone from school can make astral travel and communicate there.

22:25 Is there an army and troops on Esler?

Irina: We have a branch of the Galaxy Security Service. Due to the absence of wars, we do not have an active army.

22:37 An example of Esler's humor.

Irina: An example of humor from Esler's book. You could say this is a humorous, somewhat fantastic story from our literature.

A story about what would happen if God wanted to punish people in the spiritual world. What you call Hell. Hell and Heaven, according to your concepts. And there is one intelligent spirit, it was not specified from which planet it came to God. And he began to show a place for punishment and a place for encouragement for good spirits. Like Heaven and Hell. The humor there was that when that spirit went to Hell, he saw other spirits sitting in the body at a set table. But they didn't have the right tools for eating. Something like a spoon, a stick, which was impossible to bring delicious food to the mouth. And they suffered from this.

Maxim: We also have such a story on Earth.

Irina: The humor is that when they entered Paradise, they saw how everyone was feeding each other and happy. This story is generally from the spiritual world. The angel who could come up with it could tell his various contactees on different planets.

26:15 What is the name of the planet Esler in Esler language?

Irina: Aramia.

26:23 How many inhabitants live on planet Esler?

Irina: Now (08/03/2020) at this moment in time, not counting the colonies, about seventeen billion live on our planet.

26:37 What do ordinary residents on the planet Esler do?

Irina: We have a lot of specializations or professions, but most are engaged in art and teach other people. They draw pictures, we have developed music, poetry, creativity, literature. There are, you call them contactees, and we call them receivers of information from the spiritual world. One of them wrote a humorous story about punishment with spoons. These receivers receive information from the spiritual world from angels.

27:19 How do Eslerites relax? Do they have such a concept as work, going to work, earning money?

Irina: We don't have paper money, we have electronic means of payment. We don't have microchips implanted in every Eslerite, but like nanorobots. There are many of them, they are very small and distributed throughout the body. They receive information from external

electromagnetic fields that are created on the planet. And in these electromagnetic fields it can be recorded who earned how much, what they bought, etc. This is like an analogue of your Internet, only it is distributed around the planet in an electromagnetic field.

28:18 Is there music on Esler, and what kind of music do you listen to there?

Irina: There is no rock and roll. There is someone close to you, like Larisa from PiosNioras.

28:40 How is your birth going? Is it as difficult as our women's?

Irina: Every Esler woman learns to control her physical body from childhood. Includes a mental state that disables an unpleasant sensation. This can be taught to you too. What causes you more pain is the anticipation of fear. Those sensations that you feel as pain are more produced by your fear of this process. And this causes spasms, clamps and a reaction to this pain. But if you raise a girl in a certain spirit, then you, of course, will have unpleasant sensations when the child leaves, but they will not be so strong. In any case, it all depends on the attitude. For example, in China, Japan, and Africa, those women who are brought up in their culture receive from their mothers such a model of childbirth that they do not require hospitalization. There were cases when, in the last stage of pregnancy, they went to the field to work and gave birth right there in the field. Then they wrapped the child and continued to work. This happened spontaneously for them.

30:50 Do women on Esler have toxicosis?

Irina: We don't have toxicosis. Your women have toxicosis, it happens for various reasons. But this is a reaction of your immune system, a woman's adaptation to new conditions. It also depends on her internal readiness to be a mother, on her nutrition, on her emotional state. With us, every woman, as soon as she realized that she was pregnant, and most often before that, gets acquainted with the spirit of the child in the astral plane.

31:50 Do you have pets?

Irina: There is an animal similar to the earth type that climbs trees. They have long red hair with strands on their chest, a fluffy tail, the size of a cat and with elongated ears, similar to either a cat or a squirrel. The eyes are round and the pupils are round. Not like the Eslerites.

32:48 What is your biggest dream?

Irina: I dream that the Earth will join the Interstellar Galactic Union. So that each of you has the opportunity to visit all Galactic worlds. And so that each of you has the opportunity to join the cultural, scientific and medical achievements of the Galaxy that we have. And so that your politicians can adopt a management system that is more effective in achieving the goals of any state and contributes to the development of spirituality in every person. In general, I dream that every ruler on your planet will realize that the spiritual development of every person in his country contributes to the strengthening of the state and its more successful life.

Personal desire. For myself, as an individual, I would like to always remain in that state of Light of communication with God, gratitude to him. But at the same time, my personal happiness is inseparable from the happiness of everyone around me. I would like to convey this to everyone.

34:50 Can you enhance a person's abilities?

Irina: Not by itself. I can only explain how to do it. A person is not a radio receiver that can be turned quieter or louder by turning a knob. This is an independent spiritual system embodied in physical matter. An independent Spirit is a Spirit just like me. We are equal to him in any case. Therefore, I can strengthen his abilities with advice, energy, just like he is mine, we have an energy exchange. You can act temporarily and activate some energy center. But it will be at the expense of the one who activates. The problem is that such artificial growth at the expense of someone else's energy occurs at a time when the person is not ready. And this can even simply lead to disastrous consequences, because if the rosebud has not yet opened, and you begin to forcefully open it, you will simply damage it. It needs to be watered, fertilized, loved, and Light sent to it. But do not cut it with a knife and do not take it out, otherwise it will never open.

36:36 How many chakras and energy centers do you have in your Energy Structure?

Irina: 12 energy centers. The spirit is one, incarnating in one body or another, depending on the brain and the central nervous system; it manifests itself through the body in different numbers of energy centers.

37:17 It’s very fashionable now to say “we are moving into the fifth dimension.” Do you have any such phrases that you go to?

Irina: We call it the sphere of rationality. The sphere of intelligence is a separate part of the cycle in the Universe, the cycles of the existence of the Universe. And we don’t call this a measurement, but, as it were, the Sphere of Reason, this is an abrupt increase in vibration on any planet or noosphere, which entails a mandatory change in the material world. We can say that from the first Sphere of rationality it passes into the second, into the third. But we can say that from the Sphere of rationality A we move to the Sphere of rationality B or D. That is, these symbols - you have the Quantum transition, and we have the Sphere of rationality - indicate a qualitative change in the environment, but it always goes through the spiritual world. Each of you who is watching me now, you are both a physical being and a spiritual being at the same time. You are both body and Spirit. Your body is a part of your Spirit. Its most dense part of your own energy, which is embodied here.

33:44 Who is in charge of your planet Esler?

Irina: Esler Council Community. This community consists of other communities in the cities. There are counties with several small towns. And they are united by the community. And there is a community in one big city. There is no separate ruler, like in Daraal.

39:14 Mid, why exactly did you become Irina's curator?

Irina: In fact, people don't become curators and contactees just like that. In any case, our meeting with her was also prepared by our mentors, our heavenly curators. Those mentors and consultants of ours who helped us incarnate here from the spiritual world. And this happened because I, of all the Eslerites, match her vibrations. I can convey information to her more efficiently, find a common language with her and explain complex things to her in simple language so that she understands me. (Irina on her own behalf: Yes, I met with Mead personally). So that she understands me and can convey it to you. And we met in past incarnations. We met with Maxim, and Irina and Maxim met, and I met with him. We've all met. This meeting was prepared by certain spiritual mentors.

40:46 Mead, do you have any incurable diseases on your planet?

Irina: No, there are no incurable diseases on your planet either. It is the patient who is incurable, not the disease. That is, every disease can be cured. And we have known this since childhood. Therefore, the very words "incurable disease" already show that a person surrenders to circumstances and places responsibility on his illness for what happens to him. But here it is not taken into account that the spirit creates any illness for itself through its behavior. These questions about an incurable disease are not strange to me, because I know your civilization. I have been working here for quite a long time, since 1983 according to your calendar. But any other Eslerites who are not familiar with your civilization will simply be baffled by this. He will simply say "strange question." After all, the body, in any case, is a reflection of the Spirit, and that means you cannot control your Spirit so much that this disease is considered incurable?! For us, illness is the choice of the Spirits themselves, but at the same time I understand that this choice was made out of unconsciousness. From not knowing what could be different.

42:50 Does Esler have kisses?

Irina: Yes, we also express our love this way: with hugs and kisses. What is a kiss? It is an expression of love in the movement of the body. We have similar forms. Of course, we are anthropomorphic creatures. Even reptilians have this.

43:20 Do you have any bad habits, and is there alcohol and drugs on Esler?

Irina: We have no analogues to your narcotic, intoxicating substances on the planet. Nobody sells them. It's not that it's forbidden to sell it here. This is not prohibited here. But even if someone decides to bring it to our planet and sell it, then, I'm afraid, this kind of merchant simply will not have buyers. Because each of us learns to communicate with our Higher Self and relax and receive joy from the states that exist in us on the basis of our internal hormones, which also have a narcotic effect. That is, if we translate the meaning of the word "drugs" - numbness. This is a certain detachment from the outside world. We teach every child this - to enter this state on their own. And propaganda of such ideas that you should try this, that it is pleasant, etc. will not have any success. Even if several Eslerites agree to try this, but having compared these states in terms of vibrations, sensations, and consequences with what they already have every day, I have no doubt in their choice.

44:45 Mid, what is your spiritual level?

Irina: 21st. Same as Irina's.

44:50 Do you have any disabled people on Esler?

Irina: There are analogues. Only they are not only given a certain amount of support, just like you are paid a disability pension. For us - if, for example, you received some kind of injury, or some kind of infectious disease arose, some kind of internal disease of the Spirit, which also causes disability. This happens to us too. In any case, they work with him comprehensively. That is, they identify the cause of the disease on the physical, spiritual, and energetic levels. And he must undergo certain rehabilitation measures, including on a spiritual level. That is, in order for our government to help him live in his physical world, he will have to go to special diagnosticians and special doctors at certain hours. Only they do not deal only with the physical body. Any biologist, any doctor on our planet, first of all, studies the spiritual world. Any doctor, even the one who is responsible for knowledge of certain organs of our physical body.

46:17 Do you have murders on the planet Esler and if so, how many murders are committed per year?

Irina: This rarely happens with us. For example, over the last Esler year there were three such cases on the entire planet. The killers have been found. The reasons for murders are different. One of the cases, this happened in a family, a man who was an Eslerite killed his wife because they did not see eye to eye and argued about a certain doctrine. This happens for emotional reasons.

47:25 From the moment your civilization became more or less conscious, when intelligent spirits began to incarnate, how long did it take before joining the Interstellar Galactic Union?

Irina: More than eight million years have passed since the incarnation of the intelligent spirit.

48:56 How long do you sleep, Mead?

Irina: In earthly dimensions, 3-4 hours are enough for us to recover. We don't need any more. We have such a level of hormones that they are released enough for recovery.

49:22 Can an Eslerite fall in love with an earthly woman and create a relationship with her?

Irina: Of course, anyone can fall in love. An intelligent Spirit into a Spirit that is embodied in another race. About the family. It is biologically that our races are incompatible; there will be no

common children. But just physiologically, like a man and a woman, they can be compatible. Our relationship is the same as yours. But I personally don't know of such cases among curators and contactees.

50:23 Mead, can we join the Interstellar Galactic Union in the next thirty to fifty years?

Irina: There is always an opportunity. All that separates you from this step is the awareness of at least seventy percent of earthlings of the need to eliminate wars and aggression. If seventy percent of people achieve such a level of awareness, even if they are not in government, then the level of awareness of the entire planet Earth will rise so much that there will be such energy in the noosphere of the planet that Spirits that contradict this concept simply will not come to power or will automatically leave it.

51:32 How do women dress at Esler?

Irina: They don't have much difference between women's and men's clothing. Here, as in the picture, they have long capes, like a robe, without buttons. They don't attach importance to fashion. Yes, they have different colors, patterns, fabrics that they produce. But there is no such thing as a common style for everyone. They have more individualism, so to speak.

52:22 Esler size? What kind of architecture is there on the planet? Are there skyscrapers? Is there a capital of the planet Esler?

Irina: Our Esler is a little larger than the Earth. The diameter is about sixteen thousand kilometers. There are no skyscrapers. The houses look like domes or inverted droplets. The capital of Esler is Champa.

53:49 Will we ever see Meade live next to Irina?

Irina: Mid, they want you to physically fly in and sit down here next to us.

If I do this, then you will no longer see Irina, Maxim, or the broadcast.

August 3, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

The curator of MidgasCaus from the planet Esler is a biologist, psychologist and specialist in

alien civilizations;

LiShioni from the planet Shimor is a specialist in the astral world and its interaction with the material world;

Maxim Rusan is the head of the Cassiopeia project.

#121 Bigfoot the whole truth. Extraterrestrial civilizations have revealed the secret about the Yeti tribes.

https://blog.cassiopeia.center/snezhnyj-chelovek-vsya-pravda
https://www.youtube.com/watch?v=2OeNbkVNxgY

Yeti is one of the tribes of ancient people that appeared after the war 12,000 years ago, which fought off the main peoples, and continued to live in harmony with nature, without building cities or industry. They lived in caves, forests, and they underwent a process of reverse evolution in the form of growing wool, because... they did not have the kind of support systems that are found in ordinary cities. But, due to the fact that their consciousness was not absorbed in such a materialistic existence as that of other peoples, but was in harmony with nature and with those natural spirits that lived nearby, their consciousness became more capable of various kinds of mental and mental magical work with spatial energies, with your body, etc., which is inaccessible to you, because Raising a child from an early age in your world does not at all contribute to the development of such abilities.

Yetis are earthly tribes of earthly people who, unlike other peoples, did not follow the technocratic path. That is, they continue to live since the war, after the war 12,000 years ago, in fusion with nature, with plasmoids. And, moreover, thanks to this merging with nature, they developed in themselves those feelings that are practically not developed in an ordinary person of a technocratic civilization. For example, a sense of perception of the spiritual world, energy. They have a different way of thinking. Thanks to this way of thinking, they have better control over the physical body in the sense that they can easily teleport and levitate. With their thoughts, due to their absolute faith, they can influence their physical body in such a way that, at first glance, it seems to violate the laws of nature. But in fact, it does not violate the laws of nature, it’s just that not all laws, including energy ones, have been discovered by you.

They live in mountains and caves, they can live in forests, in huts, like your ancestors lived. And because of this merging with nature, they feel and see more than those who develop in

other civilizations. Because, firstly, they do not have an education system that is aimed at understanding the materialistic world and building a rigid scheme in their consciousness, from which it follows that the materialistic world is primary. And, thanks to this lack of influence from your civilizations since childhood, it is very easy for a representative of the Bigfoot peoples to believe in what you cannot believe. Thanks to faith, they perform miracles.

As for Bigfoot, this is a separate tribe, it is not one person or two. This is a separate tribe of people who did not follow the technocratic path of development. It remained to live in nature, like your ancestors, and began to develop in itself the ability to live without the usual shelters, etc., which you began to build for yourself. But yeti are intelligent, intelligent Spirits also incarnate in them. They are not animals. Among them there are contactees. MC also has contactees from Bigfoot people.

- How are they different from us?

- Not only because of their body structure, because they are taller, or because they are physically stronger, because they have more fur, because they don't have apartments with amenities. They differ even more than in body, in features in psychology and energy. Although they have the same genetics as you, due to the fact that they have lived for many thousands of years in a break with the usual forms of civilization, they raise their children in such a way that they acquire what are called superpowers. But they acquire this through faith - a figurative mental representation of a future event that will happen, without a doubt. For example, if you believe that you can physically fly, you will be able to do so, but only by imagining it. You can direct the vital energy that your body releases from food and oxygen, and it, the vital energy, is quite strong. It can be directed downwards by the consciousness and temporarily shield the body from the gravity of the Earth. But for this to happen, for it to definitely go and screen, you need to precisely direct it with thought, believing that everything will happen just like that. So that there is no doubt. And that's how they raise their children: that it can't be any other way, that if you do it this way, you'll have something like this. They don't have it any other way. On the contrary, if someone tells them that there are people who say that this does not happen, they will be very surprised and may not believe it.

- Do Bigfoot people have contact with ordinary people?

- They are in contact with representatives of the MS. Among them there are contactees of representatives of the planets Tikht and Burkhad. But do they have contact with people? With individual representatives of the MS they can, and with individual inhabitants of the Earth they can too. In principle, in order for them to do this, they need to learn the language of earthlings, etc. But, as far as I heard (Eslerites also conduct research in order to establish astral contact with them), as far as I understand their psychology, they are accustomed to the fact that people living in your cities want to look at them as some kind of miracle , but they don't want it and leave. They don't need that kind of attention. They have no desire to come out and tell everything, because they see, hovering in the astral plane, including in the noosphere of the Earth, common to us, images that are alien to themselves, because they have a different idea about all this. And, moreover, they also have their own rulers, one might say, priests, who have further developed their abilities compared to ordinary fellow tribesmen, who tell them that they do not need to return there, so that people do not turn them away from life in nature. And merging with nature is the only right thing for them.

#122 Live broadcast August 09, 2020. Questions for LiShioni from the planet Shimor.

https://blog.cassiopeia.center/voprosy-k-lishioni-s-planety-shimor
https://www.youtube.com/watch?v=MgluVCU3Cvk

Topic of the broadcast: Questions for LiShioni.

00:00 Question: Irina and Maxim, I dreamed about you today, how can I explain?

Maxim: Dreamed about it - that's good, probably a sign of change.

Irina: Yes, we were in your astral plane.

02:07 Is there an alien base in Uzbekistan?

Question: Is there an alien base in Uzbekistan?

Irina: Yes. There are three large bases there - Tikhtianskaya, Shimorskaya and representatives of one of the Sho-Hariki colonies.

Maxim: We try to make the programs quite open for you.

Guys, attacks on our channel have recently resumed. Misinformation about our channel. And contactees who are engaged in commerce, and such serious ones, began to do it. Therefore, if you hear something about us somewhere, then take it the way you want - according to your heart. But know that they don't like us. Because we have one small nuance - payment according to the heart (donation).

We don't have any prices. And in our center there will be no prices for people who turn to us for consultations, precisely in the center, in Voronezh. We sometimes make outdoor events paid for. Why? Because a whole team is traveling with us. You must pay for travel, accommodation and food.

We have now opened registration for a retreat in Loo - this is near Sochi (Krasnodar Territory),

between Gelendzhik and Sochi. There will be a wonderful five-day retreat there, but we are going there for 8 days as a group. We have 7 masters in the team, and a total of 9 people. At this retreat you will be able to see diversity - a huge number of contactees, energy and even different opinions in relation to the same things. Sometimes it seems to me that things are the same, but in fact different contactees see them differently.

Maxim: Irina, you wanted to thank me for the gift.

Irina: Yes.

Maxim: Now, we will recruit 400 people and start.

04:56 Irina's attitude to space energy.

Question: How do you feel about space energy?

Irina: I have a great attitude towards cosmoenergetics. I myself am a cosmoenergeticist.

Maxim: At the retreat in Loo there will be a master of cosmoenergetics. This is our Bagirov school. Our center "Cassiopeia" united two schools of cosmoenergy - Bagirovskaya and Petrovskaya. In our center "Cassiopeia" there will be masters who will also teach and conduct energy practices according to the structure - Donation.

Question: Many thanks to Mead for the diagnosis.

Irina: I'll tell him.

Maxim: Irina, you wanted to say hello.

Irina: I want to convey my sincere gratitude to the person who sent me a gift (ring with a stone) by mail. Her name is Malgazhdarova V.V., and she lives in the village of Krasnousolsky.

I think you're watching me now. I read your message and completely agree that this is my stone - you guessed it. Because I have a really strong Jupiter in my natal chart, I remember that.

I compiled it and know my date of birth, time and place. Indeed, I have a trine between the sun and Jupiter, if you are into astrology, then you understand what this means.

I want to sincerely thank you from the bottom of my heart for this gift and I assure you that this is very important to me. I was very happy about this gift from your heart. I am very glad for your attention. Thank you.

Maxim: The topic of today's live broadcast "Questions to LiShioni" is the planet Shimor, the homeland of Krishna and dad Krishna.

Krishna was the son of an earthly woman and a representative of the planet Shimor when these marriages were previously allowed. Today you can ask all your questions to LiShioni. Any questions: about its energy structure, planet, life, structure, arrangement, anything that interests you related to the planet Shimor and specifically with LiShioni - one of our curators and curators of our project.

Question: Hello Shimoru! Love you!

Irina: LiShioni say hello to Shimor (from Igor).

Maxim: Shimoru!? The whole planet at once?

Irina: Yes, say hello to the whole planet right away.

Question: Where is the photo of LiShioni?

Irina: On our page we have not a photo, but a drawing by LiShioni. I saw the Shimorians, and the accuracy of this picture is very similar to the photo.

08:38 LiSioni about the cosmoenergy channel "Golden Pyramid".

Question: Does the Golden Pyramid neutralize the virus?

Irina: Are you talking about the Golden Pyramid channel? The "Golden Pyramid" channel in cosmoenergetics creates vibrations that are incompatible with the life activity of viruses, microbes and other parasites. It can inactivate the virus in the external environment and in the human body - increase its immunity. Research was also carried out with this channel by Emil Bagirov and his medical laboratory staff and his supporters. It turned out that this channel disinfects space.

09:33 Polygamy on the planet Shimor.

Question: Is there polygamy on the planet LiShioni?

Irina: No, it’s not accepted. It is polygamy, as in Disaru, that is not accepted among them. We do not have a special law that would prohibit such forms of marriage. They are not accepted in our society, although they are not prohibited. But with the mutual desire of a woman and a man, they can live in this marriage. At the same time, it is not customary for one woman to have many husbands. It is not prohibited by law, but it is not accepted.

10:33 Krishnaloka. Krishna's level.

Question: How to get to Krishnaloka?

Maxim: I don’t know what it is.

Irina: This is the level of the spiritual world where Krishna and his equals are located.

Krishnaloka is the level of Krishna, the world of Krishna, the planet of Krishna. You can get there when you achieve that state that you call Krishna consciousness.

Krishna consciousness is a state when a person begins to relate to others, to himself and the world in the same way as Krishna saw it, through the prism of his consciousness, awareness and enlightened mind, enlightened precisely by the light of love. Everything he did, he did with love. Krishna talked a lot about Arjuna, different levels of yoga, that is, actions in the material world.

Maxim: LiShioni, please shorten it a little. Because there will be a huge number of questions. Regarding talking, I know that you like to talk for a very long time.

Irina: Okay.

Maxim: Is he finished?

Irina: Yes.

11:52 Are there any disabled people on the planet Shimor?

Question: Are disabled people born on the planet Shimor? If they are born, what is their fate, how are they treated?

Irina: There are genetic deviations, anomalies due to improper cell division. It can be in any physical organism, but we treat them. We help them, correct their genetics with the help of

special microrobots. They can correct the genetic apparatus at a level when it is not yet born, and cells are just dividing. Microrobots are launched into the mother's body, which repair these chromosomes in the cells. But this is not always possible - there are different mutations.

Even if someone is born with some kind of abnormality that will interfere with physical life, then our entire society takes care of them. Creates conditions for them to live a full life and spiritual development. And spiritual psychologists always work with them, who find out the reason with his Spiritual Self why he chose such a body for incarnation.

13:30 How did religions originate?

Question: Is it true that on Earth our teachings have been rewritten by people into religions?

Maxim: I really haven't heard what that means.

Irina: On religion?

Maxim: What does LiSioni think about religions? How were they formed, due to what?

Irina: All of them or just one?

Maxim: Basically, about religions.

Irina: Any religion was founded by one or more teachers who brought light to this world. The light of your knowledge, the light of your love, and were in contact with the spiritual world, or with subtle material or humanoid civilizations, or with all of them at the same time, there are also such cases.

But when passing on their knowledge, they most often conveyed it in words, and it was their students or students' students who wrote it down. Any religious scripture was written at the level of awareness that the student understood. And, moreover, those who read it as sacred scripture understand it in their own way. Therefore, I would not say here about intentional distortion, here it is like different levels of understanding.

In any religious egregor, not all people understand this religion in the same way and treat others in the same way. Because everyone is at different stages of spiritual development and even the development of the faith along the path they follow. This is not a deliberate distortion, but an inevitable consequence of the difference in people's characters and their understanding.

15:40 Shimore suicides.

Question: Do you have suicides on your planet **?**

Irina: For many years, while I have been embodied on this planet, I have not heard a single case where it was announced on our planet that someone committed suicide. In our country, even if such a thought occurs to someone, everyone knows that it will not save them from the suffering that exists in this body: from mental and physical ones. Because everyone knows about spiritual life. We don't just tell children theories about the spiritual world in schools, we practice with them. We show the astral world and take them there. We pay even more attention to astral travel than the Esler civilization.

16:35 Flora and fauna of Shimora.

Question: Do you have plants and animals on your planet?

Irina: Yes. We have a wide variety of tree and animal species. He's showing me now: there are even animals that look like our dinosaurs, with bright green skin. They can walk on their hind legs.

Maxim: How tall are they?

Irina: They can walk on four legs and on their hind legs. When they walk on their hind legs, they are about five meters. They live in jungles and dense forests.

Maxim: Wow! Are they wild? Are they attacking? Or are they herbivores?

Irina: There are domesticated species, and there are wild ones. No, they are not herbivores. They are predators and fly like birds. We can also domesticate predators.

We have dense forests. He's showing me now: the leaves are like our ferns, only they are long. Each of these leaves is long and sharp. They feel like cardboard.

I remember I was on Shimora. There are dense forests there, and the branches intertwine at the top, it's dark, and you can't see anything. White mushrooms grow like ours, only theirs are cone-shaped. The height is like half a person, about a meter. They are edible, just like your mushrooms. If translated into our language, they are called cones.

17:35 Number of races on Shimora. Their differences. Description.

Question: How many races are there on your planet? How tall are they?

Irina: We have 18 races on Shimora. It's like you have - 18 nationalities. They differ in skin

color, height, body structure - proportions. Some people have a rounder head, some have big eyes, a different nose. It's like yours, the races are different.

The main difference is the color of the skin, from pale blue to bright purple. Our height ranges from 1 meter 60 centimeters - there are such small nationalities, up to 2 meters 70 centimeters, that is, quite tall. I wouldn't say that our languages are different. Each region of Shimora has its own dialect, but each will understand the other.

19:49 LiSioni about human energy exchange.

Question: A person from Lithuania thinks that we, “humans,” are sheep for the spiritual world. They sap our energy.

Maxim: LiShioni, are we sheep for the spiritual world, and who is shearing this energy from us, what do you think?

Irina: Interesting question.

Maxim: Who takes energy from us?

Irina: I understand the reasons for this question. Because not only the human body, but also the body of any humanoid and plasmoid, which is either dense material or thin material, releases energy.

The body cannot help but release energy in the process of its life. Even if you do not give energy to any entities, egregors, etc., but live alone on your own, that is, you do not even communicate with anyone, without making contact with anyone, then energy will still leave your body - dissipate in space.

Why? This is the objective reality of metabolism that occurs in any body - organic or inorganic, that is, plasmoid. Only in a plasmoid it is not the metabolism, but the exchange of energy in this body with the external environment - this is about the release of energy.

You will not be able to conserve your energy in the same way that you will not be able to conserve body heat, which constantly releases it 24 hours a day - this is also energy. Even if you shield your body in such a way that heat does not escape from it, your body will overheat and it will suffer from this. In fact, this is a normal process.

Now about the sheep that are being shorn. Can this energy be used for some needs of other civilizations?

It can be used by some plasmoid civilizations to feed on it. Not just with energy, but charged

with certain of your thoughts and feelings, since they do not have a source of power that is usual for you - they are powered from energy sources. The energy of dense material beings may also be available to them.

As for the spiritual world, there is no longer such a direct relationship between energy and feeding them; here there is, rather, feeding their ideas. Any Spirit is intelligent, it has a certain idea, and if you support this idea, it rejoices that you support it. This gives him joy and strength to continue. But this is not your energy, but his own. It is wrong to perceive a person's life as a constant donation of energy, because, in addition to donation, a person also receives the return of other energies. It receives energy in the form of sunlight, air, food and relationships with other people. He not only gives, but also receives. This is called energy exchange.

Maxim: And then the person himself decides where to project it, to what vibrations to direct the energy that he receives from space.

23:35 Work, money, professions Shimora.

Question: What are your professions? Do you have money or work?

Irina: Yes, we have money in the form of signs, distributed like your paper money. Only they are made not of paper, but of a special material.

These are not coins or paper money, they are like oval-shaped badges that are made from a certain form of polymers. And there are electronic ones, like yours. If Esler only has electronic money, then we have both.

What professions do we have? We have many different professions. Here we resemble the Eslerites. We have more art workers and few who do physical labor, because there are mechanical robots for this. We have many who travel in space. There are many workers on other planets exploring the Galaxy. We come into contact not only with the inhabitants of the Earth, but also with the inhabitants of other planets that are not included in the Interstellar Union.

Many of us are busy with contacts with plasmoid civilizations. This is our specific profession - research through the astral plane or telepathic contact of these plasmoid civilizations.

We have music, paintings, books. As for technical professions, virtually everything is the same as in the Interstellar Union. All production of goods, and even more so of such complex equipment as spaceships or some instruments, is done by automated robots, and these robots can reproduce other robots.

25:57 Sports on Shimora. Relationship to the physical body.

Question: Do you have any sports activities? Do you do physical activity?

Irina: Yes. We play sports and believe that the physical body is as important a part of the Spirit as, for example, the mind, emotions, spiritual heart, etc.

We believe that lack of care for the physical body is a lack of care for the divine energy that is present in it in dense form.

Naturally, playing sports does not cause any harm to our body. We do not choose sports that could harm the body.

Question: Do you have sports competitions?

Irina: They exist, but they are carried out more in the light of love. There is no aggressive confrontation. Our goal is not to win these competitions, and there is no goal to show that you are capable of being proud of someone who does not. The purpose of competition is to show what you are capable of. And that you are not afraid of being weak, lagging behind and the one who makes mistakes.

27:28 Work and family LiShioni.

Question: Please tell us the latest and most interesting news that you know on Shimora.

Irina: In fact, now I am more involved in Earth affairs.

I am near Maxim practically all the time when my body is sleeping. I need little time to sleep - about three hours of yours. And not only near Maxim, I come to Irina and other contactees.

Including, I already have contactees who are watching me even now - they have now opened a chat and are present there. I come to them and contact them. And follow the news of the Galaxy - my attention is no longer directed.

When I return to the physical body on Shimora, there is, as you would say: not a sarcophagus, but a kind of cave. She is under Shimor, under the ground. I would call it a bunker, and at the top there is a forest. Because we have underground floors of construction, and many people already live there, there are above-ground floors - all of this is occupied by people. There are all conditions for living there.

This is not my home, where my body is. This is my base where I work.

Yes, I also have a family. I agreed with my family that we would see each other mainly only in

the astral plane, they also come to me, but we meet with them not here on Earth, but in the astral space.

My family is my parents. I don't have my own children or wife yet. We have a girlfriend, but we don't have children yet.

Maxim: Yes, if you approach all contactees like this, there will be no time for children.

Irina: In my opinion, you will soon have children, and not only in Shimora.

30:26 Shimor's participation in the war 1200 years ago on Earth.

Question: Did the Shimora civilization participate in the war 12,000 years ago on Earth?

Irina: I didn't participate on Earth. In the Galaxy, this wave did not reach us, but we participated in eliminating the consequences. We helped on Sirius, as well as rebuilding Ashtar's ships and crews.

We flew to this asteroid belt, which remained from a destroyed planet. Inside these asteroids they assembled laboratories and instruments that remained there and were needed. On Earth, we also helped restore the microclimate that was disrupted by this war.

Maxim: LiShioni, please tell me, the planet Shimor is, as I understand it, the name given to Irina in Daraal. What self-name do you have for the planet Shimor? You can pass this on to Irina so she can try to express it.

Irina: Yes, Shimor is in Daraal. On Shimorsky - Lyankhish.

32:20 Shimore Homes, Water and Sewerage.

Question: What material are houses built on Shimora from? What do they look like? Do we have running water and sewerage like we do?

Irina: We have different types of houses - multi-story and one-story, there are underground floors. A traditional house is built from polymer materials, which consist of simple ones: carbon, silicon, sulfur, vanadium - such chains of these elements. They are used to make cubes, not like our bricks, but even, like squares, brown in color. Then robots build houses from them. They can be like round towers. They can also be one-story, similar to a mushroom - a long house and above it a dome, like a roof, only it goes down.

Maxim: Is there sewerage in the house? You walk... like we earthlings?

Irina: That is, waste recycling?

The Shimorians were one of the founders of the Interstellar Union. Now, in fact, the entire Interstellar Union uses the same, with minor nuances, recycling system - sewerage. There are special chemicals, bacteria and converters.

Substances that are released from the body of living beings consist of certain elements. After special processing, which occurs in stages: first with special microorganisms, then with chemicals and special radiation, these substances are broken down into their constituent elements: compounds of carbon, silicon, copper and others, which are then used for their intended purpose. That is, these elements are separated, they are not thrown into nature.

When our specialists begin to get acquainted with the solution of similar problems on Earth or on a planet that is not part of the Interstellar Union, our ecologists are usually very surprised by the attitude towards nature that the representatives of planets like yours have. If there was such a task, your scientists could also have developed similar technologies long ago.

36:05 Water on Shimora. Fishing on Shimora. Food of the Shimorians.

Question: Do you have water, oceans, seas on your planet?

Irina: Yes. He is now showing me the southern hemisphere. There is an ocean there.

Question: Do you have such a concept as fishing? Do you fish? Do you even have fish?

Irina: We have fish, but we don’t have the custom of catching it. Our type of diet is reminiscent of Esler's - lacto-vegetarianism. We can eat bird eggs, but fish and meat - we do not have such proteins, they do not function from these creatures.

Maxim: So you don’t eat fish or meat?

Irina: No. They resemble Eslerians in nutrition. They only have bird eggs. Only Eslerites cannot eat eggs, but both can eat milk. Now there are special genetic developments that will help change your organisms in such a way as to assimilate certain species, like lizards.

Maxim: Got it. They don’t go fishing, they don’t catch fish and they don’t eat them.

37:27 Who is Yahweh?

Question: Do you know who Yahweh is?

Irina: Yes, of course. This is the name of the Tumesoutian who came to Abraham, to all his descendants, to Moses and his followers, and subsequently to his descendants. And in whom the one you know as Christ was incarnate. He came to form his people on Earth, through whom he could incarnate. This topic has already been discussed.

38:20 Are animals brought to Earth?

Question: Who gives us different animals on Earth?

Irina: Which ones?

Maxim: Are the animals that we have on Earth earthly, or were they brought here to us? Do you know anything about this?

Irina: I know where the idea that they were imported comes from.

Many animals were exported during the war and then brought back. But, judging by the data of the Interstellar Union, they did not interfere with their evolution, that is, they did not change their genetics. They were simply saved and that's all.

Maxim: I see. They were imported, and these are terrestrial animals.

Irina: Yes.

39:05 Wars on Shimora.

Question: Did Shimora go through a time of wars, aggressions and much more when you evolved?

Irina: There was such a period, but it was short. It ended long before going into space - thanks to the fact that the public on our planet united in a single thought of cleansing the noosphere of the planet from everything destructive, from all destructive energies. And those rulers who supported aggressive tendencies were simply taken out of incarnation.

Maxim: Interesting.

39:52 Political system in Shimora.

Question: What kind of government do you have? What is your political system and world order?

Irina: We do not have a single ruler. I have some advice. The political system is very similar to the Eslerites. Every city has a community council. Representatives of this council gather in a certain place when they need to solve the problems of the entire planet. We do not have a single leader. Meetings are temporary - to resolve certain issues.

40:45 Lifespan on Shimora. What do older people do on Shimora?

Question: What do the elderly Shimorians do on your planet? At what age do they become elderly? Do you have such a concept as “retirement”? How long have you been living? What is an elderly person to you?

Irina: According to earthly criteria, we live about 650-730 years.

Maxim: This is practically like the reptilians from Selbet.

Irina: Yes. This is our middle age. Almost the same way as you earthlings lived before the war - 10 times longer.

A Shimorian is considered elderly after 500 years. We don’t have a situation where a Shimorian can retire at a certain age.

A pension is government provision in cash for older people. LiShioni, do you have something similar?

Yes. We have something similar, but not when a certain age is reached, but when the Shimorian himself understands that he has exhausted his supply of vitality and has completed the task of this incarnation. We do not have such strict laws that would regulate this. An application is sent when the Shimorian himself decides so. He meets with what you call a “social worker” who also has the skills of a spiritual psychologist. He talks to him, connects with his Higher Self and asks the question: have you completed your task? Shimorets, before converting, had already talked to his Higher Self and asked: “Have I completed my task?” And only then does this agreement take place. The society takes upon itself the responsibility of providing for this shimorets until the end of his period of physical embodiment. But he can return at any time if, during contact with the Higher Self, he realizes that he has a new task.

43:30 LiSioni's task in this incarnation.

Question: What is your task in this incarnation?

Irina: To promote peace, progress, understanding of peacefulness and light of the soul throughout the Galaxy, and now specifically on Earth.

43:50 Payment for housing on Shimora. Who owns the property? Drinking water.

Question: Do you pay for housing and utilities? How do you arrange housing for yourself?

Irina: What are utilities for housing? I don't understand.

Maxim: When you built the house, who owns the land?

Irina: To the Planet Council.

Maxim: Who owns the house that was built?

Irina: There may be different ones at home. Maybe it belongs to an individual Shimorian, or it may belong to a city or a representative of another planet. There are different ones at home.

Maxim: Is there drinking water in the house?

Irina: We have a source. It is not available in all places, like yours - it is mined from underground. It is synthesized from reagents. Certain substances are combined and it is synthesized.

45:00 The issue of meteorite safety of the Earth.

Question: Some scientists say that on September 3, 2020, a meteorite will fall on Earth, and we will not be able to go to a retreat in Loo. This is true?

Irina: Issues of meteorite safety for your planet in the Interstellar Union are dealt with by a whole group of extraterrestrial intelligent beings who are located at a base under the soil of Mars, at a base on the Moon, as well as in the very outer space of the Solar system, where the ecliptic plane is. If there is a dangerous approach of an asteroid or meteorite that could be dangerous for the planet, it will be noticed from afar by these ships. And they will send a probe there, like a silver ball, which will fly up to this asteroid and send a gravitational wave to it, which will deflect it.

Maxim : That is, we have nothing to fear. From September 18 to 25 we will go on a retreat in Loo.

Irina: Yes, of course. Everything is in the power of God, in the hands of God. And everything that contributes to the spiritual evolution of earthlings will take place.

47:15 Rest on Shimora.

Question: How do you relax? How do Shimorians relax on your planet? And do they rest, or maybe they are always working?

Irina: Yes, of course, Shimorians relax after work. They are engaged in a different type of activity. Rest, if it is generally inactivity, is not accepted among us. We have a change of activity.

Maxim: So you just don't sunbathe on the sand and lie around, like we do?

Irina: The fact is that we do not understand rest as inactivity. But even if you go to a pond to swim, then you walk and swim there - this is also an activity of the physical body, useful for the body. In any case, rest as inactivity - it is not customary for us to do nothing. Because what you named is still an activity. You make an effort to get there, swim, etc. Rest is not the same as sleep. This is, for example: listening to music is already an activity of the mind.

They understand it a little differently.

Maxim: We, earthlings, have not reached this point yet. We do not perceive rest as an activity of the brain and body. We perceive this as free time from work, which we devote specifically to ourselves.

Irina: But you can dedicate your work to yourself.

Maxim: Many people don't understand this.

Irina: Any activity: public service, work in a private enterprise, work for oneself can be dedicated to people, God, oneself, or all at once. But if everyone does it at once, you will be like a bright light that shines in all directions.

49:45 Is Shimor's climate suitable for earthlings?

Question: Can people (our earthly ones) live on your planet? Will your conditions allow them to be there?

Irina: Yes, our conditions will allow it. But not all areas of the planet will be comfortable for a person in terms of temperature.

Our usual temperature is from +45 to +60 degrees Celsius. When we arrive on Earth, the temperature here is lower for us. Irina and other contactees physically visited our planet. They were brought to places where they felt comfortable being.

LiSioni asks me to tell. Yes, I remember how Kirchiton brought me to you.

Maxim: Okay, let them read the article, like you did on Shimora. Therefore, we will not waste time now.

50:48 Attitudes towards homosexuality on Shimora.

Question: Do you have same-sex marriages, say: boy with boy, girl with girl? We have this on Earth, but do you have this there?

Irina: No. With us, each Spirit, having incarnated in a certain body, accepts it as a gift from God and lives in accordance with the bodily task of this body. Because he understands that it will be against the nature that exists - the structure of the body, you yourself chose to incarnate in it. And if there is a return to the memory of a past incarnation, this means going against your own body, destroying it with your thoughts and emotions.

Homosexuality is not only a physical manifestation in sex between same-sex partners. Here the question is much deeper - it is non-acceptance of your body and the destruction of its functions by your own thoughts.

52:04 LiSioni about seven-step yoga.

Question: LiSioni, apparently the person's button is stuck, I've seen this question probably the tenth time. Do you happen to know where 7-step yoga came from?

Irina: I know that Patanjali was a very good contacter with plasmoid civilizations. And the methods of asana and pranayama that he developed helped to enter an altered state of consciousness and establish good contact with different types of plasmoid civilizations. But at the same time, towards the end of his life, Patanjali became an even better contactor with the spiritual world, as he raised his vibrations, and some yoga exercises help contacts with the spiritual world, with his Guardian Angel, with his Mentors and Angels -consultants.

53:10 About burials on Shimora.

Question: How do you carry out burials on your planet? If a Shimorian dies, what happens to his body?

Irina: We have special equipment that sprays it into its component parts, but it is not fire, but like a disintegrator. It is placed in a certain chamber and exposed to special radiation. It will disintegrate not into separate organs, but into separate elements. Then these elements are used for the needs of the planet's technology.

54:01 Shimorians have guardian angels.

Question: Do you have Guardian Angels?

Irina: All incarnated spirits have them, if the incarnate Spirit wished to go into incarnation with a Guardian Angel. But he could have refused to go through on his own.

Maxim: Basically, like any incarnated spirit, you have Guardian Angels, right?

Irina: Yes.

54:26 Alcohol on Shimora.

Question: Do you drink alcohol on your planet? Do you have drinks that cloud your mind?

Irina: Alcohol or substances replacing it that can cause artificial euphoria are not prohibited in our country, but such drugs are not on sale, since we do not need it. Because clarity of mind is more conducive to happiness.

55:00 Attitudes towards death, communication with the dead on Shimora.

Question: Do you yearn for the dead, and do you meet your dead, that is, in the spiritual world through the astral plane?

Irina: Yes. We will meet if necessary. And you, earthlings, also meet your dead. Our contact is more conscious, it does not frighten anyone, it no longer causes fear, but a desire to pass on our experience to each other. A Shimorian can tell his relative whose body has died, for example, about his affairs on Shimor, in his family, or even in the Galaxy and listen to news from the spiritual world. This contact is more conscious.

Question: Do you yearn for the deceased? Suppose a Shimorian died, do his relatives miss him?

Irina: What do you call melancholy?

Maxim: Regret that he left this world.

Irina: Regret that someone has left the material world is a form of disagreement with the decision of his Mentors and his Higher Self.

Maxim: So you don't practice this?

Irina: This is a meaningless emotion that does not bring any positivity and a correct understanding of spiritual development.

56:29 LiSioni about sleep.

Question: What is sleep? Why does a person need it?

Irina: Sleep is the process of separation of the astral body from the physical at the moment when the physical body temporarily enters a state of relaxation.

This is necessary so that the astral body can return to the astral world, to part of the spiritual world, there to recharge with spiritual energy and manifest in the astral world with thought forms the experience that it received during the day of this life - to put everything in memory and process the attitude towards it with consciousness . That is, at the moment of sleep in the astral body, due to emotions, feelings, thought forms and the reaction of desire for a certain period of time of that day, deeper feelings are formed. This fits into the astral body. In the physical body at this time, restoration processes take place in the cells: toxins are removed, energy accumulates in the mitochondria of the cells. These two processes reflect each other. One goes in the astral world, and the second - in the physical.

58:10 About the retreat in Loo and the Center for Spiritual Development.

Maxim: Well, excuse me, we will work with it. Specialists will set up the equipment. Guys, we literally have 2 minutes left, and we will now choose the last question on today's live broadcast. Once again I want to remind everyone that we are having a retreat in Loo from September 18 to 25. This retreat will be attended by people such as Vlad Pulsar, Master of Cosmoenergy, a man who deals with the synergy of development. We will have healing practices, spiritual practices, training in the Higher Self, training in contact with our Curators and Mentors. The program is very wonderful, it was given by one of the representatives of the Interstellar Union, and we are now trying this program, testing it out. To do this, we invited a huge number of very cool masters to this retreat. Every day will be full of seminars, meditative and physical practices, practices of entering the astral plane and the mental. During these 8 days of retreat we will try a lot and, accordingly, many who are unconscious contactees will leave after this retreat as conscious contactees. And others will be able to apply to study at our school - at our center for spiritual development, which will open in October. I've almost finished the renovation work. I just have to do some renovations at the hostel.

That is, we will have a center and a hostel nearby. Accommodation and training in the center

and hostel will be in a complementary structure, as we promised. Another very big request to all of you is to send us links if you see information about us somewhere, because we are already very interested. A large number of commercial contactees perked up and began to convey a large amount of negative information. Therefore, we will be happy to see how and what they say about us.

Irina: Ilya, I see your question. And I even counted how many times he appeared on this broadcast - exactly 12 times!!!

Maxim: Let's answer it.

01:00:47 The number of humanoid and plasmoid civilizations in the Pleiades System.

Question: How many humanoid civilizations are there in the Pleiades system?

Irina: Do you mean not only those included in the Interstellar Union, but anyone in general?

Maxim: We are interested in the Pleiades Constellation, how many civilizations can classify themselves as Pleiadians.

Irina: Which are located within the boundaries of this system, these clusters?

Maxim: And how many civilizations are there?

Irina: Precisely the humanoid type, which are included in the Interstellar Union and the Galactic Federation of Light, and which are not included in any of them?

Maxim: Let’s look at the question: namely, which are included in the Galactic Federation of Light and the Interstellar Union. Approximately how many civilizations?

Irina: The total number of civilizations is 38 humanoid types. Of these, 11 are part of the Galactic Federation of Light and 4 are part of the Interstellar Union.

Maxim: And if we are talking about thin-material - plasmoid civilizations?

Irina: There are more than two thousand of them there.

Maxim: More than two thousand civilizations that can call themselves Pleiadians, right?

Irina: Yes. They have different levels of density there, and new worlds are constantly opening up.

Maxim: So they haven't even all been studied yet!?

Irina: No.

Maxim: Guys, thank you all very much. We love you all and hug you. Ask us your questions, write in the VKontakte group. Support our group. Because your support is very important to us. The more people learn about us, the more conscious people will appear on this planet, and together with you we will consciously be able to carry the light that we are now carrying in the Cassiopeia project. We thank everyone and hug you.

Irina: I thank everyone for being with us and sending everyone the light of my love. I convey greetings from LiSioni and MidgasKaus, who is not present with us, he is now with another contactee. But he said hi to you all. See you on the next live broadcast.

Maxim: We expect to maintain a normal tradition; on Sunday at 8 o'clock we will try to go on air, even for 5-10 minutes, if we have the Internet, and if there is no opportunity to communicate for a long time. If anything, come to our chat. We are on all social networks. We have a chat on Telegram, a group on WhatsApp, Instagram, Facebook, Odnoklassniki, and a YouTube channel. We have a huge amount of resources. If you want, come and join. Guys, bye everyone, see you again.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan **-** head of the Spiritual Center "Cassiopeia";

LiShioni from the planet Shimor is a specialist in the astral world and its interaction with the material world.

CASSIOPEIA 18- Irina Podzorova - Psychosomatics of diseases: subconscious, immunity, spirituality, positive thinking -

Information transmitted by our space friends through Irina Podzorova, a contactee with extraterrestrial civilizations.

https://blog.cassiopeia.center/+video-v-tekste

t.me/cassiopeia_publish

#123 Synergy, matrices, cosmoenergetics, sound healing, sound healing, raising vibrations.
#124 Psychosomatics of diseases: subconscious, immunity, spirituality, positive thinking. How does the virus work?
#125 Ashtar Sheran and the reptilian. War in the Solar System 12,000 years ago - attack on the Burkhad colony.
#126 Civilization Disnit, contacting. Live broadcast with Katya Lel.
#127 Intergalactic Medical Service - Pleiades Constellation. How to learn to heal yourself?
#130 Three wishes for a frog. Spiritual pride, development and priorities.

#131 Kirlian effect. Aura. Religion. Conference by Irina Podzorova with Sofia Blank and Michael Melikhov.
#132 Chipping and 5G. Is it possible to implant chips through a vaccine?
#135 Chipization, vaccination. 5G - a threat or a natural development of civilization
#136 Katya Lel and Irina Podzorova: details of contacts with aliens.
#146 Report on the retreat held in Loo. Answers on questions.
#147 Conference in Anapa: Alternative energy sources. Application in human treatment. (part 1)
#148 Conference in Anapa. Energy: sources, types, transformation. Prospects for the development of science. (part 2)
#153 How to become a contactee? Diagnostics of a novice contactee from Germany.

#123 Synergy, matrices, cosmoenergetics, sound

healing, sound healing, raising vibrations.

https://blog.cassiopeia.center/sinergiya-matricy-kosmoehnergetika-iscelenie-zvuko
https://www.youtube.com/watch?v=hCDU9_HnMUw

00:27 Introduction of the participants.

Irina: Hello, dear friends! My name is Irina Podzorova, I am a contactor with extraterrestrial civilizations. Today we have with us LiShioni from the planet Shimor - a specialist in astral interactions, MidgasKaus from the planet Esler - a biologist, psychologist, specialist in alien life forms, and today we also have with us a representative of the planet Gikhor **-** a specialist in creating external fields for restoring the energy structures of humanoid types of civilizations - his name is Silmani Grikhtari.

And my friend Sergei has several questions for them.

01:15 What is Synergy, what do aliens know about it?

Sergey: Good evening, friends. My name is Sergey Lvov, I am an energy therapist, I work with Synergy matrices. There is such a direction. It is not very widespread yet, but for those who are in the know, who work with energies, who have heard such directions as reiki, cosmoenergetics, it will be clear what we are talking about. This is a direction that came out of cosmoenergy, and, as we see it, those who work with Synergy, this is what is the next stage of cosmoenergetics. This is the direction where energies and sound connect, and all this is revealed in matrices.

Today I would like to ask our interstellar friends how they see this direction of Synergy, how it works, how these matrices open, and how sound in general - our melodies, our tracks - influence a person, how they reveal themselves in a person, and what benefits carries this teaching, these energies for man.

I would like to ask our friends a question: do they know about Synergy, about this direction that came out of cosmoenergy?

Irina: As a biologist, I study various forms of influence of physical fields, energies and energy fields on the human condition and his physical, mental and energetic health. And I am familiar with this direction; there are already several contactees and several specialists from the Interstellar Union who are working in this direction. What it is? This is a combination of several directions into one: cosmoenergetics; plus those frequencies that were not included in cosmic energy, similar to slats, originating from plasmoid civilizations; just not those civilizations that gave reiki, but others; and plus the physical impact of certain sounds - such a direction of treatment as sound therapy.

Sergey: Yes.

Irina: Thanks to this, a complex effect on a person, on his energy and on his body is achieved through special areas of the brain that are excited or inhibited due to certain combinations of sounds.

04:10 Matrixes of Synergy - energies of the spiritual world.

Sergey: Such a question. When Irina and I worked at the session, you saw that there were particles of the Spiritual world and Archangel Raphael there...

Irina: Yes, I remember.

Sergey: In our teaching, we, in principle, position Synergy as energies, which we can conditionally call them, of the Spiritual world. What can our friends say about these energies of the Spiritual World that are present there?

Irina: At the moment these frequencies sound, if a person not only listens to them, but tunes his consciousness to them, while focusing on these sounds, in a state like meditation, then the person begins to interact with the Spiritual world, because those energy centers are activated in him, which are responsible for contact with the astral

world, with the Spiritual world, for communication with the Higher Self, opens its Spiritual channel, which comes from above. And all these visions of the Spiritual world, the astral world, are due to the fact that these energies themselves are activated, thanks to contact with consciousness.

Sergey: With human consciousness.

Irina: With the consciousness of a person who does not just listen, but is involved in the process. What does “turn on” mean? This means he believes in him, wants changes in his body, that is, he is open.

Sergey: During our sessions, we recommend that people stand. There is an understanding that when a person stands, energies flow better along the axial channel, descending and ascending flows. Is the effect on a person the same when standing, sitting or lying down?

Irina: If he sits or lies down, he can become so lost in these sounds that he loses consciousness.

Sergey: He can fall asleep...

Irina: Well, yes, he will go to the astral plane and will be unconscious. The impact on the body will remain, but he will not remember this exit, he can simply go beyond this space. In any case, his body will be affected, but sound therapy is precisely aimed at consciously listening. That is, if a person does not fall asleep, then you can listen in any position - the energy will still be activated. Standing is important specifically for cosmoenergetics sessions. Because when the channels pass from top to bottom, it is better when a person stands and not lies. And when music with Synergy is turned on, it is not the channels that are turned on, but the embedded memory of sounds. They are activated automatically.

Sergey: Yes. That is, in principle, sitting or standing - there is no difference.

Irina: If he doesn’t fall asleep and listens, then maybe.

07:23 The principles of the work of Synergy, like sound therapy, with a subtle plan.

Sergey: This is the question. In our understanding, Synergy works with almost the entire spectrum of diseases. It works with the subtle plane of a person, as if cleaning, washing away destructive programs and blocks from the aura. How does this actually happen, this work with destructive programs and blocks on the subtle plane?

Irina: Each matrix contains frequencies from different channels, even those that are not compatible with the classical ones in cosmoenergetics. And thanks to this, the effect is achieved that each frequency acts on a separate layer of the aura, or on a separate energy center, or on a separate etheric copy of the internal organ. How does it work? Vibration increases, clears low vibrations. But this cleansing at this point in time will have a different degree of cleansing for everyone. It very much depends on how open a person is to this process. If he continues to think about something bad or does not trust this person, or remembers something about his low vibrational state, then this will not be cleared from him. Because all this energy will go into clearing these memories.

Sergey: I recommend that everyone at my session free their head from thoughts as much as possible, relax and go purely into the sensations in the body. That's probably right.

Irina: Therefore, it is the conscious process that is important here, as in any sound therapy, and the plus here is also enhanced by the influence of these energies.

Sergey: Tell me, what is the difference between when a person simply listens to tracks and when a person works with a conductor? When a conductor participates in a session.

Irina: If the conductor just sits and listens, then practically nothing. And if he strengthens energies with thoughts, can direct a separate phantom for treatment, can mentally imagine, then with these thought forms he increases the intensity of the process.

Sergey: Yes. Here, as in cosmoenergetics, we are discovering matrices. The explorer opens the matrices.

Irina: If he works, then it enhances the effect of these energies, because he mentally focuses on them, and not just opened them once, but, as it were, mentally holds them. We can say in a simplified way that a mini-egregor creates.

Sergey: Some kind of field...

Irina: And several people will strengthen it. How electric charges reinforce each other.

10:35 Recommended duration, frequency of Synergy sessions, remote format.

Sergey: How do they see the number of sessions? How long is it recommended for a person to visit, how often, with what intensity?

Irina: For most earthlings, to adjust the frequencies of their internal organs to healthy frequencies, 15 sessions every three days on the fourth will be enough. These three days are needed to accommodate these changes so that the body adapts to them.

Sergey: That is, once every three days.

Irina: Yes, this is the optimal regimen: 15 sessions of at least 40 minutes each.

Sergey: Our session goes like this, 40-45 minutes. And if it’s some kind of intensive course, say, at a retreat, 7 days in a row, every day, won’t it be too much?

Irina: It all depends on how energetically prepared a person is. For some, one audition is too much. Maybe he won't want to continue. I

just outlined an average that suits most people. In general, you need to rely on intuition. If you want to listen to this more often, you can at least all day. It won't do any harm. If you feel that this is a strain on your energy, then you should do it less often.

Sergey: Question: offline and online. When I work remotely with people, then, in principle, the quality of the sessions does not differ according to the reviews of those people with whom I work. How do they see that there is still a difference between live and remote?

Irina: You can carry out any work with energies remotely, provided that this person who works remotely can mentally go there and create some phantom there or imagine a phantom of this person nearby, that is, a copy of his etheric body, which he will call up in imagination. There is even such a method of healing with any energies, when at a distance, even without video communication, you simply mentally create a copy of this person in front of you and treat him: you direct the energies to the right place, open the necessary channels, and so on. And then you mentally send him to this person, and he actually goes to the astral plane and connects with him. You can also work with any energies. You actually create this copy, a phantom of this person from your life energy, and then it goes to him.

13:50 Do masters of Synergy need protection?

Sergey: Does the master need to install protection during sessions? People have different frequencies and vibrations, and the master may pick up some negative energies from other people during the session. How does it work?

Irina: If the master has allowed himself the thought that he needs protection, this is already fear, in any case, some kind of anxiety. If he is so unsure of himself, then before working with people, he should work on himself, increase his confidence. Nothing can touch a person with a low vibration if he himself is of a high vibration. But here you need to remember that fear, anxiety about the fact that he might attach something to himself, already reduces the vibrations. If you are confident in yourself, you don’t have to bet anything.

Sergey: In space energy, protection is often installed: pyramids, cocoons, etc.

Irina: Irina was also taught by cosmoenergetics teachers how to set up a pyramid. If only she had staged it once, but she never did. No need.

15:30 Does Synergy, sound, sound healing affect DNA?

Sergey: Does energy and sound somehow affect the reprogramming of DNA?

Irina: It can turn on individual genes in sections of DNA that are turned off, this is called reprogramming. Or, conversely, turn off those genes that interfere with the further development program of the Spirit. But this does not always happen, but when this change is necessary for the further evolutionary development of this embodied Soul. There a person comes into contact with the Higher Self and the Spiritual world, and there there is a change first in the Spiritual world, and in the Spiritual world there is a change in the person himself, in the very structure of the Spirit. And only then it is reflected in the physical body.

16:18 The impact of Synergy sessions on the human aura.

Sergey: Does the master's own aura field increase and thicken during a session?

Irina: Yes, it is happening. She's getting enough.

Sergey: It becomes more even and increases.

Irina: If he is not busy with business and also listens. The state of the aura depends on the state of a person's Spiritual structures. Let us now speak in the terminology of the Interstellar Union - the Spirit consists of mind, heart and energy. If all these components have a light, high-vibration state, then the aura will be light. What is a big aura? It's like a lot of life force has been invested into it. Density also

depends on filling with vital force. It happens when a person has a lot of vitality, but his aura is weak. He spends it on the physical body. It happens. It will be large, but not dense. There are special visualization techniques, as you call them, when you mentally condense your aura along with your breathing. Or you drink water, putting into it the thought that it is charged with sunlight, and as soon as he drinks it, a solar cocoon will form around him. That is, things that include the influx of etheric field energy into the aura, that is, into the rest of the subtle bodies.

18:16 Synergy work with generic programs.

Sergey: There is also such a direction in Synergy - this is the elaboration of the gender. Some of our matrices serve and work precisely for this purpose. How does this happen? How are generic programs developed?

Irina: It's like connecting to the ancestral egregor through a spiritual channel. To the family egregor. What is an egregor? This is the totality of all energy information fields that were compiled by these people who lived in this family. The strongest influence has up to 12 generations. The rest also has an impact, but less. The energies they invested influence the formation of that person's character. From childhood, when it develops. Because he enters this family, incarnates through the Spiritual world and takes on part of the egregor's energy. This interaction of a person with his generic egregor is one of the life tasks that he must go through. Therefore, everyone is born into a certain family. The matrix helps greater awareness of these programs, greater positive emotions and thoughts when working through them.

19:45 What is raising human vibrations?

Sergey: Nowadays there is such a fashionable topic among esotericists about the need to raise vibrations. Do matrices help raise human vibrations, and to what level can they be raised, in principle?

Irina: I'll now explain what raising vibrations is, what vibrations are in general. In Russian, the word "vibrations" means vibrations. Naturally, if we consider the spiritual structure as immaterial, then nothing there

can fluctuate like material. Therefore, we used the word “vibrations” or “oscillations” by analogy to describe the material world. Why did they use it that way? Because in the material world, every object, object, energy field has its own vibration frequency. The higher they are, the more usually the matter is discharged. Also, by analogy, the spiritual qualities and properties of the Spiritual Essence, as they called “nature” or in Greek “physis”, the closer they are to the divine, the higher they are in their qualities. And since those esotericists who received information from their curators, plasmoid, humanoid, and so on, most often in the language of science, because in the language of religion it is called “nature,” and in the language of science it will be called spiritual vibrations. The closer to divine energies, the higher the vibrations.

Sergey: How many vibrations does the average person have? How are they measured? In Hertz?

Irina: In Hertz, terahertz, only material things are measured, either densely material or finely material. In the spiritual world we can say that vibrations are measured in millions or billions of Hertz, but in any case these will not be the same vibrations that we see in an electromagnetic wave, or in light, or in a radio wave. This will already be a greater or lesser degree of awareness in the light. Let's put it this way - what we call "light" again has nothing to do with the physical light that you see with your eyes. This has to do with spiritual light. Why do we call it “light”? Because in the Russian language we cannot come up with other words so that everyone can understand it. In the languages of the Interstellar Union there are different words for physical light and spiritual light, this is already clearly explained there, and for the word “vibrations” there are also differences when it is the material world and when it is the immaterial world. For you this is indicated by one thing.

23:20 How to record changes in human energy?

Sergey: How can we measure a person’s energy in general, and by what criteria can we determine the state of changes in his energy? Let’s say he was in one state before the session, went through 15 sessions, and became in a different state. But this is a subjective assessment. Are there any instruments that can measure these changes or do they not exist yet?

Irina: There are, as you call them, aura chambers. But they already record changes in the energy of the etheric, that is, the subtle material. Around a person, certain waves, as you say, vibrations of a certain frequency, can be captured by these devices and produce certain photographs and even videos. There are such. Where there will be not the whole aura, but only part of it. And the rest of the part that cannot be captured by the device, it still affects the one that is captured. That is, this intangible part, where our feelings, thoughts, etc., they influence that ethereal part that can be photographed. With certain colors, symmetry, density, sizes, etc. In general, all this can be seen through your own astral vision. It's difficult to do this through the physical body, because you have to simultaneously look, while in the physical, at both the physical and the astral world, and it's quite difficult to combine them. It's possible, of course, but it usually doesn't work for any long period of time. Or it turns out with a disorder, for example, of mental activity. It can be done simpler: leave the physical body, and in the astral it will already be visible what change has occurred. For example, how the aura changed, what happened to the blocks...

Sergey: Does the frequency of brain activity have anything to do with this?

Irina: This is already a reflection of the influence of the Spirit on the body. The spirit manifests itself in the physical world through the body, and in the body through the brain, through the central nervous system, the important, central organ of which is the brain. This is a special organ that consists of cells that can perceive spiritual vibrations and convert them into physical ones.

26:06 What happens to the pineal gland during Synergy sessions?

Sergey: During our sessions, the so-called filling of the epiphysis, that is, the pineal gland, occurs until the internal expansion of the head. What is happening at this moment?

Irina: In the pineal gland there is a center for the production of certain hormones, which also affect feelings of pleasure, enjoyment, etc. Everything that happens on the physical level is a reflection of spiritual processes. These hormones, when produced in the body, can actually

affect the functions of internal organs. They can either treat them or upset them, depending on the types of hormones and their amounts, and the degree or frequency of exposure. Therefore, the fact that you see how certain structures of the body change on the physical level is because the Spirit influences them in this way at the moment of listening. But you can see, for example, that the opposite process occurs at the moment of negative stress, when, for example, the adrenal glands, which secrete cortisol, also increase, expand, and this can also be seen in microequipment, because they are active at that moment. This is a reflection of the influence of the Spirit.

Sergey: During sessions, it often happens that people experience a strong state of heat, as if internal heating. They get hot. What's happening? Why is this happening?

Irina: This is an influx of energy, which can come from two sources, even from three: either from these frequency channels they begin to fill the aura, or from the Spiritual world, that is, a curator came and began to exchange energy, or his own blocks begin to disintegrate and dissolve , and that released energy begins to disperse throughout the etheric body, and the temperature rises. That is, the vibrations of the physical body also increase. This is reflected in the subjective feeling of rising temperature.

Sergey: There are also such processes that the body begins to twist: it twists in different directions, the bones crack, the arms are broken, the neck twists... What is this?

Irina: This means that there were blocks, stagnation of energy. The flow of energy cannot pass, and the physical body begins to move on its own to allow this energy to pass through. Instinctively so.

Sergey: And yawning? Yawning also happens very often during sessions.

Irina: Yawning is also an emerging block. When in the fifth energy center there are unspoken thoughts and feelings that have formed a block and they begin to come out through these muscle movements.

Sergey: Can we say that during these sessions there is a connection with the Higher Spirit, the Higher Self through the expansion of the pineal gland and the pineal gland canal.

Irina: I would say that here everything is the opposite: connection with the Higher Self and contact with the Higher World gives such an effect in the body.

Sergey: That is, activation occurs from above and the body too.

Irina: It is not the body that activates a certain spiritual experience, but the spiritual experience that initiates changes in the body.

29:56 What is needed for the Synergy method to be recognized by official medicine?

Sergey: Will this medicine ever be widespread, officially confirmed, or will it all be in the field of esotericism?

Irina: To do this, it is necessary for independent scientists to conduct a series of tests with those who listen to this music with matrices, and those who listen to similar music not charged with matrices. And so that this is not just a series of tests, but so that it is confirmed by analyzes and physical indicators before and after, so that it is carried out by different researchers, and, preferably, in different parts of the world. And so that everyone can check it. Only then can acceptance by the general public and wider adoption in physical therapy offices be possible.

31:00 Confrontation between esotericism and Orthodoxy.

Sergey: One more question: in the Christian egregor there is such a direction - hesychasm, Gregory Palamas, who spoke about the connection of man with God through energies, knowledge of God through energies, and he spoke about the term Synergy, and can our Orthodox Church even accept work with energies, or is it considered heresy and they will never accept it?

Irina: Indeed, Gregory Palamas was a mystic, a contactee with the Spiritual world, he connected with his Higher Self, went out into the Light, he said that God manifests itself in his energies, that any name for God is his energy, and even the word “God” itself reflects his energy. The development of this idea gave rise to such a movement in Russian Orthodoxy as imiaslavie. The fact is that the word “energy” itself is quite Orthodox. Those who say that the word “energy” is not Orthodox do not know their own traditions. You need to understand that the reasons for the confrontation between Orthodoxy and esotericism are not the word “energy” after all. This confrontation arose a long time ago, since the time of the first sermon of the Apostles and the reaction of the pagan community to this sermon. The whole complex of reasons for today's relations between the Orthodox and the esotericists and the esotericists towards the Orthodox are already mutual such feelings, but MidgasKaus says that I personally hope that we will be able to harmonize this confrontation in such a way that both sides will understand that they are talking about the same thing , but in different languages. This is clear to me. When I read religious texts through a contactee, in any case, I can retell it to esotericists so that they understand that we are talking about esotericism. Just like any esoteric text, I can translate it into the language of a religious person so that he understands that it is talking about God, and not about some incomprehensible being who incomprehensibly manifests himself in space. I can do this because I studied it. I studied earthly esoteric currents, religious ones, and the teachings of the Interstellar Union about the Spiritual world. I know how the same concept can be expressed in different languages and in different teachings, and what teachings it can itself create. That is, how information supplied from various kinds of curators is refracted through the consciousness of contactees. I know this well. The fact is that a person does not need to know this. To understand this and see the One Light, you only need to be a widely educated person, know the basic arguments and teachings, and esotericism, and Orthodoxy. And you need to have, most importantly, your own experience of immersing yourself in your Higher Self, connecting with the Inner Light, and then you will be able to see this Light in any work, in any book, no matter who published it. Because you can read about it in a book, but it’s more important to experience it yourself. The Apostle Paul also wrote that the letter kills, but the Spirit gives life, that in esoteric language one can say how material things kill one who has not known his highest vibration, his Spirit.

Sergey: So, and yet, is the Orthodox Church ready to accept the topic

of energies or not yet?

Irina: For now, she is ready to accept even less than the scientific community. There is still a lot of confrontation on the ground. It takes a long time to change something. It is necessary to increase the education of a person, anyone: be it Orthodox or an esotericist, in these areas. Therefore, just as Orthodox Christians do not understand esotericism, they often label them as worshipers of dark forces, and esotericists, without understanding Orthodoxy, label them as narrow-minded dark people who worship God as their Master and do not feel Love from Him. This ignorance must be eliminated on both sides, and only then in this elimination and mutual love can there be a step towards reconciling these positions.

Sergey: Can we say that in the Interstellar Union the topic of energies and energy healing or sound healing is widespread, and they use it widely?

Irina: I would not say that it is very common here, we have different types of treatment: treatment with different colors, with energies using different devices, there is simply immersion in your Higher Self and the dissolution of certain blocks there, no longer in chakras, but as in ethereal copies of organs. There is viewing on special devices that show the structure of cells, etc. That is, there are different levels. And sound therapy is also used. She is like one of the many parts of the mosaic that makes up the attitude of any member of the Interstellar Union to their health.

Sergey: Thank you! A wide range of issues were covered. Thank you for the information. We will bring energy to people.

Irina: Thank you, dear viewers, see you again!

Participants:

Irina Podzorova **-** contactor with extraterrestrial civilizations;

Sergey – guest;

MidgasKaus - biologist, psychologist, specialist in alien civilizations, planet Esler;

LiShioni - specialist in astral interactions, planet Shimor;

Silmani Grikhtari **is** a specialist in creating external fields to restore the energy structures of humanoid civilizations, the planet Gihor.

#124 Psychosomatics of diseases: subconscious, immunity, spirituality, positive thinking. How does the virus work?

---

https://blog.cassiopeia.center/psihosomatika-boleznej-podsoznanie-immunitet
https://www.youtube.com/watch?v=yODzZUzpSq4

00:25 Welcome to participants

Irina: Hello, dear TV viewers. My name is Irina Podzorova, and I am a contactee with extraterrestrial civilizations. Today, next to me is my curator from the planet Esler - MidgasCaus: biologist, psychologist, specialist in alien life forms. And Maria wants to ask him several questions that are very important for all of us. Introduce yourself.

Maria: Hello! My name is Maria, I am a clinical psychologist and I practice psychosomatics according to the method of new German

medicine, which was discovered by Dr. Rijk Hamer.

01:17 Is MidgasCaus familiar with the theory of Ryke Hamer?

Maria: I would like to ask you, first of all, if you are familiar with this theory? And can I use the terminology within this theory?

Irina: He says: “I studied the psychological theories of earthlings in the most general terms. If you just say the essence of this theory in a few words, I will understand what you are talking about.”

Maria: Maybe then I’ll explain a little along the way?

Irina: Okay.

01:49 The connection between the brain and the psyche of the body during stress. Hamer's hearth.

Maria: My first question is this. Within the framework of this theory. Dr. Ryke Hamer discovered that the connection between the psyche, brain and body is visible at the moment when some stressful event occurs in a person's life, and it must be perceived dramatically, isolated, suddenly. All these factors must coincide in order for us to see the so-called Hamer focus in the brain. This is a structure that is visible on CT (computed tomography) in the form of concentric circles. How is this explained? What it is? This is a zone of sympathetic-tonic excitation, responsible for controlling the tissue of the corresponding organ of this zone of the brain. That is, in this way, we can trace this connection between the psyche, the brain and some specific organ. This is such an unstudied topic in our country. I would like to know what you know about this? About these structures and foci of Hamer? What is the pattern of their appearance and disappearance? What is this anyway, do you know?

Irina: Mead says: “We also call it in neurophysiology – it is a focus of excitation in the human brain. This is a group of excited neurons that contain more electrical signals, including those transmitters, substances that help maintain this excitation.”

Why is this happening? Because an emotional reaction to some event generally arises in the Spirit, and it manifests itself through the body. That is, the Spirit, you need to understand, is not a material substance. But in the physical world - the dense material world, I mean - this immaterial substance can only manifest itself through the physical body. Through a special organ called the central nervous system (CNS). And the largest part of the central nervous system is the brain, it is the most important. And this brain consists of billions of neurons interconnected by a certain network, unique for each person, for each individual. And what you call Hamer's lesion is the brain's reaction to emotions. Emotions themselves are the energetic part of the Spirit.

05:25 Is the incurable disease glioblastoma a consequence of recovery from a Chimera lesion?

Maria: Then the next question right away. Such a condition, such an incurable disease as glioblastoma, is this a consequence of recovery from a Hamer lesion? Or are these unrelated things?

Irina: Is blastoma a cancer?

Maria: Yes. This is tissue overgrowth.

Irina: Mead says that negative emotions can trigger the growth of cancerous tumors in any part of the body. Negative, negative emotions lower the vibrations of a person and the organs of his body. Each organ of the body has its own vibration frequency, the combined frequency of each cell. And if these negative emotions, negative energy manifest themselves through the brain, then it can cause pathology in brain cells when they begin to incorrectly perceive information about their DNA and begin to divide incorrectly. Because vibrations from negative emotions decrease. This can happen not only in the brain, but also in any parts of the body where there is a weak spot. It can be weakened there by viral diseases and inflammatory processes, which, by the way, often go unnoticed during the flu. That is, these viruses penetrate the blood-brain barrier through the blood and cause a condition such as indolent meningitis. It goes unnoticed because the immune system copes. But there the place is already weakened. It happens that this condition is caused by bacterial, viral

infections, injuries or exposure to drugs, alcohol, nicotine, medications, hypoxia, etc. That is, there are many factors if there is some additional damaging factor in the brain. And if a person experiences negative emotions for a long time and accumulates them in himself, does not express and does not develop positive emotions, then he will not have a weakened brain, but some other organ. There are energy centers in the human body, which you call chakras. This negative energy will go to a weakened place and accumulate in this chakra, in this energy center. Then cancer will begin to develop. Mead says: “Hamer did not take into account the movement of energy in the etheric body, how it flows, how blocks are created, so he considers everything through the brain. I'll explain now. According to Esler, the doctrine of the brain, the nervous system is inseparable from the doctrine of energy. That’s how it is with us.” At first, Mead was even surprised.

08:44 Biological program of organ functioning after stress. Are there metastases?

Maria: A special biological program begins to work in the organ. It is needed in order to adapt the body after stress to changed environmental conditions. Why then does this program work until this tumor grows to such a size that it begins to threaten life, and a person can die from this? There are contradictions in this theory. And another related question: do metastases even exist? Or is it, as this theory explains, different biological programs for different organs?

Irina: Mead says it can be different. Metastases - this can be either a secondary cancer or many primary foci. Cancer cells can generally spread through the blood. Moreover, every person has them. But they are kept under control by the immune system - this is the body’s main defense system, which is directly related to its spiritual state. And the fact that there are contradictions in this theory of his is not surprising. Because this scientist does not take into account the movement of energy in the etheric field, does not take into account the emotions that created these blocks, in which energy centers they are located. His brain is simply the center of personality, the center of consciousness. Therefore, he views everything through him. But the brain is not the center of personality, it is a means of manifestation of personality in the material world.

Around the body and in the body itself, in addition to the brain, there

are energies that create fields: etheric, astral, mental, etc. It is useless to look for them in the material world; they are in the spiritual world. You are now sitting partially in the material world. This material world is itself “embedded” in the Spiritual world.

Maria: Okay. Thank you!

11:12 Bacteria and viruses are not considered as the cause of the disease. Is it true?

Maria: Within this theory, bacteria and viruses are not considered as the cause of diseases. They simply promote tissue destruction or, conversely, restoration. That is, this is the only way to limit their functionality in the body.

Irina: I see. So you want to know his opinion about this?

Maria: Yes. Is it true?

Irina: Yes, undoubtedly, this contains a large share of the true knowledge that we also have about microbes, about microorganisms. I want to emphasize that any infectious process that occurs in any macroorganism is always more or less a relationship between the parasite and the host. That is, partly it is a symbiosis. Because any virus, microbe, protozoa or fungus - its evolutionary development is not interested in the death of the host organism. Because then it will no longer be able to reproduce and will not spread with the help of this person to other people. Therefore, if a microbe or microorganism causes too severe a disease that the carrier dies, then such a virulent microbe will die along with it. The strain of the microorganism will die along with it and will no longer spread. Moreover, any microorganism is still affected by immunity. Even a weakened immune system still seems to weaken the microorganism. Therefore, the chain of infections of people from each other transmits increasingly weakened microbes. Indeed, the outcome of any infection depends on immunity, because even if two people get sick with the same microbe, which is ingested in the same amount, there will be a different clinical picture and a different outcome of the disease. It doesn't matter whether to treat them or not.

14:14 What is the “trigger” that starts the biological program of the disease?

Maria: Still, the question is, is it really not a microorganism that causes a disease, but initially there is some kind of trigger: some kind of stress or event that triggers this special biological program, and changes occur in the organs? And with the help of this microorganism, the recovery phase after these changes occurs, then the conflict in our psyche is resolved. Is the biological program closing? Is Hamer's hearth disappearing?

Irina: This is true for saprophytic microorganisms and for those who live in symbiosis, that is, in a conditionally pathogenic flora. That is, weakening of the immune system caused by psychogenic factors contributes to the introduction of infection and its spread. But there are microorganisms that are very toxic, very virulent and can cause illness in anyone. There are few of them, but they exist. And even though you were stressed, at least you weren’t. Such microorganisms are known because any organism does not have the strength or immunity, even if it is strong, to limit their activity and fight them, much less destroy them. There are several such diseases, but they exist.

15:49 Diseases that arise for no reason.

Maria: So the disease can occur even without any prerequisites from a psychological point of view?

Irina: There are such infectious diseases. Not everyone is like that, but there are some. Let me give you an example: the same rabies virus, the mortality rate from it without appropriate vaccination, if it has already entered the body alive, is 100% in warm-blooded organisms. That is, not 99.9, but 100%. Not vaccination, but the introduction of a special serum. The result is similar for smallpox and plague. There is also the causative agent of syphilis, which spreads in the body regardless of immunity. Typhoid fever, that which is associated with bordetella (bacterium), whooping cough, diphtheria bacillus, etc. A lot of them. Cholera also causes almost 98% of the damage, although it is not a virus, but a bacterium - Vibrio cholerae.

17:13 The soul can order illness for itself as an experience. Can you see the reason for this?

Maria: The next question is from the channelings. We know that the Soul can order some kind of disease for itself as an experience, right? Accordingly, if we take a disease ordered by the Soul itself as an experience, will we necessarily be able to see the cause of this disease in the current life? This is a question for understanding whether doctors should work with psychosomatics? Will we really always be able to see this reason, to find it? Or maybe it's just like a program that was once introduced before birth, and it just turns on at some point in time and that's it?

Irina: Any program has a goal. If it has already been completed, the program will “go away”. That is, a disease is some kind of negative program. For example, if we talk about a congenital disease from a past life, then it still acts in the Soul, in essence. And when the Spirit with this program enters the body, then this distorted energy can cause illness even in a child, because it has already “inhabited” him. But then, when this child grows to a conscious age and is able to analyze what qualities are inherent in his Soul and get rid of the negative ones, then the spiritual reason will go away. But most often it is impossible to do without physical treatment, because the physical body is already damaged.

18:58 Working with parents of a child with a disease.

Maria: Then the next question is about sick children. As a rule, those who work with psychosomatics work not specifically with the child, but with the parents. Children are usually not touched at all. And if we work with such a child, or more precisely with the parent of such a child, can we always find the cause of the disease? That is, to cling to something, to work through some negative attitudes. Is it always possible to find it or do you need to “dig” into the genus somewhere?

Irina: Depends on the reason. If the appearance of this sick child is associated with the practice of any lessons by the parents, then it can be found through the Higher Self of the parents. And if this is connected with the negative qualities of the child’s Spirit, then this can be fully clarified only when he grows up, and also through his Higher

Self. If, of course, you teach him this.

20:04 “The guilt” of the parents of a sick child or a lesson, life experience.

Maria: So it turns out that it is not always the parents who are “to blame” for the fact that the child “turned out this way”?

Irina: I wouldn’t talk about wine here. It's not fault. It’s just a certain lesson, a certain experience that they themselves wished to go through. Because life on Earth is like a short period of the life of the Spirit between life in the spiritual world. And it has the same meaning for the Spirit as a certain episode in a person’s life. A small episode, for example, studying at school or even moving from one class to another. For example, the 5th or 6th grade of school is naturally of great importance in order to further study. But for an adult, this is a period of his life. Likewise, life in a real body means certain lessons, just like in a classroom.

21:27 Child programming period.

Maria: Another question. Why did I affect my parents? Because in German medicine it is believed that there is such a programming period. This is approximately 9 months before conception, the period of pregnancy and the first year of the child's life. Depending on what happened to the parents during this period, what emotions they experienced, what events took place in their lives, what will happen in the future and how the child will develop depends on this. That is, what will be included in it, what programs. Is it so? And is there a strict framework, such a programming period, or maybe not at all?

Irina: Of course, there is an impact on the child. Conception, pregnancy, childbirth, the first years of childhood - they, of course, influence the formation of the character, fate of the child, etc. But in any case, all this can be changed. The spirit is changeable at any age. Therefore, we can give a specific example of what you called programming, so that it would be clear to the audience, to Mead, and to everyone.

Maria: I can judge by my child and give an example like this. He has problems with speech, and I suspect that during pregnancy I had a problem with expressing my emotions; I myself didn't really want to communicate at that moment with any certain people. There was such a period in my life. And this is, as it were, programmed in the child. It is born and, as it were, captures this state of mine at that moment.

Irina: Of course, your emotional state may have an influence, but it is not so great that it could somehow program the child. The spirit came separately, and it has its own lessons, to put it simply. If he doesn't want to communicate, maybe he just doesn't see the need for it. Maybe try to communicate with him in writing: with drawings first, diagrams. How ancient people communicated by drawing little men and figures to each other. It may be easier for him to remember in images rather than in words. If he often incarnated in plasmoid civilizations, then it will be difficult for him to remember how to pronounce a sequence of letters with his tongue. One will remember the ancient Egyptian frescoes, when Egyptians were depicted there in various situations. This was their language. For example, try to draw him ice cream, an apple, a juice in a bag, or simply show him ready-made pictures and ask him: "What do you want now?" And for him to show. And then, when he wants to eat, offer him a series of pictures so that he can show what he wants. That is, with the help of the simplest things you can communicate. It may just be difficult for him to connect with what you are saying. For example, a picture of an "apple" or an apple that he is holding. It doesn't connect the sound you made with the object in any way - that can be difficult.

25:55 Is there a pattern in the generic system for the transmission of a certain program?

Maria: Is there a pattern in the generic system? Can we see from which ancestor the child received this or that program? Do we have any studies that try to explain and find this pattern?

Irina: First, you need to understand why you need to find out from which ancestor the child received the program? In any case, we are already working with the result. Not with the past, which has already happened and passed, no matter who he received it from. It has already happened, it has already happened, you need to accept everything as it is. It is more productive to do this than to look for a

reason somewhere in his past life, which has already passed, or in his family. In any case, we have an already formed structure that can be changed. And to do this, you just need to analyze its condition at the current moment, and the reasons - they are not so important. Well, you found out about some act of his great-grandfather, when, for example, he acted rudely towards another person, did not allow him to finish something, and this caused illness in your child. How will this help you? This information will help you absolutely nothing.

27:50 Spread of the disease “celiac enteropathy”. Why is this happening?

Maria: A particular example. Nowadays, a disease called celiac enteropathy has become very widespread. It's just some kind of epidemic. Especially in young children. I would like to know what this might be connected with. Why did allergies begin to appear so often to wheat protein?

Irina: Mead says: “Your farmers should have poisoned their wheat less with herbicides and pesticides. And add less bleaching agents to premium flour. This is an allergy to them, to the unusual. Many antifungals are added to your grain to prevent ergot, smut and other fungal diseases. The body is already accustomed to reacting pathologically to those foods that contain gluten. Because he received this substance along with another that was alien to him. Like poison, or something. Therefore, the incidence is increasing every year. Unformed immunity, the immune system cannot recognize all this and cleanse itself.

Maria: Do you mean that it’s not the gluten itself, but the accompanying substances? That is, a reaction to these substances. And gluten is just like a trigger, right? That is, what was present at that moment. Next time a person will eat even a bun that is not contaminated with these substances, but it will cause the same reaction, because it is a trigger, right? Is that how it works?

Irina: Yes, it turns out this way, because the finished product already contains all these additives, and not only in bread. You have a lot of artificial additives. This was not the case in ancient times. Therefore, when earthlings ate bread, they ate bread. When they ate meat, they

ate this substance. And now they eat cookies and instead of flour, gluten, they introduce a complex of chemicals that the liver needs to somehow remove. And if an adult without allergic reactions, stomach and liver problems copes with this without problems, then the child's body is disoriented, because they break down the enzymes that are produced to digest starch and gluten, in this case amylase, protease, etc. But there are substances that remain and do not go away. The program in the liver DNA does not know where to put it all, and intoxication begins. And then the body can begin to react to anything in this way.

And the psychological state of the child also plays an important role in this. Because for a child who rejects his parents or feels rejected by them, it will all start easier, as if the immune reaction was launched incorrectly. You have a combination of these factors. And then it is very difficult to return the body to normal production of those enzymes that will absorb these substances.

32:12 Rheumatoid arthritis in young children.

Maria: I also wanted to ask a question about a disease such as rheumatoid arthritis. Because they very often occur together. Gluten intolerance is found in patients with rheumatoid arthritis. Why are especially young children suffering from this now? It has never happened before that young children at the age of 2-3 were already suffering from such a serious disease as rheumatoid arthritis. Is this just related to wheat, or is there something else going on here?

Irina: In general, at 2-3 years old, arthritis as a disease of bones and joints is already a violation of energy in the first chakra, there are already blocks there. But until the age of 14, a child is generally in the field of his parents. The fact is that during the last 10 years before the quantum transition and during this transition, all energy processes and their consequences on Earth are accelerating. And every year this acceleration will become more and more evident. And it manifests itself in the accelerated manifestation of those energy disturbances that exist in the Soul of the physical body. Including children, because they have a common energy with their parents.

Maria: Thank you very much. I just wanted to ask this question about

the transition.

33:38 What happens on a psychological level with autism?

Maria: What happens at the physiological level in terms of autism? How to help? Because it is believed that autism is also associated with celiac disease.

Irina: Mead says that he gave an example about a child who does not want to talk, but otherwise develops normally, in any case he understands phrases addressed to him. If he distinguishes pictures, plays, behaves appropriately, recognizes his relatives, etc. That is, he has a memory. Many Souls come to him from plasmoid worlds on Earth.

34:34 Regressive autism. Connection with vaccinations.

Maria: There is regressive autism, that is, when a child developed normally for some time, speech developed, and then suddenly after vaccination, as often happens, regression occurs and he loses all skills. And here it is no longer possible to explain that he did not want to communicate initially?

Irina: There is also a psychosomatic illness. When a person becomes mute due to some kind of stress. You have such a concept - hysterical deafness, blindness, dumbness. Your psychology and psychiatry have already studied this condition. That is, some types of characters, not all, are mainly anxious and suspicious, asthenic, psychasthenic, demonstrative types. They already show this character in childhood. They can react this way to stress. And to connect something with a vaccination, or to connect it with some kind of conversation, or something else, or with taking medications - that's up to the parents. For example, if they had a vaccination 3 months ago, and then something happened, the child stopped talking, then they automatically get the idea that it is from the vaccination. But after this does not mean as a result of this!

The more people in society talk about this, the more parents, if they

believe in it and at the same time vaccinate, will put this thought form into the child's aura. This can manifest itself in anxious and suspicious children on the physical body. I want to emphasize now that it is not necessary for parents to tell their child out loud in order to instill this in him. This is transmitted through energy. He absorbs everything, he is in their aura.

37:12 Functional disorders dependent on emotions.

Irina: Functional speech disorder, inorganic, happens when an adult is after stress, after a fright, after a divorce, even after some kind of offense against someone. It wasn't that he stopped talking, but in the mildest case, he began to stutter, he could have convulsions. There were even cases when, after experiencing stress, girls, for example, had their eyes closed and they could not open them. It seemed to them that they were no longer opening, that is, there was such a spasm in the eyelid, because of which they could not open them. Or they seemed to have paralysis, they really couldn't get up, despite the fact that in a dream it disappeared. I'm not even talking about the fact that they are pretending. This focus of arousal in the brain is associated with negative emotions and interferes with the physical body. After all, conversation, physical speech is also movement. I mean the movement of certain muscles: tongue, lips, throat. A lot of muscles are involved in the pronunciation of each word: respiratory muscles, facial muscles are used. And if it's all in spasm or under the influence of energy, then the person will not be able to say anything.

38:56 The connection between emotions and blocks in children.

Irina: Children can have a very damaged psyche. At what plan? The child has his own special subjective world, which for him is perceived as a greater reality than the material world. And what for an adult seems like a trifle, a meaningless moment, for a child it can be such an insult, a disorder that he cannot survive without these blocks.

39:26 Working with a child through the mother.

Maria: Then in this case, can we work through mom?

Irina: Yes, my mother's Higher Self knows about this. If you turn to your mother's Higher Self and ask him: why, for what reason did this happen to my child, and why was this lesson given to me, then the Higher Self will answer.

Maria: Okay. Thanks a lot. I'm done with this.

Irina: Thank you, Maria.

Maria: Thank you.

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maria is a clinical psychologist, practicing psychosomatics according to the method of new German medicine, Dr. Rijk Hamer;

The curator of MidgasCaus from the planet Esler is a biologist, psychologist and specialist in alien life forms.

#125 Ashtar Sheran and the reptilian. War in the Solar System 12,000 years ago - attack on the Burkhad colony.

---

https://blog.cassiopeia.center/ashtar-sheran-i-reptiloid-vojna-12000-let-nazad

Channeling on the theme of war in the solar system 12 thousand years ago - Selbet's attack on the Burkhad colony. The questions are answered by a direct participant in this war, a representative of the Sirius civilization - Ashtar Sheran and a representative of the Selbet civilization - Truar Pikunus.

Conference of contactee Irina Podzorova with the representative of the Sirius civilization - Ashtar Sheran and the representative of the Selbet civilization - Troir Pikunus.

00:00 Vladimir: Friends, hello! My name is Vladimir, I am in Chicago and am a journalist for Chicago Russian-language media. Today we are holding a conference with Ashtar Sheran - a representative of the planet Selbet and, of course, Irina Podzorova. Irina, please introduce yourself and our interlocutors, and we will begin.

Irina: Hello, dear viewers. My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations. Today we have the topic “War in the Solar System 12,000 years ago between Earth and Selbet, Selbet’s attack on the Burkhad colony in the Solar System.” With us is a direct participant in this war - Ashtar Sheran - a representative of the Sirius civilization and a representative of the Selbet civilization - a historian, a specialist in the ancient history of the planet Selbet - Truar Pikunus.

Vladimir: We are glad to welcome you!

Thank you very much to Ashtar and Troir for coming to us and being ready to communicate with us. I will literally say two words. Who doesn’t know, in fact, we are now talking with representatives of two then warring races, because it was the civilization of Ashtar, on the side of the Interstellar Union, that fought with the civilization of the planet Selbet. Moreover, the planet Ashtara was destroyed by representatives of the planet Selbet 12,000 years ago. In addition, Ashtar Sheran in his physical body, in the same incarnation, was a participant in those events (the life span of representatives of his race is very long). But the representative of the planet Selbet (as I understand, fewer people live there), naturally, was not personally present. We don’t know where he was incarnated, that’s another story.

02:33 Age of Ashtar, life expectancy of the race from Sirius. What does the name Ashtar Sheran mean?

Vladimir: How old is Ashtar on earth now? How long do representatives of the race from the planet Sirius live? What do both parts of the name Ashtar Sheran mean?

Irina: I am a little over 15,200 Earth years old. The body of our race can exist in the physical world for about 25,000 Earth years - this is the maximum period that has been recorded in our race. The first part of the name - Ashtar - designates one of the constellations, which in our country is located between the constellation Taurus and the constellation Orion. Sheran is "a guest who came from this constellation." When I was born on my planet, my parents knew exactly my previous incarnation, because we communicated in the spiritual world. That's why they named me Ashtar, like a constellation, it's not just a star, but a constellation.

04:13 What does Ashtar look like in the physical body?

Irina: He is 2 m 20 cm tall, has an elongated skull and yellowish skin. The eyes are gray, the arms and legs are like those of earthlings, only he is of a stronger build.

04:59 Does Ashtar have a wife and children?

Irina: He says that he had three families, but his wives used to go to the spiritual world. He made the choice to remain in this incarnation, and they chose to move on. He has 38 children: 10 girls and 28 boys.

05:39 About the history of the destroyed planet Ashtar Sheran.

Irina: My home planet was safe and sound. But after pushing the opponents out of the solar system, the war continued with other participants who were on the side of the Interstellar Union. And in this war, after the events in the solar system, the Selbetites sent the main striking force to the planet of my civilization. We were on the side of the Interstellar Union, so they decided to attack us. Because, firstly,

Sirius is closer to the Sun, and the main striking force was concentrated there. And, secondly, Sirius was closer to Selbet than Burkhad. And since my home planet was considered the main ally, it was also destroyed in this war.

07:21 Is Sirius included in the Galactic Federation of the Pleiades and the Interstellar Union?

Irina: Both to the Galactic Federation and to the Interstellar Union. We are the original members and founders.

Vladimir: Did you have anything to do with transmitting information to the African Dogon tribe, who say that aliens came to them from Sirius B and talk about a second star?

Irina: These are not my personal contacts, but those of humanoids from my group. There were such contact specialists. I am not a specialist in contacts, I am a specialist in space travel, but there is something like MidgasCaus - a psychologist, a specialist in contacts. There are such people in our race, and they had contact there.

08:28 Appearance, height and age of Troire Pikunus.

Irina: He says he is 127 earth years old, but he is already working. His height is about 1 m 80 cm. His skin is gray-green, not dark, with scales on his face. Narrow dark eyes, a mouth without lips and instead of a nose, two depressions inward. The tail is about 80 cm.

Vladimir: How tall can they grow?

Irina: Up to 2 m 60 cm.

Vladimir: Let's talk directly about that war.

10:08 Ashtar Sheran at the beginning of the war.

Vladimir: Where was Ashtar at the beginning of that war? How did he know about this? His title, powers? Ashtar's first thought when he found out about all this?

Irina: He says that he learned about this from a message from the Burkhadians, who sent him to Sirius. At that moment I was in space on the outskirts of my system. I led a group of 17 ships that were not military, but rather security from the galactic security service - this is one of the units of high-quality security in space. Each ship had between 38 and 52 participants. At that time, I received a message from one of the participants in that war, he later died. He came to me and conveyed the message personally (by voice). My first thought was: don't hesitate for a minute, fly to the solar system. Because I knew very well what weapons Selbet might have. Moreover, they were one of the best physicists, they had serious research in the field of dematerialization of physical objects. I knew very well that their physicists did not report all their successes to the Union, that is, they had their own secret weapon. Therefore, I realized that they, of course, would use it, since they went to this war. And I immediately decided to fly, I just gave the signal for all the ships to follow me.

13:15 The Burkhad ship is the first defender and victim of the war.

Vladimir: Ashtar, the first ship that appeared there was from the group?

Irina: When I appeared there, there was already a Burkhad warship there. They were closer. We came from the other side of the solar system.

Vladimir: How long did it take you to appear after you received the signal?

Irina: After 15 minutes, the ships gathered in space, in space. And from my group of ships it was necessary to form a certain figure, move away from each other at a certain distance in order to simultaneously turn on the gravitational engines.

Vladimir: Was the first Burkhad ship destroyed?

Irina: Yes, it was destroyed, but I didn't see it. It was on the other side of the solar system.

14:28 Selbet's strategic and tactical goals in the war.

Vladimir: Troir Pikunus, what were the strategic and tactical goals for Selbet at that moment? What did you expect? Why were you confident that you could win that war, despite the forces of the Interstellar Union? What was the calculation? And why didn't this come true?

Irina: As a representative of my world, I studied this period of history. And the first thing I would like to convey through the contactee of the Interstellar Union is my sincere condolences and apologies for the damage and harm that was caused to your race and all races of the Interstellar Union by my ancestors. I studied the documents in the electronic application. Their strategic and tactical goals were to erase the human race in general from the Earth and from its colonies. At the time when the new group came to power, they introduced into Selbet's ideology the understanding that the combination of genes that the Interstellar Union produced for the hybridization of earthlings would be dangerous for the entire Galaxy when they went into space. And, secondly, they did not allow Selbet scientists to create a truly important race, because it was believed that there were already many anthropomorphic humanoids in the Galaxy. And since the Tumesoutians discovered such a planet where there was such a diverse reptilian life (reptilian creatures of non-intelligent forms), then they should have given these scientists a chance for such production. Even at least a separate race. But the refusal of the Interstellar Union was regarded by this group as a humiliation of the reptilian race.

17:30 Why did reptilians consider the mixing of genes dangerous?

Irina: Because they believed that it was the Tumesout and Burkhad genes that were compatible with a primate, but the Selbet genes by 5% would interfere with the development of a rational spirit correctly. Since he will be more fixated on material values. This percentage ratio

was studied earlier using the gene map, that is, what exactly will be the gene changes, what proteins they are responsible for in the structure of the nervous, hormonal systems, etc. Therefore, these Burkhad scientists were asked to increase the percentage of reptilian genes in order to level out the combination of Burkhad and Tumesout genes with primates. Simply put, so that a new hormone is produced so that it does not interfere with the Spirit to manifest its spiritual nature in the material body. When they came to power, they taught their people that it is better to destroy now (even knowing full well that they will collide with the Interstellar Union) than when earthlings go out into the Galaxy, into space. Because when they are accepted into the Interstellar Union, and they reach the stage where they will temporarily not fight and fulfill all the provisions for their acceptance into the Interstellar Union. When earthlings go out into the Galaxy, everything may change, and they will become secret criminals. The Selbetites understood that they would die in any case, especially the first of them who flew to fight. And perhaps they even regretted that they were destroying intelligent spirits in incarnation. But they blamed the Interstellar Union for everything.

20:28 What was Selbet counting on: destroying earthlings at the cost of his life or winning?

Irina: That is why there was an attack not only on Earth, but also on Venus and Mars, where there were colonies of earthlings. Because this species also lived there. Success was expected from the destruction of all hybrids, that they would not survive in sufficient numbers to live on Earth again. And so a weapon was used that seemed to push back the Earth's orbit. What if suddenly the Interstellar Union again decides to create these hybrids so that they find themselves in conditions that do not correspond to those that were originally. That's why they used geophysical weapons, and not just laser ones, which simply burn cities.

21:47 Selbet's miscalculation in the war.

Vladimir: Troir, what did your ancestors miscalculate?

Irina: There were Selbet colonies that took their side. Not all. Many did not participate in this war at all. They did not even expect to defeat

the Interstellar Union, since they were also technologically advanced. Why did the Selbetites continue the war? They resisted the military that had already started the war (they did not want to surrender to the Interstellar Union) to continue this war to the end. This is inherent in the very nature of the Spirit. The reptilian body secretes hormones that prevent them from giving up. Even knowing that he will die, he will fight until the last squad. They did not expect that earthlings would be taken from Earth to lunar bases so quickly that they would export flora and fauna. That's why they tried to attack them in flight. But by the time people began to be taken out, ships of the Interstellar Union began to arrive on Earth, and Selbet's ships were distracted. How they fight. First, they fire beams, but both sides have a protective field. They will exchange these rays until the ship's field loses its protection. Plus they flew from Sirius with the Ashtar team. They also participated in protecting the Earth. Therefore, the Selbet ships were not allowed to shoot down ships carrying people along the way. And although 35 ships with people were shot down there, the rest were saved.

25:20 Selbet's readiness to be expelled from the MS.

Vladimir: Did this group not understand that the Interstellar Union would deal with the Selbet civilization, or did they act like a kamikaze?

Irina: They understood everything and conveyed to the people through secret messages that they would be expelled from the Interstellar Union for aggression. They were trained to be ready for this. Such data is in their history.

26:13 Divine plan in allowing war.

Vladimir: What do you think, Troir, from a spiritual point of view, why did the Almighty allow the destruction of civilization? As it is written in the Bible: punishment is given for sins.

Irina: Troir says that we do not have such religions. We have a doctrine about the spiritual world. And I will say this. The spirits who incarnated during this war, in any case, knew that they would incarnate at this time and would participate in the war. They needed this experience so that when they entered into a war with another race,

dying in physical torment, in negative emotions, they acquired the ability at the last moment to release this negativity on their enemy, so that later they would not incarnate in his race. Ashtar believes God allowed this for another purpose. So that subsequent generations, other humanoids who will live on the planets, could see from this example what the violation of the Divine Law leads to.

28:51 Ashtar’s attitude towards the Selbet people.

Vladimir: Do Ashtar and Troire experience any form of hostility towards their interlocutor for all the events that have happened?

Irina: Ashtar says that of those Selbet residents who live now, there are no more witnesses of those events left there. Perhaps there are incarnate ones there. I have not explored the spiritual history of the incarnation of each of them; this is neither my interests nor my tasks. I'm minding my own business - protecting the borders of the solar system. In any case, the request for spiritual history must be with the permission of that being. And I'm not interested in finding out the history of each of them, because I'm busy with my own business. Even if these spirits are embodied, I cannot have any enmity towards them, because I understand perfectly well that they have already learned this lesson. Since they had already left this incarnation, they had already been shown in the spiritual world why they did this, and what exactly the qualities of their Spirit led to this war. Each of them had the opportunity to refuse, simply step aside and remain neutral. But in any case, since they did not refuse, they were shown to each of them individually. I am not a judge to judge each of them. I'm just a protector. I have now listened to Troir's messages and I can say that I already knew all this. I knew how the Selbetites were pitted against hybrids. And I even understand that every ordinary Selbetite really believed that he was playing a good role in the Galaxy, even for the Interstellar Union itself.

31:15 Are Selbet's fears about hybrids wrong?

Vladimir: Troire, do you think there was some truth in Selbet’s fears that the earthlings would begin to cause harm, or were they mistaken?

Irina: I believe that they were mistaken (because I saw scientists laying out gene maps) in that it is the entire race that will somehow be pathologically unequal to other races in the manifestation of the Spiritual Self, what you call divine light, and so on. And an example of the fact that they are wrong are many people on Earth who remained these hybrids, who live on Earth even in such conditions without the Interstellar Union, without fair laws, in the ideology of a society that even approves of violence. Being present with their astral part in those egregors that carry negativity, these people were still able to rise to those heights of the Spirit that are accessible to few in the Galaxy. These are the ones you call saints. I'm not even talking about genetics. Just even being in these social, social, economic and astral, so to speak, conditions, because the astral atmosphere also influences. As an example, the planet Disaru also entered the Interstellar Union. And there is no danger from them. And they have your genetics.

33:20 Was Ashtar in a physical body on Selbet?

Irina: Been there several times. Both before the war and after.

33:43 Losses of MS and Selbet during the war.

Vladimir: How many aliens have died in this war over 130 years and how many representatives of Selbet?

Irina: Ashtar says that about 55,000 representatives of the Interstellar Union and about 40,000 representatives of Selbet and their colonies died. 55 million earthlings did not fight with him, they were simply destroyed. This includes those who died from disasters.

35:58 Dinosaurs on Earth, and Selbet's plans to create intelligent reptilians.

Vladimir: Were there dinosaurs on Earth before the war? Did Selbet have plans for experiments to create intelligent reptilians from the remains of a destroyed civilization?

Irina: There were dinosaurs on Earth, and people lived next door to

them. The Selbetites had such plans. But since they began to use geophysical weapons, which were incompatible with the life of any large organisms, the dinosaurs died, first of all, from changes in the atmosphere and the same climate change. Those who were not taken out in time died. Some species of mammals that managed to survive this disaster survived, but large species died.

37:41 Combat operations on the first day of the war.

Vladimir: Ashtar, the main military operations in the first day of the war?

Irina: After my squad appeared in the solar system, the first thing we did was fly into orbit where the asteroid belt is now located, since we recorded the use of weapons there. And when we arrived, an explosion had already occurred there, we only saw the consequences. We immediately (I didn't keep track of time) engaged all of Selbet's ships that were still arriving. Then we moved to cover the departure of those ships that were transporting people. And other Burkhadian ships had already transported the inhabitants of Venus by this time. When the Selbetians destroyed Mars, we were on the other side of the Solar System and did not allow other Selbet ships into the Solar System.

Vladimir: Were there attempts at negotiations to find out what was happening?

Irina: Yes, diplomats were sent. But this did not happen before the war, because... The Selbetites were already ready to attack the Interstellar Union, and therefore no ships were sent there. Burkhadian interstellar communications politicians tried to contact them, but these attempts were unsuccessful. They either did not answer, or, as Troire already noted, they talked about hybrids.

40:43 Karmic lessons of Ashtar.

Vladimir: Did Ashtar have to give direct orders or use weapons himself? Did this lower his spiritual vibration? Did this lead to the accumulation of negative karma?

Irina: In a space war it is impossible not to use such weapons. In any case, whether you gave the order to use it or applied it yourself, you understand that your word killed a living being, or your hand pressed this button. For the soul, these are practically the same consequences. As I myself felt at that moment, this led me to lower my vibration, but not because I killed, protecting defenseless people, but because of despondency that intelligent Selbet beings acted this way. Of course, I knew their ideology that these hybrids would supposedly be dangerous, and they even sent me messages asking me to go over to their side.

Vladimir: Did you try to recruit?

Irina: Yes, so that I would believe that hybrids are potentially dangerous creatures that will then possibly destroy my race. They sent me reasons. And this made me sad. When I met the Selbet scientists, I was at a loss. They did not understand that the intelligent Spirit, which incarnates, by its nature rules over the body, no matter what genetics it may have. After all, almost all civilizations have gone through the experience of wars: both hybrid civilizations and those that emerged through natural evolution. But over time, society abandoned these wars and unjust laws, because spiritual evolution contributes to social evolution and vice versa. Well, we should just give these hybrids more time. But to destroy millions of intelligent beings like this out of fear of what will happen in the future... I fell into a long depression after I found out that the majority of the race believed in this.

44:24 The role of plasmoids in war.

Vladimir: Ashtar, what was the role of plasmoid civilizations in the war?

Irina: At other vibration frequencies, all they saw was how many spirits came out of dense bodies and went into the spiritual world. They saw it on the energy level. And this was accompanied by a release of energy and vitality. When the Spirit is quickly removed from incarnation by killing, it leaves, and the body remains full of vitality (if there are no causes of illness or old age). And when millions die, a cloud of vital force is formed there, which is not immediately, but gradually released from the bodies. Longer than with natural death. Most of this vital force

was charged with fear, pain, and anger at the Selbet people. And low-vibration small-plasmoid civilizations that could assimilate this energy fed on it. Many plasmoids that switch to a parasitic lifestyle love this energy (which is released from a person when he experiences negativity) so much that they can cause something like hallucinations in a person on your tongue. And these hallucinations will push these people to commit suicide. Because if a person kills his body, then part of this energy will be released to him.

46:38 Where were Jesus and Lucifer during the war?

Irina: I was never interested in this. Representatives of the Interstellar Union are raised in such a way that each spirit does not look at its own incarnation. He lives this life, this incarnation. We don't even have such an understanding, for example, of going to a past life. For us, this is just empty entertainment that no one needs. MidgasKaus appeared and said that the spirit of Jesus Christ during the war (this was before Yahweh) was not incarnated. Lucifer also did not incarnate.

48:20 Examples of the heroism of the Interstellar Union.

Irina: There were many examples of heroism not only among representatives of the Interstellar Union, but also among earthlings who took people and samples of flora and fauna from the planets. Because when our ships landed on the surface of the planet, and our representatives went out to people to help them, they went out without protection, just as the ships themselves were left without a protective field. There was not always time for this, and they did not want to waste the energy of the ships on this, saving it for flights, and therefore were under fire. The Selbetites used a certain weapon with a thin blue beam that did not just burn people, but cut them. These rays are not always visible in the air. The Selbet people had suits with a built-in protective field against mechanical weapons, but the Burkhad people did not have suits, because they were in a hurry to take out the earthlings.

Vladimir: What is your personal attitude to the opinion of representatives of the planet Kutis from the Pleiades that it is necessary to actively intervene in the situation on Earth, and not wait for earthlings to decide everything themselves, as the Interstellar

Union believes.

Irina: I know the history of those civilizations that had similar interventions, where representatives of the Interstellar Union stopped wars (even before the creation of earthlings), brought their knowledge about the construction of cities, installed their own rulers (there are such examples). But as far as I remember, such planets either lost their independence as intelligent civilizations and did not become partners of the Interstellar Union, or after at least 2-3 generations a conspiracy arose among them about their independence and the overthrow of representatives of the Interstellar Union. An overt or, even worse, covert struggle against them began. Such undesirable things happened for the spiritual development of both. My personal position is that it is not worth interfering now, but to give the earthly civilization lessons, just as we once learned them all. It was difficult for every civilization to come to an existence without wars and the death penalty. Before the planet, as a civilizational community, develops in its evolutionary environment, in its noosphere, the idea that the life of an embodied intelligent spirit is priceless, this civilization must go through rather tough lessons in the loss of many of its representatives. Otherwise, they won't understand it in any way if you just talk about it to them.

54:30 Ashtar's appeal to earthlings.

Irina: I am now addressing every inhabitant of the Earth who is watching contactee Irina, and I want to convey through her that I have been in this incarnation for so long, because my mission to protect this planet is not over. And I will leave the incarnation and go into the next one only when the Earth is accepted into the Interstellar Union. We live in our incarnation for 25,000 years, I am now about 15,200, there is still time. I myself can decide to leave the incarnation, but I have set a goal to protect the boundaries of the planet so that no aggressive civilizations attack, and to tell other representatives of my civilization who are born again about this war.

Vladimir: Ashtar, aren't you afraid to incarnate on Earth?

Irina: No, I am not afraid to incarnate either on Earth or on Selbet.

57:08 Examples of heroism of the warriors of the planet Selbet.

Irina: When we were offered to go over to the side of the Interstellar Union, we understood that any of us would be sent to the planet of criminals, because he took part in the war against defenseless creatures who could not fight back. The heroism was that when there were few of us left and the energy for weapons ran out, some of us killed ourselves so as not to get into the Interstellar Union. But there were also those who went over to their side, very few, but there were some. They no longer fought against the Selbetites, because... no military leader will allow someone who crossed over from the enemy to fight in a serious battle. This is the psychology of the creature, since it can go back and sacrifice new lives of its allies.

Vladimir: What were the names of the commanders-in-chief of Selbet and the Interstellar Union?

Irina: Many commanders-in-chief from Selbet took part in the war, but the Ruler named Rentigon gave the order. The Commander-in-Chief of the Interstellar Union was represented by a Burkhadian named Lygis Murarius.

Vladimir: What is the fate of Rentigon after the war? Did he die his own death?

Irina: He survived during that war, which lasted 130 years, he was then isolated, sent to the planet of criminals, already excommunicated from the Interstellar Union.

Vladimir: Was it some kind of trial on Selbet from the Interstellar Union?

Irina: They were taken to the Meeting on Selbet. When the war was already over, the Selbetians were surrounded by representatives of the Interstellar Union (Burkhadians, Tumesoutians, representatives of the colonies of Burkhad), suppressed resistance and destroyed weapon points, deprived of the ability to move with the help of a device that affects the nervous system, they were taken to the Meeting of the

Interstellar Union, where Subsequently, representatives of the Interstellar Union worked with them, including psychologists (there are no judges there), who figured out why this happened, scientists and geneticists who talked with Selbet scientists, supporters of destruction. We tried to convince them.

01:04:37 Potential danger of a repeat of war.

Vladimir: Is there a potential danger that the war could happen again in some form? Will the colonies be attacked by Selbet or other civilizations in the Galaxy or outside the Galaxy?

Irina: Personally, I don't know such trends on my planet. There are a few groups that continue to advocate not for the destruction of earthlings, but for their limitation in outer space. Such ideas arise so that even on your earthly ships, as you call them, rockets, they do not let you leave the Earth. Since physical contact is prohibited, then arrange something like natural breakdowns for you. Because they believe that there is no need for you to fly into space if you have not yet solved the problems on the planet. Earthlings use the power of their mind, the power of their Spirit in the body in which they are embodied. And 5% of Selbet genes give them activity, determination and a desire to go to the end. And they go to the end in everything, including using weapons that they invent for use against their own kind.

01:06:30 Lack of physical contacts between earthlings and reptilians.

Vladimir: After the war 12,000 years ago, were there physical contactees from Selbeta on Earth?

Irina: There were no contacts on our side. Due to sanctions, for 250 years after the war we were not accepted into the Interstellar Union, until another group came to power and applied to the Interstellar Union, passing all the checks. Then we restored our planet Selbet after the war. And only later we began to observe the Earth from the outside, but with the help of astral contacts, not physical ones. This happened privately, at the request of the Selbet residents themselves.

The government did not appoint such specialists; they were not interested in this.

01:07 :47 Legends about dragons.

Vladimir: We have a lot of legends about dragons, is this related to the image of the Selbet people? Could earthlings see them?

Irina: Yes, there were such cases. The earthlings saw them and then could convey information about the war with dragon-like, with representatives of reptilian, one might say, with lizard-like creatures.

01:09 :02 Where and how did the battle between Selbet and MS take place on planet Earth?

Vladimir: Tell us about the battle between the Selbetites and representatives of the Interstellar Union on Earth. Where was it?

Irina: This happened after the weapon struck, which split the Earth, then the earthquakes began. A little south of the Himalayas, if you look at our map. The mountains were lower then. Now they are high because they rose due to cataclysms. At the foot of those mountains there was a city, located in a circle, with gray stone houses and labyrinthine streets. There was a window at the top of the roofs through which light and air came in. Selbet's oval-shaped ship landed not in the middle of the city, but on the flat roofs of those houses, and 5 Selbet men came out of it with weapons in their hands. Blue beams came out of the weapon and cut the air.

Vladimir: Were there contactees who flew with Troir on ships?

Irina: As I already said, if this happened, it was only at the request of the Selbet residents themselves, not on the part of the government. I won’t say in more detail, I’m not entirely aware of this, I’m a historian.

01:12 :41 How many species of animals were there on Earth before and after the war?

Irina: After the war, the diversity of animal and plant species decreased by 56%.

01:14:10 Troire's appeal to earthlings.

Irina: I appeal to every person on Earth who is watching us now. On behalf of our entire race, I want to convey to you that, as Ashtar said, so that you quickly enter the Interstellar Union, pass this period of your history that separates us. And I want to convey to you that many members of my race regret the decision that was made. And in our schools they teach that it was Selbet's mistake that set your civilization spiritually and sociologically back thousands of years.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Vladimir – guest;

Ashtar Sheran - representative of the Sirius civilization;

Truar Pikunus is a specialist in the ancient history of the planet Selbet.

#126 Civilization Disnit, contacting. Live broadcast with Katya Lel.

---

https://blog.cassiopeia.center/civilizaciya-disnit-pryamoj-ehfir-s-katej-lel
https://www.youtube.com/watch?v=xYBM1xqJDJk

05:21 Planet Disnit, description of the appearance of a Disnit person.

Maxim : Today the topic is the Disnit civilization. We have a representative of this civilization, to whom you can ask any questions that interest you. I would like a representative of the Disnit civilization to tell me what he looks like.

Irina : The Disnit civilization is part of the Interstellar Union and is located in the constellation Aquila, about 110 light years from the Sun. They have several colonies, which they also call Disnit, only the numbers differ. They are in different constellations; there is a colony in the constellation Aquarius.

What a Disney person looks like: height about 120-130 cm, white skin, absolutely round head and slightly elongated body, thin and straight arms and legs. They have fewer joints that can bend. There are only 4 fingers on the hands. The nose does not stand out, the lips are also small. Two black round eyes. When I saw them for the first time, it reminded me of a snowman with white skin and stick-like arms, and black coals instead of eyes.

Maxim : They are somewhat reminiscent of grays, but they have lighter skin, less pronounced eyes and a more rounded head shape.

Irina : Their eyes look more like dots.

08:40 Meeting Tian Grig - Disnit civilization.

Maxim : Today there is a very interesting surprise for you. We won't talk about it for now. We will continue to talk about the Disnit civilization. But those people who join us today will be very surprised by this surprise.

Irina : They ask me to explain: “Do earthlings look as strange to you as you do to us?” The representative of Disnit, who is now next to us in the astral body, is called Tian Grig. On his planet he performs the duties of a telepathic contactee. They also call themselves contactees.

This can be translated into earthly language as a signalman, only mental.

Maxim : Tian Grig is with his contactee today, we won't show him for now. Let's continue the conversation.

Irina: He says that for ordinary Disney people who have not been in outer space and are not familiar with different races, the appearance of earthlings is quite strange. But this is not the case for everyone. Our planet is part of the Interstellar Union, so our media shows representatives of other civilizations, including those like you. Our social consciousness is more adapted to the unusual type of intelligent beings.

Maxim : They ask: "How old is he, and how long do they live?"

Irina : He says they live about 430–570 years. They didn't always live like this, thanks to the achievements of the Interstellar Union. Previously, they lived for about 200 years, they had a short life expectancy. Tian Grieg says that as soon as the Earth enters the community of the Interstellar Union, your scientists will also share technologies on how to not only live long, but also fully, without getting physically sick. Representatives of the Interstellar Union have accumulated vast experience in eliminating various physical ailments. Viewers ask: "How old are you?" He says 98. He has been working as a mental communications operator for about 50 years. He has a family, three children. They do not reproduce sexually, similar to the Daraals. Tian Grig says that they reproduce using a sort of cloning method. They can get a child from one cell and raise him in a special room, like in an apparatus. They have no birth restrictions.

12:54 Disnita contactor - Katya Lel. Beginning of contact with Katya Lel. Rules of the Interstellar Union.

Maxim : Let's introduce you to contactee Tian Grieg. She is a beginner contactee and will continue to build contact.

Katya Lel : Hello everyone, friends! We have a surprise here,

completely unexpected. My guests are very interesting people, amazing people. It seems to me that the time has come when we need to know what we need to know right now. Next to me is a stunning, amazing woman who, since the age of 13, has been in contact with aliens, with the Higher Mind. For me, this is a very interesting, significant meeting, which I have been waiting for a very long time. I understand your feelings now, I understand your emotions, I completely agree with you, because if I were not aware of what is happening in our world today, I would say: “This cannot be, this is impossible.” But, friends, this is your choice, this is your will, so you can just watch and listen to what Irina and I are saying to you, and what we are talking about. In fact, today Irina will reveal interesting, secret things that I don’t know yet, believe me.

Maxim : Katerina is a contactor with the Disnit civilization, she was taken by the Disnit people. That's why we're going to have a long conversation tonight. We have already started it over a cup of coffee. We understand that in this life everything is not just like that. One of Katya’s tasks, like Irina’s, is to bring you Light and information. I think it’s amazing that contactees of many civilizations unite and bring that Light, that love, that happiness that other people now lack. These are very difficult times on Earth right now. I think if we all unite in this Light, we will definitely get to know our creators both in the Spiritual world and in the material and subtle world.

Let's continue about the Disnit civilization, I think Katya is also interested.

Katya Lel : Is this the same civilization that took my teeth when I was 16?

Irina : That same civilization.

Katya Lel : We understand that Disnit took my teeth for an experiment, as I understand it?

Irina : To grow biorobots that look like you.

Katya Lel : Do you want to say that on some of the planets there are others similar to me?

Irina : Yes, and they can make at least three from one tooth. They've done three so far. Only they do not embody intelligent souls, they are like biorobots guided by a program.

Katya Lel : Programmed biorobots. Those. As I understand it, you can safely release them on stage. I'm kidding, friends. Now everyone who invites me on tour will say: “Is this a biorobot or Katya Lel?”

Irina : It’s very easy to distinguish you from a biorobot. You have such energy that no biorobot can fake it.

Katya Lel : This makes me happy. And a soul, there is probably no soul in a biorobot.

Irina: It is not embodied in the biorobot. Tian Grieg is the curator. This is not the one who took contact. This is precisely a specialist in mental and telepathic contacts. Now his physical body is on the Moon, on the far side, at the Disney base. By the way, they have bases on Earth too.

Katya Lel : So that I understand that our TV viewers are positive, kind creatures.

Irina : They are part of the Interstellar Union. This means that there is no organized military action on their planet or in their colonies. There are no wars there, they fight crime, there is stricter control over people’s behavior. If there are individual criminals, they are isolated. There are no military operations or armies on their planet, because this is prohibited by the rules of the Interstellar Union. They do not have the death penalty for any crimes.

Katya Lel : Are there a lot of negative people there too?

Irina : They exist in any society. As MidgasKaus says: “In every monastery there is a sinner, just as in every prison there is a saint.”

Katya Lel : Sometimes it seems to me that the Earth is the same planet where there are good ones and not so good ones; where there are people who take exams.

Irina : The fact is that in any society such a Spirit can be born, or lower its vibrations so much that it becomes possible for it to forget love for God and for people so much that it becomes capable of dangerous actions. The Interstellar Union will include the civilization that will treat these people, these humanoids correctly. They do not have the death penalty for a crime, only in the case of a serious crime they are isolated on a special planet of criminals in our Galaxy, where they work for the fact that they are provided with housing and food. In case of a serious crime, they do not have the right to leave this planet for life. This is isolation, and at the same time they are kept alive. They work with them like our psychologists who see the Spiritual world. They find out from these criminals what exactly prompted them to take this action, what their spiritual attitudes are. Maybe the influence of some entities. Among us, among criminologists, scientists who study crime, there are practically no such people.

Maxim : They ask us: “Is Katya Lel a contactee?” Yes, Katya Lel is a contactee. At the moment she is building this contact. I'm sure that with her energy it will be quite easy to do. The main thing is to come to this level of awareness, the level of acceptance. I’ll tell you that many of the people who watch us are also contactees, but many people just don’t understand it. Therefore, the task of the Cassiopeia project is to give the opportunity to receive conscious contact to many people who are already contactees, but do not fully understand it.

20:27 How to raise the general level of awareness of people? Prospects for alien intervention in the affairs of the Earth. Hitler and his people.

Katya Lel : I understand that, I’m ready for it. I've been working toward this for 30 years. I have a very interesting question, people often write to me on the networks about pressing questions that worry people very much: “Why don’t you help the Higher Forces of Light, humanity, when unfair situations happen, when people suffer, undeservedly leave this world, wars happen?” How can you help people and the world? Has the moment come when the Higher Forces of Light can already

penetrate into our earthly space? I know that they did not have the right to do this without our labors and without our awareness. Now the world is changing so much, and we need help from above, that people cannot cope with the situation that is happening on Earth.

Irina : Are you interested in the answer of the representative of the interstellar civilization?

Katya Lel : Of course.

Irina : Tian Grieg, what is your answer, has the time come for minimal intervention in the affairs of the Earth for faster progress on the path of Light? This means stopping wars, military conflicts, destructive processes in power structures.

Katya Lel : Absolutely right.

Irina : He says that these wars and destructive processes in your power structures are still possible. This is an indicator that the majority of your people (they look not just at the Russian people, but at the entire Earth as a single space) have a rather low general level of awareness. Why? Because if the level of awareness is high, then all calls from low-vibration power structures for military action will remain unfulfilled by these people. You like to say that every nation deserves its own ruler. Exactly worthy in terms of vibrations. Let's take the most striking example - Adolf Hitler. He and the top of the Reich called to take up arms against their brothers (these were brothers by blood, the same earthlings) in order to dominate them, rise above them, and capture them. If this call had not found a response in the hearts of ordinary people, then Hitler alone with the top of the Reich would not have been able to conquer so many countries. He would not be able to send bombs, fly in airplanes, or attack other countries. He simply made a call, and ordinary people carried it out.

Katya Lel : At the same time, he consciously searched for Shambhala, was very interested in the monks who were supposed to convey true knowledge.

Irina : Previously, he had a high spiritual level. There was a voice of the Higher Self in the form of his conscience, but he suppressed his conscience, justifying his cruelty with the quest for spirituality. The worst thing for your planet was that others followed him, namely from the common people. If they listened to his speeches, took up arms and went, how were they different from him in energy? That's why they say that every nation deserves its own ruler.

Katya Lel : But in our time, how can we help earthly civilization find Light and remove these low frequencies?

Irina : To remove the low frequencies of people, you must first understand what causes them. Every vibration has a reason for its birth.

Katya Lel : Ego, consumerism, aggression.

Irina : Aggression, ego, consumerism - they come for a reason, but because your astral atmosphere is saturated with the idea of the primacy of matter. To combat low-frequency vibrations, you need to understand that people are carriers of low-frequency vibrations, precisely those whom some plasmoid civilizations call biorobots. They call them so figuratively, emphasizing that they have temporarily lost the freedom of their spiritual choice, they themselves gave it to incomprehensible to them, but understandable to us, the entities that guide them. As they say, “I gave my soul to the devil.” This is a figurative expression that they have given up their freedom of choice and are being controlled. But this is temporary until they realize that they are in slavery not only to matter, but to their wrong idea of matter.

Katya Lel : Until they realize, too much time will pass for humanity to destroy itself. Can we count on help from higher civilizations?

Irina : Our help comes from the fact that we pass on true knowledge through contactees. When I say “true”, I emphasize that this is not just truth as you understand it: information that is confirmed by material images, material perception. Truth for me is inseparable from love.

Katya Lel : That is. Will only love save us?

Irina : Yes, because love is the highest vibration of the Universe, which is life. Life, love and truth are 3 names for the same energy. The path that your civilization is going through now is, of course, difficult for you, but sometimes the difficult path is necessary. So that those who went through it would begin to appreciate more the life that they, without thinking, took from another. No Hitler, no maniac, no criminal community would have lasted long in your society if society itself had not educated these people. How does it educate them? It educates them with seemingly ordinary things for you: with the same primacy of matter, the priority of matter, your educational institutions raise children in school this way - this is the first thing. The second is what you call the cult of consumerism, i.e. you have the dominance of manufacturing corporations that are interested in not just making a thing, but that it quickly fails and that it is expensive. Huge amounts of effort and money are spent on this. There are even special laboratories that develop hidden defects in various things so that they can earn more money not from the fact that they do something useful to civilization, but from the fact that they destroy. You begin to blame them for everything, for their greed, for their love of money, for their anger, but think about where these qualities were taken from them. They are, after all, products of your society. If from an early age they grew up in the belief that the main thing is to accumulate more money and enjoy the blessings of this world. What kind of person do you want to raise if he has not even had a concept of spiritual knowledge?

Katya Lel : Our curators are there to share this knowledge with us and to convey to humanity that there are other truths.

Irina : In addition to the absence of the death penalty and the absence of wars, another characteristic feature for all civilizations of the Interstellar Union, including the Disnitites, is respect for the life of the intelligent Spirit, embodied from the moment of conception, and not from the moment of birth, as you have by law. It is life that is protected from murder, from deprivation of life, not from the moment of birth. This is not just a meaningless law. This law forms a whole generation of people for whom human life in their subconscious is worthless.

Katya Lel : Humanity needs to realize what this life given to us means for us.

Irina : Yes, it's not just like that. We propose, through contactees, presenting ideas in a form convenient for people to perceive, to live in a new spiritual ideology and raise their children in it, and gradually, little by little, the whole society will change. Sharp revolutionary leaps temporarily bring relief, but then the inevitable reaction of a rollback occurs. It turns out that you went through the revolutionary explosion of 1917, a period of stagnation and a sharp decline in 1991 with the depreciation of the entire communist ideology. This reaction was inevitable. It could have happened in 70 years, as it happened, it could have happened in 50, or it could have happened in 150. It depended on the total karma of this society and this country that accumulated it.

32:54 Pandemic, coronavirus, vaccination. Activities of artists during quarantine.

Katya Lel : Can I ask our curators of higher civilizations? The pandemic that visited our Earth and its consequences. Some say that there will be a second wave, others are afraid that they will be forced to vaccinate. Is vaccination a real plan of negative people who want to reduce the population? Does a person need to be vaccinated to avoid a pandemic? This fear that humanity has today covers everything reasonable and unreasonable in man.

Irina : Images launched by certain forces into your information space were launched for a reason, but with the goal of creating low vibrations in the noosphere, but this was also allowed by God. For what? Now you will say in an earthly way - temptation. But this is not like a temptation, it's like a test. Checking the logic of your thinking, the prevalence of thinking over instinctive fears, etc. The first serious test in the last 5 years is the assumption of coronavirus. There were certain experiments that came out of the laboratory in China. But God allowed this. This was a test of you as a civilization, your scientific and political communities for the adequacy of your actions.

Katya Lel : But when a person is in shock and fear, then all logic and all the security that is given during life are absent.

Irina : If you were your children and you were raised in the ideology that the Spirit is primary, and matter is secondary, and that the Spirit is

immortal, you would not have such a fear of losing material life, there would be time to think about how contradictory and are logical with the information presented about coronavirus. For example, you would compare that any flu virus is accompanied by complications. You would compare the morbidity and mortality rate from coronavirus and the percentage of morbidity and mortality from tuberculosis. You can compare, all this data is there, although there are also vaccinations against tuberculosis. Of course, the vaccine protects, but it will not protect if the immune system is weak. If you compare the incidence figures for the year from coronavirus and mortality from it in the world and then for the same year of detection and the percentage of mortality from tuberculosis, which is transmitted by airborne droplets, you will have a question: “Why are there no such protective measures against tuberculosis?”

Katya Lel : This is simply intimidation of the nation. Should you vaccinate or not? Allegedly, a vaccine has now been invented that helps our immunity. Some people say that you absolutely cannot do this.

Irina : What is the purpose of vaccination? If you are faced with the question: to vaccinate or not to vaccinate? MidgasKaus said that vaccination is not necessary in order not to get infected or get sick. More than half of people experience it asymptomatically without any vaccination. Weakened immunity makes complications possible - pneumonia, myocarditis and everything else, which can lead to cerebral edema. Influenza also happens; people with low immunity may develop influenza meningitis. Do we have flu shots? Yes, they help develop immunity, but not for life. There is, for example, for a year. But for this, the immunity itself of those who receive this vaccination must be normal. If he is weak, then at the time of vaccination he will not react to it normally, and will also get sick.

If he wants to get vaccinated against the flu, he must do it before the epidemic period. If he gets vaccinated, and 3 days later he communicates with someone who is sick, the protection will not have time to develop. Coronavirus is an acute viral respiratory infection, a type of influenza. The flu also causes mortality and complications. To vaccinate or not to vaccinate against flu? This is each person's business. If a person thinks that he is having a hard time with a simple flu, he has to communicate with children, or he works in a hospital or public place where there is a lot of risk of infection, or he has

complications, then he should probably get vaccinated. He will tolerate the vaccination more easily. We do not have mandatory vaccination. If you want, go get vaccinated, if you don't want to, don't get vaccinated. This is a personal matter for each person.

Regarding the coronavirus vaccine. MidgasKaus says this virus is highly variable. Even if a vaccine is obtained, the first mutation of this virus will no longer work. For example, a vaccine was invented for hepatitis B, but a vaccine for hepatitis C is impossible because it has millions of divisions. One vaccine was invented, and now it's another.

Regarding forced vaccination. Any violence is wrong, especially since you do not yet have a threshold for morbidity, an epidemiological situation in which such measures should be taken. There are special laws that when a certain level of infection reaches the population, a law on compulsory vaccination is introduced. You are far from this threshold.

Katya Lel : Most of humanity hears that they deliberately want to exterminate us because the population is too large. Therefore, they deliberately want to destroy us.

Irina : There are fears that it will not just be a vaccine, it will be poisoned?

Katya Lel : Of course.

Irina : MidgasKaus says that if your power structures have set themselves the goal of poisoning you through a vaccine, then it will be much faster, more effective and cheaper for them to do it through the most common injections, which almost every fifth person receives. They would start injecting poison into vaccines other than those that have low coverage. They would begin to inject it into the most common, the same physiological solution in which a good half of the drugs are diluted: glucose, insulin, painkillers. It will be much cheaper and more effective to introduce it there. "Based on the situation on Earth, the political scientists of the Interstellar Union," says Tian Grieg, "we believe that it is inappropriate for your power structures to destroy such a large number of the Earth's population." Why? Because the

entire population of the Earth exists for a reason, but participates in a continuous production cycle. If these people are taken out of embodiment, then the power structures themselves will suffer. They will not be able to provide themselves with the standard of living that they are accustomed to. For example, they will not be able to maintain houses, roads, communication systems, and sewage systems in good condition.

Katya Lel : If only they thought about it.

Irina : There are very good analysts in power structures. People without analytical abilities are not able to rise to power. To get there, you need to have strategic thinking and a tough mind that will be guided not by emotions, but by practical benefits. What will happen if I destroy half the population of the country, what will I be left with, where will I live, what will I drink? Who will raise my cows? He himself will not go to herd cows, and there are no robots for this yet, but he will want to eat better quality products. The destruction of a large number of the population is unprofitable for the authorities. They also have their own children, their own grandchildren, their own relatives, and they will all be left without support.

Maxim : Why Katya Lel? Because we visit all contactees who are in contact with representatives of the Interstellar Union. Surprisingly, Katya was silent for 30 years, now the time has come when we can talk about it. I'll be honest: in order for us to be projected, we had to admit that we were "peek-a-boo." Until you admit that you are a peek-a-boo, you will never become a contactee. A very large number of people who have contact, our doctors, our medicine recognizes them as "peek-a-boo" and puts them in hospitals. Therefore, if you doubt that Katya Lel is a contactee, you can rest assured. We are here, Katya and I are now getting to know her curators.

Katya Lel : I am a creative person and I'm worried about why for such a long time, for many months, we were deprived of mass events, communication with people and the public. We artists suffer a lot. This is our purpose and our life. We cannot help but share our energy, happiness, songs, and creativity with people. Moscow City Day is coming soon. And suddenly I hear on the news that mass events are suddenly closed again and will again deprive everyone of unity, communication, and joy. Why? I think it's so important now to give

people support thanks to creative people. Why are we deprived of this communication?

Irina : Why are you deprived of communication? Tian Grieg will express his personal opinion on this. Not only creative people are deprived of communication, but also many industries. People were given the opportunity to be at home, given the opportunity to communicate with their family, their children, parents, old grandparents, whom many, indeed, had not seen for months. This was a positive seed embedded in this situation. What to do with the negative experience, which is inevitable here, especially for a creative person, for whom the main thing is the pleasure of creating. Your fifth chakra is very developed, so holding back these impulses to bring people the Light that you feel can harm your physical health. What should creative people do now who are deprived of the opportunity not just to sing, but to share energy and receive mutual exchange? I propose the only real way out with the help of your information technologies, for example, a concert on the Internet. This will provide at least some way out. You won't just sing for yourself or write poetry, you will understand that thousands of people are hearing you at this moment. You may not see them, but it will be better than if you are alone with your thoughts. It is better to start creating Light and goodness in the Internet space than to sit and be condemned by this world. Since the authorities prohibit the gathering of mass events, we need to accept this situation as it is. They prohibit it, I accept it, I understand it, I don't condemn it, it's their choice, it's their lesson. What should I do now to bring this Light? I announce on my channel 2-3 times a week for an hour or two a certain gathering of people, and I sing for you.

51:54 Purpose of contact with Katya Lel.

Maxim : I collected many questions into one question for Tian Grieg, a representative of the Disnit civilization, who is Katya's curator - what is the purpose of contact with Katya?

Irina : The purpose of contact with Katya is to transmit information to her through thoughts, through mental images. It has been embodied on our planet more than once, and has been embodied on the planets of our allies. According to its vibrations, it suits us so that we can freely convey to it this information about the structure of the Universe. She

receives it in a dream. She not only sings, writes poetry - it is the transfer of information. She feels at this moment, when she composes, our emotions, love and acceptance in a form in which she can and desires to express and share it with all earthlings. Even though she didn't talk about the contact, it still happened, and she shared it in the form of poetry. When she told about this (we sent her the idea that such a time had come), she at first resisted this thought, did not want to tell, did not know the reaction of society. I, as a specialist in mental communication, sent her this thought: "Don't be afraid, say it, because by doing this you will lead many people who will not hear anywhere else to thoughts about cosmic brotherhood. And not to tell right away, but after a while, when society is ready."

Katya Lel : I really want society to quickly gain momentum in awareness and awaken faster.

Maxim : They ask why Katya still doesn't pass on the information herself? Because Katya is probably building contact now.

Katya Lel : I think that Katya also had to mature and come to this without fear. Fear lived in me for many years, I confess this to you. I wasn't ready for this. You are given one world, then suddenly another radically new world falls on you, which no one can explain to you. It was necessary to wait, apparently, for this time when such contactees, channelers are sent, who give truly correct information.

55:00 Contacting, conscious contacts. Higher Self. Plasmoid worlds.

Katya Lel : By the way, I have the following question: many people want to declare themselves contactees, without actually being one. Or they don't understand, they don't guess with whom they are communicating, maybe it's not the forces of light.

Irina : The entities themselves are children of Light, but they can be destructively inclined: embittered for some reason, being parasites of human energy structures, they have temporarily left this path of Light. If they have their own contactee who begins to transmit information to the masses, then it is very easy to distinguish him, even by the

information transmitted. This information begins to bring negative feelings to the person. In his speech he will say, for example, condemning someone.

Maxim : You will all be captured, you will all be enslaved, fears will be spread.

Irina : Condemnation. Even if he says that I personally help people get rid of some destructive entities, but upon contact with a person he will say that the person himself is sweet, good, pleasant, he is simply attacked by evil creatures, he removes the responsibility of this person for his life and actually does evil.

Maxim : There are also contactees who say: “I came to destroy all religions.” It's destructive too. Without creating anything, a person is already trying to destroy something, having a little more than those people who are unconscious have.

Irina : Regarding imaginary contacts: the point here is why are there people who fantasize that they are contactees? Why do they fantasize about this particular topic? In past incarnations they had experience of either contacts or incarnations in these worlds. When they hear information around, they have a desire to get in touch too. When they begin to not only dream about it, but already talk about it, it becomes known to the subtle world, plasmoid civilizations, spiritual worlds, and humanoids. Humanoids often observe a certain city or area. And they hear that a person who is not a contactee says that I am a contactee. They realize that he is fantasizing and begin to test him to see why he says this. He says this, he is interested, and if he is interested in contacts and is ready to declare himself: “I am a contactee,” even without being one, those who are closest to him in vibrations come to contact him. And real contact begins with him. But the problem here is that he may continue to think that he is fantasizing, but in fact he has already been in contact.

Maxim : Moreover, being on low destructive emotions, he attracts exactly the same people to himself for contact.

Irina : It depends on what he dreams about. If he dreams of something

high, bright, about world peace, about love, then he will attract enough high vibration. When he comes into contact with him, he may even think that these are his fantasies and thoughts, and he will already be in contact. It will be difficult for him to distinguish this without a specialist who will set up contact for him.

Katya Lel : That is. there must be a specialist of higher vibrations who will give the correct contact with the Higher Self.

Irina : Which can set up contact with a person who is not aware for some reason. For example, he may not yet be fantasizing, but from the very beginning he may be a contactee, but due to the fact that he does not fully believe in this contact, rejects it, doubts it, he may be in it unconsciously. Thoughts come, but he doesn't understand - is it his or not?

What is conscious contact? This is contact when a person understands that these are not his thoughts, that he is in contact with a certain entity. In order to establish conscious contact, first, for example, I introduce a person into a state of communication with his Higher Self, with his disembodied part. First, he asks the tasks of his incarnation, whether he is fulfilling them, what is stopping him, etc. Then a question whether he is a contactee, with whom exactly, and a question whether it needs to be made conscious, i.e. whether this meets the objectives of implementation. This may not meet the objectives of implementation. If he answers, then a curator is invited, with whom the Higher Self asks to harmonize. The Higher Self is the disembodied part of the Spirit; the Divine Light is present in it. The Higher Self is capable of harmonizing contact with any entity, because there is a larger percentage of Spirits there than in the incarnated ones. It adjusts, adapts to any energies of its curator, and the person begins conscious contact at the level of thought. They come and find out the name, civilization, what is the purpose of the contact, what is preventing this contact, some qualities or something else. Is conscious contact possible, for example, without the presence of a specialist, how to call it yourself. All these nuances are being clarified. This is the setting for contacts.

Maxim : Our main goal of the project is to teach every person who applied to the project to communicate with their Higher Self.

Katya Lel : That is. Does every person have their own Higher Self?

Maxim : Yes. And if we teach how to do this, then, accordingly, we will let people understand that there is not only a physical body, but also a higher spiritual structure, and it is primary.

Katya Lel : Even if a person is on low vibrations?

Maxim : Yes.

Irina : He does not hear consciously, he himself goes into low vibrations, but his Higher Self remains in the Spiritual world at the level to which he came. Another part of the Higher Self is in that original source of Divine Light from which we all came.

Katya Lel : It turns out that 70% is there, in the Divine Light, and 30% in our earthly dimension.

Maxim : We incarnate not only in physical material bodies, we can incarnate in subtle-material bodies. This is a separate world, a separate structure, and there are tens of times more of these worlds.

Irina : Which we call plasmoid.

Katya Lel : Plasmoid worlds are also real worlds that have the right to exist?

Irina : Real worlds, only they are subtle. They have a body consisting not of substances, but of energy.

Katya Lel : Our whole life is energy.

Irina : They consist of energy without substances and not from spiritual energies, but from subtle ones. To put it simply, we can say that it is something like an intelligent radio wave or an intelligent beam of light.

Katya Lel : I personally am very glad that such an enchanting moment of transformation of energies is happening personally in my consciousness. The world is changing at a fast pace. We are helped by contactees like Irina, who are sent to us in due time. I am happy that today we met with Irina and Maxim, we had a conversation, and many discoveries await us, many incredible events.

Maxim: Bye everyone! We were glad to see you on the air.

Katya Lel: Light in the soul, awareness, goodness, awakening, joy to everyone.

Broadcast 08/16/2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan – head of the International Center for Spiritual Development “Cassiopeia”;

Katya Lel – singer;

Tian Grig – mental contactee, representative of the planet Disnit;

MidgasKaus - representative of the planet Esler, biologist, psychologist, microbiologist, specialist in alien life forms.

#127 Intergalactic Medical

Service - Pleiades Constellation. How to learn to heal yourself?

https://blog.cassiopeia.center/mezhgalakticheskaya-medicinskaya-sluzhba-pleyady
https://www.youtube.com/watch?v=iatUG8aOtHo

0:25 Introduction of participants.

Irina: My name is Irina Podzorova. I am a contactor with extraterrestrial civilizations. Today we have a very interesting guest, whose name is Guzel. She will now speak about herself. She is a contactee and healer, and she is also a licensed physician.

Guzel: Initially, I understood that, by and large, conventional medicine copes very poorly with clinical diseases. Then I began to study homeopathy, bioresonance therapy, and I became interested in all Vedic knowledge. I have traveled a lot in India. This was my spiritual development. Subsequently, I became interested in how the body can react to the influence of hands? Because both my children noticed and those around me noticed that when I do something with my hands, it relieves pain. Then I went to osteopathy, but later I also realized that it only affects the physical body. But we are not only a physical body, we are also a subtle body, and we have many more subtle bodies than physical ones. And in the process of work, wonderful changes began to occur. I saw that the body can restore itself and heal itself with the help of yoga asanas, with the help of pranayama, folding mudras, and also doing breathing practices, qigong. When the body performs all eastern practices, healing occurs. Not only the physical body changes, but also the character. The attitude towards life changes. After the sessions, everyone says that they begin to love the world.

Irina helped me understand and see who I work with, who helps me in this work. I used to think that these were some spiritual beings helping me. It turned out that this is the Pleiades constellation and their Intergalactic Medical Service, which helps heal people.

03:29 First contact Guzel.

Irina: Thank you for such a detailed story. Please tell us how you first realized that you were not working with people alone, that there were spiritual beings next to you?

Guzel: I began to feel them, see and feel their energies and presence. There is a feeling of awe inside. This is the first time, and secondly, my patients began to see and feel light and its spectra: white, green, violet and subsequently see. Because when their physical and subtle bodies are adjusted, a person is harmonized and fits into the Matrix of the universe. And then his abilities open up and appear, and he also begins to see. Someone has the ability for self-healing and healing, as well as creativity. Some start singing, some start writing books. My patients noticed this.

Irina: Okay. Have you ever, before meeting me, communicated with them consciously in the astral plane or telepathically?

Guzel: No, I just sometimes heard a voice in my head. Answers to some questions, but I didn’t realize that these were the Pleiades.

Irina: And you asked who you are? Where?

Guzel: No, because I was not too close to contacting and understanding what contactees are and so on. I didn't attach any importance to this. I understood that the Higher powers were helping.

05:52 Contact Guzel with the Higher Self.

Irina: Please tell me, when you met me, did you consciously talk to your higher self? I asked the Higher Self, who are you in contact with?

Guzel: Yes. I asked and received answers to questions about the fact that I was from there myself. That I incarnated there, and now here on Earth. Therefore, this knowledge exists and is preserved. The session begins with you lying down and relaxing. The treatment is based on maximum relaxation. The more and better a person is relaxed, the more effective the treatment will be. But even if a person does not know how to relax, if he is a bundle of nerves, then they will still

gradually teach him. Due to the fact that our body consists not only of the physical material, but also of the subtle body, our problems and traumas are first recorded on the subtle human plane, and then move on to the physical. And when critical mass has already been reached on the subtle plane, only then does everything move on to physics.

Irina: Have you tried to feel for yourself what they feel during the sessions? Do you remember anything?

Guzel: Yes, a lot. The point is that those who are in the know begin to feel very well. Those who practice yoga, spiritual practices, and chakra gymnastics. They react very well and feel and understand everything very quickly. Everything that happens to them, and they are aware of it. Those who are not at all in the subject, but just came to treat a leg, arm, head, etc., they feel relieved. And the more advanced ones can see those who help them. See and be aware of colors. During the sessions there are even astral travels. And also moments when a person pulls all sorts of entities out of himself. The body knows how to heal and restore you. And this is the most important and most important thing. Every person can learn this, because everything is already embedded in the body. It just needs to be revealed. You need to show the door and the person will understand and learn.

09:21 Highlights from treatment sessions.

Irina: Yes, thank you. Okay, did you remember anything especially from the stories of those who went through this? Through treatment and healing with the energies of the Pleiades. Do you remember anything from the stories?

Guzel: There was a girl the other day. She actually came for the first time. She came and said: “My neck hurts, and they told me to go to you.” During the session, oddly enough, although it was her first time and generally a person from the street, she felt everything. She said that they were pulling her by her legs and arms. Her head stretches out. And then he says: “You know, I see that there is a girl standing at my feet. Blonde, with long hair and blue eyes." That is, she described the Pleiadians. This was a person who was not prepared at all, who knew nothing about it at all. I didn't talk about this either. She saw it herself. And I didn’t say it, she saw it. That is, people themselves

become a different formation. Despite the fact that many are distrustful of aliens, they have also begun to feel them.

11:01 How does the process of human healing occur?

Irina: Now your curator Laatar, he is from one of the planets of the Pleiades cluster, is now next to me. You ask him to come to me and, if you want, ask him questions. He will give you answers through me. Since through the chip I can tune in to conscious contact with any spiritual being.

Guzel: Dear Laatar, thank you for having me. You and your sister. Thank you for helping me and guiding me, guiding me and inspiring me. Because it's worth watching almost miracles at every session. The question is: do you have any other processes besides the ones I described? How do you do this in more detail according to the system of self-healing and self-healing?

Irina: He says that not only he and his sister Oole are next to you at the moment when you begin the session. With your mental attunement to this person, you seem to send a request, and other representatives of the Pleiades, humanoid, plasmoid civilizations come. We work with each person strictly individually.

Guzel: I understood that an energy pill is selected strictly individually for each person.

Irina: First there is a scan, which finds out which etheric copies of the organs of the physical body are damaged, and then the etheric projection of this organ is examined from all sides. The human biofield is examined, that is, its energy shells. And then comes the treatment. They seem to be stitching up, sharing their energy, charged with their thoughts and feelings. They transform negative energy into Light. And since it is charged with their thoughts and feelings, the person also changes his mental attitudes. If they are directed negatively, the person gradually changes internally.

He begins to think more about the Light, becomes more aware, more

loving. In the event that he does not have such a contradiction to reject the new and does not have a tendency to control everything around him. Because during the session it is important to relax both physically and psychologically. Trust those curators who are nearby. Trust your Guardian Angel, because they work in contact with everyone's Guardian Angel. They also receive energy from the Spiritual world. And when a person begins to move in a certain way, these movements are for a reason. He repeats the movements seen in the subconscious.

Guzel: Yes, I understood that too. I realized that yoga, qigong, pranayama - they were given to man so that he had the opportunity to heal.

Irina: Yes. Laatar says that the word healing means making a person whole. And what is it? This is when a person does not feel like a separate part from all other people, from nature and from God, but feels whole with them. Feels the world as a whole and feels himself not just as a part, but as a part of this whole. And then he can heal himself. And he will feel throughout nature this divine energy that we share with people. He tells me that every person can do this too. Can heal himself and others. To do this, you need to believe in it and stop resisting the flow of life. You need to trust. Complete openness will help build trust. And for this you need to remove fears. Fear is the energy that blocks your possibilities. Doesn't let you move forward. This is a useful evolutionary mechanism acquired by your ancestors during the period of evolution. This is an instinct of self-preservation. This instinct is very ancient and it is aimed at the survival of the body. He can no longer take into account all the nuances of behavior that exist in modern society. Therefore, this useful instinct, it can begin to protect a person not only from everything dangerous, but simply from everything new. From the stress that accompanies changes in life. And then a person has contradictions. For example, he mentally understands that he needs to get out of some situation and take a step towards his new bright destiny, but the fear of changing his life stops him. And this internal contradiction accumulates in a person and creates blocks in him. And my task is to explain that we are embodied here in this Universe in order to develop by making choices. But those circumstances that are created in life are created by ourselves, by God, and by the people around us. Here it is important to understand when we can influence the situation and when objectively we cannot. And if we cannot influence the situation, then we need to ask ourselves, our higher self, why this situation came into my life, and how differently I can go through this lesson. Are there any other

questions?

20:21 Do the Pleiadians have homeopathy, apitherapy, hirudotherapy?

Guzel: I would like to know if they practice such a direction as homeopathy?

Irina: It looks like we have something. What is homeopathy? Firstly, this is not just a chemical method - it is an energy method. Because treatment is being carried out with microdoses of substances that cause symptoms similar to the disease. But at the same time, there is an impact not on the physical, but on the etheric body by the radiation of those substances that cause the disease itself. But since there are no substances in the homeopathic medicines themselves, but only a charge of energy, this charge of energy, on the contrary, suppresses the disease at the physical level.

Guzel: That is, they have homeopathy. Great. And we also have such areas as apitherapy and hirudotherapy. How do they feel about this and do they have similar experiences?

Irina: We don't have similar types of insects, but what you named is no longer homeopathy, but the introduction of certain substances. Hirudotherapy is based not only on the fact that the leech sucks blood. It is based mainly on the fact that an injection of certain substances is given. Apitherapy is not only treatment with bee venom, but treatment with bee products. And bees are such unique creatures that can extract substances that are very useful for human health from plant pollen and waste products of their body. Bee venom contains hundreds of chemical compounds that also have beneficial effects, such as antimicrobial and anti-inflammatory. Substances released in the human body by a bee sting suppress inflammation throughout the body.

23:17 Herbal medicine, the use of nano-robots in medicine.

Guzel: Do they use herbal treatments?

Irina: In our country it is developed more as preventive medicine. They do not have similar herbs or medicines. They have more developed medicine, which treats with nano-robots. You don't have it yet. Here you need to take into account that any plant, in addition to its chemical properties, also has its own vibration. And every disease also has its own vibration. You can select herbs that are incompatible with the vibrations of the disease.

24:13 About the combination of healing and religion.

Guzel: What other directions do they have? What else do we need to develop in?

Irina: I would like you to invite people to your sessions and combine this with a sermon about unity of thought. So that people do not fall into low vibrations. Our method can be combined with any method of energy healing, any religion, any teaching. It's all compatible. I want to thank you, Guzel, for your many years of cooperation in the field of healing the peoples of your home world. This is a very important mission, and it will help you rise to a higher level of Spiritual development and fulfill your goal of incarnation.

Guzel: Thank you. It was very nice to talk.

Irina: Thank you Laatar for answering the questions. And now, Guzel, please say a few words of wishes to those who will watch us.

Guzel: I would like to wish everyone Light, warmth, kindness, wisdom, rationality, joy and love.

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Guzel is a contactee and healer, a certified doctor;

The curator of Guzel is Laatar from the Pleiades constellation.

#130 Three wishes for a frog. Spiritual pride, development and priorities.

https://blog.cassiopeia.center/tri-zhelaniya-lyagushke-duhovnaya-gordynya
https://www.youtube.com/watch?v=DTxGG14D3ew

0:01 Desire for material and immaterial.

Natalia (channel "This Moment"): They say: "Make a wish - and everything will come true!" Ninety-five percent wish for something material!

Irina: You see, everyone has a desire for material and intangible things. Now, even those who make plans for the material have a desire for the intangible! But there is a concept of priority: what are a person's priority desires, what would he want first, and what would he want second, what would he want third, what would he want fifteenth, etc. There is a song – I really like it – it's called "Three Wishes". The meaning there is that the guy caught the frog, and she told him: "Let me go and I will fulfill your wishes!" And he was the first to order a bag of gold, but when he received it, the song goes on to say that the guy became unhappy. He came again, and the frog asked: "What else do you want? I'll grant you two more wishes!" The guy said that he wanted power and when he left it, he became the King. A year later, he returned to this frog again, and she said that there was only one wish left that he could make. The guy asked to give him Love instead of money and power, because he kept wishing for the wrong thing, and he understood it. Then the frog turned into the Queen and said: "And now I will fulfill all your wishes!" Is it really a beautiful story?!

01:42 Personal desires of Irina Podzorova.

Natalia: And you, what wish would you make for yourself?

Irina: The first is for the Earth to enter the Interstellar Union. To stop the wars.

Natalia: And for yourself?

Irina: And this is for me! I'm part of the Earth! Then I will have the opportunity not only to fly with Kirchiton, but also to visit other planets, other worlds, to show you everything!

Secondly, for Spiritual centers to open all over the world, so that we can show people there the connection with the Higher Self!

Natalia: If only we all wished like that! Imagine that the first and second wishes came true, and what about the third?

Irina: And the third thing is for me to meet a person and live with him in my house. I don't know yet what about children, but so that we can have a family.

Natalia: Well, finally!

Irina: My mother and I played like this when we were children - my mother asked: "What would you wish for if you had a Goldfish? I would like a house, a car." And I said: "I would wish all people to be healthy!" And I think everyone wants this! There is "The Tale of the Fisherman and the Fish," where the old woman began to desire material wealth, and everyone knows how it ended! When she was given everything she asked for, she became so proud that she decided that she controlled everyone, and the Goldfish was on her errands. And to prevent this from happening to us, our Mentors sometimes protect us from material acquisitions, and this is for our benefit! I thought this was clear to everyone, but it turns out it's not!

04:03 Pride and envy. Poverty and wealth.

Natalia: How did you save yourself from spiritual pride?

Irina: Probably, pride is a feeling of superiority. For me to feel it, I need to understand that I am not only different from others, but that my difference is better and more important for the world than others. But I believe that every person in his place is important, necessary and interesting for the Universe, and we are all equal to God. Here, the President and the homeless person who sits in the trash heap - they are equal, in fact, in their divine essence. If one was given power, and the other was given such an opportunity to build his own destiny, that he came in this form - it was the choice of each of them. And the life of one and the other equally deserves respect, because both of them go through their lessons.

Natalia: But the problem is that the homeless person may have wanted to live as the President, but, being in this body, he does not know that his Spirit ordered this experience.

Irina: The fact is that if a homeless person with his experience that he has and with his worldview were to become President, it is not a fact that this would serve as a spiritual evolution for him and the people around him more than that of the Spirit who became.

Natalia: Do you think that the homeless man's envy of the President stems from his ignorance that he is the Immortal Spirit?

Irina: You see, what's the matter - in the next life, they may find themselves in each other's place. Even in this life, there were rich people who lost everything, and, conversely, people who found wealth in the trash, but this is not by chance! Even if a poor person won the lottery or dug up great wealth, this is already a test for him! And it can be no less difficult than remaining in poverty - a person may not pass it and lower his vibrations so much that for him, it would be better not to find it at all. I think this is clear to everyone.

#131 Kirlian effect. Aura.

Religion. Conference by Irina Podzorova with Sofia Blank and Michael Melikhov.

https://blog.cassiopeia.center/ehffekt-kirliana-aura-religiya
https://www.youtube.com/watch?v=2fVhlB6J6tw

00:00

Irina: Hello, dear friends! Today, next to me are my extraterrestrial friends LiShioni from the planet Shimor, a specialist in the astral world and its interactions with the material world, and MidgasKaus from the planet Esler, a biologist, psychologist and specialist in alien life forms.

01:55 What is an Andara crystal? Positive energy of the community of plasmoids. Transfer of energy to physical crystals.

Michael: Irina, we had a program “Andara Crystal”, where there were a lot of questions: what is a crystal, where to buy it? Do our brothers in mind know what it is, why it was brought to Earth and what its functions are?

Irina: Briefly describe what it is.

Sofia: At the end of March we received a message from our galactic friends that the energies of the Andara crystal were directed to Earth. Andara crystal is a cosmic crystal, which is an alloy of 80 types of crystals, possessing the most powerful positive energy. The gift from above was that they directed the energies of this powerful crystal to Earth and gave us the method of how we can obtain the Andara crystal. And the technique is as follows. We mentally transfer the energy of the Andara crystal to any of our crystals. And the energy of the Andara crystal complements the energy of the natural crystal. For example, we take a quartz crystal and transfer the energies of the cosmic Andara crystal to it, and this quartz crystal acquires the properties of the Andara crystal, but plus the natural properties that it

had. That's what we're talking about.

Irina: I see. He said that the energies of the crystal that you just named, in the terminology of the Interstellar Union, are the energies of plasmoid worlds, their crystalline bodies. Yes, there are such people.

What you called the transfer of energy to the physical crystal is its charging. What you called the gift of cosmic civilizations speaks of human contact. Andar is either the name of this civilization or a group of civilizations. What you said that this crystal contains 80 alloys is simply the perception of that contactee who perceived that just as metal has alloys of various components, so in this group mind of plasmoid origin there are various minds. This is how he perceived it, this is how it was conveyed to him in figurative form. They wouldn't have given it to him any other way, because... human consciousness has become accustomed to three-dimensional concepts of the physical world. Fusion and rainbow are common concepts for conveying those realities that exist in plasmoid civilizations. Perhaps this is the very name of this entire community of plasmoids, perhaps the name of one of them. Why crystal? Because in many plasmoids it is the thin-material body that resembles a crystal. It can take different shapes, colors, and sizes.

Maxim: I'll explain a little. Recently, a large number of groups of thin-material plasmoid civilizations have been helping our civilization, directing here a huge amount of energies that they structure and create for the development and awareness of our Earth and the civilization that is located here. They are doing a lot of work. And I know a group of more than one such civilizations. Perhaps Andara is precisely a group of civilizations united into a single stream, which directs a single stream of energy from different levels or civilizations, which we can transform through our thoughts, charging crystals. Because crystals are a reflection of the body of their civilizations.

Irina: And I became even more convinced that these are plasmoid civilizations, and not dense material ones, because you spoke about charging another crystal with your thoughts and Andara properties. This suggests that the crystal lattice of any substance retains energy better than just an amorphous substance.

07:40 Representatives of the earth element and solar creatures. Civilization Kryon. Detoxifying the body with crystals.

Sofia: There was information that 15 years ago the crystals that are located in the mountains of Brazil were given an additional property from above - to detoxify the Earth from toxic chemicals, which, due to our barbaric attitude towards the Earth, filled it all. And, in addition, to detoxify the person who wears Brazilian crystals to destroy the toxic chemicals in his body that he has accumulated through food and water consumption. Is it so?

Irina: MidgasKaus says that if in a certain place on the Earth the crystals activated themselves, without human help, and were endowed with special energy in order to transfer the frequencies of the organs of the human body to a healthier mode, then there is a 90% probability that these crystals were charged by representatives of plasmoids civilizations that are responsible for the Earth. We call them representatives of the earthly elements. The same Kryon group is actively involved in this. This set of plasmoid thin-material civilizations from 10 to 22 density levels includes 156 thin-material civilizations (at the last moment, as I learned about Kryon), which include the Spirit of plasmoids of Earth, Water, Air, Fire, certain places of nature and a group of solar thin-material plasmoid civilizations, which are called solar beings. They can charge crystals on their own (they are very good at retaining any energy from a person or plasmoid). With his thoughts and bright feelings, a person or plasmoid modulates his life force, which comes from him. And this modulated altered force enters between the atoms of the crystal lattice and remains there for a long time. This property is possessed by water, crystals and those substances that consist of microcrystals, for example, various salts, sodium chloride, the same sugar. Any crystalline substance. Regarding toxins. The energies of various plasmoids can indeed activate the work of the body's natural filters (skin, liver, kidneys, lungs) to remove substances that should be released into the external environment. These toxins are formed in absolutely all people, regardless of their particular type of diet or lifestyle, because... All living organisms have metabolic processes, the synthesis of new substances and the breakdown of old substances.

13:50 Photos of the aura using the Kirlian method. Prayer is an energetic connection to a specific egregor. Energy of the Holy Spirit. Angels are messengers of the Interstellar Union,

messengers of God. Interpretations of aura images by representatives of alien civilizations.

Michael: I will now show photographs with the Kirlian effect that Sophia Blank took.

Sofia: At the age of 25, God connected me with an amazing person who created a wonderful Kirlian device capable of recording the invisible world. Kirlianography takes 1.5 seconds to shoot. And what is captured at that moment is next to the person, inside his body, inside his field. Here is a photograph of a woman who came to me exhausted. In this photo, after she and I read 40 prayers to the Virgin Mary, we see a bright aura around the fingers. Here it is black because it is negative. From above we see a bird that looks like a seagull. On the side we see a noble female face, and below are energy flowers. Everything that is black here is actually white. The question is this. I interpret this as a manifestation of one of the images of the Divine Mother (the image of a face is visible on the right). There, you can even see how a stream of light comes from the projection of the chest directly into the aura. Above the aura we see a bird that looks like a seagull. I believe that this is an angelic being. Below we see energy flowers. And there is such a legend on Earth. The Mother of God showers flowers (roses) on everyone she loves, feels sorry for, and wants to help. This is my interpretation as a healer and earthly person. What will our cosmic friends, brothers, mentors say? From their point of view, what is in this picture?

Irina: Please ask MidgasCaus to clarify what kind of prayer you read?

Sofia: First I read “Our Father” 7 times, and then 40 times “Virgin Mother of God, Rejoice, O Blessed Mary, the Lord is with You, blessed are You among women, and blessed is the fruit of Your womb Jesus, for You have given birth to the Savior our souls."

Irina: LiSioni clarifies what these pictures are. Such photographs are obtained from the influence of a person’s aura and his spiritual structure on physical matter. Those. These are not the spiritual layers themselves, but their reflection in the air from the body. Any Spirit manifests itself through the body. Here we see a set of electromagnetic fields, which are a reflection of mental, sensory,

emotional, i.e. spiritual processes occurring in the human soul after prayer. Prayer is not only an appeal to God as one rational entity to another rational entity or to a saint. But at the same time, this is an energetic connection to a certain egregor, provided that a person does not just read, but does it with faith in these creatures that are mentioned there, and the desire that what is said there will come true. This is how he invests energy. And when he puts it in, it doesn't matter whether he reads it out loud or to himself (if out loud, then through the sound of the voice the vibration intensifies even more), then his etheric, astral, mental body, all the shells of the aura begin to change. The images that appear in prayer and in which he believes appear in them. You could say this. He turns to the Virgin Mary and imagines this image in mental space. This is a reflection of his thought form and is shown in the picture. This photograph is a static image of the dynamic process of saturation with this energy from this egregor. Egregor is by no means isolated from God. All egregors as spiritual structures are saturated with divine energy from the very source, which you call the Heavenly Father, and to which you turn in your first prayer, which Christ taught. Why in this prayer is he called the Heavenly Father and not the Creator? Because here it is emphasized that he gave birth to us, intelligent beings, intelligent spirits who are incarnate. He not only created us from some material as an instrument for the manifestation of his will, but gave birth to us and endowed us with free will, like himself. Our freedom is actually equal to God's. And this truth is reflected in the Lord's Prayer. And all the images were reflected here. A seagull bird, an angel - this was precisely the reflection of the angel who stood nearby. It could also reflect the energy of the Holy Spirit. After all, when a person read a prayer, turning to the Mother of God, he could remember that, according to the Bible, Christ was conceived by the Holy Spirit. And all these images appeared in this way. And flowers are a symbol of the blossoming of the soul, the opening of all chakras, a symbol of spiritual beauty. Just as the culmination of all growth of a plant, enlightenment is the culmination of all spiritual development of a person. This is the manifestation of all images.

Sofia: In the next frame, taken after the prayers, you see wing-like structures entering the aura. The shot was taken after prayers. Am I interpreting correctly that an incorporeal angelic being appeared and entered into the human field. Is this proof that angelic beings and saints enter into us, but only after prayers?

Irina: There is no doubt that divine beings are depicted here. In the Russian language there is no such clear division of creatures as exists

in the languages of the Interstellar Union. What you call angels, in fact, can be either a creature of plasmoid origin or a disembodied Spirit (what we call in our language a Guardian Angel). This may be a being with the astral body of the incarnate Spirit. For example, a humanoid or some kind of astral traveler came. Or even the Spirit of a relative who has already left this world. Translated from Greek, the word “angel” means “messenger”. And this is what they even called completely physically embodied creatures in the Bible who flew from another planet. They were called angels in the sense that they were messengers of the Interstellar Union, messengers from God. They understood their mission as divine. They really were angels. But there are also angels as disembodied spirits who can manifest themselves like this after prayers. Prayer, as I already said, is a spiritual process of communication between two spirits. There is a prayer to several or even all saints. But this is also an energy process in which energy of a certain quality and vibration is released. Just as the light of a lamp attracts moths who like it, so the spiritual light of a person, who enters a certain state of prayer, happiness, light, love, grace, attracts in the Spiritual world various high-vibration plasmoid beings, angels, various disembodied spirits who also carry light . There really are angels in the picture. Here I will clarify the aura. A person’s aura extends to 2-3 and even more meters. And the one who is next to him in the astral, spiritual body, he is in his aura. And the reflection of these creatures can be found in such photographs. These are not directly their images, but their trace.

Maxim: This is an additional projection of energy on the physical structure of a person by a nearby entity. And it can leave this energy, if a person consciously knows how to use it, he will continue to support it. But basically, then this energy changes. And after a while, if, for example, you take photographs in a day, two or three, they will be different. And at the moment when prayers are read, when high-vibration, subtle-material, humanoid, spiritual entities are present, they really help the energy to manifest itself in exactly this form. And in the reflection of this energy, the reflection of the entity that is nearby will be visible.

Sofia: The next photo shows the field of an amazing woman who, possessing the highest human and spiritual qualities, has such a feature. She buys good spiritual books and gives them away to both friends and strangers. I took pictures of her field after prayers of different religions, and you can see stars in her field. And next to it are various kinds of structures or beings, which I call angelic. And I call

these stars inner light. This is truly a person who radiates light. It is visible to the naked eye. You want to cling to him, be close and communicate as long as possible. How would our friends interpret what is captured here?

Irina: MidgasKaus says that when I come to a person and see structures in his field that look like stars, stripes, etc., then in 85% of cases this is the result of a connection with plasmoid civilizations. Star-shaped structures are a trace of those civilizations that live in the chromospheres of various stars. These could be Antares, Vega, Sirius and others, what you call supergiants. Even where the existence of planets with organic protein life in a dense material body is impossible, even those stars do not emit light in vain, which is a reflection of the light of the Creator. They were created for a reason. They were created as a cradle for other types of civilizations. Asterisks in a person's field are almost always evidence that he is connected with civilizations from the stars on a subtle level, i.e. he has a connection with them. It is visible in the aura as a kind of thread or cord, i.e. channel is open. And very often such structures in the aura and with the luminosity that exists here show not just a connection for transmitting information by plasmoids to a person, but this is a connection for healing. High-vibration plasmoids conduct energy through a person, who give part of their vital energy completely disinterestedly so that a person who matches their vibrations can spread this energy to sick people, restore their organs, and dissolve energy blocks. These are such subtle medicines.

Maxim: We call this binding to the subtle worlds. They help her deal with restorative moments in energy connections in people at physical levels.

32:20 Plasmoids are the creators of plant and animal souls. Geode stones are healers. Types of plasmoid civilizations.

Sofia: Now in front of you are two peach pits. The black spots around the halo of light are where the peach pit comes into contact with the film. And what are these openwork lightning-like formations? Is it that free energy or what I call angels?

Irina: This is similar to the energies of plasmoids that create group

souls of plants. All living beings have souls - plants, microorganisms, viruses, fungi, animals, insects, etc. Only souls can be group, for example, in plants, insects and microorganisms, or they can be single. Animals can have both group and solitary souls. But both plant and animal souls are created by plasmoid civilizations. These civilizations do not simply consume the energy of God and incarnate in a subtle material shell. They also play their role in the development of the Universe, creating souls from their thoughts, energies, feelings and investing them in various plants, their seeds, and animals. For example, they put the soul into a bird's egg, then combine it with the body so that a living chick develops. And in the picture we see exactly the process when the investment and connection of this energy with the physical body occurs.

Sofia: In the next photo we see a black stripe in the middle. This is an agate stick 1.5 cm thick and 5 cm long. Look at the powerful radiation of different types - lightning and radiant balls around it. I think this is the free energy that agate emits. Agate is a very common mineral that consists of 75% quartz. And in the process of its growth, this agate, like other minerals and crystals, consumes and absorbs the energy of the Sun, water (it rains), stars, lightning, thunderstorms, volcanic eruptions, and Earth movements. And then they radiate it all into our field when they are on us, i.e. when we put on beads, bracelets, and geodes. Geode stones are amazing healers. Are they also nurtured in nature by angelic or elemental beings?

Irina: MidgasKaus says that those whom you call angelic beings are also plasmoids. There are many more types of plasmoid civilizations than dense material ones. For example, if these are terrestrial plasmoids, then they put energy into crystals, if they are aquatic creatures, then they put energy into water. Solar plasmoids also contribute their energy. If, for example, you place a vessel with water in the sun, then there will be a combination of energies of both water plasmoids and the Sun. The stream of sunlight is not just a stream of photons, it is charged with their thoughts. That’s why many people say figuratively that the Sun and Earth are alive, meaning the totality of plasmoid civilizations that are located directly on the planet, in the Sun, but at other vibration levels. Natural crystals grow to such sizes and shapes for a reason. Crystal lattices are arranged according to certain laws, which, among other things, are determined by the influence of plasmoid civilizations. And here the energy of both plasmoid civilizations and the person who made it invested their energy. Plus the energy of the one who owns it. Here, in the photo, there is an overlay

of energies, there is human energy there.

41:05 The kinship of all religions of the Earth, photographs of the aura of those praying. Enrichment with spiritual vibrations through sincere faith.

Sofia: In the next photo, a person (with a weak aura of the initial state) read 3 types of prayers: Christian, Jewish and Islamic. After three Christian prayers, the aura became much better. Additional energy formations appeared on top and sides. And the further it went, the more interesting, and multi-layered, and richer, and longer the rays became, and, as I already said, different angelic structures appeared. The essence of this picture is as follows. Firstly, after prayers there is an increase in vitality and energy in the human field. Secondly, angelic beings appear, summoned by the words of prayers. Thirdly, the prayers of different religions not only do not consist in antagonism, but also show that when we read the prayers of different religions, the aura is enriched much more than when we read the prayers of only one religion (in the first frame). More diverse angelic beings appear. This photograph symbolizes the reality of the unity and kinship of all religions, the absence of real antagonism between them. I'm talking about the antagonism that Christians feel towards Jews, Jews towards Muslims, etc. All this, on the contrary, was invented to divide peoples, dominate their mentality and fulfill their base goals, pushing them into confrontation. What are the ideas of higher cosmic beings? This is the most important question for all humanity.

Irina: MidgasKaus says that when you were just talking about the significance of this photograph for the world and that the prayers of various religions enrich a person’s aura, you were also in contact. This is not exactly your information. MidgasKaus and LiShioni want to thank you on behalf of the Interstellar Union for doing a great job, serving to unite various spiritual teachings in the minds of people. So that they really realize that it's all one. This is one of the most important ministries on the planet.

Maxim: One of my tasks is the unification of religions. They all talk about the same thing, just in different languages of different peoples. And the most interesting thing here is the manifestation of faith. The more a person believes in what he believes, the stronger his energetic connection with the egregor is formed. We can read prayers, and the

brightest spot in the photograph of the aura will be exactly on that prayer, to which main egregor it belongs, i.e. what he believes in most.

Irina: If a person read the prayers of three religions at once, if he believes that they do not contradict each other, if he sincerely read, then he will indeed enrich himself with all the spiritual vibrations that are contained in three religious egregors at once, energy and thoughts, for which were saved by millions, billions of people on the planet. The more a person develops spiritually, the more he discovers the spiritual light within himself, the more dear and close and understandable other people, and other religions, and other nationalities become for him.

Sofia: Humanity has been fighting each other for hundreds of years for false reasons that really do not exist. And so I think that through kirliography the evidence that should unite people is presented.

Maxim: Yes, people fight not for religion, but for their ego. If we learn to see in every person and in every religion the spiritual light that we talk about, we will stop fighting with ourselves and with each other.

48:05 The Grail is the cup of the first communion of the disciples of Jesus Christ. The mystery of her whereabouts on Earth.

Michael: What is the Grail?

Irina: The Grail is the cup from which the disciples of Jesus Christ received their first communion at the Last Supper. Why was it called the Last Supper? Because other people were not allowed into the room where this sacrament took place. There they performed what today researchers call a ritual, and in church religions a sacrament, i.e. This is a ritual of connecting two worlds - Spiritual and material. The establishment of the order of this sacrament was before the Last Supper. No one was allowed there except the disciples of Jesus Christ. This bowl has actually survived to this day. You can conduct research on where it is stored by contacting the Spiritual world, representatives of the Christian egregor, for example, talking to Archangel Michael. He knows exactly where she is. LiScioni says that neither he nor MidgasCaus were ever interested in this, because... they have a narrower task - being representatives of their planets, to

establish contact with earthly representatives. What you now want to know about the energy of this thing and its location is better to ask the patrons of the Christian egregor. You can ask a question to Archangel Michael, Archangel Gabriel, who is now embodied on Burkhad, or Archangel Raphael. All we know from the information of the Interstellar Union is that this cup was not destroyed, it has definitely survived to this day and is contained on Earth.

50:55 Body forms taken by plasmoid creatures. Incarnation of man into animal. Man's control of his energy. Creation of thought forms.

Sofia: In the next photo you see angelic beings. If you zoom in on the fragments between the auras, you will see faces in crowns. This photo shows how diverse the angelic beings, plasmoids, who come into contact with us through prayers are. What kind of creatures are next to the two auric ovals?

Irina: Plasmoid creatures can take on different forms of their body. These can be ovals, balls, threads, pillars, something similar to jellyfish, stars, crystals, and even terrestrial animals - octopuses, fish, birds, etc. Terrestrial plasmoids, which create animal souls, often take their form, appearance in contact with humans. It is on these contacts with plasmoids that all cults of totemism are based. Including further religions based on images of gods with animal features - ancient Egyptian, ancient Indian and other types of what has come to us in the form of mythology. What was written down in the form of the Vedas, etc., is only part of the vast tradition of that people, which developed over many millennia.

Maxim: For a very long time I could not understand that the souls of animals are created by plasmoids, and how people can see that they were once embodied in animals. And at some point I understood. It’s just that people actually see that they were once embodied in subtle-material civilizations, which create the souls of animals. And since these subtle-material civilizations do not share themselves with animals, they consider themselves to be these animals, i.e. they are like the parents of these animals. And when people see their past incarnations in animals, they can just see that they were embodied in subtle-material civilizations. And for me it was a huge discovery.

Irina: Yes, that's right. Mead says that this is a plasmoid creature, and not an animal itself, which is precisely proven by the fact that in this type of regression, the one who remembers himself as an animal, he continues to tell his experience in a completely coherent human language. Those. the mind itself does not disappear anywhere, just as it disappeared in an animal.

Sofia: The next photo is simply amazing. A lady, a healer, invited me. I came to her with a device that takes color photographs. In the first frame there is a wonderful field of hers, very powerful in energy and very pleasant. And she tells me that she is worried about her pregnant daughter, who is about to give birth. I suggested that she mentally send her energy to her daughter. I took the second shot after she carried out her mental message of energy. Look what happened. She sent energy. The aura became narrow. The picture shows that a plasmoid is moving along the aura on the right. The aura ends, as it were, with handles, between which there is another plasmoid, and another plasmoid has already emerged. Those. in the moment when she sent this thought, the aura transformed, narrowed at the release, and the energy went to her daughter. This photo is proof of how a person's aura can instantly transform according to his mental message. How instantly you and I can send love to any object on Earth and the Universe. How much we can do in the moment when a thought flashes through our mind. What do you think about my interpretation?

Irina: MidgasKaus says that what you just called endowing part of the vital energy with your thoughts and feelings, instantly changing the aura and moving its fragments to the chosen place (what you call vital energy), this really happens. The ability to control your energy, your state and thoughts is a distinctive feature of all intelligent beings. And on the planets Esler and Shimor these things are taught from childhood both in the family and at school. And MidgasKaus says that when I first flew to Earth and found out that the inhabitants of Earth did not practice this, I was very surprised. And I was perplexed: how can you live in a dense material body without knowing how to direct your energy, without knowing how to communicate with the mind of the etheric copy of the organ? Regarding the mind, I will now explain. The fact is that each cell has its own information memory center, with which you can come into contact through your Higher Self. And here, for example, they teach this, because this is the basis of existence in a dense material body. I was surprised why in your schools they teach the basics of religion, philosophical movements, which may be contradicted by the doctrine of energies. There are people who think

very narrowly, and, therefore, they are not used to perceiving what is written about the same thing, only in a different language. I knew about this, but I could not understand why your state educational structures did not introduce such a subject, so necessary for the life of an adult in your world. Schools have introduced the study of various mathematical formulas, various trigonometric formulas, etc., which do not affect energy in any way. And they did not introduce what was really important for the health and full development of the creature. Regarding your photographs, I will say that this is indeed the case. Any person has this ability, whether on Earth or in the humanoid sphere on other planets, i.e. any Spirit has the ability to create such thought forms.

59:50 Fanaticism is faith without love, a kind of fear. Religious zombies, helping and healing them through enlightenment.

Michael: The fact that religions do not contradict each other is understandable. But people who become fans of a certain religion are zombies, unfortunately. They are deaf. How can this situation be changed?

Irina: MidgasKaus says that fanaticism is faith in one's ideal, but which is not combined with love for this ideal. A person may think that he loves God, but this love is not comprehended by him. This is only his desire to receive from this ideal some kind of pass to heaven, forgiveness of his sins. Those. it is not selfless love that eliminates fanaticism. Fanaticism is a kind of fear, for example, of losing one's faith, the favor of God. In the Bible in the New Testament, one of Christ's apostles, John the Theologian, wrote: "Whoever fears is not perfect in love, because fear is torment." Only unconditional love can save you from any fear, from the desire to impose your faith, from fanaticism and cruelty, which is carried out under the guise of a fair fight for faith. Why will this save? Because if a person truly loves God, even Christ, even Jehovah, even Allah, Buddha, Krishna, etc., then he will never treat non-believers even with a degree of cruelty, because he clearly understands that all people are created By God. And if he does not love, rejects and harms even in his thoughts at least one person, by this he closes himself off from God. Any true believer understands this. Because fanaticism is faith without love. This is faith not in the true God, whom all religions portray, but in different ways, but this is faith in one's own ideal, what this God should be according to his ideas. It often happens that the fanatic himself, reading some

place from the Holy Scriptures, which is authoritative for him, or talking with another believer, his teacher, who is authoritative for him, begins to feel that his fanatical faith in this divine ideal is entering into a contradiction with the image of God that exists in the same religion. And then he has a crisis, a rethinking of his faith, a choice appears either to remain in his convictions that the truth was revealed to him, and God is so just and thirsts for the punishment of sinners, or to still come to terms with the fact that this God is portrayed in his religion exactly. Those. to come to this true faith, dissolving it with your love. We can help such people only through education, i.e. detailed explanations of why he experiences these feelings. But he may not believe the words. Fanatics are very fixated on concepts of justice. They believe not in words, but in deeds and actions. And only by your own example of selfless love for everyone, for yourself, for everyone around you, can you show him that light and light a reciprocal light in his soul. There is even a Christian verse or song. There are lines there on how we can help such people. “And if a traveler (that is, a traveler on the path to God) suddenly turns away from the path that leads to joy, then you light the fire of love in his chest so that he can find that path.” And don’t lead him yourself (he may not believe you), but light it in his chest, then he will go on his own.

01:06:25 The existence of civilizations similar to the characters in the films “Predators” and “Aliens”.

Michael: Are there civilizations similar to the characters from the films “Predators”, “Aliens”?

Irina: MidgasKaus says that yes, indeed, this is exactly the form that non-intelligent creatures exist, only they are small and more like insectoids (insects). They are far from our Galaxy.

01:07:45 Low-frequency parasitic creatures, bindings, energy exchange. Conditions of attachment to a person. Energy exhaustion is the cause of diseases.

Michael: I want to show you photos with a crustacean structure, a crab that eats everything. Kirlianography can be used not only for field diagnostics, but also to detect cancer at a very early stage. Here is diagnostics using Kirlian photography, where these same chimeras are

shown in the auric structure of subtle bodies. Sofia, would you like to add anything?

Sofia: The fact is that this is filming the field of a completely healthy person. She is a young Filipina physical therapist. Healthy, smart, active. The picture showed the destruction of the aura, and next to the aura there was this crustacean entity. What is important is that the claw of this entity is in the fingerprint, i.e. its projection is already in the physical body. Is my interpretation correct that these cancer-like entities are near us and enter our fields when they are unprotected and open. And the energy of seven prayers said three times a day keeps the fields closed.

Irina: MidgasKaus says that in addition to those plasmoid civilizations that you saw in the light of love in the previous photographs, there are plasmoid creatures that feed on low-frequency energies of pain, resentment, anger, etc. These are thin-material parasitic forms of low-frequency plasmoid creatures. They also incarnate spirits from various levels of the Spiritual World (most often from low ones) in order to learn their specific lessons on getting rid of low qualities by processing negative energies embodied in the dense material world of creatures, including people. In aura photographs they may look like crabs, octopuses, or spiders. And like various structures, these plasmoids are also intelligent. They make attachments to a person who matches their vibrations. They can feed and exist in the human aura. They may not even be nearby all the time, although this is not excluded. Binding is a certain channel of communication between a person and the civilization that supervises him. A curator can be either low vibration or high vibration. We saw high-vibration ones in previous photographs. And those in the picture are low vibration. And here we have a sad picture - a destroyed aura, the processing of his life force into the life force of a plasmoid. But here I want to emphasize that according to the law of energy exchange, which was invented by the Creator of all worlds, any plasmoid, whether parasitic or not, always releases its own in response to the absorbed energy. This is the law of energy exchange. And this energy, which the plasmoid emits, reaches the contactor. But due to the fact that the plasmoid is low-vibration, it is clear what quality of energy reaches a person. But this energy may not be absorbed by the aura, because... in terms of vibrations they may not coincide. The plasmoid is embodied in a subtle-material body, and the contactee is embodied in a dense-material one. The plasmoid has higher body vibrations than this woman. This happens when exchanging energy with different beings. And in this case, we have the

fact that the aura is destroyed, there is an outflow of energy. Such a person is in negative vibrations, which may not be clearly manifested in his behavior, but may be hidden. A person can restrain himself, be depressed for a long time and not say anything to loved ones. Due to the fact that a person spends part of his energy on worries, restrains himself in various situations, a huge amount of energy also goes there, and he becomes energetically exhausted. As a result, his immunity decreases. And viruses, microbes, simple fungi, and our own cancer cells, which exist in all people, suddenly begin to become active in the body, because the immune system no longer controls them. This is how various diseases are formed, including cancer.

Michael: Sophia, was she diagnosed with cancer?

Sofia: No, no cancer was detected, she was completely healthy.

But in the next picture we also see small crustaceans in the fingers (at the bottom of the picture), although cancer was not found in this man either. But he is deeply depressed.

Irina: As a rule, it is through the arms and legs that the energy flows. Energy exchange occurs through fingers, palms, eyes, soles of feet. And all the structures are reflected there in the same image that exists in the field in general. Perhaps this is a reflection of the fact that this person is already associated with the plasmoids of this civilization. He was already depressed, and this is how he attracted them to him. Each contactee attracts curators to them based on their vibrations. But these civilizations cannot be blamed for being the cause of his illness. Even though they are destructive, they take this negative energy from him, which is low frequency for him, and then process it. For example, it breaks down and is used to increase the fertility of the earth, to those natural processes that exist. If this energy in the form of negative emotions remained in his field in full, then perhaps his immunity would have fallen much earlier, and various diseases would have begun.

Maxim: He would have died earlier if this negative energy that he projects had not been removed from him. It brings negative and depressive energy into its field. And these destructive civilizations remove this from him, and he directs his life force to transform into this destructive energy, and according to the law of free will, he transforms

it from a single Divine light stream into this negative energy, which is then removed from him by subtle civilizations of not very high vibration levels that further direct it to Divine needs.

01:18:40 Connection of healing with positive vibrations, prayers and energy blocks.

Michael: Question from subscribers: You say that prayers heal cancer patients and even prevent them from getting sick, but when I was in oncology, there were women nearby who prayed five times a day all their lives.

Irina: Mead didn't say that. And Sophia did not say that it is prayers that heal. Firstly, cancer patients are healed by the positive vibrations that exist in a person. But external prayers and internal state do not always coincide. For example, as I already said, the same fanatic can quite sincerely read prayers, but this does not cancel his low-vibration state of irritation, for example, with people of other faiths. Another example. In the Middle Ages, inquisitors from monastic orders spent half the day in prayer. And in the other half of the day they destroyed heretics, occultists, etc. and burned them at the stake. And I will not say that their prayers were insincere. This is wrong. They truly believed that they were doing good. This was their idea of goodness, which corresponded to their vibrations, their inner spiritual level. Those. the very prayers, the very rituals of any religion may not change the inner nature of a person in any way if the reasons for his negative emotions that are in him are not identified. Unless they are realized and transformed into light. If a person prays and at the same time condemns another for not praying, if he is proud of his spirituality and gets irritated when he is contradicted, this already lowers his vibrations. Even if we take a simple believer, the same woman who goes to church, but is offended by her husband or children who do not allow her to go there. Imagine that this woman is offended by them, but cannot express her offense and carries it inside herself for many years. This will contribute to the accumulation of such an energy block, which can lead to the growth of tumors, even without being tied to low-vibration plasmoid civilizations.

Maxim: I would like to give one example. While we were working on a retreat, a woman with cancer came to us. She began to say that she loves all people, reads prayers, goes to church, and then suddenly

began to say what freaks everyone is. Those. the person does not realize that while she loves everyone, she hates them. This is already built into its structure. It is necessary to explain the root cause of this destructive emotion, which does not make it possible to be in the light and not get sick. People sometimes don't notice this themselves. Therefore, prayer is just a convention. The main thing is your condition and your behavior in society, at work, at home, in the family, etc.

Irina: In many civilizations of the Interstellar Union, any religious rituals, mantras and other ways of expressing love for the Almighty are not accepted at all. For example, on the planet of Irina's curator, Kirchiton, there is not even the simplest form of religion. They do not turn to God in prayer. When talking with the Daraals (they are now present in the astral field), they say that the best prayer is the kindest word to your neighbor, and the most important ritual is the deed that you do for him.

Sofia: Our earthly religions are paths of ascension to monotheism, the only God, the essence of which is love. We must come to this, but we are still at the stage of growing up and understanding. Prayer and its meaning are important, and there should be no evil, pain or resentment inside. Through Kirlianography, I received confirmation that they teach us the correct prayers, which boil down to us reading three times a day, and in Islam 5-6 times, prayers that are recharging our energy field, a source of energy for the normal functioning of each organ. In the book "Calendar of Soul Salvation" I read that Jesus was not yet supposed to leave the Earth. He was supposed to live on Earth for several more years, teach people to pray, but did not have time to do this. One prayer, read in the morning or evening, or even just on a holiday, is extremely small, because... we must recharge our energy frame all the time. What is the opinion of our space friends on this topic? After all, there is one God, but there are many religions, and they don't really agree. Someday, perhaps, we will come to a single religion, the religion of love, the religion of the Sun. And it is surprising that you, dear mentors, have an understanding only of love, but no understanding of the absence of various gods and ways of attracting their energies.

01:27:20 Karma is the totality of the experience of incarnations of the intelligent Spirit plus the experience of the physical body. Formation of the body in the material world and the light of God.

Michael: Sofia, I'll add. One of the subscribers says that some people live long lives and do not get sick, while some have been sick since childhood. There is either a karmic reason or a psychosomatic one. Most likely karmic. It turns out that prayers do not play any role here. You can pray day and night, but it won't change anything. What's done is done. And in the East this is how it all is explained. But praying not to get sick in your next life is the next question.

Irina: According to the teachings of the Interstellar Union, karma is not a static, but a dynamic process. Karma is the totality of the experience of incarnations of the intelligent Spirit, which has incarnated in all worlds. Plus the experience that he has in his real life, the experience of his real body, its form in which he lives now. Karma accumulates and is transformed only during incarnation. Any change in karma, qualitative experience, is possible only in combination with matter, because in the Spiritual world there is such a concept as the eternity and immutability of spirits. Those. when we leave incarnation for the Spiritual world, we are there in the state that we achieved during our life in the body, which Krishna told us about. Whenever you think about leaving your body, you will achieve it in the next world. This is the last state. The essence of karma, as the experience of the physical body, as a reflection of the experience of this karma at the present moment in time, suggests that karma itself was not invented to punish careless, disobedient spirits. Or they think that if a person has committed bad deeds, if he has sinned before God, then he must undergo suffering in order to cleanse himself. No, the point here is different. By lowering its vibrations, the embodied Spirit creates its body from those types of energies that are in itself, which it was able to accumulate over all its incarnations. So he incarnated, through the etheric body he created the physical, which is a reflection of the etheric body. Then the person grows, adapts to this world, body, parents, world, environment. Then, at a conscious age, he has freedom of choice. He begins to realize his actions, because... he has accumulated enough experience in this body to enable his self-awareness. This happens at different ages. But usually among earthlings this happens at the age of 7-8, when the child goes to school and begins to realize what is good and what is bad. And from this moment on, his formation of karma, which was started earlier, continues. And, in accordance with the formation of karma, a change occurs in his physical body. He continues to create himself every second. You yourself are like a part of God. You created your body the same way God created the Universe. The body is a reflection of the image of the entire Universe. And you are the image of God. Have you heard that you are the image of God? What you called

the karma of the formation of illness is explained by the fact that the body is not formed in the light of God, not according to the rules of God, not according to His laws. We create our own body. Can this be called working out? This is a lesson, but it is not given for punishment or revenge. It is given so that the Spirit realizes what he has done and can make the right choice by going through these lessons.

1:34:02 The influence of human vibrations on viruses and immunity.

Michael: Can we command our energy to stop the virus?

Maxim: As a psychologist, I would like to immediately emphasize the word “order.” We cannot order anyone. This means that you are trying to dominate and rule over someone, and this is no longer in the light of Divine love. MidgasCaus will explain further.

Irina: You can’t order. But you can stop the spread of this virus on the planet if at least 70% of earthlings raise their vibrations so much that they stop being afraid of it and accept it, too, as a divine creation. After all, that's who he is. The plasmoids that created group souls for this virus are also pieces of God, the same sons of God as you. If you stop emitting negative energies towards this virus and its spreaders, and accept everything in the light of God, raise your vibrations so much that you have neither fear nor hatred for anyone, including the virus, then a qualitative change will occur immune status of people, and they will become immune to this type of virus.

Broadcast on 26.08.2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Center for Spiritual Development "Cassiopeia";

Michael Melikhov – guest;

Sofia Blank – guest;

The curator of MidgasCaus from the planet Esler is a biologist, psychologist and specialist in alien civilizations;

LiShioni from the planet Shimor is a specialist in the astral world and its interaction with the material world.

#132 Chipping and 5G. Is it possible to implant chips through a vaccine?

https://blog.cassiopeia.center/chipirovanie-i-5g
https://www.youtube.com/watch?v=m6BtF0s7cCo

Sofia Blank: Next, vaccinations are a stumbling block. They inject heavy salts into these vaccinations, whatever they want, they inject them, now they are introducing chips into these vaccinations. You understand?

Irina: Vaccinations. MidgasKaus answered this question. In principle, he sees nothing wrong, but this is in those vaccines that do not contain anything that you just named.

As for chips, everything is more complicated. We recently spoke with Raom Tiyanom from Burkhad. I already have chips that were installed by aliens, they are physical, they physically took me to another planet and installed three chips, first one, then two more - already the Eslerites. These chips consist of such technology that they do not require an external battery. To power themselves, these chips take

energy from the human cells that are around them, from the tissues that surround them. But we don't yet have a technology that could create these microdevices without an external battery. We already have chips, for example, for children and animals. If we don't want them to get lost, we take bracelets or something with a chip. Or, for example, convicts who must remain at home before or after trial, the so-called house arrest. They wear a bracelet with a chip on their ankle, which is made of metal and cannot be damaged. If they move 100 meters away from the house, the chip will work, this will be reported to the police station, they will be given a large fine, or even put in prison. But the whole point is that these bracelets and these collars already have a battery to power the chip, like a battery. But you can't put a battery in a person.

Sofia Blank: Chips that are in the size of nanoparticles.

Irina: They still must have a power source, like any device.

Sophia Blank: Well, are they powered by the 5G system?

Irina: 5G has even less energy intensity than 4G. If 4G has 500-600 watts of electrical energy to create a centimeter wave, then 5G creates a millimeter wave, meaning the vibration is higher. In any case, they must expend electrical energy to create these waves. Less energy is wasted because the vibration is higher, the frequency of oscillations of electromagnetic waves is different. Therefore, less energy is needed; if you power the chips with it, it is better to use 2G or 3G directly. They have more energy.

Physicists explained to me that even if you make a chip from solar panels, there is still no understanding of how it will be powered by energy. After all, we have solar batteries, for example, a calculator, it runs on a solar battery, please, a chip can also be made like this. But if you put a chip in a person's body, how will you light the sun there? Then the person needs to put some kind of cap on his head with a solar battery, so that he is somehow fueled and walks the streets like that. Or paint his skin with paint that catches these waves. Nobody will do this. In general, there is a lot of useful and interesting information about chips in the film "Artificial Intelligence".

The aliens said that their nanotechnology makes it possible to make organic chips that our equipment (X-ray, ultrasound, etc.) cannot detect. They are integrated into the human cell system, disguised as blood vessels, nerves, and so on. Their chips can feed on the vital energy of cells, which is restored through nutrition and breathing. They consume so little energy that they can operate on it. They can transmit information in the frequency range on a quantum-carbon connection about where exactly a person is located, moving, and also transmit any information to him.

28.08.2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Sofia Blank is a doctor, researcher of plasma fields of humans, plants and stones based on Kirlianography.

#135 Chipization, vaccination. 5G - a threat or a natural development of civilization

https://blog.cassiopeia.center/chipizaciya-vakcinaciya-5g
https://www.youtube.com/watch?v=7FltypJkTPw

00:00

Maxim : Hello everyone! We have a very interesting broadcast today.

Irina : Greetings!

Maxim : Friends, please give us feedback - how can you hear us? We're using a new microphone today.

Irina : Hello, dear friends! Today we have a very interesting topic. Representatives of the Interstellar Union have already arrived. Raom Tiyan is next to me and he asked me a question about 5G.

Maxim : We are now going to recruit an audience, we need to gather 500 people, and then we will start answering. And who is present with us today: Raom Tiyan and MidgasKaus?

Irina : Yes, and LiShioni is also present.

03:01 Intergalactic news. Formation of galaxies.

Maxim: Raom Tiyan, we always start with intergalactic news, please tell me what is the most interesting news over the past week in our Galaxy?

Irina: One of the intergalactic expeditions has returned, but not the one with which Kirchiton left, he will return later. They return by the cascade method, that is, they come out of an intergalactic jump, but this is not a gravitational, but some other engine, as if in a cascade one after another. This ship flew to a neighboring Galaxy from the one explored by the expedition with Kirchiton.

Maxim: What kind of Galaxy is this?

Irina: This Galaxy is visible only through the telescope that is in orbit. On Earth it is not visible due to the atmosphere.

This Galaxy is located in the constellation Monoceros. From it to the Milky Way, to our Galaxy, is about 320 million light years. The expedition with Kirchiton returns in a few days. The expedition brought with it studies of the stars of this Galaxy and found that it was of the wrong type, that is, not a spiral type.

In this Galaxy, the proportion of planetary systems is much smaller than in spiral galaxies. Of these, less than 30 percent are inhabited by any form of life. Of the intelligent life forms, 5 civilizations have been explored, but they have not yet reached the level of such awareness to go into space. This suggests that this Galaxy formed later than other spiral galaxies.

05:20 What is 5G? The effect of microwave radiation on humans.

Maxim: How dangerous are microwave emissions in the 5G range? How do they affect a person?

Irina : Why did you call 5G microwave radiation? There should be other frequencies there.

Let's understand the terminology. For each communication standard on Earth, which you call the Internet, that is, through which information can be transmitted, there are radio waves in certain ranges. For each base station transmitting information, there is a certain spectrum of

radio waves allocated only to it. The purpose of these radio waves must be precisely to carry information.

Typically, information, sound, text and video are well transported by long radio waves, as we see in television communications and radio. The shorter the waves, the worse they retain this information in space when they fly at a speed of 300,000 thousand kilometers per second, like any radio waves. But due to the fact that these radio waves are short, i.e. too high a frequency - the higher the frequency, the shorter the radio waves.

Too high a frequency does not allow information to be transmitted over long distances unless there are special devices that amplify it. Therefore, the Interstellar Union has long abandoned communications on radio waves. We have a different principle of communication, not related to them.

What do you call microwaves? You need to say a specific frequency. What do you use in the microwave? But this is practically infrared radiation. It will not be possible to encode information on it.

As for 5G, they are no more dangerous than other radio waves, they just have a different frequency, it is higher. It is not radiation because the spectrum of electromagnetic waves that can be exposed to humans lies well above the frequencies of the visible light that you see with your eyes. And 5G, like any radio waves, lies below the frequencies of visible light. They lie on different sides.

09:01 Can 4G frequencies cause headaches or migraines?

Irina: It’s not the 4G frequencies that can cause a headache, but the fact that a person simply uses the phone often and talks on it. These waves enter the antenna on the phone's receiver, causing it to heat up. This heating creates infrared radiation in the phone itself. It can heat nearby tissue. If you talk for a long time or put the phone to your ear, then local heating of the tissues is possible, which, for example, can cause an exacerbation of the inflammatory process. If you are without a phone or do not talk on it for a long time, then these waves do not affect you in any way - the frequency is too low to somehow knock out

atoms from your body, unlike radiation. The frequency of gamma radiation is much higher than visible light, and 5G and 4G, and all other radio waves, on the contrary, are lower than visible light.

10:37 Impact of 5G on bees and other insects.

Maxim: Does 5G affect insects?

Irina : Do you mean those insects that move in the air using ultrasound?

Maxim: I don't think so, I don't know.

Irina: Among your insects there are those that, with special organs, can pick up certain high-spectrum radio waves, with the help of which they navigate along the propagated radio waves - this can disrupt their migration if they do not have another way of orientation, for example, ultrasound.

Bats use ultrasound for this purpose, at sound vibrations higher than those perceived by humans. There are some hymenopteran insects that have an organ that can detect radio waves, for example, the same wasps.

Maxim : Does it affect bees?

Irina: Yes, bees also have an organ that can perceive not all, but part of these frequencies, and this can cause bees to be attracted to these antennas. But this can only happen if they are guided only by this receptor. But they also have receptors that are responsible, for example, for vision and the sense of smell. Bees are very good at smelling. They navigate in space thanks to the totality of information received from all senses, like a person, they just have different senses. Even if the bees fly to this antenna, and without smelling the flowers they are accustomed to, they will fly away. It will be in their memory that they don't need to fly there, but need to orient themselves to another place.

13:22 What chips exist on Earth, and can they be added to a vaccine? The concept of “chip” among aliens.

Maxim: Are there biological chips on Earth using our technologies?

Irina: What are biological chips?

Maxim: Let's ask people what they mean by the word “biological chips.”

Irina : Precisely chips made from biopolymers?

Maxim : In general, what kind of chips do we have on Earth? Is it possible to add a chip to a vaccine and administer it?

Irina: Nanochips.

Maxim: Yes. Is it possible to add a nanochip to a vaccine, inject it and somehow control this chip?

Irina : MidgasKaus says: “I, as a biologist, took information from laboratories on Earth that study nanotechnology. I studied their experience through contactees, through observation of them. There are also contactees of the Interstellar Union through whom you can observe. What I learned speaks that your industry cannot produce a chip smaller than one tenth of a millimeter, because it will be visible. I’m talking about a chip that will function.”

Raom Tiyan and MidgasKaus, as representatives of the Interstellar Union, understand the word “chip” to be some other devices than we have on Earth. Because here on Earth, a chip is a device that is installed to detect objects that themselves do not work, but simply read, like a code. They are also called a chip deposited on some kind of metal shell. And they call a chip a device that independently transmits a signal, for example, about location.

15:25 Are there chipping technologies in Burkhad? Reasons for panic among earthlings about chipization, vaccination and 5G. A way to get rid of fears.

Maxim: Do you have such chipping technologies in Burkhad to introduce a nanochip into the vaccine?

Irina : Not in the vaccine, but in the injection, do you mean?

Maxim : Yes, by injection.

Irina: We even have technologies without injections - we simply place them with a laser beam, as they did for Irina. Of course, we have such technologies.

Maxim : Who, then, according to your version, benefits from creating panic about chipization and vaccination?

Irina: According to our version?

Maxim : Yes.

Irina : Judging by the research of earthly egregors on this topic, this is beneficial to those forces that want a greater percentage of the energy of condemnation and fear to be present in the Earth's noosphere than of working on themselves, on their blocks and on their emotions. That is, these are the forces that are not interested, firstly, in joining the Interstellar Union, and secondly, are not interested in moving towards the Light. Because developing love in yourself is the destruction of all fear and condemnation of anyone.

The fear of new technologies is not new to you now. This develops among that part of the population that is afraid of change. Only a person with such a psychology can create such an idea or already believe in an idea created by someone else. When any new technology was introduced, be it telegraph, radio, telephone, railway train, there were always people among earthlings who argued that it

was harmful and should not be used for various reasons.

We believe that such people are born on Earth who do not go through this lesson in order to learn to accept new things. In general, such people have always existed. In the era of the entry of mobile phones, with the technology, as you now call 2G, remember how people talked about the research of scientists that being near this phone will cause, for example, cancer or brain irradiation, a decrease in mental abilities.

You need to understand that the Interstellar Union is quite tolerant of this, that is, it understands the reasons for these fears. This is the activation of your instinctive nature. Any fears are a manifestation of the instinct of self-preservation in one form or another. And we understand that this is human nature. But at the same time, Raom Tiyan says: “I urge you now to turn to your spiritual mind, turn to your Spirit, to the disembodied part of the Spirit and ask: “Am I as a being mortal? Am I, as an entity, mortal or immortal?" If you enter the state of Spirit, you will no longer be frightened or aroused by any external waves or any devices, no matter where they are installed. You will know that you are free and the immortal intelligent Spirit who came into this life not just to give birth to children and build a house, but in order to develop his soul, develop a feeling of love in it and become like God!

20:05 Are grays and reptilians involved in microchipping and vaccinating people? Ways to destroy the human race.

Maxim: Raom Tiyan, there is a version that the grays and reptilians are involved in the transfer of chipping technology to our governments. And what do you not know that we have such technologies, and the grays and reptilians gave them to us in order to chip people. Could this be possible?

Irina : I could assume this if I knew exactly for what purpose these hypothetical groups of so-called grays and reptilians went for it. What is their benefit and what is their interest in the fact that part of the population on Earth will be chipped? Moreover, it will be chipped by the power structures of the Earth, which do not intend to enter the Interstellar Union yet.

Maxim: There is such a version that we have a golden billion, and with the help of this chipping they want to destroy the human race, so that they can then populate the Earth with other alien races such as grays and reptilians, is this possible?

Irina : It is possible to destroy the human race without any chips and without radiation. To do this, it is enough to cancel vaccination for the most dangerous diseases and release the corresponding virus through the water supply systems. There is no need to invent anything new here. Everything was invented long ago before you in ancient China.

When the attackers threw a pig carcass infected with plague over the wall into a besieged fortress. But this is without taking into account chemical methods of influence, for example, there are toxins and poisons that act over a delayed period of time. There are special parasitic diseases that are passed on from generation to generation. They can be distributed with the same tablets, but if you are really interested in this. It is possible, for example, to add organ-damaging toxins to the most common types of medicine or even to water intended for civilian drinking. This can be done much cheaper, more efficiently and faster than with chips or any other weapon. Here the question also arises that the one whom you called the “golden billion” will not be able to independently create and maintain the infrastructure for their living and development on Earth in the future if they destroy the entire population.

23:03 Did 5G technology exist on other developing planets?

Maxim: Raom Tiyan, did other planets that developed ever have the kind of 5G technology that we are currently developing?

Irina: As far as I have studied the documentation available to the Interstellar Union for the implementation of these technologies, you have 5G - this is communication, as far as I remember, at frequencies of 28 GHz?

Maxim : To be honest, I don’t know.

Irina : Who is responsible for distributing Internet communications, what are they called? Mobile operator, right?

Maxim : Yes.

Irina: Those people whom you call cellular operators distribute Internet communications among you. There are a lot of these companies. They asked your Government, the President, and representatives of the Duma for much less frequency for 5G. Because to distribute them it would be necessary to install fewer devices.

The higher the frequency, the harder it is to transmit it further - more devices are needed. They told your Government: “In order to build these devices, they do not have enough funds and do not have the necessary equipment, etc.”

Maxim: Raom Tiyan, do you have contacts in Japan?

Irina : Burkhad - yes. For me personally, no.

Your President and the Security Council refused to provide mobile operators with a lower frequency, i.e. from 20 to 28 GHz. Because the frequencies that your cellular operators requested for 5G are already taken. Initially, they are occupied and actively used by your military structures. That is, those military satellites that are in space photograph certain areas of the earth's surface and communicate with each other at these frequencies, sending information to headquarters at these high frequencies. So they are already in your world. And, not only that, as far as I have heard, in Moscow there are already devices that operate at 28 GHz. They may not be so common, but such practices already exist in the world.

26:24 Is there a threat from 5G to the people of Japan? Comparison of the influence of 5G and 4G waves.

Maxim: I asked about Japan, because 5G has been used there for a long time. Tell me, please, how does this affect people there? Is there any threat to people in Japan who have been using 5G for a long time?

Irina : Is there a threat to people in Japan?

Maxim : Yes.

Irina: These are ordinary radio waves. If we look from the point of view of the impact on humans, then 4G spreads much further and carries more energy due to this. To emit a radio wave, you need to expend energy - electrical in your case. So, 4G radio waves, due to their lower frequency, travel much further and have great penetrating power. That is, they penetrate, for example, through walls much better than 5G.

In terms of range from the emitter, 4G travels much further than 5G. This means that if you see a danger in this, then 5G, on the contrary, is safer. Or what do you see as the danger? There are already about 4 million users in South Korea.

Maxim : That is, 5G?

Irina: Yes. They were one of the first to start building them. South Korea, North Korea, Hong Kong are among the first to introduce new technologies.

28:09 Using chips on the planets of the Interstellar Union.

Maxim: Is the population of the Interstellar Union microchipped?

Irina : It depends on the planet. I already said last time that any resident of Burhad may or may not do this. It is completely free, available for different purposes. But if he does not want to do this for some reason, then he may not do it.

Maxim : That is, some can be chipped, some can not be chipped - at will.

Irina : On Esler, nanochips are introduced at birth.

Maxim : What do they give, why are these chips introduced at birth?

Irina: For personal identification, for communication, that is, like your Internet, but not 4G or 5G, but a kind of communication that you call neutrinos or gluons. These are particles that you call energy waves. And information is also transmitted there, just like on your radio waves. These chips are connected directly through the body's receptors to the global network - the Esler Internet.

29:25 Spiritual level of Kirchiton.

Maxim : I would like to remind everyone that we have a running program on Instagram for calculating the spiritual level - Cassiopeia__level. We will have a link after the live broadcast below where everyone can calculate their spiritual level. Irina, do you know what spiritual level Kirchiton has?

Irina : Eighteenth. At birth I was level 18.

Maxim : I see.

29:56 Vaccines that can cause harm to humans.

Maxim: Can a vaccine be used to harm a person?

Irina : Of course, if the vaccine is made incorrectly, in violation of technology. It depends on what vaccine. If it is a live vaccine, you may not need to reduce the dose of the antibiotic, an antibacterial substance that weakens germs. And then they will be too virulent and infect this person, that is, they will cause a real disease in him. Or, on the contrary, you can put too much of this antibacterial substance into the vaccine, and then the live vaccine will die and will not cause sufficient immunity. There is a production technology for this, they monitor it.

30:52 The need to obtain consent for physical contact and installation of a chip.

Maxim: Is it possible to install chips without a person's consent? Could alien civilizations install a chip?

Irina : Do you mean, according to the laws of the Interstellar Union?

Maxim : Yes.

Irina: According to the laws of the Interstellar Union, a person must be asked for consent before installing a chip. Do you mean the physical chip?

Maxim : Yes.

Irina: To install this chip, physical contact is needed. Consent is required for this contact. According to the law of the Interstellar Union, physical contact is first invited. They appear in front of a person on a spaceship, and if they see from his field that he is ready for contact, that is, he shows interest, a desire to fly with them, then they go out and start talking to him, if there is an opportunity to go out. This may not be possible in all areas. When there is no way to get out of the ship, then they send a beam - usually an anti-gravity one - and take the person onto the ship. They are already talking on the ship. In any case, the Interstellar Union specialist sees from the aura that this contact is desirable for the person. And then they ask about the chip, and whether he agrees to be a contactee.

Maxim : Guys, if someone applied for a spiritual level calculation and did not receive the information, be sure to find me as an administrator in the VK group. Write me a private message. We count on everyone, it was some kind of technical problem.

32:44 Reasons for the lack of interest of ufologists and scientists in information transmitted by aliens through Irina Podzorova.

Maxim: Why doesn’t Irina cooperate with scientists? Why aren't scientists interested in this?

We have repeatedly reached out to various ufological communities, but, unfortunately, they do not need the information that Irina conveys. They need direct evidence: photographs, objects, some kind of ship wreckage, technology and everything else that the Interstellar Union does not provide.

Regarding scientists. They are afraid to get in touch with Irina, because our science recognizes such contacts as diseases, and sometimes it is impossible to get in touch with normal scientists. They are afraid for their reputation. We work with some scientists who agree, and sometimes we host conferences. We are ready to cooperate with any scientists who may ask their questions. But, unfortunately, not all scientists are ready for this.

34:27 The need for consent of all countries of planet Earth to join the Interstellar Union.

Maxim: Can one of the countries enter the Interstellar Union, and the rest not?

Irina: No. Only the entire planet enters with the consent of all countries, that is, the entire planet must give consent. For the Interstellar Union, you are one world.

Even the plasmoid civilizations that exist on Earth are already considered earthlings and are embodied in the same space as you, just at different levels of density, and even more so in different countries.

Maxim : Guys, regarding landfills, I’ll tell you this: no one dumps anything here, we ourselves have turned the planet into a huge landfill. We have megatons of garbage floating in the oceans, there is no recycling in most countries that bury garbage in the ground. That’s why no one dumps anything on us, we ourselves have turned our planet into a dump!

35:24 Is it possible to increase the level of embodiment during life and by how much?

Irina : Of course, you can increase your embodiment by any number of levels during your life, just as you can lower it. It all depends on the level of awareness and willingness to work on developing love in oneself, on developing light, kindness, compassion and other qualities that raise vibrations.

35:52 Is it dangerous to live near a TV tower?

Irina : Television broadcasting has a very high penetrating power of radio waves. There are just fewer frequencies than even the cellular communications, Internet communications that you use - 4G, different frequencies. Television broadcasting is lower in frequency, it travels much further - beyond the visibility of this tower, many tens, or even hundreds of kilometers. Because it is further amplified by the ionosphere.

No matter where you live, your body will receive radio waves in almost the same way. This is proven by the fact that when you install an antenna that receives this particular spectrum of radio waves at any distance, you receive these transmissions very well. Because radio waves already exist almost everywhere.

36:57 Does a tin foil hat help against radiation?

Irina : Which one exactly?

Maxim: Well, some kind.

Irina : No. A tin foil hat helps calm you down if you are afraid of radiation. But this is actually not a solution, because you need to recognize the causes of fear, what exactly causes fear. And most often it is the activation of the instinct of self-preservation, which manifests itself through the body. That is, this is a violation of the first chakra. Methods such as tranquilizers, antipsychotics, as well as self-hypnosis or outside suggestion may be ineffective. Violation of the first chakra

can cause further diseases of the physical body and destruction of the aura. The person will begin to develop other negative emotions that are no longer associated with fear. Therefore, it is important to recognize the cause of fear. Most often it is fear for your life, for your health. That is, this is one of the forms of perception of materialism.

38:15 Why did cockroaches disappear from people's homes?

Irina : Because of what? No, they haven't disappeared. I have witnessed in some houses how they feel very good with any cellular or Wi-Fi connection. Maybe you had a sanitary and epidemiological station in your house? Did someone call her?

Maxim : Guys, it’s just that now the means to fight cockroaches are very powerful, and one infected cockroach can completely destroy an entire family. The cockroaches disappeared because they began to fight them.

Regarding my spiritual level - at birth, when entering this body, I was 16. Now I don’t know. It will be clear only when you leave this incarnation.

39:07 The harm and benefits of vaccinations. Vaccination is a training for immunity.

Irina : Mead says: according to indications. If a person believes that there is a danger of infection with a specific virus or bacteria, and this is quite dangerous, then vaccination is useful as immunity training.

Basically, this is immunity training. A vaccine can be harmful only if there is an allergic reaction or intolerance to it, but this can be to any product, to any medicine.

As for vaccines, when you are not allergic to them, they can be harmful if not made correctly. They are useful for training the immune system and preventing serious illness in the future. Because there are real studies by your scientists that prove the effectiveness of vaccination in interrupting epidemics of various diseases. That is, there were more

epidemics before, when there was no vaccination.

40:42 Impact of 5G on bees. Causes of death of bees.

Question: Why did bees disappear in Wuhan?

Maxim : Guys, we don't know why the bees disappeared in Wuhan. There is a laboratory there, it is both biological and, in another sense, military. Why the bees disappeared there, whether because of 5G or not, we don't know.

Raom Tiyan, could bees disappear when 5G is turned on? Let's say there are bees in Japan with 5G turned on?

Irina: There are bees in both Japan and Korea, where 5G has been working for quite some time.

Maxim : So, bees are not disappearing because of 5G?

Irina: Perhaps they used some particularly toxic pesticide. Or the fungus that reduces the bee population has spread in the hives, and this hive was not treated with an antifungal drug in time. It has spread and given them a disease that reduces their fertility. For example, when a bee lays eggs in a honeycomb, the fungi infect the honeycomb itself, and no one hatches from it, this population disappears. It is developed in hot countries.

Maxim : That is, we need to figure out why the bees disappeared in Wuhan.

Irina: It could have been an infection or poisoning from pesticides. Bees feed their larvae with nectar, pollen, which they collect from flowers. If they collected pesticide that the wind carried from a nearby field, or simply collected pollen from already poisoned plants, they could bring it to their children and poison them.

Maxim : Guys, we didn’t have any 5G in the Voronezh region, and we had a huge pestilence of bees. Because they began to use European and Western pesticides, which destroyed a huge population of bees. We had a huge bee death, so it's not 5G.

43:26 Changes in the physical condition of a person with increasing vibrations of the Earth.

Maxim: Irina, now many inhabitants of the Earth are experiencing some kind of chest pain and sleep disturbances. Is this some kind of transformation or transition to the fifth dimension?

Irina: Perhaps this is due to the increase in vibrations of the planet Earth, the increase in vibrations of quanta and the quantum transition in the atoms of all elements, as well as in the hydrosphere, lithosphere, atmosphere - in all shells of the Earth. That is, these are the shells from which your physical bodies are composed. There may be inconsistency in the work of various organs, but all this can be harmonized by the correct attitude of the Spirit towards development - the elimination of fears, condemnation, including oneself. Because condemnation and feelings of guilt only contribute to lowering vibrations and do not at all contribute to working with the error that causes this feeling of guilt.

Maxim: They ask where is our new curator?

Irina : We didn’t invite him.

Maxim : We just arrived from Moscow and St. Petersburg. We have little rest and are very tired. The new curator has not yet been invited to work, but next weekend we will try to do a live broadcast with him. There he will answer any of your questions. In the next broadcast you will find out everything: who the curator is, what planet he is from, what he does. Wait, next Sunday at 20:00 there will be a broadcast with our new curator, where you can ask him any questions.

45:23 How to diagnose yourself for the presence of chips?

Irina: You can ask the Higher Self. A chip is already a contact, longer and more tuned than for those who do not have chips. When you have made contact with your Higher Self, ask: “Am I a contactee?” If the answer is “yes,” ask the question: “With whom and when did the contact begin, what is its purpose?” If it is a humanoid civilization, ask: "Were you chipped physically, energetically, when and for what purpose?"

46:13 What kind of radio communication do aliens use?

Irina : On the planets of the Interstellar Union, although superluminal communication speeds are not required there, due to the fact that it is very inconvenient to transmit a large amount of information on radio waves, we also use the same interstellar communication. You have quanta like gluons that you have discovered. It is on the construction of gluon chains in a certain sequence, in which text, video, image or audio can be encrypted, or even all together, that our communication as a receiver and transmitter is built in space.

47:11 Did the Prophets of the Earth have chips? The influence of the presence of a chip on contacts.

Irina: Some - yes. They were physical contactees. That is, not everyone had chips, but only those who had physical contact. There were also those who made contact without chips.

Chips facilitate contacts to transfer information. Moreover, we have chips that can be configured for any civilization, both humanoid and plasmoid type. And also for the perception of vibrations of the Spiritual world.

47:51 Did Jesus Christ have a chip?

Irina: No. He had no need for this. His level of consciousness, the level of his Spirit, is 24. He was the firstborn son of his father and never lowered his vibrations below the level that only 20-30 people on Earth can achieve and no more than that. Therefore, he heard and saw very well the Spiritual and subtle world without chips.

48:35 Do aliens use batteries based on chemical processes?

Irina : Batteries that store electrical energy?

Maxim : Yes.

Irina: Electrical energy in your form is practically unknown here, especially alternating current. Some processes require direct current, but there are no batteries, but like a shiny ball. There's a mercury compound that creates a separate electric and magnetic field - it's more like generators. But we don't need to store it, because we can extract it at any time from the energy of hard radiation from stars, for example, which is found in a planetary engine.

49:41 Do reptilians have the right to kidnap people?

Irina : Naturally, according to the law of the Interstellar Union, they had no right to do this. But due to the fact that in the civilizations of the Interstellar Union various kinds of spirits can incarnate and can increase or decrease their vibrations, as in any material world - even in a plasmoid or humanoid one. They have the free choice to commit these actions, which the law of the Interstellar Union calls a crime.

50:26 What can lead to death faster? Disembodiment.

Irina : What leads to death most quickly is completing the task with which you incarnated here, or vice versa, that you have moved away from completing the task. Such a departure is a lowering of one's vibrations. Your spirit guides see that you will need to interrupt your incarnation so that you do not lower your vibration too much.

Quick completion of your task can also lead to death, when your Spirit becomes highly vibrational, such that its embodiment is necessary in another world. For example, if you have reached level 22 - you are a consultant, then spirits of a certain level will need your consultations. Then you may be disembodied and assigned to this work.

51:35 How much do chips hinder or help contactees in everyday life?

Irina: What?

Maxim : Do chips help the contactee in everyday life?

Irina: How is that in everyday life? What example?

Chips are needed for contact, observation, to increase sensitivity to the subtle and plasmoid worlds, to the astral world. With them, for example, it is easier to tune in to studying a person's aura and look at it.

Maxim : Do I understand correctly that they increase the abilities and capabilities of the human body in some cases?

Irina: Yes, they can increase it.

52:22 Can chips extend a person's life?

Irina : Extend life beyond what period assigned for incarnation?

Maxim: Yes.

Irina: That is, if the period of incarnation in the Spiritual World is known, is it possible to extend it further with a chip?

Maxim : Yes.

Irina: No. If the period of disincarnation has already been set, then it can be extended not by a chip, but by the decision of spiritual guides, the angels of a person. If they decide that he performs his tasks here so well, but in the Spiritual or other world he is not yet needed for

incarnation, then they decide to leave him here so that he can do as much in this life as he had planned for several lives.

It also happens that a person lowered his vibrations and followed the path of destruction. He had several warnings that he would be disembodied: he could have terrible dreams, disasters could occur that were dangerous to his life, but he was not taken away. He decides to take the path of spiritual development, begins to raise his vibrations, his level of awareness, and then the deadline for disembodiment approaches, which he set for himself during incarnation. But his spiritual mentors see that he has already embarked on the path of raising vibrations, but in the past he did not fulfill his task. Then they may decide to leave him to finish his job.

54:13 Have the prospects for the Earth's sooner entry into the Interstellar Union improved thanks to Irina Podzorova's contact and the Cassiopeia project?

Irina: Wow! What an interesting question! Who asked this?

Yes, I think they have improved, because the level of awareness of earthlings has increased, especially in the direction of a positive image of aliens. Irina managed to create a positive image of an alien in human society. And with this, her image comes into conflict with the image that is created by your media, your television channels. That image of an alien who comes to destroy your civilization, to conquer you. All these fears are caused by an excessive focus of your attention on the material world, an increased tendency to pay attention to the instinctive forms of your behavior and your emotions. That is, someone who is a stranger to earthlings is always suspicious. Because you have not yet overcome xenophobia even towards foreign people. For example, if among the Russian population there lives a family with a different skin color, with a different language and a different religion, in many cases this will cause suspicion of their integrity, and any of their actions will be examined through a magnifying glass not in their favor. What can be forgiven to a Russian person, his compatriot, is perceived more sharply by a foreigner who differs in skin color and religious beliefs. Yes, and not only among Russians - this is the case in almost all societies. Here we are talking about earthlings, and if we talk about aliens, then the situation is even more acute. Since for some reasons of a technological and military nature, caused by the actions of your

scientific, public and military circles, we are forced to make only secret contact. And this only aggravates our suspicion of something not good. But I want to assure you that mass contact at the present level of consciousness of earthlings, with the current level of development of weapons and destructive political ideas, will cause even more dissonance in your society.

57:59 Forced chipping of a person in childhood without his consent. Possible reasons for chipping.

Maxim: We have often encountered such questions. And every time we deal with these nuances. Your consent could simply be a desire to see a flying saucer. Perhaps there was a message that I would also like to fly. Therefore, you need to look through the Higher Self. Did you give consent at the time when these chips were installed on you? This question is very ambiguous.

58:30 Is mercury dangerous for humans?

Irina: Metallic mercury is not toxic unless the dose is too large. Its combinations with other substances are dangerous. Yes, they are toxic.

Maxim: Thank you. I won't ask anymore, the topic is very interesting.

Irina : Why don't you ask?

Maxim : Because our Government did not just ban mercury so that it could be used and they said that it was toxic.

Irina: Yes, you had reasons for the ban at the technological level. You can get explosives from it - this is a known fact.

59:16 What to do if there is no contact with the Higher Self? How to get into conscious contact with your Higher Self?

Irina: Actually, you are always in contact with the Higher Self. You mean what to do if this contact is unconscious, do I understand you correctly? How to translate it into conscious?

Maxim : Yes.

Irina: The first thing you need to do is ask yourself if you really sincerely believe in this. Because any doubts and mistrust reduce the sensitivity of contact with the Spiritual world. The Higher Self is the part of you that lives specifically in the Spiritual world. If you believe in the Spiritual World, believe that part of you lives there, and want an answer, then there should not be any difficulties, provided that you have somewhere to retire. You should physically relax and concentrate for a few seconds on some of your internal dialogue. Every person knows how to do this, because before you fall asleep, you also relax. Before this, you need to enter a state of inner silence, then contact will be easier.

What is inner silence? This is a state when, by an effort of will, you remove from the field of consciousness all thoughts that at that moment disturb you, frighten you, or cause you any negative emotions and memories. This must be done in a calm state. There are various ways. For example, there is the idea of entering your spiritual channel - this is a very good and widespread technique. As you sit, close your eyes and concentrate on the top of your head. Then mentally imagine that you are looking at yourself from the outside. Above the top of your head you will see some glow, a beam of varying thickness - this is your spiritual channel. Then you imagine that you are entering it, rising to your Higher Self, directly feeling the rise and mentally talking to it.

Maxim: Irina, thank you very much. Guys, if you yourself cannot get to the Higher Self, then there are specialists in our international center for spiritual development. You can write in a group, call by phone. We will also give you the phone number of administrator Alexey, he will help you decide on one of the specialists who will take you to the Higher Self.

Once again I would like to remind you that in the Cassiopeia center there are no prices for services. There is such a thing as donation - payment according to your heart, there should be an exchange in any

case.

Let's now ask the last question - this will relate specifically to chipization, vaccination and 5G.

1:02:38 Does Burkhad have nanochips? How many years have they been using them?

Irina: Yes, of course, they have nanochips. How many years have you had them? Raom Tiyan says that they were invented quite a long time ago, about 10 million years ago, even before joining the Interstellar Union. But they have become widespread perhaps over the last 250 thousand years.

Maxim: So they have had nanochips for 250 thousand years?

Irina: Yes.

Maxim : I see.

1:03:26 Are people poisoned by chemtrails? Are airplanes dropping chemicals to poison us?

Irina : Pesticides?

Maxim: No, chemtrails.

Irina : What is this?

Maxim : These are special substances that are aimed at poisoning people.

Irina : What?

Maxim : I have no idea who poisons people and with what.

Irina : Usually, if it's on the fields, airplanes spray pesticides or herbicides, less often antifungals. Antimycotics are antimycotic drugs against microscopic fungi that develop on cereal crops like barley, wheat and rye. Very often they are affected by the so-called ergot, which causes diseases in people; they are often treated for it.

Maxim : So you don't know about chemtrails and special means that are used to poison people?

Irina: Maybe you will use a different term. What it is? What exactly is gassed with or what?

Maxim: These are some special substances that are sprayed specifically to poison people.

Irina: Poison or maybe it's microbes?

Maxim : They write that they are poisoning - this is 100%.

Irina : What do they poison? What substance? It is necessary to take an air sample before and after the passage of the chemtrail. These are airplanes, right?

Maxim : Yes, a plane flies over the city and poisons people.

Irina: Take a sample and take it to an independent laboratory, you definitely have ones that determine chemicals.

Maxim : Guys, there are traces from military planes, the stripe comes from them.

Irina : This is a jet plane.

Maxim : Yes, this is a jet plane, what kind of a chemtrail is it?

They asked a good question: “How can I tell that I’m not crazy if I watch this broadcast?”

Irina: What?

Maxim: How can you tell a person that he hasn’t gone crazy while watching our video?

Irina: In the chat they wrote “silver iodide”.

Maxim : They write that it is sulfur.

Irina: Concentration. What sulfur? Sulfur dioxide? Sulfur is a powder that is in an aggregate state.

Maxim: Guys, please write what you mean by the word “chemtrails”?

Irina : Cadmium and nickel, their maximum permissible concentration, one-time and constant, they are known and are in special tables. Aliens do not remember them by memory. But you can always take samples. There are special devices that determine this and compare it with the maximum permissible concentration in special tables. This is all in the literature, you can find it on the Internet.

Maxim : In the chat everyone writes different things, some about the heavy metals mercury, some about aluminum and bromine. In general, does anyone understand what chemtrails are? I personally don't understand. Please write what chemtrails are and what they consist of?

Irina : They write about potassium cyanide.

Maxim: Yeah, of course, potassium cyanide.

Irina : How is it sprayed? It is practically useless to inhale it.

Maxim : White trails in the sky are left by jet planes, they look like clouds.

Irina : In the chat they write about heavy metals, bromine, steam.

Maxim : The list of substances is on the Internet, great. It turns out that someone came up with and wrote a list of these substances? Does anyone understand about chemtrails?

Irina: Who owns these planes? Let's go from the other end.

Maxim: Guys, this is indeed an interesting question. Who knows what a chemtrail is?

Irina : They write that a jet plane leaves a white trail. So after the car there is also a trace left - are there chemtrails there too?

Maxim : Chemtrails are chemical aerosols containing, among other things, aluminum nanoparticles. So are we being poisoned with these particles?

Irina : Some types of gasoline actually contain lead, so what now?

Maxim : They write that there are constant traces of airplanes in the sky. Yes, planes fly and leave a trail.

Irina : They launch rockets and check them - it’s all there.

Maxim : Guys, you are being presented with the wrong information. You are being intimidated. I understand from your answers that no one knows what chemtrails are, but everyone is afraid of them.

Irina : Yes, gold can be worn on the body and even in the teeth.

Maxim : You can even wear gold in your body, and titanium too.

Irina : For many centuries we ate only from copper utensils, so what?

Irina: Please tell me who owns these planes? Who sits in them?

Maxim : Bacteriological weapons - chemtrails. Great, but who took samples of this bacteriological weapon? Google it. Why Google it, tell us here. You keep asking about this.

Irina : They write that “they had to be taken out of the blood.” How did you determine that it was them you bred? And how can you determine that you have actually taken them out?

Maxim: Chemtrails are an American urban legend according to which the “occupation government” secretly sprays some “chemicals” from passenger planes.

Irina: Yes, I read it too.

Maxim : Guys, who took the samples? Who really knows what and who is spraying? And when is it sprayed?

Maxim : They write that “poison is added to the fuel.” Fuel itself is a very chemical element. Yes, it happens that planes dump fuel before landing. They have nothing else to do but spray expensive chemical elements on us.

Irina : They write that we work for the Government. You better answer who sprays the poison? Can you write it here?

Maxim : Someone write here, please, who is spraying the poison, and what kind of poison is it?

Irina: Who owns these planes?

Maxim : On kerosene. Well, what about kerosene?

Irina : Military? Which country? All countries? If in all countries the military sprays poison and all the people die, then there will be no one to ensure the life of these political forces. There will be no one to work in factories, make cars for them, sew clothes, etc.

Maxim : They told me that they want to destroy us. Why do you think then does our Government support programs to increase the population, such as maternity capital, etc.

Irina : They write that “we work for the dark ones.” Dear Claudia, those who work for the dark ones spread unverified rumors and scare the population, thereby reducing the vibrations of our planet.

Maxim : Could Covid have been sprayed? This is actually a good question.

Irina : Why spray it if it is transmitted from person to person, like any flu. So they sprayed the flu too?

Maxim : Okay, let's answer the last question.

Irina : Which Saturnian Satanists sponsor us? More details please. Did they come straight from Saturn?

Maxim: Are we sponsored by Satanists?

Irina: No, probably we are talking about those who spray. Did they come straight from Saturn? Have you seen them in person?

Irina: You write that chemtrails are sprayed on a flat Earth? Ah, well,

then everything is clear.

Maxim : Guys, ask the last good question regarding chipization, vaccination, 5G, so that we can answer within a scientific framework.

Irina : About the dangers of a microwave? What is GMO?

Maxim: These questions have already been asked.

1:12:53 The meaning of the concept “Mark of the Beast” according to the Bible.

Irina : Irina is given a decipherment by representatives of the Christian egregor, what John the Theologian had in mind when he wrote the 13th chapter of the Apocalypse, including about the seal of the beast.

I assure you that there is no talk at all about any physical or other devices: chips, phones, the Internet. The Bible is not about technology, it is about the state of the Spirit. All information was given at the character level. If you carefully read the text of chapter 13 of the revelation of the Apocalypse, you will see what is written there - the mark of the beast will be placed on the right hand of people who do not believe in God.

As you know, the chips are injected internally, if these are the chips you are talking about, they are injected into the body through vaccinations and various injections.

John the Theologian wrote that a seal will be placed on the hand, not inserted inside, but placed on the surface. Here we can already conclude that this is not the chip in the generally accepted sense that you are talking about. Yes, and the number 666 is also related to this seal, but it has nothing to do with the chip, since on it, like on a telephone, any number, any number can be put. There, in general, we are not talking about technology, but about the state of the Spirit.

What is the "mark of the beast"? First, you need to understand what a

“beast” is. The beast is a system of the noosphere, a system of egregors of the planet, which can create cataclysms, provoke wars, conflicts in families, etc. That is, a decrease in the vibrations of the Earth and every Spirit embodied on it, if he follows this system.

Of course, political, religious and military organizations can be included in it - like any egregor.

Maxim: Irina, I think it’s better for them to read in VK materials. There will be a transcript there. Chapter 12 has already been fully transcribed. We started deciphering chapter 13.

Guys, we don’t know who Julia Poe is in contact with, and we don’t have time to watch her materials.

Irina : With plasmoids.

Maxim: If Julia Poe has a desire to communicate with us, she will contact us. We won’t ask for it ourselves. Thank you very much for your questions, for supporting our project and for contacting our specialists. The purpose of the project is not to deceive you or mislead you. We don’t work for anyone, we don’t get involved in politics. We are a completely separate Cassiopeia organization that does not have the goal of intimidating people, giving false information and much more.

Now Irina’s receptions will be closed. The next receptions are possible only at the retreat in Loo on September 18-25, and, accordingly, personal receptions will be from September 26 to 30. But personal appointments will be booked two days before the retreat.

Most likely, we will post information about personal receptions in the Telegram group. Because a lot of people are signing up, and we don’t have time to accept everyone, so the registration will be spotty.

Once again I thank everyone, everyone who supports the project - thank you so much! I really feel your support, and Irina feels your support.

Irina : Yes, I feel it. Thank you!

Maxim: We will be opening a contactee school at the end of October. Next year I already expect to build a large center where we will be waiting for you all with pleasure.

5G exists in Japan, and no one is suffering from it. Vaccination is needed so that we do not die from the viruses that exist on the planet. Chipization is voluntary. Whether you want to be chipped or not. In any case, chips are our future, and each of you chooses whether to be chipped or not. No one is going to force you to be chipped.

We remove fears, increase love and move forward to the conscious perception of a new planet in new vibrations, as many say - in the fourth dimension, in the fifth dimension. We are still in the third dimension, we have a huge number of opportunities here to raise vibrations right now and cleanse our planet, at least of debris. We have polluted the entire planet. Well, at least from the garbage, and then everything else. Bye everyone! Thank you all so much!

Irina: Thank you everyone! Goodbye!

Broadcast September 6, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

MidgasKaus from the planet Esler - biologist, psychologist and specialist in alien civilizations;

LiShioni from the planet Shimor is a specialist in the astral world and

its interaction with the material world;

Raom Tiyan from the planet Burkhad is a specialist in energy interactions in the material world.

#136 Katya Lel and Irina Podzorova: details of contacts with aliens.

---

https://blog.cassiopeia.center/katya-lel-i-irina-podzorova-podrobnosti-kontaktov
https://www.youtube.com/watch?v=xXBM1ygJDJk

1:00 Greetings from Irina Podzorova, main questions from Katya Lel.

Irina: My name is Irina Podzorova, I have been a contactee with extraterrestrial civilizations since I was 13 years old. I think you know a little of my story.

Katya: Unfortunately, I don't know your personal story, but I have heard your interesting conversations.

Irina: The purpose of our meeting today, as I understand it, is to find out what happened to you, with whom you have contact and its goals. And, at your request, we can find out about your energetic, social capabilities and is this a conscious contact with your curators? After all, in fact, there are a lot of contactees on Earth now.

Katya: Yes, a lot of them appear almost every day, because everything changes very strongly and instantly in space.

Thank you for your meetings, for the time you are now devoting to me. I am incredibly grateful to you, thank you for the kindness of your Soul.

Irina, I want to know everything in detail about what happened to me at the age of 16, why were my teeth taken?

Irina: Details that you don't remember?

Katya : Of course, I don't remember.

02:15 Introduction of alien participants in the conversation . **Curated by Katya Lel. Description of the representatives of the planet Disnit.**

Irina: I will introduce who is now present with us in astral bodies: this is MidgasKaus - my curator from the planet Esler; LiShioni from the planet Shimor, who is already our general curator of the Cassiopeia project.

Maxim: This is my curator.

Irina: Yes. And we are now visiting Larisa's contactee - this is Aunika, and her curator PiosNior from Esler is present here. Also present with us today is a representative of the planet Burkhad - this is the capital of the Interstellar Union in the constellation Cygnus, his name is Rayom Tiyan, and he is a specialist in energy interactions. He also oversees the contacts of representatives of the Interstellar Union with earthlings, that is, with our planet. And here is a representative of that civilization who was in contact with you: the same alien who twice contacted you directly physically and sent his biorobots to you. This is a specialist from the planet Disnit, and he is also here in the astral body, and his physical body is now at the base, on the far side of the Moon.

Katya: Very nice.

Irina: Usually they come in astral bodies and can take on any image, but he is now showing me his physical image. His name is Saint Titus

(that's how I read his name), he is a biologist, a specialist in contacts with galactic life forms, since you need to understand that we are also aliens for them.

He, as an astrobiologist, studies interstellar life forms, and he has now come to me in an astral body. Have you, Katya, seen people - biorobots, that is, creatures with a program embedded in them? And the Disney people themselves look different. I see them as white creatures with completely white skin and their heads are more elongated, like an egg. The two eyes look like black round dots on the head; height is about 1 meter 10 - 20 cm, that is, they are very small; they have very thin arms and legs, and they remind me of a snowman. Their mouth is closed or even practically invisible, just like a gap. This is what Disney people look like. One of my curators (his name is Kirchiton from the planet Daraal), physically took me to the planet Disnit. This is one of the planets that is part of the Interstellar Union and the visit of which by me, as a contactee, was included in the contact schedule. Kirchiton took me to many planets, one of which was Disnit, where there is an underwater city. It is in the constellation Aquila, 110 light years from Earth.

On Disnit there are underwater cities covered with a dome. Disnitians are part of the Interstellar Union, and they have contact with earthlings, including physically.

Now I told you that the specialist who was in contact with you and who, as he says, seized biological material, is present with us.

07:00 First contact with Katya Lel. Meeting with biorobots. Confiscation of biomaterial from Katya Lel for growing clones. Chip installation.

Katya: Can I ask you about the details?

Irina: Yes, you can find out the details. About why they can leave a memory, or they can erase it, depending on the psychophysical characteristics of this person. Kirchiton, for example, left me with a memory. Saint Titus is now showing me that the first time on the ship, when they took your teeth, you were not alone there, but with another

girl, your relative.

Katya: Yes, my sister.

Irina: She is not much older than you, and you looked alike. She was there too, and they took the two of you onto the ship. The last moment you remember was the beginning of the contact, and when you left it. But, first of all, I want to talk about the reasons for this contact.

Katya: Yes, please.

Irina: About a month, 40 days before this contact, you didn't just feel it, you seemed to call them, looked at the starry sky, thought and wanted to fly. This is exactly the feeling that came from you.

Katya: No, no, no, I was terribly afraid of them.

Irina: You looked at the starry sky and thought about something - this is the image they show me. You were sixteen years old.

Maxim: Katya, they weren't the ones you specifically called on. You were just looking at the starry sky, maybe dreaming, and that's how they actually make contact. That is, they see that a person - an earthling - is ready, in principle, for something so stellar and distant, and they consider this a conditional consent to make contact.

Irina: Moreover, he says that you had contacts since 5-6 years. But this happens to many children with plasmoid subtle-material civilizations. But then it was decided that your vibrations were not suitable for them to contact, because they had a depressing effect on you. And therefore, it was decided by your Spiritual Guides, which we all have in the Spiritual World, that you are more suitable for contacts with humanoids. And at the age of 15-16 (now you can only roughly name your age), you began to think that we are not alone in the Universe. Maybe you were afraid, but still, you were curious, to see or somehow see: is there life in space.

And this made the vibrations of your field suitable for the race that came to you. Why all this happened, and you began to think this way, and also why exactly your vibrations attracted them so much - this needs to be clarified with your Higher Self. But, judging by my experience of working with contactees, all this was prepared for more than one incarnation, and there was always the consent of the Higher Self of this person. It was aware, but if it was aware, then most likely, a few days before this contact, you felt that something was about to happen.

Katya: Yes, of course I felt it.

Irina: How much it frightened your consciousness at that time, I, of course, don't know, but most likely, since you yourself went to this ship, it means you still wanted to find out something.

Saint Titus says that you were not particularly surprised by this appearance, and there was more curiosity than fear. But your sister reacted much more sharply. When you came to this contact (and it was this period that was erased from your memory), you were lifted to the top of this ship by an anti-gravity beam. There you were met by 2 people who were biorobots. The Disney people themselves were physically in another room for the reasons so as not to alienate you with their appearance, which I have just described. And biorobots were made on the basis of grown tissues from other earthly people. Only, unlike people, intelligent Spirits were not embodied in them. These were simply biorobots with a controlled program. They have these biorobots.

Biorobots cannot do anything beyond the program installed in them. For example, if you ask him something that is not included in the program, he will only answer what is in his program or remain silent. For example, they are programmed to know Russian. That is, they may understand the question, but they will not answer what is not included in the program.

When they took you away, this girl followed you to see where you went and stop you, since she did not want this contact. And then the two of you were taken away, because they decided to show themselves to her too. On the ship, you were checked with a special device for

matching vibrations and realized that you, Katya, are more suitable for collecting biological material than she is, and this will not cause you harm, since even self-touch and the impact of their devices on the human body can cause side effects, if the vibrations of the body itself do not correspond.

They have completely different electromagnetic devices that provide both pain relief and tissue healing. And these devices can have a harmful effect on a person if he does not match their vibrations at all.

Katya: Why did they take three whole teeth?

Irina: She says that this was the minimum required to grow 2 biorobots.

Katya: So I have a clone in my face?

Irina: Your soul is not embodied in them, they only contain your DNA. And why exactly teeth, and not pieces of skin, Saint Titus, as a biologist, is now ready to answer this question. He also says that they installed chips on you.

Katya: Which bother me and hurt me, right here? (Katya shows with her hand the place of pain).

Irina: He shows another place (Irina shows the place with her hand).

Katya: Why did they put it on?

15:52 Reasons for installing chips. The principle of operation of the chip.

Irina: To monitor and correct possible energy disturbances and memory blocking. I will now tell you why this was necessary. He says that through you we see your life, your relationships, we study the social stratum in which you are located. This is our subject of study

and observation of people. Through the chip we see not only images of people, as on TV, but we read energy and its changes from certain types of relationships. We were interested in the culture of the society in which you were and into which you found yourself. You were transferred to another society shortly after the chip was installed a few years later.

Katya: Which one?

Irina: The one we weren't in when the chip was installed, that is, energetically different, as if alien. It was not just like that, but in any case, your curator and the Disney people themselves came to you in the astral body. And they told you how to change this society in order to study it in the future.

Katya: Does society mean space or city?

Irina: Both society and space are possible. In any case, the environment has changed to one that did not exist before. Later, you had a feeling of longing for where you lived before. But then you were prompted to change your previous environment precisely by the curators who came to you in the astral body and by these Disnit people. In order to use the chip they installed for you to study not only the environment where you were before, but also the one you later found yourself in. They say that they did not force you, but suggested it to you mentally several times. And you decided to listen to them and change the situation.

18:35 The cause of pain in the places where the chips are installed . Teeth as a universal biological material

Katya: Why do these chips bother and hurt so much? Very severe and active headaches and back pain. Can this be cut off somehow?

Irina: In the place where they said?

Katya: Yes, a little further and higher, between the head and neck.

Irina: They put it on the left side.

Katya: I've been very worried for many years now.

Maxim: The chip does not have any settings for official contacts.

Katerina, when curators install chips, they expect that further contact will be built: some kind of connection, interaction, either astral or mental contact. And if there is no energy exchange on the chip, then the place where the chip is located begins to hurt.

Katya: I'm ready for this, why?

Irina: You need contact for the pain to go away. He says that the biological material itself was taken from you by biorobots, that is, the Disnit people themselves are not suitable, and biorobots do this, but they first talked to you and told you why this was necessary. You asked what it was for, and they answered you. You asked about what, why teeth, and not pieces of skin for research. They explained that teeth contain elements of bone tissue and all DNA. Of course, the DNA structure is contained in any cell, and such a biorobot can also be grown from any cell, but this will require additional materials for the skeleton. The bone tissue of teeth contains a variety of tissues: bone cells - osteocytes and cells that are contained in the blood, in the blood vessel of those neurons that are also in this tooth. Teeth can be broken down into their component elements and grown into a full-fledged robot without wasting other materials.

21:39 Reasons for using biorobots in direct contact with earthlings.

Katya: They made a full-fledged biorobot?

Irina: Two.

Katya: Do they look like me? Can I safely let them on stage? What is the difference?

Irina: They are taller and have a slightly different build: this is what you looked like before, when you were 16 or maybe 20, and they also have a long, thin neck. Very similar to you, only with black hair: one has long hair, the other has short hair.

Katya: I was dark.

Maxim: Why are they even doing this?

Irina: They can send these biorobots to contact other people, in addition, they can show them and send them to other aliens to study our DNA. They train them, just like these biorobots that worked with you, and which were also made from DNA, but only from other contactees. Biorobots are used to communicate with contactees so that Disnitites do not come into direct contact, as they believe that their appearance may cause rejection.

Katya: Can they transform into another body? Am I talking about those who are short?

Irina: They can. But the Disnitians themselves are already biological beings, born by others, and both the Mind and the Spirit are already embodied in them, just like in us. Any Spirit can be incarnated on Earth, and we can be incarnated on Disnit. I remember that in one of the regressions I had a memory of Disnit.

Vladimir: Katya is actually asking that can Disney people in their physical body change their appearance?

Maxim: Can Disney people themselves change their appearance? To a person or to yourself?

Vladimir: For myself.

Irina: No, these biorobots were with you. But they themselves are not physically plasmoids.

But, if this is astral contact, then, of course, they can take on any image. Here MidgasCaus now stands in the form of an earthly man, although his physical body looks completely different.

Vladimir: But the Disnit people physically cannot become like earthlings, for this they make biorobots to imitate earthlings, and the earthlings are not afraid of the sight of real Disnit people.

Irina: Yes. They also said that not all contactees take material for the manufacture of biorobots. And the biorobots that Katya saw are one on Disnit, and the other on one of their bases not far from the center of the Galaxy.

25:33 Biorobots lack a Soul . **The main differences between biorobots and humans.**

Maxim: Do biorobots have a soul?

Irina: Biorobots - no, they have a program, and they cannot deviate from it. They don't even have an etheric body, and they are charged by the program, like external energy sources, like ordinary robots.

Katya : The main thing: are they positive, bright?

Irina : In what sense are they "positive"?

Katya: Are they programmed for a positive program?

Vladimir: Can they harm a person?

Irina: Not deliberately. In the Interstellar Union there is a law according to which it is forbidden to program robots for war, with the exception of those types of robots that serve in the service of Galactic Security, there are also such as police officers.

Maxim: Do I understand correctly that if I see a biorobot here on Earth, I won't be able to distinguish it from a person?

Irina: He won't have an aura.

Maxim: Are there many such biorobots on Earth?

Katya: Yes, of course.

Vladimir: Looking ahead, are those ufologists who came to Katya biorobots too?

Irina: Not aliens, like on Disaru, who are the same as people, but biorobots. Tashigan people can make these. As a researcher, I will say that we release such biorobots only for certain purposes, for example, to take a sample of soil, water, or send a biorobot to a contactee. Because they have a limited set of programs, and if it walks among people for a long time, it can be noticeable. Because if a question arises that is not provided for by the program, then it will either not be answered at all, or will be answered with the same answer by heart. And if such a biorobot interacts among people for a long time, then it may be noticed and labeled as one of your inadequate ones.

Maxim: Are there many such biorobots on Earth?

Irina: No, we release them from time to time as needed, and then take them back to the ship. Because if they stay among people for a long time, they will look inadequate and people will quickly recognize them: it is impossible to provide all the answers to the questions that people may ask them in social interaction, since it is impossible to program everything.

28:37 How was Katya Lel taken onto the alien ship?

Katya: At the moment when they landed, we all saw a strong glow of light outside the window. We were sitting by the window, talking, laughing, drinking coffee in the evening, and suddenly three rays

landed in the center of a large circle, where daisies were growing at that moment. And after that, we all saw the next morning that the daisies were lying at one angle in a circle, and the center of this circle was completely burned. Then nothing ever grew there again. As I understand it, their object landed there, or are you saying that they took us away with a beam?

Irina: Yes, they took you away with a beam. They did not fall more than 3 meters, approximately 3 m 20 due to the high radiation temperature. They just hovered in place.

Katya: It turns out that they took us on the ship with my sister and took teeth there.

Irina: Yes, they are now saying that, firstly, the ship had artificial gravity, and, secondly, this ship did not leave the Earth: it was in Earth orbit, but not in the ecliptic plane, but somewhere flew away to the side.

Maxim: So all the actions were carried out on the ship?

30:19 Is it possible to return locked memory?

Katya: Can my memory return? Will we be able to remember all the details that really happened?

Irina: They explained to you why this material is needed, that robots very similar to you will be created that will live on Disnit, because they like your energy, your appearance, and they will remember you. As far as I understand, you agreed to this, and then they offered you to become a contactee in order to transmit information, monitor you, and you agreed to the removal of this biological material and the installation of a chip. But then you decided that you would not switch to physical contact, and astral contact also needed time. They asked if you and your sister should leave a memory. But, you said that you don’t want to leave a memory so that you don’t have to tell people about it later.

But this can be unlocked with the consent of your Higher Self.

Maxim: Yes, that is, the memory is removed so that later the child can live and exist normally and not be considered crazy.

Katya: Today I would like to return this memory to myself. My sister doesn't need it, because she will go crazy, but I would like to.

Maxim: Is your mental state ready to return this memory and to accept all this? This question is very serious.

Katya: But it seems to me that I have already accepted everything in 30 years of life.

Maxim: Did she have another contact? Come on, tell me.

32:35 Physical and astral contacts of Katya Lel.

Irina: She had another contact, a few days later, a few earthly days later, you were taken to the ship while you were physically asleep.

Katya: Yes, in 9 days.

Irina : In how many Earth days?

Katya: July 18.

Irina: At first it seemed to you that you were sleeping, but you physically woke up. Then you were taken to contact to show your planet. You were asked: do you want to see the planet? And you answered that you didn't want to be returned to Earth, because you didn't want to fly with them. After that they switched to astral contact. And before that, biorobots also came to you to check what you remembered, to check how your memory was blocked.

Vladimir: Were those ufologists?

Irina: These were biorobots disguised as people.

Vladimir: But she perceived them as ufologists.

Katya: There were six of them: four men and two tall women. Some of them were famous ufologists from Kabardino-Balkaria. One of them has already died. I saw them on TV. There was one very famous ufologist, and there was also a married couple, also famous ufologists. The rest may have been biorobots. They showed me that they had received my address on VKontakte and information that at such and such a time teeth were taken from such and such a girl for an experiment.

Irina: He says that there were three biorobots.

Katya: Absolutely right: yes, there were three robots, and three were people.

Irina: There were three biorobots, as at the first contact. These were the same biorobots.

Vladimir: But they were among those ufologists? Or was the meeting with biorobots separate and not related to the meeting with ufologists?

Irina: There were three biorobots, they approached alone without people.

Katya: So they were separate.

Irina: They came for a check 48 hours later, maybe a little more, after the first contact.

Katya: So these were the ones who flew after us. My sister and I were

returning from rehearsal, it was already dark, and I said that I felt that they were nearby. I look back and see that they are flying after us. It was crazy fear, stress, and we were very scared. Literally a few days passed after the teeth were taken. We started knocking on the door of the house so that my mother would open it for us as soon as possible. I was so scared.

Irina: And this was exactly the plate in which the chip was built into you. They checked its operation, adjusted the chip, and after that, maybe a day later, three biorobots came to you again.

Katya: But they constantly reminded me of themselves at home: noises at home, a luminous look, I saw two eyes, triangles on the walls, hands like stencils that touched me, constant energy, that is, they manifested themselves.

Irina: These were already astral contacts after you refused to fly physically to their planet. If you had flown, they would have appeared to you physically, as they look now. And perhaps they would have unlocked your memory because they agreed to fly with them. Why block it then?

Katya: Very scary, I was very scared, and I couldn't raise my head. I remember if I realized that I was in the plate right away, I would simply have a heart attack, I was so scared.

And when they asked me: "Katya, are you ready?" - that is, when I already realized that they would take me away, I began to ask for more time.

Irina: They wanted to ask if you were ready to fly to our planet.

Katya: They said: "Are you ready?" I asked: "What are you ready for?" He told me this phrase: "But weren't you prepared enough?" And then the prophetic dreams that I had seen 2 years before began to appear in my memory.

Irina: Now they are showing me a slightly different dialogue. They

asked specifically about seeing their planet, flying with them. And you said no, bring me back. That's how it was.

Maxim: Yes, that's why the contact was not built further. Why? Because if a person has a huge fear, then they do not go through this fear.

Katya: Why do they make this fear? In general, at birth I was a very cheerful person. But when the teeth were taken, I just had an insane fear. I couldn't eat, sleep, or laugh for 9 days because it was beyond me and I couldn't overcome this fear.

Irina: Or maybe you thought that they would come for you again? You did understand that these were aliens, right?

Katya: Well, of course I understood that it was of unearthly origin.

Irina: And you thought that if you were left alone, they would take you away and not return you home. So that, again, they don't remember what happened. You were simply left with part of these memories about the rays and nothing else is clear about what happened. But this should have been taken as a test of your readiness for contact. It was necessary to fight this fear, at least with the thoughts that if they had already returned you once, it means they didn't want to do anything bad to you.

Katya: Yes, at the age of 16 it was difficult to understand what was good or bad, you know?

Irina: Well, you already understood at the age of 16 that since they took these teeth from you, that means you already had them?

Katya: No, of course. I understood that I was sitting at home, and that after the glow my teeth were taken without pain, without blood - that's all I understood.

Irina : You understood that these teeth were taken outside the house,

because if they were taken at home, they would have been there.

Maxim: She might not understand it at all. They think a little incorrectly, as earthlings can think.

Irina: Where did they go then?

Katya: But, they can transform from energetic to biochemical, pass through walls and disappear and appear? That is the only way it can be explained. If everyone saw it: Karen's mother and neighbor, who were sitting there, and the fear was crazy in their eyes. My sister, when it all disappeared, was the first to immediately tell me to open my mouth. I would never have known that I had no teeth.

Irina: And after the second contact, which you had physically, did you already understand for sure that you were physically with them?

Katya: After 9 days I understood when I was sitting in the ship.

Irina: After the 2nd contact, your memory of it was no longer erased, unlike the first. Although you already had the chip installed. And they haven't erased your memory of the second contact. Why didn't they erase it in the second contact? So that you can make the final decision whether you are ready to contact them or not. That is, here you have a general rejection of this contact. And even more so now they show me that your older relatives and parents were against it.

Katya: Of course, they are still against it. Mom is still in a fit, and when she hears about them, she pretends that nothing happened. They instilled such fear! And my mother recently confessed to me that they told my sister and me that they had seen many times in a spacesuit a huge astronaut standing in red rays, and, naturally, this scared them terribly that their daughter would be taken away.

Irina: And what's most interesting is that they made astral contacts with you. That is, they came to you in the astral body and sent thoughts, and you saw it as images, as hands, as various figures who tried to talk to you. And you could feel it, since they activated various

energy centers for you through the chip. And you could feel, for example, that when you sit next to a person, he is in a negative or positive mood - this is how your sensitivity became aggravated. Or they could even see the energy of objects, since this often happens to people who have a chip.

Maxim: That is, they strengthened your sensitive perception of the space in which you are: you became more sensitive to sounds, colors, sensations of human energy, you gained empathy, the empathic ability to feel the emotions of people, feel the emotions of space, even to the point of communicate with trees, with birds.

Irina: Subconsciously, she always knew that she was a contactee. In any case, your Higher Self and your intuition told you about it. The work of this chip could heighten the senses so much that sometimes even loud sounds or strong smells were unpleasant, and I wanted to leave.

Katya: Now it happens as if vision in 5D goes into space.

Maxim: 5D is with me. Since childhood, I have seen all the energies in colors in all spaces, but I thought that this is how everyone else sees it until I met Irina and MidgasCaus, that is, since childhood they called me a dreamer. And I told it in flowers, how I saw it all.

Katya: A few days after the teeth were removed, I found myself in the mountains. I categorically rejected it and thought that I dreamed it, it wasn't happening to me, so as not to go crazy with fear. After 9 days, I went to bed and seemed to be asleep. I found myself high in the mountains, it was cold, and I was in pajamas, which I went to bed in. They started calling me by name. My name is called, and I began to run away. He was a very pleasant-looking man, fair-haired, very blue eyes, wearing high boots and a light brown leather jacket. And he says: "Believe me, we exist." And while running away from him, I injured my big toe. And when I woke up, I thought what a terrible dream, that again I was running away, and then I saw that my finger was bleeding. That is, I see something that seemed to be in a dream, but I wanted to understand that it was in a dream. Did this really happen? That is, was it a biorobot with me or was it the physical state of an alien?

Irina: The second contact, unlike the first, was within the Earth, but it was without the Disnitites on the ship, and you did not leave the Earth. This plate with you might have flown away, but it did not leave the boundaries of the Earth like the first time. Either way, they naturally talked to you. It was also a biorobot, and for clarity it is necessary to retrieve the records from the ship, but in any case, if it landed you in the mountains, then it was Earth.

Katya: Yes, of course, it was the Earth, the mountains.

Irina: You did not leave Earth, and, in any case, it was a biorobot, because the clothes were selected. Yes, this was one of them. And this same biorobot was there for the first time.

Maxim: How can you find out: was she really in the mountains? Do we need to get some records?

Irina: We need to bring up the records of the ship on which there was a second contact, because I was only on the first contact, and the second contact was simply programmed with biorobots. And according to the records of this ship, she did not leave the boundaries of the Earth.

Katya: I see, but then he took me to some planet and showed me where they live.

Irina: It was already in the astral plane. I mean physical contact now.

Maxim: What you say is that you were taken to another planet - this could be astral travel. But it can be as real as a physical sensation.

Katya: I saw a big pit, where I saw crossed bodies with two heads, that is, when they say that there is Hell, and he showed me this picture in some big pit.

Irina: This is truly astral travel. You now need to understand the

images that were there, because through the Astral it is not the physical world that is visible, but the astral imprint of the planet. I was on Disnit physically. And you could perceive it as a pit, perhaps a descent into a new underwater city. They live under water, and they have cities under their domes. If you read my contact on Disnit?

Katya: Yes, yes.

Irina: We actually wore protective suits and went there with Kirchiton. He took me there because in one of the regressions it turned out that one of my past lives took place on Disnit. Therefore, when Kirchiton found out about this, he decided to take me there to see if I would remember anything, if anything seemed familiar to me. I didn't think so.

48:05 The process of tooth extraction and methods of healing surrounding tissues .

Vladimir: Ira, when they took her teeth, was she given some kind of anesthesia or did she feel everything with her consciousness? When they took the teeth, was it with the mouth open or did they just do it through the tissue with the mouth closed?

Irina: No, it was with an open mouth and there was no medicine. This was done by radiation, a kind of electromagnetic field, which turned off her sensitivity. In addition, this electromagnetic field, after the teeth were removed, made the surrounding tissues appear as if they had already undergone regeneration.

Katya: Yes, yes, because when the pictures were taken, they said that the tooth on the left seemed to have been removed 2 years ago, although I had never had teeth removed before, and on the right side they said that there was an anomaly in the structure of the human bone in the picture.

Irina: The anomaly there arose from the fact that this device, which was specially invented to accelerate the regeneration of densely material substances, acted in such a way. There, the cells of the surface epithelium divide faster and, including the cells that are on the

mucous membrane, are also replaced faster. That is why the bleeding stopped and there was no pain, because after the removal, when this device was not working, the nerve endings that were in the gum were also regenerated.

Katya: Why did they then pour medicine from the left side into this place where they took the teeth for a year, for what?

Irina: These were already astral contacts.

Katya: I don't know how. But I saw it at home, I saw in the mirror how the medicine was poured into the gum before my eyes. This was observed by both my sister and a hundred people in the choir when they opened my mouth. This could happen at any moment: they infused the medicine, and did it without a twinge of conscience and frightened others around. Sparks flew from under my feet as I ran out of the hall, and everyone saw these bright rays that landed in the hall.

Maxim: What do you mean, they infused medicine, Katya, please explain?

Katya: They opened their mouth, made it look like I wanted to yawn, and then it was as if they were placing iron doors so that I couldn't close my mouth. This happened for hours, my jaw just dropped from pain and tension. And in the meantime, I felt like a medicine with a bitter-sour taste was being poured in from the left side, I clearly felt and sensed it. And they did this all the time.

Irina: But they now say that it was simply like an influence through a chip, there was not even astral contact there. It's just that the impact through the chip is intended to ensure that at the place where they were exposed to this field, no further mutations occur in the cells, because after all, this is the impact of an alien apparatus that can harm our cells, and it is needed was to minimize. Through the chip, special radiation was given to your nerve endings, and you could feel any taste at the same time, and there could also be salivation.

Maxim: That is, it happened at the energy level, and the fact that she

felt tastes and everything else, then it was your own body that could receive energy in this way.

Irina: They say that this happened several times through the chip, and they read the state of the cells, and that some unnecessary mutations occur in that place. To remove this and to harmonize these cells with those of your cells that are not exposed to radiation from this apparatus. They included these programs through the chip.

Katya: Every time they appeared, my sister saw this picture: as if they were opening my mouth, and the tooth grew halfway on the left side. And I always asked: “Ira, do you see anything else now?” She answered that yes, there were three of them, and my tooth had grown halfway on the left side. When I asked her to tell me more, she promised to tell everything in the morning. And in the morning she no longer remembered anything. Why did she see that half of the tooth had grown on the left side?

Irina: Yes, although he hasn’t grown up.

Katya: Yes, I included, of course.

Irina: Well, why did she see that he had grown up? Because she saw what was happening at the energy level. It looked like it to her that he seemed to have grown, because she was in an altered state of consciousness. She saw him, perhaps, on the etheric field, because in the etheric field all the organs that are removed from a person will actually be intact. If people are diagnosed with Mid, then he looks through the Astral. And if he looks at a person with a removed uterus, ovaries or thyroid gland, he even showed me how it looks on the etheric level for this person: in the etheric body these organs are absolutely intact. Moreover, if they were removed a long time ago, then they will already look without disturbing these vibrations, provided that there are no inflammatory processes in the surrounding tissues. When there is inflammation, microbial vibrations will be visible. Mead makes the diagnosis, and from experience he can say so.

Katya : What else did they take, Irina, from me besides my teeth?

Irina: A chip was placed, and skin was taken from this area for a biological sample.

Katya: Where is the bridge of my nose, where did it go?

Irina: They only took away the teeth and didn't tell me anything else.

Katya: It's just that when I took a photo by accident, they said to me: "Where is the bridge of your nose?" As it turns out, I don't have the bridge of my nose that I've always had.

Irina: They said they had nothing to do with this.

Katya: Sorry, not the bridge of the nose, but the nasal septum.

Irina: What do you have there now?

Katya: I don't know. My nose is constantly changing, that's the thing.

Irina: No, they didn't touch it at all, he just told me, in any case, it's something else, you'll need to do a repeat study.

Katya: Yes, I did it many times, it's not there.

Irina: What is there in its place?

Katya: They asked if I removed it, did I have surgery? No. And the picture now shows.

Irina: Well, what is there in its place? Perhaps Mead and I can figure out what this could be?

Katya: I don't even know what's there? When they took my picture, they asked: "Where is your nasal septum?"

Irina: Well, do you feel something solid in her place?

Katya: I feel something, but I don't know what.

Irina: Then you will ask the doctors what supports the nose in its place?

Katya: I didn't want to scare the doctors. More recently, they were also active, opening their mouths, but they were no longer picking at their teeth, but at the bridge of their nose and vocal cords. What do they thereby want? For what?

Irina: You recently became interested again, and they sensed through the chip that you became interested in the possibility of setting up a contact. That is why they came to you in the astral body. They were there with you when you were asleep, when you were awake, and when you were in different emotional states, both sad and happy. They even show that when you sang, they could be next to you. This often happens with contactees.

Yes, and you began to be interested in the possibility of having conscious contact with them, if not physically, then astrally, so that you could give question and answer. They felt these desires of yours and began to set you up for contact, changing the energy system. This chakra is now being shown to me (Irina points to the area of the 6th chakra).

They don't take anything from there. The effect occurs not on the physical body, but on the chakra system.

Maxim: Let's ask Mida, let him do the diagnostics entirely on Katerina's energy structures.

Katya: Let's do it, if possible.

Maxim: Katya, you give permission to MidgasCaus to visit you and

give you a complete energy diagnostic.

Katya: I give permission.

Maxim: Yes, great. Now Mid will come to you.

Irina: Close your eyes and repeat. (Irina says Esler's mood out loud 3 times, and Katya repeats the words of the mood after her).

What do you feel?

57:41 Katya Lel's interaction with MidgasCaus and setting up a channel through the chip.

Katya: But here right now there are strong flows and twisting of energy on a spiral level.

Maxim: The contact setup has already begun.

Irina: Try to say, do you feel the presence of someone nearby?

Katya: Yes, of course: Mid is here.

Irina: Try to talk to him, that is, ask: "What is your name, show me your image." For now, at this level, try to interact with him. Mid, try to interact with her, please. He can interact with her through the chip.

Maxim: It can interact through the chip, maybe it will work, because it hasn't been built for so long. Basically, the first thoughts and the first words that come are the most correct and true.

Katya: There is some kind of calm and some kind of trumpet, as if there was some kind of silence. It's like waiting. My hand was very itchy and it was hot, hot.

Maxim: Energy has gone.

Katya: Yes, energy. This is where it started to itch, this is where it all started (Katya shows the area of her face and neck).

Irina: Where is the chip and around.

Maxim: Katya, where does the energy go, lower it completely to the bottom, that is, completely to the heels. Harmonize yourself completely, so that it doesn't itch in one place, but so that these goosebumps go completely down to the bottom. When you feel the flows and the spiral that you showed, then the energies will completely descend to the bottom, and they will completely harmonize the entire body.

Katya: Yes, it went down my back.

Maxim: Katya, we will probably say goodbye to you. We were very pleased to talk with you.

Katya: All the very happiest, brightest and kindest to you. Thank you.

Live broadcast September 09, 2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan – head of the International Center for Spiritual Development "Cassiopeia";

Katya Lel - Russian pop singer;

Vladimir Goldstein is a journalist from Chicago;

LiShioni from the planet Shimor is a specialist in the astral world and its interactions with the material world;

MidgasKaus from the planet Esler - biologist, psychologist, microbiologist, specialist in alien life forms;

PiosNior from the planet Esler - art critic, psychologist, specialist in the transmission of sound vibrations for the purification and harmonization of spaces;

Rayom Tiyan from the planet Burhad is a specialist in energy interactions in the environment of the material world;

Sen Titus from the planet Disnit is an astrobiologist, a specialist in contacts with galactic life forms.

#146 Report on the retreat held in Loo. Answers on questions.

https://blog.cassiopeia.center/otchet-o-provedennom-retrite-v-loo
https://www.youtube.com/watch?v=c2C5dAEEsbM

00: 00

Greetings to spectators from different cities and countries.

Maxim: Dear viewers, we miss you too. We had a wonderful retreat, we couldn't get in touch because we had 125 people at the retreat, and everyone needed attention, there were a lot of classes and practice.

So let's begin.

Dear friends! Our broadcast today is dedicated to the retreat that took place in Loo. I would like to express my deep gratitude to all the participants who attended this wonderful retreat dedicated to communicating with the Higher Self.

Many thanks to our wonderful Masters who taught all this: Vlad Pulsar (PULSAR) for conducting general and additional classes; Master of Cosmoenergetics Larisa Minina (who, after the retreat, began working with the Pleiades Intergalactic Medical Service), she led morning exercises and group classes; psychologist, contactee, teacher at the future school of contactees - Ilya Alexandrov; Alexey Morozov for trips to the Higher Self; To Sergei Lvov from the Synergy project, which teamed up with the Pleiades Intergalactic Medical Service, we have had a harmonization of two completely different areas, where cosmoenergetics has joined; Olga Yakovleva for filming a huge amount of material.

Huge thanks to everyone! A large number of simply unrealistic reviews! People left completely different. There was a lot of Love, acceptance and insight from many people.

04:45 Presentation of alien broadcast participants.

Irina: Hello! We welcome everyone! Today our curators are with us: Zaliatar from the planet Raom-Li, MidgasKaus from the planet Esler and LiShioni from the planet Shimor. The topic of today's broadcast: a story about the retreat and all the questions related to it. By tradition, Zaliatar suggests starting our live broadcast with the latest news from the Galaxy.

05:36 Intergalactic news. Termination of physical contacts with Earth contactees during the Transition.

Question: Zaliathar, what is the most interesting recent news in the Galaxy?

Irina: Zaliatar says that the latest news in the Galaxy is most directly related to planet Earth. Recently, another meeting of the Interstellar Union took place, where the question of the status of earthly contactees was raised. It was decided to interrupt physical contacts with representatives of your civilization for the period of the next intensification of the phase of the quantum transition of your planet from the beginning of October 2020 and approximately until mid-to-late February 2021. The first main reason is the activation of quantum transition processes on your planet, which entails a surge in hidden conflicts in many of your territories. In addition, tension in the Earth's noosphere is growing. This is manifested in the increased aggressiveness of your political and military structures, which may pose a potential danger to contactees who physically visit our ships. Decisions on resuming contacts will be made only when the Interstellar Union makes a law that every civilization that comes into physical contact with Earth must provide a special ship with shielding to be invisible to all types of terrestrial devices. And only in this case will contacts continue as before. This also applies to the Government of Daraal. In any case, during the active phase of the transition - until mid-February - there will be no such contacts. They would have stopped for the winter anyway, it just happened to stop them a couple of months earlier. This is the main news of the Galaxy that has affected your planet.

Maxim: I forgot to thank our most important participant in the retreat - Guzel Malyarova, who works with the Intergalactic Medical Service. She gave very wonderful sessions to restore people.

09:20 Communication with the Higher Self through specialists and independently. Places of power in Loo.

Question: Have there been people at the retreat who have learned to communicate with their Higher Spiritual Self?

Maxim: About 30% have definitely come into contact with their Higher Self and will continue to do so. A lot of prepared people came to this retreat. A large number of contactees, both conscious and unconscious. The retreat was full of energies and trips to the Higher Self. In addition to the fact that we taught what energies are and how to communicate with your Higher Self (Irina gave master classes with us, as well as Ilya Alexandrov, Larisa Minina, Vlad Pulsar), a lot people

received separate approaches to their Higher Self from the Center's specialists. During this retreat, almost everyone went to their Higher Self through specialists, and more than 30% themselves learned to communicate with their Higher Self and continue to do so, developing their contact, their energies and working with them.

Regarding the house on Vesennyaya, 26. Just a magical house! For the first time I saw a house built into a rock in which a stream was diverted. A very interesting place of Power, where our mentors brought us. Everything happened for a reason. On the mountain above the house, where we also climbed, there is also a place of Power. This is a huge springboard where we communicated with the spirits of nature, learned to communicate and do many other things that contactees do.

Irina: I thank all the Masters and participants, as well as the owners of the houses where we lived. I thank our interstellar friends: representatives of the Interstellar Union, representatives of the Galactic Federation of Light, Ashtar Sheran, who was present several times, representatives of the Intergalactic Medical Service, the Pleiadians, representatives of the planet Futissa and the planet Raom-Li, numerous plasmoid and subtle-material civilizations who took part in the energy restoration and information support for this retreat.

If you have questions, you can write them and we will answer them.

Maxim: By the way, the balls that appear in the videos and photos are thin-material civilizations, which we call plasmoids. Their bodies are made of energies.

12:33 Place of the next incarnation, the possibility of choosing it. The optimal place of birth for spiritual development.

Question: What to do to avoid being born on planet Earth?

Maxim: *(laughs)* Are you sure that it will be better on other planets? In fact, you yourself chose this planet with your mentors to undergo lessons.

Irina: MidgasKaus says that in order to no longer be born on planet Earth, when you come to the Spiritual world after leaving your earthly body, when you want to reincarnate to gain the qualities you lack or to manifest those qualities that you have, but already in the form of actions, you will be able to discuss the very place of incarnation with the consulting angels who have been guiding you for more than one incarnation. Usually a specific planet is suggested. But if it does not suit you for some reason, you can ask to change the place of incarnation. In many cases, the planet can be changed. It's possible. But it is not a fact that the planet that suits you in terms of vibrations and life tasks will be more comfortable for that part of your Spirit that you will embody in that body. Because the percentage of incarnation in bodies can be different in different types of bodies. For example, on Earth there is approximately 30-33% of the embodied part of the Spirit, and 67-70% of the non-embodied part. I want to emphasize that the place where you were born is the most optimal for your spiritual development. Not only the planet, but also the country, environment, religion, relatives and friends.

15:15 Interstellar Internet radio "Cassiopeia".

Maxim: Friends! We still have one more wonderful news. We have our own Interstellar Internet radio "Cassiopeya" (http://www.kassiopeyaonline.ru/), where from 22.00 to 23.00 we will conduct mass healing sessions with the Intergalactic Medical Service. We already had an experience that we organized in Loo. As soon as we make our radio, you will have the opportunity, while listening to the radio, to enter a state of relaxation and receive the energies of the Intergalactic Medical Service for healing. Those. it's all real.

16:03 Shape of the Earth.

Question: Is the earth flat or round?

Maxim: The earth is round. We have already answered this question. For some it is flat, for example, for plasmoids.

16:18 Koleso Sansary.

Question: Does the Wheel of Samsara exist only for earthlings?

Irina: If you understand the Wheel of Samsara as a chain of reincarnations, then it exists in the material world.

Maxim: They probably consider the chain of reincarnations only on Earth.

Irina: Only on Earth or in the material world in general? These are different things.

Maxim: The Wheel of Samsara exists. Every time we go into the Spiritual world and every time we are reincarnated.

16:4 6 Alien drones, probes in the Earth's atmosphere.

Question: What do alien drones look like in Earth's atmosphere?

Irina: MidgasCaus, do you have drones? You're talking about unmanned robots, which could be in the form of automated probes that collect information. They can look really different. There are round spherical objects. They are small and similar to your weather probes. Some civilizations of the Interstellar Union and the Galactic Federation of Light deliberately disguise their devices as earthly devices in order not to be detected by your military structures. There are devices that look like a thin long needle measuring 15-20 cm (not like a ship). Such mini-robots can also move.

18:1 4 Energy exchange of earthlings with entities and creatures. Body structure, four elements of the Earth.

Question: Is it true that we are being bred here as food, to feed on us, our energies?

Maxim: Not true. The word "eat" is not present here. There is energy exchange. Those entities whose energies you are projecting begin to

exchange energies with you. If you are negative or destructive, then you attract these entities. The fact that they exchange energies is what you call “feeding.”

Irina: MidgasKaus says that any action you take is an energy exchange with some entities. Even when you consume any food on Earth (fruits, vegetables, dairy or meat products), in any case you take energy from this being, plant or animal. What you return to him in return, you return this energy to the atmosphere, for example, in the form of heat, which is also food for your energy. And you return to the earth those elements that are split off from food and go away as waste. This is also a form of energy for the same plants, for example. Moreover, you also build your physical body yourself. In the form of the Spirit, as a part of God, you create your body, just as God creates the Universe. But you take the elements themselves for building the body from the 4 elements of the Earth. You temporarily borrow elements of the body to carry out your lessons and tasks in the earthly world. You borrow elements of the body for a while. Then you return it to the natural elements of the Earth, where it breaks down into elements and goes into the formation of new bodies. This is also an energy exchange.

20:3 3 Contactees of Ashtar Sheran. Aggravation of conflicts on Earth in the active phase of the Quantum Transition. Reduction of the general vibration of the Earth's noosphere and activation of aggressive forms of microorganisms.

Maxim: Yes, in the Astral you can visit the planet Burkhad. If you go to the Astral, then no one can forbid you to do this.

Regarding Ashtar Sheran. I didn't expect that he had so many contactees. At our retreat we found about 7 contactees.

Irina: I saw three. But there were also contactees there.

Maxim: We learned from Ashtar how it is possible to have several contactees at once. It turns out that there is such an opportunity: to do this with the help of energy doubles.

Irina: I want to talk about the Intergalactic Medical Service, in which humanoids and plasmoids from different worlds take part. The systems that are known on Earth as “cosmoenergetics” and “reiki” are separate parts of a large system of energetic, physical and spiritual assistance to all the united Light Forces of the Galaxy, in whatever world they are embodied or disembodied, to those worlds that are not entered into such unions of Awareness and Love as the Galactic Federation of Light and the Interstellar Union. They enter there not by signing a separate act or agreement, but with their consciousness. The fact that the planet has not entered these communities with its planetary consciousness is evidenced by the fact that conflicts between various warring parties are still ongoing on your planet, which has especially intensified in the last two months, during the active phase of the quantum transition. This causes an exacerbation of military and civil conflicts, which in turn provokes the release of a large number of negatively charged thought forms from both sides of the conflict into the Earth’s noosphere, which reduces its vibrations and increases the likelihood of an unfavorable outcome, including the coronavirus pandemic and other epidemics that may appear due to a decrease in the general vibration of the noosphere, and the emergence of special aggressive forms of microorganisms as a response to low-vibration plasmoids and their creation of group souls of microorganisms in such forms of life. These processes irreversibly follow each other and are considered by specialists of the Interstellar Union as a single whole.

24:19 What happened in Kamchatka and Nagorno-Karabakh? How are these events related to each other?

Irina: While we were preparing for the live broadcast, Maxim asked me and representatives of the Interstellar Union MidgasKaus and LiShioni to tell, among other things, what happened in Kamchatka and what is happening in Nagorno-Karabakh. I will briefly touch on these topics and say that they are directly related to each other.

The emergence of an active phase of the conflict, which grew from the mental phase into a clash on the physical level, caused a surge of negative energy. Because of this, the plasmoid civilizations of the Earth began to process negative energy and low-vibration forms of plasmoids became more active. This was reflected in the state of those animal souls that are embodied in different parts of the globe. This provokes such an impact on the Earth’s biosphere that certain populations of animals, birds and fish die. They didn't just die for no

reason. For example, underwater volcanoes emitted a cloud of gas, which not only could poison them, but locally increase the temperature. Let me emphasize once again that this is not just like that. These are the actions of plasmoids that appeared due to the low-vibration actions of people.

Maxim: People, think about love! Move from low vibrations to high ones. Try to bring Light and Good. This is what we did at the retreat. How many people left happy! It was very interesting for me to look at those people who came and who left. These were completely different people, although the person was the same.

27:15 Physical condition of the contactee.

Question: Why doesn't Irina take care of her body?

Maxim: Irina goes to the gym every day. Even more than me. I am sometimes amazed at her resilience, how long she can go there. If you think that we are here only for the growth of the Spirit, then you are greatly mistaken. The Cassiopeia Project also exists for body growth.

27:55 Ways to resolve the conflict in Nagorno-Karabakh. What does the tension in the astral atmosphere of the country's egregor lead to?

Question: If they attack and you defend yourself, then you lower your vibrations. What to do in order not to reduce vibrations and defend yourself?

Irina: I understand what this question is connected with. He wanted to talk about the reasons and ways to resolve the conflict in Nagorno-Karabakh, which Zaliatar managed to find out. For this purpose, he went to the border of the astral world and the world of disembodied Spirits to view the tape of events. Zaliathar wants to appeal to earthlings and directly to the participants in this conflict, who will be able to see or hear this appeal. He says he has seen a latent phase of conflict persist in the area for centuries. But recently it was in a latent phase and did not reach the physical level. But the latent phase does

not mean that there was no conflict. The mental messages of those peoples and their families who live there charged the astral space around with negative thought forms, which attracted low-vibration plasmoid civilizations of disembodied Spirits to this area. The fact that people were silent and did not sort things out on the physical level does not mean that in in their mental sphere everything was harmonious. Such a section of tension in the astral atmosphere in the egregors at the moment of an abrupt increase in vibrations during the next phase of the quantum transition led to the fact that it reached an open physical level. The energy that had been accumulating for several centuries began to manifest itself through the egregors of these participating countries and the states surrounding them. In fact, there is only one optimal solution to this conflict, which will not entail an even greater accumulation of negative energy in the egregors of both opposing states. All parties to the conflict need to understand the following. If the Spiritual World allows an armed clash on an open level, then this is due to the fact that the civilization of the Earth has learned a certain lesson. If you don't solve it now, it will be postponed until an even later date and with even more serious consequences for descendants, because it was not resolved in time, when it would have been possible to get by with fewer losses for both sides. If you now drive all this into the subconscious and do not resolve it in a way that suits both parties, then this will lead to an even greater intensification of negative thought forms and a breakthrough of this painful source in the future. It will just accumulate. What can be done? I see that according to the tape of events, a favorable outcome for this situation is possible, which will suit both sides and other interested participants, but only if the majority of the conflicting parties realize a simple thing. The area for which the lives of embodied Spirits, the children of God, are now being taken, actually does not belong to either side that is fighting. The entire territory of the Earth belongs to the one who created it.

Maxim: Easy to say. But you understand that our transparent government structures have a completely different opinion at this level of awareness of the perception of who created all this and who controls it all.

Irina: In any case, if they position themselves as religious people (and they are forced to do this in front of voters), then they cannot say that no one created this Earth. If the people simply turn to the Government with such a question, then they will answer who created it. And according to all the norms of both galactic and earthly law, the

entire Universe belongs to the Creator, not to mention the Earth. If the Creator allowed his children in dense material bodies into this territory, he did it for a reason, but so that they could learn to live with each other in harmony, love and understanding. But provoking each other to negative vibrations leads to the accumulation of negative karma and rebirth in a previously hostile people. Therefore, Zaliatar, MidgasKaus, LiSioni and all other representatives of the Interstellar Union and the Galactic Federation of Light call to turn to the spiritual mind, distract from the instincts of self-preservation, leadership and negative blocks of anger, revenge, resentment and other low-vibrational states and remember the God you love, for whom all people are children. The entire territory of the Earth is given to you to live in harmony, happiness, love. There is a law in the Interstellar Union that does not separate political beliefs from spiritual ones. According to the Interstellar Union, Irina and other contactees, including the ancients, have repeatedly said that no part of the Earth can be worth the life of an embodied Spirit, since it was the Creator who gave the life force to the Spirit for incarnation. Therefore, anyone who thinks differently is actually going against the laws of the Creator. Even those who do it know this. The Interstellar Union has never stated anything different. Such conflicts only delay your entry into the Interstellar Union.

38:00 How to find a curator? Communication with the Higher Self. School of contactees.

Question: Let's talk about curators. How to find them?

Irina: How to find curators? Thank you, Zaliatar. When we participated in the retreat, we reached out through the Higher Self to the supervisors of each person. First, I suggested that the person relax, enter into a state of slight relaxation that resembles meditation, an altered state of consciousness in which the Spirit was distracted from the perception of the material world and directed attention to its spiritual channel, which for every person is located above the 7th chakra. Some teachings call this channel a separate chakra (above the crown of the head). According to the terminology of the Interstellar Union, this is a spiritual channel. When we pay attention to this channel, we come into contact with the Higher Self. Then, through it, we ask what the goals and objectives of the incarnation are, whether the person fulfills his tasks, and whether he is a contactee. There were such questions. If the answer was that it is (and such answers were in the overwhelming majority of cases, only the contact was

unconscious), then we asked the Higher Self with whom this contact was taking place, how long ago and for what purpose. Then we found out whether conscious contact is possible at this stage of consciousness development, and what is needed for this. The Higher Self answered all these questions.

Maxim: We will do this and train contactees in our School of Contactees. We will establish contact with our curators and mentors through the Higher Self. The main goal of the project is to give people feedback that they are not only a body, but also an embodied Spirit. And give the opportunity for direct contact with your spiritual nature. We will also teach access to the astral plane.

40:24 Retreat in Abkhazia.

Question: When is the next retreat planned?

Maxim: The next retreat is planned in Abkhazia for the New Year. And it will be called “Quantum transition into the New Year.” There will be a very cool program: a show, a training program, trips to Lake Ritsa, mountains, places of Power, communication with the Spirits of nature (mountains, steppes, forests). The planned temperature in Abkhazia at this time is approximately +15-200C. Plus there is a heated pool. We will announce when we agree on everything in terms of cost, so that people can come, relax and spend time with us. The approximate date of the retreat is from December 28 to January 7.

42:02 When is the School of Contactees planned to open? Conditions and training program at the School of Contactees. “Pay according to your heart” condition.

Question: Access to the astral plane.

Maxim: We will learn how to enter the astral plane at the School of Contactees. The School is currently undergoing renovations.

We plan to launch the School approximately at the end of October-beginning of November. The first to get there for training will be the

contactees whom Irina has already confirmed, and the volunteers who are helping the project develop - doing translations, transcriptions, etc. The rest will go to school after the New Year. Payment for tuition and accommodation - according to the “donation” system, i.e. according to your heart, in the form of a donation. There is also a condition that in the future, bringing your knowledge to the masses, helping others build schools around the world, you will also work according to this system. What will you get from this? Possibility of living and holding events at any Cassiopeia School on “donation” terms. We completely transfer the entire transfer of spiritual knowledge to payment according to the heart. I believe that this is absolutely invaluable knowledge, it has no price. This is what our project is based on. Money is not evil, but a way to achieve certain goals; you cannot buy spiritual knowledge with it. You need to understand that everything that concerns matter is lower in vibration than that that concerns spiritual development and the Spiritual world.

Irina: Yes, indeed, money is a part of our life. This is the same form of material energy, which is the same as the energies that surround us, for example, the same light or electricity, only they can be perceived by our body. Money itself denotes the value of things and services that people themselves have invested. This is a form of material energy of exchange between people of certain goods and services. Money is not evil. Life itself is neither good nor evil. It is a container for what people themselves will turn it into. Also, money is a tool for achieving both good and evil goals.

Maxim: I apologize, but at the beginning of our meeting I did not name Larisa Terpugova, a master of cosmoenergetics, who taught at our visiting School in Loo, she began to construct and unite with the energies of the Pleiades. We have achieved very good harmonization.

45: 55 Ancient satellite of the Earth “Black Prince”.

Question: Tell us what kind of ancient satellite flies above the Earth, which is called the “Black Prince”? What kind of ship is this?

Irina: This ship belongs to several civilizations of the Galactic Federation of Light. And in fact there are several of them, they replace each other. They are unmanned. Collect information about radio and

television broadcasts of the Earth in the radio wave range. Representatives of the Galactic Federation of Light, using special automatic programs, i.e. robots process this information to track political, religious, scientific and cultural trends in your society.

46:55 How many embodied parts does one Higher Self have?

Question: Is it possible for one Supreme Self to have many incarnations?

Maxim: No, it's impossible.

Irina: At the same time, no. The Higher Self is the disembodied part of the Spirit, which has only one embodied part.

Maxim: If we are talking about this time.

Irina: Yes, of course.

Question : How to get to the School to study?

Maxim: Follow the information. When we open the School, there will definitely be a phone number where you can get all the information and sign up for training.

47:36 The name of Christ on Burkhad. Yeshua. Doubles and phantoms of Christ, Christ consciousness.

Question: What is the name of Christ in Burkhad?

Irina: Yeshua.

Maxim: It is very difficult to visit Christ, because... he has very strong energies. Not everyone, even those who are prepared, can withstand

its energies. Therefore, he creates avatars for himself, doubles, the so-called Christ consciousness. Meeting him is a very expensive energetic pleasure. We tried to meet him in person, but we are not yet given such an opportunity due to the fact that Irina is not ready yet.

Irina: In the astral plane, many met his phantom. Any Spirit (incarnate, non-incarnate, plasmoid) can create several of its phantoms, which depends on the amount of its energy and the ability to control these phantoms. These are copies of the astral body with an embedded program. I would like to note the session of Guzel, a contactee with the Pleiadians, when representatives of many civilizations came from the Galactic Federation of Light. When I was at this session, leaving my physical body (consciously) and going into the astral plane, I saw what was happening. Many representatives of Pleiadian civilizations, for example, the Raom-Li civilization, create phantoms in the astral body that can diagnose and treat people. These are energy copies that can create forms of life energy and restore people's energy. And I saw that Guzel also creates phantoms. Only for her this process occurs semi-consciously. I saw how a phantom was separated from her physical body simply by her desire to help a person, because... She didn't have time to approach everyone. This is what her mentors taught her. Since Christ is a high-vibration Spirit and a conscious being of Light, he has many millions of phantoms not only on Earth, but in all worlds that contact the Spirits embodied there. His phantoms exist in the Spiritual world, egregors, various healing systems, etc. They involve the transfer of information, energy, etc.

51:12 Is it possible to study online at the School of Contactees?

Maxim: As for learning contact management online, this, alas, is impossible. You can only try to work with energies. Try to somehow upgrade yourself, organize some courses, but not training in contact management. This is an individual task, and there cannot be a general recipe for how to become a contactee. When you arrive, there will be an adjustment of contact with your Higher Self, through which an adjustment will take place with your curators and mentors to determine your tasks for this incarnation, what and how you will work next, how you will help people be in conscious Light and Love.

52:18 Adrenochrome. The purpose of distributing videos accusing someone of crimes. Do reptilians need adrenochrome?

Question : What is adrenochrome? Do reptilians need it?

Irina: We are not ignoring the question about adrenochrome. MidgasCaus already answered. We will answer again. Adrenochrome is a substance that is formed as a product of adrenaline metabolism, and it is secreted in every person. There are now many videos showing that children are allegedly being killed for it. The comment of MidgasKaus and Raom Tiyan was unequivocal: such videos that accuse someone of crimes (for example, possession of adrenochrome, organs, sexual crimes and other reasons) without direct evidence in the public space, causing negative emotions directed against rulers, were not created for in order to tell the people the truth. And in order to create in the Earth's noosphere the image of such rulers who are capable of doing this. A negative image of rulers helps to attract to this position those people who will for a long time pass laws negative for your countries. Only directing the Light of Love to those people against whom you are being pitted will help to really change the situation. The Interstellar Union is not aware of any narcotic effects of adrenochrome for the reason that it is a processed product and is present in every person. There is no need to enter it separately.

As for reptilians, their metabolism does not allow the absorption of this substance at all. They have completely different hormones.

55:12 People of Israel, calls for war, religion.

Question: The people of Israel create wars, as they are supposed to do according to their religion.

Irina: LiShioni says, if you are talking about some provisions of the Talmud and the Torah, which were aimed at describing religious and political conflicts in the territory of ancient Israel, then these were sacred texts and parts of the chronicles from which a single canon of holy scripture was created. In addition to the texts, there is a tradition of their interpretation by leading Levites, priests, Talmudists, etc., i.e. sages of this religion. In fact, in the holy books of all ancient religions one can find a description of the justification for military action against each other. This was due to the fact that all religions were not formed in a homogeneous environment, but among representatives of other

religions and nationalities, who naturally resisted the advancement of the new egregor. If you look up the wholly Christian document at that time, The Hammer of the Witches, which was written by two monks and was based, among other things, on some idea of the Bible, and was accepted as authoritative in the church, you will see a description that is in many ways superior to that of the Talmudists. But in any case, no one now considers this a doctrinal text in the practice of law enforcement that existed during the Inquisition. The same is true with the Talmud, and, for example, with calls for war with the same Canaanites or with the Canaanite people. No one now recognizes these texts as direct instructions to action, because... everyone understands the historical context in which these words were spoken.

Maxim: I think this is a separate topic for conversation, and it does not relate to the topic of our retreat.

57:51 Training program at the School of Contactees. Use of advertising on the Cassiopeia YouTube channel.

Question: How long will the training take?

Maxim: The first stage of training will take 7 days. During these days, you will have to learn to communicate with the Higher Self, our curators and build contact in order to further introduce other people through the Higher Self and build contacts with them.

By the way, please subscribe to our channel because many people don’t see announcements about live broadcasts. And if you can leave your comment, you will help us move forward. YouTube began to block us a little, it forces us to open advertising and start earning money for him. That’s why we are very rarely included in playlists or views; we were given three offers for commercial advertising, which we refused. And statistics show that the number of views of our video began to drop significantly. Therefore, dear friends, subscribe to our channel, leave comments, recommend viewing. We will not place advertising on our channel, this is done for your convenience.

Yes, I protect and will protect Irina from all destructive individuals.

Irina: I want to emphasize that Maxim is doing the right thing by supporting the topic that we announced today. He doesn't quite succeed, because I try to answer the questions that I see, and he, as a man with a more organized mindset, and I am grateful to him for this, leads the conference and returns the conversation to our topic and answer your questions. But since I am in a state of contact, sometimes it goes unnoticed and I react to the questions that I read. Maxim understands this and tries to return the conversation to the topic.

0 1:00:55 Do other civilizations listen to the music of the Earth?

Question: Do other civilizations listen to our music?

Irina: Yes, if it gets into their devices, that is. if the radio waves are picked up by their ships and unmanned probes. Those radio waves that have flown away on Earth for 3-4 light years are already significantly distorted by the radiation of outer space itself and cosmic dust. Only those radio waves that are detected directly near the Earth have decryption value. We can convert them into quark-gluon bonds, which instantly propagate, unlike radio waves, throughout our Galaxy, and then reproduce them in the form of music, images, text, etc. But I want to emphasize that the devices of hearing aids are different for all races, and even more so the resolution of our reproducing devices is different. Therefore, what comes out is not always even remotely reminiscent of what you hear.

0 1:02:32 Website of the Cassiopeia project.

Maxim: I want to tell you the news. We will soon have our own website where we will transfer all our videos so that YouTube cannot control us in terms of advertising. What else do I want to say? We have many contactors on the Internet who charge money for answering questions. Recently, a certain contact with Ashtar Sheran appeared, who says that we are talking all sorts of nonsense. So, I turn specifically to him. I suggest you (you know who I'm talking about) get in touch with us and talk about this "nonsense". We will invite Ashtar Sheran to a meeting and will be happy to talk with you about your family connection with him. By calling yourself the "brother" of Ashtar Sheran, you discredit not only the Galactic Federation of Light, but also all contactees who transmit knowledge for free. When we, contactees,

are given this Knowledge, they do not take any money from us. Therefore, we will also continue to transfer knowledge free of charge.

Thank you all very much! Subscribe to the channel, write comments, because all this promotes us. Then, when there is a website, there will be no need to do this.

Bye everyone! See you again!

Irina: Bye everyone and see you again!

Live broadcast 10/04/2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

MidgasKaus from the planet Esler - biologist, psychologist and specialist in alien civilizations;

LiShioni from the planet Shimor is a specialist in the astral world and energy interactions;

Zaliatar from the planet Raom-Li is an astral healer, a specialist in traveling to the Spiritual World and predicting the probabilistic future.

Video in text
February 15, 2023

#147 Conference in Anapa: Alternative energy sources. Application in human treatment. (part 1)

https://blog.cassiopeia.center/konferenciya-v-anape-alternativnye-istochniki-ch1
https://www.youtube.com/watch?v=FVEoIB-QH4w

00:00

Irina: Hello, my name is Irina Podzorova, I am a contactee with extraterrestrial civilizations, today we are attending a conference in the city of Anapa, and with us now are two representatives of the planet Esler: MidgasKaus - my curator, biologist, psychologist, specialist in alien life forms, and LagiOris is a biophysicist, and he was the curator of our physicist, whose name was Sergei Kapitsa.

Also present with us are PiosNior from the planet Esler - an art critic, psychologist and LiShioni from the planet Shimor - a specialist in astral interactions, Raom Tiyan from the planet Burkhad - a specialist in energy interactions in the environment.

There is also a representative of the plasmoid subtle-material civilization of the 13th density level; he is the Spirit of a certain place in nature, namely the north of the European part of Russia, the Kola Peninsula, a little to the south. His name is Kloya, and he is part of the Kryon system. Representatives of alien civilizations and subtle-material civilizations that are present here in astral bodies are ready to answer the questions provided.

Andrey : My name is Andrey Viktorovich, Alt Energy company. We have been working on alternative energy sources since 2007-2008, there is a lot that is interesting and developed, but there are also

questions that we cannot understand when measuring with our instruments. Therefore, we ask the Cassiopeia team to dispel our doubts, help us understand the right path, how to develop further.

03:02 Kozyrev's mirrors and their effects on humans. Strengthening spatial energies.

Andrey: Can Kozyrev's mirrors harm a person? There is a person here who tested them and had a negative experience. Kozyrev's mirrors enhance the state of a person when he enters the mirrors, enhancing qualities both good and bad. Is this true or not?

Irina: MidgasCaus replies that they do not use such devices on their planet, there is no need for it. We are already taught from childhood to feel spatial energies and the astral world.

Kozyrev's mirrors not only return a person's own ethereal waves, but also enhance spatial energies, which are intermediate between the dense material world, the subtle material world, the Spiritual (astral) and plasmoid worlds. Handling them incorrectly can cause harm, but they themselves are neutral as a tool. If a person enters them with energy blocks, with a lack of understanding of the process that can happen to him, with the expectation of a miracle, for example. The image of this miracle for a person is positive. And when this is not done, subconscious images may emerge in memory. He may be afraid of them and with this fear disrupt the balance of energy, and there will be a negative experience. Negative consequences for physical health may also occur; plasmoids, which have a parasitic structure, and disembodied spirits from low worlds may be attracted. Simply put, this opens a temporary portal to different worlds in that person's aura. Not all people will feel this, some are not tuned to these frequencies, and will not feel the changes. If a person is not sensitive, then he can even sleep there.

06:06 Impact on water by frequencies. Structure of water. Atom model.

Andrey: What happens to water when it is processed at 17.7 and 13.8 Hz?

Irina: When processing frequencies up to 28 Hz, processes similar to the flow of sound energy occur. What is regular water? This is a liquid in which certain salts are dissolved; they are there in a microcrystalline state (ions). Ions, depending on which salts. When any kind of energy is introduced there: sound, magnetic, electric ions will combine into larger ones and deposit like a film on the walls of the vessel.

Andrey: There is 60% empty space in the crystal lattice of water, so they can absorb a large amount of salt and absorb it. Empty spaces in the grate can be filled by water. We do not evaporate anything during exposure.

Irina: You create sound with an electric field, and in this flow, along with the sound, electrical energy comes out, which you call electrons. The flow of outgoing electrical energy is less, it may not be measured by your devices, but it is there. After all, the device is electric, and in any case there is this field around it.

Guest: This is an electrical device, the mechanics are exactly the same. There is simply a system that produces these frequencies, but not electrically, but mechanically. Same drum.

Irina: Just the very fact that this device has it, it already creates a field.

Andrey: The device runs on electricity, but it creates air pressure of a certain frequency - the membrane of the speaker itself creates the frequency and pressure.

Irina: On the astral plane you can see that an electric field is still created in any case, even around this device when it is working. We call this electric and magnetic field. That is, the first-level energies that exist in the atom create waves in the air, for example, 17.7 times per second (17.7 Hertz). These waves are not created mechanically, as from waving a hand, but with the help of a device. This means that there are already changes in them. And it all goes into the water. Therefore, the question was asked: what does a vessel of water consist of, what is the specific heat capacity of the material from which

this vessel is made - all this will matter.

Andrey: Do different changes occur depending on the material of the vessel with water, temperature and other external factors?

Irina: Yes, these waves do not hit the water evenly, but spasmodically. For example, calcium ions surrounded by water molecules lose their attachment to the water atoms, you call this valency. For example, a calcium ion in a dissolved state in water will in any case be surrounded by molecules. When a flow of energy jumps into water, these jumps disrupt the attachment of the ion to the water atom. The ion becomes free, and similar ions begin to approach each other and line up, they are pushed away by these waves from the center of the so-called clot, cluster, the colloidal structure is disrupted, and clusters of calcium ions settle on the walls of the vessel, like a microfilm, which will consist of part of these ions , knocked out from surrounding water molecules.

The same thing happens with chlorine ions. If you take sodium chlorine and make a saline solution (9 grams per liter of water), then the sodium atom will become an ion, since it will not be able to stay in the solution. The ion seemed to have lost one electron, which, like a proton, gave it a positive charge. This is your explanation, ours is different, we do not have a planetary model of the atom. The chlorine atom will also become a negative ion, as if it had acquired one electron. That's how you teach. And we say that one state of a substance has passed into a dissolved state, as if accumulated into the state of water; it is invisible to the eye, but is present in the solution. The sodium atom is surrounded and the chlorine atom is surrounded, all their properties remain. If you pass electrical energy through a saline solution, chlorine will even be released, as you know. If we pass a sound wave with a small amount of electromagnetism, we will get a decrease in the concentration of ions in the water, but not its complete purification. This flow is not enough. On the walls of the vessel there will be a microfilm consisting of sodium and chlorine mixed with water atoms, which will be on the inner surface of the vessel.

Andrey: That is, clustering is lost, but it’s not going away. It sticks to the walls. Depending on the material of the vessel, the effect on water will be different.

Irina : If it is a metal, then the water can either go into dissonance or into resonance with the atoms of this metal. The acid-base balance of water depends on the salts dissolved in it. If there are more negative ions, then it will be an acidic reaction.

Andrey: How to check the structure of water - is it clustered or already structured?

Irina: A device with which you can observe molecules. For example, an electron microscope. You can see the sodium atom in it. Your scientists say that the movement of electrons is so fast that it cannot be detected by your instruments. But we do not have a planetary model of the atom, and we consider the particles of the atom to be various types of energies, which we measure in quanta, the smallest portion of energy.

How to check the structure of water? It is possible through living organisms that are not subject to the placebo effect. You can check it through plants, they also feel good. They will not only grow better, but the weight of the fruits will be different, and the content of substances in them will be different with the same mineral feeding.

You call these clusters, but we simply call them a network. The more molecules there are in a network cell, and the more it is built into three-dimensional hexagons and patterns, the easier this water will penetrate into living organisms through the membranes of their cells. Not only penetrate, but also carry away toxins. Any water can penetrate into cells, but in different percentages depending on the structure of the clusters. Due to the formation of a microfilm of carbonates and sulfides, water will better dissolve the same substances in the soil, and it will have more capacity to dissolve the substances. Alkaline solutions of soap products produce more foam than without salts. In water with a lot of salts, there is no space left between the molecules to accept soap molecules.

Andrey: In this volume we get different areas of the walls of the vessel, and from here a different effect occurs.

Irina: It also depends on the shape of the vessel, a round shape is

better, everything will be distributed more evenly there, the sound will be reflected from the walls and will increase itself.

Andrey: Will it stay inside the water or will it go into the walls?

Irina: If it is from neutral substances such as glass or products based on polymer structures where the monomer is a hydrocarbon, then these materials are not able to contact ions to a significant extent. It is necessary to make a vessel from active metals. For example, you make vessels from aluminum, but it is better if they are coated inside with a layer of magnesium.

Andrey: What if it's made of plastic?

Irina: A film also forms on the walls, but it is more mobile.

Andrey : Then when we pour out the water, will we add salt to it?

Irina : If you pour slowly, and the outflow of water is not from the edge, then almost everything will remain. It depends on what the volume was and what the intensity of the sound flow is, not only in Hertz, but also in the amount of electricity you spent.

25:15 How to record information on water? Duration of information retention by water. Holy water.

Andrey : How long does water retain information? How to record information on water? For example, prayer. Water carries 12 properties - salts, PH, structure, information, charge, etc. How to write down information correctly so that it can have a beneficial effect later?

Irina: If the water is at rest without surges in pressure and temperature, without people's emotions that are opposite to this energy that you put there, there is no wind and changes in fluidity, then information can be stored in it for a very long time, up to ten years.

Andrey: Epiphany water, but it is charged in a different way. We are talking about the impact of human frequency or sound vibrations.

Irina : Any clusters can be preserved in this way if there are no significant factors that can cause a change in flow, pressure, temperature, etc.

27:08 Effect of Grebennikov's cavity structures. Spatial energy. Antigravity.

Andrey: There is a Russian scientist Viktor Stepanovich Grebennikov, he discovered the effect of cavity structures. Based on this, he made other developments, a gravitational plane on which he moved. Under the wings of the bugs, he found a structure that he could recreate, and then learned to control it. He began to carry out controlled flights, violating the law of gravity, i.e. changing gravity.

Irina: What you called antigravity can be completely different energies. Can you briefly explain what it is?

Andrey: Grebennikov studied bees and asked all beekeepers in Russia to conduct one experiment and see how it would affect their health. Empty honeycombs, called sushi, were taken and placed horizontally on top of each other. The person had to sit under these honeycombs. At the same time, changes occurred in the human body. Many wrote to him about what happened to them. Then he made a stick, put a lot of structures into it, and hung a small thing on a string in the flask, without any pressure, etc. When he brought a stick to the flask, the thing began to rotate. The effect of cavity field structures, which has no barriers, it passes through concrete, metal, etc. We cannot feel it, although it is there. If we learn to use and apply it, it will give us a lot of interesting things.

Irina: You need to look at what energy passes through concrete, earth and people.

Andrey: Directed field.

Irina : Maybe he used gravity itself for this? Or the free energy of the vacuum?

Andrey: He recorded the direction of this field - now he directed it here, and the object began to rotate, but nothing rotated in another place.

Irina: The main thing is how he received it, that is, what kind of energy?

Andrey: Plates like a honeycomb with the correct geometry created a directed flow of energy on their own. They probably took energy from the ether and directed it, but what kind? What and where were they sent? I tested it on myself - I bought dry food, installed it, and diagnosed the body's condition with instruments. The condition was improving.

Irina: The very structure of the six corners in space transmits spatial energies through itself in a different way. It has the property of strengthening them. Raom Tiyan says that to suppress the Earth's gravity, it is not enough to place the honeycomb on the ground. Because by increasing gravity, increasing energy aimed at suppressing gravity, this structure must take something in any case. Perhaps he transformed some kind of space energy - cosmic, solar (which is called hard radiation), atmospheric electricity, terrestrial magnetism, the energy of gravity itself. You need to get to know each other in detail. This structure itself, like the pyramids and Kozyrev's mirrors, has the ability to amplify and somewhat distort, and direct any energies in the other direction. And what exactly did he use? You need to look at how much of it there was, and what came out of it?

Spatial energies are a field. And it is the object itself that is made of them that makes it directed. Maybe he was extracting energy from a sunbeam? Then it would be written that the device operates in the light.

Andrey: He flew at night too, he was invisible. He fell into some kind of ball, and no one saw him. When he was studying the wings of a lionfish, he put one wing on top of the other, one began to levitate, and

he wanted to take the lower one with tweezers. And I stopped seeing the tweezers. He noticed this effect and began to investigate.

Irina: When any insects fly, they use the laws of aerodynamics; in any case, antigravity does not manifest itself in this form. Because the power of the animal itself does not create antigravity.

Andrey: We told you that the cockchafer cannot fly without creating special conditions like additional pillows.

Irina : An insect is a living organism, unlike an airplane and an airship, it embodies part of the insect's group soul, and the life force also helps push off the ground. They do this unconsciously, this is how their group soul is tuned.

To do the same to a person, you need to direct his vital energy vertically downwards. You need to have the power of mental images and believe that you can take off. Faith is the main factor in controlling reality, including your energy. There are people who know how to walk on water, on grass without crushing it, etc. Then he (Grebennikov) had to write that he believed in all this. It is impossible to speak in detail here.

37:31 Garyaev's matrices - the effectiveness of the technique. Color therapy. Methods of rejuvenation.

Andrey: The next question is about the matrix of Petr Petrovich Garyaev, there is such a scientist at the Institute of Linguistic Wave Genetics, I recently met him and studied his work. What do they do? They take a child's photograph, read with a laser the strength of the body when the child was growing and was in the development stage, then they translate this into a sound wave, which you turn on this sound and recover. The frequencies that you had in childhood, when there were proper growth effects, enter the body through the hearing aid. There were cases when a 70-year-old woman started menstruating again, a 20-year-old guy who crashed on a motorcycle and spent 3-4 years with a spinal injury recovered after treatment and began to live a full life. These facts are documented. In a laboratory in Canada, he conducted tests on rats. They were injected with a cancer

cell, and when people placed these rats from the sound emitter at a distance of 0.5 meters, 1 meter, 5 meters and up to 20 km, and turned on this sound, then all the rats located next to the emitter recovered. After that, the laboratory was closed, all information was taken away, all research and funding were stopped under the pretext that all this was contrary to medicine. He proved the mistake of one man who received the Nobel Prize for his research in linguistic wave genetics.

Irina : This scientist is a contactee, very reminiscent of Esler's. As for his theory. That laser beam, which was directed across the photo not just chaotically, but along certain trajectories, read not facial features, but energy. Any photograph saved in paper form bears the imprint of the energy of the life force of the person who is captured on it. If a person was a child, then the information of his energy structure in the astral field will overlap the information of the physical body, and the opposite effect will result. In space there is not only the physical world, but also astral fields, mental fields, the Spiritual world, etc. The photograph reflects the picture of all these worlds, we just can't see everything. The photo leaves an imprint of the space-time segment, like a cast of space and time. This can be transferred not only with a laser beam, but also onto water - by placing a glass of water on a photograph, this process will just be slower.

This scientist sent a beam of energy, and this device remembered this energy. The beam itself acted not as a memory part, but as an indicator or tentacle, and the device from which the beam came remembered the energy parameters. The laser can be converted to different frequencies; it worked with sound, but it could also work with water. It is also important that these frequencies coincide with the frequencies of a person at this moment in time. If a person has changed a lot with age and has acquired many energy blocks compared to childhood, then the method will not work. The structure will become alien to his body.

If a person is more or less similar in energy to himself in childhood, then the effect will be positive. The cells of each organ consist not only of physical matter, but also of ether, where there are projections of all organs. It is on the etheric projection that sounds act. And if you drink water, information will be delivered to every cell of the body.

Andrey: Then it turns out that we can put water on a child's

photograph, it will count and be charged with information. We'll drink it and that's it?

Irina : It is better that this water is already structured for greater dissolution in the body. And it will be easier for water to perceive information. It is advisable to do this without bright light or sharp sounds from the outside, so that photons and air vibrations do not interfere with reading what is there. You can place water in a thin-walled glass vessel in a darkened room on a sheet of colored paper and activate the chakras and organs in this area. This method is called color therapy. It is used not only on Esler, but also on Earth.

47:47 Solar batteries - connection with plasmoid civilizations. What energy spectra, besides solar glow, can be used on the Earth's surface?

Andrey: Is it possible to ask solar plasmoids about their relationship to solar batteries? Can they tell us what other energies we can take from the Sun, besides insolation?

Irina : Kloya wants to answer. He says that although he is not a solar plasmoid, I know them well, I cooperate in the process of working with the energies of the solar system.

Cloya is a plasmoid of the 13th density level, responsible for the Earth’s magnetosphere and its harmonization with the magnetosphere of the Sun. The sun, like any star, is an energy formation that provides a very large amount of energy every second of time. And regardless of whether it dissipates in space or not, it will still stand out. It is supported not only by thermonuclear reactions of transformation, for example, of hydrogen into helium, like any dense material object, but also by the energies of the Spiritual world. When they say that the love of God nourishes man and the stars, this accurately reflects what is happening. If some star does not have a dense material civilization nearby, this does not mean that there is nothing living there. The concept of “life” is much more multifaceted than terrestrial biologists try to imagine it. God loves all his children, i.e. intelligent spirits, wherever they are embodied. To your scientists, this looks like talking about religion. For plasmoids, the Spiritual world is more felt, for them it is natural. Even for the representatives of the Interstellar Union who are

here, although they are humanoid and live in dense material bodies, the concepts of religion, esotericism and science are inseparable; they do not separate these concepts from each other. They constitute a single knowledge about the Universe. I say this without causing requests for proof of the existence of the Spiritual World, since such a request to prove the obvious would be strange.

Plasmoids for using solar panels so that their brothers can use this energy, although they are in dense bodies. The body must not only be nourished, but also maintain, move, generate heat, and maintain its existence in every possible way. Plasmoids will be pleased to know that their efforts to maintain solar energy are not in vain. Near the Sun there are 17 plasmoid civilizations of different density levels.

Andrey: Besides solar glow, what can we receive from the Sun? What energies do we not use and can we use on the surface of the Earth?

Irina: On the surface of the Earth, you do not use those that are not transmitted by the atmosphere, and which are not only reflected by the ozone layer. You use visible light, infrared, near ultraviolet. But you cannot yet receive far ultraviolet radiation; there are no technologies or materials to receive it. The Interstellar Union has instruments that extract X-ray and gamma radiation.

55:06 Bionics - panacea or prevention.

Andrey: Question about bionics as a science. Do all its frequencies and effects on various organs, moral qualities, and mental state of a person correspond to reality? Can we, using knowledge, influencing water and consuming it, solve human problems and heal specific organs?

Irina: MidgasCaus will tell you like a biologist. Sounds have an impact on a person, regardless of whether he hears them or not. It depends on the psychofactors of the person. If you have studies that classical music has a beneficial effect on a person, and rock music - on the contrary, then I can say that this is not true in all cases. Depends on preference. The body may experience low vibrations with a fast rhythm (as in rock), but if its Spirit likes it, then it neutralizes the negative

impact and it becomes positive. And if classical music increases productivity in animals and plants, but they do not have the same intelligence as humans, they cannot appreciate it, they only feel the vibrations. A person has a spiritual appreciation for this music. If classical music is not part of a person's sphere of preferences, it will, on the contrary, irritate him, and he will not receive anything useful from it. If he is neutral, he will be able to benefit.

You have tables that list organs that work according to certain Hertz. There are individual differences between people, but they are not that great. There are different diseases - parasitic, infectious, organic pathologies, psychosomatic pathologies, or a combination of all these reasons. Let's take, for example, scarlet fever caused by streptococcus, and heart damage caused by it and leading to myocarditis. We can influence the heart with the frequency that is responsible for it and is characteristic of a healthy organ. But if we do not suppress or destroy streptococci, then the effect will not last long. Here we need to act comprehensively. Streptococcus itself is an aggressive microorganism - it causes disturbances in the immune system and blood count; it is called hemolytic, as it feeds on red blood cells. Iron and vitamin B12 obtained from food are partially used to feed these microorganisms and strengthen them.

When I make a diagnosis, I look at immunity, and what drug can suppress the development of streptococcus. If immunity is low, then I give drugs that stimulate it.

I am a supporter of an integrated approach to treatment.

What you say is one of the auxiliary methods. It can speed up recovery and reduce complications. For prevention, it is necessary to use stimulation of the immune system, and the pituitary gland and thymus gland are responsible for it, as well as the lymph nodes, which produce the main immune cells - lymphocytes. They are only 30% of all leukocytes, but they teach the remaining leukocytes to fight pathogens and not to fight products and substances that are safe for them, that is, not to cause allergic reactions with the release of histamine.

07.10.2020

Present:

Irina Podzorova – contactor with extraterrestrial civilizations;

Andrey - Alt Energy company;

MidgasKaus from the planet Esler - biologist, psychologist, microbiologist, specialist in alien life forms;

PiosNior from the planet Esler - art critic, psychologist, specialist in the transmission of sound vibrations for the purification and harmonization of space;

LagiOris from the planet Esler - biophysicist;

Raom Tiyan from the planet Burkhad is a specialist in energy interactions in the environment of the material world;

LiShioni from the planet Shimor - sociologist, specialist in the astral world and its interactions with the material world;

Kloe is a plasmoid from the Kryon system.

#148 Conference in Anapa. Energy: sources, types, transformation. Prospects for the development of science. (part 2)

https://blog.cassiopeia.center/konferenciya-v-anape-ehnergiya-istochniki-vidy-ch2
https://www.youtube.com/watch?v=B19f4xm5wn4

00:20 Effect of lightning on the structure of water.

Andrey: People who came from different cities sent us their questions in advance. I want to voice them so that Irina and our guests can answer them.

Vitaly from Timashevsk asks: “How does a lightning discharge change the structure of water?”

Irina: In a natural source, in an open vessel or in open space?

Andrey: In open space and in a natural source.

Irina: They show me that when a discharge hits water, this energy of atmospheric electricity, collected in one place, causes the beginning of a wave that diverges, and spiral-shaped movements of all molecules appear inside the molecular structure of the water of this natural source. They line up in a certain order, that is, only in a spiral manner, starting to rotate like a funnel. Due to the fact that water in an open source is exposed to wind, especially during thunderstorms, sound and many other factors, it is very difficult to take all this into account. Structures that are lined up in a spiral are destroyed, and then begin to

float chaotically again.

Andrey: So the discharge passed, destroyed something there, and then the water becomes the same again?

Irina: Yes.

Andrey: And there are no changes in the water?

Irina: If this happens in a natural source, then no.

Andrey: So there's nothing left left?

Irina: No. It is in the molecular lattice that nothing changes: the discharge through the water goes to the bottom, into the ground, and the structure of the water is restored again.

02:47 Rejuvenation through thunderwater, fact or fiction. Physical immortality of Jesus Christ through changing his DNA.

From the audience: Irina, there is such an effect that water has such an effect on a person who drinks this water - he stops aging. There is evidence confirming this fact - for 15 years a girl has been drinking water through which she passes artificially created lightning, and her aging has stopped. There are people who catch these lightning themselves and look young, but in fact they are 96 years old, for example.

Irina: There are probably people here who have at least once swam in a pond during a thunderstorm. In any case, if lightning is directly overhead, then it can pass both in this source and next to the person, but this does not stop aging. This term is considered incorrect, because if aging stops, it means that the DNA structure changes. And a change in DNA is, practically, a change in the program that causes cell destruction, that is, a change in the death program. In your case, cell regeneration is most likely happening here. And this is a slightly different term and completely different consequences for the body.

Raom Tiyan says that he stopped aging and completely erased the death program in the DNA of the Spirit of Jesus Christ when he returned again to the body. His body is now, due to this, immortal, that is, he is the only physically immortal being in the Universe with a physically immortal body. He cannot die unless he is killed again and his body is incapacitated. And he himself cannot die or get sick with any diseases that cause the destruction of his cells. He has this structure completely changed, but not due to lightning, but due to his divine energy, which he used when returning to his body. After all, his life thread was already cut off after his execution. His body was restored by the Burkhadians when they took him onto the ship. In order for the Spirit to return, it was necessary to restore its life thread. But it is impossible to restore the thread of life without changing the DNA structure. It's like a chain reaction.

From the audience: So, here the destruction of cells, or rather DNA, responsible for aging, occurred?

Irina: If there has been a change in the DNA section responsible for aging, then the DNA should not change with age, and its physical structure should not be destroyed. Until they physically kill, death will not come on its own.

From the audience: This girl did not defeat aging, she slowed it down.

Irina: The rate of aging depends on the speed of metabolic processes in the body, the level of intoxication, stress and many other factors. Raom Tiyan says that this particular effect has nothing to do with it, because there are many cases when people achieved the same effect with something else. And, besides, the power of this person's Spirit plays a role here, that is, his faith, which allows him to live and exist. There are people who slowly age even just from being tied to plasmoid civilizations that give them energy. And all metabolic processes and cleansing the body of toxins occur quickly. I know a man (Mead just reminded me), he looks like he's 19 years old, but in fact, according to his passport, he's about 45. And he really looks like he just came from the army. And when he says how old he really is, no one believes him until he shows his passport. And even after that they tell him that he forged his passport. When we began to find out the reason, since he himself was interested in why this was happening, we found out two

factors. Firstly, he had long-livers in his family. Mead even asked him how long his maternal and paternal grandfather lived, and he said that they lived long enough, and they died of natural causes at quite an old age. And Mead said that's the first factor that causes his metabolic processes to change and slow down aging, as you said. The second factor is that he still had a connection to a plasmoid civilization of a certain frequency - terahertz. That is, to the high-vibration plasmoids that fed it with their energy. And he was so compatible with them that it was actually reflected on his physical level. Plasmoids live for a very long time due to the fact that their body is thin-material. They transferred part of their energy to this person in a way that, in turn, was reflected on his physical level. Mead was still laughing that he had become a half-plasmoid.

08:34 Core, magnetosphere and magnetic poles of the Earth. Dark matter of the subtle world.

Andrey: Does the Earth’s core rotate or stand relative to the surface? What explains the movement of the Earth's magnetic pole relative to the physical one?

Irina: Mead says that now the outer layers are in a more liquid state, and they rotate, and the inner core, which is deep inside, is more dense and it simply vibrates. The Earth itself rotates around the Sun and around its axis, experiencing uneven movement and vibration. This happens, among other things, because the mass of the Earth itself is changing. And this change in mass comes, for example, from the redistribution of its structure due to mining. At the same time, not only the mass changes in it, but the very relationship of the tectonic structure also changes. All this affects its rotation, its axis, and it begins to oscillate in this way. And this also affects the core.

Andrey: So this is due to the fact that the human factor influences the Earth?

Irina: And because of this too, yes. Even a change in the Earth's magnetosphere affects the core because there is a lot of iron, nickel and other metals that are sensitive to the magnetic field. In addition, even the influence of the Sun's magnetic flux affects the Earth's vibrations.

What explains the movement of the Earth's magnetic pole relative to the physical one? Do you mean that the magnetic pole is at another focus of the earth's surface?

Andrey: Yes, exactly, that it is deviated from the axis.

Irina: What do you call the physical pole?

Explanations from the audience: The surface axis rotates - this is a physical pole. And the magnetic pole is now shifted - this is the center to which the compass needle points.

Irina: Mead is now showing me that the Earth is surrounded by an atmosphere, and there is a magnetosphere in it. The ionosphere is only its visible part; it extends further. The magnetic pole is the result of the influence of the magnetosphere on the Earth's core and on its surface layers of the atmosphere, that is, it can still vibrate and move. This is a dynamic system.

Explanations from the audience: Due to the fact that the core and magnetosphere vibrate, the magnetic pole shifts.

Irina: Yes, in general, all planets, all stars, and even small satellites and asteroids have magnetic fields, which you yourself cannot detect with instruments, but there is a magnetic field there too. Our instruments record it, and it is unique for each planet - everyone is individual. This depends not only on the geological structure of the crust and mantle of this planet, not only on the size of the planet’s core. This also depends on the vibration frequency of those plasmoid civilizations that live there, because this is also all taken into account. You just don't take it into account. You know that the majority of the mass of various Galaxies is made up of so-called dark matter and energy. What you call by this term are, in fact, the plasmoid worlds that you record, which are close in frequency to the dense material world, you simply do not see the details there, since you do not have enough resolution of the instruments for this. And the fact that the mass of dark matter and energy is many times greater than the mass of the part of the Universe known to you, the Galaxies, this just speaks to the fact

that stars, planets of the dense material world of third density, make up only a few percent of all material worlds. In total, there are 59 levels of density, three of them are physical dense material worlds, and 56 are precisely the subtle material world. You yourself can calculate how many times they exceed the exact amount of energy.

Maxim: So what we consider emptiness is actually the subtle world?

Irina: Yes. And we don't know anything about it at all.

14:01 Cold current. Thermal energy and other energies of the first level.

Andrey: Cold current. What kind of energy is this that cools the conversion sources?

Irina: A little more about the source of the transformation.

From the audience: When a structure with a magnet rotates, the environment in and around it is cooled, and, accordingly, the structure itself is also cooled.

Irina: What material is the magnet made of?

Andrey: Neodymium magnet.

Irina: What is cooling? This is a decrease in the amount of thermal energy. The fact is that heat is also a type of energy for us. What is refrigeration? This is a decrease in the amount of thermal energy in a particular material body or in a particular space. What is thermal energy? This is a type of energy of the first level, which reflects a physical sensation or, according to instrument measurements, reflects only the speed of vibration of atoms in space and energy. And if the speed decreases, then cooling is felt, and if the speed increases, then heating is felt. Why might this speed decrease? Because thermal energy is transferred to another. This is a transition of energies according to the law of conservation of energy. Not a single quantum

disappears or appears, it is only transformed. And this is called Transformation. Some new energy is formed, which is transformed into another.

From the audience: What energy is thermal energy converted into?

Irina: In this case, electricity is generated. And this can be measured by radio waves. It happens in different ways and it all depends on the speed of rotation. That is, you need to show all the conditions, which may also differ. Radio waves are also energy of the first level. In general, there are five types of first level energy: heat, light, electricity, magnetism and radio waves. Color is also energy, and it is different from radio waves. I understand that for us it differs only in spectrum, but for them it is simply a type of energy, and it is all energy of the first level.

17:06 Macro and microgravity.

Andrey: Gravity. How does it work, its physical basis?

Irina: Mead says that it was not in vain that he spoke about the first energy level of atoms. There is also a second and a third. The second is what you call radioactive radiation and what you call thermonuclear reactions, but for us this is simply the second type of energy. And the third type of energy, which is the deepest in atoms, is gravity. But it itself is also divided into two types: microgravity and macrogravity. What we call microgravity is that gravitational energy that allows atoms of substances to connect with each other and make dense matter. And what we call macrogravity is the energy that manifests itself through atoms in space and allows, for example, to hold planets around a star, rotate it, cause the force of inertia, the force of constant motion in a vacuum. Macrogravity does all this. Centrifugal forces are a reflection of macrogravity energies.

Physical basis. Am I really going to say that by physical basis you mean the source of gravity?

From the audience: Yes, particles.

Irina: We don't call them particles, we call them portions of energy. Here is a portion of gravitational energy, both micro and macro, called graviton.

Andrey: That is, that there is microgravity in this glass, that in the planets it is graviton?

Irina: Graviton. It is contained in all atoms and, naturally, in all atomic structures, from molecules to various monomers and polymers. Even in humans there is micro and macro gravity because the Earth not only holds you, but you also attract the Earth. Only your strengths are different. Naturally, the strength of this gravity depends on both the distance and the mass of the body. What is body weight? We distinguish it from body weight, because weight can be measured and felt by touching something dense. But we call the mass itself the number of gravitons in the atoms of this body. There is a directionality of quanta there. But, naturally, not only the Earth attracts you, you yourself attract the Earth, you even attract the Sun. Only the force of your attraction to the Sun will be less by the same factor as your mass is less than the mass of the Sun, and the distance is the same. That is, as you know, the strength of this gravity, namely macrogravity, depends on distance and mass. This is a well-known formula that the greater the distance, the less this gravity. Why is this happening? Because they, these gravitational fields, interact less with each other. And the greater the mass, the greater the attraction. Why? Because the greater the mass, the more this gravitational energy.

21:34 Energy structure of houses. Honeycombs, pyramids. Why do they put children in a corner?

Andrey : What is the energy of the house designed by Richard Fuller? A round house with a frame made of triangles?

There is an opinion that this round house of a spherical shape influences a person, and in the same way as, for example, Kozyrev's mirrors. When you live there with positive good energy, it intensifies in you, and when you are there with negative energy, it also intensifies.

Irina: This is some kind of insectoid house, very similar. You know,

what I want to draw your attention to (says Raom Tiyan) and explain: what is influenced by the shape of space created by certain edges, figures, angles. Imagine a square or rectangular room. What is a square or rectangle? This is some figure that has four corners at 90 degrees. If there is a flat floor, ceiling and flat walls, without any recesses, then what happens there if it is just such a flat room? And there there is a release of the vital energy of the people who will live there, animals, since they also release vital energy, and, in general, all forms of life, even plasmoid civilizations (the same Spirit of the house will live there, even if none of the people are there). Life energy, charged with certain positive or negative thoughts and feelings, will emanate from these people, but it will not simply spread evenly. It will spread and accumulate in the corners. But it will not just spread, but will collect, first rising upward, along with body heat, and then descending down and spreading again. Therefore, the corners will have the greatest concentration of this energy.

Andrey: That's why they burn candles in the corners.

Maxim: Yes, brownies live there in the corners.

Irina: This is such an interesting practice: why do you place your children there? Because earlier, when people still thought more positively, it was positive energy that accumulated there, and children were sent there not just to stand, but to sit there, so that this positive energy would change its vibrations. Physical discomfort can simply cause stress in this child and can cause a release of vital force, which will be charged with this pain, negativity, fear. This will also accumulate in the corner. And the low-vibration plasmoid that will be nearby can be fueled by this. So, who else came up with the idea of causing physical stress in a child in this state is worth thinking about.

About the other form. If it is a dome, for example, then the energy will accumulate at the top under the dome. Both under the dome in the room itself and above the dome above, plasmoid civilizations will be attracted, which will correspond to the dominant energies under this dome. It is very easy for them to open a portal to their world.

Maxim: Do I understand correctly that church domes are precisely those portals that attract the Spiritual world with their light energies.

Irina: Yes, they also attract the Spiritual world, because it is there that light energies accumulate - the egregor, in this case. But plasmoid high-frequency civilizations, which correspond to this egregor in vibration and which are not destructive, are also attracted. Because otherwise, the angels of this egregor who are watching him will not allow him to open the portal. Yes, they themselves will not be able to exist there for long, because there will be dissonance.

From the audience: Then the next question is, what effect will the pyramid have?

Irina: They just showed me the pyramid and you asked your question. Wasn't it your supervisor who approached me? I was just shown a pyramid in my mind, and at this very second you are asking a question. What is a pyramid? This is the corner at the top and also on the sides, that is, these are the combined properties of this room with the corners, which I spoke about, and the combined properties of the dome, and even reinforced not just by the dome, but by the top. That is, everything gathers there at the top, and a ray of energy goes down from its top. And in it, too, portals are easily created for moving subtle civilizations under the dome itself, in the space of the pyramid itself at various levels and above the top. At different heights, spatial energies are attracted and amplified. What was discussed above. As for round houses, energy does not accumulate in the corners, is distributed evenly and affects the entire space equally.

And that house you showed looks like a honeycomb. Figure with 15 sides.

Irina: Let's go back to the honeycomb. In any case, it was this method that was suggested by the group Soul of bees or other living insects. This is exactly how the group Soul builds houses for its children - for those eggs, larvae from which children emerge. The small cells have exactly the same corners as the larger structure, and the energy will be reflected from each corner of the cell and amplified six times.

Energy is not simply collected in them, as in a quadrangle, but due to the fact that in this form there are small distances between the corners, the energy, at first, will flow in a circle. Therefore, since the floor and

ceiling are not a straight square plane, due to this, energy will collect in the center and twist, as if in a spiral. That is, approximately somewhere in the center and a little from the center, the energy of development of this larva, the energy of development of this egg that the queen of the bees laid and the energy of development of the growth of this larva will be collected. This energy stimulates growth - mitosis of cells, and it will already enhance this mitosis. And, in any case, this will contribute to the health and development of these larvae. It's no coincidence that everything was invented this way.

From the audience: Can I ask a clarifying question? So it turns out that they automatically strengthen the center, reflecting energy?

Irina: Such structures, yes. There are exactly 6 corners there. And if, for example, there are five corners, then this will already be an odd number, where four corners will strengthen the energies, but the energy itself will be collected only in the fifth, which seems to be disproportionate in relation to them. An example of a pentagram. This is a natural process, these are the laws of nature, these are the laws of space. You study only geometry, including volumetric geometry, but for some reason (MidgasKaus is speaking now) in your educational institutions they do not teach about spatial energies. How they are refracted by these angles, pyramids, prisms and where they are collected. We have all this included in our training course. And you focused more on the mathematical side of things. But we consider it, in this case, not important.

32:28 Using water in engines as fuel.

Andrey: Do aliens use water as fuel or not?

Irina: Just water? He tells me that we use energy differently - from space.

Andrey: So water is not used?

Irina: Yes. Interstellar Union uses more interesting technologies based on graviton. Our internal ships or some kind of transport within the

planet are based on gravitational energy. What you call internally an atmospheric engine, we have a small copy of it on those vehicles that fly through the air and they do not have wings. It's like, for example, in Burkhad. It's like a bus for them, like an airship that moves silently. They took me to the Interstellar Union on it. Raom Tiyan was physically sitting there, I remember you.

Maxim: For those who don't know, Irina has real contacts, and she is now in contact once a month, flying to other planets.

33:40 Radiation energy converter, schematic description of the device.

Andrey: In one of the previous programs, technical guys came to you and asked questions. So, it was there that you started drawing and didn't finish. What is the design of the apparatus that removes radiation energy? Tellurium, vanadium, magnesium, nickel sounded there. Is it possible to try to reproduce and draw it again?

Irina: Do you mean this energy conversion plant?

Andrey: Yes, an installation that began to rotate.

Irina: Raom Tiyan, remember this conference? You were present then, and they talked about a mini-converter. You have different ones that you can make.

Andrey: It's just that those people didn't hear the most important thing and didn't bring this issue to the end. Is it possible to bring it to the end if they have already started to answer?

Irina: He is now showing me a long curved plate, one might say rectangular: one side looks in one direction, and the other is turned in the other direction. I don't even understand what they are attached to, on some kind of wires, of which there are many and they rotate.

Andrey : In one chain, it turns out. Are all these curved plates

connected in a circle by diameter? And what makes them spin? The material itself?

Irina: The very energy that they have. It also has a power plant: a battery in which energy is stored from the last time. This is used for startup. Otherwise, it uses energy converted from radiation. That is, radioactive radiation, in a certain way, gets here and is collected here.

Andrey : So the radiation hits the curved plates and makes them move?

Irina: The installation rotates, and due to rotation, a large surface of this installation is exposed to irradiation. Of course, I can't draw this, because they showed me something very complicated.

Andrey: I understand that there is some kind of curved plate, and it is somehow fixed with the same plates, and it turns out that it has an axis? Or does each one rotate on its own?

Irina: They all rotate, each on its own, without interfering with each other, but at the same speed.

Andrey: Does each one have its own axis of rotation?

Irina: I only see that they rotate simultaneously in the same direction and at the same speed.

Andrey: Each by herself? Or is it the general circle that rotates?

Irina: Now Raom Tiyan is telling me that they also have a common field. And if one or more of them stop, the others will rotate.

Andrey: How then do they not remove the rotation if one rotates and the other does not rotate?

Irina: He simply said that rotation and this curvature are necessary to increase the area of contact of these energies.

Andrey: It's like a da Vinci auger (drilling rig), which operates both from above and from below.

Irina: Asama transformed energy also arises in these plates and is transformed into them. And from these plates, part of it is sent to rotate the plates themselves (there is some kind of rotation converter there), and part of it goes to the battery, which is in this installation, and also to an external source that will collect energy and then, maybe, into another device.

39:09 Photons in the scientific concept of Earthlings and the Interstellar Union.

Andrey: What types of energy do photons carry?

Irina: As far as I studied your physics, says Eslerite LagiOris now, and compared it with our teaching about nature, I understand that you call not only a quantum of light a photon. This is what you call both quanta and radio waves, but only at different oscillation frequencies. But in our country, if we call a quantum of light one word in Esler's language, then a quantum of radio waves - another, since we distinguish between quanta. According to our teaching, they transfer light energy. And yours is different, because your other quanta are not named. You simply record them, but do not call them in other words. Because everything comes from the planetary model of the atom. Your photons are a type of electron, if you look at the planetary model.

From the audience: A photon in our science is not considered as an atom. This is a particle, if it is not charged with anything, it is just a clot that has no energy. But if some kind of energy is given to it, for example, speed, then it acquires energy.

Irina: How can a particle have no energy? Why does it exist then?

From the audience: This is how our physics now explains it.

Irina: Why then does this particle even exist? Due to the energy of the mind of the person who created it?

Andrey: They don't explain this to us, you know?

Irina: Raom Tiyan now says that you have different theories.

Andrey: Interesting, I'll have to read it.

Irina: But you will not have any hypothesis confirmed by a unified theory until you develop a general field theory. And you won't develop a general field theory until you discover where all the energy in an atom comes from. They are not taken from themselves and not because of the endless transformation of matter. It is necessary to determine the common Source of all dark matter and energy manifested in the material and Spiritual worlds. And until you discover and recognize this, you will not create a general field theory.

Maxim: We are little by little approaching the point that, in any case, science will have to recognize the existence of the Spiritual world.

Andrey: Yes, no, we already admit, but not all.

42:19 Receiving, converting and storing information in the MS.

Andrey : Nikita from Moscow is asking. Is it correct, as I understand it, that they (the aliens) do not have books, and they receive information from a common information library, to which they have access in real time? I would like to know in more detail what kind of technology this is, its operating principles, and how accessible it is to us?

Irina: We have texts and books, but we don't have them on paper. They are now showing me a material like a polymer, something like plastic. That is, we have the text. But due to the fact that it is inconvenient to store large amounts of information in printed text, we store it electronically on a memory card. The only difference is that we

have such devices (which you already have, but ours are more technologically advanced) where we can simply talk, and this appears immediately in the text. We have converters - translators from various languages. If you speak an earthly language, and we have this converter, in the memory of which is stored, for example, Burkhad, Esler, or some other language, then it can be heard translated into any of these languages. And for us it works automatically, that is, it does not need to be adjusted to a specific language. If, for example, I am a Burkhadian and I have this converter on which 40 languages are recorded, then having heard the speech (he is now showing me a semblance of a chip, like a mini-robot), the indicator will recognize the speech that is stored in memory and will automatically translation is made. That is, you don't need to look for anything. Everything will be in audio or text form. And when I speak in my Burkhadi, it will automatically translate into the language that it translated last time. This converter can even be built into fabrics, for example, a spacesuit. Such spacesuits, with a built-in translator, are very common. The protective suit, which is used when contacting a contactee or simply the humanoid itself, is externally soft and flexible. You can easily move in it, but, in fact, it is only an external fabric, and it is stuffed with certain chips and electronic devices, which allow you to create protective fields that protect against temperature and pressure, creating a certain microclimate in space.

Andrey: Do we have this access to this information, or when will we have it? And how do they take information from the information field?

Irina: If we say that we store information in a computer, then it, of course, differs from your sample. It is possible to interact with it such as not only reading on the screen, but, as it were, coming into contact through chips and receiving information directly in images: such a screen is created in space, and there is already a conversation between the humanoid and the computer. This is exactly what we have.

46:08 Conditions for conscious contact.

From the audience: May I have a follow-up question? Tell me, if you develop a person's consciousness, you can achieve such abilities, that is, become such that you can communicate, read all this information.

Irina: In fact, there are already many contactees on Earth, both among the Interstellar Union and among plasmoid civilizations. Another thing is that contact occurs at the level of consciousness of the contactee himself, his awareness. That is, the purity of his perception and transmission of data depends, firstly, on the degree of recognition of this contact, on faith in it, on trust in the representative, on his own vibration. And so that the contactee has no energy blocks, so that he treats the world around him with trust and love. That is, this is also important, since it gives openness to the flows that pass through. But Irina still has additional conditions: her physical and energetic structure allowed her to install three chips that help her more accurately transmit information, for example, of a scientific nature. But, indeed, contactors have always existed, and you can do this without chips. But in order to read information with such accuracy, consciousness training is needed. These include meditations, astral exits, and states when you cause yourself to interrupt the flow of thoughts, so as not to interfere with the information that comes from outside with your flow of thoughts. This is all possible.

Maxim: The Cassiopeia project and the school of contactees will provide just such opportunities.

Irina: Yes, we will have a school of contactees, where we will try to teach everyone to communicate, firstly, with their highest Spiritual structure, which is called the Higher Self, and through it to contact the curators of each person.

From the audience: What are the goals and objectives of these communications?

Irina: The goals and objectives of these communications are to increase the level of awareness and increase the level of positive energy both in a person and in the world as a whole. This is very short. For spiritual evolution, mainly. Technogenic evolution is only a consequence of spiritual evolution, and it should not be ahead of spiritual evolution.

48:45 Space lighting used in MS.

Andrey : Nikita from Moscow also asks the question: “What energies do their electrical appliances operate on, how are they measured and how are they generated?”

Irina: I have already said that our electricity is measured in units that are determined by the amount of energy. In your understanding, this is similar to Ampere. The electrical appliances we have are not used in their pure form. In our country, even the light for lighting rooms is not produced by electrical devices. In our country, it is produced by the influence of various types of energy and their transformation into knocking out these energies of light from the atoms of space in order to illuminate some room. When contactees arrive, they see the absence of electrical appliances in the form of lamps from which the light comes: the space seems to glow itself. These energies are generated, as it were, by the walls of this room; they have panels built into them that produce this certain effect on the air with certain wave impacts, from which the atoms begin to glow. No, it's not the atoms that start to glow.

From the audience: Are these electric shocks or acoustic ones?

Irina: Rather, of a magnetic nature, that is, it is like the emergence of electromagnetic energy, such a field.

From the audience: This is, one might say, like an extraction.

Irina: Light is released from electromagnetic energy, and it comes from the ceiling, walls, and floor. The air itself glows.

51:26 Global energy sources used in MS.

Andrey: Do they have sockets that they use, or have they already moved away from this?

Irina: Yes, they have passed this stage of development. Now there are no such analogues. That is, these batteries, which we talk about as batteries, are used differently. Firstly, almost everything here is based on the energy of the star. If you look at the theory of astrophysicist

Kardashev, then you use the energies of the planet, and even then not completely. You are not even using geothermal energy and volcanic energy adequately. But for us this has already been done for a long time. We are already using the energy of our own star, neighboring stars, and even the energy of the Galaxy. We have different types of converters of the same energy of a star in its different spectra - converters of the free energy of the vacuum. By free vacuum energy I understand the energy that is the outer side of the etheric field, which already separates the material and spiritual worlds. When we negotiate with subtle civilizations, we know from which place in space it is possible, safe for them, to extract their energy and in what quantity. We already have similar research into exactly how best to do this. The free energy of vacuum is present everywhere, and not only in vacuum, but at any point in space. And there is, in fact, a limitless flow of energies. We use the energy of light - the light flux, the energy of sound, the energy of the core of the planet itself.

We have different converters.

53:40 Unity of the Spiritual world and Spiritual laws. Differences in life expectancy in the material worlds.

From the audience: Tell me, are the Spiritual worlds of the Earth and other constellations similar?

Irina: The spiritual world is one for the entire universe, for the entire Universe. All dense-material, subtle-material Spirits are embodied in these worlds from the same Spiritual world. There are 24 levels there. But we must remember that perception ends at the 24th level, and everything higher is perceived simply as Light, without names. Even a level 30 spirit will be perceived in our minds as a level 24 Spirit.

From the audience: Accordingly, the Spiritual world lives according to the same laws in different constellations, right?

Irina: Yes. There are material laws that are the same for the entire Universe. For example, the same gravity that we talked about or the law of dissolution. For example, table salt will dissolve equally whether on Earth or on Burkhad. And there are Spiritual laws. If the Spirit

lowers its vibrations, that is, acquires negative qualities, then it will also leave the source, which is called God in the perception of energies, both on Earth and on Burkhad - this is also a single law of these spiritual energies.

Maxim: Yes, in the Spiritual world there are uniform laws.

From the audience: Are they mortal? Those with whom we communicate today.

Irina: Yes, of course, they are mortal, but they have different periods of mortality. Even plasmoids are mortal. That is, their bodies are mortal, since they, in any case, are destroyed, but the Spirits themselves are immortal. You too are immortal as Spirit.

From the audience: I'm not talking about that, but about how long those who are in contact with us today live.

Maxim: They have different periods of life.

From the audience: Why is there such a difference in lifespan? For example, some have a thousand years, while others have hundreds. What if they use the same technologies?

Irina: The structure of the physical body does not always allow one to prolong one's life properly in exactly the same way as, for example, the Burkhadians or the Eslerites. They have different genetics, different histories of the evolution of life.

Maxim: What is the lifespan of a Burkhadian and what is the lifespan of an Eslerite?

Irina: The lifespan of a Burkhadian can reach up to 15-20 thousand years. But I have now named the maximum lifespan, that is, if a Burkhadian understands that he has completed the task of his incarnation, then he leaves it even after 700 or a thousand years. He comes out at will. Eslerites have a lifespan of 470 - 520 Earth years.

From the audience: So he can't live anymore?

Irina: Yes, this is the maximum period. It can, of course, last longer, that's how we have long-livers. He will not be able to increase it by a greater order, no, because his body structure does not allow this.

Maxim: Are there plasmoids that live for millions of years?

Irina: Yes, there are plasmoids that have been incarnated for millions of years. The higher the density level, the slower their subtle body is destroyed.

57:09 Conscious access to the Astral world and the reasons for the failure of this practice.

Andrey: Again Nikita from Moscow asks the question: "Are there such devices that help you enter the astral world at the touch of a button?"

Irina: We don't need this. From childhood we teach our children what astral travel is. Firstly, each of you does this every night when the body sleeps. The question is to remember these trips. But what prevents you from remembering them is, firstly, disbelief in this astral world; the second is physical and psychological fatigue; the third is accumulated negative ethereal blocks, which take up a lot of the energy necessary for awareness there; and fourth, energy is taken away by your lifestyle, which does not contribute to its accumulation in the physical body, but, on the contrary, contributes to its waste. Again, these are physical factors: food, water, and physical illness. But I named the main factor - this is disbelief in the Spiritual world, the lack of practice of realizing oneself as a Spiritual being and communicating with the Higher Self. After all, if a person begins to communicate with the Higher Self within 21 days, then he already experiences changes that allow him to more easily exit and be aware of yourself outside the body. And such a device can be created, but it will be a device simply for separating the astral body. But it won't help at all with awareness. A person will lose consciousness and not remember anything if he has little vital energy and does not have the skills to maintain awareness.

Maxim: I would like to add to Nikita from Moscow that the main thing here is self-development. And without your level of conscious perception that only you take responsibility for your development, no one will give you the magic button.

Irina: You can, for example, apply electrodes to your head and send a direct current of a certain frequency into the temporal lobes of the brain, which are precisely responsible for attaching the astral body to the physical. Then the body will come out, but the person will simply go to sleep and will not remember anything if he is not ready.

59:35 Creation of microclimate and macroclimate on the MS planets.

Andrey: What type of equipment do you use to create macro and microclimate? And the principles of its action? That is, for heating or cooling housing, or for creating some kind of climate on the planet?

Irina: The creation of thermal energy in a certain amount implies the transformation of matter from other energies. Most often this is taken from the energy of the star.

Andrey: What type of equipment and how does it work?

Irina: They show me that they don't have any specific heating devices, it's all already built-in. Their houses are built not by people, but by robots according to certain schemes. This has already existed for thousands of years. They have everything calculated: the angle of incidence of the sun's rays, how much energy will be extracted, and from what material. Those representatives who came to contact me have not been doing this for a long time: they just pressed a button, and the robot does everything itself, since all the calculations are on their computers, but in any case, it all works automatically.

Andrey : Okay, what about the macroclimate?

Irina: And as for cooling, this is already a transfer of thermal energy into another form. That is, the thermal energy that is excess in space

can not only be removed, for example, by running some cooling solutions through pipes, but it can be extracted and transferred to another. Heat is a type of infrared radiation and it can be converted into the same electricity, for example, through special converters, only there will be a different alloy and other substances, and a different type of rotation.

From the audience: Does it look like a closed cycle? That is, without a big loss.

Irina: It all depends on the material, but, in any case, something is lost, that is, it goes into the atoms of this element. But their efficiency, of course, is high - that is, 97-98% passes there.

About the macroclimate. This is already called terraforming the planet. We simply translated this term into earthly language, because terra is earth. We understand this as the process of creating suitable conditions for life on a planet where there were no conditions before. That is, if we see, for example, that a planet is potentially suitable for colony life, but it is too close to the Star or too far away, or in an awkward, variable orbit (if, for example, it is a double orbit and the planet begins to oscillate between them), then we have ships that create a gravitational field that moves the planet to the orbit we need and install it there.

1:03:00 Tikhtians are galactic ecologists.

Tikhtians also come into contact with people. But they have been in contact since recently - since 1945, choosing contactees. This is a planet in the constellation Zeta Sculptor. They are on this planet and their specialists are the largest environmental specialists in the Galaxy.

1:03:30 Launches of nuclear weapons on Earth and open contact with the government. Observing the Earth from alien bases on the Moon.

Point of no return. We hope that this will not happen because we also give information to prevent people from using nuclear weapons. When

the USSR and the USA launched missiles towards each other, we stopped them. Then we came into open contact with the governments of the USA and the USSR and explained that if they continue this policy, they will simply be removed by representatives of the Interstellar Union. The fact is that the Interstellar Union has many bases, including on Earth. And, indeed, we monitor all parameters: volcanic activity, activity of tectonic plate movements. Near faults in the earth's crust, for example, there are also bases. Solar activity, the level of water evaporation and glacier melting - we monitor all this. There are even our probes, like balloons, that automatically fly around the Earth. They are in other orbits where yours do not fly.

From the audience: They are not recorded by our equipment?

Irina: It happens that it is fixed. There are videos where they are called unidentified flying objects - this is how your scientists identify them. Do you have such research? But cosmonauts who work in orbit and stay there for a long time, looking out the window and seeing a UFO there, are not even particularly surprised - they are already used to it. They know very well what it is.

1:05:42 Measuring water parameters to conduct an experiment on its energy charging.

Andrey: We have a proposal for the contactor to charge the water, and then we check it.

Irina: Yes, I can do it myself. I'm a cosmoenergeticist. If you're interested, I can do it.

Andrey: We can supply water now, and then take measurements and see what they show us. This is the water I drank from the bottle, just the right level for us. We measure PH, measure water charge and measure salts.

1:06:29 Conditions for mass contact and the time period for its implementation (according to MS calculations).

From the audience: How long will humanity presumably need, what time period, to reach such a level of material and spiritual development to be included in the Interstellar Union?

Irina: They are ready to be included in the Interstellar Union, that is, to first make mass contact. To enter the Interstellar Union, firstly, you need mass contact and an offer to join the IC, in which the majority of the planet's population will agree. But for mass contact a number of conditions must be met:

- a five-year absence of organized military action on the entire planet;

- abolition of the death penalty in all states of the Earth;

- respect for human life from the moment of conception.

Andrey: That is, the absence of abortions?

Irina : What is meant here is not that it is the health that threatens a woman, but what is meant is desire.

From the audience: Studying people and their characteristics, is there any assumption in the future how much we will need in order to reach such a level of spiritual development?

Irina: Very different estimates. Raom Tiyan estimates that the development of humanity has now greatly accelerated, and he says that he gives approximately two hundred years before this time. Although, this can either be shortened or extended in any direction. This is all based on what he sees at the moment.

Now development has accelerated. Because the number of Spirits that come into embodiment on Earth after a certain time, taking into account the increase in population, has increased exponentially. Now Spirits pass over the surface of the Earth much faster.

The Interstellar Union, of course, would like us to quickly reach Spiritual development.

1:09:48 The influence of people's negative thoughts on events on Earth.

Maxim : Does the number of negative thoughts affect the number of wars on Earth?

Irina: Yes, of course, negative thoughts influence. They provoke the attraction of negative and destructive demonic entities not only for incarnation, since demons can be close to people in the astral atmosphere, and there they already provoke thoughts of destruction and aggression, and begin to create a conglomerate of evil energy aimed at destruction. This is how I decipher it. In any case, this destructive energy will find a way out. Well, if it finds a way out in war or in a natural cataclysm, it will already be manifested through plasmoids. But the accumulated negative astral energy itself will still remain in the noosphere until it is replaced by lighter energy of thoughts and feelings.

Maxim: I give the answer-translation: yes it influences wars. And the more negativity on Earth, the more destructive moments that we experience and experience. These are not only wars, they are also cataclysms, they are also changes in the planet - changes in the ionosphere, biosphere and much more.

Irina: And epidemics, because the negative energy that exists in people is directed into those microbes that we all have, when their group Souls multiply. Microbes parasitize people, and their vital energy at this time feeds the destructive plasmoid. This also happens.

From the audience: Still, this is a natural process of cleansing the planet? And, perhaps, it thereby stimulates lighter energy and consciousness in general on the planet, in our civilization. Or is it we ourselves who start this process?

Irina: Well, even if you create it yourself, you are in any case natural

natural beings, so it's a natural natural process, yes. You are also part of nature, for example, you are now on Earth, you are in its nature, your body is created from the same substances that are in the earth itself, and you, your body is part of physical nature, you are part God - as spiritual nature. Man is a combination of two natures.

1:12:30 Energy charging of water to change its structure. Faith and disbelief in the result.

Andrey : I'm ready. Here are two glasses with different water, everything is recorded, everything is written down - what happened before.

Irina: I need to get up. Should I charge two glasses at once?

Irina arranges glasses of water and charges the water in silence.

Andrey: I want to say that at the moment when low-frequency processing occurs, either behind the wall or in the next room, the water is also structured.

Irina: I did it according to the method that was shown to me, I don't even know it myself.

Andrey: That is, if you did these manipulations with water, then this water and other water also became structured.

Maxim: This is what Alan Chumak was doing through subtle civilizations.

Irina: Yes, he changed the energy of the water, they tell me that the energy was actually transferred to him by plasmoids.

Maxim: There is also an important question of your faith and acceptance of what is happening. If you don't believe in it, then it won't work on you. As Jesus Christ said: "It will be given to you according to

your faith." If you believe in it, and it is structured together by Chumak, then it works, but if you don't believe it and think that someone is just waving their hands, then, accordingly, it will not work for you.

Irina: Yes, no matter how much you charge it, the body won't accept it and that's it.

Maxim: Your energy structure will completely protect you from any types of energies that were aimed at this action.

Irina: If you don't admit it, why does your body need it? The subconscious mind reads everything and, in any case, will not act.

Maxim: A very big bow to Bagirov. Due to the fact that he did his scientific research works on the effect of cosmoenergetics on the human body. WHO has recognized the cosmoenergy method as healing for the body. Thanks to his works, the records he made, there are studies of how everything worked before cosmoenergetics, as after.

1:17:00 Healing and its influence on the healer himself.

From the audience: The next question. I also work with people, I do healing, and I always didn't like the fact that people basically say that when we work with a person, we take on part of his negative energy. But I intuitively feel that this is not so, because after the procedure, on the contrary, I feel an even greater charge of energy. That is, two sides win here. Both that person and I are getting healthier. That is, I feel it, but other people say that you need to defend yourself, that it is dangerous.

Irina: If you approach this with fear, then you may not only learn from him, but you may cause the same symptoms as his, because you believed in it. And if he has some kind of energy blocks, negative thought forms that the larvae cause, and if there is nothing in your field that would coincide in vibration with his field, then you will not take it upon yourself.

Maxim: Plus, you clearly understand that you are a conductor of these energies - the divine world, subtle civilizations. Therefore, when you are a guide and are constantly in the light, then no destructive form can be nearby. She can try to influence through mental images, forms, and changes in consciousness. But if you constantly work on yourself, take care of yourself, then nothing clings to you.

1:18:48 Results of an experiment on changing the structure of water using the energy charging method.

Andrey: We had two different compositions of water - one glass (plastic) was filled from a cooler, and the second (glass) from a purchased bottle "Hot Key".

Before measuring in a plastic glass: PH was before 8.04, after 7.83;

Salt was before 0.68, after 0.83,

ORP (redox potential of water) - up to 297, after 305.

in a glass beaker before measurement: PH was before 7.68, after 7.47;

Salt was before 0.63, after 0.75

OVP - up to 318, after 306

Irina: The water changed in different ways, in different directions, for some reason.

Andrey: Yes, yes. This is what I also wanted to draw attention to. That is, if PH and salts moved in one direction, then the ORP in different glasses went in different directions.

Irina: Maybe it depends on the material? Plastic or glass.

Andrey: Yes, maybe because of the material. You were just talking about this today.

Maxim: Did the indicator from the plastic cup drop?

Andrey: Yes, the plastic one has become worse.

Irina: I remember that my cosmoenergetics teacher told me that it is better to charge water in a glass vessel.

Maxim: It turns out that the charge was transferred from the plastic to the water.

Andrey: Yes, water in glass behaved better, but in plastic it was the opposite. But only in terms of charge, and in terms of salt and pH, they are approximately the same everywhere.

Maxim: Tell me, is this a big difference in indicators?

Andrey: 0.2 per minute - that's very interesting. These are serious changes in Ph, and in salts 20 and 30 - these are also very significant changes in such a short time. I'm wondering where the salts go.

Irina: Here, on the contrary, the salts have increased.

Andrey: Yes, salts have increased, but pH has decreased. So I wonder where he went? Why does this depend? You said that the content of metals, material, and temperature conditions were the same; that means the volume and material (of the glasses) remained.

1:22:02 Teleportation and levitation. Yeti and their natural capabilities.

From the audience: If possible, please briefly tell us about levitation

and teleportation **.**

Irina: We have already talked about the levitation that is caused by the device - this is repulsion from the gravitational field with the help of various converters.

Teleportation and levitation of the body.

Life force can be directed by psychic energy, the same power of faith or imagination. What is faith? This is energy, including the ability of imagination and the creation of mental images, which, as it were, command matter to change.

Levitation is possible. When you believe in this 100%, without a doubt, and imagine a vivid mental image, concentrate on it so that your thought does not dissipate, because if it dissipates, the energy will not flow. If these two conditions are met, then your flow of vital force from the etheric body will go down, you can even push it down, direct it in your mind. And from your feet, and on the soles of your feet there are two mini chakras for receiving and releasing energy, you will give energy to the ground. And with the help of mental images, you will direct an even greater flow of energy downward. And since it will be charged with the mental image of flight, and you will believe in it, then it will act in such a way that it will temporarily suppress the gravitational field of the Earth, which attracts you, and you will take off. Well, then with your mind you will control your body where you need to fly. Is it possible.

Teleportation. This is a more complex process, but it is also possible in the physical body, but for this you need to have absolute faith in it and even greater elaboration of mental images. That is, such an ability to imagine your body in the smallest detail, down to the atomic structure, and mentally direct energy to transform these atoms into wave radiation, like electromagnetism. This is usually done with the mental image of dissolution. But at the same time, your consciousness remains, that is, you do not lose consciousness and move in consciousness along with your body to a given point. You will feel that your body has dissolved, and you immediately imagine where your body should move, and there, at this point, you imagine the reverse process, how your body is going back together.

Maxim: By the way, Yeti have the ability to teleport. Yetis are exactly the humanoids from which we were made, they simply evolved and lived constantly in nature, in constant communication with subtle civilizations.

Maxim: That's why they can't be caught or generally detected, because they have a teleportation effect, they have it. That is, they have harmonized so much with nature - with plasmoid civilizations - that for them teleportation is a normal phenomenon.

Irina: They don't doubt it, they imagine it without a grain of doubt. They are not taught in school that this does not happen.

From the audience: Does this allow you to travel to other planets or worlds?

Irina: Well, first of all, it's unsafe. Even if you know how to teleport, you need to imagine in very detail the place where you will move, that is, you must know what is there in this place. If you imagine yourself at the bottom of the ocean, then when you materialize there, you will simply choke, and if you imagine yourself in the city, then perhaps you will drive a car.

Maxim: This takes a colossal amount of energy. With the help of practices, these elements of teleportation are developed. If, for example, you use 10 meters of teleportation, then you will then need 2 weeks of recovery in energy practices.

1:26:42 Use of alkaline and acidic water for the benefit of the body.

From the audience: Scientists from different countries argue and contradict each other about our main product - water. This is what is in their understanding and knowledge of the issue of physical processes, does the body still need to be alkalized or acidified?

Irina: Everything does not depend on the acid or alkali, it, firstly,

everything depends on the composition of the salts. Some anions are more beneficial than cations for the body, others vice versa. If you just look at the anion-cation composition, then neutral and slightly alkaline will be more useful, because the ions of potassium, sodium, magnesium are simply more in demand by the body than, for example, chlorine, sulfur and other substances, they are even better absorbed. Acidic and slightly alkaline environments can disrupt processes in the body, for example, cause various processes in the stomach, in the intestines and blood. It is for digestibility that a neutral or slightly alkaline environment is more beneficial. But this depends on the anion-cation composition. We have a theory of polarization, according to which we look in the spectrum of light to see what kind of salts are there: light is sent into the water, which is refracted and shows this.

Andrey: A lot of information, of course. As for water, this is a separate, very deep topic.

Maxim: In general, each organism has its own purpose, what needs to be done, alkalize it or acidify it.

Irina: For example, phosphate waters are also very useful, despite the acidic reaction.

From the audience: I want to make a remark. When patients come to me, I look at their blood pH, then it is alkaline, he is sick, another comes - he has an acidic environment, he is also sick. And when he undergoes a course of restorative practices, in medical terms - treatment, I call this restoration. I start testing and checking him, we look, and he has neither an alkaline nor an acidic environment, and he is healthy. The body regulates itself. The water should be zero, that is, what you said - the water should be either slightly alkaline or zero. No need to over-alkalize.

Irina: If, for example, a person has urate salts in the kidneys, if he has increased acidity of gastric juice, then a weakly acidic environment will be useful for him, meaning by reaction - phosphate, bicarbonate, etc. Such states also exist.

Maxim: Well, let's applaud, thank Irina and our star representatives for

answering our questions.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

Raom Tiyan is a representative of the planet Burhad, a specialist in energy interactions in the material world.

PiosNior - representative of the planet Esler, art critic, psychologist, specialist in the transmission of sound vibrations for purification and harmonization of space;

LagiOris – representatives of the planet Esler, biophysicist;

Kloya is a representative of the Kryon system, a plasmoid of the 13th density level, responsible for the Earth’s magnetosphere and its harmonization with the magnetosphere of the Sun;

Andrey is a representative of the Alt Energy company.

#153 How to become a contactee? Diagnostics of a novice contactee from Germany.

https://blog.cassiopeia.center/kak-stat-kontaktyorom-diagnostika-kontaktyora
https://www.youtube.com/watch?v=H-O5Rc6J678

0:25 Questions for the alien contactee.

Maria: Tobies Schindler is with us today, he is 23 years old. Since childhood, he has experienced various paranormal phenomena, and in 2016, everything began for real for him. Today he wants to find out who is trying to contact him, what kind of civilization is it? He has the impression that they are very shy and, perhaps, are waiting for the right moment. Tobies wants to know more about everything. And today this moment has come.

Irina: There is clearly someone next to him. I can already feel it.

Maxim: Hello everyone. I am Irina's assistant.

Maria: I just told him that you also came up to see who was visiting him.

Maxim: Say that he is a contactee, in any case. Now Irina will go to him in the Astral. Does he give permission for Irina to visit him in the Astral Plane and try to find out who is in contact with him?

Tobies: Yes.

Maria: A couple of questions for Irina. Can I read them out so that

when you go to the Astral you will know this?

Irina: Yes. Any questions? We will go with LiShioni from the planet Shimor.

Tobies: OK.

Irina: This planet is located in the constellation Andromeda at a distance of just over 730 light years from Earth. Andromeda constellation.

Maria: First question: who are they really, and what kind of life form is this?

Irina: And, probably, the purpose of the contact, right?

Maria: How do they fly here if they are in bodies? How do they come to Earth? Why do they come here? Why are they here? How is their society formed? How is their society structured? Do they know about contacts of other civilizations on our planet, about their influence on our planet? What kind of connection do they have with our planet and humanity? What connects them? How long have they been around?

Irina: I can't remember so much in the Astral.

Maxim: Masha, please tell him that we will give him full feedback of what they want to convey to him.

Irina: Tell him that I need some time, about 10 minutes, to leave my body and go to him in the Astral.

06:50 Types of UFOs, alien ships.

Maria: He tells the camera that he himself saw and filmed a UFO, took pictures and sent them to the Ufological Society. Do we have

such an opportunity to find out from photographs what kind of civilization it is, if the photographs are of good quality?

Maxim: In fact, it is sometimes difficult to determine what kind of civilization it is from a flying saucer.

Maria: Many civilizations use the same models.

Maxim: Firstly, there are joint crews, and secondly, there are crews who are from completely different civilizations, but fly on saucers produced by other civilizations.

Maria: We have a short description of what shapes plates come in and for what purposes. I heard this discussed at the conference.

Maxim: Yes, there are, but these are conditional forms. There are research ships, there are contact ships that simply pick up contactees and take them around the Galaxy. There are military ships, they generally very rarely come here, or rather, they have not been here near the Earth for a long time, I mean, in our solar system. There are different ships, and it cannot be said that there are only certain types of ships. There are thousands of species there.

Maria: I just invited Tobies to ask questions of a general nature that interest him.

09:46 Types of civilizations and their number in our Galaxy.

Maria: He asks how they fly here? Do they materialize here or physically arrive?

Maxim: Tell him that there are subtle civilizations that are without physical bodies, and there are material civilizations that have physical bodies. Those who fly here with physical bodies on flying saucers. Here on Earth we have a very large number of bases.

Maria: What civilization?

Maxim: 44 civilizations have bases on Earth. These are only humanoid civilizations. And there are tens of times more subtle-material civilizations that do not have a physical body. Their body consists of energy, electromagnetic waves and other energies. These are brownies, mermaids, and goblins, and all of them belong to terrestrial plasmoids. There are also solar civilizations, stellar civilizations. There are 727 intelligent humanoid civilizations in our Galaxy. And in the Universe there are many Galaxies. Therefore, there is an infinite number of civilizations in the Universe, we don't even know about them, since 2 new ones are discovered every day. And there are 7000 known subtle-material civilizations.

14:04 Plasmoid civilizations and their idea of a flat Earth.

Maria: He asks: "Are the plasmoid civilizations all connected to the Earth?"

Maxim: No, not only with the Earth. A small number of plasmoid civilizations are associated with the Earth, mainly space, solar, and stellar plasmoids.

Maria: I'm now explaining to him that the idea that the Earth is flat comes precisely from plasmoid civilizations.

Maxim: Yes, some plasmoid civilizations see it as flat.

Maxim: And be sure to explain that there is also a Spiritual world. And intelligent Spirits from the spiritual world incarnate into any civilization.

Irina came from the Astral.

16:53 Contactee curators.

Irina: Yes, interesting. You really are in contact, and the Tumesout

people are next to you.

Maxim: Humanoids from the constellation Orion. These are some of our creators.

Maria: I just explained to him that this is a very high race. Some of our creators. The pyramids that we have on Earth are a semblance of their houses. Why did he see them blue?

Maxim: He has contact not only with humanoid civilization, but also with subtle-material civilizations. There are also two plasmoids nearby. Solar plasmoids and terrestrial ones.

Irina: These plasmoids belong to the Earth elements.

18:48 Individual perception by contactees of the names of their supervisors.

Irina: The perception of all names that come in is individual.

Maxim: We give all the names in the Daraal language. Why? Because another contactee may give a different name to this civilization. Irina is a Daraal contactee, so we give all the names in Daraal so that he won't be embarrassed if he suddenly hears other names or something else.

Maria: Did they give any names?

Irina: Yes.

Maxim: Explain to him that names are very individual, i.e. he can feel his names himself. Irina felt them as she will say now.

Irina: A humanoid who is called Nishuuhgayamtri from Tumesout.

Maxim: This is a humanoid from Tumesout.

Maria: I told him that we would write him the name of the humanoid.

Maxim: Okay. He now knows what he looks like, that he is a humanoid, and he can imagine him, contact him and ask his name himself. The curator says that he will convey the messages to him himself.

21:51 Purpose of this contact.

Irina: He says: “My goal is to study alien intelligence and alien technology.” He is an engineer and cyberneticist who creates artificial forms of intelligence, like robots. And he is studying similar technologies on other planets that are not included in the Interstellar Union. This is a rare profession for them, because they mainly study biological life forms on other planets.

Maria: Okay. Irisha, let me translate before I forget.

Irina: He says that his goal is to pass on knowledge about his civilization to those who come into contact with him. The energy of the contactee is suitable for mental contact.

23:23 Possibility of physical contact.

Irina: He says that his energy has been studied for the possibility of physical contact, but it is not suitable yet: the contactee is not yet suitable to be physically taken to the plates.

Maxim: Not suitable, right?

Maria: Tobies says that he can even guess why he’s not physically fit yet. He is interested to know if this is possible in the future?

24:43 Setting up mental contact.

Irina: Of course, no one can exclude this. He says that he would like this himself, but first he needs to establish contact at the mental level in order to feel and distinguish his mental flows from others.

In order to first set up mental contact, you need to believe in it, remove doubts, fears and raise your vibrations through awareness, that is, transform all negative energies into positive ones. It's better to set up contact with the Higher Self, and then set up contact with your curator the way we do. Tell Tobies that he, too, is a born medium.

Maria: He immediately came with these sensations.

Irina: He certainly has increased sensitivity. He has been incarnated since the 8th level, and this is the level of the Jinn, which was often incarnated in plasmoid worlds.

Maria: And his other two plasmoid civilizations, who are they?

Irina: Spirit of the Earth and Spirit of the Sun.

Maria: The Spirit of the Earth and the Spirit of the Sun also want to make contact with him?

Irina: Yes. They are nearby, and you can also get in touch with them.

29:35 Paranormal experience with animals.

Maria: Very interesting. It's good that we translated, he immediately recognized himself and said that it really matches. He communicates a lot with nature and animals. He had unusual, paranormal experiences in nature with animals.

Irina: Interesting.

Maria: He says that he met animals that were not typical for this area. They unexpectedly suddenly appeared in these places and conveyed some information to him. This happened not in words, but in some images, but Tobies understood them.

Maria: He says that when he was in Canada last year, a bird flew to him, which was not typical for this place and for this time. He also observed a large concentration of bats near him. They flew and performed some maneuvers, some figures and then flew away. He was so surprised by this that he thought to himself: “Could you come back and show me again.” And they came back again and did the same thing, and showed the same thing again.

Tobies says that before his meeting with this bird he had a very severe depressive state: he felt very bad, and he simply wished for something good to happen that would help him get out of it. And suddenly an unusual bird appears next to him. He sits, looks, turns, turns his head, as if he is communicating with him and telling him something. This greatly changed his mood and helped him get out of depression.

Irina: I’m saying that the Soul of the bird remembered its Creator. Translate to him.

Maria: I tell Tobies that a lot is being explained in your life right now. He is also very grateful and wants it all to sink in in his mind. He still needs to digest all this.

Maxim: And we wish him successful contacts and successful setup of these contacts. He has the opportunity to contact the humanoid civilization of Tumesout, who are now next to him, and with the thin-material plasmoid civilizations, the Spirits of the Earth and the Spirits of the Sun. Good luck!

Maria: He thanks you guys. Thanks a lot!

July 31, 2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

LiShioni from the planet Shimor is a specialist in the astral world and its interaction with the material world;

Maria is a translator from German;

Tobies Schindler is a beginner contactee from Germany.

#157 Exposing “Cassiopeia” or... the “debunkers” themselves?

https://blog.cassiopeia.center/razoblachenie-kassiopei-ili-samih-razoblachitelej
https://www.youtube.com/watch?v=_msqQR1Q8K0

Pop-up comment: A little background! On one YouTube channel we were called a sect with direct insults to Irina Podzorova, Katya Lel and our entire Cassiopeia project. We decided to chat with the creator of the channel via Skype. He got in touch not alone, but with a support group... Look what came of it... It will be long, but very interesting...

00:41 The “guests” of the “Cassiopeia” project do not have video cameras. Are the video cameras turned off?

Andrey: Let's start with the first one, material or intangible. As you

prefer?

Maxim: Where is your video?

Denis: I mean, that's the icon on the top left.

Maxim: Are we not going to see you? Will we communicate with someone invisible?

Denis: Well, I don't have a camera, that's why.

Andrey: I have the same problem. Well, we will say: contactees.

Maxim: Well, actually we are contactees, but we do not hide our faces from you. Can you show your faces?

Irina: Discover your beautiful personalities.

Maxim: Yes. We need to look at who you are, to look at your eyes.

Andrey: I don't know, I don't have a camera here on my computer.

Denis: Our guys are kind of secretive.

Irina: Yes, the guys are secretive.

Andrey: I can put a camera. I position myself as a media personality. That's why I prefer to synchronize by voice.

Maxim: So you want to say that we should now turn off the camera and communicate by voice?

Denis: You can turn it off. We do not oblige you to anything.

Maxim: We would like to look at you, first of all.

Irina: We have all the confidence in you, openly. And we expect the same.

Andrew: Well, we wouldn't trust each other that much, of course, so if you want, turn off the camera.

Maxim: Do you have anything to be afraid of?

Andrey: We have nothing to fear.

Maxim: Let's communicate openly. We are ready: we show you our faces, who we are, and introduce ourselves.

Andrey: If we need to trust you, we will continue the matter more closely. But first I suggest you chat.

Pop-up comment: Turns out it's not a lack of cameras. The video immediately began with deception and fear of showing us their faces. But I, as the project manager, found Andrey (the creator of the channel) and Venus and decided to show them to you. Let Denis remain incognito... (photos of Andrey and Venus appeared)

02:47 Getting to know the interlocutors.

Irina: Well, good, since you are afraid of something. Let's first state the purpose of the meeting and introduce ourselves, because this video will be on your channel, Andrey, and on ours. So let's introduce ourselves. My name is Irina Podzorova. I am a contactee with extraterrestrial civilizations, with the Interstellar Union, with the Galactic Federation of Light, as well as with various subtle civilizations and disembodied Spirits from different levels. You have already familiarized yourself with our videos and articles in the VKontakte group, if you have made material about us. This is my friend Maxim.

Maxim: My name is Maxim. My last name is Rusan. I am the director of the Cassiopeia project. I am a contactee, an energy practitioner and do many things.

Denis: So, well, what do we have? In what order will we be?

Andrey: You also have a third organizer.

Denis: But he didn't come anyway. Well, in what order will we introduce ourselves?

Maxim: Can I ask a question? Which third organizer are you talking about? Apart from me, the only founder and organizer, there are no other organizers. There are helpers.

Denis: Assistants.

Andrey: I will say that I know what it is. From the information that was provided to me.

Denis: Well, Andrey, maybe we can introduce ourselves in some order?

Andrey: I don't position myself as an over-contacter and so on. On the contrary, I say that every person is a contactee, he is the center of the universe, he is the Earth, he is God, and so on. That is, a person does not need anything for this.

04:37 Duality. Denis's positioning. Positioning of Venus.

Denis: I will not hide the fact that, in fact, I also do energy practices, and, basically, I poke around in the lower world. The underworld, the underworld, gray for organics.

Maxim: What do you mean "picking around"?

Denis: I send my point “I Am” there.

Maxim: Who are you sending?

Denis: The “I Am” point. Well, we're introducing ourselves now, right? In general, I poke around, interact with all sorts of low-frequency entities: sometimes broad-wave, sometimes narrow-wave. The point is that we are basically, how can I put it, not really... That is, we have such a rather heretical view: we are not patriots of this system, that is, we are not some kind of outright fanatics of light and other things, that is We, in fact, Light, often criticize the forces of light.

Irina: It's your choice.

Maxim: Your choice is to criticize the light forces or criticize the dark forces.

Denis: Well, in fact, we also criticize the dark ones.

Irina: Do you criticize everyone?

Maxim: You criticize everyone, I understand correctly.

Pop-up comment: They immediately reminded me of our video about “Tolik who knew God.” He also criticizes all Supreme Teachers, but brings their Teaching to people.

Denis: Yes, there is such a thing.

Maxim: Don’t you criticize yourself?

Andrey: Let’s do it this way, we think duality is a bug of this system. That is, a way out of this system.

Denis: Good or bad.

Andrey: Good or bad - this is a bug of the local system. There are no systems where duality exists. It is here, where you and I are sitting.

Irina: In the mind of a person who is accustomed from birth, as a result of upbringing, what is good for him and what is bad. Of course, this is largely individual preference.

Denis: Venus, let’s introduce ourselves too, since everyone introduces themselves this way.

Andrey: Here Denis still positions himself as a “dark elf,” of course.

Denis: Like “gray inorganic” still. I'm a hybrid, a hybrid.

Maxim: Hybrid? Your dad is an elf, and your mom is an earthling?

Denis: No. There are a lot of spirits in the body. Like a multi-headed hydra, you understand.

Maxim: Great.

Irina: Greetings to your curators.

Maxim: Who is your third, who is your VG?

Denis: Venus, let's introduce ourselves.

Venus: My name is Venus, can you hear?

Maxim: Hello, Venus.

Venus: Hello. In general, I position myself as a “divine structure” and “creator of my reality.” That is, “the God of his universe.” I interact with both the female creator and the original Ma, as well as with the male creator, with knowledge, and all this is I. All this “Essence of Me” is in the flesh, embodied here, I am God, I am the Creator , I am the Creator.

Pop-up comment: Venus considers herself GOD.

07:50 Using the stories of creatures of the “lower world” to create games and stories. “Throwing away” and “returning” “pieces” of the Soul. Self-criticism is a “piece” of the Soul. “Many” Souls in a person. People are “hydras”.

Irina: I see.

Andrey: Venus is also positioned as Spirit, the Goddess of Life, of course.

Denis: Well, she has a creation, so to speak.

Maxim: What are you doing on this earth? Can you tell me at least a little? What are you doing? What do you live off of? How do you position yourself? Do you work with people?

Denis: So, well, this can, in principle, be told. I also wanted to say what our position is. We believe that this universe is bugged, that is, it is broken, it has deteriorated, it is dying. This is our position. Yes, and about what we do in life. In general, to be honest, I was mainly involved in creating, well, various entertainment products. That is, I am interested in the development of board games and computer games.

The fact is that these creatures of the lower world show various worlds that have ceased to exist quite a long time ago. But there are already some rather vague images with quite a large distortion, but, nevertheless, there is a description of some long-extinct peoples there. And, in general, with the help of this material you can create quite interesting stories.

That is, they can tell some stories about extinct peoples, and this is interesting to me. Make books, games, board games out of this, that is, I am mainly interested in story-telling, that is, these stories, stories. Well, in principle, I am interested in, so to speak, puzzles. I like computer games. They seem to force the mind to move, to quickly decide something, to learn something. I love. It turns out what I earn. What shall we tell? Do we work with people or what, Andrey?

Venus: Yes, in principle, what is there to hide. Yes, we work with people.

Maxim: How do you work with people, what do you do, what do you do?

Venus: First of all, this is the assemblage point of the system, which is always zero.

Denis: Let me explain to you, look. Venus mainly works with memory. That is, she takes a person and begins to “drive him away” so that he remembers, for example, his childhood. So that he remembers what, for example, piece of his Soul he threw out of himself, this piece, as it were, returned to himself, his Spirit.

That is, he has a person, a part of this person is stuck in some situation, and he does not let go of this situation. He has a piece of the Spirit sitting there, and will not let go of this situation, and thus, with age, a split begins in a person. That is, a piece of his Soul can go, for example, to the upper world. And from this upper world put pressure on this person.

Pop-up comment: As a person ages, a piece of his Soul can go to the upper world and put pressure on him from above. It's time to write down the aphorisms.

Denis: Well, for example, a person had such a trait as self-criticism, very strong, aggressive self-criticism, and then he decided to get rid of this trait. This self-criticism is, well, a piece of a person’s Soul. That is, we still have this position: we believe that there are many Souls in a

person. That is, that most people are prefabricated structures, like hydras.

Pop-up comment: Man is a composite structure of Souls. Usually there are 2-3 Souls in a person, and they are similar to hydras. A new theory of the universe from Denis.

Denis: Well, usually there are 2-3 Souls in a person. Well, we also have the position that a person usually has creators. That is, the creators can be anyone. For example, Shiva Shahti or some abstract deity, such as the Spirit of overcomplication, oversimplification. That is, there are a lot of these abstract various shapeless things, and they seem to periodically create such hybrids - people.

Maxim: Do you communicate with more than one human Soul? Do you communicate with 2-3 Souls or more?

Venus: No, we communicate with him, with the personality itself.

Maxim: You said that a person is a hodgepodge of Souls. As I understand it, you must communicate with more than one Soul of a person in a person himself.

Venus: We communicate with his consciousness. He has one consciousness. We communicate with this consciousness and we collect consciousness.

Irina: Why do their Souls have no consciousness?

Venus: Soul Consciousness.

Maxim: Soul Consciousness or Soul Consciousness? We can listen to one person who works with people. If you said that a person is a hodgepodge of 2-3 Souls, then I would like to know what human consciousness is?

Pop-up comment: Venus never answered what the “consciousness” of the Soul is...

Denis: Well, look. You know: let's remember examples from Russian literature. Raskolnikov. So he killed this granny, he prepared this crime, he planned it perfectly. I say, “what right does he have there,” and “not a trembling creature,” I say that “I did everything right.” And then he suddenly began abruptly: “Oh, I did something wrong, how did that happen, yes, what right did I have, I have to go and give up.” Do you understand? This is it - a split. That is, Souls argue among themselves. One such...

Maxim: Which Souls are arguing among themselves, please tell us.

Irina: The soul has the ability to change. We will start with this while it is embodied.

Denis: It takes five years to change, on average. The average person changes once every five years, on average.

Irina: Not a person, but a Soul.

Andrey: In general, the body may not stay in the body, even, in principle, the Soul cannot change.

Irina: It can change a lot.

Pop-up comment: According to Andrey, the Soul cannot change. Then what's the point of her coming here?

14:10 Spirit. Soul. Life force. Humanoids are dense material creatures. Plasmoids are thin-material creatures.

Andrey : Do you think the Soul exists from the birth of a child until death?

Irina: It exists even before birth.

Denis: Exactly in the body, I mean.

Maxim: Not in the body. Without a body, like a Spirit.

Irina: The spirit is embodied in a physical body, and a person is obtained.

Denis: Well, Spirits, yes, different.

Maxim: Perfume or Spirit?

Denis: Perfume, Spirits, plural.

Maxim: Spirits incarnate into one person.

Denis: Yes, we already said that.

Andrey: How do you think the Soul is formed? How is it created?

Irina: The spirit is embodied in a person with the help of life force. The spirit united with the life force is called the Soul. The soul in the body is a person. On this planet. On another planet, if it is a dense body, then the Soul plus the alien body is a humanoid. There is a subtle body that consists of energies. There are subtle beings that you call Nature Spirits and so on...

Denis: Entities.

Irina: The soul plus a subtle-material body - we call it a “plasmoid”.

Denis: We usually call them entities.

Maxim: There are disembodied Spirits, which you can call entities. You can also call the thin-material bodies of plasmoids entities.

Denis: It depends on the form. If the Spirits that...

Irina: Now I wanted to ask about something else...

Venus: Everything that is not a person today in this system of the universe is here, right here - these are all disembodied Spirits, Souls. You can call it whatever you want. They have no flesh, no basis. So they...

Maxim: Wait, guys. Stop, stop, stop. You have now thrown both subtle-material bodies and the Spiritual structure into one plate, as I understand correctly, and humanoids there too.

16:20 Material world. Jesus lives on the planet Burhad. Lack of curators and mentors.

Venus: No, no, no. I am human. I have a Soul, I have a Spirit, I have a body, I am a person. In this system, it should look like you, that is, the material world. Physical material world.

Irina: Do you consider only the Earth to be the material and physical world, or other planets too?

Venus: Yes, only Earth.

Irina: And others?

Denis: Venus and I, if anything, argue periodically on this topic.

Venus: There are also other planets. I don't argue, there is.

Maxim: There are physical bodies there too.

Irina: Who lives there, Venus?

Venus: But not the human system.

Irina: Let's take, for example, the planet Burkhad. It is located in the constellation Cygnus, 670 light years from Earth. Physical planet. It has its own star. It is in physical space. There is an atmosphere, mountains, seas, food and so on. Who lives there?

Venus: Not a person.

Andrey: Yes, I will say now... You will say: “Jesus”, because I remember your video where you said that Jesus lives there.

Maxim: Just a minute, can we continue the conversation with the person who answered us? With Venus.

Andrey: Okay.

Maxim: Thank you very much. Venus, please tell me, who lives on other planets in other bodies?

Venus: Higher Souls, highest Spirits.

Irina: How taller are they?

Venus : There is no higher or lower, exes.

Irina: Exes, where?

Venus: In different universes, well, in different universes, worlds. Depending on where, they began to be collected: that is, where they

first incarnated. Well, like some kind of structure.

Irina: What kind of bodies do they live in there? On Burkhad.

Denis: For example, I have no information about this place. Honestly.

Maxim : Let's name the constellation Cygnus.

Irina: You can find out from your curators the self-name of the planet Pikran. Please ask.

Maxim: Do you have curators? Do you work with curators?

Denis: Oh! They generally live there in the afterlife or even in parallel universes, in which the density is different.

Maxim: Nobody supervises you, do I understand correctly? Do you work without curators? In this incarnation you have no mentors or curators.

Andrey: No. Why do we need them?

Venus: No.

Andrey: Why do I need a curator? What's the goal?

Irina: You are like a teacher for people. Why don't you need a teacher?

Andrey: Why do I need a teacher if I am the planet and the universe?

Irina: Why do you think that at your level of awareness you don’t need someone more experienced in spiritual matters, or do you consider yourself the standard of truth?

19:33 “The students live in the illusion of the Teacher.” People teach, but not teachers. Teacher's mission.

Andrey: Well, if you position yourself as a teacher, then your students will live in your illusion that you created.

Pop-up comment: Remember this phrase from Andrey: “If you position yourself as a teacher, then the students will live in your illusion!!!”

Irina: You position yourself as a Teacher. It was in all your videos.

Andrey: We do not position ourselves as Teachers in any video.

Maxim: Aren't you teachers? Don't you teach people anything? Are you passing on any knowledge?

Venus: No.

Irina: I watched a video where you position yourself as a Teacher.

Andrey: On the contrary, we tell people that they need to disconnect from teachers in life and not depend on them at all.

Denis: I’ll explain now: look, in fact, there is a paradox of superposition. On the one hand, we tell various things, we even teach people something. But, on the other hand, we ask people not to make idols out of anyone, and not to make idols out of us either, you know.

Pop-up comment: We teach people things, but we are not teachers!

Denis: Idol, you know, this is the ultimate truth, which you always ask what is right, which you always obey...

Irina: I read it in your VKontakte group. Andrey, you say which channels to watch and which not to watch. They ask you and you answer. How will they decide for themselves? You give them specific recommendations.

Denis: In fact, we had such a comment. In fact, I joked about such a person. It was on YouTube. The man directly said: “Which channels...”

Maxim: So you joke with people in the comments?

Denis: You can sometimes joke about why. That is, I jokingly called the person a Komsomol member and a pioneer. Well, well done, you’re asking who to unsubscribe from.

Irina: In the comments where you write. There are messages in your group that are conducted by you personally, Andrey, or by your assistants. It says which specifically VKontakte channels and groups, and which sources of content on the Internet belong to the so-called astral charlatans and so on. And there they ask you questions.

They sent you a video: “Who is this?” You don't say, "Figure it out yourself." You give a specific answer. I read this myself. Everyone can read it.

Andrey: Well, yes. They ask, I answer.

Irina: This is called the “teacher’s mission.”

Andrey: Why? Usually they ask, and I tell them that here you will not find the truth for sure, here you will end up with money and waste your time.

Irina: Wait. You tell him your opinion as if it were the truth. You don’t say: “You look at my information yourself and decide for yourself.”

22:28 The court decision on the sale of the apartment is posted

on the Internet. The FSB found no violations in the organization's work.

Maxim: Yes, Andrey, I have another question for you. Tell me, please, did you know anyone personally before today?

Andrey: I made inquiries about you, to be honest, through the authorities. I have information about you. There is information on the third organizer.

Pop-up comment: Andrey serves in the fire department of the city of Glazov in the Ministry of Emergency Situations. I studied hypnosis for two days at school with Orlov.

Maxim: Did you make inquiries through the authorities?

Irina: Voice the result.

Maxim: Tell us the result.

Andrey: Well, this is how they answered me: “These people are in the development of FSB-114. Part 3. This is extremism. Creation of a religious doctrine." Then they sent me a court decision about you.

Maxim: Just a second, court decision on whom?

Andrey: For you, Maxim. 2018 But I have it there, I don’t want to just open it.

Maxim: Yes. I was scammed by scammers about my apartment. Everything is correct. You don’t need to have law enforcement agencies or connections to do this. To do this, you can simply go online.

Irina: Yes, it’s on the Internet. I know.

Andrey: No, there, in the court decision, on the contrary, you are the defendant, the lawsuit is against you.

Maxim: Yes, because no one found the person who sold me the apartment, so a lawsuit was brought against me.

Andrey: No. The file says that you and a certain person sold an apartment at an inflated price to another person who was insane. That's the crux of it.

Maxim: You are completely misreading the court's decision. It clearly states that I bought an apartment from a person, and the person bought an apartment from another person. They disputed a transaction that was not between me and the person, but between the seller and the one who bought, the one who sold to me. I was deceived in this situation.

Irina: Anyone can familiarize themselves with this case on the Internet.

Andrey: Yes, I...

Maxim: In addition to the fact that I engage in esotericism and energy practices in order to live and earn money, I also engage in real estate.

Andrey: I don’t argue: everyone earns as much as they can. I'm wondering, Citizen Goldstein, what role does he play in your organization?

Maxim: Goldstein Volodya. He is in America and helps our organization by holding conferences and asking questions to our interstellar friends. He's a journalist.

Irina: Administrator of our club. As a journalist, I asked him to present my texts with video. He wrote the text: “Our real story from alien friends.” Texts based on my videos. They are posted on Prose.ru.

As for the development, supposedly, in the FSB. Yes, there was interest, and we do not hide it. There may be many in development. We are still working despite this development. This suggests that no violations have been found and will not be found, because there is no extremism.

Andrey: You see, the question arose about the creation of a religious movement or a foreign non-profit organization on the territory of the Russian Federation.

Maxim: The organization is not registered. What are you talking about now?

Andrey : That's why I say: "Why this triangle: Goldstein, are you and Irina checking?"

Maxim: Let them check.

Irina: They have the right.

Andrey: Well, that's their business.

Maxim: This is the right of any law enforcement agencies to check the actions of persons located on the territory of the Russian Federation.

Irina: If you are interested in the question: why are we being checked, make an official request to the FSB, and you will receive an official answer.

Andrey: We will not interfere with the work of the authorities.

Maxim: Wait, Andrey. You just said that you got into the work of the authorities and asked them about it. Now you say: "We will not interfere in the work of organs." How shoud I understand this?

Andrey: I mean: we will not get involved in the nuances, find out. I am not interested. I know how they work. I have a friend there.

Maxim: Do you have an official document that we are a sect or a religious organization that is prohibited on the territory of the Russian Federation? Perhaps you have a court decision?

Irina: Court decision.

Andrey: There is no court decision yet.

Maxim: If a claim has been filed in court?

Andrey: Well, I don't know about the claims, you have to ask people. Maybe someone once served. I don't know.

Pop-up comment: I don't know if you are a cult or not. You need to ask people!

27:35 Unfounded accusation. The setting - "I don't see" means that it doesn't exist. Pay according to your heart.

Maxim: You understand that your accusation is unfounded. That is, you accuse us of being a sect. At the same time, apart from personal speculation, you have nothing else.

Irina: Your friend in the authorities did not come to us with this statement. Therefore, this is just your speculation.

Andrey: In order to check your compliance with the so-called sect, we called you, to ask, to talk. What are you actually doing? You position yourself as two contactees. By the way, there will be questions about Irina's biography. Well, I don't really see that you are in contact somewhere. Well, okay, that's later.

Pop-up comment: I don't see that you're in contact, so you're not a contactee!

Maxim: Wait one second. You say, "I don't see." What do you actually see?

Andrey: I see a community where there are some organizers. There is the role of an actor who plays the role of a contactee with someone somewhere. This is what I see.

Maxim: Who are you talking about now? Are you talking about Irina now?

Andrey: You, Mr. Goldstein and Irina. So far I know exactly three people, let’s put it this way.

Maxim: Andrey, I want to tell you more: we have more than 70 volunteers. You just named me, Irina and Goldstein. Why don't you name the others then? They are all known.

Andrey: I only know you. Because I had to communicate with you.

Maxim: You only know what you found yourself. Do I understand you correctly?

Andrey: I don’t understand. Did you find the information?

Maxim: You don’t have a real structure of what we do, what we do.

Andrey: You mean, on the material plane?

Maxim: On the material plane, we don’t take money, we don’t set prices. We give people the information that representatives of the Interstellar Union give us.

Andrey: Yeah. I won't check your accounts.

Maxim: Money is coming to the accounts. What do you think, we exist in the air, or what?

Irina: Maxim says that we do not have mandatory fees for services. We pay according to our hearts. Everyone knows about this. We don't hide it. In the video we tell everyone this.

Andrey: No. So you asked me how I see it. I explained to you that I just see one actor and several organizers. I know two.

Irina: Am I the actor?

Andrei: Yes.

Irina: You have every right to call me an actor. But you understand that you can be wrong. You see. I say what I see, what I hear, what I perceive from my interstellar friends. Whether you believe it or not is your choice. I don't force anyone to believe.

Moreover, I want to say to everyone present and everyone who will watch: “Dear friends! If you feel that the information coming through me does not match your inner vision, do not accept it. Follow your heart. This means your vibrations don't match. You have different concepts. There’s no need to break yourself.”

31:04 Irina’s childhood. Physical contacts with a representative of the constellation Cassiopeia. Examination by a psychiatrist. A mentally ill person cannot spontaneously induce hallucinations. Sending to ufologists.

Andrey: Well, we’ll talk about vibrations later. I would like to ask from the biography: “In general, Irina, how do you position your childhood?”

Irina: What interests you from childhood?

Andrey: Just in a nutshell. How do you position it?

Irina: My childhood. I was raised by my mother and grandmother; I never knew my father. My grandmother died when I was ten and a half years old. Then I was raised by my mother. My contact with aliens began when I was 13 years old. At first I didn't tell my mom anything. There were physical contacts on the flying saucer. It was a representative of the civilization of the constellation Cassiopeia.

At first I didn't tell her anything. But, since real physical contacts were scheduled twice a week in the forest on the outskirts of the village where I lived then, this became known to my mother. I told her where I was going. She didn't believe me and started checking. At first she said that I was making things up, then when I began to insist on my stories, she thought that I was crazy.

She and I visited a psychiatric clinic when I was 14 years old. Conducted an examination. Doctors told Mom and I that the encounters were not consistent with symptoms of known mental illnesses. At that time I had contact with only one representative of the Interstellar Union. His name is Kirchiton.

The psychiatrist who examined me opened a psychiatry textbook for my mother. It was written there that a mentally ill person cannot spontaneously induce in himself a state of communication with someone - hallucinations.

During the examination, the doctor asked many times to make contact with aliens. Irina always fulfilled the request. This is impossible, according to psychiatry. To my mother's question: "What is this?" He replied: "Our science does not study this. I advise you to contact ufologists."

The doctor watched programs about UFOs and brought me magazines on this topic. Mom went home, and contacts continued as before. Although, she was against it. And now she is against it.

Maxim: Thank you Irina. We can talk for a long time. Next question.

Andrey: It’s not clear, but why? Why were they in contact, what was the purpose anyway? For what?

Maxim: You will not get an answer to the question “why”. For what?

34:18 Representative of the Interstellar Union. Getting to know the planets of the Galaxy. The goal is knowledge of the Universe. Internal vibrations are suitable for contact . Link to Freud's psychoanalysis.

Irina: Why am I in contact?

Andrey: Here you are, girl, walking in the forest, and there is some alien there: “Let’s fly.” And we’ll fly there, it’s unclear why. What's the answer? What did they want from you?

Irina: What did they want from me? He is a representative of the Interstellar Union. He outlined the goal as acquaintance with the planets of the Galaxy. That is, he took me on his spaceship to various planets. First - the Solar System, then - the Galaxy. He said that this is necessary for understanding the Universe, because with my internal vibrations I am suitable for him to contact.

He did not advise me to tell anyone; at that time I was still a teenage girl. Anticipating a negative reaction to the stories of my environment, he wanted to protect me from them. I told my mother against his will. He later said that I did it in vain.

Maxim: Have we answered the question?

Andrey: A delicate question, of course, arises for me. I don't know how to ask it. Very delicate.

Maxim: So ask.

Andrey: If I speak from Freud's psychoanalysis, I have the impression that this moment in childhood hides something from your memory. That is, I'm still interested in what happened there.

Maxim: You can guess, Andrey, whatever you want. This will be your guess. When you ask questions, you say, "I guess." Be specific. Or is this your personal guess.

Irina: Is there any question you want to ask?

Andrey: I will say, this is my personal assumption that this fragment of childhood, where this fantasy exists, where you began to communicate with an alien who said: "Don't tell mom," and so on, according to Freud, hides child abuse.

Maxim: Andrey, can I ask you a question? Do you have a medical education?

Andrey: I don't have one. But I studied Freud.

Maxim: You have no education, and you draw conclusions without education?

36:52 Search for the System of the Universe. Finding Cassiopeia through feelings and empathy.

Venus: Listen, I didn't find this System of the Universe. I search and search, I don't see. She doesn't exist, she doesn't exist, everything you say.

Pop-up comment: All this time, Venus was looking somewhere for some kind of system of the universe.

Denis: They are in a parallel world, but we are not.

Venus: No.

Maxim : What are you looking for?

Denis: These planets.

Venus: No. “Cassiopeia” said to find them and see what they look like.

Irina: I said: “The constellation Cassiopeia.”

Maxim: Constellation Cassiopeia, no one told you about the planet Daraal.

Venus: I went through, no, it doesn’t exist.

Denis: Some, maybe, coordinates.

Venus: Coordinates, maybe some?

Maxim: Just a second, where did you go?

Venus: Well, the systems of the universe here on Earth. I just scan.

Denis: Point “I Am”.

Irina: There is a catalog of galactic civilizations.

Andrey: Venus usually scans and sees what you say.

Maxim: How does it scan?

Andrey: Through feelings and empathy.

Maxim: Through what?

Andrey: Feelings and empathy.

Denis: By the way, she sees “physics” quite well, people have fields there.

Maxim: How can you identify a planet through feelings and empathy, explain to me?

Andrey: Well, actually, again, for some reason you imagined that you were a contactee. Well, how come you don’t understand such things?

Maxim: I understand perfectly what I’m asking. What are the feelings you know? And what is empathy?

Denis: Empathy is basically emotions.

Maxim: Are you now looking for the planet in me or in her? In whom are you looking for this planet? A feeling is what a person shows to us. Empathy is the ability to feel another person's emotions.

Andrey: Well, we are looking through you, through you.

Maxim: If we have it in our minds, then you should have found it.

Venus: I can't find it. I do not see.

Maxim: We are now talking about what we do not think.

Andrey: We now propose: show us the coordinates, name or lead us to what you are talking about.

Venus: Coordinates, yes, at least to find them. We will enter it into the database, this will be the basis...

Maxim: Which database?

Venus: It will be open to the entire universe, and then this point can be found using this coordinate. At least the coordinates.

Maxim: I understand correctly: everything that is not in your base of the universe is not open to our world, right?

Denis: Not really.

Maxim: I just heard from you that you must add it to the base of the universe in order for it to be open to our system.

Pop-up comment: If the information is not in the Venus database, then it does not exist.

Denis: This is Venus. That's her.

Venus: This is my vision.

Irina: Venus, are you familiar with the concept of Interstellar Union?

Venus: Yes.

Irina: Do you know who goes there?

Andrey: We are familiar with different worlds, you know...

Venus: There are Spirits of creation from different...

Irina: Perfume. I understand that they are Spirits. Are you familiar with Spirits embodied in third-density bodies, with the Interstellar Union?

Maxim: Venus, please tell me, do you know each other?

Andrey: We, personally, do not know them. Therefore, I have questions: who is this, show us, take us there.

Irina : Well, if you can consciously travel in the astral world, I can ask, even now, to come with one of the curators to you.

Denis: And there's some kind of thing in the back of my head. Yes, something is creeping into the back of my head.

Andrey: Call us, we'll go.

Irina: No one can come from us, because we can't see you.

Denis: They can, they still can. You don't see us yet, but something is already creeping into the back of my head, this has been happening for a long time.

Pop-up comment: The guys believe that they can interfere with people's energy structure without their consent...

Maxim: These are your problems with the back of your head. We don't see you, we can't address you normally.

Denis: But your curators see us. You know, with a person you can sometimes tune in with a piece of text.

Andrey: You understand, you may not physically see us with your eyes or just hear us. But everyone can see us. And our Spirits see your Spirits, and your Spirits now communicate with our Spirits. We are only physically manifested here. That's the point.

Venus: We are conducting a dialogue with your Spirits now.

Maxim: May I ask a question? How many Spirits are in you? How many Souls do you have?

Denis: Oh!

Maxim: You personally, Andrey, have how many Souls?

Andrey: There are 17 Spirits in me now.

Pop-up comment: Andrey really thinks that 17 Spirits and 8 Souls live in him. And the Souls in it speak in turn. Where then is Andrei himself?

Maxim: You have 17 Spirits, right?

Andrey: And 8 Souls.

Maxim: 8 Shower in you?

Andrey: 8 showers. And I have one Soul that is a straight-up materialist. Here she is directly “drowning” for scientific atheism and matter. And you can communicate with me, you will hear that my intonation changes. This, that is, different Souls speak to you.

Denis: They take turns speaking.

Irina: Why do you consider them your own? They may be completely different personalities.

Denis: They live permanently in this body.

Andrey: They live in me and agree on everything.

Irina: Let's do this: one of you sends me your photo. I can visit you with a curator in the astral body, see who is next to you.

Andrey: You can call your curators, whatever you want there...

Denis: In fact, they see it that way.

Irina: I'm waiting for a photo, at least post it safely.

Andrey: Why do we need photographs? We are contactees, that's the secret.

42:51 The arriving "system/curator/entity" increases heart rate and blood pressure. An unconscious hologram in the shape of an oriental eye. "Injection" of entities.

Pop-up comment: Very serious guys! They don't even need a photo to scan a person's energy.

Venus: By the way, the system came from behind. Their system has arrived.

Maxim: Well, great, what kind of system?

Irina: Well, okay, then talk.

Denis: I'll take a look now.

Andrey : Let's see now.

Venus: She came, she came, interesting. What he gets is grey, silvery, more white, silvery-white-gray shiny shimmering skin.

Maxim: Who are you talking about now, Venus?

Venus: About the entity that I see that has come.

Irina: Ask who she is and where she is from?

Maxim: I wonder who came to you?

Venus: For some reason he positions himself as a curator.

Irina: From what planet, what's your name? Everything you can find out.

Denis: Well, I feel that it is quite dense, a little oppressive.

Pop-up comment: Denis, somehow also felt the entity that came to Venus. According to them, there are no curators, but this is a curator...

Denis: The temperature, brothers, how to explain it, is higher than that of people.

Venus: Yes. It increases your heart rate.

Denis: It increases speed, there is such a thing.

Venus: Increases blood pressure slightly.

Maxim: What does this entity say, where does it come from, who is it?

Denis: Oh, it can take me from four to eight hours to talk with the entity. I process information for a long time.

Maxim: Ask who she is, what's her name, what planet is she from?

Andrey: She makes some interesting sound.

Venus: I don't know.

Maxim: Are the three of you in contact with her?

Denis: I guess.

Andrei: Yes, yes.

Maxim: Three of us, great. Can any of the three tell you what her name is and where she came from?

Denis: It takes me two hours to decipher the name.

Venus: She says she lives with this woman all the time.

Irina: With me?

Maxim: Does the entity live?

Venus: Yes, he speaks like that to a woman, not to a girl, but to a woman.

Irina: So I'm a woman, what kind of girl am I?

Maxim: She's a girl, let's start with this.

Irina: 34 years old. This is a woman.

Maxim: A woman is the one who gave birth to children, you are a girl.

Irina: I see. I was married.

Maxim: We call those who gave birth to children women, so she is our girl.

Venus: Okay, with this girl.

Maxim: Lives?

Venus: Yes, she acts as a hologram. That is, she is like a hologram and people communicate through her.

Andrey: Is the projection of that world here?

Venus: She says that she is a hologram - it's just a projection - they communicate through her.

Pop-up comment: An unconscious hologram communicates with Venus.

Maxim: Are you communicating with the hologram now?

Denis: Looks like it.

Venus: Yes, communication occurs through a hologram.

Maxim: Have you mixed up anything? Are you sure you are communicating with a hologram?

Andrey: Well, I mean, earthly conditions are not suitable for them to live, so there is such a way.

Maxim: Just a second, who is this for?

Andrey: Well, these creatures.

Maxim: What creatures? Where are they from? If you are communicating with them now, they should introduce themselves, who they are and where they are from.

Denis: So, well, all that I could decipher was something with “A”, or Aksa, Aka, Aksha, you’ll never understand them.

Maxim: You don’t understand what she’s saying.

Denis: Not yet. It is possible that it could take anywhere from two to sixteen hours to transcribe.

Irina: From what constellation? You won’t hear the name of the planet, it’s not in your...

Denis: I don’t even understand what kind of Aka, Aksha, Aksa, Aka this is, who the hell knows.

Venus: Very interesting language.

Maxim: So you are communicating with a hologram now? Do I understand correctly, I ask again?

Venus: Through the hologram.

Maxim: Who can communicate through this hologram from the other side?

Venus: Your girlfriend.

Maxim: Wait. The hologram lives with a girl, you said. Who communicates with the girl through a hologram?

Irina: I communicate with her myself, so what?

Andrey : I mean, what kind of representatives are there, some kind of architects.

Venus: A lot, moreover.

Maxim: It's not clear. Which architects?

Venus: It turns out there are a lot of consciousnesses. There is not just one consciousness, there are many different consciousnesses.

Irina: That's right, there is more than one consciousness.

Andrey: Consciousness of, say, a planet or what?

Venus: Yes, it works. Look, it turns out that it, you know, it looks like this... There is such an eastern eye, such an eastern eye.

Andrey : I can see one eye.

Pop-up comment: The hologram now turns into an eastern eye with multiple consciousnesses.

Venus: The shape of such an eastern eye, almond, like this. System. And it turns out to be red-blue in color, a little blue-yellow, like this.

Irina: Interesting.

Maxim: What are you talking about now? What colors are these? What kind of eye is this?

Denis: I'm trying to determine the shape.

Venus: This is what the universe itself looks like.

Denis: Looks like the neck is long.

Maxim: The universe itself. Are you now telling us about the universe itself?

Venus: Shows me about who you are communicating with.

Andrey: Who came to the call.

Maxim: We communicate with different entities. We have a huge number of them.

Irina: We are now trying to understand who came. Ask: who is here, who are you?

Denis: That one came up to me, he has a long neck. Longer than a human's.

Pop-up comment: At this time, according to them, various entities began to "infiltrate" all of them. We are still asking and trying to understand who will "climb" into them...

Irina: Ask: "What constellation are you from?" We will immediately understand who it is.

Denis: It's not a fact that I'll decipher the name now. I'm bad with names.

Maxim: When we communicate, we immediately give feedback. Who came, from what planet, what kind of entity: subtle-material, dense-material. How do you communicate?

Denis: Honestly, I put it in the back of my head for about eight hours, and then, the next morning, some small piece of information pops up in my head.

Maxim: What are you putting in the back of your head?

Denis: No. Brains actually decipher. I'm very bad with names and numbers. For example, it can take me three to four hours to find out the name of a creature. I recognize it in a very distorted form. For example, the entity's name is something like Ekhtilei, and at first I called it Etilei.

Pop-up comment: To decipher who came, they need from two hours to a day. And most importantly, the one who came needs to be shoved into the back of his head...

Maxim: How do you work with people, please tell me, if it only takes you to decipher….

Denis: Oh, people are much simpler. No. Well, in fact, people are very complex. It took me a long time to develop a template for scanning them. No, well, there are such sensations like, it's warm here, it's cold here.

Maxim: Do you work with people according to a template?

Denis: Well, I have a template for scanning people.

Maxim: You work with people according to a template.

Andrey: It's different for everyone.

Denis: These are chakra replacements, if anything. Well, usually, like any trainees, they scan people. Here is the muladhara chakra, red. Here it works well. Next there is orange. Here it works worse. Well, that's what they usually say. That is, ordinary trainees use the chakra

template most often. Ascending, descending flow, this is also a pattern. Instead of a chakra template, my template is all sorts of archetypes.

Maxim: What are your archetypes there?

Denis: Archetypes, yes. That is, I sorted out the chakras, essentially.

Maxim: So you use more psychological terms, right? The word "archetypes" refers to psychology.

Denis: No, well, I just chose this word, I just needed some word. Because this is not chakra, this is already disassembled chakra, there is much more there...

Pop-up comment: A person chooses words from the vocabulary and uses them as he wants.

Maxim: So you don't even know how to choose the right word, do I understand you correctly?

Denis: Well, let's say for this topic, yes, so what, the archetype and that's it.

Maxim: Denis, thank you very much, I heard you. Andrey, I have a question for you. I read that you do debaptism, is that true?

Andrey: I don't do baptism, I explain to people how to do it.

Maxim: Who does the debaptism for you?

Denis: We don't do debaptism. With us, it's the other way around. We said that it was nonsense, in theory.

Maxim: You have a service in your VKontakte group. You do debaptism for 1000 rubles.

Denis: Maybe not by debaptism, maybe something else.

Pop-up comment: Unfortunately, at the time of installation, the guys cleaned up their page and removed all their services. Believe us or not, your choice.

Andrey: This is a convention, that is, people write to us with these...

Maxim: What does convention mean, Andrey? I asked you a specific question. You write on VKontakte that you are engaged in debaptism. Is this true or not?

Denis: Rather, we pull everyone out of the matrix.

Andrey: We are not engaged... We “pull them out” of the religious egregor. That is, we explain to them how to disconnect.

Maxim: What do you do? Are you “pulling them out” of the religious egregor?

Andrei: Yes.

Maxim: Did you put them there in order to get them out?

Denis: They asked us, we pulled it out.

Maxim: Now we are looking at your VKontakte page. It is written: debaptism. Or are we looking at it wrong?

Andrey: People write: “We want to carry out debaptism.” We answer them and explain how to do it. That is, forget about this egregor

completely.

Maxim: Wait, this is your product. You are engaged in debaptism for money.

Denis: When was the last time we did this? I didn't catch this, for example.

Andrey: This product...

Maxim: We just went to your group and found a debaptism for 1000 rubles.

Andrey : I'll explain to you. People ask, and we explain to them that just forget about the religious egregor, that's all.

Maxim: You have specified the details of the product: development of genes, crossbreeding, analysis of etheric components, personal development of a navigator for logging out of the system.

Andrey : What is the question? We explain to people how to disconnect from the religious egregor.

Irina: This is debaptism?

Maxim: Project "Extrasensory perception with Denis".

Denis: Oh, that's mine.

Maxim: Tell us what you teach people there.

Denis: Oh, this takes a long time to explain. Well, first I teach people to focus their attention...

Pop-up comment: At the very beginning of the video they said that they don't teach people anything...

Denis: Then I teach people to listen to their subtle sensations, well, at the level: something is crawling into the back of the head, something is pressing on their temples, on their chest...

Maxim: I am a psychologist. These are just psychological studies.

Denis: These are the basics. I'm learning how to make balls. Well, it's banal, of course. I have a book. It's in the process of being written. There are quite a lot of techniques there. Some techniques are banal. There are many other books on the level of making balls.

Maxim: Do I understand correctly, the product that is listed here is what you offer?

Denis: Yes, this is what I really do...

Maxim: Tell me, please, who does the debaptism for you?

Denis: In theory, we “pull” people out of matrices, all three of us.

Maxim: Do you pull people out of the matrix?

Denis: Now look, I’ll explain. So let me explain what we do in more detail, look.

Irina: Denis, you are like a psychic, and you, Venus, are like God, please look at our curators. There is no need to name the planet, there is no need to name it. You will perceive this differently than we do, because you have a different energy structure, and we do not expect names. Ask them if you came. Say: “Welcome. Why are you in contact with these people? Specifically with Irina and Maxim. State the purpose of the contact."

56:06 Confirmation of Irina's contact. The entity takes the form of a ball, then a spider. "Intelligence" of the Spirit and "intelligence of the senses" of the Soul. Reflections on karma, God, the laws of the universe.

Denis: Let's try. Andrey is doing this for us.

Pop-up comment: Now it turns out that firefighter Andrei Eltsov, who completed 2 days of training with Orlov, is doing this.

Andrey: They immediately make me suspicious.

Maxim: Ask. I'm interested, Andrey. You say unfoundedly: "They make me suspicious." What do they say to make you suspicious?

Maxim's pop-up comment: Entities show him with their fingers where to go...

Andrey: Usually they show me the finger in sign language... We are from there. And I'm already leading my consciousness there, looking. From 100% to 99% of cases, these planets build your life. That is, from the potential of Souls that are on Earth.

Denis: So, well, I managed to catch some line. What contacts because she hears us. Something like this, vague.

Irina: But the target, in general, hears, so what?

Pop-up comment: They now confirm Irina's contact. It's all very strange: before this they said that it was all a show and an actor's play!

Venus: She tells me... She talks to me and says that, first of all, she can arrange a walk around our universe, through our galaxy. "I can arrange a walk, like you do at the zoo, cinema, theater. That is, depending on the consciousness that a person can accept, identify or count. Since consciousness, she says, has a limited spectrum for

some, it cannot cognize the whole picture, everything that we have. Because everything here is not like a person's. As you are used to, she tells me. - You are used to the movement of cars, objects, factories, ships. That is, we don't have living conditions on the planet, but we also have metallurgy production." And she shows me heavy metals. Such, of crystalline origin.

Irina: Hello everyone, from our curators.

Venus: What can she do, she says: "Well, the only task for me is like transferring the Soul from here to there, if it wishes."

Andrey: In a quarry, or what?

Venus: "If she wishes, then I can," she says, "transfer the Soul from here to there."

Maxim: So you are talking to her now, and she tells you that she wants to transfer somewhere?

Venus: No, she explains. The question that Irina asked, yes, she answers. I ask her this through consciousness, she answers that it's my function. "I can move a Soul from here to there if the Soul so desires and it will live in my system of galactic space," that's what she calls it.

Maxim: Well, who are you talking to now, please tell us?

Venus: With one of the representatives.

Dennis: Describe.

Maxim: With one of the representatives of what? What is it: Interstellar Union, Galactic Federation, Spiritual World, material being? What it is?

Denis: Just give an image.

Venus: Density?

Maxim: Yes, at least the density.

Denis: Image.

Venus: The image shows me. I'll tell you now.

Maxim: Plasmoids can take on any form, just like low-vibration spiritual entities.

Denis: But you can force them to show their true appearance if you look at them more closely and “shove” the “I Am” point into them in a very cunning way.

Pop-up comment: Denis is always trying to persistently shove something somewhere...

Maxim: No need to put anything in. You can simply highlight it from your heart in order to look at its true image.

Venus: Well, it’s a kind of ball that moves very quickly, and it’s torn at the edges. Such a system of tentacles: small, but not long large tentacles, but small ones. This is a small spider with straight, not “hooked” legs.

Maxim: Venus, I have another question for you. Tell me, please, who taught you to contact subtle-material beings?

Venus: Nobody, myself.

Maxim: You are self-taught. That is, based on your images, your

ideas, you haven't read any books?

Andrey: You don't need to learn this.

Maxim: Have you read any books?

Venus: No.

Maxim: Didn't you read any books as a child?

Denis: What does this have to do with it?

Venus: Well, if fairy tales, you mean? Everyone has read fairy tales.

Pop-up comment: Now it turns out that Venus learned to communicate from fairy tales...

Venus: Well, everyone probably watched cartoons.

Maxim: Your mental representation of the images you are telling us about is built on fairy tales. I'm conditional: not on fairy tales, in the sense that it's not true, but on fairy tales, because your images are constructed that way.

Irina: What you fill your mental body here on Earth with, is how you will transmit information from your curators.

Denis: No, in fact, it is desirable to do the opposite: waiting means removing everything.

Venus: No, I'm removing the wait. Tales-strokes.

Maxim: We are now talking about those mental images and ideas that you give.

Venus: I'm not mental...

Maxim: Mental ones are those that are in your thoughts. We have a brain and we have a neural network. The mentality is to display the energy of the neural network.

Venus: No. I communicate more through the consciousness of the Soul and the intellectual body of the Spirit. Through the intelligence of the Spirit and the intelligence of the feelings of the Soul, I communicate through this, if you call it, neural network.

Maxim: Have you studied what the structure of the universe that we give is? What is intellect, Spirit, Soul? Before making a video about us, did you study this kind of information?

Venus: No, I didn't study anything about you, I was just invited.

Andrey: I studied it, yes, and I don't agree with many things.

Maxim: What do you disagree with, please tell me.

Andrey: I believe that the world is man himself and to talk about the laws of karma and the universe...

Maxim: And we also believe that the world is man himself. What is the contradiction?

Andrey: Therefore, talking about the laws of karma and the structure of the universe is talking about your own illusions.

Denis: Honestly, I argue with him from time to time.

Maxim: The laws of karma are the laws of cause and effect relationships that you have created in space.

Andrey: What you believe in is how you live.

Denis : There are many concepts of karma.

Maxim: Are you saying that everything you do has no cause-and-effect relationship?

Denis: No, he uses a different definition of karma. Karma is...

Maxim: Wait. Let's be clear: let's define karma. What is karma?

Denis: Look, I have three different...

Maxim: Wait, one second, I'm talking to Andrey now. Can I continue the conversation with him?

Denis: Okay.

Andrey: I honestly believe in karma, I personally, of the three of us, I don't believe in it. I believe that it is a concept that you give meaning to yourself. If you think that something will come to you for this, it will come to you for it.

Pop-up comment: Andrey doesn't believe in karma, and all books on esotericism, in his understanding, talk about something that doesn't exist!?

Venus: Yes, I agree with that too.

Maxim: That is, ignorance of the laws does not eliminate responsibility, do I understand correctly?

Andrey: What laws can there be for a person?

Maxim: There are laws of the universe.

Andrew: Does God obey laws?

Maxim: God is the law.

1:04:02 Who is "crazy"? Truth from a Higher Power. People are particles of the Creator. Variants of the definition of God. Esoteric teaching "leads" away from the truth.

Andrey: Then our God is crazy if he came up with laws for us?

Pop-up comment: Laws are made by crazy people... The dialogue becomes more and more interesting.

Maxim: The laws in the form that you are talking about now were invented by people. And there are laws of the universe, according to which the entire structure of the universe exists.

Venus: Well, what law are we talking about...

Andrew: Then God invented crazy people, you mean?

Irina: Why?

Maxim: God invented everyone. Not just crazy people.

Andrew: Did God even create man to live according to karma and sin or according to the law? Or did he create man to live?

Pop-up comment: Now he operates with terminology that he doesn't believe in. It will be even more interesting next...

Irina: Andrey, we are confusing the concepts a little. There are laws of

nature, they are studied in science. That's what they're called: such and such a law, Ohm's law...

Andrey: Well, this is physics, chemistry, but I don't argue.

Irina: If we called it "Newton's law," this does not mean that Newton invented it. He opened it. You heard: an apple fell on his head or something else, it doesn't matter. The law existed before he was born. Who created the law? He was created by the great legislator, the author of the entire universe and many other worlds. We see only an infinitesimal part of the universe. Calling all this God is the same as calling the tip of a fingernail a person.

Maxim: To call a person crazy is to apply your idea of who is crazy.

Irina: Firstly, to call someone crazy, you need to understand what the mind is. Because they are going crazy. We first realize what mind is. If a person does not conform to the patterns of behavior that are normal for us, we call him crazy.

There is one problem: the person you think is crazy sees that you do not meet his ideas about intelligence. That is, for him you are exactly the same crazy. To determine who is really crazy, you need to know the truth in general. What will we take as truth? With whom to compare them? There must be a third person, a third higher power.

Let's not talk about the one who humiliates others and rules over them. The highest is in energies, just as the Sun is higher than the Earth. It is larger than the Earth, it warms the Earth. The Earth depends on the Sun. If there were no Sun, the Earth would perish, all plants would die, people would not be able to live.

We depend on the Sun. The sun is higher than us. It was not for nothing that all ancient people worshiped the Sun. This was for them the highest divine being. The sun is also not eternal, it exists in the material world and is not a creator. It is self-created. Sunlight, Sun, Stars are also created. They were created by that being who lives outside this world, outside the material universe. What is outside the

universe is unknowable from the inside. We cannot know through material means.

Venus: Do you think that all people are not a divine structure?

Irina: We are now talking about the universe.

Maxim: People are a divine structure. I'll answer your question.

Denis: We somehow went a little in the wrong direction.

Irina: We're talking about the universe. We have one Creator, of which we are particles. Like the Sun has many rays. Can you name a ray of the Sun that is not sunny?

Denis: By the way, I already deciphered a piece of what the creature with the long neck was telling me a long time ago. I was able to decipher the word “not satisfied, not satisfied.” It's more "blurry" there. Either something doesn’t suit them, or something doesn’t suit you. That is, something doesn’t suit you, doesn’t suit you.

Maxim: Now we have decided that something does not suit us, I understand correctly.

Denis: No, I'm trying to decipher what the creature with the long neck is saying.

Irina: I am not satisfied with a dialogue without defining terminology.

Denis: No, maybe you weren’t happy with life, and the creature decided to take you around the worlds. Well, maybe.

Maxim: What is God for you? Please answer the question. We are now talking about God.

Venus: God, God is everything. You, I - absolutely everything that you see.

Maxim: We are a piece of God. Everything is correct.

Andrew: We are not called a piece of God. We…

Venus: Not a particle. We are God in our Universe. No, no, no, no part, no likeness, I am God. I am the Creator.

Denis: No, my definition is more complex.

Irina: Like a child. A person has a person, but he has not yet grown to the level of an adult.

Venus: We are learning, everyone is learning.

Maxim: In order to study, what do you need?

Denis: A person's intelligence, learning, desire.

Maxim: A person's mind needs to be taught. In order to teach a person's mind, who is needed?

Venus: Mother.

Denis: You need material to study.

Venus: Dad, Mom.

Maxim: Dad, mom. Great.

Denis: You can study on your own.

Maxim: You study psychology and understand what the unreasonable teachings of mom and dad lead to. Children then become schizophrenic.

Venus: I mean dad and mom, they are Soul and Spirit.

Maxim: Soul and Spirit? So you separate Soul and Spirit?

Andrey: No, why, we don't share.

Maxim: So do you share or not?

Pop-up comment: Now they do not have a common understanding of the universe... Some go to the forest, some for firewood.

Denis: We'll leave now, God knows where, because I have no concept of God. My concept of God is completely different. I have a concept, firstly: Divinity. Moreover, there are different concepts. There is a divine being, there is a formless deity, and there is also the Almighty. That is, it takes me quite a long time to explain this. There is a Divine essence.

So we argue with each other all the time, with these guys. Periodically.

Maxim: Andrey, I understood you perfectly. Everyone has a certain structure of understanding of God, and the three of you cannot even agree on a single structure of the universe.

Denis: We argue with each other. Yes. We don't create idols out of each other.

Andrey: The thing is...

Maxim: You argue with each other, but you teach people, each to

their own, right? And in order to...

Andrey: We teach people that they should have their own opinion about God, about karma and about life. What he needs is not our opinion, not our opinion...

Maxim: Any sane person should have his own opinion about any structure of the universe. But, in order to have his own opinion, he must at least know and understand this structure of the universe.

Venus: In short, we disconnect from esotericism. That is, today...

Denis: Something took us in the wrong direction...

Venus: Not there, yes... The esoteric teaching has greatly led people away from the truth, the essence, from the environment, and away from themselves, that is, spiritual departure...

Pop-up comment: Has esoteric teaching led people away from the essence? What are they doing then? Are they leading themselves and people away from the essence?

Maxim: Took people away, what's the point?

Venus: Well, let's figure it out this way. There is me, as a person, a person, yes, for example, and I have a number of problems. That is, I'm not married, I don't have children, my family is falling apart, I don't have a husband, I don't have money, I'm five or ten. That is, my system is falling apart, and it turns out that through spirituality and spiritual, supposedly, in quotes, bypass, a person begins to stimulate his own brain into a split, "disordered" personality, and he persuades himself that everything is good and everything is beautiful. At the same time, he lives in homeless conditions, creating nothing, working like a squirrel in a wheel, and at the same time he does not see a way out of the situation.

Maxim: Who are you talking about now? Is this a specific person?

Denis: More like a collective image.

Venus: I just…

Irina: Does he convince himself that everything is bad?

Andrey: No, why? We need to pay attention to...

Venus: He must first assess the situation and accept the environment where he lives.

Irina: From what position should we evaluate it? It is very important.

1:12:51 How to achieve awareness? "Teachers" and "mentors". Ideology and commitment to ideas. Activities to “disconnect from knowledge.”

Venus: Awareness. That is, admit what he will do with his life. He has a number of problems that he must solve now and find ways to do this.

Irina: Maybe this is not a problem for him, but, on the contrary, some kind of positive moment.

Maxim : How should he come to awareness if no one gives him this awareness?

Denis: Awareness is observation, first of all.

Venus: There are criteria. The health of the body is the criterion, the basis.

Maxim: There are those who don’t care about the health of the body.

Irina: There are a lot of people like that.

Maxim: How can he come to awareness if he doesn’t care about his body?

Denis: He is not an observant person, he does not monitor his health.

Maxim: How can he come to awareness?

Irina: He will say: “This is my body, I do what I want.”

Denis: He doesn't observe, he's not observant. If he doesn't care about his body, it means he's not listening to his body observantly enough. This is his body, yes, of course, but...

Venus: That's his business, but...

Maxim: Well, how can we bring him to awareness?

Denis: Maybe he doesn’t want awareness.

Venus: He will lead himself to awareness, he will lead himself.

Maxim: So, any person who drinks, smokes and gets drunk will bring himself to a conscious state?

Denis: Why would that be?

Maxim: You just said that he will lead himself to awareness.

Venus: Any person who even drinks, smokes and drinks, it doesn’t matter. If he needs it, he will bring himself, without third-party Spirits, Souls, civilizations. If he needs it.

Maxim: What if it's not necessary?

Denis: Well, it will be like this.

Irina: What if his relatives suffer?

Maxim: What is the meaning of such an existence?

Irina: If all the relatives around him are suffering, but he doesn't need anything, then what?

Andrey: Not all people are manifested in bodies.

Maxim: So we don't help such people?

Venus: No.

Denis: Well, they don't want help.

Venus: If they come, we, of course, explain to them, help them, we show them...

Maxim: Are you teachers for them?

Irina: Yes, you teach.

Venus: I show, I really show them their capabilities, and without any complicated techniques.

Andrey: Usually they come.

Maxim: Wait, one second, Andrey.

Venus: They position me as a teacher, as a mentor, yes.

Pop-up comment: Now they say that they are teachers and mentors for people, although at first they said that no one needs teachers and mentors!

Maxim: Finally, we have come to the point that you, after all, teach people.

Venus: Me personally, yes. I have my own channel.

Maxim: So you personally, right? And Andrey doesn't teach anything?

Andrey: Andrey, nothing.

Denis: Andrey simply gives some scattered information, then says, think for yourself, don't trust anyone.

Maxim: Andrey gives scattered information, and then says, think for yourself?

Denis: Well, yes.

Maxim: Great.

Irina: Andrey, I saw on your website, in your video, in your group on VKontakte, your position that all people are Gods, but contactees, channelers are not exactly Gods, because I don't like their system. You wrote about the video where I talk about the Burhad Matrix: "This is how a sect works." A sect is, in your opinion, the name of a group of like-minded people who you personally do not like.

Denis: No, why, this is not such a definition.

Andrey: It could be ideology. That is, on the contrary, I tell people, if you...

Irina: You made a value judgment. The word sect is a group of people.

Andrey: Yes, supported by one ideology.

Irina: If a person is neutral, he will say: “A group of people.” If he is negatively inclined, he will say about the same group: “Sect.” All psychologists know this.

Maxim: Andrey, I have a very serious question for you.

Pop-up comment: Now the fun begins...

Andrey: Okay, good. What question?

Maxim: Who gave you the right to insult people by expressing your opinion? Do it publicly.

Andrey: Who should I ask?

Maxim: You publicly insulted us in all your videos. You have expressed your opinions. We have Russian legislation that clearly regulates people’s behavior. You want to say…

Andrey: Well, I’m telling you, I think ideology...

Maxim: Do you think it’s right to insult people in front of everyone, without communicating with them and without knowing them?

Andrey: I say that I think ideology and commitment to the ideas of one person is already leading people away... But I, on the contrary, tell

people that if you want to get out of your fifth point, you must, first of all, understand that you did it, you are responsible for everything...

Maxim: This is also an ideology and we say that the man himself did it.

Irina: This is also an ideology, you cannot live without ideology, because you have a mind.

Denis: Okay. Oh, guys, something is “stuck” now. Maybe the screen... Look, let me explain now.

Andrey: Is it ideology...

Maxim: I want to finish a serious conversation with Andrey about the insults against us that he uttered to an audience of 31,000 of his television viewers.

Andrey: Well, if I really think so, that to believe this person is to worship ideology.

Maxim: Is it normal to insult people without knowing them, because you’re the only one who thinks so?

Venus: He probably didn’t insult people, he probably insulted philosophy.

Maxim: No. Please watch two videos.

Andrey: In general, I consider these channelers, esoteric and Vedic directions, yes, truly sectarian.

Irina: This is your evaluative opinion. This means that this is your personal ideology. And you say that you don’t like ideology.

Maxim: Who taught you to insult people? Do you think it's normal to offend people by expressing your opinion?

Irina: How are you different from us? We carry the ideology and so do you. Why do you say you don't carry her?

Andrey: Do you think it’s right that people should trust only you?

Maxim: Just a second, we never said that. We said that you need to believe your heart.

Andrey: However, you are active.

Maxim: That’s how you conduct your activities. You are involved in baptism and training people.

Andrey: I am working to disconnect from you, so that people do not depend on you at all.

Pop-up comment: He is conducting paid activities to disconnect from the knowledge that we give for free!!!! He came up with a good job for himself. I hope the Ministry of Emergency Situations doesn’t work like that.

Maxim: So, how will they depend on us? Tell me please.

Andrey: So that they don’t believe you, don’t listen, don’t follow you.

Maxim: Wait, are you now conducting your activities so that people do not believe us?

Andrei: Yes.

Maxim: Who should they believe?

Andrey: For myself.

Maxim: You, I think, Andrey.

Andrey: For myself. And they shouldn't give you any meaning at all.

Maxim: What is it: not giving us meaning?

Irina: What is "giving meaning"?

Andrey : Well, don't believe, don't listen.

Maxim: Are you saying that we are meaningless creatures?

Andrey: You, yes. Well, you see...

Maxim: Yes?

Denis: Andrey...

Andrey: Why did you decide that the two of you could decide people's destinies? Why, can you say?

Maxim: How do we decide people's destinies, please tell us? Do we recommend something to someone, give advice? Or what are we doing?

Andrey: Where did you get the idea that people need you at all?

Maxim: It's not for you to decide: people need us or not, it's up to people to decide for themselves.

Irina: If they choose to come to us, they can do it. They have the right to do this under the legislation of the Russian Federation.

Andrey: They give you meaning and are ready to follow you.

Maxim: They have the right according to the freedom of their will and the freedom of their choice. What does this have to do with you, please tell us.

Irina: You can't stop them.

Andrey: And I come and say: "Guys, you have a Spirit, a body, a Soul. In general, you believe in various nonsense. The system of the universe is bugged, it is wrong, there is nothing to do here and there is no one to trust here."

Irina: You teach them what is nonsense and what is not nonsense. And 15 minutes before, you said that you weren't teaching anything. So you lied to us?

Pop-up comment: Not only is he blatantly lying to us, but he's also confused...

Andrey: I'm not a teacher, I'm just talking theory.

Maxim: If you say this correctly and this is incorrect, you teach them.

Irina: This is the teacher.

Andrey: Look, people tell you: "I want to communicate with my Higher Self." I just tell them: "Look in the mirror and communicate." That's all. Is this a teaching?

Maxim: You didn't answer the question.

Irina: This is not constructive communication. You are now saying: “I tell people that this is nonsense, don’t look, but this is not nonsense, look.” When you evaluate a teaching and a person, you teach him.

Andrey: No, no, no. I don't tell people what to watch. I tell them, don’t watch this and that’s it.

Maxim: You just said that. We are recording, Andrey. Do you understand this or not?

Andrey: You say that I tell people what to watch and what not to watch. And I, on the contrary, tell them: “Get off the Internet, don’t watch YouTube, don’t crawl on esoteric sites and just look inside yourself.”

Irina: You are already teaching them, this is teaching.

Andrey: What kind of teaching could this be, Lord?

Maxim: You teach them not to watch YouTube, violating their freedom of choice.

Denis: Damn.

Irina: You tell them not to watch YouTube and this is your teaching.

Denis: Holy shit.

Irina: That is, you give them specific instructions. How are you different from others?

Andrey: Well, what kind of teaching could this be not to watch YouTube? Well, a mother can forbid a child not to watch YouTube, a mother is a teacher, does she have such a teaching?

Irina: You don’t tell them: “Decide for yourself what to watch.” You tell them specifically: “Don’t look!”

Denis: Andrey, you have led everything to a dead end. You don't know how to explain.

Venus: You are confused.

Denis: Yes, let me include the interview.

Maxim: I would still like to hear from Andrey, who taught him to insult people without ever communicating or seeing these people?

Venus: As I understand it, he doesn’t insult people, he insults ideology.

Maxim: He insults Irina, Katya Lel. There are specific insults there.

Andrey: I don’t have a teacher in my life.

Denis: Andrey decided so himself.

Andrey: I decided for myself.

Maxim: You don’t have a belt in your life, I’ll tell you. You are acting like a little boy who was offended and decided to express his opinion on the Internet. You did this for a reason. You did this by insulting people whom you have never seen, know, or communicated with. And now you are telling us that you are not teaching people anything. But in reality, you are doing what you are promoting, what to watch, what not to watch.

Andrey: “What to watch,” I don’t tell them. I tell them: “Don’t look.”

Pop-up comment: Lying again...

Irina: You can’t say your last name or first name in such a way that people will laugh? That's possible too.

Andrey: I don’t tell them what they need to watch. I tell them they don't have to look.

Irina: Andrey, you said: “Katya Drel.” You misstated the person's last name. Do you think yours can't be distorted?

Andrey: Well, so what, he wanted to, distorted it. What questions?

Irina: Do you think yours can’t be distorted, or what?

Maxim: Do I understand you correctly, if you wanted to, you did it?

Pop-up comment: A great teacher and, most importantly, a “nice” person who cares about everything and all of us... I apologize for the emotions.

Maxim: You don’t give a damn about everything?

Andrey: Yes, but what?

Denis: Andrey, like that, right?

Maxim: You don’t give a damn about everything?

Andrei: Yes.

Maxim: What are we going to talk about next?

Andrey: Do I have to justify myself to you, or what? I told you right away that I don’t believe it.

Maxim: What does this have to do with making excuses? We asked you normal questions.

Andrey: I told you right away: “I don’t believe in esotericism and Vedic teachings. I don't believe".

Maxim: Do I understand correctly, you don’t give a damn?

Irina: Did Katya Lel do something to you?

Andrey: I don’t care about ideology.

Irina: Has Katya Lel done something bad to you personally, Andrey?

Andrey: Who?

Irina: Katya Lel.

Andrey: Why are you pushing it to me here? No.

Irina: We don’t push, we ask.

Maxim: You called her Katya Drel. Why did you insult a person, why did you decide to offend him?

Irina: Has she made any video about you? She called you Andrey, something else. She could name it, believe me.

Andrey: Well, let him take it off, whatever I want.

Irina: Did Katya Lel do anything bad to you, Andrey? For you personally.

Andrey: Let me explain it properly. You don't understand what I consider esoteric teachings...

Maxim: Normal. Otherwise, we just can't understand why you want us all?

Andrey: I consider the entire esoteric-Vedic and chakra direction to be an ideology. I consider sectarianism to be an ideology.

Pop-up comment: That is, he considers his friends who are now communicating with him and us to be sectarians!!!

1:25:59 Creating templates. About idols. Are we part of the system? About the school of contactees. Irina, Maxim and Venus for harmony in relationships.

Maxim: Your friend was just telling us about chakras. 15 minutes ago he told me that he works with chakras.

Denis: This confuses me myself. Well, not by chakras, by archetypes.

Maxim: According to what archetypes? These are psychological statements...

Denis: In short, I work according to a template, that's all. According to the standard, it doesn't matter.

Maxim: You just talked about the red chakra, about the orange chakra. Are you just telling me lies?

Andrey: These are templates.

Denis: I developed my own template.

Maxim: Have you developed templates based on the chakras?

Denis: Well, I took them apart quite a lot.

Maxim: That is, you sorted them out. You were involved in sectarianism, according to Andrey.

Denis: Well, I myself am surprised why they took me to this party.

Maxim: You don't even agree with each other?

Denis: We argue periodically, yes. I don't make idols out of them. They are not idols, not Gods.

Irina: If you don't argue, is this necessarily an "idol"?

Andrey: Well, if you agree, then, yes, you're screwed.

Denis: You can agree, you can disagree.

Irina: For example, I agree with you that each of us is God. Everyone is God for themselves and for God the Father. Because we are its particles. But you are not idols for me.

Andrey: We do not consider ourselves to be particles of God, no.

Maxim: I just heard something completely different: you consider yourself the structure of the universe and God.

Venus: It's me, it's me who says so. That is, we, look, we have...

Irina: Venus, you are a divine structure, I agree with this, but you are not an idol for me, no.

Venus: I know that I am not an idol... You will not make an idol out of me.

Maxim: What kind of idolatry are we talking about now?

Venus: Nobody talks about the idol. Everyone for themselves. Its own structure. She studies herself, knows herself and creates, creates. That is, everyone...

Pop-up comment: These people are trying to teach you something by providing PAID services. Beware of SCAM!!!

Maxim: Can I ask you a question? If you weren't in school, would you be able to count, write and everything else?

Denis: Well, my mother taught me to write and count.

Maxim: It turns out that you have no education?

Denis: No, well, I have an education, I'm just saying.

Venus: You are talking about any formations. We learn something every day.

Maxim: We learn something every day. Right?

Andrey: We study the world around us.

Maxim: Were you in kindergarten? Have you been to school? Did you study at the institute? I have three higher education degrees. Do you have any education?

Andrey: Well done, what? I have a tower.

Maxim: There is a tower, cool! Well done, Andrey! Do the rest of us have at least some education?

Denis: I have secondary education and higher education via correspondence. No, we went into the wilds, not there.

Maxim: Venus, do you have a higher education?

Venus: We all have higher education.

Maxim: That is, everyone was in kindergarten, everyone went to school, then they went to college, right?

Andrey: Then we realized that education...

Maxim: When they taught you, then you realized that it was all crap?

Andrei: Yes!

Maxim: They taught you in vain.

Andrey: We realized that these were images that were put into our heads in order for us to be part of the system. We understood this.

Denis: Well, Andrey always states briefly and categorically.

Irina: Do you want to be part of the system?

Andrey: No.

Irina: Then why are you part of the YouTube system, posting videos there?

Andrey: So that people are not misled and understand that they are in a bugged system.

Irina: You said about Katya. This is not Katya Lel, but Katya Drel, you did not criticize the ideology of the esotericists, you criticized a specific person for the fact that she does not correspond to your idea. Is this considered correct?

Andrey: Because she misleads people with her esoteric-Vedic...

Irina: In your opinion, it should not be misleading; in your opinion, it should correspond to your ideas. Is she obligated to do this?

Andrey: I believe that there is no need to take on the cult of the messiah.

Maxim: You didn't answer the question, do you think...

Irina: Is she obliged to do this?

Andrey: She took on the image that she is the messiah, she is the chosen one.

Irina: Even if she took such an image, she shouldn't have taken it?

Denis: Andrey, if I take on the image of the chosen messiah, what will you do?

Andrey: Well, then I will argue with you.

Denis: Yes, well, we argue from time to time. Well, it's just me.

Irina: We've been here for an hour and a half. We must already stop at something specific.

Venus: Nothing at all.

Denis: Yes, well, we need to stop at something, that's right...

Venus: We need to decide.

Maxim: Venus, listen. You have talents and opportunities to communicate with subtle-material civilizations, albeit in a rudimentary form. We will soon open a school for contactees.

Pop-up comment: The Cassiopeia Contactee School will open after the New Year. Payment for training and accommodation at the Center is according to your heart. All specialists of the Cassiopeia Center do not set and do not have the right to set prices for their services!!!

Maxim: No one takes money for training. We do this in order to increase the level of quality of awareness of people and contactees on Earth. If you want, you can come to us, and we will be happy to wean you. The way we understand it, the way the Interstellar Union understands it, the way Irina understands it.

Irina: If you want. There will be no idols here.

Maxim: There will be no idols. Nobody asks for money, neither for training nor for accommodation. The only thing is that you will spend money on food. Venus, we are ready to accept you in the first cohort at our school. I'm not kidding, we don't have prices for education or accommodation.

I'm preparing a hostel, I'm building a center. People who come to us will be on donation terms, that is, payment according to their hearts. There is no payment, we really are not a sect, we do not convince anyone that our ideology is the truth. We tell everyone: "Listen to your

heart.”

Each of us is God. There is a separate article on this matter. When the representative of the planet Shimor transmitted information through me, it was said that each of us is God. Maybe we have not grown to a certain level, we are in a dense body, we are going through our lessons here, but our inner state is divine. It is part of God. That is, each of us is God.

Venus: I know, I'm studying.

Maxim: We do not convince anyone of anything. We are not destructive. We are talking about every person thinking with his own head and showing love for the whole world that surrounds him. We are talking about him increasing his level of awareness and perception.

How to do it? Through retreats, through programs, through learning moments, because without learning moments this cannot be done. We can tell, and the person will decide whether he needs it or not, whether to take note of it or not. Under no circumstances do we drag anyone anywhere; we do not make any payments: neither official nor unofficial. With us, everything is at the request of the person himself.

Irina: Our curators suggest: the curators of Venus know Andrey. So far no one has approached me from him, but the curators of Venus tell me that he is now in a struggle. He has contacts with spiritual entities, in our terminology: semi-conscious and unconscious. Contacts take place at the level of the Spiritual world. These are disembodied entities: his Guardian Angel and mentors. They send him the energy of Light that he stands for justice. Next to him are those whom we call Demons. These are disembodied Spirits.

They are next to him and send him thoughts - the curators are now telling me - that everything in the world is useless, that you shouldn’t trust anything, that you shouldn’t give your love, your energy to anything...

Denis: In theory, they tell me the same thing.

Irina: Because everyone is deceived, you can't trust anyone. He has had this feeling since childhood. The curators tell me.

Denis: It's as if my beings don't tell me this.

Maxim: You are in a single field, you constantly communicate.

Irina: They are now saying what...

Denis: Well, our thoughts, rather, coincided.

Irina: Andrey, about your contact. These are not plasmoids. I don't feel any plasmoids. I was told that you have contact with the Spiritual world. You, as a medium, as a contactee, can succeed. It is enough to develop sensitivity in yourself. But for this you need to realize that you are completely safe. My curators are now telling me that you do not feel completely safe in this world because you had negative experiences in childhood and early adolescence, when you were betrayed. Therefore, it is very difficult for you to believe in Love and Light.

To accept and forgive this betrayal, to forgive yourself, since the offense against yourself is serious: why did you believe it? After completing this lesson, you will become stronger and believe in love again. You will feel like a part of this boundless world and, at the same time, its creator. It's real.

The curators of Venus tell me about you, since I cannot come to you in the astral plane yet. The curators of Venus say: "There is a struggle in your Soul between two ideologies."

Denis: I have a lot of struggle in my Soul, it's strange.

Andrey: Damn, I lost the idea that I wanted to answer.

Denis: I actually lost my mind, because I wanted to get in a lot of

places, but they didn't let me. The problem is that Andrey, he sometimes explains things pretty badly. Honestly. And we have to supplement it.

Pop-up comment: Andrey explains poorly, so they have to complement it. This is how friends they believe in you, and this is very precious, appreciate it...

Andrey: In general, regarding these topics of contacting, I believe that every person is a contact with the external environment. That is, he is in contact every second.

Denis: For example, I don't agree. I believe that this should be practiced in pairs.

Andrey: This can be developed through feelings, well, standard, feelings, empathy.

Irina: Through the Higher Self we develop.

Maxim: We go through this through the Higher Self.

Andrey: I don't believe in the concepts of the Higher Self, mentors, Guardian Angel.

Denis: Now we'll leave again, we'll leave again now, we'll get down. Well, we have so many unsolved topics, it's a mess. That is, we are slowing down, slowing down.

Maxim: Guys, we are ready to reveal topics, but we have very limited time.

Denis: Yes, I understand, I understand.

Pop-up comment: The main thing is that they agreed that they are

teachers. And now Andrey's phrase: "Students live in the illusion of their teachers." That is, he introduces you to the illusion of his perception of the world. We have now seen his world well!!!

Maxim: Think whatever you want, guys. We heard what we wanted.

Irina: Yes.

Maxim: I also understood that Andrey doesn't care what to say or who to say to.

Denis: Andrey is sharp, finally, he's straight...

Maxim: Guys, harsh is not harsh, but there are rules of decency, rules of culture, rules of communication.

Denis: Yes, this is nonsense.

Andrey: What should we pay attention to? Well, let's send each other, what's the point?

Maxim: Guys, we don't work like that. We are cooperating. We are trying to show feelings of respect, distance, love for you.

Venus: I am a harmonious system, I am another system. On the contrary, I am for harmony.

Maxim and Irina: And I am for harmony.

Maxim: I am for harmonious relationships. I am for the unification of contactees throughout the Earth. I am for the unification of mediums and psychics so that on this Earth we can learn to understand each other.

Andrey: So all people are contactees.

Denis: I'd rather let it all go to hell, oh, I'll go off the rails, but no, I'm kidding.

Maxim: Guys, bye everyone.

Venus: Goodbye, everyone.

Denis: That's it.

Irina: Thank you, dear TV viewers. For our part, we want to say that we do not want to quarrel or enter into contradictions with anyone. We carry, as we can, as we feel, the Light that we send to you. We hope that each of you will follow not us, but your own Light. This is the task of our project.

Andrey: I will express my opinion. I honestly didn't see anything special in you. This is my opinion.

Denis: Well, I don't know, there was some kind of thing there.

Maxim: Andrey, we don't force you to see something special in us.

Irina: You are as special as we are. Everything is unique in this system.

Andrey: I don't understand why people, of course, worship you, but...

Maxim: Why do they "worship" again? We are against worship in general.

Denis: Andrey, damn it, ahhh...

Maxim: Guys, that's it, bye.

Pop-up comment: We had such an interesting meeting with whistleblowers of sects and commercial non-esotericists. We understand that we are treading on HYDRA's tail by offering the services of highly qualified specialists working at the Cassiopeia Center, with payment according to our hearts. We will wait for further attacks and revelations from those who make money from you, but who are indifferent to you!

November 01, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

MidgasKaus - representative of the planet Esler, biologist, psychologist, specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interactions with the material world;

Andrey is the creator of the YouTube channel;

Denis, Venus – support group.

#162 Vanga’s prophecies come true. Andrei Malakhov. Live.

https://blog.cassiopeia.center/prorochestva-vangi-sbyvayutsya-andrej-malahov
https://www.youtube.com/watch?v=n77-4aVXzKI

00:09 Press reports about UFOs. The village of Molebka is an anomalous zone. Announcement.

UFO or what was it? Recently, there have been reports in the press about unidentified flying objects.

Andrey Malakhov: Irina Podzorova claims that she visited the alien base, which is also located in the Moleb Triangle. And after communicating with them, she discovered superpowers.

Irina Podzorova: There were five creatures. The heads were in a semicircle, and on their heads there were three round eyes that glowed. And suddenly, one of these creatures asks me: “Who are you?”

Andrey Malakhov: Shortly before her death, Vanga predicted that in 2020 there would be a meeting with representatives of other civilizations, and to the question: “Is it true that alien ships visit the Earth?” She replied: “Yes, they are preparing a big event.”

00:47 Studio. Presentation of Irina Podzorova as a contactee with extraterrestrial civilizations.

Andrey Malakhov: In our studio, Irina Podzorova from Voronezh, who claims that she is constantly in contact with extraterrestrials, aliens, and even visited the UFO base in that same Molebka. Good evening!

Irina Podzorova: Hello!

Andrey Malakhov: The most interesting thing is that the subscribers of your YouTube channel, which is very popular there, told us about you from the United States of America. You have tens of thousands of fans. How long ago did you decide to start your blog and talk about your contact with aliens?

Irina Podzorova: Hello, Andrey, hello, dear experts, hello, dear TV viewers! My name is Irina Podzorova, I have been a contactee with extraterrestrial civilizations since I was 13 years old. At first it was a representative of the planet Daraal, whose image was now shown on the screen. His name is Kirchiton, he is from the planet Daraal, constellation Cassiopeia. I met him and I have physical contact with him. That is, he flies to me and...

Andrey Malakhov: Let's say now, so that our TV viewers don't think that we've all gone crazy, let's say that you're from Voronezh, right?

Irina Podzorova: From Voronezh.

Andrei Malakhov: We found a report from the "Time" program in 1989, which can also shed light on what our heroine is telling. Attention to the screen.

02:16 Video. UFO or what was it? Report from Voronezh, 1989.

Journalist: Here we are in this place where, according to eyewitnesses, an unidentified flying object landed. Here's an eyewitness.

Boy: Yes, we were scared. Then he hovered over this tree.

Journalist: Yes.

Boy: He hovered, the door opened, and a big man, about three meters old, looked out. He had no head, no shoulders. He just had this lump.

Journalist: Instead of a head?

Boy: Yes, from here. Like this. There were three eyes. There are two on his sides, and one in the middle. Since his head cannot turn, his eye in the middle turned. He could look right, left, up, down. And instead of a nose there were two holes. Just.

03:18 Studio. Irina Podzorova about the first contact with aliens.

Andrey Malakhov : This is practically what you described to our correspondents.

Irina Podzorova: Yes, yes, yes.

Andrey Malakhov: That's why we were a little surprised. So, you are 13 years old. And where did this meeting take place? Territorially.

Irina Podzorova: This happened in my small homeland. I am from the Voronezh region, the village of Peski. It is 250 km from Voronezh.

Andrey Malakhov: Did other villagers see it, or was it just you who...

Irina Podzorova : I don't know anything about other residents. Nobody told me anything like that. I was walking in the evening...

Andrey Malakhov: You yourself told one of the local residents that "I had contact yesterday" or...

Irina Podzorova: I told you. When I saw Kirchiton on the ship, I approached them, introduced myself, and he invited me to visit their planet.

Andrey Malakhov: Let's listen to what you told us about this meeting on the spot. Attention.

04:07 Video. Continuation of Irina's story about first contact.

Irina Podzorova: I am a contactee. In 1999, I met aliens for the first time. This contact occurred when I was 13 years old. I saw a huge triangular-shaped alien ship. It had several windows that glowed with white light. There were five creatures, they had no neck, that is, their heads were in a semicircle, and three round eyes shone on their heads. Suddenly one of these creatures in pure Russian, in a male voice, asks me: "Who are you?" I asked: "Who are you?" He says: "I am Kirchiton." I say: "And I'm Irina." He says to me: "Will you fly with us?" "Where?" He says: "Where we live." And I told him: "Forgive me, I can't fly with you, because I have to go home. If I don't come back for a long time, my mother will look for me and be very worried." He told me: "Mark the time. In exactly two minutes you will be here."

05:25 Studio. Description of our Galaxy. Interstellar Union. Conditions for contact with aliens. Chips: origin, purpose.

Andrey Malakhov: And how often do your contacts happen now?

Irina Podzorova: Now everything has changed for me. In addition to Kirchiton, representatives of other planets of the Interstellar Union are in touch with me. To immediately clarify, I want to say that in our Galaxy there are 727 civilizations, the so-called dense ones, which exist in a dense physical body. And there are tens of times more civilizations, the so-called thin-material or plasmoid ones. That is, they consist of energies.

Andrey Malakhov: Excuse me, why do you think they chose you as their contactee?

Irina Podzorova: Of course, I asked about this. 727 intelligent, humanoid, dense-material civilizations. And 116 of them are part of the so-called Interstellar Union. The planet Daraal, where Kirchiton is from, is part of it. Our Earth is not included in it. So they are here secretly

from most earthlings. Because our planet is not yet ready for mass contact. They can only go out with individual contactees, who, as he explained to me, in terms of their energy level, in terms of vibrations, coincide with their vibrations. And they can make contact safely for themselves, for their physical, energetic and psychological health. Kirchiton arranged for me to meet him twice a week in the forest. When I was on the second contact with him, he had already arrived on a flying saucer and they put a chip on me. He took me to the lunar base.

Andrey Malakhov: Do you have a chip?

Irina Podzorova: Yes.

Andrey Malakhov: Where is this chip located, in what place?

Irina Podzorova: The chip that Kirchiton installed for me, he installed it for me, I don't remember it, they turned off my consciousness.

Alexander Myagchenkov: Sorry. Andrey, it's very easy to determine where your chips are. Do a CT scan and it will show everything.

Irina Podzorova: Not everything is so simple with a chip. Since it is of organic origin, it consists, as he explained to me, of biopolymer materials that cannot be detected by any of our radiation. Either magnetic waves or x-ray waves. Moreover, it is built in such a way by a specialist from the Interstellar Union that it imitates some kind of vessel or nerve, or something else.

Andrey Malakhov: As I understand it, Katya Lel, who is present here today, you know each other, right Katya?

Katya Lel: Yes.

Andrey Malakhov: You had a contact session on Skype, and we have a fragment of your online dialogue. Attention.

08:09 Video. Katya Lel is in touch with Irina Podzorova regarding the purpose of her contact with aliens. Why did you take the teeth? Biorobots.

Irina Podzorova: The purpose of our meeting today is to find out what happened to you, with whom contacts, its purpose.

Katya Lel: I want to know what happened to me at the age of 16, why these teeth were taken from me. And I want to know everything in detail.

Irina Podzorova: A representative of the civilization who was in contact with you is present here. And he said that this was the same one who contacted you directly physically twice.

Katya Lel: Very nice.

Irina Podzorova: His name is Sentit. That's his name.

Katya Lel: It turns out that they took us sister on the ship, and there they took teeth. But why three whole teeth?

Irina Podzorova: He says that this was the minimum required to grow two biorobots.

Katya Lel: Yes. In my face. So I have a clone?

Irina Podzorova: Your Soul is not embodied there.

Katya Lel: That is, they made me into a full-fledged biorobot if they took DNA. Did I understand correctly?

Irina Podzorova: Two.

Katya Lel: Do they look like me?

Irina Podzorova: Yes, of course! They look like you, only a different hair color, they just showed me.

Katya Lel: So I can safely release them on stage? Yes?

09:33 Studio. Presentation of Irina's curators to the guests of the program. Astral in the studio.

Andrey Malakhov: For you, everything that Irina tells you, you believe in it more than others, as I understand it, and also... How old were you when your teeth were taken from you, remind me.

Katya Lel: I was 16 years old, Irina was 13 years old. I understand that Irina is a representative, a contactee, one of those who are given this communication and whose vibrations suit them. I know that every day more and more truths will be revealed to us, which will give us new information.

Andrey Malakhov: Okay. What do these contacts give you? And, of course, the question that is in the title of the program about Vanga, who said that 2020 is preparing something big for us. What's big? Coronavirus? What are they telling you?

Irina Podzorova: My curators are currently representatives of the planet Esler. His name is MidgasCaus. I want to tell you that I am not present here alone now. Now there are two representatives of the Interstellar Union with me in their astral bodies.

Andrey Malakhov: Are they here somewhere?

Irina Podzorova: They are in the astral space.

Guests in the studio: Ask if they can somehow express themselves to make us feel? Maybe they will come to the studio? It’s awkward

because we can’t talk to them. It’s unpleasant that they see us, but we don’t see them. Somehow it’s even impolite.

Irina Podzorova: They don’t see your bodies, they see you in energies, through the Astral. I will explain to you what the Astral is. The Astral World is a part of the Spiritual World, into which you all go when your body is asleep. They do the same. Now their physical bodies are either on another planet or on one of the bases.

Maria Tsigal: Aren't you scared?

11:13 Studio. Ruslan Romanov about his contacts with aliens.

Andrey Malakhov: Ruslan, how old were you? I was told that you are also a contactee. How old were you when you first saw it?

Ruslan Romanov: Seventeen to eighteen.

Andrey Malakhov: And how did they choose you? At what second did you realize that you were the chosen one?

Ruslan: I called them myself. I read in some newspaper how to get in touch. I lay down and began to meditate. Not immediately, but gradually, they began to appear. At first I saw silhouettes and every night when I went to bed, they were more and more clearly visible, telepathic contact occurred. I talked to them, asked them, asked questions, they answered. And then everything became clearer and clearer. Then there were them too, there were five of them, and I had three.

Andrey Malakhov: Are they similar to those?

Ruslan: No, they are human. It's like us, only a little taller and shorter hair.

Andrey Malakhov: And where did the contact take place, in what part

of the country?

Ruslan: At my home, in Sosnovy Bor, Leningrad region.

Irina Podzorova: Okay.

Andrey Malakhov: Let's show. We sent you our most subtle correspondent, Alexander Kozyavin, to show you how you communicate. Here is his report.

12:19 Video. Demonstration of a communication session with MidgasCaus and a program correspondent. Diagnostics of a journalist.

Irina Podzorova: In 20-30 minutes representatives from another planet will approach.

Maxim Rusan: Now you sit down.

Irina Podzorova: Now they will give you a diagnosis.

Maxim Rusan: Relax, we are leaving your field. MidgasCaus gives you a diagnosis.

Alexander Kozyavin: Who is MidgasKaus?

Irina Podzorova: He lives on another planet.

Alexander Kozyavin: Far from us?

Irina Podzorova: 36 light years. There he is a specialist in biology, psychology and an expert on alien civilizations.

Maxim Rusan: Are you ready?

Alexander Kozyavin: Ready. Why? What will happen now?

Maxim Rusan: For now, take a seat.

Irina Podzorova: Control it.

Maxim Rusan: Just sit down for now.

Irina Podzorova: I'll tell you now.

Maxim Rusan: You don't need to do anything. You must say "I give informed consent."

Alexander Kozyavin: I give informed consent.

Irina Podzorova: To diagnose MidgasCaus from the planet Esler.

Alexander Kozyavin: For Mid diagnostics...

Irina Podzorova: MidgasCausa.

Alexander Kozyavin: MidgasKausa.

Irina Podzorova: From the planet Esler.

Alexander Kozyavin: From the planet Esler.

Irina Podzorova: Mid, watch it, please!

Alexander Kozyavin: Who did you contact?

Irina Podzorova: To the Mid.

Maxim Rusan: Mid stands next to you and is in your field. He will tell you if you have any internal violations.

Irina Podzorova: With his hands, now, smiling, from the head, he begins to look at your physical body, as far as I understood him. Okay, I'll come now. Mid, can I go there now? I'll pass by him. MidgasCaus gave him a diagnosis and asked him to write it down on a piece of paper. Therefore, I will now go there and record.

Alexander Kozyavin: He speaks Russian to you, right?

Irina Podzorova: Of course, he studied it. Now he's one thing or another to me, I'm in a hurry to write him down. The diameter of the aura is 236 cm. This is the average for a person. There are no extraneous spiritual entities. There are no demons in your field. There are people who are clearly obsessed.

Alexander Kozyavin: Am I not obsessed?

Irina Podzorova: You are not obsessed.

Alexander Kozyavin: Thank God!

14:35 Studio. Presentation by Maxim Rusan. Maxim's meeting with Irina. His curator. Purpose of contacts. Answers on questions.

Andrey Malakhov: During this report, we saw another person in a green T-shirt. Maxim Rusan from Izhevsk. You are the founder of this team, which is in contact with extraterrestrial civilizations. How did you meet Irina, how did you find each other?

Maxim Rusan: Our acquaintance with Irina was not accidental. We have such a little secret. Our acquaintance with Irina was planned

quite early before we were born on this planet.

Andrey Malakhov: Aliens?

Maxim Rusan: How to say? Those aliens with whom I have already lived for a year. I have been communicating with different civilizations for a whole year.

Andrey Malakhov: How many do you have?

Maxim Rusan: Personally, I have one curator. Planet Shimor, this is LiShioni. He is also present here. They, together with Irina, MidgasCaus, came here to you. They are located in astral bodies. I communicate through Irina, shoot videos, answer questions. I communicate every day with different civilizations, and I have never known such a large amount of information, such a large number of insights, such a huge amount of feedback.

Andrey Malakhov: Okay. Let's do something useful for the audience, for the earthlings.

What will happen? When will the coronavirus end? How much will they give Efremov under the amnesty?

Victor Ponomarenko: And, most importantly, weren't you, your curators, who sent Mikhail Olegovich into the terrible catastrophe in which he found himself. Because one of the versions was just like that. Not without the intervention of aliens all this happened.

Maxim Rusan: In fact, there are a huge number of civilizations. Irina told me how many there are. But our curators are definitely not interested in this. Our curators are interested in something completely different. They are interested in increasing the level of awareness and perception of man as a structure of the Universe.

Maria Tsigal: An example? You keep saying that you received answers, that you know something, but we are also interested.

Moreover, as you yourself say, we have representatives here with us.

Andrey Malakhov: Is there life after death?

Maxim Rusan: Yes, finally.

Maria Tsigal: Why was the coronavirus sent to the planet?

Irina Podzorova: The cause of the coronavirus, like the cause of any epidemic in the past, is the spiritual state of the majority of humanity. That is, we will speak more specifically: the predominance in the noosphere of the Earth, which is responsible for your thoughts, for your emotions, feelings, low, negative emotions.

Alexander Myagchenkov: You came here, you knew how we live today, what problems people have: coronavirus, economic crisis, our life is bad, everyone thinks “whether there will be a denomination or not,” and so on. It was possible to talk to them in advance, to say something useful, useful, and not some kind of fooling us.

Irina Podzorova: The answer couldn’t be more specific. All the problems you mentioned have spiritual causes. They can answer you even more specifically which ones.

Alexander Myagchenkov: Does the denomination have spiritual reasons?

Irina Podzorova: Of course. Denomination, devaluation of the ruble and so on.

Andrey Malakhov: My friends! I did not intend to dedicate and make a benefit performance for our guests. The thing is that the report in the Vremya program, the call from the USA, Irina’s YouTube channel and an interesting letter from people who live in the Moleb Triangle, where, by the way, Irina had a meeting with UFO representatives, they were also from there. Let's see how Forbes magazine names this place as the eight best places in the world to hunt aliens. Attention to the

screen.

18:06 Video. The Moleb Triangle is a place to hunt aliens. His riddles.

The Moleb Triangle is one of the most mysterious places in the world, discovered in the 1980s. They say that the clock stops there and the sky lights up with bright colored lightning. Ufologists believe that this occurs as a result of a powerful release of energy in fractures of the earth's crust. Color, sound and other phenomena usually result from the passage of electromagnetic energy through this wave channel.

Since Perm geologist Emil Bachurin found a round imprint in the snow with a diameter of about 62 meters in the 80s, this area quickly became a gathering place for enthusiasts to search for Bigfoot, UFOs, glowing balls and plasmoids.

Currently, this area is being turned into a UFO park. Hotels and observatories for tourists are being built here, and gravimeters, infrared cameras and magnetic field sensors are being installed.

Andrey Malakhov: Yes. Let's do a little advertising now. Immediately after it, we will continue to discuss Vanga’s prophecies about 2020. Don’t switch.

19:18 Studio. Valery Yakimov, stalker, about his experience in researching the Molebsky phenomenon.

Andrey Malakhov: Once again, good evening everyone! We're on Live. Earlier in the program today. Shortly before her death, Vanga predicted that in 2020 there would be a meeting with representatives of other civilizations, answering the question: “Is it true that alien ships visit the Earth?” She replied: “Yes, they are preparing a big event.”

Before leaving for advertising, Irina Podzorova appeared in our studio, who claims that she is a contactor with extraterrestrial civilizations.

What does Valery Yakimov, the head of the club of fans of the Molebka anomalous zone, which is located in the Perm Territory, think about this? Valery claims that he has been observing UFOs for 20 years. What do you think, our guests today, is this a performance or is this really possible?

Valery: I think this is possible, because the world is so multifaceted that I think that nothing can be rejected. The prayer with which my destiny connected me, the passion of my whole life, where I came across things that 20-30 years ago it was impossible to even say, because you could simply be scolded for it.

Andrey Malakhov: Not to scold him, but to put him in a psychiatric clinic, as I think many people still think today.

Alexander Myagchenkov: 30 years ago we did a program about Molebka, went there, no one was imprisoned.

Katya Lel: By the way, Andryush, exactly 30 years ago, literally two days before the meeting with aliens, when my teeth were taken away, I accidentally turned on the Central Channel, and you were on the air with your program about unidentified objects. I heard and was shocked, I suddenly had terrible goosebumps all over my body. I turned off the TV and went. I think, what a nightmare, how can one survive this. And two days later this happens to me.

Andrey Malakhov: So, let's see, Valery. It's 1995, you're filming a video of a glowing red ball hovering in the air. Attention.

21:21 Video. Glowing red ball.

Valery Yakimov : Unfortunately, I don’t see anything in the camera. I see him with my eyes, I shoot right where he is. Okay, I'll try to get closer. I see it clearly, clearly through the eyepiece. He's leaving, damn he's leaving. When you try to get closer, the ball moves away. He's leaving. He's leaving. That's it, I don't see him anymore.

21:54 Studio.

Andrey Malakhov: So, this is the first video that fueled interest in this place and in everything that is happening in this district. And then you also filmed the famous Moleb flying saucer. Let's get a look.

22:10 Video. Shooting an unidentified object.

Valery Yakimov: We are standing, observing an incomprehensible flying, non-flying static luminous object. We wait. Maybe someone or something will fly towards this object. By the way, it constantly changes the lighting. She's unstable.

Voice: Will it get stronger or weaker? Light. Are you talking about this?

Valery Yakimov: Yes. When approaching an object, the object is lost from view. By the way, interesting. Look! Sometimes it turns out that for some reason the three central ones light up faster. Light up more intensely.

22:58 Studio. UFO lovers and tourists in Molebka. Who can see a UFO?

Andrey Malakhov: As I understand it, you've been making similar videos since '95, plus this place has become very popular among UFO lovers and tourists, yes. John Warren, the mayor of Perm, and our famous cosmonaut Marina Popovich also came to your base.

Guest: Test pilot Marina Popovich.

Andrey Malakhov: Yes, test pilot Marina Popovich. When was the last time you contacted and saw a UFO?

Valery Yakimov: Last seen at night from Saturday to Sunday, when the film crew was escorted out and...

Andrey Malakhov: As soon as the film crew left and you saw everything?

Valery Yakimov: You know, this is completely unpredictable. Can be seen every night. The main thing is that there are people prepared for this, who will accept it calmly, without harm to their mental health.

Andrey Malakhov: Let's listen to what other unexpected things happen in Molebka. Now we will see a man who claims that he moved 7 km in one second.

24:07 Video. Anomalous movement of a person over 7 km in the Moleb triangle.

Ermil Nechaev, journalist: In order to figure out what the Molebsk anomalous zone is, our film crew went to the Perm region. And now we are practically in the very center of the Moleb Triangle. It is here, at this place, that they say there is a certain time portal through which people move for many kilometers.

Alexander Shirin: It all started when Valera said to come here, relax, close your eyes. I felt a surge of energy and walked. It's cool here! I'll go and stand there. And here is this anthill. Here I walked in that direction. I had huge sneakers with huge treads. The soil here is so loose. I walked between these trees, the imprint of a sneaker remained, and the next footprint was gone. Somewhere at this moment I already found myself in another place. All. I didn’t understand what to do. Only at that moment did I start calling for help from Valera, Tanya, and everyone I came with. In the end, I was lost for about six hours. As it turned out later, I was seven kilometers away, a little further. From here to that place there are three huge logging ravines, and I couldn’t even walk there. I heard that people got lost here for two hours and got out right here. But for them to move so far, this did not happen.

25:33 Studio. Are UFO sightings real? Possibility of contact. Why people should refuse contact. Purposes of contacts. Using contactees for science.

Andrey Malakhov: Alexey, what do you say, looking at this?

Alexey Diashev: By the will of fate, not on my own initiative, I had to study the issues of the appearance of unidentified flying objects. Indeed, in Voronezh, in the Rossoshansky and Kantemirovsky districts, there is Novobelaya Mountain. In the period from 95-99, people had the opportunity to see this almost every week. This was filmed, the results were received. I believe that a person could be initiated. You need to be prepared for this. If someone comes up to you and me today and offers us contact, we, as normal people, should refuse.

Andrey Malakhov: Why?

Alexey Diashev: For one simple reason: you and I are not ready for this.

Maria Tsigal: She wasn't ready either.

Andrey Malakhov: It seems to me that any citizen is ready.

Alexey Diashev: I beg your pardon. I'm in defense. This is a child, he is always ready for any contact. Another question. Previously, where I worked, we were forced to work as contactees, precisely from the point of view of developing new technologies. We can create weapons based on new principles if we send a contactee, you want, to Alpha Centauri, and if it brings us results. Including in the field of medicine and biotechnology. Yes, these were used. Today, as they say, there are a lot of them, but, as the doctor correctly said: "If you talk to God, then this is religion. And if God talks to you, then it's schizophrenia." That's how everyone treats it. Therefore, you need to be a little more subtle with them. Precisely with those who deal with contacts.

Victor Ponomarenko: Sorry, can I ask you a question? Just 30 years ago I was part of an interdepartmental working group on problems of parapsychology and ufology. It was created by a decision of the Government.

Alexey Diashev: Yes, there was one.

Victor Ponomarenko: And the state was seriously interested in studying it.

Alexey Diashev: Absolutely. In contact, at work.

Viktor Ponomarenko: As a colleague to a colleague, please tell me, have we received at least something in medicine, weapons, psychology, biology, at least something from these contacts?

Alexey Diashev: We got it. Exactly, I'm telling you for sure. But there are only a few such contactees.

27:46 Opinion of a special services historian. Contactors are a consequence of technology development. Anomalies are associated with the Earth.

Andrey Vedyaev, historian of special services: I would like to say that here we are confusing cause and effect. It is not technological advances and our knowledge, for example, about coronavirus, that are a consequence of the knowledge received from contactees, but contactees are a consequence of the development of technology. Regarding anomalies, I would like to say that there are many anomalies on Earth. In particular, humanity also undergoes constant environmental influences. But there is no need to connect them all with space. And it needs to be connected with the structure of the Earth. We have anomalies, but at the same time...

Andrey Malakhov: Okay, have you seen a man who says that he moved 7 km in one second. Do you believe this can happen?

Andrey Vidyaev: Andrey, this is, of course, an illusion. The fact is that these mechanisms do not have cause-and-effect relationships, but probabilistic ones. Let's say that Efremov got into an anomalous zone and his car was abandoned, this is unlikely, because these anomalies, say, geomagnetic, geodynamic anomalies, they act on a large scale on large groups of people. It cannot be said that this particular person was

a consequence of the geomagnetic zone.

29:03 Stories about anomalies in the Molebka area of the program guests.

Alexey Diashev: Andrey Nikolaevich, you were also born in an anomalous zone, next to a nuclear power plant.

Alexander Myagchenkov: You know, I was in the Perm anomalous zone. There were about five of us. It was an American company, Sidesinks, and they took me. We flew from Perm by helicopter to Molebka very easily, then we got to an island on the Molebnaya River. She makes a circle, and this anomalous island, we spent the night there, and were there for 24 hours. Nobody moved anywhere with us. But there really were anomalies, because there were both auditory and sound hallucinations. Because at five in the morning we heard a bell ringing, although, they say, there are no churches nearby for tens of kilometers. It was. We saw wandering stars. Of course, we didn't see any plasmoids. The Americans really wanted to film it, because it was expensive for them to come here and then show it all in America. But there was nothing. We saw wandering stars. The star began to move, then stopped and fell somewhere. We didn't drink anything, there couldn't be any hallucinations. Something was happening, but no one disappeared, moved, etc. And in Molebka everyone was drunk.

30:14 Olga Gribova's story about Molebka. Pregnancy from "aliens"?

Andrey Malakhov: Olga Gribova from Izhevsk claims that during a visit to Molebka she came into contact with aliens and even became pregnant from them. When was this, Olga, hello!

Olga Gribova: Hello. It was about seven years ago on Molebka. We often went to Molebka. We liked the energy, that healing took place there, there was very good water in the well, we drank it, and it also opened up our abilities. And I had sexual contact right on my first visit, on my first trip. It was in the evening.

Andrey Malakhov: How old are you, excuse me.

Olga Gribova: Now I am 62 years old.

Andrey Malakhov: What happened when you were in a tent?

Olga Gribova: Well, consider it.

Voice from the audience: Who did you contact?

Olga Gribova: I'll tell you now. When we went to bed, I felt that first a mosquito squeak appeared in my head. At first we drove away the mosquitoes, then this squeaking became louder and appeared more clearly, like radio waves. And then energy began to flow into me, which sent relaxation throughout my body. It's like in reality, like during sexual contact. Yes, it was. And all the sensations were the same, in the lower abdomen, and there was even vibration in the abdomen. It was very surprising. Then I fell asleep. In the morning we discussed what it was and realized that we had had sexual contact.

Andrey Malakhov: Your friend also had sexual contact not with you?

Olga Gribova: Yes, and the same thing happened to the man. At the same time we had.

Andrey Malakhov: When did you realize and feel that you were pregnant?

Olga Gribova: We started talking. There are already symptoms and that's it. I went to the doctor.

Voices from the audience: To the gynecologist?

Olga Gribova: Yes. They said it was unclear what was happening there. Like bloating. But they confirmed it.

Voices from the audience: You are our Virgin Mary. Immaculate Conception. Did you give birth to an alien? Have you given birth?

Olga Gribova: Yes, I said that if this is going to happen, let me feel it. But there was no birth as such. Three months later they took it out of me. Just as it appeared, it disappeared.

32:42 Two camps on the issue of the existence of UFOs. The Vatican's cunning response.

Vera Sotnikova : Andrey, why is society divided into two camps: some believe, some don't believe. Of course, videos actually exist. And I myself observed a UFO, there is a photo, and society is interested in whether anyone will ever answer the question: "Do aliens exist or not"? And no Government, no country, takes on such responsibility. Only the Vatican answered the question. But they answered very cunningly. There is such an astronomer Jose Funes, and the answer was: "Yes, aliens exist. But these are Hi-Tech Angels." Well, we avoided the answer. And, go, now think about what it is. So it is or not. By the way, they take this very seriously. They have the coolest observatory in the whole world. They are watching for UFOs and aliens.

33:38 Question for the curators.

Andrey Malakhov: What do you, Irina, think about this story?

Irina Podzorova: Do you need my opinion or my curators? They hear too.

Voices from the audience: Curators!

Irina Podzorova: Curators. Great! MidgasCaus, what do you think about this?

Voices from the audience: Is it their business or...? Let them admit it!

Maria Tsigal: Why don’t they say anything, curators? They came and were silent!

Vera Sotnikova: Masha, they just answered. In order to get the answer, you need to tune in. With them you can’t be like, “Well, come on!”

Maria Tsigal: Irina didn’t say that. Irina didn't say that.

Katya Lel: You said everything correctly. These are subtle vibrations of matter. You can't be aggressive about this. Friends, all this exists.

Voices from the audience: We are not aggressive. I just want to hear the answer.

Alexander Myagchenkov: Subtle matter is one thing, but for some reason everyone decided that they were aliens.

Maria Tsigal: She even writes after them, we saw that. This means that you don’t need to tune in to them, they clearly communicate with her. Therefore, I personally am waiting for some clear answer.

Maxim Rusan: If you take a short pause after the question, she will definitely answer.

Andrey Malakhov: So, let’s do one more small advertisement now. Immediately after this - director Ivan Vyrypaev, actor Evgeny Tsyganov, actress Anna Tsukanova-Kott. What are the names of their contactees? 2020, Vanga's prophecy. After the commercial.

35:42 Studio. Broadcast announcement.

Andrey Malakhov: Once again, good evening everyone. If you just returned from work, earlier in the program today. Shortly before her death, Vanga predicted that in 2020 there would be a meeting with

representatives of other civilizations. To the question: “Is it true that alien ships visit Earth?” She replied: “Yes, they are preparing a big event.” At the end of the 80s, the fame of the village of Molebka in the Perm Territory thundered throughout the Soviet Union. During a winter hunt, geologist Emil Bachurin discovered a round footprint with a diameter of 62 meters among the snow. After the first mentions of the new anomalous zone, a real pilgrimage began to the Moleb Triangle. Almost everyone who visited those places talked about luminous balls, UFO invasions and pillars of fire soaring into the sky. Today, live, an expedition to the anomalous zone and unraveling the secrets of the Moleb Triangle.

Andrey Malakhov: Another fragment of the “Time” program in 1990. How a UFO was seen in Moscow on the Yaroslavl highway. Attention.

36:38 Video. UFO over the Yaroslavl highway.

Announcer: Recently, there have been reports in the press about unidentified flying objects. We were attracted by one of the latest reports from the Rabochaya Tribuna newspaper: “UFO over the Yaroslavl highway.”

“For a month and a half now, in the area of the Yaroslavl highway, at the 40-50th kilometer, strange phenomena have been occurring. One day even air defense specialists observed them. Military people are generally attentive people, and Major Vladimir Ivanovich Stroinetsky, who serves in one of the units near Moscow, also reported about a UFO over the Yaroslavl highway.”

Major: A huge mass rises, about the size of two airplanes. The contour is bordered by bright lights, flashes like welding. And she silently, absolutely silently, rushes straight onto the road, onto the highway. We had no choice but...

Journalist: Approaching you, huh?

Major: Yes, it's approaching, right in our direction. There are about 40-50 meters left, and we decided to leave, of course, we didn’t wait

until...

Journalist: Scared?

Major: You know, for safety.

37:43 Studio. Elena Shubina - eyewitness of a UFO in Molebka.

Andrey Malakhov: Elena Shubina saw a UFO also in the Moleb triangle. Do you live in Yekaterinburg? Good evening!

Elena Shubina: Yes. Good evening. I really live in the city of Yekaterinburg. And indeed I saw a plate, I saw a big one. I saw one that the film crew didn't see, because I've been going to Molebka for 11 years.

Andrey Malakhov: Why do you go there, what's wrong with this place?

Elena Shubina: Since everyone who is involved in business understands that the body's energy reserves can be completely zero. Valera and I have been family friends for many years, and he told me about Molebka, I didn't believe it. I really didn't believe it. Until it happened that my teenage daughter and I started having problems, and I went there for the first time. The first time we saw the balls, and the second time I was there, we saw the plate.

Andrey Malakhov: Let's see what you told us. Attention.

38:36. Video clip. Report from the spot.

Elena Shubina: I come here simply because I feel good here. I'm filled with energy. In the evening, on an ATV, we went to collect fir and wormwood for the bathhouse. We stopped at the place, it was quite open. Valery and I were collecting fir. We stood, talked to each other, took this fir, talked about something and turned at the same time,

looked at the sky. He says to me: “You see this too”? I say: “I see this too.” Higher than the trees, probably 7-8 meters, a very large object, even larger than an ellipse, an oval. It is silver in color and has an isthmus that shimmers with lights. And she came closer and further away from us, up and down. And it felt like the tram had arrived. There is no fear or anything else. Then they turned and looked, but she was not there.

39:40 Studio. UFO sighting details. Prayer calm.

Valery Yakimov: The movement of the object was interesting. It trembled, it was clearly fixed for a split second, there was a leap forward, trembling again, fixation, and so it moved straight in our direction and increased in size. There was a feeling that he sensed our excitement, our fear, stopped and began to walk away in the other direction. This is the first time I have seen such a method of movement that there is a very clear fixation, everything is clearly visible, then it begins to tremble, tremble, tremble, jump forward, and then stop again.

Alexander Myagchenkov: People watched and are watching, although less and less now. Maybe they write less about this. And they will observe all kinds of anomalous phenomena. But no one, never in life, Andrey.

Andrey Malakhov: Alexey says that now the Moleb zone has somehow become quiet, the energy has gone from there.

Alexey Diashev: There is movement all the time.

Maria Tsigal: Where is the energy now?

Alexander Myagchenkov: Answer who it is, where it is from and why! This is the most important question!

Elena Shubina: You ask about the flying machine, why, I won’t answer. Why am I going there, I told you. And I had a situation twice when my energy changed. The energy in the body changed. At night.

Andrey Malakhov: Anna Nikonorova is another tourist who claims that she was able to get pregnant after visiting this place.

41:02 Video. Anna Nikonorova's story about pregnancy after visiting Molebka.

Anna Nikonorova: This place, I ended up in it by accident. I came here with a request to get pregnant, because my husband and I had not been able to get pregnant for quite a long time, about 4 years. We were quite skeptical about this. Well, what is, well, energy, well, forest, well, grass, but let's go. First we went to the health clearing. While we were walking into this clearing, pillars of light appeared above the forest. You are walking, a light pole lights up in one place, then in another. Valera took me to a certain place and said: “Stay here, meditate, think about what you want, recharge yourself.” And I stand there with my eyes closed and just start looking, and around me the clearing just glows. It was as if moonlight was falling on her, but there was no moon, it was dark. Valera told me: “Lean against them, stay with them.” You could lie down on some of them and recharge. While I was lying there, my tailbone began to burn. Some kind of power came from these linden trees that I received warmth from it. After a trip to Molebka, a year and three months later I became pregnant.

42:27 Studio. The main miracle of Molebka is the harmonization of human energy.

Valery Yakimov: The main miracle in Molebka is not that we observe something in the sky. The main miracle is the impact of this place on people. This was discovered by the Mansi shamans. These unique energy points that harmonize human energy, harmonize the physical body, remove problems - this is the main miracle.

Andrey Malakhov: But as I see, everything here is now in the Californian trend - birches are hugging, and, as I understand it, Emil Bachurin, the discoverer of the Moleb Triangle, was the first to discover anomalous birches. Let's see what he had to say.

43:08 Video. Abnormal “warm” birch trees. History of research.

Emil Bachurin : We are in one of the most anomalous points in this zone. The code name for the researchers is “Three Birches”. There are almost always small objects here that perform either the role of reconnaissance probes or some kind of mobile navigation systems. You see, the framework has diverged - there is an anomaly. It itself is created due to the disturbing influence in the fields of these objects. The history of exploration of this area also dates back to the first expedition in 1986. Then the very first anomalous points were identified.

43:50 Studio. Ufologist about the phenomenon of “warm” birches.

Andrey Malakhov: Alexey Korolev, ufologist. You were personally acquainted with Emil Bachurin and were in this anomalous zone more than 30 times. What can you say about these “warm birches”?

Alexey Korolev: I will say that I have already been 40 times so far. I can say that I know almost the entire zone, even those places that almost no one goes to now. Warm birches. We have repeatedly carried out measurements not only with tactile contact, but also with instruments, a thermal imager shows all this. This particular location is 2 to 5 degrees above ambient.

Andrey Malakhov: Let's see how you examine these trees. Attention.

44:32 Video. Measurements in the Moleb anomalous zone.

Alexey Korolev: The grass and clearing on it show 15 degrees, although the environment temperature is now 9 degrees, that is, it is heated by 6 degrees on its own. For comparison, let's look in the opposite direction to see what the picture will be. See, everything is blue, right? That is, the temperature is 11 degrees. And when we move to the clearing, right there, before our eyes, we see everything in red, that it is hotter, it even showed 17 degrees.

Dmitry Savva: Here we see a temperature of about 16 degrees. Here it’s 15 degrees on the ground, here it’s about 16. We see that people were leaning against it, you can even see their prints. Heated the

surface. Let's get a look. It's 15 degrees here. That is, 14 degrees is earth, 15 degrees is birch. Also a degree difference. Of the obvious anomalies, there are no 5 degrees higher here.

46:04 Studio. Results of expeditions in the Moleb anomalous zone. Optical illusions. Games of consciousness.

Andrey Malakhov: I want to once again emphasize to our viewers that our film crew did not see any plates, warm birches are not warm at all, right? Let's call a spade a spade.

Alexey Korolev: They turned out to be just warm.

Valery: They turned out to be warm.

Alexander Myagchenkov: Someone there gets better or starts to get pregnant, but we were and only got sick after this zone. The whole group was sick for a week.

Alexey Korolev: According to statistics, 99%, on the contrary, feel better in the zone, and only 1% may get sick for some reason.

Alexander Myagchenkov: We had a good attitude and interest in all this, however, we got sick. We were positioned.

Victor Ponomarenko: It still seems to me that we will never agree. Before us are people who are passionate, and passionate to varying degrees.

Andrey Malakhov: And those interested in business, because this is a physical place.

Victor Ponomarenko: There are people who physiologically experience certain things. If you allow me to finish my thought. The fact is that in any hobby there are people who fervently believe in it. They are reincarnated. Even those who reconstruct historical events,

we remember how a comrade dismembered his partner, while he imagined himself as Napoleon in the full sense of the word.

Voice: Why are you distorting? Comparison of consciousness...

Victor Ponomarenko: I do this on purpose, because I have not seen a single alien, but I have seen dozens of medical histories in which such things were stated. There are people who, on a psychological level, on the level of their somewhat infantile imagination, are mentally healthy, they don't experience anything like that, but they see something. They mistake their optical illusions for some kind of alien reality.

Maxim Rusan: This is your personal subjective opinion.

Victor Ponomarenko: And finally, there are those who shamelessly, excuse me, make money from this, and all these light pillars, I'm waiting for it. And here is a carousel, and here is cotton candy, and here is a comfortable hotel, and off we go. The last thing I will say is that I personally like that this hobby is harmless.

47:56 Version of a special services historian about the earthly origin of UFOs.

Andrey Vedyaev: I would not so sharply deny the existence of flying saucers. They certainly exist. We know that they were created back in the Third Reich, and the Americans are the initiators of this constant interest. Because interest in them arose just after the war. Because the Americans were the ones they experienced together with Hans Kammler, whom they took out, they periodically fell. In 1965, a huge famous bell fell near Pittsburgh. They constantly turned their attention to aliens, so as not to show that they were collaborating with Nazi criminals.

Vera Sotnikova: Sorry, this is the question. You said that saucers are Nazi technology. Sorry. Why then do the paintings of early Italians, for example, Verlandai, show plates? We see plates all over the world in churches, and in Serbia.

Andrey Vedyaev: We eat from plates.

Vera Sotnikova: I'm not disputing you, I'm just clarifying. So they were there before. This is what I want to say.

Andrey Vedyaev: There are people in spacesuits. It depends on the degree of our imagination.

Alexander Myagchenkov: UFOs exist, but there are completely different forms: technological, energy, and so on.

Vera Sotnikova: Biological.

49:16 Irina Podzorova's explanation of the program guest's pregnancy. Plasmoids.

Andrey Malakhov: Still a question. Irina, can you somehow explain Olga's pregnancy? What do your curators say?

Irina Podzorova: Yes, of course. MidgasKaus says that from all the signs that she told, and from the external signs of her energy that he sees, this was not physical contact, not in the physical body. I will now explain to people who do not understand what plasmoids are. There are beings who live in subtle bodies. In our opinion, they consist of radio waves, a reasonable ray of light, if very figuratively. In the folklore and mythology of the Earth, they are known under the name: "Spirits of Nature", "Spirits of the Elements" and so on. This is all the form of life that is present next to us. The same phenomenon can be called by different words.

Victor Ponomarenko: This is the theory of occultism that you told us. You answer a specific question: what's wrong with the child, why?

Irina Podzorova: I cannot answer a specific question until I explain what it is. Because otherwise the answer will not be clear.

Vera Sotnikova: Irina, I want to say. Can?

Alexey Diashev: Is this a subtle substance or a wave one?

Irina Podzorova: Subtle material.

Vera Sotnikova: Irina! I actually really like what you're saying. There is one thing. As an actress, I want to advise you. When you do this: “I understand, yes, okay,” don’t do it out loud. You immediately sow such doubts, for me personally. I don't trust you right away. Just a little advice. If he really does answer, don't do it.

Andrey Malakhov: If director Ivan Vyrypaev is watching us today. He just staged a fashionable play called “UFO UFO.” Our film crew was at the premiere. Maybe he will notice Irina and also invite her to his performance, but they say that everything is sold out for the upcoming performances. Attention.

51:05 Video. Fashion performance. Bohemia about UFOs.

Ivan Vyrypaev, director: It’s strange to think that we are the only highest intelligent form in such a vast Universe. I'm not talking about flying saucers; I have great doubts about them. And I have no doubt about contacts with different types of consciousnesses.

Gennady Vyrypaev, actor, director: We ourselves are aliens, in a sense, for others, it turns out. Therefore, if someone is looking for us, this is what we look like. We put on plays, do something.

Maria Tsigal: Sometimes you’re on the train, and grandmothers read about UFOs, or various Russian stars, no longer super popular, talk about encounters with UFOs. In short, UFO has bad PR in Russia.

Irina Bezrukova, actress: But I know a lot of people who were in contact. There are a lot of serious videos of these objects being filmed.

Elena Borscheva, actress: I even think I saw the plate. I was 10 years old and I kept a diary. I wrote into it every second, every minute. Of course, our mutual friend Katya Lel, whose teeth were taken by aliens, also told us about it. By the way, isn't she here? This is her theme.

Evgeny Tsyganov, actor: I haven't seen it, to be honest, I haven't met it yet. But I'm really looking forward to this moment, I haven't had to yet.

Anna Tsukanova-Kott, actress: I dream that aliens will take me. If you can hear me, please take me away for at least five minutes. It's interesting to talk to you.

52:40 Studio. Advertising.

Andrey Malakhov: They tell me that we have to break for advertising. Immediately after this we will continue to discuss Vanga's prophecies. How did the expedition end, and did we see a flying ship? After the commercial.

53:01 Broadcast announcement.

Andrey Malakhov: Good evening everyone, this is "Live Broadcast". Earlier in the program today. Shortly before her death, Vanga predicted that in 2020 there would be a meeting with representatives of other civilizations. And to the question: "Is it true that alien ships visit Earth?" She replied: "Yes, they are preparing a big event."

Today our program includes an expedition to the anomalous zone. The Moleb Triangle is a place where luminous balls, UFO invasions and pillars of fire soaring into the sky are constantly seen. What do local residents think about Vanga's prophecy and do they believe in the existence of UFOs? Galina Kalilova from the village of Molebka joined us during advertising, good evening!

53:42 Opinion of Molebka resident Galina Kalilova.

Andrey Malakhov: Tell me what you think. Are there any UFOs?

Galina Kalilova: You know, I really apologize, but I really want to call a psychiatric hospital. I simply cannot say anything else. Yes, of course, the zone is anomalous. Yes, indeed, it is geographically uniquely located. Yes indeed. But what I hear here, forgive me, is the ravings of a madman. Excuse me, the law of conservation of energy, which you talked about here, was given to you by, excuse me, aliens, they gave it to you in the fifth grade at school. There is only one energy that has the ability to move from one state to another. Liquid, solid, gaseous. Have you forgotten about this?

Maxim Rusan: We agree with you.

Galina Kalilova: Does this require extraterrestrial intelligence?

Irina Podzorova: Not for this at all.

Galina Kalilova: Thank God! At least this discovery is ours. For God's sake, thank you very much.

Irina Podzorova: You're welcome.

Galina Kalilova: Next. Excuse me, but let's turn on our reason. I myself have lived in Molebka for ten years. Yes, there are unidentified flying objects, energy forms.

Andrey Malakhov: They filmed it, they filmed it, look, the light is on in the dark.

Galina Kalilova: We won’t talk about the substation, that’s about something else. We won't talk about this.

Voice from the audience: Why at night?

Galina Kalilova: This is a charging light. Enough physics already, you understand.

Andrey Malakhov: Which substation, tell us. What kind of substation?

Galina Kalilova: There is a substation below. When you look from above, you will have a feeling, especially at night. Refraction of light and such garbage will be visible, sorry for my English. But it really is there. You see, it really is real there. There are energy balls. There are explanations for this too. A tectonic fault is, firstly, a geographical component, secondly, the salt below, thirdly.

Vera Sotnikova: Then why call the psychiatric hospital, I didn't understand what you just said.

Galina Kalilova: Think again for yourself. Listen. Let's get real. If some object is flying from somewhere above, at night, with a lot of lights. Where do you think it will be visible from?

Voice from the audience: Where to look from.

Galina Kalilova: It will be visible from a hundred kilometers away. You know how a plane lands. You can see him. And here you can only see from Molebka! How is that?

Alexander Myagchenkov: Because there is nothing around, there are no other villages.

Galina Kalilova: How is that? 26 kilometers, it will be visible!

Voice from the audience: This is observed not only in Molebka.

Alexander Myagchenkov: The tourists are just getting ready to go, and you are ruining everything.

Galina Kalilova: You can't see it from anywhere, but you can see it from Molebka. Note that I am not saying that this does not exist, but that it happens in our minds. Do you understand?

56:33 Opinion of Nikolai Subbotin, ufologist. Three states of Prayer.

Andrey Malakhov: Nikolay, you were also in Molebka. We saw the video you filmed there. Do you think this is all the imagination of local residents?

Nikolai Subbotin, ufologist: Andrey, I've been going to Molebka since 1990, when I was a boy. First there was interest, then journalistic interest arose. Indeed, everyone says correctly: Prayer is divided into three states. The first state is the desire to see a miracle. Because any person, when he arrives, is told: "Anomalous zone, you will see miracles." Many people with a receptive psyche will not only see miracles, they will come into contact. As my colleague correctly said, there is also geology there. Those luminous pillars, very often balls appear due to the fact that there is a concept of "megafracture". There is a kilometer and a half of reef shelf there, and that energy is often transformed into such light phenomena. But! I have been there every year for twenty years, there are a number of phenomena there that I personally had to observe, which are extremely difficult to explain. Not planes, not some atmospheric phenomena. Plus a huge number of strange anomalies associated with sound mirages. This can also be explained by the fact that echoes are transmitted along cracks.

Andrey Malakhov: In any case, the video that Nikolai Subbotin provided us, which was filmed in Molebka. Alexander, here's a life hack for you, the next time you take Americans there, how to make sure that they also film what you see.

Valery told us before the broadcast how it was done. Attention.

57:59 Video. Fake UFO video. Exposure.

Valery Yakimov: Tell me, from what point of view are you interested

in the plate?

Journalist: Because Molebka is a UFO zone. Subbotin. He sent us a video. And this is in the area...

Valery Yakimov: Shawls.

Journalist: Yes.

Valery Yakimov: This is a fake.

Journalist: Fake?

Valery Yakimov: He and I personally exposed her. I exposed it when we were just writing. I'm telling you this because this is Colin's bread. I'm just telling you, it's fake. Where the black sphere is jumping is fake. Between two towers. There are two mountains there, we went there. I say: “Come on, show me how you did it all.” Two guys did it. He showed: they did it here, they launched it here, he jumped like that. On one mountain there is a tower and on another mountain there is a tower. And he flew over so that all this was not visible.

Vera Sotnikova: Are you saying that Nikolai faked it all? Nicole, please answer.

Nikolay Subbotin: Firstly, the story starts a little differently. This is 2002, my colleague, from Shali, this was filmed there, my colleague Vlad Lukanin sends us this footage for analysis. It raises many questions. Too well shot. My colleagues and I from one Japanese TV channel, which I won’t name so as not to advertise, checked it for accuracy. Because the Japanese wanted to use her in their film. Computer analysis was carried out. Moreover, we went to this place, even tried to imitate it, is it possible to film it? They took a huge barbell, hung a balloon inflated with helium...

Vera Sotnikova: Experiment.

Alexander Myagchenkov: This can be done with computer graphics.

Nikolay Subbotin: Computer graphics didn't show it. As a result, the Japanese took this shooting, and the film was released on one of the channels.

59:49 Experiments by Dmitry Savva, stalker of anomalous phenomena.

Andrey Malakhov: Dmitry Savva, stalker-researcher of anomalous phenomena. You were with our film crew on the expedition. Have you noticed anything unusual in the Moleb Triangle?

Dmitry Savva: My main task was to objectively assess the Moleb anomalous zone. I myself have visited more than a hundred different anomalous zones, lost places. I have had several expeditions, I will now base myself on all the information, not only on this latest expedition. We did not find any obvious anomalies that were stable enough to speak of. In total, I was in this zone for about half a month, a little more. I lived there. This, of course, is not enough to make a final conclusion, but, in general, our instrumental data turned out to be empty.

Andrey Malakhov: Let's see how you went around the zone at night in the hope of feeling at least something.

01:00:47 Video. Night walk of Dmitry Savva.

Valery Yakimov: We arrived at a place controlled by observers.

Journalist: Dim, are you ready?

Dmitry Savva: Ready.

Valery Yakimov: Dmitry needs to leave the flashlight, leave the thermal imager and all the equipment, the phone, and walk calmly,

relaxed.

Dmitry Savva: Let's try and see.

Journalist: Come on, Dim, good luck to you. We'll pick you up in an hour.

Valery Yakimov: There is no guy, and if he went to the wrong place. The distance we traveled is 3 km. It felt like he was running or he had moved. What? Shall we stop? What if it’s no longer him, but a stranger?

Valery Yakimov: Dima, what?

Dmitry Savva: The place is, of course, creepy, and there are some sensations. In the last 8-10 minutes, something seemed to be happening to me on the right side. Afterwards I didn't hear any sounds.

Journalist: Tell me, most importantly, did you see a flying saucer?

Dmitry Savva: I didn’t see a flying saucer.

01:02:23 Studio. Logical explanations for the anomalous phenomena in Molebka.

Dmitry Savva: I also made some observations on my first trips. And he specifically made these observations with people who said that they had seen something. What they showed me, I explained almost everything. What, for example, they took for a UFO. For example, a trivial meteor. It is a small body that enters the atmosphere and it causes light effects. The point is that at whatever angle it enters, it can enter at such angles that it appears as if it is either flying or taking off. This was enthusiastically perceived as some kind of alien spacecraft. It was. Then the jumping dots. The point is that when...

Andrey Malakhov: Sorry, I'll interrupt you. To make it easier for you

to tell, we found the leader of the expedition that took place in 1975, Larisa Alekseevna Gershonok. She is a candidate of geological and biological sciences. Let's give the floor to scientists.

01:03:25 Video. A scientist's opinion about the anomalies in Molebka.

Larisa Gershonok: When information appeared that aliens had appeared in the Molebok area, I immediately remembered that I had made observations there in 1975. There, at a depth of 800 m, there is a peaked reef. So close to the surface of the earth, such a phenomenon is very rare. Gas has accumulated in the reef beyond normal limits. Rumbling, noise underground means there is not enough space for gas. At this moment, gases escape through the pores. Depending on its origin, this gas can glow in the dark. Balls, plates, pillars, it depends on the content of gases.

01:04:20 Studio. The psychologist explains the anomalies as an altered state of consciousness. The final.

Victor Ponomarenko : When you were preparing a young man for a hike along the path, you said approximately what hypnotists say: "Leave everything, completely relax, clear your mind and walk calmly." This is the preamble to any hypnosis session. Then it begins under external influence, and not always under the influence of the hypnotist's voice, but under the influence of some external sounds. The goal is to change the state of consciousness. And in an altered state of consciousness, a person becomes God. He sees worlds he has never seen before. He moves continents. An altered state of consciousness is an amazing, little-studied nature.

Vera Sotnikova: Man is a Divine being.

Galina Kalilova: This is exactly what is happening in Molebka.

Andrey: In fact, what we see. An interesting, good place where you can spend a weekend, recharge your batteries, and get some fresh air.

Vera Sotnikova: Get pregnant.

Galina Kalilova: Very interesting things are happening there. There is a change in consciousness happening, it really is happening. There is a clearer concentration. It's real. This is necessary and can be used.

Maxim Rusan: You will now finish about consciousness. Has our science studied consciousness? You talk about him, you talk about him.

Galina Kalilova: You should read Bekhterev, it's very useful.

Maxim Rusan: Yes? Have you read Bekhterev?

Andrey Malakhov: Mikhail, what do you say as a pilot? Do you believe that we are alone in this Universe?

Mikhail Kornienko: I'm a stranger at this celebration of life, Andrey.

Andrey Malakhov: Friends, take care of yourself and your loved ones. We leave you with the film "The Blonde Around the Corner," directed by Vladimir Bortko, where Mironov's hero makes the main conclusion about UFOs.

Goodbye.

Broadcast December 06, 2020

Visiting Andrey Malakhov:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

MidgasKaus - representative of the planet Esler, biologist, psychologist, specialist in alien life forms;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world;

Katya Lel – singer;

Ruslan Romanov – contactee with extraterrestrial civilizations;

Alexander Myagchenkov – journalist;

Valery Yakimov is a stalker;

Victor Ponomarenko – psychologist;

Alexey Diashev - Doctor of Technical Sciences;

Maria Tsigal – designer;

Vera Sotnikova – actress;

Andrey Vedyaev - intelligence officer;

Nikolay Subbotin - ufologist;

Dmitry Savva - stalker of anomalous phenomena;

Mikhail Kornienko - pilot-cosmonaut, Hero of the Russian Federation.

#164 Seraphim of Sarov and Seraphim. Healing, development of abilities, contacts with the Spiritual world.

https://blog.cassiopeia.center/serafim-sarovskij-i-serafima

00:41 Meet Seraphima.

Irina : My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations. Today I decided to introduce you to a new member of the Cassiopeia team, which is engaged in healing people and contacts with the Spiritual world. She will tell us about her path of development and what she can do and how she brings Divine Light into the souls of people. Hello, Serafima!

Serafima: Hello!

Irina: Please tell us who you are, what your name is, how old you are, and how long you have been practicing esoteric studies.

Serafima : My name is Serafima, I am 53 years old, I live in the Republic of Tatarstan. I am a healer with natural abilities. Until I was 46 years old, I lived like billions of people on the planet live. I never had any abilities, I lived like an ordinary person - family, business, ordinary life. In 2010, when my husband and I were in the temple, I approached the shrine, it was so small. Several names of saints were written on it. My gaze, like a magnet, was drawn to the name “Seraphim of Sarov”. Suddenly I started shaking, my eyes closed, and I entered such an interesting state! I had never experienced anything like this before - it was a state of weightlessness, a feeling of another reality. I had a purse and candles in my hands, my hands relaxed, and all this fell to the floor. I was rocked very strongly forward, backward, left, right, and I clearly felt how they were physically supporting me on the right side. A vision appeared: a circle of men, and I was in its center. I don’t remember their faces, but I remember very well that it

was like flowers were painted on them. Such a terrible moan escaped from my chest, incredible, I opened my eyes, I felt so light, so good. The woman who was watching me said: “Your soul hurts so much!” My husband looked at me with surprised eyes, I didn’t understand anything either, we returned home, I told my son, and the next day we went to the temple with the whole family. All this was repeated for three days, and then it was as if everything was closed: I had neither the desire nor the interest in coming to the temple, and I continued to live.

In 2013, I suddenly wanted to go somewhere on vacation. Before this, I hadn’t gone anywhere for many years - I had no desire. I chose a sanatorium in our republic, built by an oil company. He was highly praised, and I went there. I arrived on October 5th and saw the pyramids. I have always been attracted to mountains and pyramids, now I know why. I was so stunned to see this structure that, of course, the next day in the evening I went to the pyramids. When I entered one of them, I was drawn to stand under the dome, in the very center, and again I entered the state that was then in the temple. I began to sway again, but everything was much more powerful and brighter. I didn’t understand what was happening to my body, why it was doing some kind of gymnastics, and I felt the presence of a very powerful, very kind, my native male energy nearby. She filled all the space around. Everything that happened to me reminded me of some kind of session. My body was not just performing some chaotic movements, no, it was like a certain session. It always ended like this: they put me in all four corners, then in the center, then they escorted me to the door, and I left the pyramid. The trance state disappeared. I returned to the room, and, of course, all my thoughts were occupied with questions: “what is happening in the pyramid, what kind of power is this?” The next day I went again. I started coming two or three times a day, and everything continued. Of course, I began to tell and question the administration and the nurses during the procedures. I say: “You see, there is some kind of force living in your pyramid (as it seemed to me then), and this force is dealing with me.” Of course, they looked at me differently, you understand how people perceive it, naturally, not everyone believed it. They told me: “These pyramids were built by serious specialists in the golden ratio, we call them “pyramids of health.” Indeed, people there feel a beneficial state, but what you are saying has never happened in history.” I tried to prove: “It’s true, I’m not lying.” One day I came to the pyramid, and there were two women there (we still communicate to this day). They tell me: “Here we are, maybe someone will work with us.” Everything began to happen before their eyes. They were not only

amazed, they, adult women under 60 years old, never believed in anything fantastic, and then said: “What we saw with our own eyes, of course, changed our entire consciousness.” When they looked at what was happening to me, I commented on all this: “Now they will put me there, there, and then they will put me under the dome,” and laughed. And then I received such a weighty energy push to the chest that I was pushed pretty close to the wall. I realized that there is no need to joke, to make jokes like that, or to giggle. I folded my hands: “Forgive me!” - and they again gently led me to the door. One day, when I left the pyramid, I felt that this state would not let me go, and a man was walking with me on the right side. I do not see him. It was evening, it was deserted, which is good, otherwise, I think,people would look at me. I go and say: “Don’t follow me.” I sat down on the bench and continued the dialogue: “Don’t follow me into my room.” I sat there, walked up the steps of the sanatorium, the trance released me, and then I felt that I was alone. I came to my room, began to get ready for some events - we were getting ready in the evenings, and suddenly I started shaking in the room again, and then I got scared. This force came with me to my room. I grabbed the phone, and then for the first time the timbre of my voice changed, it became hoarse. I called a friend and said: “You see, this force came with me to my room.” She scolded me: “Get out of this room!” It was something incredible. I’m standing next to the bed, I say: “I’ll leave the room,” and I’m so lightly, once, and I plopped down on the bed, they say, no, you won’t leave. But it was all good. I say: “No, I’ll go out!” I left the room, found these women, they brought a Muslim to my room, he was preparing to become a mullah. He, of course, began to scare me: “This is Satan, what have you done?” - He said some kind of prayer. They sat with me, but they needed to go to their rooms to sleep, and I was left alone. Later there was a short interview where they told me what they felt when they entered my room with me.

I went to bed, woke up at night to the fact that it was as if someone had taken my blanket and my legs and was vigorously shaking them. There was such a powerful vibration that the bed vibrated, and I saw in the air, like a jellyfish in the sea, the ribbon seemed to be looking at me, and I was looking at it. There was such a breath of goodness on me, and then everything disappeared. Of course, I could hardly wait for the morning. I thought: “That’s it, I won’t go to this pyramid anymore,” but I was drawn to it. I came, stopped at the door, looked inside and said: “I won’t come here again, you scared me.” And suddenly I felt someone take me by the shoulders, but not with physical rough hands, but with other gentle, airy ones. I went cold and thought: “He will come

with me again." They helped me down the steps and left me. When I left the pyramid (I can't tell this without tears), tears flowed like a river from my eyes, they flooded my whole face. I walk and look back at the pyramids, I understand that I don't have to leave, that I'm leaving my loved ones and family there, but my feet carried me away from the pyramid. When I looked back again, I saw that a brunette man was standing there, his head was slightly tilted, he was looking after me. A slight sadness, a slight sadness on the face. I will never forget this. I returned to my room and thought: "My heart does not deceive me, this is my energy, it is my family, I must come there." The next day I came to the pyramid. I went up to the door again and said: "I think I understand, you want to communicate with me," and I boldly stepped inside. I have never regretted this step.

The sessions have begun. When I returned home, they continued for 5 months, every day my body performed gymnastics. I told a friend about it and asked: "What kind of exercises are these? They are strangers to me." He says: "Look on the Internet for "qigong" and "five Tibetan pearls", "Sufi practices." I looked, some of the exercises were very similar. I began to develop the ability to look at photos, but I was advised to look without seeing the image. Energy came in different colors for me, sometimes I described in detail what was in the photo. There were experiments with objects that were hidden in boxes, with drinks, and I managed to read everything with an A. I said that through these sessions a certain power, then I did not yet know what it was, opens up my abilities. One day, when I decided to work out, I closed my eyes, and in my eyes there was blackness, almost nothing was visible (and I always saw pictures with my eyes closed). I'm so sad! But then, it turns out, nothing had even begun yet.

At the end of February 2014, my transformation began. It was so difficult that only my son and I know how I survived it. These were incredible states. They were so heavy that it is impossible to describe them in words. The most difficult and terrible time lasted about six weeks. I am very grateful to my son, my son is a real guy, a real son. Many people advised him to send me to a psychiatric hospital, but he protected me and did not let anyone near me. He said: "Mom, after the pyramid such things happened to you, for some reason I thought and felt that your abilities were opening up, that these were some moments that needed to be experienced." After 6 weeks I started to feel better. I realized that during the transformation I went through the stage of death, now I know how a person feels when he dies. I saw my absolutely waxy dead face. I also know how a child feels during birth. I

went through everything, all the stages... When I began to come out of this state, I felt like a baby: I was drooling, I couldn't pronounce the letters, I was clumsy, like kids trying to walk. My sister, when she came to see me, said: "When I saw you, it was funny, and at the same time so hard to watch how an adult woman fell into childhood." And this child began to grow up very quickly, but became a different person. I began to notice: I want to take an object with my right hand (I have been right-handed all my life), but my left hand reaches out. Sometimes I froze, like a robot, the setting seemed to be lost in my head, I freeze and look at my palms: I look at the right one and know that it's the left one, I look at the left one and I know clearly that it's the right one. It was so interesting, simply incredible. I turned on holotropic breathing, and to this day I breathe like that. This is a new type of breathing that helps us recover without drugs, without any additional inclusions. Thanks to this breathing, I got rid of terrible headaches and tics that tormented me for more than 40 years. My body easily and naturally began to change its diet: I gave up meat, intensively switched to fish, eggs, and I realized: my body, which has been a meat eater all my life, needs to get vitamins from other foods. A year ago my body gave up fish, and my diet is changing amazingly. All my habits and character have changed and continue to change. Healing abilities began to open up. I say that everything happened naturally for me, as if I had always lived with it, I could always do it.

Of course, the question arose: "What is happening, what to do about it?" - and in 2015 I went to Moscow. I was examined at the Institute of Neurology, an encephalogram of the brain was taken by Olga Ivanovna Kaekina, she is a candidate of medical sciences, a neurophysiologist. My abilities were personally tested by the President of the Association of Traditional Medicine Vladimir Vladimirovich Egorov, and everyone unanimously congratulated me: "Seraphim, a rare, unique case. Your natural abilities are revealed, and with such abilities, of course, serious transformations occur in your head, because out of the blue you just woke up as a healer - this cannot happen!"

18:00 How does Seraphim heal people?

Irina : Great, thank you for the revelation. I feel that now you are not quite speaking yourself, your curators are next to you, greetings to everyone. Seraphima, please tell us how you heal people, from what diseases, what is needed for this, how to go through a session with

you, how all this happens, so that our participants, our subscribers can learn more about it.

Seraphima : With my healing abilities, I activate those areas in a person's head that are responsible for self-healing. Yes, my teachers help me, but they say this: "Daughter, we heal, we can do it, but the main thing for us is that we have students who can turn this on in people, and so that a person can help himself." There is a powerful energy impulse, and the system and programs that in ordinary life do not work for ordinary people begin to work. Any scientist will say that the human brain works at 8-10% capacity, so I conduct sessions only remotely. This is very convenient for me and for the patient. It doesn't matter to me how far away the patient is or what country he lives in. My signal is so powerful that it finds every person. When I work on a patient, it doesn't matter what disease he has, because the whole body needs to be treated as a whole. The great Doctor Botkin said so. Therefore, when the system starts, the body begins to heal itself completely, i.e. not only physically, but also cleanses oneself from negative influences, what is called damage, the evil eye. It's true - it is. The body cleanses itself not only of physical dirt (toxins), but also of energy dirt. In general, the whole body works together, because all our organs are interconnected, and it is useless to treat the stomach if your liver is not in order. The uniqueness of my technique is to fully turn on this system so that the body heals itself on its own. He will diagnose himself, show where he has pain, a problem where his disease has not yet manifested itself, but is already brewing, and he begins to attack the diseased cells. Therefore, during my sessions you do not need to meditate or concentrate, you need to behave naturally. When I work, I don't use any technical communication, and the patient doesn't need it either. He lies down on his bed at home, how comfortable he is, he behaves naturally, at this time I just ask you not to be distracted by TV or phones, because... This is a health session. The patient listens to his body, feels it, he will show and tell everything. There is no need to be afraid of any unusual sensations or painful conditions, they all pass, and the body will then thank you with its good condition.

21:46 Examples of healing people by Seraphim.

Irina : You have stories of people who contacted you. Do you have anything to tell about this topic that you remember from your practice?

Serafima : Of course there is, but now I'll tell you about one of the first patients, now she is my student, her name is Nuria. She came to me with diseases such as hepatitis C, tachycardia, hypertension, vertebral displacement, and a tight bladder. She couldn't wear heels. Her nervous system was killed, because... I took psychotropic medications every day for 12 years. Can you imagine what happened to her psyche? A very nice woman came to me, but at the same time she was a complete ball of fear: "I'm going to die. Seraphima, I have hepatitis C, I will get liver cancer." We started studying. I say: "You won't die, Nuria, you will live long." And so we began to study. When I conduct sessions, I tell people that they need to be regularly examined by doctors, do everything that the doctor prescribes, and not self-medicate. We started holding sessions. Nuria, naturally, looks after her health, she went to get tested, in my opinion, after 2 months, her tests for hepatitis became plus or minus: it was there and as if it wasn't there. And within a year, her hepatitis C, hypertension, tachycardia, female ailments went away, she put on her heels, she has a great sleep - I can list it and list it.

I also want to talk about stroke patients and paralyzed people. When I tell you, my voice begins to tremble, because it is very difficult when you cannot stand on your own two feet or take something with your own hands. One day a person wrote to me from Ukraine, probably wanting to talk. He asked: "Who are you?" I wrote: "I am a healer," he replied: "And I am paralyzed, I have been lying for 10 years, my legs are dry." I write to him: "Do you want me to conduct a session with you?" He: "How was the session? Should I call you? "Nothing is needed, I'll work with you now," but I don't see him, I don't hear him, I don't know him at all. I had a session with him. Then he writes to me: "Seraphim, what were you doing? The muscles on my paralyzed, withered legs began to ache during the session." I answer: "This means that you have them alive." He writes: "I had such an appetite, I wanted to eat so much." I answer: "Because your body has now spent colossal energy so that the damaged cells begin to come to life. I won't take money from you, please go to the sessions." I really wanted to help him, but I think he was scared. He didn't write to me anymore. Unfortunately, there are people who for some reason are afraid, they think that "some demon comes and heals them," "this cannot happen." Remember: a demon will never bring good, he brings evil.

I'll give you one more example. A woman wrote to me, her son hanged himself, he was in intensive care, the boy is 18 years old, his condition is very serious. I say: "You go to the intensive care unit, sit next to him,

because vibrations may occur, and the doctors will think that this is agony and will do something." As soon as I turned off the phone, my hands rested on the bed, my throat began to burst, I realized that I was breathing for this guy, I was helping him breathe, I felt his compressed larynx, and how it began to expand. These exhalations come from me, I say: "Breathe, guy, breathe, guy!" Literally a minute later his mother calls and says: "He's breathing! Seraphim, he started breathing!" After 3 days they were discharged, I said: "Let me work with him a little more."

I'll also say something about cancer patients: unfortunately, there is no such experience. People dying of cancer, and those who had an early stage, came to see me for a session. They had excellent results, for example, after chemotherapy. When hemoglobin falls, it is very difficult for a person, and during my sessions, hemoglobin was always at its best. But, unfortunately, the person will take several sessions and disappear. One day a 70-year-old man approached me; he was already dying of lung cancer. After the first session, he tells me: "Seraphim, today for the first time in many months I slept not sitting, but lying down. My phlegm cleared up and I was able to breathe." After 3 sessions he died, a year later my wife called me, I told her: "It's not my fault!" She says to me: "What are you talking about! My husband left so well, I am so grateful to you. He could breathe and sleep normally the last few days." There were several such cases; people were not even given painkiller injections. They felt good, comfortable, they easily went into another world. I believe that this is a great blessing, when a person suffers such suffering, and his exhausted body asks for death, my sessions give him this wonderful emotion, and people say: "Seraphim, I felt so good today." See, I'm crying.

28:33 The cost of healing sessions with Seraphim. Pay according to your heart and conscience.

Irina: Tell me, Serafima, what are your financial conditions?

Serafima: Regarding finances, I always discuss with people how much they can pay. I speak frankly. After all, not everyone can pay 10,000 rubles for a session, so I never had a fixed price. I suffered a lot from people who deceived me. With my natural abilities, I always sense lies. Do you want to be healed but are trying to deceive the healer? The healer is a person just like you. He also needs to live, pay

housing and communal services, he also has children, he needs to recover. Therefore, I always negotiate an amount that is acceptable to the person. But when a person begins to cross boundaries beyond which conscience becomes silent, I don't work with such people. A wealthy person comes, lies to you that he cannot pay for the session and also demands quick healing from you. Therefore, I do not have a fixed price, everything is individual.

Irina: Thank you! Do I understand correctly, everyone decides for themselves how much to pay you?

Seraphima: Of course, he decides for himself what amount is acceptable to him.

30:02 Curators Seraphim from the Spiritual world. Seraphim of Sarov, Panteleimon.

Irina: Thank you, very interesting. Seraphima, I thank you for this conversation. On my own behalf, I want to say that in my astral body I visited Seraphim along with my curators, and I was able to talk with her curators from the Spiritual world: Archangel Michael, who comes to her in the form of Seraphim of Sarov, in whom he was incarnated, as well as the spiritual essence , which in the Christian egregor is known as Panteleimon the healer, but he is now embodied in a plasmoid civilization at the 27th density level, the Arcturus civilization. He, too, having extensive experience working with sick people on planet Earth, uses the capabilities of his civilization to visit the sick through Seraphim. They chose her because she matches their vibrations. Archangel Michael said that they had incarnations at the same time and in the same place, their Spirits are very familiar.

I thank everyone and remind you that now Seraphima is on the same team with us, with "Cassiopeia", and if anyone wants to undergo a healing session with Seraphima, they can also sign up through our administrator Anastasia.

Thank you all for your attention!

Live broadcast 11/14/2020

#167 Journey of the Soul: Reincarnation, Spiritual Path and Divine Play.

https://blog.cassiopeia.center/puteshestvie-dushi-reinkarnaciya-duhovnyj-put

00:15 Nikolay Papiyants. About calculating the spiritual level.

Vladimir : Dear friends, hello! My name is Vladimir Goldstein. I am a journalist and radio host living in a suburb of Chicago in the United States. Today we have, in my opinion, a very interesting conversation, because my interlocutor is Nikolai Papiyants from Vilnius. Hello, Nikolay!

Nikolay: Good afternoon or evening!

Vladimir: Who cares. For me it's morning, for Nikolai it's evening, because unlike me, he is in Europe, in the city of Vilnius - the capital of the beautiful country of Lithuania.

At the beginning, I want to explain to you what our conversation is

about. It is no secret that I am one of the administrators of the Cassiopeia project, I serve to promote the activities of contactee with alien civilizations Irina Podzorova, she is located in Voronezh. And our entire project is built around Irina. There are a number of purposes, you can easily find this information on the Internet on all our resources, groups, YouTube and so on. Dear friends, those who are watching and listening to us now are probably very familiar with the topic of reincarnation. It's no secret that one of the very convincing versions of the construction of the Universe is the idea that we incarnate in physical bodies more than once, come to the material world, and travel from life to life in completely different incarnations, where we have completely different roles. Many of us often think that if the Spirit is at some very high level of development, then it has already accumulated some kind of fireproof “baggage”, that it no longer descends anywhere, but only rises. But it turns out that the situation is somewhat different. You and I are such cheerful guys who love to travel through these very spiritual levels. That is, in some lives we can be at high levels, and then, conditionally, descend to lower spiritual levels, incarnate in bodies that, for various reasons, provide us with difficult conditions. And we already forget a lot, if not everything, then a lot about what happened, how we were embodied on different planets in different material bodies, and sometimes in worlds that we can generally call hellish, regardless of what level we are already at -that was what we achieved. All this does not count much, because in this way we travel, as a rule, consciously. And this is the answer to one of many questions. The fact is that in the Cassiopeia group we calculate the spiritual level according to the method of the planet Esler, i.e. that level of the Spirit from which he incarnated into this life. So many people ask us after this calculation: “Why do I feel at a high level, and you suddenly considered my level to be relatively low.” There are 24 of these levels in total, as far as we know from the existing classification, and then it all goes into Divine Infinity. We conventionally call the first levels low, even hellish. So our conversation today will be the answer to this question, because this is also quite possible. And perhaps not at all because the Spirit has fallen so low, but on the contrary - it chooses such a difficult mission, the function of going down, for example, for research purposes, and in the current incarnation it can come to a much lower spiritual level. He may turn out to be a completely ordinary person on planet Earth, although in past incarnations this Spirit could have been the greatest avatar, a saint who entered our sacred scriptures of different spiritual traditions. And we practically cannot imagine this, but it turns out that this is possible. I ask you to excuse me for this long preamble, otherwise it would not have been possible.This way you will better understand the seriousness of all our

communication with Nikolai. He and I thought for a long time whether it was worth making public what we are about to talk about, because each of us has certain fears about how people will perceive all this, whether it is possible to say such things, whether they will think that this is all madness, pride, megalomania and so on. But we decided that the moment had come, although Nikolai did not agree for a long time. I already knew some details about him, about the journey of this Spirit. Later, Nikolai received approval from his Higher Self, Spiritual Self (he has this contact), from the Divine particle, from his Mentors and agreed to this. I am very grateful and grateful to him for this, because it is great courage to do this without fear of a certain possible reaction from the audience. Well, now, in order to understand in general what the point is, let's listen to an excerpt from the conference, from a personal session, which Nikolai Papiyants agreed to publish. He had this personal session with contactee Irina Podzorova some time ago. There we are talking about the earthly incarnations of the Spirit, whom today we know as Nicholas, sitting before us. Let's see.

06:27 Incarnations of the Spirit of Nicholas the Papian: Apostle Thomas, Prophet Ezekiel, Arjuna, plasmoid of the 48th density level.

Irina: The number of your incarnations is just shy of 16,000.

Maxim Rusan : How much? 16,000?

Irina: More precisely, 15,883. Yes, you (*turns to Nikolai*) really were an Apostle.

Nicholas: Who specifically?

Irina: The Apostle who inserted his fingers into the wounds of Christ.

Nikolai: What was his name?

Irina: If you remember. This name was even given to an Orthodox magazine, the respected Apostle Thomas.

Nikolai: So I was Thomas?

Maxim: Yes.

Irina: But this is not the most interesting thing. Have you heard anything about the prophet Ezekiel?

Nikolai: Yes.

Irina: This is not your Teacher, you yourself were one. You embodied them.

Nicholas: Ezekiel.

Maxim: Yes.

Irina: And there you also had physical contact.

Maxim: So, who do we already have here?

Irina: Ezekiel, Thomas. And the most interesting thing: it was not in vain that you were sent to India when the Christian egregor was being formed. The Burkhadians decided to send you to preach, to send Apostle Thomas on a missionary mission, because the Spiritual Mentors and Teachers looked at who would cope with this task best and chose you. Moreover, you had several incarnations in India before. Have you read Bhagavad Gita?

Nikolai: I read it.

Irina: Don’t the words there seem familiar to you?

Nikolai: Yes, they seem to be.

Irina: There the Bhagavad Gita itself is told by Krishna to Arjuna.

Nikolai: Yes, he tells it to Arjuna before the Battle of Kurukshetra.

Irina: Neither Krishna nor Arjuna wrote this down. This was recorded by another person, and the one who was in the astral plane transmitted it. So Krishna told you, Arjuna.

Nikolai: Was I Arjuna?

Irina: Yes. And before this incarnation, you were a plasmoid from the 48th density level. They have no gender in our understanding. The process of reproduction does not take place in dense material bodies, but in subtle ones. 8, 16 or 32 plasmoids gather there and direct energy into one large plasmoid. Rays then begin to emanate from it in all directions, and at the end of each beam a body is formed for a new plasmoid. And this big plasmoid, giving birth to life, was just you. You were a huge ball, maybe the size of two stadiums, with a diameter of three hundred meters.

09:34 The total number of incarnations of Nikolai Papian in different worlds and civilizations.

Vladimir : Friends, I hope now the situation is more clear to you. That is, the person who is now sitting in front of us, Nikolai Papiyants in his current physical body, according to Irina Podzorova, whom I personally trust for many reasons, and I know that many of you trust (it is no coincidence that there are tens of thousands of subscribers on all resources), in different eras of the planet Earth he incarnated both as Arjuna, and as the prophet Ezekiel, and at the time of Jesus as the Apostle Thomas, well, and, probably, these are not all the incarnations that we know about. Let us, Nikolai, tell you once again how many incarnations you have had.

Nikolay: As Irina Podzorova said, 15,883 incarnations.

Vladimir: Is this in the material world?

Nikolay: In dense and thin-material worlds, as well as in plasmoid civilizations.

Vladimir: In the fine-material and dense-material worlds, and not necessarily in humanoid bodies.

Nikolai: When we are in the Spiritual world, this is not an incarnation, we are simply there. Incarnation is when we acquire some bodies. And when in the form of a Spirit, I don't know how it's counted.

Vladimir : I want to note that there is a beautiful picture behind Nikolai. We record our conversation on Skype. Not everything is perfect in this program, therefore, when Nikolai moves, he does not dematerialize, does not become a plasmoid, but this is just an effect in the program - an "electronic backdrop". Don't take it for a miracle. Miracles are completely different, and they are very close. I believe that in our conversation we learned that this is also a miracle.

I once again greet you, dear Nicholas and at the same time Arjuna, the same one who talked with Krishna before the battle of Kurukshetra, and at the same time, as we have already found out, the prophet Ezekiel and the Apostle Thomas. I greet you in all these manifestations. It is very interesting for us to talk, to understand how such an ordinary person with such a high Spirit lives life next to us in our familiar material world. Tell us a little about yourself. As far as I know, you have Armenian roots, and at the same time a mixture with Slavic blood.

12:35 Origin, childhood of Nicholas the Papian and salvation by Archangel Michael.

Nikolai: My father is Armenian, from Turkmenistan. I was born in Ashgabat. At the age of three months I was brought to the city of Maykop, where I spent my childhood. At the age of three, when we traveled along the great Siberian river or the Volga. I know from my mother's stories that our rather large boat capsized. It was already twilight, a strong wind was blowing, and the weather was autumn. We all started drowning right in the middle of the river. My mother tried to push me up out of the water, although she herself was drowning. But

then she suddenly woke up on the shore, and a large man was standing next to her. As she said, 10 or 20 meters high. But when I got older, I often made fun of her and said that fear has big eyes. At first I treated this with humor, and then I realized that this really was so, and Archangel Michael simply saved me. Me and my mom. Those who feel the energies must feel this moment, as Archangel Michael confirms this right now. And not only this. There were many cases in my life when he simply saved me and pulled me out of all sorts of different events and cases.

Vladimir : Let's look at a small fragment about how Irina Podzorova speaks in the same session about Archangel Michael in the context of the fact that he is your Mentor and, one might say, the Guardian Archangel.

15:20 Irina Podzorova about the Mentor of Nikolai Papiyants. The connection of the Spirit of Nicholas Papian with Mahavatar Babaji.

Irina: Do you recognize him?

Maxim: I can't identify the Archangels. Gabriel? Michael?

Irina: Mikhail. Your Mentor is Archangel Michael.

Maxim: Mikhail. Your direct supervisor.

Nikolai: Yes, I'm telling you that he pulled me out of the water when I was three years old.

Maxim: One of your curators. Archangel Michael, we greet you!

Nikolai: I greet you, Archangel Michael!

Maxim: While he is here, you can ask him absolutely any question.

Nikolai: I want to find out from him what kind of connection I have with Mahavatar Babaji. May I know this?

Irina: What is his connection with Babaji?

Maxim: Mahavatar Babaji.

Irina: He interacted with him, received information. Christ, after all, also had contact with plasmoids.

Maxim: He probably built it as a child.

Irina: He was his Teacher and at the same time a student, because they exchanged information. One gave information about plasmoid worlds, and the other about Burkhad, etc. When the highest Spiritual Teachers communicate with each other, they call each other Teacher.

16:54: Education of Nikolai Papiyants, military service, work in a mine, moving to Lithuania.

Vladimir : Let's continue. You also wanted to add about yourself.

Nikolai: I had a very interesting, simple, and at the same time, complex life. One might say, many lives in one life, in one incarnation. School, naval school, army, work in Donbass.

Vladimir: Were you a paratrooper?

Nikolai: Yes, I served in the airborne troops.

Vladimir : Where exactly did you serve?

Nikolay: In Kirovabad, Azerbaijan. Now this is the city of Ganja. Then I immediately went to Donbass, where I worked as a miner for about 9

years.

Vladimir: Were you a miner?

Nikolai: Yes, I cut coal, I was a miner.

Vladimir: With a jackhammer, like Stakhanov?

Nikolay: I worked with all the tools that are in the mine. At the end I was already a glacier foreman, I went to the North on business trips.

Vladimir : How many years did you work in the mine?

Nikolai: 9 and a half years.

Vladimir: What years were these?

Nikolay: From 1978 to 1987.

Vladimir: What year were you born?

Nikolay: I was born in 1957.

Vladimir: Our listeners can calculate the number of years if they wish. While you were working in the mines, did you get sick with silicosis of the lungs or other diseases of miners?

Nikolay: No, I didn't get silicosis, but as for the vibration from a jackhammer or perforator hammer, it was still felt for a long time afterwards. And now it reverberates when I use a lawnmower to cut the grass in my garden. I then worked on excavators, and on tractors, and on various types of equipment as a driver, and there were many different interesting things in my life. He even did business.

Vladimir : What is your education?

Nikolai: Unfinished higher education.

Vladimir: What university was it?

Nikolai: I studied at the Nautical School, then at the Mining Institute, and again, for certain reasons, I did not finish.

Vladimir : This is incomplete higher education. You have a very interesting and rich life. Tell our viewers how you ended up in the capital of Lithuania - Vilnius?

Nikolai: Everything is as usual, banal. A friend invited me to visit. I came and stayed here. I have been living in the suburbs of Vilnius for 33 years.

20:30 First impressions of Nikolai Papiyanets from information about past incarnations, self-awareness.

Vladimir : I see. Now we have a general understanding of your human path in your current incarnation, and we can move on. Tell me, please, how did you even find out and what did you experience when you first learned about past incarnations? I even know that you learned about one of them even before your conversation with Irina Podzorova, it was simply confirmed. Tell us how it was and your first impressions.

Nikolai: We need to start from afar. As usual, everything mystical was once fantasy, unreal, and then, when you understand that everything is Divine - spiritual, and everything has a place to be, when you slowly begin to realize yourself, recognize yourself, understand who you really are , when you understand what you see in the mirror every day, you become more aware, you understand that you are an immortal soul. Then you begin to collect material on this matter, to get acquainted not only with yourself, but in general with spirituality, with divinity. And then there comes a certain moment when you realize that you are here for a reason. And your path was always paved not only by you, but you were constantly led by some Forces. Then it turns out

that these Forces are quite significant and high. Later, when I had been engaged in spiritual practice for some time, I began to have friends and acquaintances (on the Internet, of course), who began to talk, identify, see, know and talk about themselves, about me, enter into some incarnations, see . At first it was like a joke, a game. As if it doesn't concern you. Then it turned into an understanding that this is happening, that this is so. You feel, sense and confirm it. And then in meditation I realized that this was so. At the same time, everything began to be confirmed by completely different people, independent of each other, who absolutely did not know those first people who said the same thing.

Vladimir: Regardless of each other.

Nikolai: Yes. They started saying the same thing. And there were many different hypostases. If I start talking, people will say I'm crazy. Therefore, I probably won't talk much about them. And then there was Irina.

24:00 Who was the first to tell Nicholas Papian about his incarnations? The Spirit of Nicholas the Papian is a Traveler through Spiritual Levels.

Vladimir: Tell us about the person who spoke about your incarnation before Irina.

Nikolai: It was a woman from Kharkov named Nelly. When we met her, she once told me that her patron was Arjuna. She didn't know who he was. She didn't even know that this was the Arjuna who lived in India. She didn't even know where he lived. The name just came to her that her patron was Arjuna. Since I was a little more in the know, I explained to her who Arjuna is, who Krishna is. And it turned out that she, in that incarnation, was Krishna's sister and Arjuna's wife. What's her name?

Vladimir: Are you asking the name of Krishna's sister? Let's not get distracted, it's not that important.

Nikolai: The most interesting fact is that when Irina and I talked (and other seers had spoken before that), she said that not everyone can view and recognize my incarnations, because I only have 8 patrons in the Spiritual World, and my The Book of Life is not so easy to look through, as I understand it.

Vladimir: After all, Nelly called you Arjuna long before Irina Podzorova?

Nikolai: Yes, she said that my patron is Arjuna, and then she said that I myself am Arjuna. I joked that anything could happen. I didn't think much of it.

Vladimir: Then you had a session with Irina Podzorova. We saw how you reacted, although we don't know what was going on inside you. Now Irina has already told you about this, plus she also added Ezekiel, who is in the Holy Scriptures, in the Bible, and Apostle Thomas **.** Tell us about your feelings when you realized that everything was so.

Nikolai: Oddly enough, I didn't have any enchanting sensations in the sense that I found something that I didn't have before, and then suddenly suddenly appeared. I just took it calmly, as if it was supposed to be this way.

Vladimir: We were not surprised.

Nikolai: I don't want to talk about what people talked about, who I could be, and who I was in some incarnations. There were a huge number of them. And there were high Spirits, famous world and religious representatives. Therefore, when I heard from Irina that she saw this (and she really saw and proved what I already knew before), I was simply convinced that this was the case here, because I fully trust Irina Podzorova and Maxim Rusan. I can say even more. Since my Curator Archangel Michael is the Curator of all civilizational processes on Earth, he said that everything is not accidental. Maxim was chosen as the head of the Cassiopeia project, and Irina was the main executor and main contactee there. This entire project was created for the sole purpose - so that people would finally stop killing aliens and stop shooting at unidentified flying objects in space. Because every year, innocent creatures who come to us to help, so that we can become better, constantly die. And we are afraid of them. Therefore, the project is aimed only at stopping wars not only on Earth, but in general in all space that we can reach. As I understand it, this probably won't happen anytime soon.

Vladimir: Yes, and perhaps our recording will bring this deadline at least a little closer. This is why we are doing all this, because in a global sense, our today's recording is part of this project, which, among other things, is dedicated to this good goal. I have this question for you. Tell me, what was the highest spiritual level of your Spirit reached, and what are you at now?

Nikolai: As Irina said, I came from the 18th Angel level. But, as Irina and Maxim told me, my Spirit is a Traveler. And according to other sources, I was at level 144 and even at level 145.

Vladimir: Is this according to a different classification?

Nikolay: Yes, if you look at it according to a different classification. I wondered how I could be on the 145th when there are only 144 of them? But, unfortunately, I don't remember how this was explained to me.

Vladimir : These are levels, obviously, of subtle-material civilizations. There is a slightly different gradation of Spiritual levels. But why did you go down then? It's so nice up there.

Nikolai: Because when it's constantly good, you get used to this "good", and when you are a Spirit-Traveler, you still want to go somewhere else. And, as knowledgeable, seeing people told me, many times I sank to the very bottom and rose to the very top. Judging by my incarnations, this is true.

32:22 Irina Podzorova about the level of incarnation of the Spirit of Nikolai Papiyanets on Earth. Nikolay Papiyants is a universal contactor.

Vladimir : This is how Irina talks about it.

Irina : At the time of this incarnation, he has level 18 - Guardian Angel. Congratulations! You are an incarnate Angel!

Maxim : We have a table of gradations, you can read it in full, but this is at the time of incarnation.

Nikolay: At the time of incarnation, level 18.

Maxim: Yes. A planet of free choice with no memory of past lives makes it very possible to either grow or fall in one's level. Along the path of development that you are following, which you are adhering to, you are definitely experiencing growth, I don't see any decline even close. From level 18 you can rise to 21 or 22 on our planet, that is, you can easily gain 3-4 levels. This is a very complex planet of free choice.

Irina : Yes, and you have a very diverse contact. You were in contact with Ashtar, and with Saint-Germain, and with the Eslerites, and with Mirakh Count.

Maxim : I congratulate you! You are a universal contactee.

33:40 Incarnation and duality of the material world and for the development of the Spirit.

Vladimir : Yes, this really happens to many of us. This is one of the very reasonable adequate explanations of why, dear friends, now, before this incarnation, according to the formulas we calculated from the planet Esler, you found yourself at a level that is lower than your expectations. Because you, quite possibly, like Nikolay, decided to travel down for different purposes, for example, research. Well, you couldn't sit there. But, dear friends, you understand what a thing it is. If you and I feel perfectly good all the time, because it is impossible to constantly live in a holiday, because it ceases to be such, we need the other side of duality. After all, in order to experience the pleasure of a bright day, you sometimes need to plunge into a dark night, there is pleasure there too, it is different. We definitely need contrasts, although they are not the only ones that give us development. Only with the help of different sides of duality is development possible, otherwise it is stagnation in bliss, in nirvana, in the Spiritual world, where there is not even time, it is always the same, and there is no development. I believe that we need development, because we, both divinity and as a manifestation of divinity, constantly strive for greater levels of joy, bliss, happiness, the achievement of which is that same development in its various manifestations, i.e. greater levels of pleasure. This can only be achieved by being in our material world, including experiencing all the contrasts and all the reverse side of duality that this material world of ours provides us. It doesn't matter whether it's dense material or fine material, the main thing is material. But in the Spiritual world you cannot sit still. There is no development, there is no opportunity to receive greater and greater levels of this bliss. Please comment if you like on everything I said.

Nikolai: I want to add that it's boring to just sit like that, first of all. Secondly, when such new civilizational processes occur on some middle planets, such as the Earth, the planet increases vibrations, moves to another level, and people help planet Earth move to this level, so high Spirits come to this world to to help both the planet and people raise their vibrations, awareness and move to a higher Spiritual level, and, in general, develop as a person and as a soul.

36:47 Manifestation of accumulated spiritual experience in the current incarnation. The Spirit's readiness for healing is the main condition for healing the physical body.

Vladimir : I completely agree with you. Please tell me what you can wish from your experience? You remember part of it, because... it is embodied in the current life. What would you like to share on this topic? You have a serious spiritual experience from previous lives, and it has incarnated once again on Earth. You definitely remember something.

Nicholas: My experience manifests itself in the vibrations and energies that I can conduct. As it turned out, at a certain point in time, when I began to communicate with people, an understanding appeared that the Creator and the Higher Powers were helping me and conducting high energies through me. When talking to me, people began to line up. First, of course, I built my own energy, and then everyone who communicated with me felt and sensed these energies and raised their vibrations. I gave some practices, and voluntarily or unwittingly, somehow imperceptibly, I became a conductor of the Divine channel of the Creator's Love, as I later understood. Because when I communicated with people, some of them began to feel that some creatures were appearing in them. As it turned out, these were plasmoids. As Irina said, I was a plasmoid of the 48th density level, and this is a very high level of density of the subtle-material world. And while communicating with me, through practices, these plasmoids of different levels, up to the highest level, simply entered the energy structure,

the human energy system and helped build, cleanse, increase vibrations, and so on. And when I began to communicate with people, I realized that this communication not only increases vibrations, but healing occurs. If, of course, the Spirit itself is ready for healing, if there is complete total acceptance of oneself and everything that happens. If a person fully understands and accepts himself, then partial combustion of karma occurs. While listening to my meditations, and this is time-tested, dozens, hundreds of people use these files, prayers, and they work. Even disabled people in wheelchairs, small children who had not been able to walk since childhood, got up and began to walk. This all takes place, but only when the Spirit is ready for change. But when a person wants to communicate like a magic pill so that you snap your finger and everything happens, of course, this will not happen. And if it does happen, it will only be temporary relief. Healing does not happen unless the Spirit is ready. Even Christ never healed unless the Spirit was ready. He always negotiated with the Spirit. If he was ready, then Jesus knew how to carry out very quickly (that is, healing occurs precisely at the mental level). A person is healed on a mental level, and then over time moves on to the physical body. Each organ has its own time when replacing cells. But Christ had the opportunity to accelerate these processes, because he worked directly through the Creator, and the Creator has no Time. And this healing happened simply untimely. That is, all these temporary regenerations were simply excluded. And it turned out that he healed instantly. In fact, self-healing was happening, that is, the Spirit was ready to be healed, and now this is also happening. There are many cases where cancer of the fourth degree, any karmic and complex diseases, are healed only because the Spirit is ready to be healed. This is the most important thing I learned. Especially now, within the framework of the “Cassiopeia” project, I communicate with people, helping to build a connection with the Higher Self,While conducting energy practices, I realized that the Entities do not want to do this (and now, lately, a lot of people carry subsoilers within themselves, who simply leave them during these practices). They simply have nowhere to go, so they simply fly out and leave these bodies that are ready to be healed. And many other things.

42: 38 The spiritual path of Nikolai Papian, attitude towards egregors and religions.

Vladimir : Thank you very much. Very interesting, in fact, everything you said. What do you live and breathe in this incarnation? It’s so interesting to listen to you, knowing your iconic incarnations, that it’s even hard to believe it right away, but I have no doubts for many reasons. What is your Spiritual path? We learned about your civilizational and social path in this world. We now understand what spiritual practices you use. But what is your Spiritual path from the point of view of the egregor? Are you in any one faith? After all, you were there, it turns out, in the Indian tradition, in Krishnaism, Judaism, then Christianity, but what now?

Nikolai: I have been to all egregors and all religions, so I have great love and respect for all religions that exist on planet Earth. All religions are needed, all religions are important. In each territory, a certain religion has its own significance. For example, where there is desert, there is Islam. In the mountains there is usually either Christianity or Buddhism.

Vladimir : But we know that these spiritual traditions, to put it mildly, with the exception of the Vedic one, treat each other with intolerance. And you, it turns out, were just in different ones. What do you think from this position?

Nikolay: If we compare religions in terms of tolerance, then I can say that Krishnaism is the most tolerant religion that treats all religions with respect. They accept all religions. They say: “God has thousands of names and thousands of faces, but he is one for everyone.” And so it is. God the Creator is one for all, One Creator for all. And what to call it is the right of every people and nationality.

Vladimir : Tell us then, like the prophet Ezekiel, who represents Judaism, and like the Apostle Thomas, who represents Christianity: why is there such intolerance in these spiritual traditions? Everything is clear with Krishnaism. Everything is much more tolerant there. Why do they have such intolerance towards others?

Nikolai: I want to say that great religious distortions lasted for centuries, distorted for hundreds of years. What Christ said is now completely distorted. Islam is also a religion of love. And now who is fighting mostly?

Vladimir : Religious fanatics are fighting who have forgotten about these roots.

Nikolai: Yes, that's why the Prophets and Teachers said that when Christ walked and led his Apostles and disciples with him, he did not call everyone to go to churches or temples, but called for the love of God, said that everyone is children of God, and then it turned out that for some reason everyone is God's servants, as it is written in the Bible. Therefore, everything that is now written, and what is happening now in religions, of course, takes place, but this is a very big distortion. In fact, when a person has found God within himself, built a temple in himself, in his heart, a temple of the Spirit, a temple of the body, united into a single Christ consciousness or Buddha consciousness, he no longer needs either religions or temples. There is no temple on Earth stronger than the temple built in your soul.

Vladimir : As your spiritual Teacher Jesus said when you were Thomas the unbeliever in that incarnation: "The Kingdom of God is within you."

Nikolai: That's right. And God is located within us, and not somewhere in the clouds. It is located precisely inside every person.

47: 50 Components of the Spiritual Self.

Vladimir : In our project "Cassiopeia" the aliens talk about this in detail through Irina Podzorova, that all the truths are within us, and we have very clear methods of interaction with our Higher Spiritual particle, the Higher Self, which, as they explained to us, is correctly called the Spiritual Self Because when we say "Higher" Self, we already separate ourselves with this one word. We admit that we are somehow inferior.

Nikolay: In principle, there is a Higher Self, a Middle Self, and a Lower Self. They all exist in our bodies. We have 7 bodies, 7 chakras. The lower chakras - 1,2,3 - are the Lower Self. The Middle Self is our heart chakra. And the highest centers are our Higher Self. And when we unite all three, then we unite into one Divine Self.

Vladimir : Absolutely right. That's why, at one of our sessions, the aliens told us that we were somehow strangely separating everything. It's just that when we say "lower," we don't just mean some conventional term, but we talk about it as something bad, almost dirty. And it is this divinity that we cut off. Nothing like that, "inferior" is a convention. These are the most important parts of one whole. Therefore, we are told to better use the "Spiritual Self" so as not

to get confused in terms.

Nikolai: To find your Spiritual Self, you must first accept your Lower Self, your dark side. Without finding your Darkness, without recognizing it in yourself, you cannot find Light.

Vladimir : Absolutely exactly. We have already said that these are two different sides of the same coin. This is the contrasting side of duality, without which development is impossible. If there is a polar day, then there is a polar night. There's always a downside. Always two parts of the same process are interconnected, as we have already said, to develop and obtain a greater level of satisfaction, enjoyment, and so on. Therefore, you need to accept yourself entirely, i.e. all these sides. And in this vein, for many who are already at the level of awareness, they say “Higher Self,” realizing that we are somewhere down there, in something bad and dark, and we must strive somewhere in the Light. No, we are this part too. This spiritual part of us is called the Spiritual Self. And so I wanted to say that we have clear methods of the Cassiopeia group on how to find contact with your Spiritual Self, how to interact with it and receive all the information from your own individualized Divine Source, that is, from the Kingdom of God that is within us. Nikolay, I thank you!

50:51 Nikolai Papiyants about religion, about the need for a temple in the soul for communication with God.

Vladimir : Please tell us about your path in religious spiritual egregors. Then you perceived a different faith, but what about now?

Nikolai: When I was little, I was baptized, as expected. They named me in honor of Nikolai Ugodnik, Nikolai the Wonderworker. My mother always emphasized that my mentor was the guardian Nikolai Ugodnik, and he was always really in me and next to me.

Vladimir : That is, this is one of your 8, as you said, Spiritual Mentors, Curators. And then did you go to any temples?

Nikolai: I already told you that I was joking. When, as a child, my mother suggested that I go to church, for some reason I resisted. I don't know why I didn't want to go there. She once asked me: “Do I like the circus?” I said yes. Then she took my hand and we went to church. Well, and then, of course, like all law-abiding people who respect their faith, I visited temples and churches on all holidays.

Vladimir : Precisely in the Orthodox tradition?

Nikolai: Yes. And then, when I realized that God has thousands of names and thousands of faces, I realized that God is one for everyone. There can be countless traditions. The most important thing is to understand why the Soul comes to Earth and for what purpose. As soon as a person understands that in the mirror he sees only one-seventh of himself, when he gains his spirituality and divinity, only after that he understands that all the temples and places of Power on Earth are not worth the temple that you yourself can build in your soul. When you build it, you will not need temples and priests. The Creator is always inside you, He looks at

the world with your eyes, walks the Earth with your feet, creates the world with your hands. If you understand this, then what kind of temples do you need? All these temples and clergy are intermediaries between you and God. If you communicate directly with God, who else do you need?

Vladimir : That is, you, as I understand it, believe that all spiritual traditions, all confessions from one source, were simply given at different times, in different eras, to different people in order to display different facets of the Almighty in different ways.

Nikolai: All religions are needed, and they are all important. Because until a person has truly found God within himself, he must belong to some denomination, some faith, some religion. Because if a person is completely ownerless, so to speak, then he will simply turn into an animal. In many religions, the concept is built on fear, on the feeling of sacrifice, you are a servant of God, that if you do something wrong, then God will punish you, and so on.

Vladimir : Let's clarify this point. Because you first said that a person turns into an animal if he is left to the mercy of fate and is not in some kind of confession, in some kind of egregor. And then you said that in many egregors people are frightened, that is, they distort the truth. So, maybe then it's better not to be in some kind of egregor if they distort, but to go your own way?

Nikolai: If a person is completely ignorant, if he absolutely does not understand, if he behaves like any other animal, laws do not exist for him. After all, why were these religions created? To control the masses. At that time there were practically no laws, just as there were no states in terms of civilization. Therefore, religions acted as law. And for people to become people, they had to either love someone or something, or respect, or at least be afraid.

Vladimir : That is. it was positive for that time, right?

Nikolai: Yes, religions were created to control people, so that they could at least somehow listen, in a good way.

Vladimir: So that they can be directed.

Nikolai: Yes, so that they can be guided on the right path.

Vladimir: It turns out that even now this is relevant and useful for many people?

Nikolai: Of course. If a person doesn't love or respect, then he should be afraid.

Vladimir : There is an analogy. For a bull rushing into the abyss, you need to put some kind of wire, red flags and turn on the current so that it does not fall. Isn't it clear to an adequate person that there is no need to steal, kill, rape, or violate a neighbor's wife? Well, it seems obvious. But it turns out that this is not obvious to everyone. And for such people it is

necessary to write commandments and scare them, because they will not perceive it any other way. And it was we who were in our past incarnations among those to whom this was addressed. Because we have not always been so developed.

Nikolay: It all depends on our level of awareness. If your level of awareness is high enough, then you don't need to be scared, you don't need to be afraid to keep these commandments, because many commandments say "thou shalt not kill," "thou shalt not steal," and so on. In fact, if you remove the prefix "not", what happens? Therefore, when a person is aware, his inner state will not allow him to kill, steal, or anything else.

Vladimir : Yes, the commandments are inside him, they are written in the tablet of the heart. If he realized, returned to the awareness that was in him, and then moved away from it, which often happens when you incarnate into the material world, which increasingly distances you from these truths that were originally in us. And now we are restoring it. And at a new level of this awareness of perception, we return this to the Almighty, thereby increasing our level of happiness and His level of happiness. This is how I simply try to explain the whole essence of the Universe from different sides. I have one more question for you.

59:10 Nikolai Papiyants about the level of awareness, about the right to choose the soul.

Vladimir : How do you feel about low-vibration Spirits, those worlds that we usually call lower, dark, i.e. to the Demons? In the Vedic tradition - to the Rakshasas?

Nikolai: Everything has a place to be. All worlds were created by God **.** And each of us was once in all these worlds. We all passed through and closed the cells of our soul matrix in all these worlds. This world is structured in such a way that until the soul cognizes Darkness, it will not see the Light. She must close and go through all these programs. Therefore, everything has a place to be. And every person, every soul has the right to go up as well as down.

Vladimir : Is this also part of the contrasts, the same part of duality, the same possibility of choice, alternatives?

Nikolay: It's just that when we start comparing or talking about where it's good, where it's bad, where it's good and where it's evil, then, of course, the higher your level of awareness, you understand that it's more profitable for you to develop and evolve up than down. But for God everything has a place to be. God loves everyone equally. And everyone makes their own choice.

1: 00:29 Nikolai Papiyants about the right to choose to increase or decrease the level of awareness as part of the Divine plan.

Vladimir : Tell me, do you agree with this statement that, indeed, everyone makes their own choice, and by virtue of the highest Love of the Almighty, he gives absolutely everyone, without exception, the opportunity, by virtue of this Love, to make their choice? If we are

talking about some kind of interaction with these low-vibration Spirits, if a person wants to, so to speak, not interface with them, he just needs to be on a different level. Don't fight them, don't fight with Darkness with the help of Darkness, because maybe this doesn't give anything, but just be at the level of light vibrations. Then they will not be interested in him. They will simply move away from him and will not even notice him at all, because they are precisely clinging to the same traits that they have. If these traits do not exist in a person, then they are not interested in him. They have their own choice of happiness, joy, i.e. your vision. And so they also play their role there, make their choice, for this is part of the divine plan. Do you agree with what I just said?

Nikolai: Of course, I agree that every person has the right to increase or decrease their level of awareness. If you want to be in the Light, then you will be in the Light. Your vibration and energy structure will simply be invisible to some entities that are at a lower level. If you want to be in Love, neither Light nor Darkness, nor Good nor Evil is important to you. Like God. This is a very high level of awareness, when it no longer matters to you: whether it is Light or Darkness, whether Good or Evil.

1: 02:26 The meaning of life, the evolutionary path of the soul is towards the Divine Light.

Vladimir : Thank you! I want to ask one last question. Tell us, like Nicholas Papian, and like Arjuna, and like the prophet Ezekiel, and like that same Apostle Thomas, who did not believe and asked Jesus to put his fingers in the wounds, and only then will he believe that Jesus came. What is the meaning of life? Why do we even exist?

Nikolai: This is all one big Divine game. Seriousness aside, God loves to joke. This game is needed for development, because the Soul develops only in dense or subtle material worlds. There is no development in the Spiritual worlds. There you cannot raise or lower your status. Therefore everything is a game. And if it's a game, then it can be either boring, or funny, or sad. That's why God loves to play. And we play the Divine game. Each of us plays our own game. In the general Divine computer, everything is so connected that every bug, every microbe, every amoeba or ciliate-slipper is built so tightly into this system that if one thing is removed, this whole picture of the world will simply change. Therefore, we must accept everything as it is. We must participate in this Divine game, where everyone develops as he thinks, as he wants or as he likes. If you want to go to God, you go to God. If you want to go down, you go down. Everything has a place to be.

Vladimir : Thank you! Let's sum it up at the end with this little quatrain about the same thing. It sounds like this:

When cast into dust or caressed

Changeable coquette fate,

Don't forget that you are just God's mask,

And he plays with himself in it!

Nikolai: Absolutely right.

Vladimir: I thank you, Nikolai.

Nikolai: And I want to add something.

Vladimir: Yes. I want to thank you and give you the opportunity to say whatever you think is necessary outside of my questions.

Nikolay: I am now helping people build a connection with their Spirit, the Higher Self, and many people seem to be blind, as if they do not understand that the task of every person is to find out your purpose. But this is very easy to determine. Because everything that a person sees around him, everything that is shown to him, everything that he likes is in him. Everything that he notices, feels, sees, hears, senses, where all his 5 senses receive some kind of attention, this is shown specifically for him, for each of us. We have it in us. This is your purpose. Wherever you are drawn, develop it. Make it yours. Do it yourself, or with the help of Teachers. And what you don't like is also in you. Everything that you constantly pay attention to and you don't like, for example, the same envy, anger, anger and hatred, etc. If it annoys you, it's in you too. You also need to take this out of yourself and work through it, forgive, accept and let go. And the purpose of the soul is the same for everyone. This is your Divine Light, the Light of Divine Love. For any soul, the evolutionary path is only upward, where it came from - from the Light, and must return there. And the distance is different for everyone. Some people walk in spirals, through labyrinths, through dead ends, while others want to go down, take a walk, and look. But then, sooner or later, a moment comes when you still understand that your path is only there, to the Father - the heavenly Creator.

Vladimir : Dear friends, I thank you for your attention. Once again I thank Nikolai. I have this feeling and great hope, which I think is close to reality, that we will continue conversations with Nikolai, and perhaps we will even have live broadcasts in which we will answer your questions together, we will discuss some interesting topics, because I think you have already understood Nikolai's spiritual level and his capabilities in this regard. Perhaps a lot of people will be interested in this. With you were Vladimir Goldstein from Chicago and Nikolai Papiyants from Vilnius. All the best to you, see you again!

Nikolai: Goodbye!

Broadcast from November 19, 2020

Participants:

Vladimir Goldstein is a journalist for Russian-language media in Chicago;

Nikolay Papiyants is a contactee from Lithuania, Vilnius.

Excerpts from the video with Irina Podzorova and Maxim Rusan.

#168 Maxim Rusan. Path. Zeroing - a meeting with Irina Podzorova, which changed my whole Life.

---

https://blog.cassiopeia.center/maksim-rusan-put-obnulenie-vstrecha-s-irinoj
https://www.youtube.com/watch?v=iIHz-MiiDZY

00:00 Start of video.

Maxim: Every person on this planet must understand: who he is, what he is, what he is for, and what he can do. And first of all, that every person on the planet is an embodied Spirit. And the Spirit is primary. And everything that happens to his physical body, in fact, happens on an energetic level with his Spirit and with his other six energy bodies.

00:40 Brief biography and reasons for the cancellation of Maxim Rusan.

Marina: Maxim, tell me how you found out about Irina.

Maxim: This is actually a very interesting story. I'll start from the very beginning. Very serious, dramatic changes began to occur in my life. Before these changes began, I worked in the state civil service, namely in the Rosreestr Office for the Voronezh Region. Accordingly, he was involved in accepting documents for state registration of real estate. Then I left the civil service and opened my own real estate company. And suddenly serious changes began to occur to me: my life began to collapse, and serious changes began to occur.

Marina: You weren’t interested in any esotericism? Did you just live an ordinary life?

Maxim: I lived an ordinary, material life, although I was interested in esotericism since childhood, I was very drawn to all this.

Marina: To the unknown?

Maxim: Yes, I have always been drawn to palmistry, astrology, astronomy... At some point in time, after I entered the law faculty of Voronezh State University, I stopped being interested in it a little, I had no time for that. Other life circumstances arose - I needed to study and establish connections, I wanted to become a good lawyer. After university, I went to serve in the army and then get a job in law enforcement. But the army made it clear that it was not worth going there, because you would have to spend your whole life in incomprehensible movements, in constant subordination, and for me it was very difficult. I returned from the army as commander of the security department of command and administrative posts, and then got a job in the civil service. After civil service, I began to engage in commercial activities - real estate. But at one fine moment my whole life collapsed. I divorced my wife and had serious health problems. I began to slowly die. Direct text. My legs were rotting...

Marina: How old were you then?

Maxim: 35. At 35, I turned into a 45-year-old man. Now I understand perfectly why this happened.

Marina: Why?

Maxim: Lifestyle. Way of thinking. Constant projection of low vibration emotions - resentment, hatred, anger, mistrust.

Marina: Dissatisfaction...

Maxim: Yes, dissatisfaction with life, people, family - I was dissatisfied with everything. And at that moment, when serious changes began on the physical level, I began to see doctors. And they said it was for life. And now all that remains is to be treated - creams, ointments and everything else. I didn't believe it, saying that this simply couldn't happen, because there are no unsolvable things. And I began to look for healers who would help me improve my health. But they all took me on the first day, and on the second they asked me to leave, because they could not help. I wondered: "How is this possible?" - He offered them money, but they could not help. And I was already somehow disappointed. Then a period of time came when I began to walk like Santa Claus. I think: "Since I'm dying, at least some kind of holiday..."

Marina: I'll have fun.

Maxim: No, I won't have fun. And at least I'll arrange some kind of holiday for people. Because before that I did a lot of negative things that I wouldn't want done to me. I was well prepared, communicated with different structures, with different guys.

Marina: Are you a former athlete?

Maxim: Yes, I am a former professional athlete - captain of the civil defense team of the city of Gryazi. I have a fairly strong-willed nature, and I used to be able to go over my head. I didn't think about what I was doing. When I achieved my goal, you can say that I destroyed some people morally. Therefore, everything that happened to me happened to reset me. And when I was reset, I went to work as Santa Claus. I began to understand that the most important thing in life is love, happiness and joy. And at that moment I came across a healer - my esotericism teacher.

05:31 Maxim's first meeting with the healer.

Maxim: The first time I came to her, she looked and said: "I'll now talk to your Mentors, and if they give you permission, we'll work on restoration." And at that moment she was studying according to the "Merkaba" system, I later found out that this is the Burkhad system according to which it all works. Later she came out and said that they were not giving me permission. At first I didn't even understand who wasn't giving me permission. She explained that these were the Mentors, and began to say goodbye to me, saying that we would meet in the next life. Imagine: I'm all sick, broken, my legs are rotting. I understand that I can stay awake for 3-4 hours a day, and the rest of the time I just sleep. She tells me: "And you're practically not here anymore. You are here with your physical body, and your astral body is standing nearby." And that's how I felt – here and not here at the same time, half asleep, in a dreamlike state.

06:30 Communication with God is the beginning of the path to healing for Maxim Rusan.

Maxim: Then I went to churches, because... I realized that I was dying, I was going to God. All my friends abandoned me, the phone stopped ringing. Things have all collapsed, everything has collapsed. And I went on a pilgrimage to monasteries. I turned to the priests, repented, stood on my knees, and talked to God. And at one fine moment - there was a big holiday that happens every five years and is called "Between Heaven and Earth" - I knelt in the church and asked God to leave me on this Earth, because I felt that I had not fulfilled my purpose. And I said, "Lord, I feel like I haven't completed something on this Earth. I'm ready for absolutely anything. Please leave me so that I can fulfill my destiny and everything else." And the most interesting thing is that at this moment someone is pulling me by the collar. I was with my grandfather. I turn to him and say: "Grandfather, haven't you mixed up anything? It hurts." He told me: "I didn't touch you." I say, "Stop it. I'm sitting here on my knees, praying, and you're pulling me by the collar. Laughing at me?" And he: "I didn't touch you." Well, okay, fine. I got down on my knees again, again I turned to God, talked to him, and began to admit that I was the only one to blame for everything. I understand that all this happened in my life because I behaved this way, thought and thought this way, and began to realize some kind of metanoia in myself. And they tug me even harder by the collar. I turn around angrily, I wanted to shout at my grandfather that he was completely insolent, but next to me, within a radius of 2-3 meters, there was no one! No one at all! A church full of people, I'm on my knees, and within a radius of 2-3 meters no one comes to me. And everyone is sitting, looking at me askance. I sit and say: "Lord, is that you?" - suddenly there is a sound in my head: "Yes, you haven't heard me before." Just such an awareness. After the holiday, I came home, brought my mother and grandfather - I was with them at this holiday.

08:45 Obstacles during Maxim's second visit to the healer.

Maxim: In the morning the phone rings: "Hello! This is Claudia. Come". At first I didn't understand who Claudia was and where to come. It turned out that this is the healer who I visited; then they didn't give me permission. And then she tells me that they gave it to her

yesterday, and she asks me to come to her urgently. I get ready so joyfully, jump into the car and think to myself: “How cool it is that God heard me, that they gave me permission.” I went by car, it was winter. And I couldn’t find her for six hours.

Marina: I drove around in circles and didn’t see it?

Maxim: Honestly, there are three roads in front of me, like in a fairy tale. Moreover, in front there is a field, on the left there is some kind of exit and on the right there is a forest. I am, as in a fairy tale, between three roads, where “if you go to the right, you will lose your horse.” I laughed some more, I thought, well, I’ll go to the right and check whether I’ll lose my horse or not. Turned right. I drove and drove and got stuck in a swamp. I barely made it out of there. I remembered that I had to turn left, there was a church nearby. I thought that I needed to return to the church and I would definitely find my way from there. It was already starting to get dark, I drove up to the church, and the car’s headlights illuminated the church gates, on which a huge poster hung. Darkness. And the huge poster is all glowing. There is a picture of Jesus on the poster, and at the bottom there are words that I have remembered for the rest of my life. Just imagine: I spent six hours looking for my healer who would save me, and I stumble upon a poster in the dark . When I photographed it, I realized that I would have this poster for the rest of my life:

“You knew that I am the Creator, but you did not submit to Me;

You knew that I am Light, but you did not see Me;

You knew that I am the Way, but you lost your way;

You knew that I am Life, but you did not live by Me;

You knew that Wisdom I did not honor My Laws;

You knew that I am all-good, but you did not love Me;

You knew that I was rich, but you did not ask with a bow;

You knew that I am eternal, but you did not search for a day;

I am merciful - you knew, but you did not entrust fate to Me;

You knew that I was great, but you did not serve Me;

That I can give, define, measure everything;

You knew that the Almighty was, but you did not honor Me;

So know, man, a speck of dust in the Universe -

Having lived empty days, not believing, not loving,

Having come to the end of earthly, short, perishable life,

Blame yourself now for your destruction!”

It was such a state!.. Tears poured out. I’m sitting, and I was in a white shirt, crying, tears are filling up, and I can’t stop. Tears come, come, come. Suddenly the phone rang. I pick up the phone, I can’t breathe from tears, I’m choking, I’m overwhelmed with emotions, I understand perfectly well that they were just talking to me.

Marina: You are still in tears.

Maxim: Yes. I understand for sure that they were communicating with me now. I pick up the phone: “Well, have you run into it?” And I can't figure out who it is. I say: “Who is this?”

I called her before, she was always busy, and then her phone completely disappeared from the network coverage area. I couldn't reach her to ask where she lived. I couldn't reach her for six hours. And as soon as I read this text, she called me: “Well, what have you done? Now drive straight all the time, don’t turn anywhere.”

I’m shocked, I think: “What is this happening?” And indeed, I slowly drove straight, recognized the road that led me to it. We talked to her, she told me a lot of interesting things about what she couldn’t know at all: about my mistakes that I made in life, that I did in relation to people, and almost called them by their last names. She said that she would take care of my recovery only if I continued to deal with people. At that moment I did not understand what she was talking about. Then she explained that I initially did not come here for this at all, I directed all my energy to destroy myself and everything that surrounds me. Of course I agreed. Well, how could it be different? I asked her, "Will she help me?" She promised to do everything right, but only if I learn from her, start doing healing and treating people. I agreed. After that, she asked me to come tomorrow and sent me home. I go out, walk through the threshold, and then she says to me: “Come back.” I say: “Why?” She: “I told you - come back.” I'm coming back. She says: "Go." I'm leaving again. And she suddenly takes me by the collar and yanks me! And he says: “Don’t turn around! Move on.” I’m walking, I’m in tears again. I say: “Lord! How?" I understood for sure that it was the Power of Conduction and everything else.

14:32 Healing, training, the beginning of Maxim Rusan’s work with people.

Maxim: I went to the healer for a whole year. She taught me. She and I wrote some spells and conspiracies. Channels were opened, energies were observed. She checked what I could see, what colors. And I told her everything, because when I closed my eyes, I saw it all! Then, about a year later, I began to slowly work with people. People, of course, were reluctant to treat me - I'm a young guy, healthy, with a wrestler's appearance and is engaged in healing. I thought I was going crazy. Seriously. I've been studying for a whole year - some energies, channels, I feel it all, I see it. And I think: "Yes, well, some kind of nonsense! Some channels, energies. We must live!" But things have already started to improve for me, my health has improved. I thought, well, since I won't go into healing practices, I need to study to become a psychologist in order to sort out my head, I just made it all up for myself - as I thought then. Entered the Institute of Practical Business Psychology. I studied there conscientiously for 3 years. After 2.5 years of classes, I had to defend my thesis business project. And I decided to make a children's project called "Bloggers Children". I sell some property, buy a premises, do the renovations myself, buy equipment, a franchise. I make such a brainchild - everything is so amazing, everything is so pretty. I'm starting to recruit children and teach them. Stylists, makeup artists, actors, directors, psychologists - everyone is involved in teaching children. Accordingly, I am there every day and I also learn everything myself - how to shoot a video, how to edit it, how to present myself correctly. Even then they began to prepare me for our meeting with Irina. After all, look: they trained me from a healer, gave me the opportunity to understand that energies exist and showed me how to work with them. Then they trained me to become a psychologist, where they made me understand that I was not going crazy, but that these were actually images that I had inside. The most interesting thing is that I ended up in the only institute in Russia that deals with empathy counseling. This is emotional counseling. We were taught to feel other people's emotions. The teachers said: " We don't know how it works, but it works because there are practices and there is evidence."

Marina: We don't know the mechanism, but there is one.

Maxim: No, they know the mechanism. They don't know how we feel emotions, how they are transmitted, although we can feel them. I was taught to feel emotions. And I opened this project. My first season was a great success! The second season has begun. I realized that I was living in a basement. I realized that I don't have a business. I began to understand that the children's project did not bring in money, that I was working on creative enthusiasm. And in this children's project, I began to engage in meditation and energy practices with children. I have come across such interesting children! It turns out that children see everything, feel everything, they just don't tell their parents about it. And when you start communicating with them, they begin to tell you *:* "Here I am communicating, her name is Lelya, she looks like a ball, she comes to me." At first my thoughts were: "Wow!" I say: "Tell me, what are you and Lelya doing there?" "She shows me the worlds, we go to bed with her and continue to communicate in our sleep."

I think: "Wow!" I now understand that I had children as contactors in my project. Then I started conducting practices for adults - working with chakras, with energies, how to properly get rid of blocks... They taught me all this! Plus, when I was sick, couldn't work and was bedridden for almost a year, I read a lot of literature on this topic. I then left my wife to live with my mother. I stayed there for about a year, completely sick, and it was not clear what to do. And then it all happened.

18:40 Meeting Maxim Rusan with Irina Podzorova.

Maxim: Due to the fact that I was already tired of filming, editing and doing everything myself, I needed a cameraman. I called a friend and said: "Listen, you're an operator. Help me, I can

pay a little money - the children's project does not bring money." He says: “I can’t, but I have a friend, a former employee of the Ministry of Internal Affairs, who is now retiring from security and can help you as an operator.” I agreed.

We meet with him and on the same day we agree that tomorrow he will come to work with me. So we started working together with him. He helped me well and I asked him not to leave me. I didn't have the opportunity to pay him a lot of money, but... I had many friends, I promised him many orders - filming, banquets, weddings, etc. He agreed. And there really were a lot of orders. For 10 years no one called him from TV3, but then they called him and asked him to go film some crazy woman in Povorino who communicates with aliens. I'm talking about! Cool! My theme. Go!” He says: “Max, is this really true?”

I say: “Go. When you shoot a video, come and we’ll watch it together.”

He then arrives with “round eyes” and says: “It seems that this is true.” And I asked to show the video. We began to look through it, I paused some points and continued to tell what was said there. He's on me, on video, on me, on video. And he says: “How do you know all this?”

I say jokingly: “Yes, I also communicate with aliens myself.”

He says, “What, honestly?”

I say: “Yes, okay. I'm kidding".

I finished watching the video, and I had an inner insight that I had found something that I had been looking for all my life.

I say: “Let's do this. We'll see how "peek-a-boo" she is. I will make up 12 questions for you that she must answer. I’ll give you money, you’ll go again, shoot another video. Well, so that we understand who we are dealing with.”

He says: “Well, okay.”

I am making 12 questions on all topics: about the planet Phaethon, about energy, about hell, about God Ra - a whole range of questions. There is a video on our channel, it is called “12 questions and answers that changed more than one fate” (https://youtu.be/Blp-nEJsD20). That's where I ask these questions. After that, I left for a session at the institute, and he went to film this video. And he sends me to Yandex. The disc is an already filmed video with answers to my questions. After the session, which ended at 11 pm, I start looking at the answers, where she says: “Maxim, I can answer 6 questions for you right now. And to answer the other three questions, I need to get in touch with Kirchiton, because I don’t know the answer to them. And greetings to you from Kirchiton." I think: “I got it!” The aliens are already saying hello to me. There’s a smell of something fried here.”

And she doesn’t just answer those 6 questions, the answers to which I already knew before, read in books that are not on the shelves of bookstores - my teacher gave them to me to read. These were very old, ancient, interesting books. Irina answers these questions and reveals the essence, which I guessed, but could not fully justify for myself. And after she got in touch with Kirchiton and gave me answers to 3 questions, she completely revealed my misunderstandings about the essence of these questions. In the morning, my friend and I went to Povorino, where we met Irina.

And the most interesting thing. It was a cool moment. Everything is so unusual, everything is so fabulous that it seems unreal. We communicate with her for 2.5 hours, filming. And then we were about to leave...

Marina: Please tell me, is this some kind of murdered village?

Maxim: Well, not killed. But, village.

Marina: Just a village-village?

Maxim: Village. Village houses, I didn’t seem to see high-rise buildings there.

Marina: Well, is there no asphalt? Roads?

Maxim: There is asphalt, but it has not been laid to this house. We drove off-road to her house. This is a house, of course...

Marina: Unsightly?

Maxim: Well, everything is littered like that.

Marina: She lived with Andrey then, with her ex-husband?

Maxim: No, she lived with her aunt.

Marina: With your aunt?

Maxim: Yes, she no longer lived with her ex-husband. She lived with her aunt.

23:38 Maxim Rusan's first contact with MidgasCaus.

Maxim: So we arrived there, filmed the material, and got ready to leave. And then she says: “Mead has arrived.” I think to myself: “What a game, some Mid has come and doesn’t want us to leave.” I tell her, well, okay, come on, what kind of Mid is it. She says: “Well, this is MidgasKaus from the planet Esler. He says hello to you." I say: “Wonderful” (I thought that she was playing and didn’t want to let us go). Yes, and we arrived with gifts (sweets, bread, sausage), but we understood that we were going to the village. Then I remembered how Claudia taught me how to set up contact. And I decided to tune in to Mead myself and chat with him. I concentrate, imagine his image, and then half of my head goes numb. At first I didn’t understand, I opened my eyes, and even my mouth went numb. I say: “Irina, what is this?” She says: “Mead felt that you wanted to make contact with him, but you have different vibrations, and you are not suitable for contact with each other. That’s why the energies that he transferred to you had such an effect on you.” I say: “Will this let you go?” She says: “Now eat and let me go.”

And we left this village. When we were driving in the car, my friend said that this was all nonsense, show-off, it was all glitches or something else. I fell asleep in the car and slept the whole way. The ride is quite far - 250 kilometers. When I arrived in Voronezh, I watched this video again and realized then that I had found something. And I found something incredibly close to me. And I couldn’t understand why no one had taken Irina yet.

Marina: Amazing!

Maxim: Why does she still have all this and no one is interested in it! No one at all! Taxi drivers went to her, they had a show there. They went to her to make contact with Kirchiton. They just watched and communicated with aliens. Taxi drivers! In Povorino they had such a show.

Marina: Entertainment?

Maxim: Yes, entertainment. They came in the evenings, and she made contact and answered their questions. Then I had a very interesting idea: what if this is all true? Although I didn’t fully believe it then. For four months I still doubted, even when I brought her to Voronezh, and I myself communicated with them, my whole body refused to believe. The material nature was so deep in me. After all, I see what he looks like, where he stands, how he moves in a mental image (I look at the mental image, I haven’t tried it on the astral yet, I don’t know how. Just at the School I will learn how to go on astral travel myself). I look at the mental, that is, these are the mental images that are in my head, pictures. Since childhood, I thought that I imagined everything, that I was a dreamer. And when I realized that everything I see is not fantasy, but the existing world and reality, it was frankly a shock for me.

26:38 Training of Maxim by MidgasKaus, Rai Tiyan and Archangel Gabriel.

Maxim: The aliens began to teach me: first Mid, then Raom Tiyan. Then Archangel Gabriel came (he is now on Burkhad in physical embodiment), he also taught me, there was feedback. But there were a lot of doubts, constructions, some kind of process of struggle began inside me - spiritual and physical. Spiritual - I understood that it existed. And physically - I refused to believe it and thought that I was being deceived somewhere. Really, someone is cheating. I think, well, Irina can’t know this! Well, how can you answer me that I know, but she doesn’t. I thought he was reading, inventing or something else. I doubted it for a very long time. Even

after studying with an esotericist and understanding that all this could exist and be possible, I still doubted it.

27:30 Maxim's communication with Mirah Count (Archangel Gabriel), who entered the body of Irina Podzorova.

Maxim: And at one fine moment, Mirakh Count (the incarnate Archangel Gabriel) came to me through Irina. I had a difficult question for him, which I could not correct in myself at that moment, but I was always drawn to him. And at the same time, I could not tell this to Irina personally, because she is a girl. Yes, there are such moments. And so we communicate with Mirah Count - Archangel Gabriel, I indirectly ask him questions, and he tells me the following phrase: "Don't you want to talk to me one on one? Do you have any question that you cannot say in front of Irina?"

My jaw dropped. I say yes". He says: "I will now ask Irina for permission so that I can enter her body structure. But not for long. Because it is dangerous, if you stay in it for a long time, you can disrupt its structure. But I can do it." I say: "Come on." I thought it was some kind of joke. Like in a movie, I don't remember the name, where the Spirit entered into a black woman and spoke through her. The same thing happened! I saw Irina shake and put her head right on the table. When she raised her eyes, I saw that she had masculine facial features, narrow lips, her ears even became different, and her eye color changed! I saw a man looking at me. And he says to me: "Do you understand that I'm talking to you personally now?" And I can't say anything at all. He says, "Ask a question." I sit and think - this can't be, they slipped something into me. I sit and think that she gave me a drug, which makes me so glitchy. And she again raises her eyes and looks. I realize that he understands what I'm thinking and says: "It's all true. Ask. I don't have much time."

I ask him a question, he answers, explains and at the end tells a poem. And such a verse told me that after it I got insight. I clearly realized that what I cannot get rid of is actually an animal inside me that is trying to manipulate and control me. An animal, not in terms of essence, but my animal nature. I understood everything, my tears started flowing again. I'm sitting here crying, moved by the insight. And then Irina began to shake. He looks up at me and says: "Well?" I say: "Everything is fine. Everything is fine. I just believed that I Believe."

30:35 Maxim's awareness of true Faith, analysis of his past and understanding of himself.

Maxim: For me, it was the biggest insight in my life, when after such a dialogue I really believed that I Believe. It seems like I believed it before, but not completely. And here was a moment when I definitely believed it. This dialogue, all this action, which I personally saw with my own eyes - if someone had told me this, I would not have believed it. I'm being honest. I would say that you drank tea with hallucinogens there, you are deceiving me. And after that moment I clearly understood. Mead said so much in those five minutes. And I got the impression that he told me half his life. I saw myself, who I could be, who I could become, how I could approach certain goals, tasks, things. It was really as if a package of information had been downloaded into me, and I clearly understood where I was messing up and doing something wrong.

31:40 Maxim's awareness of himself and the goals of this incarnation.

Maxim : This process of re-awareness turned my whole life upside down. Now I clearly understand: who I am, what I am, why I am here, what a person generally needs for development, who a person is, why I am incarnated here and now. I learned about my past incarnations, where and who I was. I don't want to talk about it, it's a very interesting story, I don't want to build my ego. I want to be a simple earthly person, whose name is Maxim, whose last name is Rusan, who helps other people receive the level of awareness and perception that I received.

For a whole year of communicating with them all - with the Interstellar Union, with the Galactic Federation of Light, with the Intergalactic Medical Service, with devils, with demons, with angels, with Archangels, with Arhats, with Archons, during this time I managed to communicate with so many! A lot of filming, a lot of sessions, a lot of answers to questions.

32:39 First conference of Irina Podzorova.

Maxim: I remember how I organized the first conference with Irina in Voronezh. I gathered all my friends. Since I worked in different structures, there were people from the prosecutor's office, from the Investigative Committee, from the regional administration, from the city administration, businessmen and someone else. I told them: "Guys, I'll show you this now, you won't believe it!" After the conference, half of them said: "We knew it!" I say: "How? Where?"

They asked their questions, and we gave them answers. They all thought that Irina was drunk or on drugs. That's just how contact happened with her back then. It was only later that they set up this contact for her, taking her to another planet and installing two special chips.

33:27 Development of the abilities of Irina Podzorova and Maxim Rusan. The reasons for what happens to the physical body are in the energetic state of the Spirit.

Maxim: I still remember one moment. When she was given chips, and she was then in Povorino, where physical contact took place. She calls me and says: "Max, the trees are glowing - is this normal?" I say: "How do they glow?" She says, "Well, I go up to the tree, and there's something flowing through it." I ask: "What is flowing?" She: "Some kind of light." Me: "Well, that's the aura of the tree. Look at the dog." She says, "And the dog glows." I say: "Wow!"

She then learned to communicate with energies, with brews - Spirits of the area and other entities that came and came into contact with her. It was all very interesting. Over this year, we, Irina and I, have developed together. She developed in her structure, and I - in my structure and level of awareness of perception. After that, I definitely realized that I had to show this to the whole world, because it is a miracle. I haven't read about this anywhere, I haven't heard about it anywhere. Not a single book gave me the answer. I didn't get answers anywhere, but here I got everything! After six months of communication, I thought that there was nothing to ask her about, because I already knew everything. Now this needs to be applied somehow.

And I started to apply all this. Everything is working. I completely came out of the destructive

state. I understand how energies are regulated by emotions, I understand what energy bodies are, what form and space are. It's quite easy for me to give feedback on what I hear from people. I can already see what they are saying on different levels. What does it affect, how does it work, how does it work. Especially if I don't understand something, I always have the opportunity to ask Irina to ask Mirah Count, talk to Mead or someone else about all the questions that interest me. And they teach me.

I studied with a teacher for a year, then studied at the Institute of Practical Psychology for three years, and aliens have been teaching me for a year now. I thank God that everything happened this way. During this year of my life with aliens, I learned more than I would have learned in two, three, or maybe five of my lives. The information is so deep, meaningful, consistent and correct that now I not only have no doubts, but have an understanding that everyone should know about it. Every person on this planet must understand: who he is, what he is, what he is for, and what he can do. First of all, know that every person is an Incarnate Spirit. And the Spirit is primary. Everything that happens to his physical body actually happens on an energetic level with his Spirit and with his other 6 energy bodies.

This is how we met Irina.

Marina: Thank you! Such an unexpected story!

November 21, 2020

Participants:

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

Marina Malini - blogger, channel "MARINA MALINI".

#170 The phenomenon of electronic voice. Instrumental transcommunication.

https://blog.cassiopeia.center/fenomen-ehlektronnogo-golosa
https://www.youtube.com/watch?v=ftjEW9krZcI

00:21 Introduction of participants.

Irina: Hello, dear friends! My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations. Today next to me are my curator MidgasCaus from the planet Esler - a biologist, psychologist and specialist in alien life forms, as well as a representative of the planet Esler WargKir - a specialist in contacts with subtle forms of civilizations from the 5th to the 22nd density level - this is very large spectrum of frequencies and worlds of subtle beings.

On Esler there are both biologists, psychologists studying contacts with aliens, and specialists in plasmoid worlds, studying different levels of density and features of their worldview, worldview and the possibility of the consciousness of a humanoid being to contact with the consciousness of a plasmoid being.

Today they are present at this conference, which will be dedicated to the phenomenon of electronic voices. The questions were prepared by the administrator of the Cassiopeia group and a researcher of this phenomenon.

Elina: Greetings to everyone: dear Irina, our star friends, dear viewers! My name is Elina, I am from sunny and already snowy Buryatia, from the city of Ulan-Ude.

I am a person who strives to discover new facets of the secret and unknown, interested in knowledge about our universe. And for as long as I can remember, I have always researched, studied, tried to find the truth, facts confirming certain unusual phenomena.

Interestingly, recently in the Cassiopeia group they calculated my level of embodiment using the formula given by MidgasKaus. My level at birth was 14, that is, I am a researcher, what a coincidence. But I don't think this is a coincidence.

I feel that now my level has grown, because I don’t need any facts, evidence, I have gained faith. As Maxim once said: “I believe that I believe,” and a lot became clear to me.

Several years ago I was researching the phenomenon of electronic voice. I myself made recordings using my phone, followed by computer processing of these audio recordings in order to obtain live evidence of contact. Which is what I did.

The result completely satisfied me, but, nevertheless, much is still not clear, and therefore I have prepared a number of questions that I myself and many people who engage in this method of contacts ask. Let's move on to our questions.

04:15 Background to the electronic voice phenomenon.

Elina: First, a short introduction on this topic. In the 1950s, the phenomenon of electronic voice was first discovered, that is, the appearance in audio recordings of various noises reminiscent of the human voice.

Paranormal explanations for this phenomenon, such as connections with dead people, have become somewhat widespread. Subsequently, work with this phenomenon grew into a whole science - instrumental transcommunication, that is, communication using technical means with intelligent interlocutors who live in realities beyond the perception of our earthly senses. Many people who learned about this method of communicating with their departed loved ones began to use various technical devices to tune in and contact them.

Today I would like to learn about this phenomenon from our stellar friends.

05:23 Alternating electromagnetic field. The impact of plasmoids on technology.

Elina: First question. Do they know about the existence of instrumental transcommunication in the Interstellar Union, and who is responsible for such contacts?

Irina: Warg will answer as a specialist in plasmoid worlds. No, we don’t know anything like this in the Interstellar Union, because we don’t have technology that resembles yours. We do not have sound recording devices based on the same operating principles as yours. Our operating principle is based on the quark-carbon bond.

Elina: How interesting.

Irina: This is a certain type of energy waves that make up the energies in the atom that you already know.

Elina: Very interesting.

Irina: Regarding the phenomenon of electronic voice. Earthlings record them on media that can be reproduced in devices with an alternating electromagnetic field.

What is an alternating electromagnetic field? It is a form of energy that is the first level energy in atoms. It is relatively easy to influence by those beings who do not have a physical dense material body, but have a subtle material body consisting of energies of a very high frequency of vibration oscillations.

How do they do it? These subtle-material entities are called “plasmoids” in our terminology. How can they affect earthly technology? The impact is possible in two ways: directly creating microsound waves that cannot be detected by a person’s hearing aid, but can be recorded on a medium due to its sensitivity.

The second method: when the work is not on creating sound waves, but on influencing directly the sound information carrier or the device that does this, that is, microenergy bursts of electromagnetic waves are created in it, which imitate sound waves, and this or that information, but it is more difficult to decipher because it is presented in the form of random impulses. To stand out from the noise, processing is needed.

Elina: I see.

Irina: I would like to note that both types of interaction require energy expenditure from plasmoids, since they carry out any action with the expenditure of their energy, their vitality.

The nature of this phenomenon in 90% of cases is contacts with plasmoid worlds. In the remaining 10% of cases of real phenomena of electronic voices, these are contacts with humanoids or with the world of disembodied Spirits. All the same, they are carried out with the help of the energy of plasmoids, which create joint groups to conduct these energies, since disembodied Spirits do not have a subtle body with which they can create such vibrations; they came out of it.

They are in a spiritual essence that can influence matter, but for this it first needs to become similar to a subtle material entity in vibrations, and then act. To do this, she will need tens of times more effort and energy.

11:30 Plasmoids use Earth terminology. Plasmoids do not have a language for communication.

Elina: Over a long period of such contacts, it was established that so-called communication operators from various stations work on the other side. That’s what they call it: station “Mir”, “Nevel”, “Sanchita”, “Vostok”, “Europe” and others. I wonder what kind of stations these are? What worlds or planets are they in? Are telecom operators plasmoid or humanoid civilizations? What are these stations and who are the operators?

Irina: They use terminology to differentiate you from each other. They take the terms of your world from the researcher’s memory, from his vocabulary. Fortunately, when people talk to each other, thought forms become known to plasmoids. Very often, people who have long been in unconscious contact with plasmoid civilizations begin to get carried away with such

things, and the words you named and many other plasmoids long ago learn from their contactees when they come into mental contact with them.

Among plasmoid civilizations there are research groups aimed at studying dense material worlds. This is similar to your earthly anomalous research teams.

Our dense material worlds are completely incomprehensible to an ordinary plasmoid, since they are at different frequencies.

To penetrate our dense material world you need to have the skill, extra energy and desire to do this. This is even more than for an earthly person to fly into space. Space is your dense material world, and there you need to overcome the threshold between worlds.

Plasmoids do this in order to study reactions, including emotional, behavioral, and psychological, to bursts of energy that they encode into various words.

This explains the fact that in 80% of cases, recording on an audio medium, which is carried out in the presence of a human conductor, appears in the language of this human conductor.

All this is taken from the consciousness of his curator, because it is difficult for representatives of plasmoid civilizations to express thoughts through earthly words, since they may not have a language at all in your understanding. They can exchange light pulses and various sounds that your ear cannot hear.

15:35 Contact of disembodied Spirits of departed relatives with the dense material world .

Elina: Please tell me, many people who make recordings hear the voices of their loved ones, some names. On the other side they say things that only those close to them know. Do their relatives themselves come to them when they are called?

Irina: This is a two-way contact. I said that according to our observations, disembodied Spirits can appear in no more than 10% of cases, and they need the help of those civilizations who have more energy.

In general, it is much easier energetically and technically for the disembodied Spirit to come when a person is in a dream, when his astral body has left the physical; there is no need to influence matter to cause changes in its molecules.

16:46 Meetings with disembodied relatives in the astral plane.

Elina: It’s very interesting to know that many contactees, and people involved in instrumental

transcommunication cannot be called anything other than contactees, are probably more sensitive to such communication with their departed loved ones? They begin to see dreams and even travel to those worlds where their departed loved ones are located, meeting them there. They describe these worlds as parallel to ours, with the same houses, streets, and changing seasons. Many describe their sensations as very realistic; they feel the physical density of their bodies. Where do these people end up?

Irina: A person who deals with the phenomenon of voices is in more or less constant contact of his energy field with the energies of the incoming plasmoids. This makes him more sensitive than a person who is focused only on the material world, on satisfying the needs of the body.

As for visits to the worlds of departed loved ones, after contacts with plasmoids the law applies: after this does not mean as a result of this. They can visit these worlds and remember these visits thanks to the charge of the astral body, thanks to constant daily thoughts about this world. They themselves direct their consciousness to visit and remember such information after awakening the body.

Elina: Do they really meet with their departed loved ones?

Irina: We have to look at it individually. They can meet with deceased loved ones, they can meet with plasmoids. In the astral plane they can take on any image.

19:04 Life at different levels of the Spiritual world. Divine energy. Burning in hell, in fire.

Elina: During recording, the other side often conveys that everything is fine with them. Departed loved ones say they are surrounded by Love and Light. This is understandable, but some who have converted say that in the Spiritual World they live there the same way as on Earth: they work, study, go shopping, travel, many even get married. They convey such information.

What kind of world is this in which everything the same happens as on Earth? Please comment if this is the case in the Spiritual world, and what worlds are we talking about?

Irina: It all depends on the level of the Spiritual world where the Spirit has landed. If these are middle levels, then the Spirits live there, remembering their past lives, and with their thoughts they create a similar world around them.

If these are demonic Spirits below the seventh level, then these are Spirits with unresolved emotional and mental problems that come from living in a physical body.

These problems, negative blocks that exist in the structure of the Spirit, prevent them from living, from seeing happiness from God in every moment. Because when they were in the physical body, they could be distracted from their bad thoughts, feelings that brought them psychological torment, to sensations from the body. When this body no longer exists, the Spirits find themselves in a world corresponding to their vibrations, where the majority are

similar to them. There they create a world similar to their inner contents. What the consciousness was filled with will manifest itself in the world of disembodied Spirits.

Elina: That is, in the world in which it lives.

Irina: Yes. The lower the level, the lower vibrational states the Spirit enters, and the more it begins to feel the burning sensation from the energy of Divine Love, which spreads everywhere, as it supports all worlds.

The greater the discrepancy between this vibration of Divine Love in the Spirit, the lower its level.

The very experience of this burning sensation is similar to what religious people in Christianity describe as burning in fire. This is a completely understandable analogy, which was given by curators, including those from the planet Burkhad and from the Spiritual World, who knew well the laws of incompatibility of vibrations.

Since Divine Energy is the highest vibrational state in the Universe, it can be figuratively compared to a bonfire or fire. The Bible texts mention that God is Fire, but fire is everywhere. Anyone who is distracted by the physical body does not feel it, since his consciousness is occupied with information from the receptors and its processing in the logical part of the mind.

Fire in the material world also has a high vibration frequency because it is hot. Your physics knows that a substance that burns has a high oscillation speed of atomic waves. And a substance with low vibration, i.e. has slow vibrations, in your world it is, for example, a piece of ice. Compared to water vapor, ice has the lowest vibration frequency. Water vapor and a piece of ice are made of the same substance, only they have different vibration frequencies. Water vapor is closer in its properties to fire and has a higher temperature. A piece of ice has a very low vibration frequency, and people have a good idea of what will happen to a piece of ice if it is thrown into a fire. Now imagine what would happen if this piece of ice could feel while having the ability to die? How will he feel?

Elina: Pain.

Irina: Can you imagine what he will feel in the fire?

Elina: Yes.

Irina: A clot of water vapor, having the same nature, will experience different sensations. Is not it?

Elina: He will experience freedom.

Irina: Yes, Light. That is why they say that God is Fire, and the Bible says that God is Light. Do you agree that this is a phenomenon of one nature?

Elina: Of course.

Irina: Just as water, water vapor and ice are manifestations of the same substance, so fire and light are manifestations of the same Divine nature, but only expressed in different words due to the fact that it feels different.

Divine Light feels like fire. And what is in the Divine Light? What feeling? Feeling of love. When the Light is experienced as fire for itself by a demon, then Divine Love, which is one with this Light, is no longer experienced as Love, but as anger, rage. Therefore, a very common expression is that the wrath of God, the wrath of God, will incinerate the enemy or burn him. This is not because God is really angry, but because this is the perception in low vibration people.

27:11 Connections to low vibration parasitic entities. Protection from low vibration energy - Light of Love.

Elina: On the recordings, the so-called lower classes very often intervene in the conversation. They speak rudely, use swear words, send curses and the like. Who is this? Plasmoids?

Irina: The spirit can be embodied in a plasmoid. Just like in a person, any of the Spirits can be embodied.

Elina: Could it depend on the person who makes these recordings? From his level of awareness and vibrations?

Irina: Why do they behave this way? Any Spirit speaks words based on what fills his mind, feelings, and heart. If he is filled with disgust and anger or despondency and fear, then he will say the appropriate words even in response to your kind treatment. And the kinder your treatment of him is, the more his anger may worsen. All the same, he has Light within himself, but it is closed by negative attitudes that do not allow him to feel it. If you speak to him with kind words, love him, then your love will be equal to the Divine Fire for him, he will reject it. Therefore, he will begin to react with pain, that is, he will begin to say rude words because he was hurt, without understanding who hurt him. He cannot realize that the reason is in him, and begins to pour out his anger on the one who wants him well.

Elina: Doesn't this result in an outflow of energy from the people who take notes? Are portals opening to the dark ones? Are connections happening? And do you need to protect yourself? Maybe you can recommend some precautions?

Irina: Mead says that we are both astral travelers, we can visit various worlds, including low-vibration plasmoids, the world of disembodied demons, the world of angels. Personally, we believe that trying to defend yourself already indicates your fear. If there is fear, then there is

no confidence in one's belonging to the Light. And uncertainty about the belonging and omnipotence of the Light gives rise to low vibration, distrust of God in oneself and distrust of God, who is the Heavenly Father. God gives such a Spirit freedom and leaves it to descend in its vibrations so that it experiences contact with this dark world.

If the Spirit, the son of God, suddenly begins to fear that the Father, who is always nearby, will not protect him from evil, by this he shows distrust of the Father, and the Father says: "Okay, if you think so, I will remove my protection. You must go through this experience so that you remember me and trust me completely."

Elina: People themselves create such connections for themselves with their doubts.

Irina: Not only. There are people who are not afraid of demons and low-vibration plasmoids, but they begin to experience other negativity towards them, for example, irritation, malice, anger. This is a different energy, but also low vibration. It deprives Divine protection at this moment, just like fear. It makes it possible to take energy from you once, but if this continues for a long time, it can lead to bindings, connections to low-vibration plasmoid parasitic worlds. In the future, they can spend about 10-15% of their energy in order to provoke the lowest feelings in the connected person so that he spends his life energy on emotions, so that he includes these emotions in himself and releases his life force on them experience. Then this low-vibration energy will go to feed these Spirits three times more than they spent in order to provoke this in him. This is a unique way of eating, which resembles the flare-up of a large flame from a small spark of fire. Only here it is in terms of energy. Spirits are ready to spend a small amount of energy, light one match, and then get a whole fire of human energy.

It can only be safe if there is a complete absence of fear of these entities, complete confidence in Divine protection, and at the same time the absence of irritation and anger. You must remember that in front of you is your brother, also the son of God, only at a lower level. This does not mean that you need to be proud in front of him. He is simply in an unconscious state due to the fact that he went through a negative experience, and this is his path. If we send him the Light of Love, it is very possible that this will awaken in him at least a small spark of his own Light, which is deeply hidden within him.

If there is aggression from these entities, you need to calmly direct the Light at them, saying: "I forgive you. I love you and accept you for who you are, and I send you the Light of my Love so that you become a bright divine being." Mentally imagine it. Close your eyes, feel where he is. Turn on your internal radar, which will detect the Spirit and the plasmoid. Ask yourself where it is, what it will feel like if you are in a state of contact. And direct the Light directly there. And at the same time, do not be afraid that this light will leave you irrevocably, since the unconditional bestowal of the Light of Love even by a demon and a low-vibration plasmoid leads to an even greater influx from the Divine world, since this Light is infinite. The Light of Love is endless.

35:57 What determines the result of contact with plasmoids? Energy exchange with high vibration plasmoids.

Elina: Why do different people using the same recording device and audio post-processing software produce results of different quality? What does this depend on?

Irina: This is a property of contact. Plasmoid worlds can arrange it in such a way that this recording will be without the presence of a person, on their energies. And when a person is present, they can also take his energy. High vibration plasmoids will not do this without permission. They will first charge a person with their light, love, and then he will begin to give them his gratitude in return. This is also a form of energy.

Elina: Does the quality of contact depend on the level of human vibration?

Irina: The level of his vibrations most depends on who gets in touch with him. Those who match his vibration will get in touch. It is easier for them to establish contact with his energy field, etc.

Not all plasmoids can create the same records, because they have different experience in this, they need the ability to spend energy, not everyone can do this equally well or poorly.

37:56 Possibilities of manifestation of plasmoids and disembodied Spirits on film.

Elina: For the first time in the history of transcommunication, a video image of people who have gone to another world was obtained. In 1985, Klaus Schreiber saw images of people long gone on a television screen. Is it possible to manifest the world of Spirits on video? What needs to be done so that everyone who needs it can get in touch and receive a video image? This refers to the technical component of the issue.

Irina: It is possible to depict any non-material entities, even plasmoids, even from the world of disembodied Spirits. In order for non-embodied Spirits to get on camera, they must become similar to plasmoids in vibration. It will be easier for the first to get onto this film, but for the second - disembodied Spirits - it will be much more difficult, since they do not have a material body.

Those who have a material body have the advantage that they can take this life force and direct it to a device that records video.

Why are plasmoid civilizations not captured on camera footage? The camera has a certain shooting range, and the bodies of plasmoid civilizations migrate much faster, therefore they remain beyond the visibility of the resolution of the instruments.

In order to go down the vibrations and display part of your subtle body on film, you need to spend energy, compact it - not everyone knows how to do this, this is a difficult skill for plasmoids. It’s like for a person to dive, for example, to a depth of ten meters - a denser environment without any auxiliary methods, clothing, etc.

Elina: I see.

Irina: Auxiliary methods are impossible among plasmoids; they do not have such equipment. They are subtle. They do not have the means to which waves can be directed, for example. They can only create thought forms with their energy that resemble flying saucers, houses or something else, but this does not emit energy in the same way as dense material devices.

41:32 Images and faces transmitted through water.

Elina: I wonder how images that are transmitted through water are obtained? Some contactees use the water method, photograph the water and obtain images of the faces of either deceased loved ones or certain celebrities. Whose images are these? It is by photographing water that images are created.

Irina: So they are photographing mirrors.

Elina: The water method is interesting, how does it happen? It is clear that this all happens after computer processing, but nevertheless there are a lot of images.

And **Rina:** It depends on the characteristics of your media, film.

Elina: She just takes pictures with her phone.

Irina: Those persons who create the image are in the astral plane. If you photographed the air, then nothing appeared in it, but this reflection appeared in the water. Water retains energy, it is charged with your thoughts, and it can show it all. Its molecules are more easily arranged into certain shapes than the molecules of solid matter, and at the same time they are more visible than the molecules of gases entering the air.

43:22 The benefits and harms of contacts with the subtle world.

Elina: Final question. Is there any benefit from such contacts with the subtle world, and is there any harm done to the Spirits who have passed there? How often can transferred Spirits be called to a communication session?

Irina: MidgasCaus speaks. I see the benefit for material consciousness, for those who are focused on the material world, who believe only in what your scientists say. It can really benefit them in that they think about the existence of another world.

Elina: Yes.

Irina: As for people who communicate with their Higher Self, with Spiritual entities. The benefit to them is that they will thus attract materialists through the interest of material evidence in such a form as they can obtain it. They can start a conversation with materialists

about the Spiritual world, if, of course, they want.

Most often, if a person does not feel the Spiritual world within himself, then there is little evidence for him.

Having received one piece of evidence, he begins to waste time confirming that it does not prove anything, and this does not happen.

Instead of benefit, the result will be harm to a person who will be irritated and look for tricks if this does not fit into his worldview system. You, earthlings, have a mental field characterized by the ability to create very rigid structures, thanks, among other things, to the special structure of the brain through which the Spirit is manifested, thanks to social consciousness, and the education of the younger generation in the Spirit of materialism.

As for the harm to the departed and to the plasmoids. There is no harm for them, because if they feel that they do not have enough energy, they will not make contact. It is impossible to summon the Spirit against his will, he can only be invited. It is impossible to force contact, and it is wrong to want it. Such a desire lowers a person's vibration, as it implies violence.

Elina: I agree. Many thanks to MidgasKaus, Irina and WargKir!

46:42 Wishes and gratitude from the meeting participants.

Irina: Thank you for your questions, I really liked it, it was interesting, dear friends! Maybe Elina, you want to add something?

Elina: Yes, I would like to express my gratitude to you, Irina, and Maxim for your incredible work in conveying the most important information to us people. And special thanks to our star mentors for helping us in our spiritual development, for not leaving us, thank you very much!

I want to say to our viewers: live as your heart tells you, to your liking. Accept the information that resonates with you. Appreciate the time that has been given to you and constantly thank the Creator for the experiences that you live here and the spiritual growth that you gain from these experiences.

No matter what anyone says, we on Earth have had a huge chance in such a short time to gain a lot of experience and greatly increase our spiritual level.

Appreciate the life you've been given

She will turn into a dream for you.

And it will touch everyone's hearts

Blooming spring in winter.

That's all I wanted to say. Thank you

Irina: On this excellent note, we end today's conference. Thank you, dear friends, for your attention and for your desire to understand the topic of our spiritual development and various phenomena of human consciousness and the world around us. See you again!

Elina: See you again!

November 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

WargKir - a representative of the planet Esler, a specialist in contacts with subtle-material civilizations from the 5th to the 22nd density level;

Elina is a volunteer of the Cassiopeia group.

#171 Prevention: Ph level, control of acid-base balance in the human body.

https://blog.cassiopeia.center/profilaktika-uroven-ph-kontrol-kislotno-shchelochn
https://www.youtube.com/watch?v=LBSdEnaFVGY

00:20 Acid-base balance of the body and the possibility of infection with coronavirus. Alkalosis and acidosis.

Maxim: Is it true that controlling the acid-base balance in the human body can help avoid infection with coronavirus? Our scientists say that with such a state of the body between values 7.5 and 8, this is already death for a person. Do you think this is true?

Irina: The most optimal number of acid-base balance in human blood plasma and in all internal environments of the body is 7.4. This is an ideal, but fluctuations of no more than 0.5 in any direction are acceptable. That is, the norm is considered to be a value from 7.30-7.35 to 7.45. Even a slight change in the acid-base balance in any direction causes serious disturbances in human metabolism. With the data you indicated, a person will develop a condition called alkalosis. This condition will cause respiratory failure and a tendency to seizures. These are the first symptoms. The person will begin to experience attacks similar to bronchial asthma and convulsions. If it reaches 7.7 or 7.8, it may die. This is if you look at blood plasma and capillary blood. If the value is less than 7.45, a condition called acidosis will occur. This condition leads to oxygen starvation of the entire body. This can lead to heart attacks, strokes and other changes. The acid-base balance must be maintained by the body independently.

There are different mechanisms. Basically, this is equalization through breathing, because even if you disturb it in one direction with food, eating an acidic product that will create an acidic environment, then the human body, through the excretory and respiratory organs, regulating the speed and depth of breathing, completely and independently regulates this Ph indicator. You won't be able to change it much on your own. Only if some kind of acid or something else is injected into the blood.

03:55 Soda and its effect on the acid-base balance of the body.

Maxim: If there is soda?

Irina: There will be a reaction. The stomach contains fictitious hydrochloric acid. If sodium bicarbonate, i.e. Soda, in solution or powder, is combined with hydrochloric acid, then a reaction will occur that you have repeatedly observed when making yourself a drink from sodium bicarbonate and citric acid. Gas bubbles will be released. And as a result of this reaction, carbon dioxide and sodium chloride will be released, i.e. table salt and water. If more sodium bicarbonate is introduced than it can react, it will go into the intestines. The intestinal villi, in turn, will not be able to absorb excess elements into the blood.

05:30 Optimal value of the acid-base balance of the blood. Reproduction of coronavirus in body cells.

Maxim: Is a value from 7.5 to 8.0 fatal for humans?

Irina: Even much earlier. But, each person is differently resistant to alkalosis. It is most poorly tolerated by children, the elderly and men who are sensitive to it.

Maxim: That is. If the value is above 7.5, will this worsen the situation with coronavirus?

Irina: This will not affect the reproduction of the virus itself, because the acid-base balance of the blood does not in any way affect the acid-base balance of the mucous membrane of the respiratory tract, in which the virus develops. Remember that it does not develop in the blood itself. He is only tolerated by her. It develops in the physical membrane of the cells of the upper respiratory tract.

#172 Conspiracy theories about the COVID-19 pandemic. 5G radiation during the spread of coronavirus.

---

https://blog.cassiopeia.center/konspirologicheskie-teorii-o-pandemii-covid-19
https://www.youtube.com/watch?v=NcckF7sGTt8

Maxim: Tell me, please, does 5G radiation affect the human immune system? Is it possible that it caused the death of many people from coronavirus? Since in 2019, it was Wuhan that was the experimental site for this radiation. Moreover, when the epidemic began, they connected 5G to all hospitals for fast remote diagnostics. It turns out that the virus superimposed on the killed immunity, which is why there are so many deaths. In general, is this possible, is this version?

Irina: Tell me the 5G frequency range.

Maxim: 5G frequency range...

Irina: It’s just that I haven’t studied the issue in such detail.

Maxim: Now I can try to give you all this via the Internet, 2 seconds. I wish I could find the Internet somewhere.

Irina: Come on, I’ll see for myself.

Maxim: Please look at the 5G frequency range.

Irina: 5G in Russia.

Maxim: No, in China.

Irina: In China?

Maxim: Yes. We haven't allowed 5G yet.

Irina: Here, the Chinese frequency range - there is information here. Due to the shortage of frequencies, the Ministry of Telecom and Mass Communications (this is the Ministry of Communications) proposes choosing 4.4 - 4.99 GHz as the key range for creating 5G networks in Russia - unpopular in most countries with the exception of China and Japan. This means that in China and Japan it turns out that this range is popular.

Maxim: Yes.

Irina: They suggest choosing this range due to a shortage of frequencies. In China there was a frequency range that I named - from 4.4 to 4.99 GHz.

Can such frequencies affect immunity? They do not reach the level of even weak gamma radiation. You measure this in gigahertz. The fact is that these are the energies that all energy worlds are made of, only in yours they are more manageable. But there the frequencies are even higher - terahertz, and you have gigahertz, that is, an order of magnitude lower. But this frequency is the first level of energy that atoms have. The second level - this is called, in your opinion, “radiation”, consists of alpha, beta and gamma radiation. The level that is here does not even reach these alpha radiations.

In principle, if a person does not know that he is being exposed to this radiation and does not know anything about it, then his body is not tuned to these frequencies, he simply will not feel them. And if he knows that he is exposed to this radiation and believes in it, then, naturally, by the effect of suggestion, he will reduce his immunity.

Maxim: In principle, if the person himself does not know and is not told that it is harmful, then it has no effect on the person.

Irina: No. These frequencies are too low to disrupt the energies of your atoms in your body, including in immune cells. You call it "electrons". They will not knock off “electrons” - they are too low-energy for this.

Maxim: I understand. That is, the coronavirus panic is only needed to create fear and due to the effect that a person will be afraid, it will have a better effect on the person, right?

Irina: Well, yes. If they talk about the fact that it is 5G that amplifies the virus, then this will be a means to increase panic. But this is again done by certain forces who know very well that fear, on the contrary, lowers immunity. It’s fear that lowers immunity, but not these gigahertz. Because fear comes from the person himself, from his emotions. Emotional waves, emotional energies have a much higher oscillation frequency than these gigahertz.

Maxim: Mid, thank you very much.

#175 Why am I volunteering for

the CASSIOPEA project?!

https://blog.cassiopeia.center/pochemu-ya-volontyoryu-v-proekte-kassiopeya
https://www.youtube.com/watch?v=Dv2Sj-C9uvY

00:03 Greetings. About the Cassiopeia project.

Dear friends, hello! For those who don't know me, my name is Vladimir Goldstein. I am located in the suburbs of Chicago. I am the administrator of the Cassiopeia project, which is disseminating information about contact with extraterrestrials, extraterrestrial civilizations by Irina Podzorova, located in Voronezh. I've been meaning to write this video for a long time. I understood that there was an urgent need for this, and every day it became more and more acute. Finally, today I found the time, because I can't wait any longer. I want to offer you some kind of confession. Confession, because I am absolutely sincere. I invite everyone to listen to my absolutely sincere story about why I, in such a pragmatic country of America, on an absolutely volunteer and free basis, have been spending more and more time for a year now (the video is dedicated to this anniversary) on working to promote the Cassiopeia project, although this The work is entirely volunteer. The project disseminates information about contacts with extraterrestrial civilizations and all the knowledge that comes through Irina Podzorova. I'll tell you a few small secrets, and for some, big ones. If anyone is interested, listen.

02:06 Meeting Irina Podzorova and Maxim Rusan, programs with their participation on the Russian-language radio "New Wave of Chicago".

Let me start with the fact that a lot of people, and as time goes on, the more, they ask me in surprise why I do this, especially since it's free. All the work, on the contrary, is dedicated to ensuring that there is an opportunity, on a volunteer basis, day and night, and I am not exaggerating, to promote the Cassiopeia project. I'm telling you. A year ago, everything random is not random, in one of the chats dedicated to spirituality, and it was a Ukrainian chat of my friends, someone put a link to Irina Podzorova's video. I clicked there and opened it. I have extensive experience in learning information on contacting, on all kinds of anomalous phenomena, and esotericism. Since my early youth, I have already had some experience in various spiritual traditions. I won't tell you in detail, because... this will already be a story about my life. I immediately realized that this video was worthy of attention. The more deeply I looked, the more I realized that it was worth paying even more attention to it. A short time after this, I contacted Maxim Rusan, who is the head of the Cassiopeia project, via the Internet, and invited them to make a program on Chicago radio, because I am a journalist in Russian-language media in Chicago. As the host of the program, he invited them to talk there. We produced three multimedia programs on Chicago radio, taking and answering calls from radio listeners. They are recorded on the Internet, posted on the YouTube channel and on the Chicago Folk Wave radio channel. I became even more convinced that I really want to continue working in this direction. If there was something wrong there, I would have realized it immediately. And this has been happening for a year now.

I gradually became an administrator on various social networks associated with this project. I record, as you know, a lot of conferences, i.e. Skype conversations with Irina Podzorova and representatives of the Interstellar Union. Now my article-interview with Irina Podzorova and MidgasCaus should be published in the Chicago newspaper Advertising, first on the website, then there will be a printed version.

05:37 Irina Podzorova - a project of the special services?

So why? I'm already quite a few years old. I have a lot of professional experience. I worked as a manager in one of the largest commercial structures in Ukraine. This is a well-known structure, I won't elaborate. I went through understanding marketing, PR understanding. We have experience in shaping public opinion on a global scale. If we talk about all this in the context of Irina Podzorova's contact, then from the very beginning it became absolutely clear to me that this is not a project of the special services who are inventing all this for their own purposes. The information that came from her, and I wrote an article about it, was connected, global. Many pieces of this information have never existed anywhere. Everything is connected into a single whole, consistent. Time passes, and this information deepens and is confirmed. There is no such thing that something comes up later, that someone forgot something, and now you can be caught for a discrepancy. Nothing like this. I've been following all this for some time. There are no problems. Everything is absolutely clear, connected into a single whole. On the one hand, there are elements of novelty in this information, on the other hand, it intersects with the information that already exists. Some people tell us: "Show us, this hasn't happened before." Others say: "Oh, this has already happened, this is plagiarism." This is both bad and bad. Skeptics will always have their own arguments, but I tried to put it all together and compile it. And indeed, in my opinion, this is the truth. To come up with all this, being in active mode for days on end, to pull it out from somewhere, to compare it, there must be some kind of structure, a team of employees. They find something and send it to Irina Podzorova. Now let's leave aside how she does it: headphones or some special technical means so that she deceives us all. For me, this meant that this structure must be on a budget, these people must be paid somehow. This is their job. Otherwise, if it were not serious, it would most likely collapse. For me, as a PR specialist, it became clear that such a budgeted structure should have closed after some time. Let this be a project of the special services. But there they count the money, recruit scientists from different fields, it's a whole team, a whole department. It was clear to me from the very beginning that the above version is less realistic than the version with real aliens. I speak as a professional. For me, the alien version is more real. If this is earthly, then it is not clear why? So I put that aside.

10:12 Is Irina Podzorova a brilliant madwoman?

Now let's assume another version, a simpler one: Irina Podzorova is a brilliant madwoman. Brilliant because her information is relatable. She looks up, at the world, at the sky, MidgasCaus, but in fact she invented everything for herself, walks in the astral plane. Let's consider this version. I considered it for myself and am sharing it with you. She is not just a brilliant madwoman, she is the only madwoman known to us at this level in the entire history of psychiatry. Why? Because if psychiatrists had checked her, they wouldn't have found anything. Mentally ill people cannot maintain such an array of related information with additions, clarifications, things that surprise everyone, every day for a year. Then this is a completely brilliant madwoman. Some kind of divine, highest manifestation of madness. Then, sorry, but we are the crazy ones, not him. Because through him all this truth is revealed. Since we cannot understand it, explain it, create it, then madness is on our side, and not on the side of this blessed genius. It's the other way around. I'm being ironic, of course. For me, in fact, it was all completely unrealistic. It was clear that behind all this there was some higher intelligent Power. If this is not the special services or a form of genial bliss, then this is the same as contact with God, with aliens. All the same, this is not the invention of a crazy person, but it comes from somewhere.

12:17 Irina Podzorova really accepts information from aliens?

There is also a third version. In the event that we do not want to accept the version that this is a bright alien civilization, that all this is being transmitted to us from the Interstellar Union. A third version may always exist. It is as follows. Yes, this information is conveyed to her by some high Spirits. It doesn't matter who they are: from the astral plane, humanoids, subtle worlds. They convey this, she accepts and believes in it, she does not deceive, but this is "a wolf in sheep's clothing." They convey all these bright truths, hiding behind a screen in order to hide some true evil. Thus, they want to first gain trust, and then "every sister deserves earrings." This option is possible. It is always possible. We can say that they passed on a year, or three years, or ten years, it doesn't matter, but in the eleventh or hundredth year everything will begin. Quite. I admit it. Well, we'll wait. Let's wait. But, with the same success, this can be said about all spiritual traditions. After all, there is a well-known belief that Jesus did something wrong, he was a demonic creature. For some this is also true. Some kind of demonic manifestation hidden behind a screen. In fact, everything is bad there. But this has not yet manifested itself. We need to wait a little, soon all this horror will peek out from behind the screen. Well, so it is here. I didn't find anything. During this entire anniversary year, I have not seen such motives in the project. All the information that flows through Irina is filled with Love, Light, and the desire to help us. I communicated with Irina in a variety of situations: at night, when she came home after physical contacts, flying on ships with aliens and in a different atmosphere. Even if she were Mata Hari, Stirlitz and any other intelligence officers rolled into one, no one would be able to support this at home, at night in Voronezh. As a person who understands this, I can say with confidence. I didn't find anything dubious. No dark goals are manifested through this light one. Every time I communicate with our alien friends, mentors and curators through Irina, even if I had any doubts, they dissipated in space. They are very convincing every time. This happened repeatedly. I am convinced of this every time.

15:36 Faith, knowledge, and the mission of the Cassiopeia project are the main reasons for Goldstein's volunteering.

Thus, I told you everything in detail, as in a confession, all these three versions became unconvincing for me, even the third version, regarding "wolves in sheep's clothing." It all ultimately comes down to this thing called "faith." We will not go into detail here about what it is. Perhaps I will dedicate a separate video to this. In addition to the logic that I told you, there is a feeling inside that this is the truth. This is based on all the above logic, and on something else elusive, like love. Love doesn't matter what: a person, borscht or another dish. No matter how many arguments there are, you still love, and this is already beyond logic. This is a combination of logical arguments and a certain feeling. All this together, for myself, I call "faith", I would even say "knowledge". I have an inner feeling, a knowing, that this is the truth for me. That's why I'm in this project. Assuming this is true, there is a reason for this. We have dozens of volunteers from different countries who write in our internal work volunteer chats: "I came to a project that seemed fantastic, and then it turned out to be true." During this year I became convinced that all this is real. If you realize that there is an Interstellar Union of 116 civilizations. Four civilizations are in contact with us, pursuing the highest goals for us to raise our vibrations, enter the Interstellar Union as equal participants, receive all the technologies, knowledge and skills that they have, for the simple reason that several civilizations from they created us 3 million years ago. Then this is the mission. Then it makes sense to tell people about it. Just give them information, do not convince them, so that everyone can make their choice, feel: for him this is the truth today or not, whether he believes in it or not, feels that this knowledge is true for him or not. Everyone can remain with their own opinion, but doing it more consciously. Personally, I am convinced that very soon there will come a time on Earth when there will be a persistent denial of the fact of the existence of extraterrestrial civilizations, as well as a failure to recognize that they treat us kindly, that they are not some kind of evil reptilians or dragons. be considered a mental disorder. And not the other way around, as was the case until recently. Everything is leading up to this. All events are heading towards this and accelerating, including the Pentagon's recognition of the authenticity of footage taken by American combat aircraft, which they called "unusual aerial phenomena." If you look at these images, and they are publicly available on the website of the New York Times newspaper,

then you are unlikely to have any doubts about what these unidentified aerial phenomena are. You can see everything very well there, you can hear the conversations of shocked pilots of American Pentagon combat aircraft with the latest fixation systems. The Pentagon recognized the authenticity of these recordings, that this was not a falsification and not a secret American weapon. But they don't know what it is. Although, according to the information they give us,All governments and structures of developed countries know everything very well. Now you probably understand better why I'm doing all this? It's easier to tell you, consider that what I'm doing is a manifestation of my selfishness in its purest form. This selfishness lies in the fact that I want to live in a world where people love each other, treat each other with respect, joy, love, Light, a desire to help each other. It is more pleasant for me to live in the world that I have just described than in the one that exists now. In order to live in such a world, everyone needs to raise their vibrations. And this is exactly what the Cassiopeia project aims to achieve. Because if we simply acknowledge the existence of aliens and that they bring us good, then we will have to accept this information. Knowledge about the structure of the universe, about the structure of the Spiritual world and the journeys of our souls that they provide. And if you accept, understand and realize this, then the world will change. People will know the laws that were carefully hidden from us, and only for this reason will they gradually, but at the same time quickly enough, begin to change. They will understand the whole story. The world will change. Collective vibrations will begin to rise, and this will lead to a state in which I will enjoy living for purely selfish reasons. I hope each of you will have a pleasant life. Therefore, I would be grateful if you not only listen to my "confession", but also look at the materials in more detail on our pages on social networks, on the YouTube channel. Look, you'll figure it out, read my very article, which is on the Proza.ru website, all the links are posted there. The article is called "Our real history through the eyes of alien civilizations." You will find there all the detailed, comprehensive, basic information about much of what I just talked about, and a lot of additional information. After this, you will be able to form your opinion, make an informed choice: whether you like it or not, whether you follow it or not, whether you believe in it or not - any choice you make will be respected, including by me personally. Thank you very much for your attention, to all those who watched this to the end! I hope my story will be useful to many. All the best to you, it was a pleasure to be with you! Perhaps we will continue talking with you on other topics. See you again in all other broadcasts!which they give. And if you accept, understand and realize this, then the world will change. People will know the laws that were carefully hidden from us, and only for this reason will they gradually, but at the same time quickly enough, begin to change. They will understand the whole story. The world will change. Collective vibrations will begin to rise, and this will lead to a state in which I will enjoy living for purely selfish reasons. I hope each of you will have a pleasant life. #188 Retreat in Abkhazia. News about the meeting of the Interstellar Union

https://blog.cassiopeia.center/retrit-v-abhazii-novosti-o-zasedanii-ms
https://www.youtube.com/watch?v=Y0arkmYPZ9U

00:03 Greetings. Happy New Year.

Maxim: We're on the air.

Irina: Hello everyone! Welcome!

Maxim: Guys, hello everyone! Today we will have a very short broadcast, we have just arrived in Abkhazia and have just settled in, we have not even taken up production issues regarding the retreat. Tell me, how can you hear us? And can you hear us at all?

We have some problems with the airwaves.

Everything is fine. We are in Abkhazia. We would like to say that we crossed the border absolutely normally, there were no problems, but we promised to go on air at 20:00, so we go on this air on our knees. It was warm here today: +16, +17 degrees, so the weather is making us happy so far.

Irina: Hello everyone from sunny Abkhazia!

Maxim: We have only 272 people on air, but we won't recruit many people for broadcast today. Happy New Year!

Irina: Yes, Happy New Year!

Maxim: We love you all from the bottom of our hearts, we hug you, we wish you all the very best in the New Year, the fulfillment of all your desires and, most importantly, an increase in the level of awareness and your perception!

Happy upcoming everyone! Hello Ukraine!

Irina: Happy New Year, on the New Year holidays we will issue congratulations from our interstellar friends.

Maxim: By the way, on New Year's Day the retreat will definitely be broadcast via phone, I specially took good internet for it. Therefore, throughout the New Year, we will show you all our beloved friends who came to our retreat.

Irina: For the first time in my life in Abkhazia, I traveled outside the Russian Federation not on a flying saucer.

Maxim: Hello to Nalchik! Well, let's not break tradition. MidgasCaus is located nearby. What's the most interesting news from the last week?

04:07 Intergalactic news - upcoming MC meeting.

Irina: MidgasCaus says: "I greet you, dear friends!" LiSioni is with us. LiShioni and MidgasKaus greet you all and say that they congratulate everyone on planet Earth on the upcoming New Year and wish that the coming New Year will bring you high vibrations, awareness in the light of Love and the solution of your internal tasks that you recognize as problems, so that you recognized them as tasks that need to be solved in order to rise in your awareness and complete the task of embodiment.

Maxim: Someone is looking at us with fear, afraid of us. There is no need to be afraid of us.

Irina: Galactic news. MidgasCaus says that the news is that the next meeting of the Interstellar Union is planned in the next four to five days; now representatives of different planets are gathering on Burkhad, who will not only sit on this council, but will also be spectators, i.e. Now the entire Galaxy is busy preparing for the meeting of the Interstellar Union. And at this council of the Interstellar Union they will consider precisely the issue of the admissibility of giving evidence, open access to the presence of representatives of the Interstellar Union on Earth. And they will also announce the voting results, which I have already conveyed to the representatives, my curators.

Maxim: And I will have more work there, if they now refuse to provide evidence, then I will need to write a letter there, and not to me alone, but to our entire group, with a proposal not to cancel physical contacts.

Irina: Yes, another news is that physical contacts, Kirchiton told me...

Maxim: (reading) "Max, too serious." Tired, honestly, there are so many production matters, so many things, we just got there. And due to the fact that they promised to go on this broadcast.

We are at the “Sun of Abkhazia”.

Irina: About Kirkhitona. Until the end of March - until the snow melts, physical contact is impossible, and after that they will decide at the council of the Interstellar Union: whether to leave me with physical contact. If they refuse to provide evidence, they will explain the reasons. The decision (this is no longer decided by my curators: neither Raom Tiyan, nor MidgasKaus, nor LiShioni) will be made by the entire council of the Interstellar Union. If they say “no”, in this case Maxim, Vladimir Goldstein, other administrators, as well as you, dear TV viewers, will have to write a short letter of appeal to the Interstellar Union, in which it will be necessary to outline the reasons why I will need to continue physical contacts without evidence.

08:04 Reasons for the lack of physical contact in winter.

Maxim: I will have to do this with Goldstein. Why don't they arrive in winter? Because they probably consider traces and their disappearance to be evidence that a person walked somewhere, walked and disappeared.

Irina: Yes, and there may be traces from the plate, although it does not sit down, but because it quickly passes through the atmosphere, the outer skin heats up, and melting snow may remain in the form of concentric circles, which cannot be attributed to earthly reasons.

08:35 Training in Astral travel, first enrollment for training in Voronezh, cosmoenergetics, cosmohealing.

Maxim: (reads the questions) Yes, we will learn to go to the Astral. By the way, at this retreat Irina will tell you how to go to the Astral, the participants of the retreat during the classes will make small astral, mental trips with Irina. In addition to Irina, we have three more gorgeous masters here, including a cosmoenerget from the completely closed Bagirovskaya school, a senenerget, a deirovits from the closed Petrovskaya school - this is the Gikhor school, plus our dear Ilya, who is a Cassiopeia specialist, a certified psychologist who drives on the Higher Self and works with people as a psychologist, he will teach at the school that will open here. We are arriving after the New Year, and there will be recruitment from the 10th to the 15th. You will learn everything about the recruitment from the VKontakte group, on the YouTube channel we will definitely say that the recruitment has begun, and training will begin on the first of February. We will recruit groups of twelve people, i.e. 12 people will come to us in Voronezh for 7 days and undergo the first stage of training under the conditions that we spoke about. Accommodation in our hostel on a donation basis is payment according to your heart, plus training from masters is also payment according to your heart. I think that there was no such project in Russia; there are similar projects only in the Ashram in India. I think that we will launch this project with all our love, and we will be supported in other cities, we will be happy to help open similar projects in other cities. Therefore, our task is to open schools throughout Russia and further - all over the world. As God wills, we will do so. We now have wonderful new projects open, for example, the Cosmohealing project, where there is a wonderful Guzel, she is a healer and conductor of the Intergalactic Medical Service, she conducts healing sessions online on the terms of payment according to her heart. Plus, we are opening new online meditation projects, where a very good master will also teach you, and we are opening, and this has never happened before in Russia, - a master of cosmoenergy will teach you online, dedicate you, conduct healing sessions, also on payment terms heart. But with initiation we have a separate story - you must meet and adhere to the conditions of the Cassiopeia school and the conditions of the Gihor school in order to be initiated and continue to work with

people. But we will talk about this later, when all these projects are open, but the Cosmohealing project is already working. Every Sunday Guzel invites specialists from the Intergalactic Medical Service, and these specialists begin to work with you. If you are sensitive, you can even get to know them. We have a large number of very interesting reviews on this project, and, in principle, in these sessions work is already underway at higher vibrational levels.

12:09 Jesus Christ on Shimora. About LiSioni's future meeting with Jesus Christ.

Irina: Now I'll tell you about Jesus. LiScioni says that Jesus flew to Shimor, he has not yet left this planet. On Shimora he is in a special temple, which was built for people and beings with high vibrations, and he will stay there for maybe about ten more earthly days. He personally talks with the government of Shimora, accepts everyone who wants to have personal conversations, who can go to him through their vibrations. Then LiScioni plans to visit him when there is an opportunity for this. He says: "I can tell you about it later if you're interested. First I will attend the meeting of the Interstellar Union, and then I will go to my planet, where my physical body is located, I will enter it and visit Jesus Christ. This will be very interesting to me, I have never physically seen Him."

Maxim: This is LiShioni, right?

Irina: Yes **.**

Maxim: Be sure to tell me.

Irina: He's still on Shimora now.

Maxim: Give him a big hello.

Irina: He says: "I will definitely tell you about my contactee, about my contactees, about all of you and ask him the questions that interest me. Yes, you don't need to tell him anything, he'll see for himself. When you come into contact with him, the first 10-12 seconds are scanning, i.e. He looks at you and understands everything from the energy fields, not only about this life, but about all incarnations."

Maxim: Understandable, but there is a completely different level of awareness, perception of space and vision of space in general. There are time lines, and an understanding of how this happens in incarnation, and why it is needed.

Irina: LiSioni will now question you.

Maxim: So next time we will shake with LiSioni a meeting with Jesus.

14:41 Reasons for holding a retreat in Abkhazia.

Maxim: Why are we in Abkhazia? Because our mentors brought us here. You know, we didn't regret coming here at all, because from December 28, public gatherings, events and everything else are prohibited on the territory of the Russian Federation, but in Abkhazia this can be done. The people here are very friendly, the temperature is very comfortable - it's warm autumn here. Plus, accommodation and food are quite inexpensive here, i.e. comfortable so that you can come and have a good New Year. We are led by our mentors, and I give myself to them with complete trust and love to guide us further. I have never seen anything go wrong when I trust them completely.

15:38 Plans of Jesus Christ to visit the planets of the Interstellar Union.

Irina: LiShioni says: " On Shimora there are those who met with Jesus, these are about two hundred people, mainly from our government, I talked with some of them, they say that his further plans are to fly to Ticht, and then to plans to visit Tashig, Esler and several dozen worlds from the Interstellar Union."

16:10 How can I contact Irina?

Irina: (reading) How can you contact me?

Maxim: Through the administrator Anastasia, you can go to the VKontakte group, find the administrators' phone number, they will tell you when Irina will be able to receive you. Let's say they can personally communicate with Irina here: she will teach classes not alone, but with representatives of the Interstellar Union. I think people will be very interested in communicating with both experienced representatives of the Interstellar Union and the earthly Irina. (Reads) "I don't believe it." But we don't force you to believe. Here's the thing: we in no way force you to believe, we don't call you, everything is only according to your faith. If you don't believe it, don't watch it; if you don't want it, don't participate. This is all from the heart, believe it. Your heart will not deceive you.

17:08 LiShioni answers the question - "Whose Crimea?" Charitable Foundation "Cassiopeia".

Irina: There are two questions here: ask LiShioni: "Whose Crimea?", and, LiShioni, what will you ask Jesus about?

Maxim: What do you mean – whose Crimea? Just no political statements.

Irina: Yes, LiSioni has now read both questions through me. He realized that he should ask Jesus, whose Crimea? It's just two different people asking. So, "whose Crimea" is it, LiShioni? He says: "The entire Earth and the entire solar system, all the edges of the Earth belong to the Creator, and we are here temporarily. For example, I live on Shimora and do not consider a single piece of Shimora land to be mine, because I will leave from there. So are earthlings: no

matter where you live, no matter what country, the political map of the world is changing very quickly. And it is not important what national flag you were born under, but what is in your heart in relation to your neighbor, to citizens of other countries, to other religious denominations and egregors. It is important. When you enter the Spiritual world, our Lord, who created you, your bodies and gave birth to you, He will not ask you: “Whose is Crimea, Georgia or Nagorno-Karabakh?” He will ask you: “Have you ever had love?”

Maxim: Yes, you won’t take anything away from here except your feelings and emotions. Let’s say my task in this incarnation, as I see it, is to leave this incarnation, look back at this planet and think: have we really done this? I won't take anything with me. You financially help our project, and with these funds I open children’s and adult centers to increase the level of awareness and perception - I will ultimately transfer all this to the organization that I will create. Regarding the creation of an organization: we select the type that the organization should have: it will not be some kind of commercial partnership, but a union or association. In the near future, after the New Year, I will be forming a charitable foundation “Cassiopeia” so that from this fund it will be possible to further develop, build centers and help in the construction of all people who wish to further continue this movement throughout the Russian Federation, and not only on the territory of the Russian Federation. We have no other goals other than increasing the level of awareness of the perception of each person, our group does not have the goal of contradicting our state system, on the contrary, we support it, because the state in which we live is worthy of the people who live in it. We have the religion we deserve, i.e. our Christian religious egregor, to which I belong, I am Orthodox by baptism, but I am multi-religious in my inner conviction, therefore I support both the Christian religious egregor and other religious egregors and do not see any contradictions in them. We had an introductory lecture called: “Tell about yourself and about us.”

20:38 What determines the growth of currencies? About the financial egregor.

Irina: Will Bitcoin grow? The future has many options. Whether any currency will grow depends on the stability of the image of this currency in the general financial egregor. MidgasKaus says: “How are financial egregors controlled on planets like yours? Basically, they are controlled by thought forms about a particular currency, i.e. The more energy people invest in this image, the more it will manifest itself on the physical level. This usually happens in all egregors that are responsible for material acquisitions. Whether any currency will grow, no matter what it is expressed in - electronic or physical money, depends on solving the common problems of those people who own this currency.”

Maxim: It gave me something back.

Irina: From whom?

Maxim: I'll take a look now. (Reading) Crimea. Don’t miss the moment to throw negativity at Ukraine. Guys, you have confused something, I treat any country with all my love: both Russia and Ukraine, somewhere you probably misunderstood me.

Irina: We love and respect all countries, all peoples, all religions.

22:42 The location of the next retreat is Bulgaria.

Maxim: We will have our next retreat at the beginning of summer in Bulgaria, I won't give you more information yet.

Irina: This is amazing for me, I also learn a lot from these live broadcasts.

Maxim: Why should I tell Irina everything? Every day is like new for her, so I want to please her more and more. So our next retreat is in Bulgaria.

Irina: (reading) Kazakhstan.

Maxim: We are not going to Kazakhstan yet due to restrictions.

Irina: There are coronavirus restrictions. They won't let us in.

23:26 Who are you: a contactee or a schizo?

Maxim: How do you know if you are a contactee or a schizo? Guys, for our medicine you are a schizo, in any case, no matter what kind of contactee you are.

Irina: We have a video on our channel called: "Contact or schizophrenia?", It's just about this. Our medicine in many cases calls contacting a disease. In many cases, this depends on how useful this contact is for a person, how much it is controlled by his consciousness. They may not pay attention to this, but a little earlier - in Soviet times, regardless of the conditions, there were problems with medical organizations not only for contactees, but also for esotericists, even for believers who were in traditional faiths, because our medicine materialistically inclined.

24:33 The percentage of incarnation of Spirits into physical bodies on different planets. Consequences of the Quantum transition for earthlings.

Maxim: That's a good question, it interested me. On Earth, the Spirit incarnates into physical bodies by 30%, and does this also happen on other planets?

Irina: No, it's different.

Maxim: This is news for me.

Irina: For example, in the body of a Selbet person he is embodied by about 15-17%.

Maxim: And in connection with what is this connected?

Irina: This is due to the peculiarity of the body. MidgasKaus says: "If you were given more Selbeth genes, it would make it possible for a smaller percentage of your Spirit to be incarnated into a body."

Maxim: And in the Burkhadians, Tumesoutians?

Irina: About 70% of Uburkhadtsev incarnate.

Maxim: The whole Spirit?

Irina: Yes.

Maxim : So they are so highly vibrational?

Irina: Utumesouttsev – approximately 65%. It's almost the same, the difference is 5-7%.

Maxim: That is, the higher the level of awareness of a civilization, the greater the Spirit? Or is it connected to something else?

Irina: This is connected with the vibrations of the body itself and with the vibrations of the society in which it lives, i.e. general noosphere. For example, you have a quantum transition, one of its consequences, if you go through it correctly, your body will change its vibrations, and it will be possible to embody a larger percentage of the Spirit by about 3-5%.

Maxim: Guys, if possible, please write short questions, because the tape is running.

Irina: Impossible to read.

Maxim: I can’t control the tape. So at least I’m sitting next to Irina with a mouse, it’s not here - there’s a computer here, without a mouse we can’t control the tape, it’s very inconvenient. So let's have a couple more questions and we'll end our broadcast now.

Irina: Yes, among the Sho-Khariks the embodiment is 10-12%, and among some insectoid races in general it is 7%. They have a group mind.

Maxim: So, regarding the spiritual level. You can find out your level at the time of coming into this incarnation through Cassiopeia_level: we have a separate Instagram channel on

Instagram where you can find out your spiritual level at the time of incarnation. Where does gray hair come from? Well, at least they didn't ask where children come from.

27:13 Causes of gray hair.

Irina: On an energetic, spiritual or physical level?

Maxim: At least on a spiritual level. Physically, it's clear.

Irina: Yes, physically - a surge of certain hormones.

Maxim: And on a spiritual level. Why does hair turn gray?

Irina: On a spiritual level, this is due to a change in the work of the sixth and seventh chakras; they can begin to work in different vibrations. Usually this happens from the activation of such energy, which happens when the Spirit from the body, from the physical brain, pumps information into its spiritual essence, into the Higher Self. And when a lot of this information has already been pumped, at the spiritual level there is a change in the vibrations of the entire physical body, hair changes color. Speaking very figuratively, the white hair color that is acquired in this case is a reflection on the physical level of the spiritual Light that a person has perceived throughout his entire human life. Of course, it happens at an earlier age, but if you look at it on a spiritual level, it depends on the fact that he has already transferred a lot of information there. This could be due to stressful situations: he was experiencing some situations as if a lot of time had passed.

Maxim: So it's not from fear that hair turns gray?

Irina: Perhaps, in seconds of fear, some days passed for him, time seemed to stretch out for him.

Maxim: What about Ball Lightning? What's the question? I understand what you wrote briefly. I would like to answer it, ball lightning. Ball lightning is...

Irina: (reading) Senior egregor.

29:12 Justice, righteousness, truth.

Maxim: A person constantly asks what is justice? MidgasKaus, you are a philosopher, a psychologist, what is justice, how would you say?

Irina: Justice?

Maxim: Yes, what is justice?

Irina: He says: “Justice is the concept of moral standards, what is good, what is bad, and what the consequences, what punishment entails for failure to comply with them, these are laws about the moral standards of society. The word “justice” itself comes from the word “truth.” What is truth? Truth is a view of the world that is true for every person. There are many types of truth, but each person has his own truth, depending on his idea of moral standards. But in contrast to this truth, there is one truth, and each truth serves only as a partial reflection or, one might say, a refraction of this truth in every person, in every rational Spirit, if you look more broadly. What is truth? This is the energy that gave life, love and light to everyone, and life, love, light, truth are synonyms, names of the same energy of Divine Light, to which we all strive. But truth is in the understanding of the mind, love is in the understanding of the spiritual heart, life is in the energy of the body.”

Maxim: It is necessary to explain what the body, energy, Spirit and everything else consists of. Just at the retreat, Irina will explain in more detail.

We are sitting in a cafe, those who have come to the retreat quietly listen to us, give us the opportunity to talk with you, no one makes noise, no one dances - the New Year has not yet begun.

31:40 Ship of Jesus. Is the Pope a reptilian?

Maxim: There was a question: does Jesus Christ have his own separate ship on which he flies, or does someone accompany him?

Irina: He has his own separate ship, which the Habe government allocated to him, he is not there alone, but with his closest students. By the way, Mirakh Count is with him, but he not only travels with him, he comes to contactees in the form of his phantoms.

Maxim: The Pope is a reptilian... Maybe he was once a reptilian, and you could once be a reptilian, so, guys, we must remove this xenophobia, Russophobia from our planet, we could have been before this embodied in absolutely any body, and here the person himself chooses the path along which he grows and develops. As we were told recently, growth and development can be both up and down, you can choose your own path of development, you can blame everything on the reptilians instead of taking responsibility for yourself. In general, this is your path of development, so you each have to decide and think with your heart: who is a reptilian and who is not a reptilian. Come on, Irina, one last question, and we’ll probably end the conference. Why? Because we have it for half an hour.

Irina: How does LiSioni feel about drinking Coca-Cola?

33:00 Seraphim Sarovsky – contactee? The last incarnation of Archangel Michael.

Maxim: Good question: Was Seraphim Sarovsky a contactee? Not only was he a contactee, Seraphim of Sarov is the last incarnation of Archangel Michael on our planet, but not the full essence of Archangel Michael, but 30 percent of his Spirit. Therefore, Seraphim of Sarov is both a contactee and a very highly spiritual person, embodied in a physical body.

Irina: LiSioni treats Coca-Cola normally, as well as any type of food, that is, it is the person himself who chooses whether to consume it or not.

Maxim: Guys, there are 2339 of us, please like so that at least more people can see us, because your like allows the YouTube channel to promote us. And you don't need to tell anyone about us, you can just like us so that your subscribers, your friends, comrades can see us and subscribe to our channel. Why? Because sometimes we will spontaneously organize live broadcasts. We have three wonderful excursions: Athos, Athos caves, Lake Ritsa. I will sometimes turn on the phone to show you where we are and what we are doing. Thank you for the likes, you can see it right away.

34:34 Jesus Christ has a sense of humor.

Maxim: Does Jesus have a sense of humor? I think that everyone has a sense of humor, and Jesus probably also has a unique one.

Irina: Yes, if you look at his parables...

Maxim: I once joked that we have been studying for 2,000 years. Yes?

Irina: If you look at his parables, he had a sense of humor. He communicated with people with a truly unique sense of humor.

35:07 What determines the number of energy centers? Chakras. Floors of the astral plane.

Maxim: Why are there nine floors of the Astral on Burkhad? On Daraal, Kirchiton has level 24.

Irina: It depends on the number of manifested energy centers.

Maxim: And accordingly, probably, from the star system in which they are located.

Irina: Depends on the system, on the noosphere itself, they are the same Spirit, which is embodied in a larger percentage, it manifests itself through the physical body in a larger number of energy centers. And each level of the astral corresponds to the vibrations of one of the chakras.

35:57 LiShioni is the curator of Irina, Maxim and the Cassiopeia project. Hiking to the Astral with LiShioni and MidgasKaus.

Maxim: To answer the question: LiShioni has no wings. He very often goes to the Astral and is nearby. LiShioni is my personal curator, he is the curator of our project and Irina. They often go to the Astral, to the Spiritual world.

Irina: Yes, we went yesterday.

Maxim: They are looking at something in the Spiritual World, we can say that LiShioni is Irina's sleeper.

Irina: MidgasCaus takes me to the Astral, but LiShioni takes me there somehow differently. They drive differently. MidgasKaus is a little more aloof, but LiSioni is more delicate, one might say.

36:40 Artificial intelligence.

Maxim: (reading **)** We are a simulation in artificial intelligence. Guys, I'll tell you this: we are a simulation in the mind of God, so if you want to think that you are a simulation in artificial intelligence, and that you are nothing, and everything else is your consciousness, which you do not control, well, then don't develop. Why develop when there is artificial intelligence, lie at home, and let them feed you, water you, and quietly think about when you will come out of this artificial intelligence, and what will happen there.

37:09 Ashtar Sheran. Disciples of Jesus Christ.

Irina: Who is Ashtar Sheran, and does the Higher Self incarnate in different bodies, please watch our videos. We provided answers to these questions. There is a separate video about Ashtar Sheran. About who he is. It's called "Ashtar Sheran and the Reptilians". I had contact with him, he answers in the video who he is and where he is.

Disciples of Jesus Christ. He answered these questions in detail: who are the disciples of Jesus Christ, and why did he teach them and is teaching them.

37:43 About violations of the rules of the Cassiopeia project. Seraphim and the spiritual ego.

Maxim: Shall we talk about Seraphim?

Irina: Of course, we have news **.**

Maxim: Guys, we have news. I don't know how good or bad she is, we have one specialist who could not cope with his spiritual ego, this is Seraphim. She started calling people and demanding that they pay for donations, so we removed Seraphim, our healer, from the project due to the fact that I, as the head of the Cassiopeia project, cannot allow violations of its rules regarding payment according to the heart and everything else. Why? Because in the video, at first she agreed to work according to her heart, and then... This happens with healers and contactees, when for some reason their spiritual ego tells them completely different things. This does not make her worse as a healer, she just no longer complies with the rules of the project. You can contact her, but I don't know what a person with such a big spiritual ego, who calls people and demands from them to pay for donations, can give you. Therefore, this will be a small instruction to those who want to come to our school to study, that payment according to your heart is not what you decide, your heart, but what a person himself can offer you for that help, for that spiritual knowledge, which he carries. Therefore, everyone who contacted Seraphima, if you have any complaints, any points, you can write to me, I will answer you with pleasure. Please write to the VKontakte group. Maybe this is not an isolated case of Seraphim, and therefore we will be happy to answer you and figure it out. This has happened several times already. Yes, you will now say that we first took her into the project, said that she was a healer, and now we have taken her out. The spiritual ego sometimes works miracles with people. I don't know what happens sometimes, but this is not the first time when a person comes or comes to a project, and then something changes in him, and for some reason the financial side begins to defeat him, and the person begins to change, ceases to comply with the rules project and many other things. So, guys, whether you choose Seraphim or not is up to you to decide, but with such a spiritual ego, she no longer works in the project.

40:37 Eternal life of people. Brief information about Ashtar Sheran.

Irina: The eternal life of people in physical bodies is impossible. But man himself is the incarnate Spirit, who, of course, has eternal life. Who is Ashtar Sheran? Okay, I'll tell you briefly. This is an alien, he is now on a spaceship, several tens of kilometers in diameter, in my opinion, about 60 kilometers, like a small spherical planet, which is several tens of astronomical units from the Sun. He is there along with the Pleiadians from the Galactic Federation of Light and with representatives of his race, which previously lived on a planet orbiting the star Sirius B. This planet died - 12 thousand years ago it was destroyed by Selbet, and Ashtar Sheran took a direct part in this war and defended our planet. All the details of this are in our video "Ashtar Sheran and the Reptilians".

42:00 How to quickly recover from coronavirus?

Maxim: How to quickly recover from coronavirus? Raise your immunity, do morning exercises, do hardening, water treatments, eat right, set your thoughts correctly. If you are a believer, pray, if you are an unbeliever, figure out what you will believe in, but only constructive positivity, go to a psychologist, it also helps. Why? Because all illnesses come from a spiritual component, that is, from those thoughts, from the way we behave.

(Reads.) So, the most ancient civilization. I want to finish, but it's impossible. Yes?

42:45 How does Irina feel during astral contact?

Maxim: How does Irina feel during astral contact? Irina, how do you feel?

Irina: I feel the presence of our interstellar friends, their energy. I also feel the energy of the people who are here, Maxim. I can, for example, simultaneously be in a physical body, but at the same time see the Astral world, I can see the glow of the aura around people, see those entities that are nearby, my curators, I call this the flow state, that is, I do not analyze, but I say what suits me through astral contact. The stream of mental images that my curators give me gives me the feeling that they are putting it into my consciousness. I broadcast it without processing it with my consciousness at all so that this contact is pure. The only thing is that I transform mental images into words, but I do it right away, that is, I don't select words, but say it as it goes. And if there is a high vibrational entity here, the energy of which I am not yet accustomed to, because... I rarely meet him, I have the feeling that he fills me with Light and dissolves me. There is a feeling that objects in space that are around me emanate from me in the form of waves from my Light and turn into real objects. And in the same way, I feel the Light of every person who is nearby, and that we are one. Sometimes I practically stop feeling my physical body, but this does not stop me from talking to you, because I am used to doing it automatically, one might say.

44:39 Positive and negative. Internal transformation of a person.

Maxim: Max pays attention to the positive. In general, I always pay attention to it, I want to tell you that from any negative you can always find a constructive positive, so at the retreat many will also learn to do this. Why? Because this is called energetic, internal transformation. When a person sees negativity, it means that this negativity is in him. And if he learns to rebuild the negative into a constructive positive, he will begin to change internally, grow, develop and accept everything that is around him.

45:20 Is it possible to donate blood? Donors.

Maxim: Last question: is it possible to donate blood, MidgasCaus?

Irina: Yes, of course, if this is your free decision, and you have no medical contraindications to this: infections, heart disease, brain disease, nervous system, circulatory system, infectious diseases, diseases of the hematopoietic system, which can harm you if you lose blood, then it is not harmful to humans. On the contrary, donating a certain amount of blood, that is, losing a certain amount of blood, causes the bone marrow to work more actively, produce new cells, and this accelerates mitosis, mitotic processes in almost all organs, which accelerates the regeneration of all organs. We can say that the entire cellular mass of the blood, all erythrocytes, leukocytes, etc. is being rejuvenated. Younger forms enter the bloodstream, and this allows the entire body to regenerate, on the contrary. As for the spiritual benefits, you don't just donate blood, but to help those who need it as medicine in a life-threatening situation. That is, your blood can save someone's life, keep him in this incarnation and allow him to learn these lessons. The only thing I would advise in this situation, when doctors take blood from you, relax, imagine images of a number of people: children, women, men and mentally send them the Light of love and say: "I wish that my blood, every drop of my the blood that falls to another person would bring him that Light of love that is now in me."

Maxim: That is, so that every drop of my blood brings him the Light of love.

Irina: Yes, it will be charged with your Light.

47:43 Talismans and amulets.

Maxim: Talismans and amulets - yes, all this is effective, either you charge them, or a person who knows how to do this charges them with his mental thought images, actions of a different magical nature. But the best talisman and amulet is your consciousness, because your consciousness can be adjusted in the morning, you can build all the amulets of various levels, set yourself up for the whole day, and depending on what plans you have, what business you have, even adjust your affairs and plans. Basically, amulets are just crutches to your thoughts.

48:32 About food at McDonald's. Foreign substances for the human body.

Irina: Is it harmful to eat at McDonald's? I've never been there before.

Maxim: I'll take you to McDonald's, eat there and be sure to tell the audience whether eating there is harmful. Guys, whether it is harmful or beneficial - it all depends on the quantity. In general, it is harmful to eat a lot - it is called gluttony. And what we eat, our body, as MidgasKaus said, can process a huge amount of products, breaking them down into molecules. Mid, am I speaking correctly?

Irina: Well, yes, it all depends on health in general, and especially the liver, because if this food contains a lot of dyes and artificial flavors that are uncharacteristic of natural food, I call them foreign substances for you, then in order for the liver To produce an enzyme for its breakdown and excretion, you need to spend a certain energy and those substances that are obtained as a result of this reaction in hepatocytes after the splitting reaction can be more toxic than the substance itself, which is very clearly seen in the example of the same ethyl alcohol. After reacting with alcohol dehydrogenase, which produces acetic acid, which, in turn, requires other enzymes to break down. Thanks a lot!

50:25 About chemtrails and contrails in the sky.

Maxim: Irin, stop being smart. Mid, can you put it more simply? I didn't understand anything you said. So, guys, about the chemtrail. If you want, unsubscribe from us, if you want, throw rags at us, do what you want. Our interstellar friends say that this is just a scam of illiterate people, a distraction from the problem of environmental pollution and processing plants, various chemical production enterprises, and much more. Now no one says that we have a large number of factories that emit huge amounts of toxic chemicals into the atmosphere, that chemical plants around the world dump processed chemical substances into rivers and lakes, now everyone says that these are chemtrails, and I wouldn't be surprised if Then you will say on the Internet that reptilians spread chemtrails. There are wonderful video revelations on the Internet of those videos where they show an airplane, there are passenger seats in it, barrels in the back, supposedly these are chemtrails. Guys, these are test aircraft. They pour water into it, then dump it and look at the load of the aircraft in its reverse, in lateral loads and much more.

Irina: Now Mead and LiSioni say that people need to explain why the plane remains after the flight. Why does it not dissipate for a long time? This needs to be explained.

Maxim: Because the temperature difference. They recently sent me a video: look, a UFO is cleaning up the chemtrail. Guys, this is a contrail, and from the flying saucer that is nearby, due to the fact that its engines have a different temperature and everything else, the steam simply evaporates.

Irina: We need to explain what a “contrail” is, we understand, but they don’t. The breakdown products of any fuel contain water vapor. And water vapor, when it leaves the engine through a certain hole, is heated to a high temperature - there is an oxidation reaction with oxygen, i.e. combustion. And since airplanes in the last few years have begun to fly much higher than the troposphere - in the stratosphere, where the temperature is about minus fifty, then, when exposed to such frost, this steam condenses into fog. And it is approximately like a cloud, only it falls very quickly, unlike clouds that slowly raise air currents, and water vapor slowly condenses into tiny droplets of water. This is, firstly, above the clouds, and secondly, this water vapor from the fuel enters very quickly, and there is not just a suspension of water in liquid form, like a microemulsion, microscopic ice crystals also form there. And all this hangs in the stratosphere after the plane. After the plane flies, a stream of steam comes from its engine, which condenses, the steam hangs and, under the influence of outgoing and ascending currents, gravity, wind, begins to gradually descend into the lower layers, which are more heated from the earth, from the sun. When it reaches the lower atmosphere, it dissipates because the temperature allows it to turn into invisible vapor. You just remember in the morning when you go out and see that there is fog over the meadow, for example. This is because water evaporates and turns into microcrystals or emulsions in the cold air.

Maxim: Guys, you say that chemtrails are facts. Let's do this: when you personally take measurements, then you will say that this is a fact. In the meantime, this is a fake well presented to you by low-vibration civilizations so that you feel fear, anger, resentment, hatred, rage and cannot do anything.

Irina: MidgasKaus and LiShioni say that those people who did this clearly understand that your fears for your health, your anger, directed at the rulers and even at the drivers of these planes, harm your body, firstly, through the creation of hypochondriacal and depressive states and, secondly, it has a destructive effect on the very structure of the physical body, that is, it destroys you with your fears and irritation, they will then say that you have poisoning from chemtrails. They clearly understand the reasons.

Maxim: We cannot call David Icke a liar, because he is in contact with subtle-material low-vibration civilizations, they transmit this information to him, give these images, and he perceives this as one hundred percent reality, as some of you tell me here, that chemtrails are a fact , although you will never be able to check it yourself.

56:30 Abkhazia is a place of power. Hotel "Sun of Abkhazia". About smoking and drinking alcohol.

Maxim: Abkhazia is a place of power, and now we are in the very center of it - this is the Sun of Abkhazia hotel. There are excellent numbers here, I personally say respect to the owner, he is sitting right here behind the monitor, I can even show him. Give my regards to. His name is Sergei. The people who are with us at the retreat sit, watch, and say hello to everyone online. Here is Larisa, our cosmoenergeticist, and there is another Larisa sitting there. We are in the very center of the place of power, tomorrow morning we have our first jog, our first swim in the

sea. It is warm - ten degrees. People from Siberia came here and said that for them it was generally an amazing temperature: there it was 40, here it was +10, already 50 degrees higher, even higher than it happens anywhere else. Therefore, come to Abkhazia, to the wonderful hotel “Sun of Abkhazia” with a warm summer pool. You don’t need to drink, you don’t need anything, you just need to grow and develop. We love you!

Irina: We love you all. Happy New Year! Don’t be afraid of anything, no one is poisoning us, we are embodied here for a reason, but in order to live a certain period of life, to learn our lessons, the life of each of us is in the hands of God.

Maxim: Guys, I’ll tell you: a cigarette contains 400 chemical elements and more carcinogens. You don't need chemtrails when you smoke a cigarette.

Irina: You are already your own chemtrails.

Maxim: You are definitely already in the chemtrail. And alcohol in large quantities also releases formaldehyde, changes your DNA, your structure, so there is no need to poison you. You just need to drink, smoke, live for your own pleasure and think that there are reptilians all around.

Irina: At the same time, for the poison that you inhale with cigarette smoke, you yourself pay with the money that you earned through labor, with the money that the Creator sent you.

Maxim: I’ll tell you more: I once poisoned myself, so I clearly understand what I’m talking about. And he poisoned the first, and the second poisoned, and, thank God, the aliens were caught. Guys, we love everyone, we hug everyone. See you again!

Irina: See you again!

Broadcast December 27, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interactions with the material world;

MidgasKaus is a representative of the planet Esler, a biologist, psychologist and specialist in alien life forms.

#189 Causes of excess weight. Scientific conference with a nutritionist on healthy eating. Psychosomatics, causes of excess weight.

https://blog.cassiopeia.center/prichiny-lishnego-vesa-nauchnaya-konferenciya
https://www.youtube.com/watch?v=_hi1P2hQjV0

00:22 Greetings, introduction of meeting participants.

Irina: Hello, dear friends! My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations, my curator is present with me - a representative of the planet Esler MidgasCaus, a biologist, psychologist and specialist in alien life forms. Today Tatyana, who is a nutritionist, asks him questions. Hello Tatiana!

Tatyana: Good evening! I am a nutritionist and have been practicing nutrition for over ten years. It would be very interesting to communicate, understand, and understand some issues regarding nutrition and especially the causes and mechanisms of excess weight, so I will be sincerely grateful and happy for communication and interaction.

Irina: MidgasCaus sends greetings to you, Tatyana, and to you, dear viewers of our channel! We are ready to answer questions on these issues.

01:47 Reasons for the formation of excess fatty tissue in the human body. Psychosomatics is one of the causes of excess weight.

Tatyana: Regarding the excess amount of adipose tissue, i.e. the malfunction that occurs in the body, the accumulation of adipose tissue begins - these are multifactorial causes, or there is still some single root cause that underlies, and it is followed by a chain, for example, genetics, eating habits, disorder metabolism, hormonal disorders, i.e. how to isolate the root cause so that it is possible to influence it and work with excess adipose tissue? And is it important to isolate the cause, or do we already have an excess amount of adipose tissue and therefore work with a mechanism, as it were, without identifying the root cause.

Irina: MidgasCaus speaks. What you call excess adipose tissue, the human body itself, in which it is present, as a biological object does not consider this tissue superfluous for itself, since it considers it a reserve for those times when it needs energy, as well as those substances that dissolved in ordinary fats. The substances that make up adipose tissue are quite diverse, and various microelements are dissolved in them (you call them vitamins), i.e. they are included in fat cells in varying quantities. All this is called “depot”. The reason for excess weight in certain quantities is multifactorial reasons. I want to say that very often, in more than 60% of the cases that were studied by me and other specialists of the Interstellar Union, excess weight gain was genetically determined. But genetics only creates the preconditions for rapid weight gain; in any case, this can be corrected through lifestyle. Very often there is a spiritual reason for gaining excess weight, i.e. what you call psychosomatics. These are various fears, a reluctance to let go of something from your life in a psychological sense. The fear of losing something not even material leads to the fact that the body is rebuilt in such a way as to accumulate material elements. Those. The spirit, any body, is only a part of the Spiritual essence, but it is more densely material. Every molecule, every atom of your body is included in it for a reason; it adapts to your energies, adapts to your energies. Your Higher Self and the embodied part of the Spirit are separated only conditionally. The embodied part is consciousness and perception, the disembodied part you call the Higher Self, because when you contact it you begin to feel higher vibrations, higher feelings than in everyday life. In fact, all this is your Higher Self. And those substances that come from the material world into your body, into your material part, if the Higher Self believes that they should not remain in your body in this quantity, in any case, from he will be taken out. Those. The spirit controls the body, but it can do this both consciously for a person and unconsciously, i.e. a person may not be aware of his fears, his worries, problems, but he can observe the consequences of these energy blocks on his physical body and not only in the form of excess weight gain, but also other health problems.

07:35 Identifying the spiritual causes of the appearance of excess fatty tissue.

Tatyana: Is it then possible to consider that when there is a large amount of excess fatty tissue, which already causes poor health, leads to diseases, and sometimes this is already a fatal or near-death state, by the choice of the soul and the Spirit in the sense that the Spirit does not want to be in the physical body, and this is one of the ways when such a realization occurs, i.e. the question is: where is the line, when you still need help, when it is already harmful to the body, and when it is necessary and when it is not necessary to intervene, when a person comes for help, when there are complaints, you need to help lose weight or still talk "No"?

Irina: In any case, if a person asks for help, naturally, you need to help him, but you need to understand how exactly you can really help. You can really help by identifying the true causes of this state of the body, i.e. As a biologist and psychologist, in these cases I advise the Spirit, who has such a body, to get in touch with its disembodied part, with its Higher Self and ask why the body took such forms. He can name, for example, a genetic reason or, as you said, the cause of a metabolic disorder. In any case, one needs to ask the spiritual reason for this state, i.e. what determines these special conditions for reactions in the body. What is metabolism? This is a chain of anabolic and catabolic reactions, i.e. reactions of biosynthesis and breakdown of substances. And I want to emphasize that what a person calls overweight, his instinctive part, which controls metabolism, does not consider these substances unnecessary. She, on the contrary, considers them valuable, that they can be useful in the future. I know several main reasons for this condition. It happens that in the past such a person, in early childhood or adolescence, had a lack of food, or he was limited in food or some substances, or he was very sick, for example, he had a reduced immune system. And when a person finds himself in conditions in which there is enough food, his body turns on the instinct of self-preservation, he feels an increased feeling of hunger and at the same time a reluctance to move sufficiently. All this in order to accumulate useful substances in case a

similar situation happens again. I want to say that this is not a reaction of the mind, but of the instinctive part of your soul. And this can also happen. Also, such a condition can be caused by taking various medications, drugs that change the biochemistry of the brain, liver, adrenal glands, and disrupt the original hormonal settings. In this case, for example, a large amount of prolactin or an insufficient amount of norepinephrine, etc. is released. In this case, food received in normal quantities and correct proportions goes through an incorrect chain of biochemical reactions and, instead of turning into substances, turns into fat cells. Here you need to look more subtly at the hormonal system, what happens with the hormones of the pituitary gland and especially with the hormones of the adrenal glands.

12:36 Hormonal imbalances are one of the reasons for weight gain. Causes of hormonal imbalance in the body.

Tatyana: That is, when we see that there are hormonal disorders that are one of the reasons for weight gain, the correction that we have in traditional medicine or replacement therapy, when there is decreased thyroid function or increased prolactin, is so far the only way, which will help correct the body's functioning so that fatty tissue is broken down. Are there other ways besides hormone replacement therapy that is possible either with a diet or with a certain ratio and set of foods that could regulate this? What determines the hormonal disruptions that occur at the level of the hypothalamus and pituitary gland, i.e. What is the key way of life: stress, some other factors, how can all this be taken into account and help a person?

Irina: He says that these are mainly spiritual reasons, since hormones are the main means of controlling the body through substances. But it is also possible to interfere with the hormonal level of some drugs, medications that break this system. This happens especially often when taking so-called lipid-lowering drugs, i.e. the ones you think lower some of your cholesterol. This also happens in the case of taking antipsychotics, antidepressants, some forms of narcotic drugs, i.e. those that also affect the brain. Some people, even doctors, believe that if a person takes pills and his behavior changes, there is nothing wrong with it. But in fact, this can break the tuning system precisely through hormones, the pituitary gland and the hypothalamus. These glands will react inadequately to even the simplest emotions emanating from the Spirit. In order to restore all this later, you need to look for the cause through the Higher Self and turn to your body, fill it with Light. There are such techniques, and if you are interested, I will, of course, provide them. But this must be done by the person himself, if he understands what the Higher Self is, what Light is, believes in it, and, naturally, there must be a guide next to him who believes in it, i.e. he will help him go through it correctly. And when the vibrations of the Spirit change, the body will adapt, and a person's eating habits will themselves change, for example. He may become uncomfortable with the food he has eaten so far; he may like something else that, on the contrary, will dissolve and remove these fatty deposits. It happens that taste buds change.

16:10 The influence of food quality and food additives on the level of hormones in the body. Percentage of animal and plant products in the daily diet.

Tatyana: Or maybe this: products and their quality, additives that are currently used, genetically modified products affect and change the metabolism and level of hormones in the body at the level of the pituitary gland, i.e. from the periphery to the center, from the opposite, i.e. not from the Higher Self and Spirit - the root cause and path to obesity?

Irina: It happens, yes, of course. If a person more or less adheres to a balanced diet, but still has problems with excess weight or other health problems that are not related to excess

weight. There are also quite a lot of such people. There is a problem when a person consumes something that is truly unbalanced. It is important to follow the rules here, but for Eslerites and for conscious earthlings the main rule is: eat what is pleasant, what you want to eat from what you have, but in general, again adhere to the scheme, where 70% of plant products. This includes: what you call grains, nuts, fruits and vegetables. And 30% animal products, but the words “animal products” cannot say that it is only meat. Animal products also include dairy products, eggs and fish. So, for a complete, varied diet, out of 30% of animal products, 15% should be dairy products, and the remaining 15%: 5% each for eggs, fish and meat. This means that the percentage of meat and meat products in the diet is no more than 5%, meaning poultry, animal meat, etc. – this is for those who adhere to an omnivorous diet. If you increase the percentage, and you eat a lot of meat, i.e. much more than the norm, the one that is provided for, then this can also cause health problems, but not because the meat itself is harmful in these quantities, it just contains proteins in a concentrated form and often quite a lot of fat, which provides energy, i.e. . what you call "calories". If instead of 5% a person eats 30% of meat, then the center in the brain that is responsible for the feeling of hunger will simply turn off. Simply put, he will eat this amount of meat and will not consume the amount of vegetables and fruits that he requires, he simply will not want to eat it.

Tatyana: It turns out 5% meat, 5% fish, 5% eggs. This is 15%. And another 15% of animal products are dairy. Yes?

Irina: Well, yes, a variety of dairy products are also healthy. There should be more fermented milk in the diet.

Tatyana: Could it be that all 30% is, for example, only fermented milk, without eggs, fish and meat?

Irina: I’m now talking about people who adhere to an omnivorous diet, of which you have the majority on the planet.

Tatyana: Yes, but what if they are vegetarians, lacto-vegetarians?

Irina: If you are a lacto-vegetarian, you need to watch your diet, you need to increase the amount of protein. If they are simply lacto-vegetarians, without eggs, for example, those who do not eat any eggs at all, then we add vegetable protein in the form of the same legumes, but not soybeans, it is better to use lentils.

Tatyana: But this is also 30% protein? In the sum of animal and plant?

Irina: Here we leave 30% milk proteins, but make them more diverse, i.e., for example, milk is not only from a cow, but from a goat, do you have sheep cheese, etc., so that there are a variety of substances, not from one animal. And in the proportion where 70% are plant proteins, increase their amount compared to those who get protein from meat.

Tatyana: When we eat a balanced diet, what should the approximate proportion of fat in these products be to maintain and lose weight?

Irina: 70 to 30 is the main idea that you should focus on. They don't take fats, carbohydrates, and proteins into account the way we do; they think: animals are plants. And if you follow the 70 to 30 ratio, then everything will be balanced precisely for maintaining weight. If a person switches to this diet, then with motor activity and in the absence of spiritual factors and sufficient fluid intake, adequate sleep, absence of anxiety, internal irritability, with the obligatory acceptance of his body as it is, weight will begin to decrease. If you don't love existing fat deposits and don't send love to them, a person will create another block, his appetite will increase even more, and, accordingly, his body weight will begin to grow. In any case, love and accept the body as it is, but gradually create a different image in your mind, what you call the ideal. What am I aiming for? I love myself as I am, and I strive for this ideal not because I don't love myself, but because it will bring me more happiness, more pleasure, i.e. strive for this image, and now I am in a state where I love myself, but I want more, perfection. It works. When I don't love myself this way, and if I remain overweight, no one will love me, this will not work for weight loss.

24:20 Allowable amount of carbohydrates in the diet.

Tatyana: Is it then correct that our theory regarding caloric content and the ratio of macronutrients is not so important?

Irina: He says that it is necessary to maintain a balance of 70 to 30. But there are also carbohydrates: sugar, honey, sweets, refined sugar, which you get from beets, cane - for an adult it is advisable no more than 30, well, maximum 40 grams per day. day, what you call glucose, and this is two tablespoons. And this includes all sweets, i.e. if you have eaten a couple of sweets, then you already drink tea without sugar - this is enough, because when a person eats a lot of sugar, firstly, this suppresses his appetite for healthy foods, he will no longer eat them in the quantities required by the body, and , accordingly, he will simply receive calories, energy, but will not receive those vitamins, proteins and carbohydrates that he needs for proper metabolism. By doing this, he will already disrupt his hormonal balance, immunity and everything else.

25:46 Insulin resistance is one of the reasons for excessive sugar consumption. The effect of elevated blood sugar on the human body.

Tatyana: Question regarding insulin resistance. This is a condition that appears as a consequence of eating habits and nutrition, or is it an initial disorder that also comes from the Higher Self, i.e. Is this metabolic disorder a consequence or a root cause?

Irina: Insulin resistance is when a person constantly not only eats sweets, but he can eat them, and then abstain for a long time, then again a lot of carbohydrates come in, and from this the pancreas begins to produce a lot of insulin in order to transfer glucose, which is produced from sugar, into cells and thus give them energy. This causes cell receptors to change and, as a result, they need more insulin. This condition is one of the reasons for eating sweets in excessive quantities. There is also a reason - spiritual, due to the fact that a person does not accept himself, he does not enjoy life not only from food, but from the fact that he lives, sees, hears, something upsets him, and from this he has a compensatory mechanism : the amount of glucose in the blood increases, and, conversely, the amount of insulin decreases, or the cells become unresponsive: since you do not enjoy life in the Spirit, the body compensates with excess sugar, because the body itself does not understand that increased

blood sugar begins to destroy organs.

Tatyana: Increased blood sugar primarily destroys the inner wall of blood vessels, or does this action not occur through the vessels, but through other mechanisms?

Irina: Sugar affects both the nervous system and blood cells; it becomes a nutrient medium for the microflora that lives in the body, i.e. for various types of helminths, fungi, protozoan microorganisms. They also need energy, and with an excess supply of sugar they grow and develop more actively, and secrete more enzymes to fight your white blood cells, i.e. they have more energy for it.

29:06 Healthy intestinal microflora – protecting the body from germs and viruses.

Tatyana: Does the microbiota in the intestines influence greater synthesis of adipose tissue and the fact that it is broken down worse in us or are these not interdependent factors?

Irina: In general, the microbiological balance in the intestines is important for the synthesis of various vitamins, for the functioning of the immune system and for protecting the body from harmful microbes that come from outside with food and water. Healthy intestinal microflora is itself an antiseptic; it destroys small amounts of hydrochloric acid that enter and pass through the barrier of hydrochloric acid in the stomach and the barrier of bile acids in the small intestine. Microbes, viruses, including rotaviruses, E. coli and other pathogenic microorganisms and viruses that have passed through the barriers of digestive enzymes are already weakened by their influence; they simply cannot multiply there in large quantities, i.e. a person may not only not get sick, but not even notice that they have hit him. In addition, healthy microflora is a natural competitor for food from these harmful microbes.

31:10 Eliminating spiritual reasons to normalize weight. Food preferences.

Tatyana : When a person cannot gain enough weight, and this applies not only to fatty tissue, but also to muscle tissue, in this case, how can one help? People come in and recommend a larger diet, but there is no positive dynamics, while the hormonal levels are absolutely normal. What, in this case, could be the reasons, what to watch, how to help? Perhaps there is some other balance in calculating nutrition or some other points need to be paid attention to?

Irina: With an increased protein diet, simply increasing the amount of protein in the diet; increasing vegetable and animal fats will not give anything; perhaps a person is subconsciously afraid to consume something, and this causes his body to reject the necessary substances. But in any case, if you are overweight or underweight, I advise you to talk to your Higher Self and ask the reason for this condition - the first question. The second question: is it possible to eliminate this cause, how to do this, and after eliminating the spiritual cause, if a person is ready to do this, then approximately 21 days are given for adaptation, i.e. if the cause is removed, the block in a certain energy center or chakra is removed, then within 21 days the behavior will change, the person will simply balance himself in consuming more healthy foods and not consuming foods that are harmful to his body. He just doesn't want them. And I also want to say that food preferences also say a lot about problems, including spiritual ones, or some qualities of his soul. If a person often desires a certain product, a certain food, despite the fact that he has access to many types, then this often indicates either

a lack of a certain element in the body, or there is an excess of some qualities in the shower, because any product, any plant, any animal that you consume has its own vibration, for example, chocolate consists mainly of cocoa beans with added sugar, etc. We don't consider its chemical composition, but the energetic vibrations of cocoa beans evoke a feeling of high spirits, light delight, which is why in your environment, in your culture, it is associated with childhood. A child is often bought chocolate, this makes him happy, he enjoys both the sweets and the attention paid to him by an adult: dad, mom or someone who came to visit them, he enjoys the energy and this substance. And this association "chocolate – joy" remains in the memory for a lifetime, although it may not be realized. Therefore, if you often want chocolate, it means that a person wants to please himself artificially, he lacks causeless joy. What if he often craves salty foods, for example? What is salt? What vibration does it have? We do not take into account the chemical and biochemical properties of salt; sodium chloride is a crystalline substance, i.e. which conserves energy well. Salt has a purifying vibration. This means that a person either wants to cleanse his body of some unnecessary microbes, or his Spirit feels dirty and negative in some way, and this triggers a reaction to cleansing. What if you want sugar? What vibration does sugar have? Sugar, unlike chocolate, which brings cheerful joy, simply sugar, as a white substance, has a calm joy, brings relaxation and peace to a person. If a person often wants to consume an increased amount of sugar, including in some foods, then this indicates that he lacks peace, he may be very tired physically, psychologically, spiritually, he wants to rest,he feels uncomfortable, but he doesn't want to admit it to himself, let alone others, because, firstly, he is not accustomed to paying attention to his condition, his attention is drawn to the outside world, he feels that he has become It's easier when he has eaten a certain product, he does not analyze why this is so. Your task as a nutritionist is to create his food map so that, for example, he writes down what he eats for a week, and you will see repeating foods, here you can start a conversation: why do you like this? For example, if he likes smoked sausage, ask: "Do you like boiled sausage or just meat?" He will say that he only likes smoked. You have a question: if he likes smoked sausage better, but boiled sausage not so much, what does he find in it? Taste of smoke. What is the taste of smoke? Its taste and smell now are additives of similar flavorings that are added to almost any food, i.e. not only in meat, they are added to plant products, for example, in what you call chips, we have smoked cheese. The smell of smoke is pleasant to you because it is inherent in your instincts, because... your ancient people, your ancestors ate food from the fire. Also, this smell is associated with the hearth, i.e., when everyone is gathered together, it means that he lacks communication with loved ones, family, his body expresses it in this way, because it does not know how to express emotions in words. Through the body he receives pleasant sensations and emotions.

40:52 Indicators of blood analysis and hair composition for body correction.

Tatyana: Here's a point: there is a blood test for vitamins, micro- and macroelements. What is more reliable to do for nutritional correction of a person, what to focus on?

Irina: For analysis of vitamins or microelements?

Tatyana: Yes, in the blood or still in the hair?

Irina: In the hair, this is accumulated information over a longer period.

Tatyana: Is this more reliable data?

Irina: This may be reliable. The fact is that even now, at the present moment, the microelement composition could have changed. The hair is also influenced by elements from the environment where it lives directly, i.e. the composition of the atmosphere, maybe there is some kind of factory nearby. Those. This also affects the fact that, for example, several months ago he received enough food, then this element from food will be deposited in the hair as normal, but at the moment the indicator may not be normal.

Tatiana: That is. if we are talking about the here and now, then blood tests are more indicative, and if we talk about how it happened, then an analysis of the hair composition is more indicative.

Irina: But the composition of hair can change from various external factors not related to food, for example, swimming in certain water, even from the use of your detergents, especially since now you use a lot of different substances in your soap products that affect the composition of hair or skin. This may distort the results.

42:56 About the normal level of vitamin D in the blood. Causes of vitamin D deficiency in the body, ways to replenish it.

Tatyana: Regarding vitamin D: its level, deficiency and prevention, now there are very different recommendations for its compensation, for the dosage that should be prescribed. What to focus on? We recommend taking a blood test, and depending on its level, a preventive or therapeutic dosage is prescribed. And yet, what is the normal level of vitamin D in the blood? What dosages are preventive, what are therapeutic, such that they are not toxic, and is it possible to correct the level of vitamin D only with nutrition without the use of drugs?

Irina: A certain amount of vitamin D is produced in your body biochemically. If there is not enough of it in the body, then the problem is deeper, it is not a lack of intake from food, it is usually problems with the liver, in its biochemical processes, when it is not synthesized properly or quickly eliminated, the presence of parasites may be present: large amounts of vitamins B12 and D are consumed by some types of parasites, for example, tapeworms, ranging from tapeworms to dwarf tapeworms, for their growth and development. As for adjustments, in principle, eating a variety of foods and having a good diet should be, in any case, if a person does not have problems with the liver or parasites, then it should correct these substances.

45:29 Optimal human nutrition. Causes and consequences of intoxication of the body.

Tatyana: What is the optimal diet for a person to maintain good metabolic processes, health, i.e. How many times a day is it normal for a person to eat?

Irina: In general, it’s healthier to eat often, but little by little.

Tatyana: And often it’s 5-6, 4, 3?

Irina: Yes, 5-6 times a day, but such an amount that it fits in a handful of people. In order for digestive enzymes to work more efficiently, they are usually secreted by pectin-hydrogen chloride gland, and pancreatic enzymes, bile acids and intestinal enzymes are not secreted for digestion in unlimited quantities at each meal. If more food has been received than can be processed, the remaining food is not digested and absorbed, i.e. it enters the large intestine in an unprocessed form, and the colon is home to microflora, including fungal microflora and even your normal microflora that feed on the leftovers of your food, which are excreted. But if unprocessed chains of these molecules come across, then processes such as intoxication of the body begin. If these proteins are either animal or plant, in any case, the process will practically be the same, because all proteins consist of amino acids. When microbes begin to decompose proteins into various amino acids, various substances appear that increase, firstly, acidity in the blood, acidosis begins, with acidosis the adhesion of red blood cells begins, etc., as a result, oxygen starvation of the blood begins, from which causes a number of disturbances, including increased blood pressure, etc.

48:28 Diet for insulin resistance.

Tatyana : The diet for insulin resistance also remains 5-6 times a day, or is it necessary less often in order to correct this situation?

Irina : He says that if you eat a lot, but rarely, for example, eat a lot in the morning and evening, then, of course, you won't want to eat, but the fact is that this overloads the digestive organs, does not allow all substances to be absorbed, etc. , and if you eat little, but rarely, it will turn out that a hungry person will be in a state of chronic irritation. Then he can eat more or switch to a higher-calorie product, the body will tell him how to somehow compensate for the feeling of hunger, i.e. he should not be hungry, but also not overeat.

Tatyana : Just one of the latest recommendations in dietetics is that if there are disorders of insulin resistance, you need to eat less often in order to increase the gap, and the sensitivity of insulin to the cells increases, and glucose enters the cell. Is this still significant or not significant at all regarding changes in insulin resistance?

Irina: He says that substances in food, for example, turmeric, ginger, what is found, for example, in cabbage, can change the sensitivity of cells to glucose, namely myocytes and neurons. substances capable of reducing resistance, i.e. increase the flow of glucose into cells.

50:48 Calculation of the necessary water consumption for the body.

Tatyana : I see. How to calculate guidelines and figures regarding the consumption of the amount of water for the body, i.e. We now use different numbers: milliliters per kilograms, i.e. Do you still need to count on the whole weight or without taking into account adipose tissue, and what is this figure? At what intervals?

Irina : In general, it is calculated based on the total mass, because fat, fat mass contains, firstly, water, and secondly, blood also flows between fat cells, i.e. blood vessels penetrate it. This also requires fluid, and fat cells are part of the body, this means that synthesis and metabolism take place in them, i.e. metabolism. But this does not mean that they do not

contain proteins, there is a synthesis of proteins and fats, as well as the breakdown of substances that are not necessary for the cell, which must be excreted through the kidneys and liver, and this requires liquid, otherwise there will be self-poisoning, i.e. intoxication and then death. The guideline is around 30 ml per kg of body weight, somewhere from 25 to 35 ml depending on how you feel. But it's better if it's not part of some sweet drinks, but…

Tatyana: Clean water. This is not bound water, not the same as in fruits and vegetables, but simply the pure volume of water that should be drunk. Right?

Irina : He says that Esler takes into account the liquid that has entered the body. If you drank tea or sweet water, then this liquid still entered the body, it's just with an admixture, so it's healthier to drink tea without sugar, you can add lemon, ginger or some herbal infusions, etc.

53:38 About separate meals.

Tatyana : Another point: separate nutrition, how much does it help or hinder the absorption and digestion of foods?

Irina : A healthy body is able to secrete and break down products in various combinations, since it is secreted simultaneously and in sufficient quantities for decay and not for decay, for digestion, i.e. loss of structure of fat molecules, protein molecules and molecules of what you call carbohydrates. But if a person has diseases, for example, complex forms of pancreatitis, when the same lipase is not enough, of course, a more gentle diet is needed, i.e. a person will feel easier when he eats proteins separately from carbohydrates. But in the absence of disturbances to the digestive system, he can digest their combination. You may have seen how children can eat foods that together would cause indigestion in an adult; for example, many children can safely eat fish with milk and can immediately eat candy after meat. This suggests that these mechanisms are still intact and not damaged.

55:20 Food preferences of children.

Tatyana : Here's another question about children: the food preferences that most children now have are lacking in their diet, and at the same time they do not want vegetables and fruits in complementary foods from early childhood. What to do when parents ask for help, how to teach them if children really don't eat this, and it's generally minimal in their diet. What to do?

Irina : He said: look at what he eats at the moment, if you remove sweets and instead introduce vegetables and fruits, but in such a form that they are easily digestible, for example, not just some potatoes, cabbage, but in the form purees, mixtures.

Tatyana: Interesting and tasty for a child. Yes?

Irina: Yes, which can be easily digestible or, for example, eggs not just in the form of scrambled eggs and boiled eggs, which are really difficult to digest, but in the form of easily digestible food, for example, an omelet. The main thing is to present the feeding correctly.

First, you need to look at the character of the child himself. For example, many children tell their parents who they are friends with or begin to talk about the characters in their books or films that they have watched, as if they were about real people with whom they communicate. In this case, you can tell your child that this food you are giving is the favorite food of his favorite hero. This made him so strong.

Tatyana : I see.

Irina : Set an example.

57:43 The importance of breakfast and the optimal time for it.

Tatyana : Yes, that is. game form, interest plus more... I see, good. This will all help. My only question remains: is breakfast still important in the morning, or can the first meal be delayed closer to 12 o'clock?

Irina: How comfortable it is for a person, but it will be more beneficial if he still eats breakfast at least two hours after waking up, gets energy, and he won't overeat extra foods and won't put a lot of stress on his digestive system during lunch and dinner or ever again.

Tatyana: I see.

Irina : And he will eat less high-calorie and sweet foods throughout the day.

58:36 Fasting is a healing process. Long and short-term fasting.

Tatyana: And still a leading question regarding long-term or short-term fasting. The decision is made again by the Spirit, the Soul, based on feeling. Doesn't this harm the body?

Irina: Fasting is a clear healing process that must have indications, i.e. if a person, for example, has some kind of infectious disease, high fever, intoxication, then, in any case, the person himself will not want to eat in this state, even if he forces himself. As for various disorders where therapeutic fasting is required, it should be directly under the supervision of medical professionals who understand nutrition. If fasting lasts more than a day, it must be accompanied by fluid intake.

Tatyana: I see.

Irina : Otherwise, disturbances in brain, cardiac activity, etc. may occur. due to the fact that during fasting the body switches to autolysis of its own cells in large quantities, which inevitably entails a shift in the compartments of ketone bodies, a shift in the acid-base balance towards acidosis, and, accordingly speaking, all the disorders that lead to oxygen starvation,

thrombosis. To prevent this from happening, you need to drink enough fluid. Of course, there are people who do so-called dry fasting, but he believes that this is not beneficial.

1:00:58 Dietary recommendations for cancer. Foods you can eat before bed.

Tatyana : But still, when there is cancer in the body, in terms of nutrition should you stick to a different ratio between plant and animal foods or the same one, and does the same ratio apply to menopausal women?

Irina : For cancer, I would advise almost completely eliminating sweets, since cancer cells grow from this, for animal and plant products, the ratio may remain the same, in any case, work with your own immunity and identify the spiritual cause of cancer: why your own body, immunity was allowed to grow within oneself, as it were, a mini-enemy, i.e. what part is there in the Spirit that, with its energy, contributes to its appearance.

Tatyana : In this case, fruits are used as sweets, should you limit their consumption? Do we leave legumes and vegetables or fruits?

Irina : Limit sweet fruits too, not completely eliminate them. And one more thing: it is advisable not to eat later than two hours before bedtime.

Tatyana : I see.

Irina: The last meal should be two hours before bedtime, then you will get more sleep, because your energy will be restored more than spent on digestion. But if it's difficult for you to fall asleep without food, and there are such people too: they are used to sleeping only on a full stomach, it will be difficult for them. There is no need to endure discomfort and somehow force yourself to fall asleep hungry, this can only cause stress. But there are certain foods that you can eat before bed, for example: a small amount of low-fat fermented milk product, or carrot puree, you can also have a crushed apple right before bed, or drink warm milk with a very small amount of honey - about 1/2 teaspoon . I would like to note that apple, carrots and carrot juice promote awareness in astral travel, you will better remember dreams and be aware of yourself outside the body.

Tatyana : Thank you.

Live broadcast December 29, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the International Center for Spiritual Development "Cassiopeia";

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

Tatyana Tsvilenko is a nutritionist at a medical center (Dnepr, Ukraine).

Video in text
March 7, 2023

#190 Results of a survey on the advisability of providing material evidence of contacts.

https://blog.cassiopeia.center/itogi-oprosa-predostavleniya-materialnyh-dokazatel
https://www.youtube.com/watch?v=cc9FoNc-ZMo

00:01 Greetings from the meeting participants.

Vladimir: Today we have a very important conference, because it is dedicated to the results of our survey on the advisability of providing material evidence of physical contacts. We have here today Maria Sokolsky from Germany. Hello Maria!

Maria: Good afternoon!

Vladimir: My name is Vladimir. And Irina Podzorova, our respected contactee, who will now introduce our guests to us, and we will understand who will comment on the results of our survey today. Please…

Irina: Hello, dear friends! Hello Maria! Hello, Vladimir! My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations. Today, next to me, in astral bodies, there are three representatives of the Interstellar Union. They participated in the transmission of the text of the Address, known to all of you, on which many of you voted, and which was wonderfully read by Vladimir Goldstein, who is present here. Three representatives of the Interstellar Union are here to talk about the results of the vote. They want to remind you right away that the results of the vote itself will be considered at a meeting of the Interstellar Union. Artis is the planet Tuluari, Bergastre is the constellation Cygnus, the planet Pikran (Burkhad), who is an employee of the Galaxy security service. He wants to be there too. MidgasCaus is present - a representative of the planet Esler, the Arcturus civilization.

Vladimir: Great! Maria and I prepared questions. Please, Masha, start.

02:01 Opinions of participants on the voting results. Aggression from outside. The difference of opinions of earthlings about the consequences of providing evidence of contact with aliens.

Maria: Good afternoon, our dear viewers! I greet my colleagues: Irina and Vladimir, our interstellar friends. We really want to know your opinion, how do you personally evaluate the voting results?

Irina: Artis says: “I looked at many answers, many voting options, and the overall result, which shows that the largest number of people chose the first option.”

Vladimir: Artis, let me remind you that 77% of approximately all resources voted for the first option and the remaining percentage, approximately equally, was distributed between the second and third options. In total, about 10,000 people voted.

Irina: At that time there were about 50,000 subscribers and more than 50,000 views.

Vladimir: There were a little more subscribers and there were more than 60,000 views.

Irina: There were more than 60,000 views, 1/6 of them voted - 10,000. The rest viewed, but did not vote. This is taken into account on all resources. We had a single form of voting.

Vladimir: Yes. We had two resources. These are separate comments under the video on YouTube and a special voting form.

Irina: A special form was posted on all resources, and what I said “views” meant YouTube. Indeed, the first option surpassed all others. Artis says: “When I looked at not just the quantitative results of the vote, but also the description of the reasons that prompted people to answer that way, to choose the first, second or third option. I carefully studied people’s motivations and I want to note that these people’s assessment of earthly realities turned out to be almost the same, but the conclusions turned out to be diametrically opposed. The fact that the majority of the Earth's population is in a state of low vibrations and is not spiritually prepared for contact is regarded by some people as a reason to give physical evidence of contact. Other people use the same fact as an argument against providing evidence. The same fact is assessed differently. Moreover, this happens very often. This suggests that when people voted, they had different images in their minds of what would happen after the evidence was provided. Each one imagined this and each mentally foresaw what kind of reaction it might cause, and therefore voted, based on his inner convictions, what he saw as the consequences for your entire planet and for the Interstellar Union as a whole.

I want to give an example that almost everyone who voted for all three options wrote that the majority of people in the earthly community are filled with negative emotions, that they are under pressure from governments, unfair laws, etc. This is the most general description and is

found in all three versions. This suggests that that part of society that took part in the vote feels stressful situations in the environment in which it finds itself. They feel aggression from outside. I believe that this happens, firstly, due to communication with the environment: due to the reactions of their closest relatives and friends to their activities. Secondly, because of the media. Almost everyone who left comments showed with their message that they felt that many people in your society were against them and, in general, against the Light, the good in the world. That's how they feel." Now Artis asks a question to you, as participants in this vote. You've seen a lot of answers. Have you noticed this trend among those who voted?

Vladimir: If we are talking about the tendency that the same people talk about the same facts, about the same state of affairs, but interpret it differently and, on the basis of the same situation, vote for different options. Yes, I have seen this trend.

Maria: Yes, I noticed that too.

Irina: Yes, more than 80% of those who voted mentioned the same facts. These facts speak of an acute frustrating situation that puts pressure on them... So, in Russian, please!

Vladimir: Frustrating. Yes I understand. There is no secret to this. Of course, we understand that on Earth, for the perception of earthly people, the situation is stressful and oppressive. Indeed, each of them sees his own way out. Someone sees a way out to continue fighting themselves and not to interfere with aliens in any way, even with evidence. But someone sees on the contrary that it is the provision of evidence and further open contact that will lead to an improvement in this situation. I also belong to the latter. I have never hidden this.

Irina: None of those who voted wrote, or there were isolated messages, that everything was fine on planet Earth. Or if you were in favor of the first option, that we, for example, are ready to meet you, and everything will be fine. Evidence is necessary in order for you to merge with us in one community. We are confident for all earthlings that you will be received well. Almost no one wrote this. And at the same time, among those who voted for the second option, no one wrote that do not provide evidence, because we do not need your help at all, we like everything on Earth, we can live without the Interstellar Union.

Vladimir: Artis, the fact is that the survey itself, with the wording about providing evidence, assumed that evidence was needed for something. If everything was fine anyway, and everyone was happy, then the very formulation of the question would disappear. You don't have to prove anything to anyone. And the very wording "to prove" means that you need to prove something to someone who doesn't believe. And it has already predetermined, in part, such answers that not everything is good with us, we need to change it to good. Evidence can serve as a tool for this. Whether to give them or not to give them, people responded differently to this. I want to convey that if there was such a formulation, and we talked about the need to provide, naturally, since there is a need to prove something, then not everything is good with us. This point cannot be discounted.

Maria: I see.

Irina: Now Bergastre says that he understands this very well. He also greets everyone. He says: "When we announce all these reasons at the meeting of the Interstellar Union, I have

already spoken with VaumStreet, who is on the leadership of the Interstellar Union. He told me that if a decision is made to intervene, then a heated discussion in the Interstellar Union on options for providing this evidence will be inevitable. Options can be provided to convince the majority of materialists in your conditions of the reality of the Interstellar Union, and at the same time they can cause aggression in them. I'm sure there will be dozens of options there from different scientists of the Interstellar Union, even those completely unfamiliar with your world."

Maria: We will try to make our contribution to make it easier for them to make this difficult decision for them. That is why we are holding this conference now. At the end we will announce our options. I will say right away that I am not for the first and not for the second. I have a third option.

Irina: Yes. Maxim and I have also already said our options.

14:22 Possible options for providing evidence of the existence of extraterrestrial life. Council of the Interstellar Union.

Vladimir: It is possible that material evidence can be provided without the participation of contactees. And we all understand what this means. There is talk, I say roughly, that somewhere alien ships will appear under television cameras, or all of this will suddenly go on our television channels without any contactees. And it will be impossible to explain this with any other explanations other than extraterrestrial information. Could this option be considered at the Interstellar Union council?

Irina: A variety of options will be considered: both with and without the participation of contactees, and using your communication channels, satellite communication channels. Perhaps there will be options that first come into contact with astronaut scientists in some way, or with your scientific community. So that they can speak to your political and military structures, firstly, that the Interstellar Union is safe, and, secondly, will not provide any technology due to the safety of your race. This option is possible because there are many planets that joined the Interstellar Union. I studied their history, and each time it was different. Your civilization has not yet observed the five-year moratorium on the absence of wars. Many will ask why proof is needed if, even for five years, there is no respect for physical life at the government level.

Vladimir: I talked about this from the very beginning. In order for us to move towards ending wars and fulfilling the requirements that are necessary to join the Interstellar Union, it is precisely the evidence that can influence this. Because when it is proven on a material level that extraterrestrial civilizations exist, then all the information about the Spiritual World and all the ideas that you convey to us through unconfirmed contacts will be taken seriously, including the existence of the Interstellar Union, the conditions for entry and everything else. For now, for many this is an empty phrase, but when there is evidence, they will begin to take this seriously. Then there can be progress towards the absence of wars.

Irina: I remember this ship.

17:14 Government concealment of information about the downed alien ship in 1991.

Torture of aliens.

Irina: The fact is that shortly before the two Chechen wars, the government of the then Soviet Union actually got hold of that same ship with the Pleiadians.

Vladimir: August 1991.

Irina: Evidence of the existence of fires in military structures was studied there. However, this did not stop them from continuing to kill for part of the land, etc. Here, the reason for any wars is not only political will.

Vladimir: This is the provision of local evidence through cosmonauts, astronauts or scientists from different countries. So you've already been through this. There was evidence, a downed ship, and it was all hidden. Now you provide evidence, they will hide it again - this is, on the one hand. On the other hand, it is obvious that when they hid the downed ship with 600 aliens, they tortured them, the ship was cut into pieces, taken away, hidden, studied. Naturally, they could continue to fight further because the general public did not know about it. Now we need to make sure that the general public knows about this, all of them, not through their local points, which they will again hide and classify. And so that the general public knows that if government circles are trying to continue hostilities, then now everyone understands what the alternative is. That if there had been no war, we would have joined the Interstellar Union and would have received all the deployed technologies in all areas, including medicine, etc. Everyone will know about this. You can imagine the pressure on government circles, unlike when they hid all this, hid it, classified it. Nobody knows about this and you can live as before.

Irina: That’s the question. To what extent can this pressure reach, and what measures will the government take against those who are in favor of the Interstellar Union? This is the first. Second. I said that despite the fact that the military had evidence of the existence of extraterrestrial life and advanced technology that allowed large ships to move between the stars, this did not help their consciousness perceive the value of the life of another.

Vladimir: Yes, I understand perfectly.

20:15 The influence of the Quantum transition on the state of the Earth's noosphere. Coronavirus.

Maria: We are now talking about the events of thirty years ago. Friends, please tell me, what is the vibrational balance in the noosphere at the present time? Something has changed?

Irina: Now the Earth is in the active phase of the Quantum Transition, where social upheavals, wars, etc. are possible. A good test of the uniqueness of people, including political governments, was the coronavirus epidemic. From a spiritual point of view, this was a test of the Higher Powers. Let's look at it abstractly. I understand that there is no subject on Earth that teaches imaginative thinking and perception of reality. We will simply look at it abstractly and abstractly. What is coronavirus? This is some form of life, invisible, but which has a potential threat. Who is talking about this threat? The one who did not see it himself, but heard it from

another. What happens in society when they talk about the threat of something invisible? Rejection. Because the Earth is even closer than when there was bird flu, it has become the active phase of the Quantum transition, but not to another dimension, as you call it, but to another level of awareness. The closer the Earth is to the active phase of the Quantum Transition, and they change active and passive, then each subsequent phase activity grows in a spiral motion, the more serious tests the Earth's society will undergo. They are initiated by the noosphere itself. They will be initiated by plasmoid civilizations of your planet at different levels: egregors or carriers of various egregorial ideas in order for purification to take place. In the new world, after the next phase of the Quantum transition, more conscious people will be born, ready for spiritual work, due to the fact that they will be born from higher levels than now. In order for them to have their experience here, it is necessary that they come into a prepared environment.

23:51 Options for government reactions in the event of irrefutable evidence of the existence of extraterrestrial life. Xenophobia and fear of aliens. Negative image of the contactee. Anti-vaccination campaign.

A prepared environment is one that is cleared of fears based on materialistic perception. I emphasize that any fear of an unknown being that causes death is the fear of a materialistic mind. This fear is the basis of xenophobia. There is not just panic in society, it is happening at the level of governments, which are adopting various restrictive laws based on xenophobia and fear. This is a good example of the kind of restrictions governments can put in place when alien life is rejected. One example, of course. Not exactly closing the borders, but after providing irrefutable evidence, especially public evidence, which cannot be explained by any jokes on the part of some people. If it is unequivocally proven that this is alien life, then those government structures that already know about it will react to the people in such a way that they are hearing about it for the first time. And if most people believe what governments knew, then governments are in danger of losing control. Naturally, they will be forced to react somehow. And since they knew about this, but did not recognize the Interstellar Union, it means that their reaction, in any case, will be aimed at stabilizing the situation in society, as they can do through various laws.

Of course, several options can be envisaged. I will already think from the position of an Interstellar Union specialist who has imaginative thinking and knowledge of spiritual laws. How will materialist-minded politicians and military functionaries think about this? Perhaps a little differently. The first is to stabilize society as much as possible under these conditions. Moreover, if governments start asking questions: "Why weren't they disclosed before?", "Where are the broken plates?" and so on. If they say that nothing like this happened, then people will believe the Interstellar Union in this: "Through the contactee Irina was told that this happened," and now it has already been confirmed that she is a contactee. So there will still be an aggravation of relations. I don't think it will come to serious wars. Of course not. Neither your people nor the authorities will agree to this. In any case, after some time the situation will come to some kind of consensus in order to maintain control in society. And for this stabilization, firstly, options will be put forward. First. Why does the Interstellar Union say this? Who do they think the Interstellar Union might be, and what are its goals? You understand what they might say. Create a negative image. Back to the images again. If this is a negative image of perception among the authorities, as well as among the scientific and military communities subordinate to them, then the contactees will be exposed, who themselves want it. We will not reveal anyone without their desire, this is definitely prohibited. Or which will not be able to hide from everyone's attention, for example, the same channel "Cassiopeia", because voting was held on it. This is clear to everyone. All these records will be saved and will be available. Even if the evidence is not given through Irina, everything will be clear there. If the reaction of governments to the evidence and the presentation of questions to them by the people is negative, and this image is negative, then it is clear what kind of image they will begin to build from the contactees who are and will be known to them, among earthlings.

Vladimir: Yes, I understand, demonize them, etc. But, Bergastre, in my opinion, you are missing one thing, which you often told us about, and with which I always completely agreed. These government and military power structures are also heterogeneous. These are ordinary people, with relatives, acquaintances, friends, who are also sick and need medical technologies. Let's imagine that someone's wife or husband has cancer. And we are talking about the fact that joining the Interstellar Union and simply having relations with aliens will give us the most advanced medical technologies and save their relatives. Now I have a question. But will they really object if we are talking about the lives of relatives and friends, and aliens can save their lives in the future?

Irina: How will it all be? Yes, of course, this is all heterogeneous. If people or relatives start asking for medical help, the Interstellar Union will provide it, save your lives, with your consent. Anyone who wants to maintain power, and is still relatively healthy, can create any image of any medical care. The anti-vaccination campaign has shown that the majority of those who participate in it, following the artificially created, certain forces, image, are ready to risk not only their own lives and health, but their own children. There is a power of image here, I would not completely deny it. The power of faith, the positive changes that the Interstellar Union brings, and the negative.

31:39. Consequences of changing the paradigm of the materialistic worldview of earthlings. Mass contact.

Irina: Bergaster says: “Vladimir, I listened to you. Do I understand correctly that you are advocating that, following evidence of the existence of the Interstellar Union, if it is provided, you will initiate mass contact after some short time?

Vladimir: I’ll explain now. I believe that before the provision of material evidence, a paradigm shift in the worldview of the majority of earthlings can be initiated, which will lead to the fact that the deadline for joining the Interstellar Union, and before that open mass contact, its deadlines, will come closer. I'm not saying that it will happen soon - this is a loose concept. I believe that this can greatly bring these dates closer by changing mass consciousness. I will have to tell my arguments for the first option. Most earthlings have a materialistic worldview. This is true. Therefore we can get this progress through materialism. It is not through spirituality to go to the material, but through materiality to spirituality. How? If material evidence is provided, many earthlings will believe that the spiritual truths that the Interstellar Union gives us are valid and real. Then they will perceive the entire structure of the Spiritual world, and everything that happens to the Soul, to the Spirit after death. They will accept all this, because it turns out, these are aliens, they are probably telling the truth. Many will accept this, their worldview will change on a spiritual level, and vibrations will increase. All this can lead to a significant reduction in the time frame for open mass contact and, in the future, for joining the Interstellar Union. Here is my position.

Irina: Yes. Now is the time for Masha to tell her third option. They are waiting.

Vladimir: Masha, they insist now.

33:50 Growth of vibrational balance in the Earth's noosphere. Information support for contactees from the governments of Brazil and Uruguay. Alien image.

Maria: I first wanted to hear an answer to the question about the vibrational balance in our noosphere in the largest and most important countries, in particular.

Vladimir: Masha is on the right track when it comes to questions. She is right. I fully support her.

Maria: I ask these questions in anticipation of my version. I'm interested to hear if I understand correctly that the trend is improving?

Irina: Yes. The trend is towards improvement compared to the vibrational level that was a year or two years ago, in relation to spirituality, to the existence of galactic representatives, the situation has improved significantly. The growth of positive images in the Earth's noosphere on this topic increased by almost 17%. This is a big indicator, especially over the past year. I believe that a considerable part of this is that both contactees and those who disseminate information from contactees, I mean not only Irina Podzorova, but all contactees together. They began to cover more widely and provide the information that helps to really change the Souls of people. People feel it. Therefore, the image of aliens turns from an incomprehensible creature that wants to seize minerals or remove some organs, make slaves or rule you, making you biorobots. Aliens take on the image of loving and faithful brothers of humanity who help, without directly interfering in your civilization, but simply by raising your vibrations, to come to the realization of the need to join the Interstellar Union, if you want it. And if you don't want to, then go your own way, but without disasters, in harmony with nature, with yourself and with God. When we studied the answer options, and when you studied and read them, we noticed the main argument of the people of all three options, which converged in the assessment of government, military, scientific and even religious circles. Also, many people assessed their immediate environment as rejecting the idea of contact, who were not ready to accept this information because of their materialism. Only some concluded that the evidence would give them impetus to accept this idea, while others said that this evidence, on the contrary, would reject and frighten them. The assessment of modern humanity, by its representatives themselves, is quite unambiguous.

Vladimir: You understand, dear ones, understand my point of view! Everything you are talking about now is good, but there is a way to hide it. As soon as the opportunity to hide arises, it will be used. Has already been used many times. If this is some kind of narrow circle that can be hidden, and those nearby can be bribed and forced to destroy the recordings of, say, journalists or television journalists who appeared there, if this is not a live broadcast. And the live broadcast can also be explained. Therefore, as soon as there is a temptation and a real opportunity to hide, it will be hidden. And if you make it so that the general public finds out, then it will be impossible to hide it. This is a completely different calico. Then politicians, as you say correctly, will behave completely differently. That's why we still end up with option number one. If it's not through contactees, but without contactees, then I'm all in favor. I talked about contactees because I wanted to somehow persuade the Interstellar Union. If we say that without contactees, then I will be happy. Of course, there is no need to expose them to danger through contactees. Land five ships in the capitals of large states, let it all be filmed by television journalists and seen by thousands of people. It's enough. Get out of there, wave your hand and leave.

Irina: Is this your new version?!

Vladimir: My option with contactees was a compromise. If it weren't for him, there might not have been a survey. I wanted us to at least do this for now. This was a compromise on purpose. I understand that landing even five or ten ships is already close to open mass contact. I understood that it was unlikely that the Interstellar Union would agree to such an option for open contact. That's why I suggested mixing, through contactees, at the same time, etc. But if so, I will be all for it, without a doubt.

Irina: If you look at governments, specifically the governments of Brazil or Uruguay, then there are a lot of contactees there. They, one might say, give this a broad path at the level of laws. Contactees accept the information and it is widely disseminated in the media. There are many programs on television, books are written that talk about the Galaxy, about the Interstellar Union, from the words of contactees. It is at the government level that the attitude is loyal.

Maria: Yes, but the filming itself needs to be done...

Vladimir: You need both. It is necessary for all people to see it, and they should enter into serious, business-like contact with the governments, and then the government will not be able to hide it.

Maria: Yes.

Vladimir: Because they will understand that now “these” will say that they offered the government specific business things, that the government refused, and everyone will believe the aliens, because everyone saw them. This will be the logic.

Maria: Yes, of course.

Vladimir: Then it’s a symbiosis.

40:31 Option for open mass contact with the participation of the Interstellar Union and government circles. Ahnenerbe. Scientific assistance to the Earth.

Maria: Combine mass contact in the form, for example, a small ship landed, parliamentarians came out, talked to the government and flew away, and the media received this information.

Vladimir: Absolutely right.

Irina: What did you talk to the government about?

Maria: Information about what representatives of the Interstellar Union talked about with parliamentarians and the government.

Irina: Here you are, knowing your country, its achievements and needs, what text of address would you expect to hear from these parliamentarians in the speech of representatives of the Interstellar Union, who, theoretically, will land there?

Vladimir: Masha needs to write a text. Now she will come up with the text of the appeal impromptu.

Maria: I can prepare. First, we need to briefly talk about the Interstellar Union and who represents it. Give facts about previous contacts, for example, Ahnenerbe materials. I think that many people know them in Germany and have contacts.

Irina: Especially about Antarctica.

Maria: Yes. Especially about Antarctica. How did they get it there, poor fellows. This will further convince them that this is not a prank, not a joke, that it's not just actors who came and want to act out a comedy. It is necessary to present such facts or arguments in order to convince them. Tell about the plans of the Interstellar Union regarding our planet, our Earth. This should be a friendly message, with an offer of help.

Irina: Help with what?

Maria: In development.

Vladimir: Plan of cooperation in various areas.

Maria: First in science.

Irina: What do you understand by the concept of "scientific assistance", which is not yet included in the Interstellar Union?

Maria: Scientific assistance is the development of understanding in science from the beginning, i.e. share scientific knowledge.

Vladimir: The structure of the atom, natural sciences, i.e. something that cannot be directly used for military purposes.

Maria: At a level where they can understand or expand on them. Immediately tell them that any technologies that can harm or can be used for harm will not be given: neither military, nor space, nor other technologies. And help develop peaceful technologies, for example, to help with environmental problems.

Irina: Thank you. But the provision of any technologies that change the scientific paradigm of knowledge in the sense that it will not be theoretical, but practical knowledge, is possible only after joining the Interstellar Union, especially in the case of disunity of countries.

44:00 A person's failure to feel true Love is the underlying cause of the problems of human civilization. Who can incarnate on Earth.

Irina: MidgasKaus says: "I now listened carefully to everyone, both the representatives of the Interstellar Union and the representatives of your beautiful planet. And I want to express an opinion independent of everyone who has expressed it here. I believe that if there are any problems on Earth as a planet, whether the Interstellar Union can solve them or not, we must first consider what the underlying cause of these problems is. What problems exist most on your planet right now that are delaying the rise of vibration, the Quantum Transition, or making it impossible for the tasks of the embodied Spirit to be accomplished? Realize what reasons do you see for this state of the planet's noosphere? Over the years of my presence on planet Earth, I see that most problems are of a spiritual, energetic and, including material nature, because Ecology, as a physical space, refers to the material, then these problems are a reflection of disturbances at the energetic and spiritual levels.

Maria: That's right.

Irina: The material world manifests itself gradually, descending through energy vibrations from the Spiritual world. That is, only those Spirits who must be in this space and in this time with certain tasks can be incarnated on your planet. The energy of these Spirits causes the creation of etheric energy layers of the Life Force, including the creation of egregors in the astral atmosphere. These egregors, through the ideas that they put into the minds of other people, themselves influence material reality. Again, manifestation comes from the Spiritual world into the material world.

Maria: That's right.

Irina: This means that the cause of all problems on the earthly, dense plane is precisely a spiritual deficiency, unprocessed feelings, emotions and thought forms of a large number of Spirits embodied here in the present period of time and points in space. What is the main problem each of you sees on your planet?

Maria: In the absence of Love?

Irina: Interesting! So... lack of Love.

Vladimir: Masha, well done, how a woman answered! Well done! I am impressed!

Irina: I would answer that too.

Irina: Thank you for your answer. Not feeling Love. What do you think, Vladimir?

Vladimir: By and large, I agree with Masha. It is impossible to argue against this. When she talks about not feeling Love, it means a lack of connection or awareness of one's Divinity. How can you argue with this? There is nothing more global. But there is one caveat. The fact is that she expresses this at such a high level, but at our level of materialistic, earthly worldview, this thing does not manifest itself. The very understanding of this problem would already be its solution. That's the story. We don't even have an understanding of this problem that Masha is talking about on such a global scale. Therefore, in my opinion, the problem is this. Indeed, the absence of Love. But the absence of Love, in my opinion, if we come from the side of our dominant materialism, then it lies in ignorance, in a lack of understanding of how the world works. What's really going on? What is the Spiritual World? What is the path of the Spirit, the Soul? How did God create us? How do we get back to it? The whole structure of worlds, levels. All these things. If a person begins to understand that this is true, then all these things will open up to him, then he will allow himself to love. He will begin to relate to the world completely differently, and this will change everything. Returning to our sheep. If he understands that all this is being told to him by those who actually exist, i.e. aliens who have confirmed their existence with evidence, then he will accept all this, will believe in it. That these are not some books, not some warring confessions, but this is the truth, it means they are telling the truth, there is a Spiritual world, there is a Almighty. Indeed, my Spirit passes through certain levels, incarnates, etc., which means I must live differently. Now I have evidence for me to accept this ideology. Therefore, I believe that the problem is ignorance, a lack of understanding of how the world works.

49:54 Contact of a person with the Higher Self on the path of knowledge of spiritual truths. Do you need contact with aliens to feel Love?

Irina: In ignorance, in misunderstanding of Love...What do you say? Then some questions for you. To Masha from Mid, and to Vladimir from Artis. Masha, you said that the global cause of all troubles on Earth is not the feeling of Love. Now, who do you think can discover the ability to feel Love, and does this require contact with anyone, and with whom exactly?

Maria: It will give them a new impetus for the development and explanation of the Universe.

Irina: Will give them a new ideal, instead of the ones they lost.

Maria: Not an ideal, but an example. Give them an example of how to develop.

Irina: This is the ideal. It's still an image.

Maria: Okay. But this will be a real example of how you can develop according to spiritual laws.

Irina: Here again is a question of reality, because you said that religion is perceived not as reality, but as historical, moral laws. And the Interstellar Union perceives this as reality.

Maria: Yes.

Irina: Here again the question is: “What is reality?” This is the first question. And the second question. Literary and religious monuments, for example, a much larger number of them have been found, if we take the same Gospel. A much larger number of them have been found, and they are more ancient than the same works of Homer. However, there is less doubt about the authenticity of the manuscripts of ancient Greek philosophers than about the authenticity of the New Testament manuscripts, although much fewer of them have been found and they are dated to a later time.

Right. Now you have come to the reason for the lack of love in yourself, the conscious lack of feeling of unconditional love in yourself, when you are not disappointed by anything, because you are not fascinated by anything except this Light. When this is unconditional love. Fascination with aliens who supposedly bring some knowledge, and when they do not bring it to the extent that a person imagined, can also easily lead to disappointment. Because all this will come from a feeling, from a state of energetic absence of this love. You put it right now. Why is she missing? Because the religious texts that write about this are written by people who have experienced the experience of achieving this state, and not only achieving it, but also projecting it into the world. The spread of these vibrations into the material world in any circumstances, with any people, regardless of resistance, obstacles, persecution from other people.

Maria: Yes.

Irina: The experience of these people is written down not just in figurative language or metaphorically. It records an experience that is unfamiliar to most of those who have not felt this love within themselves. Therefore, reading religious texts and their interpretation by people who are materialistically minded inevitably leads to profanation.

Maria: Yes.

Irina: Until the person himself experiences these feelings, a complex of feelings, and not just experiences them as a kind of ecstasy, after which the person lives an ordinary life. He will not show this energy, because feelings are also energy, and he will not show this energy through the body in his behavior, in his practice. Theories are what is given, the Spirit is from God, “Theos” is God in Greek, and “praktokos” is real action through the material world. Through the material body, which is part of the material world and through all its tools, which can be scientific developments, finance, and so on.

Maria: Friends, if you make it shorter...

Irina: I understand perfectly what he is talking about now. He is a little surprised; they have a different level of consciousness.

Vladimir: We need this contact to convince most people that they need to look for these high truths within themselves. That they are hidden there. People do not get in touch with their

Spiritual Self, they need someone convincing, with material evidence, because they are focused on this evidence, to tell them: “Here is a golden key for you, but it opens the door to yourself. Please, go to your Spiritual Self, here are the techniques for you. We already have them."

When they are told this, they will find all the high truths, outside of confessions, within themselves. They need to be motivated to go and communicate with their Spiritual Self. This is why evidence of contact is needed.

Irina: Mass contact - for them to fly in and encourage them to communicate with their Higher Self.

Vladimir: Essentially, yes. We are simplistic, but yes. Because all this ignorance that I spoke about will crumble thanks to contact with your Spiritual Self. And Irina’s contacts, when she leads people to the Spiritual Self, completely confirm this. All the truths are there. No need to pray, not necessary. Connect with the Spiritual Self, you will receive everything there. But you have to convince him to do it. Don’t go to the store to buy things, but at this time connect with the Spiritual Self. And when authoritative aliens say: there their ship was, it means they are telling the truth. I need to do this, I will do it regularly. Ecstasy will enter my practice more than once, but regularly. This is a solution beyond the struggle of confessions. Here's my opinion.

Maria: Yes.

Irina: From Artis: “So you are saying that the main reason is ignorance? This ignorance is due to the fact that individuals who are authoritative for each person do not open the way to themselves.”

Vladimir: This is because a person does not trust himself, and society does everything to lead him away from trusting himself. When I talk about trusting yourself, I mean getting in touch with your Spiritual Self.

Irina: Yes. An external authority, which is no longer your religious, philosophical and scientific concepts, in your opinion, can convince them to turn to you.

Vladimir: Yes. At least start doing this. If they start and there is an effect, and there will be one, then this will finally convince them that they need to continue doing this, find all the truths and thereby dissolve their ignorance. Ignorance is simply not knowing.

57:39 Vladimir Goldstein’s experience of enlightenment on the path from rigid materialism to spiritual truths. The truth is within.

Irina: Okay. Then the question is for you personally. As far as I know from contact with the Futissians, you have also gone through the path of materialism in your life.

Vladimir: Yes.

Irina: And not just materialism, but hard materialism.

Vladimir: Yes.

Irina: Hard, because there were certain vibration characteristics. They themselves did not remain on the mental fields, but there are traces of the fact that you brutally broke this lattice from the inside.

Vladimir: The lattice of materialism?

Irina: Yes. It seemed to be blocking you, and in order to free yourself, no one helped you from the outside, but it was clear that these were your own efforts.

Vladimir: Yes.

Irina: You know what you are talking about, about ignorance and coming to the truth through going to yourself through your own experience. “I feel it,” Artis says: “What you are not talking about is an abstract person, but based on your personal spiritual experience. Then I have a question for you. If you were not provided with any evidence, and it was not provided not only by aliens, but by no one at all. On the contrary, you had periods in your life when you had everything against these activities and evidence. I see in your energy periods when those close to you were “against.”

Vladimir: This is all true.

Irina: Do you understand what he's talking about?

Vladimir: I understand what you mean. I'm waiting for the question.

Irina: What then motivated you to search for the truth in yourself, if not only did they not provide evidence, but by all means, and not just close people, but the entire world around you during the period of your spiritual search, according to your feelings, obstructed you?

Vladimir: Ok **.** I understand the question. The answer is this. I was motivated to do this by that same spiritual part of me that broke through and shone through all these obstacles. This sprout from there pushed me and made me feel like something was wrong, something wasn’t right, this wasn’t working. We need to find the truth, we need to break through. But, interestingly, I didn’t really look for the truth within myself. Because I, as an earthling who is under the pressure of the matrix, let’s call it that, society, still need material evidence that this is the beauty of proof that he is God, that there is truth in him. He is so determined that he

needs material incentives to realize this. And I was looking for these material incentives. How did you search? He studied ufology, collected clippings and other things. Ultimately, I was drawn to the Cassiopeia project. And, thanks to the information that comes through Irina, for me this is also part of the material evidence. These are things that I can compare with some material ideas. This is the most valuable information. I compare, and for me this is also a certain shade of materiality, although I have not yet knocked my knuckles on the ship, but I hope I will knock again. Or it doesn't matter anymore, without details. So, for me this is also a shade of materiality. This helped me reach my Self.

Many of the things that Irina tells about the structure of the world and other convincing facts encouraged me to trust the techniques of communication with the Higher Self from Irina. I use them, but in my own way. But! What do I want to say? If I had fully developed physical contact, without memory blocking, then for me all this would have been even brighter, it would have happened even better, because the slightest shadows, sparkles, dark points of doubt would also dissipate. I would then be able to connect with my Higher spiritual part to an even greater extent, more effectively and quickly than when all these evidences are more ephemeral than when there was full physical contact with memory, etc. That's why I think so too. I am the same.

Irina: Very detailed, accessible and understandable. I felt you especially on the energy level. Indeed, when you told me, you remembered a lot. What I want to tell you. The stories of contactees without proof, from the point of view of providing material evidence, are not like that. In these stories you saw, heard... When I say "saw", I don't mean the eyes. You can look and not see. But you saw from the word "to know." "Watch" and "see" are now synonyms in Russian, but before they were different words. You have seen what your spiritual heart has long asked for. You have heard similar stories many times about how difficult the war with the Selbetites was. And what brought you to this path was the knowledge that you are an immortal Spirit, a particle of God, whom God loves just as you are. And when you heard this, it happened to you... He shows me that energy rises from the heart to the head. I would call it enlightenment. This is the realization that, firstly, yes, this is so, I feel so; secondly, why did I feel this only now, and didn't think about it before? Such an ambivalent attitude. Do you understand now?

Vladimir: Yes, I understand. Especially the first one, that this is true. That I had never felt anything before, secondly. This feeling is very subtle, but very convincing. It's like love. You know for sure that you love this person, it doesn't matter who he is.

Irina: Here. Do you know what this feeling is called?

Vladimir: Besides "enlightenment", what else?

01:05:09 Faith. Knowledge. The main condition for the emergence of faith in God. The difference between faith and knowledge.

Irina: In general, this is the feeling when you hear without evidence, you weren't given evidence?

Vladimir: This is faith.

Irina: Yes. Right. You answered yourself. Do you know why you answered with this word? Because all the knowledge about what it is is embedded in you.

Vladimir: Without a doubt.

Irina: They are embedded in Irina, in Maria and in every person on Earth. So here it is. When you heard this, faith appeared in you. Do you know what the main condition for the emergence of faith is?

Vladimir: Which one?

Irina: The main condition for the emergence of faith, namely faith, is not providing any evidence.

Vladimir: Yes, I understand.

Irina: Do you know why?

Vladimir: Why?

Irina: Providing evidence is called knowledge. How is knowledge different from faith?

Vladimir: Artis, I thank you for this understanding. When you said that no knowledge is needed. Yes. No evidence is needed to have faith. I totally embraced it. I understand perfectly well that faith is knowledge without evidence. This is its beauty.

Irina: If they gave you evidence that the Interstellar Union exists, that Irina is a contactee, etc. The point is that if you received them, what you had would no longer be in this form. You wouldn't have the lift that comes from faith. Faith is as different from knowledge as the feeling of falling in love is from love.

Vladimir: I understand. If you bring all this together and summarize, then do you want to say that you still need to awaken, realize and manifest your faith? And it's just a matter of time. That then it will take much longer.

Irina: They are now planning to give evidence or not to give it. Artis is more neutral. He now listens to different opinions, but he himself remains in a neutral position.

Vladimir: My last question will be on the topic of “personal opinion”. I want Masha to ask a

question, and then I ask you to give me the opportunity to ask a question.

Irina: We heard Mida, he wants to take everyone for a ride. Bergastre was not heard.

Vladimir: We don't mind.

01:07:58 Successful experience in applying the "Practice of connecting with the Higher Self" using the example of an anthropomorphic civilization. What changes do we want on the planet?

Irina: Example...

Maria: Other civilizations.

Irina: An example of a civilization that recently joined the Interstellar Union, in some ways it was similar to yours. Not by the physical structure of the body, but by energetic and spiritual characteristics. There was work to be done through raising everyone's perception. Threshold of perception. We, the Interstellar Union, through contactees on that planet, gave a tool, non-physical, but which allowed everyone to realize themselves, their spiritual essence. Turn to this spiritual essence and ask: "What changes do you, my spiritual essence, my Higher Self, my spiritual Divine Light, want on my planet?" Contactees who began to live this way, they introduced it into everyday practice. Then they began to tell the general public about it. Those humanoids who refused to do this and tried to follow the path of materialism gradually found themselves in the minority. It's not that they're in the minority, but they didn't have any arguments why they wouldn't want to try it. They presented it in such a way that it is positive, interesting, leads to bright goals, and helps material development.

Maria: How long did it take? What time period?

Irina: From initiating contact? From what time? From the discovery of the planet?

Maria: From the beginning of the introduction of these practices, from the beginning of contacting and before joining the Interstellar Union.

Irina: When this practice was passed on to the contactees, they began to spread it, and about five years passed before they entered the Interstellar Union... Now. How long is their year? Bergastre, you know their planet more than anyone else. About 55 Earth years.

Vladimir: Just a little.

Maria: Yes.

Irina: A new generation did not have time to appear there. The last five-year milestone without wars has been passed. At first, when we initiated the exercise, there were wars. Then all this began to spread widely among young people, the army structure, and senior leadership. All this was initiated by contactees and their families. If we transfer this situation to Earth, as I see it in your conditions, how would everything happen here if such an option were accepted. What would happen here is that through the contactees who exist now, they would transmit information that helps to turn to one's Higher Spiritual Essence. Some exercise. It is very simple and effective for everyone. Whatever level of awareness he is at, the main thing is that he is willing to try. This practice is because materialists, as Vladimir correctly noted, are most focused on practical benefits. Vladimir has already noted this. I see, therefore, if you transfer the experience of that civilization to yours, that some exercise will be given, it already exists, you just need to refine it, describe all the details. It will be distributed not just in the Cassiopeia group, but about which public organizations and the media will write more widely. And they will present this not as an esoteric practice, but as a psychological practice that is aimed at harmony with oneself. In order for its use to be picked up in your scientific, political and military circles, it must have great social authority. And the only thing that has great social authority in your society is what scientists talk about, precisely those who can be listened to. This does not depend on the amount of material resources, it depends on the authority of science. It was a little different in that society. They had more priority over financial structures.

01:13:19. The main goal of the rational Spirit is to achieve a state of God-likeness.

Vladimir: Were these anthropomorphic humanoids or not?

Irina: Yes, they look more like anthropomorphs. He says that you have scientists who can carry out this exercise with themselves, realizing its effectiveness in all areas of their lives. Improving the psychological sphere of life. Improving family relationships. Improving your financial situation. Improving interaction between people by searching for compromise. When he experiences less stress, his health will improve, etc. Any scientist will feel this practice and its fruits. A tree is known by its fruits. Not by the leaves, which are words, but by the fruits, which is the reality that he will feel around him. You will feel a real change in your quality of life. Only in this case will the scientist write a positive review. He will describe this method in detail for his followers. This will gradually lead to the fact that those who directly influence laws will become interested in this. And if they conduct this experiment on themselves with the exercise that the Interstellar Union can give, describing it in detail, then they too will come to the inevitable conclusion that they are Spirit. I want to say exactly about the consequences of the feeling - "you are Spirit." This enlightenment has consequences. After a single experience that a person undergoes, but goes through it to the end, consciously, he will no longer be the same. He will not be able to forget these sensations only if he loses his memory. Even if he returns to materialistic reality, this memory will still live in him and encourage further experiments in this regard. Why? Because this is the most beautiful, bright, loving experience that is possible in the material world. Every person on Earth, no matter what goals he sets for himself, strives for absolute happiness, peace and love. Because this is a state of Godlikeness. The desire for a state of Godlikeness is inherent in every rational Spirit. In everyone, even in a demon, only they try to achieve it, denying some of their traits, which leads them to degradation. It exists in every intelligent Spirit. Therefore, all religions, in one way or another, talk about the natural moral law, which is embedded in the spiritual heart of every rational being. Even those who act wrongly, unjustly, understand this in the depths of their hearts. This is laid right at the birth of the Spirit. The Spirit embodied in the body of an earthling, if he wishes, having gone through this exercise even without faith that it will work, but with the desire to test it, can achieve this contact. The technique, which was tried out of curiosity on that planet, began to lead to enlightenment. Yes, I will tell you about the consequences. And those who didn't want to, there were those too, they criticized those who tried, they simply didn't find any arguments why they criticized it and didn't even want to try. Moreover, they saw that there were no negative consequences from these experiences in life.

On the contrary, everything is improving. I believe that if we follow the path of development of the planet that entered the Interstellar Union and renounced war, then we need to interest journalists in this exercise,who will be able to talk about it more widely when they experience it. Those who host a lot of programs on YouTube channels with a large number of viewers, scientists, psychologists who are related to sociology, etc. It will be very good if you can interest someone who is actively working among young people. Who can convey to them their experience even informally, not yet included in educational standards, simply by telling them. A person, when he experiences this, feels an overwhelming need to share, especially at the beginning. I want to say that the consequences of this connection will last a person's entire life. A person will not be able to forget this. What are these consequences? The first is the feeling of the immortality of one's Self, one's being. The feeling of being an immortal Spirit and the feeling of merging with a being who loves you, who will never leave, will not forsake and will completely protect you from everything that can harm you as a Spirit. I emphasize, not as a body, but as a Spirit. Do you think such a vivid experience, which is accompanied by the delight of connecting with the Universe, will leave a mark in a person's memory and in his subsequent behavior?

01:21:18 Distribution of the "Practice of Connecting with the Higher Self" throughout the Earth. The task of implementation.

Vladimir: For most people, yes. Can i ask you. When will we have this detailed technique?

Irina: In principle, you already have it, you just need to refine it a little.

Vladimir: It needs to be improved. Then let's quickly bring it to detail.

Irina: In order to change life on Earth, you need to realize a very simple thing, that you are here temporarily, to complete the task of incarnation.

Maria: Yes, but now you are talking to people to whom you no longer need to explain this. And we are talking about those millions and billions who are very far from this and who are very attached to material life. They are so absorbed in survival in this material world, in solving their material problems, that it will be very difficult to even bring them to the idea of this.

Irina: We will give it to certain people. If these are authoritative people, as Vladimir correctly said, if an authority says this, then many will want to try to find time for this, even if they are absorbed in material needs. Or even out of interest in what it is, many will want to try it. And then they will tell others.

Vladimir: Bergastr, this was a variant of a very probable decision of the Council of the Interstellar Union, everything that you said now?

Irina: What do you think?

Vladimir: I don't know, but it sounded so veiled now that maybe it will happen after all. I had

this hidden thought.

Irina: Whatever answer the Interstellar Union Council gives, it will, in any case, explain it. And he will give a recommendation or advice on how to move. Whatever answer is given will contain a recommendation.

01:23:20 Action plans of the Interstellar Union in relation to human civilization.

Maria: And so far, what was the plan for working with us?

Vladimir: What was the plan? Masha, this is an addition to your question. How much, from your point of view, can our survey influence the decision of the Interstellar Union? Or will this decision be the same without the survey? Or can he significantly make an impact, change the plan that Masha is talking about? Her question is what was the plan and could it change much because of the poll?

Irina: The plan was the way we acted, i.e. through contacts, convey information in different images. Notify people about the Interstellar Union through hidden and open contacts. And gradually, through evolutionary changes in increasing the vibrations of the Earth, lead through the Quantum Transition, so that many high-vibration Spirits are born, so that they come to power and change the laws. And only when there are no wars for at least 2-3 years, enter into a mass form of contact. That was roughly the plan. In short.

01:24:36 Survey results. Why didn't people vote?

Vladimir: The survey data we received was the same as you expected, or were there any surprises for you? This is the first part. The second part, I want to hear the personal opinion of each of those present. Should I give evidence, and in what form should I give it, if so? Your personal opinion is already yours. Is this what you expected?

Irina: Was that what you expected? We expected a higher percentage of voters from those who viewed it. Precisely from those who viewed it. We didn't expect more views than we already have. But we weren't expecting the sixth part. There is more interest among those who clicked the “view” button. Even if 25,000 or 50,000 people watched, we expected at least half of them to choose one option. And the sixth part of those who watched, shows, firstly, especially among the subscribers of “Cassiopeia”, who were no longer just among people, otherwise there would be much more views if not only subscribers watched. But even among them the percentage of those willing to express their opinion is quite low. This suggests that they are not interested in communicating their opinions.

Vladimir: Not necessarily. It's also a vicious circle. They would vote if they were sure that this information came from aliens, that is, there was evidence that it was indeed from aliens. It's about providing evidence though. That's why it's a vicious circle. This is of great importance. Many people thought, we are watching this, again they came up with a fairy tale. You prove to us that we need to provide evidence. Many people thought so.

Irina: Even those who thought that the survey was not real, but made up, would do it for the sake of interest, for their own sake, for the sake of those people who would read their comment. They understood that their comments would be read.

Vladimir: Okay. I understand. Let's move on. This was the first. Second. About interest. There were no particular discrepancies here, especially since they told us what would happen after joining the Interstellar Union. We did this deliberately to increase motivation for the survey. But we did not want to influence the results of the survey. We immediately said that the vote was not for joining the Interstellar Union, but to provide evidence. Between providing evidence and joining the Interstellar Union, the time necessary to change your laws, postulates that have been practiced on Earth for many millennia must still pass. This process can proceed at different speeds and have different social consequences. We all understood this and understand now.

As for the results. Yes, this is roughly the result we expected. We simply expected that more people would vote for evidence, and not for them to fly and join the Interstellar Union and somehow influence the government. Since in many videos through contactee Irina we said that influencing the government, and especially the law, without the consent of 70% of people, not Cassiopeia subscribers, but people living on Earth, is direct interference in the affairs of civilization. This is strictly prohibited. 70% of people must also vote for joining the Interstellar Union. But in order for them to vote, they need strong evidence. This strong evidence can lead to the contradictions that I outlined at the beginning. Moreover, during the active phase of the Quantum Transition, when vibrations decrease. You don't need this at all.

Vladimir: Who is in charge now?

Irina: Bergastr. Therefore, all three who have gathered here have slightly different personal opinions about the results, different options for how they would vote. All three have slightly different opinions about whether to give evidence, if so, how, etc.

01:30:07 Option for contact between extraterrestrial civilizations and earthlings from MidgasKaus from the planet Esler. Gifts from aliens.

Vladimir: Please, can we each separately? Tell me briefly. What is the difference.

Irina: MidgasKaus for providing physical evidence in the form that was voiced by both Masha and Vladimir: not through contactees. Because giving evidence through contactees may not lead to anything globally. Then it's better not to give it. What is this proof for? MidgasCaus smiles. Artis and Bergastre smile.

Vladimir: They smile, looking at Mead, he is a lawyer.

Maria: He works with us the most. It is physically located on our planet, so you can understand why.

Vladimir: He is a lawyer for earthlings.

Irina: I already told Vladimir, and I'll say it again. If such permission had been given, I would have asked to join this initiative contact group: together with Kirchiton, with Raom Tiyan, with representatives of different civilizations. I have already drawn up a plan according to which a delegation of 15-20 civilizations, at least 10 representatives each, will be sent to different countries to meet with different contactees and also specialists from the Cassiopeia group. We're all going. Kirchiton would have flown after Irina and Maxim. Raom Tiyan, like a Burkhadian, would fly after Maria. And I, personally, follow Vladimir, as someone who was well known to me.

Vladimir: Welcome. Here you can sit outside the window. Yes.

Irina: Yes. Then we would all gather. We would take them to their planets and give them the opportunity to attend the meeting of the Interstellar Union. Or a special meeting would be held on our planets. Film everything on your own media. And they themselves would have made an appeal in Russian. Then they would be brought and dropped off in front of all the people from the aircraft, not somewhere in a hidden contact point, but in front of everyone, in the middle of their city, with evidence. I would personally select gifts that do not exist on Earth.

Vladimir: Mead, are you arranging visual images so that we can imagine all this and materialize this option in the Time Line? Yes, between us.

Irina: He's in such detail now...Have you already presented it too?

Maria: Of course, I did too.

Vladimir: Of course. I already understand. Everything was presented and highlighted. In the Timeline, this option has now become more realistic.

Irina: Wow!

Maria: Of course!

01:33:37 Alien and earthly humor. An anecdote from an alien.

Irina: I'll tell you an anecdote on this topic later. Bergaster wants to tell a joke. He says, you were interested in our humor?

Maria: Of course.

Vladimir: Yes. Let's tell a joke now. Let's listen.

Irina: I want to tell an anecdote, this is a story. On the planet Phart...

Vladimir: The name is already funny.

Irina: On the planet Phart there was a factory for the production of spaceships. This plant produced a new ship. Scientists, engineers, designers, assemblers of this ship gathered. The plant management invited them to take their first flight on this spaceship. It was a passenger ship. They took their places in the salon. Their guides were biorobots who walked around the ship and talked about it. Before the flight, they said that the chief designer had this first ship from this planet. They named him, saying that the idea and assembly of all the carriers of the ship belonged to Sintours. That he recently graduated from an educational institution at this plant, and this ship is his first model. After these words, all the designers and scientists stood up and left the salon. And one designer, who was from the planet Tikht, remained sitting. One of the biorobots approached him and asked:

- Why didn't you go after your comrades? They changed their minds about flying, but we need to take off soon. Are you planning to travel alone?

He replied:

- I stayed in this ship because I know Sintours well, and I am sure that the ship will not fly anywhere.

Vladimir: I already understand.

Maria: Yes. Similar to our humor. We have similar jokes.

Vladimir: The humor is real. They were afraid that he would fly and crash, but this one knew him so well, he understood that the ship would not even take off, and there was no danger.

Maria: Yes, funny.

Vladimir: Everything is clear. Let’s listen to Bergastr after all.

Irina: Meade says that for that matter, he also wants to tell a joke. It's very short. Another anecdote from MidgasCaus.

Vladimir: So wasn’t this from Mida just now?

Irina: No. Bergastr.

Vladimir: Bergastr! Thanks for the humor! Then it’s worth a lot, an anecdote from the head of the security service of the Galaxy sector.

Irina: Yes. Bergaster, as always, spoke about safety. And Meade will tell you now. He says that he is also talking about safety. He remembers one funny one, not so much a joke, but something like a proverb.

Maria: Parable.

Irina: It's short. Also about space. We have a plant that produces not only spaceships, but also spacesuits and protective suits. Any representative of the Interstellar Union can purchase it. We have many factories producing spacesuits of different models, different levels of functionality and safety, etc. There is such a proverb in the Interstellar Union. What if the factory that produces spacesuits for spacewalks has not received a single complaint from the humanoids who use them, this does not mean that it enjoys an exceptionally good reputation. Perhaps there is simply no one to file complaints with.

Vladimir: I see. Black humor!

Maria: Black humor!

Irina: Such a proverb.

Maria: Yes.

Vladimir: There is still an anecdote from Artis.

Irina: Well...

Vladimir: No, no.

Irina: No. He hasn't figured it out yet.

Maria: We will have a section on our website called “Humor about Aliens.” So soon you will hear through Irina and read jokes about you.

Vladimir: But we will make a subsection “Humor from Aliens” there.

Maria: And now we will have...

Irina: Now I’ll tell you humor about aliens myself. Joke. An advertisement was given in the newspaper that in a month the Russian and British national teams would play football. Have you started speculating who will win? The Russians wrote that there are two options for who will win. The first is fantastic - we will win ourselves. And the second is realistic - aliens will arrive and help us.

Vladimir: Great anecdote! Maybe we'll hear Artis and Bergastre's personal opinions?

01:41:24 Option for contact between extraterrestrial civilizations and earthlings from Bergastra from the planet Burkhad.

Irina: Bergastre says: “What Artis said about faith, and MidgasCaus later confirmed, I am for the option that increasing everyone’s awareness will give more incentive to work on themselves.”

Vladimir: That is. not give physical evidence?

Irina: Yes. Don't give physical evidence. But at the same time, do not stop physical contacts, observing safety measures. At the same time, give an exercise.

Vladimir: I see.

Irina: Describe it in more detail and ask contactees and those who disseminate information to distribute it in groups and resources that do not belong to esotericists. For everyone to try. Because, I think, many people have a biased attitude towards esotericism.

Maria: You're absolutely right.

01:42:35 Option for contact between extraterrestrial civilizations and earthlings from Artis from the planet Tuluari.

Vladimir: We still have a representative of the Lyra constellation, Artis. What is he...His personal opinion regarding the provision of material evidence?

Irina: Artis says he is neutral. “I don't choose any option. I accept the arguments of both sides and the arguments of the other side. Personally, I would like to see proof given. But only if it is harmonious for earthlings, for the Interstellar Union and for all civilizations of the Earth,

including plasmoids, which are considered full inhabitants of your planet. Many of them are wary of the actions of the Interstellar Union."

Vladimir: I see.

Irina: Which is already visible in their speeches and the actions of some contactees with them.

Vladimir: Yes. We feel it well. This is true. Tell me, will these results really have weight, can they influence the decision of the Interstellar Union? Or would it, in any case, be something specific?

Irina: They can influence the decision of the Interstellar Union if the majority considers any arguments significant for themselves. Those. if their spiritual heart, they come into contact with their Spiritual Self, will say that this is the truth and it is necessary to do exactly this way, or this way, or this way.

01:44:14 The uniqueness of contactee Irina Podzorova and the Cassiopeia project.

Vladimir: Were there any analogues to this survey through other contactees in any countries on Earth at the same time?

Irina: No.

Vladimir: So our Cassiopeia project is so unique?

Irina: Yes. Unique, you might say. But someone will say experiment. Yes. If we consider this as a social experiment. But we don't see anything dangerous or offensive for earthlings in the word "experiment". Because everyone here is conducting an experiment on themselves. Since everyone who wrote this version, and we saw it, asked themselves. We provide such structured information through the consciousness of the contactee, with names, numbers, etc., which became possible thanks not only to her awareness and perception of the high vibrations that she has. For some reason he praises me so much. But also because she has chips installed that make contact of this form safe for her mental structure. Because after such a volume of information that passes through her, she then needs to recover energetically, since her brain is tuned to the frequencies of the material world, and such a restructuring for astral contact required physical interventions.

Maria: Is there another contactor like this?

Vladimir: Irina is a completely unique contactee, in all respects among all earthly contactees.

Irina: There are other people who also accept information. In general, every person is unique.

Vladimir: From the point of view of disseminating information through it. The one who sits knows, but nothing. And if you put everything together. Its social significance today and the possibilities, as a chipped contactee, to put everything together that you just said.

Irina: If you put everything together, it's like a microchipped contactee who wanted to tell the broad masses about it, and not just tell it, but do it for a year and a half. Do this every day. Give information every day. Do not go into denial, do not go into your own affairs. Deal with contacts only and combine this with practices to connect with the Higher Self from the Interstellar Union. Do not combine this with any worldly work that would take up the contactee's time. Do not combine this with family life, give all of yourself. Among chipped contactees, yes, today this is a unique case.

Vladimir: There's nothing to say here, my chip was itching and vibrating.

Irina: Well, so what **,** do you agree with him?

Vladimir: I agree 100%! I deliberately provoked this response because I knew him. I didn't even doubt it!

Irina: Masha, do you agree?

Maria: Of course! Certainly! We are sufficiently informed about what contactees and channelers there are and what information they carry. I believe that the value of Irina and our project is that we do not just give out information, lay out who said what, from what world, but we also try to practically bring it into our everyday physical life. Those. we give people specific help.

Irina: They feel it. Yes.

Maria: This is the value of the project, so it needs to be distributed throughout the planet, across different cities, countries and regions.

Irina: By the way, Mead, I'll tell you now. Bergastre says: "We had a very interesting conversation today. I thank everyone present for your questions, for your patience and informed perception. For your help to the Cassiopeia project - Vladimir, Maria, Irina. For your dedication in bringing spiritual knowledge. I wish to everyone present that this fire of Souls that you feel from these three people, that it will ignite in you that Light that will lead you to true spiritual knowledge that transforms spiritual reality."

Vladimir: Thank you very much!

Maria: We thank you.

Vladimir: We thank you for your presence and for the most important answers to our questions. We hope and have no doubt that this will continue.

Irina: See you again! Goodbye!

Maria: Goodbye!

Broadcast December 30, 2020

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Vladimir Goldstein - administrator of the Cassiopeia project, journalist from Chicago;

Maria Sokolsky - administrator of the Cassiopeia project;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

Bergastre is a representative of the planet Burkhad (Pikran), a specialist in contacts with the Earth, a specialist in safety in contact situations, director of the security service for contacts with worlds not included in the MC sector of the Milky Way galaxy;

Artis is a representative of the planet Tuluari, the head of the space fleet of the 29th sector of the Milky Way galaxy according to the Lyran maps.

CASSIOPEIA 19 - Irina Podzorova - Cosmohealing and Intergalactic Medical Service-

Information transmitted by our space friends through Irina Podzorova, a contactee with extraterrestrial civilizations.

#191 Cosmohealing and Intergalactic Medical Service.

https://blog.cassiopeia.center/kosmohiling-i-mezhgalakticheskaya-medicinskaya-slu
https://www.youtube.com/watch?v=zO8U3Fo0TB8

00:01 Introduction of meeting participants. Guzel. Cosmohealing.

Maxim: We're on the air. Dear friends, hello everyone!

Irina: Hello everyone, hello!

Maxim: We are still in Abkhazia, no one has kicked us out of here yet.

Irina: Sound **.**

Maxim: Guys, we need to put up our phones, all our retreat participants are here behind the camera, I'll show them to you later if they give permission. Today's topic of our conference: "Intergalactic Medical Service and answers to questions from our subscribers in the Cosmohealing chat," sessions of which are held by our beloved Guzel. I'll step aside now and you'll see her. Once again, I'll ask everyone to turn off Wi-Fi so that we can have a network, because we're experiencing a bit of lag. Tell me, please, how can you hear us? Our viewers already know that today is Guli's birthday. Let's congratulate Guzel on her birthday, I'll show her now. I'm leaving, the questions from the Cosmohealing chat are prepared, they are on my phone - our specialist transferred them to me. Irina will answer them, she will say who is present with us today, and personally Guzel, who works with the Intergalactic Medical Service. I give way to Gulechka.

Guzel: Good evening, dear friends! I am a conductor of Pleiadian energies, the Intergalactic Medical Service of the Pleiades, a healer and a doctor.

Maxim : Irina, as always, you can introduce yourself too.

Irina: Hello, dear friends! My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations and at this conference I will convey answers to your questions regarding cosmohealing, as well as your health and attitude towards yourself, our friends from the Interstellar Union and the Intergalactic Medical Service who are present here - this curators of "Cassiopeia" and Guli. Cosmohealing will help you heal, i.e. feel one with the Universe, with God and with yourself.

Maxim: Irina, I'll start. Who is present with us today and will answer questions?

Irina: Today one of the leaders of the Galactic Federation of Light is present - Ashtar Sheran, who oversees, among other things, healing activities. Also with us today is a representative of the planet Burkhad - Sithiraum, who is responsible for healing sessions, the curators of our project - MidgasKaus from the planet Esler and LiShioni from the planet Shimor, as well as a representative of the Spiritual World, who is responsible for training plasmoid civilizations and disembodied Spirits, healing those Spirits, which are embodied in dense material bodies - Archangel Raphael.

04:07 Is it possible to dilute water charged during cosmohealing sessions? The effect of heating on charged water.

Maxim: Great, then the question is: during healing sessions on cosmohealing, we put water on and charge it. If this water is diluted, does it remain as charged?

Irina: Sithiraum answers. Water. Energy information about the restoration of all organs and systems of the body is recorded in the intermolecular bonds of water molecules, which are in the process of transmitting information, you call this a charge. If you add another to this water, then the energy that is in intermolecular bonds will retain its properties and spread to neighboring ones, i.e. will charge another water. The process is somewhat more complicated. The main thing is that this water is not heated above 80 degrees, otherwise the effect of

high temperature on the water will contribute to the exit of the energy of the first level from it, and the energy that charged the subtle-material and humanoid civilizations will also come out.

05:41 The influence of electrical appliances on charged water? Properties of water after freezing.

Maxim: Do electrical appliances affect this water?

Irina: No, if there was no heating, then other energies of the electromagnetic spectrum do not affect. It is the heat, when it is transferred from liquid to gaseous form, that has an effect. Before it boils, the molecules change into another form due to the fact that the heat energy does not come out of them, the water heats up, and from this the energy that was stored comes out.

Maxim: I'll continue with my own question, which I think will be of interest to many: when we freeze water, what happens to it, and why does it acquire healing properties?

Irina: Are you freezing it?

Maxim: And then we defrost it, i.e. We first freeze it, and then defrost it and drink it.

Irina: Yes, MidgasCaus, I remember, but this conference has not been posted yet. There was a question about water.

Maxim: That is. will this be at one of the conferences?

Irina: There was a conference "Water in the Universe".

Maxim: Will it be posted on the channel?

Irina: Yes.

Maxim: Great. So we continue further. I think we can wait for this conference and listen.

07:00 Does water charge if you listen to a session with headphones? Dishes for water.

Maxim: The question is: I listen to sessions on headphones for better sound quality. So what about water then? How to charge it, and does it charge in this case?

Irina: Place it next to you, and those representatives of civilizations who will work with you, through your biofield, will influence objects nearby, including water. The main thing is that it should be in an open container, preferably not made of metal or plastic, but from natural materials or glass.

Maxim: Is it better to use glass dishes?

Irina: Yes. It should be open and better with a wide throat.

07:43 Is it possible for pregnant women to undergo cosmohealing sessions?

Maxim: Okay, thank you. Gulya, I have a very interesting question for you: please tell me, is it possible for pregnant women to undergo sessions on their birthday?

Guzel: On my birthday...

Maxim : Yes, on your birthday and for pregnant women.

Guzel: Considering that the period can be different, when a person does not even know about pregnancy and undergoes a session. There are no contraindications for treatment at all, but given that our medicine up to three months is categorically against any energy,

physiotherapeutic procedures, or any interventions, so we will also listen to our medicine, not only focus on cosmohealing, because some very impressionable pregnant women may It is not always possible to adequately evaluate the assistance that is provided during cosmohealing sessions. So after three months, please.

Maxim: That is, we will be careful, we will not overload mothers in the initial stage of pregnancy, when they have hormones, and there may be emotional outbursts when they are charged, it is unknown how these outbursts can be reflected.

Guzel: Yes, yes, absolutely right.

09:23 Are insectoid civilizations included in the Intergalactic Medical Service? Number of civilizations in the Intergalactic Medical Service.

Maxim: Thank you very much, Gulya. Irina, the question is very interesting: please tell me, are insectoids included in the Intergalactic Medical Service?

Irina: Of course, if you take into account pure insectoid civilizations, then there are three, if there are hybrids with insectoids, then there are seven.

Maxim: Are the Reptilians part of the Intergalactic Medical Service?

Irina: One civilization enters, but it is not Selbet. It is located in the constellation on the border of your constellations Perseus and Pisces.

Maxim: Are the “grays” Tashigans or their hybrids?

Irina: Is Tashig coming in? Tashig himself is not there, but his colonies are included. How many colonies? Six colonies are included, they are in the Interstellar Union, that is, from the Interstellar Union they work in the Galactic Service and the Galactic Federation of Light work. Now Ashtar Sheran says that even from other Galaxies they help

energetically.

Maxim: I see. But then a question arises in me: how many civilizations that are understandable and accessible to us are included in the Intergalactic Medical Service?

Irina: Humanoid?

Maxim: Both humanoid and subtle-material civilizations. And, by the way, is the Spiritual world included there too?

Irina: The spiritual world plays a major role there.

Maxim: And then, how many civilizations from the fine-material and dense-material worlds are included?

Irina: About 12,000.

Maxim: 12,000 civilizations?

Irina: Yes, Ashtar Sheran, that at the moment there are 12,076 of them.

Maxim: Very interesting.

Irina: But they are present to varying degrees in this activity.

11:38 About the curators who come during the session. Helping loved ones through a cosmohealing session. How do case managers know who needs help?

Maxim: Do the same curators come to the same person for the session, or can the curators change?

Irina: Different people can come depending on his problem, and the curator who came initially can call another who can work better with this person.

Maxim: I see. An interesting question: is it possible at a session to ask a friend for relief from his illness, for example? Or do you only need to connect this person with his consent?

Irina: It is better that he himself is present, because if at this moment he is not consciously in this Light, then it will not bring such an effect, he will be distracted from what is happening, his consciousness will not participate.

Maxim: Gulya, a question for you: how do the healers of the Intergalactic Medical Service know who to come to and help at the moment?

Guzel: By vibrations, of course. It's tuning in for me. As a conductor, I am the wire through which the vibrations that everyone needs are carried out. You tune in to me, and through me there is a connection. Then everyone learns to tune in independently.

13:18 About the cosmohealing session. Preparation of the healer and setting up the participant for the session. Music at the session.

Maxim: Gulya, for our viewers who are not connected to our cosmohealing chat, can you tell us briefly how the session goes, how you prepare, how it begins? What happens in the session? How does it end? How do you spend this session inside: maybe imagining something or doing something? Can you tell me?

Guzel: For me, healing is like breathing. Sometimes it's hard to breathe, sometimes it's easy. Here you are detached from everything, you must be a neutral conductor who does not react to anything and misses exactly what you received: the received impulse must be transmitted unchanged. It is like a wire through which electric current flows, and televisions, telephones, washing machines, refrigerators are

connected to an electrical outlet, that is, a large number of equipment can be connected to one outlet. And each connected item will receive electricity and will work with the function with which it was assigned: the washing machine will wash, the TV will show. It's the same here: everyone will get what they need.

A person is required to lie down, relax as much as possible and observe without judgment everything that happens to him. The most important word here is "non-judgmental", because any adjustment to "what am I waiting for, now it should be this" - this feeling of expectation needs to be removed, and there is no rush. Whatever happens during the session is the norm, it means that this is what your body needs here, now, at this minute, second. Don't get hung up on the fact that, for example, we are moving slowly. Some people do it faster.

There are a lot of questions in the chat about the fact that everything is happening for everyone, but nothing is happening for me. I'm so wooden. This is wrong, with this approach, you can't be in this state, because in this way, on the contrary, we are stopping. You need to accept everything with gratitude, be in every session, in every moment of this session. Whatever happens, we thank and accept, because any doubts or fears will slow you down and lower your vibrations. Therefore, we are not in a hurry, everything is as it should be for everyone. They give exactly what a person is ready for. If he is not ready to see something, they will not show him, because the work is very multifaceted, multidimensional and not always understandable to our mind, because they work not only on the physical body, but also on all subtle bodies. There is a harmonization of all subtle structures. Here we are not always able to not only see, but even understand what is happening. We just accept and thank you.

Maxim : Thank you very much!

Guzel: Music at the session? This is meditative music. We select it together.

Maxim: Either the music is selected, or composers come to us and select music for us according to the tasks, the goals of the session. Music is mainly written for the individual. You can rarely use some

selected music, but it is also selected for a reason, but specifically for the session.

18:18 Physical pain after the session. Spiritual causes of the disease, ways to eliminate them.

Maxim: MidgasKaus, a question more likely for you: many in the chats say that sometimes they even feel physically ill after the sessions, their joints and knees begin to ache. This is fine?

Irina: Yes, this is normal for people who have a chronic inflammatory process, i.e. destruction of tissue under the influence of any factor or several factors. The process of restoration and tissue regeneration cannot occur without the removal of cells that have died. They are excreted through the decomposition of the biological structures included in them into their component parts, which are called molecules, this causes some intoxication and may be accompanied by pain. To put it simply, healing of chronic diseases can occur through a temporary exacerbation of these symptoms. But this is not something to be afraid of, but you need to continue to take these sessions, at the same time be sure to look for the spiritual cause of the disease through communication with your inner Light. And not just find it and calm down, but ask the inner Light how to eliminate the spiritual cause and be sure to follow its recommendations.

Maxim: In any case, when we undergo cosmohealing sessions, it is advisable to find the spiritual cause of the problem that we are removing on the physical level. Right?

Irina: Yes, if you want healing, and not temporary help, then this is a necessary condition for real healing.

20:32 Set up a problem before the session. Behavior, thoughts during the session.

Maxim: Thank you. The question is: do you need to tune in to a specific problem during a session, or are these sessions of general action, and the specialists themselves will solve questions on the

problem that they find?

Irina: It is better to tune in to a certain problem not during a session, but during communication with your inner Light, which earthlings call the Higher Self. During the session, it is better to relax physically and psychologically, completely trust God and remember that you are under his complete protection. At this moment, you can say words of gratitude, prayer, try to think about good things, tune yourself to positive vibrations - this will help in your healing those doctors who come in the subtle or astral body. Will help doctors, healers who invest their strength in your healing, will help place their bright thought forms in your pain.

Maxim: Thank you. I remembered something about Vlad Pulsar. Vlad, Happy New Year to you, I say hello. You're not with us, it's a shame, but have a nice trip. He is somewhere in the snow on Belukha.

Guzel: They already sent me congratulations.

Maxim: Vlad, hello to you! Vlad Pulsar is a very good friend of our project.

Irina: Vlad, hello!

22:24 The position of the physical body during the session, its sensations.

Maxim: Question, Gulya, for you: is it necessary to lie down during the session, as the instructions say, or can you sit if it's comfortable?

Guzel: If a person is comfortable sitting - many people meditate in the lotus position, for example, then you can sit. But an ordinary person can only relax as much as possible while lying down. During the session, movement begins, at first it can be just twitching, heat-cold, a feeling of goosebumps, etc., and then, when a coordinated movement begins: they will lift you up, you will do bridges, exercises, yoga, pranayama, then you will already be active processes. If someone can relax as much as possible while sitting, let them sit.

Maxim: A person's posture during a session is not so important as his feelings, maximum relaxation and a sense of what he can do with his body.

Guzel: During the session, an understanding comes of what the body wants to do. If he wants to raise his hand, the hand rises, we follow the body during the session, listen to it, learn to hear it. Therefore, during the session we listen not to the head, but to the body.

24:20 Do I need to take sessions if I have incarnated from a high Spiritual level? Is it possible to force someone to participate in sessions?

Maxim: This is, of course, an interesting question: I am on the twenty-second spiritual level.

Irina: Congratulations!

Maxim: Can I take these sessions, do I need it?

Irina: Of course, you can take these sessions if you wish, but how much you need it, you must decide on your own, and it is better, of course, if you have direct contact with the Higher Self and make a decision with its help. If not, then follow your intuition and the voice of your heart. This is only your personal business, there can be no harm in these sessions, because the Spiritual world also participates in them.

Maxim: The question continues: my husband and children are from the ninth and eleventh levels, how can I force them to undergo sessions?

Irina: Ashtar, why are you grabbing your head? What? He says that this will not give anything, even if you manage to persuade them, they will do it for your sake, and not for their own sake, it will not give any lasting positive effect. On the contrary, this can only negatively set them up for spiritual development in general. There should only be the

person's own will. All you can do is offer it to them. Further, you should not put any pressure on a person's free will, because this lowers your own vibrations.

26:07 Required number of sessions. Unlocking creativity and talents. Cosmohealing chat where sessions are held. Payment according to the heart, energy exchange.

Maxim: Thank you. Gulya, a question for you: how many sessions usually need to be taken to balance the body and learn to heal itself? In general, is there any limitation on the number of sessions or, conversely, recommendations for completing sessions?

Guzel: There are absolutely no restrictions or recommendations on how much each person needs, because each person is individual, inimitable, unique. And everyone begins their development path exactly from the platform from which they came. Some came higher, some came lower, some already feel and understand everything from the first session, and some even from the twenty-first do not feel anything and do not understand what is happening to them. Yes, it's a little easier for him, but it takes him a long time to get there. Therefore, there are no clear recommendations here. This is not a massage: ten massage courses for you, ten sessions please. There is no such thing here. Only everyone can take a break by their own decision. Someone came, got treatment, he felt better on a physical level, for example, his back stopped hurting, and he was feeling good and comfortable, and that's it, he was running. Someone goes further because both spiritual growth and the spiritual path are important to him, because there is no limit to perfection, because abilities are activated in a person that he did not even suspect about before. Someone begins to draw, someone to write, someone to sing, to write poetry, etc., that is, in many people a creative beginning is revealed.

If you look into our chat, you will see that many people have new abilities. Someone even begins to draw during a session, because their hands themselves take a pencil and sketch even those humanoids who work with them, etc. There is no limit to perfection. If you want to reach a certain level, you set some goals for yourself and reach that level. No one can force you, tell you: "You must rise high." No, this is your inner desire, where you want to rise and what you want to receive: either only treatment of the physical body, or further

spiritual growth.

Maxim: Yes, Gulechka, I sometimes follow the chat and see: there people start writing channels with extraterrestrial civilizations or with the Spiritual world.

Irina: They already wrote from what level.

Maxim: Are you reading the chat? I remember the inscription was: “Hurray! Hooray! Hooray! Finally, I have my tenth session, and I’m blown away!” and then: “Oh, I’m blown away!”

Guzel: Abilities turn on. After the sessions, many become contactees and begin to hear, see, and feel. Here we have people who came completely... Yes, I mean you, Lena... I’m looking at you, who knew that they needed to help people, but did not know in what form this would happen, and now everything abilities and talents in a person were revealed.

Irina: Some people ask how to find a chat?

Maxim: Under this video we will definitely post a link to the chat and to the Cosmohealing group, through which you can go to our Cosmohealing news channel, where we post very interesting news, you can register in the chat where the sessions are held. There are complete instructions on how to use this chat. Once again I would like to remind you that thanks to our masters, the Cassiopeia project, Gula and many masters, we have the opportunity to give you sessions on a pre-condition basis, on the condition of payment according to your heart. I can’t even dare to call it payment, most likely it’s your gratitude and help for the development of the project, so that there are more contacts, more conscious people, so that we can meet and form our own groups. That is, it’s not even payment, it’s a gift from the heart.

Guzel: Energy exchange.

Maxim: Yes, energy exchange, only you decide in what form you will carry it out.

Irina: Interesting.

31:45 About the number of people present at the sessions. Does the session work as a recording? Astral doubles of the healer. Help from curators in healing people.

Maxim: The question is: if there are two thousand people at the session, will everyone have a curator or not?

Guzel: Let Ashtar answer. Let's not even take two thousand. Millions.

Irina: They read some questions through me and comment.

Maxim: Unfortunately, it’s hard for me to read the questions, I’m sitting on the side. I have questions from the chat. Today we are holding a video conference for chat.

Irina: Will it work on recording? A very common question.

Maxim: Interesting question.

Irina: Will it work on recording?

Maxim: Let's put the question this way: will the session work as a recording? And will it work if there are a million people at the session?

Irina: And another very interesting question. Our curators were very surprised: does Gulya work in the Cassiopeia project? Well, of course, if you see her next to me, of course, she works in our project.

Maxim: I, as a project manager, will say this: “A project is not work, it is life in the project, it is trust in the project. We don’t have a situation where some people work and others don’t work. Together we help people increase their level of awareness and perception. This is not

work, we are not in the galleys. We do this with love, with pleasure."

Irina: So, Ashtar, will the recorded session work? It will be, but not the way it works, when people gather during recording, because at the time of recording those curators who have agreed with Gulya as their guide come to those who connect. That is, they feel by the energies who has joined the general flow, to put it simply, of the egregorial channel. It's temporary. People think about the same thing at the same time. The curators of the Spiritual World feel them and guide humanoids and plasmoids who heal.

Maxim: I know that during Gulya's sessions she creates on-air doubles, and due to them, the audience's reach also increases. Right?

Irina: Regarding the recording: if a person turns on the recording, he listens to it, relaxes and tunes in to healing, as usually happens during a session, he mentally calls and sends a signal to his Higher Self to carry out healing work with him. And then the curator who can come to him comes to him.

Maxim: In any case, it also works in recording, but in its own way.

Irina: It works differently. Now about the quantity. The number of people is not limited, because Gulya has the ability to create her astral doubles, endowed with etheric power, we call them phantoms, and mentally sends them into the channel that she creates. And no matter how many people are connected to this channel, the phantom goes to everyone and there observes the consequences of healing and calls on curators. Another important point is that the curators themselves, when they come, if they see that more people have connected than usual, they call other representatives from their civilization or from other civilizations who may come. 12,076 civilizations that can come does not mean that there are so many creatures in them. This means the number of civilizations. And in every civilization there can be thousands of beings who are engaged in such a great thing as healing people.

36:34 Helping a mother help her sick son with healing through his participation in the session. Communication between Guardian

Angels of parents and children.

Maxim: Thank you very much! A question from a cosmohealing participant, rather to the organizers, that is, to us: if my son is in the hospital, can I direct healing energies to him through myself, or maybe there is some other way? My understanding is this: can she attend the session, receive energy from the Intergalactic Medical Service and help with this energy to heal her son, who is in the hospital?

Irina: When you are at a session, you must clearly understand that representatives of the Intergalactic Medical Service are working with you; you can mentally ask, by sending the image of your son, to help raise his vibrations harmoniously for him and heal his Spirit, all his subtle structures and physical body. Send his image and ask from the bottom of your heart. Just like, for example, your Guardian Angel, who is a representative of the Spiritual world, ask for the Guardian Angel of your son. By the way, the mother's Guardian Angel and the son's Guardian Angel communicate very often and very productively with each other.

Maxim: Interesting.

Guzel: Can the daughter communicate with her father?

Irina: Actually with my parents. Or you can ask for the same thing even outside the session, or during the session, you can ask for the same thing from those healers who, for example, are representatives of the Spiritual world of the Christian religious egregor - Panteleimon the Healer, for example, or the Mother of God, who is also to many in his phantoms and sends energy for healing. This is generally one of her goals for incarnation and life in the Spiritual world.

38:40 Cosmohealing sessions and religious egregors. The commandment of Jesus Christ to heal the sick. Healing by representatives of the Intergalactic Medical Service with the energy of Light.

Maxim: Do the sessions of the Intergalactic Medical Service not

contradict religious egregors - Christian, Buddhism, Islam? Is it possible for a true believer to combine sessions of the Intergalactic Medical Service and his faith?

Irina: Naturally, Archangel Raphael answers as one of the curators from the Spiritual World of the Intergalactic Medical Service, as well as one of the leaders of the Christian religious egregor. It combines these two functions and more. He says that this not only does not violate the canons of any earthly religion, but is a direct fulfillment of the commandment of Jesus Christ, which was addressed first to the Apostles, and then to all believers, that they should heal the sick. And if Christ spoke to the Apostles, this does not mean that he did not say this to many civilizations, representatives of the Spiritual world. These words of His were addressed to everyone. If representatives of the Christian religious egregor think that they were addressed only to the Apostles, then no one except the Apostles has the right to treat a person, physical and non-physical body, this is also healing. As you know, we have a lot of doctors, and the Christian Church supports them.

Representatives of the Intergalactic Medical Service do the same, but they do it not with physical methods, not with pills, not with injections, with any electromagnetic radiation and herbs, etc., but with the energy of Light, the energy of their Soul. This is a direct fulfillment of the commandment of Christ: love your neighbor as yourself, love him, first of all, by deed, that is, by giving your energy selflessly, freely, unconditionally. This allows them to become like God. And this allows you to accept this help and, having been healed, acquire the strength to become just like them.

Maxim: Thank you very much, it’s very interesting, there’s a lot to think about actually.

41:35 Can people not like their curators during treatment? Spiritual levels of curators for healing people.

Maxim: A question from a person, I would say, who is not very deeply aware in terms of energy perception.

Irina: It's interesting how he prepares us.

Maxim: Question to our curators: can you not like us during treatment? Yes, can we not like them? You came to treat us, and here lies some strange evil creature. And we may not like them.

Irina: Yes, this question is also interesting. Answers Sithiraum, who comes very often, Laatar is present here, who is the curator of Guli, from the Pleiades system, he very often participates in these sessions. Now Sithiraum is answering, he and Laatar have the same opinion. They have now talked and say that specially trained humanoids, plasmoids or representatives of the Spiritual World from the Angelic levels are involved in healing people. They are prepared in advance for the kind of people they will meet, and they understand perfectly well that any physical illness can be caused by negative emotions, vibrations directed either against the person himself, or against his neighbors, or even against God. In no case do they condemn these people for such an unconscious choice, albeit temporary, because they understand that they must go through this lesson, these tests, so that later, having returned to the Light of their own free will, they can appreciate it more and lead to him others.

43:43 Is it possible to refuse some treatment measures? Possible reasons for refusing the proposed measures.

Maxim : I will continue. There is also an interesting question from the same participant: can we not accept the proposed treatment measures from our curators and refuse them?

Irina: Of course, you can refuse; it will be enough not to participate in these sessions if you feel that it is not suitable for you.

Maxim: Thank you!

Guzel: Not that it doesn't fit. I think that there are internal blocks that are beneficial to a person.

Irina: Indeed, he may have another way of healing: through doctors,

through herbs, other energies, or even with the help of the body's own reserve.

Maxim: And through more severe pain.

Irina: Yes, through the inclusion of more hidden reserves of the body. Maybe this is exactly the path he needs to go through.

44:36 How do curators find people who are in a session?

Maxim: The next question is: how do they find us, we're all in different cities?

Irina: For energetic, astral and subtle beings there are no distances. Laatar answers: "We find all of you by the vibrations that you created in the common channel when you joined with your will to this general chat and sent certain thoughts that you are thinking about Gul, about this session. Relax, turn on the music - it all affects the setting. And we immediately feel how many people there are and where they are in physical space. It doesn't matter to us where you are, what matters to us is your energy. Each person's energy is different from every other person, just as there are hundreds of thousands of radio stations all over the Earth, but they do not overlap one another. Each at its own frequency. So is man."

45:55 Is it possible to become a conductor of energies for relatives, friends, and disabled children?

Maxim: Here's another question for Irina, and then, Gulya, for you, also interesting. Irina, a question for one of the representatives of the Intergalactic Medical Service, let's say Laatar: I work in a children's neurorehabilitation center with disabled children. Every day I see the suffering of children and their parents, but if I come up to them and start talking about cosmohealing and sessions, then, at best, they will twirl their finger at their temple, and at worst, they will complain to the manager. Question: can I participate in the session and represent the interests of my incapacitated child patients?

Irina : How to represent interests?

Maxim: Direct energy to them or in some other way. Can she become a conductor of energies for these children?

Irina: Are they exactly in the institution?

Maxim: Yes.

Irina: Guardians, don't they have relatives?

Maxim: There are parents.

Irina: But they sent them to an institution. Or is this temporary?

Maxim: Temporarily, most likely.

Guzel: Sanatorium…

Irina: Sanatorium, yes. Ashtar wants to answer.

Maxim: Can she transmit these energies through herself and can she heal these children?

Irina: You can do the same as your relatives. There is no boundary here between blood relationship and friendship with this person. When you yourself are present at the session, you can, imagining the image of a person or a child, or all of them, even from their photographs, ask from the bottom of your heart to send them light energies, to include their curators, their Guardian Angels, and if they are, for example, contactees , then their subtle-material curators and humanoids will connect to this process to help, as far as this will correspond to their harmonious development in this body. This is not punishable in the same way as praying for them, for example, is possible. So you can ask representatives of light civilizations and the Spiritual forces of the

cosmos, and the entire Universe.

48:40 Causes of incurable disease. Helping a person with a serious illness.

Guzel: I have a question for Ashtar: how much can they help if it is cerebral palsy, autism, lupus erythematosus, scleroderma, cancer? How can they cope with these diseases?

Irina: What is an incurable disease? In this case and only for the possibilities of earthly medicine in this particular time and place? The very words “incurable disease” have some paradox. Some obstacle arose to a fuller manifestation of the Spirit.

Answers Sithiraum - a healer, biologist, who is a physician, restores their physical bodies: “If a person himself or his child has such a pathology that cannot be eliminated by means of earthly medicine, this indicates that there is definitely a spiritual reason for this disease, it is very deep and arose quite a long time ago, maybe not even in this incarnation. But in this incarnation it intensified.

To help a person in this condition and understand how much this can be done, whether it is possible to remove it completely or just alleviate the condition - in this case, it is even more necessary to go to your Higher Self, if it is you, or to the Higher Self of your relative or child, who due to health reasons he cannot do it himself. You can do this for him, that is, if due to the state of his health, his psyche, he cannot even give consent. Such cases also happen. You have every right to go to your Higher Self and through your Higher Self to contact the Higher Self of this person, with his Guardian Angel and find out the circumstances of his incarnation, why exactly he decided to incarnate in this body. See a Higher Self specialist who knows the right questions to ask to figure things out and understand how you can help him.”

51:26 Does the spiritual level affect the severity of an acquired disease?

Maxim: While listening, I myself had a question: does the spiritual level in any way affect the quality of acquiring the disease?

Irina: What is the quality of acquiring a disease?

Maxim: Let's say that from the 23rd, 24th level it is much easier to get sick than from the 6th level?

Irina: No, that’s not true, maybe it’s the other way around.

Maxim: In principle, the spiritual level does not play a role in how you get sick and how quickly you recover?

Irina: No, especially since this is the level at the time of incarnation.

Maxim: At the time of incarnation there is one level, and we can rise or fall.

Irina: Archangel Raphael says that there are even many Angels known who have incarnated into bodies with physical pathologies precisely because they agreed with their parents in the Spiritual world, who were lower in level in the Spiritual world, and incarnated in order to teach them love through caring for this body, sacrificing his full life in this world.

Maxim: Very interesting.

Guzel: Actually!

Maxim: I didn’t think that this question would lead to this. I understand.

Irina: This happens, there are such cases.

52:56 Feedback from the Intergalactic Medical Service, whether they read the chat. Unconscious and semi-conscious contacts. Thought images.

Maxim: Gulya, a question for you: is the Intergalactic Medical Service interested in feedback from our chat? Do they read our emotions and the palette of feelings that we describe there, and the moments that we talk about there?

Guzel: I answered once, but probably a long time ago, not everyone saw it. Yes, they read, through my eyes all the emotions, gratitude, emoticons that you send, all your creative delights are conveyed to them. This is simply incredible! I also read everything with such trepidation, and they feel it. At first, I also didn't really understand who I was working with, I just saw the Spiritual world, then it turned out that it was both the Spiritual world and the Pleiadians, and when I asked Ashtar Sheran during communication, they communicated with Vlad Pulsar, if I knew all these incarnation, I knew how to do all this, why was I sent to medical school, to go through a bunch of things, to study even further. I was told that they studied medicine through me. They studied our medicine, took it apart, as they say, and they are looking through our entire chat.

Maxim: That's right, we need to figure out why contactees are put in psychiatric hospitals.

Irina: The Intergalactic Medical Service has a lot of contactees who are present during sessions, read the chat and through their consciousness, their perception, information is transmitted to the Intergalactic Medical Service. I want to say that many doctors, healers are unconscious or semi-conscious contactees with the Intergalactic Medical Service.

"I want to say right away," says MidgasKaus, "from your, firstly, spiritual level, secondly, your faith in your own Spirit as a part of God, from your level of vibration and, naturally, from your purity of consciousness, i.e. . from the ability to stop your internal dialogue and tune in to contact with the curator, many of the thoughts of the curators and their mental images are taken as your own, because there was no training in concentrating consciousness, searching in yourself for the

center of your consciousness, so you cannot distinguish. Therefore, the contact is unconscious. My contactee Irina will teach all this with the help of the Interstellar Union and the Galactic Medical Service in courses at the School of Contactees, where each of you can apply. We will help you as much as we can."

56:15 Why put likes on videos? Images of non-existent characters during a session. How to separate illusion from reality?

Maxim : Yes, guys, if you like our show, please like it, because this will give your parents the opportunity to see us, whom you cannot force to watch us. They might see this video somewhere, catch it and watch it. Like us so that many people can see us and increase their level of conscious perception on this wonderful planet of free choice. There are so many interesting things here. So, the question is the following: basically, during a session of the Intergalactic Medical Service, people have images of non-existent characters reproduced by the subconscious. How to separate illusion from reality?

Irina: What kind of non-existent characters are they, for example?

Maxim : A person believes that those characters are in his head.

Irina: Where did they come from if they exist in his head?

Maxim: That's the question. A person thinks that he imagines fictional characters and communicates with them.

Irina: Answer from MidgasCaus. In fact, any character that was once invented and described has prototypes, prototypes in the real world. Whether it is a mythological or fairy-tale character, he is always an image of something real. Curators come to you, but your perception is not yet ready, not trained, not prepared to perceive the images that come to you, and they begin to create images taken from your subconscious, from the real work that happens in your consciousness. This is an attempt by a person with imaginative thinking to adequately explain to you this contact and what you feel.

58:39 Known contactees of the Intergalactic Medical Service. Alan Chumak.

Maxim: Was Hippocrates a contactee?

Irina: You need to look at the story. They tell me that Alan Chumak was a contactee for the Intergalactic Medical Service.

Maxim: Intergalactic Medical Service.

Irina: They showed his image.

Maxim: In principle, we are following the same guide.

Irina: Healing at a distance.

59:07 Will the session take place if there is no Internet? Mental inclusion in the session.

Maxim: Thank you very much! An interesting question: please tell me, if I don't have the Internet and connection during the session, will friends from the Pleiades Intergalactic Medical Service come to me or not?

Irina: If you tune in at this time?

Maxim: Yes, at this time a person will tune in, but will not hear Gulya, music, voices - nothing.

Irina: If you do not have the opportunity to connect to the Internet, but you are with us with all your heart, naturally, you can turn on other music that will help you lie down, work will also be done with you, because you will mentally turn on.

Maxim : The main thing here is faith, trust...

Gulya: Mood.

Maxim: Attitude, perception. Thank you!

1:00:12 Anatoly Kashpirovsky – contactor of the Intergalactic Medical Service. Was there any healing work going on with those present during the broadcast?

Maxim: Let's do this: does anyone here in the hall have any questions? Ask.

Question from the audience: Ira said that they showed the image of Alan Chumak. And Anatoly Mikhailovich Kashpirovsky?

Irina: They don't know by last names, only by images. Now I'll try to remember what he looks like.

Voice from the audience: With short bangs, dark hair.

Irina: Thank you! Was Kashpirovsky a contactee of the Intergalactic Medical Service? They tell me that at first he was there, and then he moved away and began to work independently.

Maxim : What does this mean?

Irina: He knew about his contact, but refused the curator he had from the Intergalactic Medical Service.

Maxim: He left to work with other civilizations?

Irina: He went to work with the Spiritual World, but they did not belong to the Intergalactic Medical Service.

Voice from the audience: Was work going on with us now?

Maxim: The question is: during this broadcast, was there any work going on with us at the energy level?

Irina: Yes, if you are relaxed and think about good things, you will help your healing. Now work continues with many of those present.

1:01:55 How to understand that contactees are representatives of the forces of light? Developing unconditional love in yourself is to recognize the truth.

Maxim: People are starting to appear in our chat who doubt it, thinking that these are connections from reptilians, insectoids, and various sucker flies. They contact you in a private message and hint: “Be careful.” How can we understand that we are not suckers?

Irina: Tsokotuha has nothing to do with it.

Maxim : How can we understand that we are not downloading energy and are representatives of light forces?

Irina: With your spiritual heart. It must be the correct tool for recognizing Light, the same as a compass, which points with an arrow to the north and not to the south; you need to have the Light of unconditional Love, forgiveness, harmony, reconciliation with your neighbors, the Light of the absence of condemnation of any negativity. If you see that some system of knowledge, religion, nationality, esoteric system does not suit you, and at the same time you condemn its representatives, by doing this you refuse, first of all, your own Light. Your own Light is the realization that you are a child of God. And if you condemn other children of God for their choice, whatever it may be, you are rejecting the God who is in them and in you. You give up your Light, so you cannot judge correctly the Light or darkness that you encounter on the Internet, for example. First of all, do not judge and you will not be judged.

What are these words about? That human judgment, located outside the Light of God's love, is illusory, has no relation to reality and corresponds only to those ideas that you have formed during your short earthly life about what truth is, what truth is, fraud, quackery or reptilians, insectoids. These are just your temporary ideas, of which nothing will remain after you leave the incarnation. To recognize the truth, develop Love within yourself. Only developing unconditional Love within yourself will help you see the truth or lack thereof in other people.

Maxim: Thank you! Thank you very much!

1:05:08 Emotional pain. How to get rid of spiritual problems? Spiritual cleansing.

Voice from the audience: I have the following question: I don't have any special problems with my physical body, but I do have...

Maxim: There are no physical problems, but there is a spiritual problem. How to get rid of a problem that is on a higher spiritual level?

Irina: First you need to come to a state of purity, unconditionality, relaxation, which at first will seem like some thoughtlessness to you, to enter the state of Light. This is possible through contact with your Higher Self, but this requires your trust, your sincere desire to be in this state and deal with the problem that is creating emotional pain for you. The cause of emotional pain always lies much deeper: in the mental, causal and other deep structures of your Spirit, that is, in your ideas about the world, in your karmic activities that you acquired in this or in previous lives - all this in the aggregate and in the beliefs of your A spirit that relates to God, to the world and to oneself.

There is a certain setting here, if it is violated and not fulfilled, or due to other actions of the surrounding world, you experience emotional pain. And no matter how much you cleanse on the emotional, etheric and physical plane and restore, it will not bring reliable long-term results until you untie the knot in the deeper layers of your energy structure. This is possible, in this case, we call it spiritual cleansing. Your spiritual heart needs cleansing and illumination just as your physical body

needs hygiene and food. So it all depends on your belief system. If you are a sincerely believing person, religious, do this within the framework of the rules of your religious egregor, it will help you. If not, then cleanse yourself through conscious contact with your Higher Self. This will help you if you believe and sincerely desire this result.

1:08:01 About age restrictions for cosmohealing sessions. Parameters for selecting employees of the Intergalactic Medical Service.

Maxim: Thank you. Gulya, please tell me, are there any age restrictions for sessions? They ask: is it possible to invite an elderly, sick person of 93 years old to a session?

Guzel : There are no age restrictions.

Maxim: None?

Guzel: They always work, I would say, within an environmentally friendly framework. For each person they give what he is ready for.

Maxim: There is even a funny question: after your sessions, my grandfather regained his youth. What should I tell him?

Guzel: What can I say? - Agree.

Maxim: You say: «Yes».

Voice from the audience: By what parameters are employees of the Intergalactic Medical Service selected from different civilizations?

Gulya: We have already talked about this.

Maxim: Yes. In terms of help, vibration levels, etc.

Gulya: From the Angelic level.

1:09:27 Do plastic surgeries affect the subtle plane of a person? Diagnosis, treatment of depression, panic attacks.

Voice from the audience: How useful or harmful is it to perform cosmetic surgery on a woman's face or alter her breasts?

Irina: There was already such a question.

Voice from the audience: Does this somehow affect the subtle body?

Maxim: Are operations to change or improve appearance reflected?

Irina: On what?

Maxim: On spiritual vibrations, on subtle planes.

Irina: Depends on the motives: why was it done? Spiritual vibrations change not from actions with the physical body, but mainly from the motive that led to this action.

Maxim: Let's say she wanted to insert her boobs.

Irina: For what again?

Maxim: To please the boys, so that they want her.

Irina: If she believes that she won't like it without them, then these are low vibrations, because she doesn't believe in herself.

Maxim: So this is a lack of self-confidence.

Question from the audience: Hernias under my eyes really bother me.

Maxim: Well, hernias under the eyes do not just form. This means that either it is an incorrect metabolism, or nutrition, or lifestyle.

Irina: The reason needs to be found out.

Maxim : At this retreat through the Higher Self you will deal with hernias under the eyes.

Irina: Go through the diagnostics with Nadezhda, let her look at the whole body.

Maxim: We have brought new equipment to the retreat, which is approved by MidgasKaus and even has a vibration purpose. Get diagnosed by Nadezhda, and she will tell you what's not working properly in your body, and what needs to be improved on the physical level. And be sure to go through your Higher Self to find out the spiritual cause of your hernia under your eyes.

Voice from the audience: If a person has depression, this is also the principle of working with the Higher Self as the main one, but if it's hard for him, will you help him connect first?

Guzel: Of course. Very good results for depression and panic attacks.

1:11:51 Diabetes mellitus. Contact through body movement. Containing energies can cause blocks to appear.

Irina: Type 1 diabetes can only be cured if the spiritual causes of its occurrence are eliminated. You need to figure them out through the Higher Self and ask him what is required for restoration.

Guzel: I would like to note that during the sessions, a connection with the Higher Self is established, because when the physical body and all

subtle bodies are harmonized, the channel is built, and people begin to hear answers to all their questions.

Irina: You can say: “I want to talk to my Higher Self,” and you can ask questions. You will feel it.

Question from the audience : Is it possible to restrain the release of energies through the body?

Maxim: Or maybe they are trying to enter the body?

Irina: She’s talking about contact now. She has contact through such movements.

Guzel: Through tears, through movements.

Question from the audience: I’m trying to restrain myself, but what should I do: my leg starts to move.

Maxim: I think so. When they look at us from the side, we are already “cuckooed,” and then our leg or arm begins to twitch. I think that society needs to somehow learn to control this process. God forbid that something starts to come out of you.

Irina: We need to find out from the curator the purpose of such a movement. Because holding back such energies can create blocks. They send a certain energy, you need to mentally say: “I hear you,” - completely relax, do not move. Maybe they want to tell you something through these movements, this is how they know how to communicate. Try to switch to a mental dialogue, mental. Just ask: “What do you want to say? I can hear you, please switch to mental.”

Maxim: Go to a conscious dialogue.

Irina: That is, speaking not through the body.

1:14:31 Until what age does a child have a connection with his parents through a common biofield? Reflection of what is happening with the parents on the child.

Voice from the audience: They say that a small child enters the mother's field, it heals him. Until what age can a mother influence her child's health with her field?

Maxim: I'll repeat the question on camera. Until what age is a child in the mother's field, how can it treat the child, up to what age? Is this really true? Is the question clear?

Irina: Until what age can a mother influence the health of a child through her gender?

Maxim: Until what age can a mother influence the health of a child through her field?

Irina: A child has a common field with his parents: both mom and dad until fourteen earthly years.

Maxim: General field.

Irina: Yes. All this time, everything that happens to the body, mind and soul of the mother and father is reflected in the state of the child, on his physical, mental and spiritual state. After this age, the child separates and develops his own independent field. There is already a field of our own, but it is built into the biofields of the parents. Then it becomes independent, and you can influence it only through its choice, that is, through its conscious consent. The same as for any adult.

1:16:22 Mother's love. Excessive guardianship prevents the child from making a free choice.

Voice from the audience: Do I understand correctly that a mother will not be able to influence her child after this age or, on the contrary, she can restrain him and interfere with him with her crazy maternal

love?

Irina: The question is that the awareness of the representatives of the Interstellar Union and the Galactic Federation of Light, who are here, and the Spiritual World is different, not like ours, and our terms, words are understood differently, and they can understand the phrase “mad mother’s love” completely different and does not answer what you are asking, so it is better for you to specify the question.

Maxim: Yes, the word “mad” can sound very interesting in a different transcription.

Irina: Without confusion of mind, then? And how exactly does her selfishness manifest itself?

Voice from the audience: She believes that only she, with her love, should take the child under her wing.

Irina: Where is the selfishness here?

Voice from the audience: Doesn’t allow him to live his life.

Maxim: That is, the mother, due to her great love, does not give her son the opportunity to make free elections, but does it for him.

Irina: If a person is deprived of freedom, then what kind of love is this?

Maxim: That's a different question. We can devote an entire conference to this issue.

Irina: This is not love, this is precisely the lack of understanding of what love is and mistaking some of your instincts, passions, etc. for love.

Maxim: Yes, guys, the most important thing: subscribe to our channel in order to receive notifications. Lately, we don't even know when we will go on air, we will do it often, we will try to do it efficiently, so subscribe to the channel, like it, and we will continue to grow and develop together with you. Irina, I suggest you choose a single question from the chat itself.

1:18:30 In a dream, humanoids put a bracelet on their ankle. How to find out the reason for what happened?

Irina: Elisha writes many times: if humanoids came in a dream and put a bracelet on your leg. Is this normal? Elisha, hello, you have written this question many times, and if it caught my eye again, it is definitely not by chance.

Maxim: Let's answer this question. What should Elisha do with sleepy ankle bracelets?

Irina: Is this normal? Normal for whom? For me? Yes, this is absolutely normal, it is called contacting. Is this normal for you? You can only answer this question, dear Elisha, yourself. In any case, in the true light of God, everything that happens to you is not accidental. And in order to understand why you were given this bracelet, what you should do next with it, and who it was, you need to go to your Higher Self and ask who your curator is and talk to him. I'm ready to help you do this, come to the school of contactees. I will do my best to set you up for conscious contact with those curators who did this.

Maxim: And instead of one bracelet, we will give you two. I'm joking, Elisha, because there is a feeling of fear here, they are trying to tie you down, ring you. But there is no need to be afraid.

Irina: There is no need to be afraid so as not to attract low vibrational entities. I am now answering from my level of consciousness, in which fear cannot arise, this is experience.

1:20:16 Pastime at the retreat, weather in Abkhazia. Happy New Year. Archangel Raphael.

Maxim: Can I show the audience who is present here? Is there anyone against it? Raise a hand. Look guys, here is a small part of our retreat. What I mean is that Irina is now in astral headphones, and all this is set up. I was joking, of course. I'm just showing that we are in Abkhazia, it's summer here. We ordered the weather + 18, +20 and the weather makes us happy. Yes?

Audience : Yes! Abkhazians are shocked: why +18, +20? We explain to them that we have set it all up. They don't believe.

Guzel: We opened the portal.

Maxim: They don't believe it. We swim, harden ourselves in the sea, and do gymnastics. We have pre-New Year excursions, we will celebrate the New Year, and after that we will all work on ourselves, on our Spiritual Self, Spiritual Ego, because I have recently noticed among contactees that their Spiritual Ego is growing very strongly. I think the ego is just a receiver that needs to be worked on, worked on, and worked on. Guys, thank you all very much!

Guzel: They want to say a wish.

Maxim: I'm not saying goodbye. I wanted to say: "And now the floor is given…"

Guzel: Happy New Year.

Maxim: Let's do it now, because we won't write anything down. We won't have time, the computer barely started working.

Irina: Let us congratulate you from the Galactic World and the Interstellar Union. Happy New Year 2021! The representative of the planet Burkhad Sithiraum is speaking, he conveys greetings to you from Raom Tiyan - he knows him well.

Maxim: Cityraum - do they install chips in the Burkhad service?

Irina: He knows Raom Tiyan, Laomstreet, who approved the installation of the matrix for me, and he also knows Mirakh Count. Sithiraum sends you greetings from all the bright personalities who live on the planet Burkhad. He says: “2020 was a very difficult test for many of you, but it brought you the experience for which you came here, that is, overcoming difficulties in order to see negative blocks and mistakes in yourself. For this purpose, those tools are used that manifest themselves through the physical world in the form of various oppressions, epidemics, dismissals from work, etc. So that you can recognize your negative attitude towards this world and work on it.”

Maxim: Our connection is unstable.

Guzel: In any case, there will be a recording.

Irina: “I would like to convey to you from the representatives of the Interstellar Union that soon, literally one of these days, we will gather for another council...”

Maxim: Thank you, Cityraum. And now, probably, from Raphael. I meet him very rarely.

Irina: “You meet me more often than you think.”

Maxim: Well, I deliberately rarely meet. And the images came - feedback when he said that I meet more often: people, arrivals, departures, movements.

Irina: He reminds you of when we met.

Maxim: Yes. A lot of images at once, interesting. Rafail, let's say Happy New Year.

Guzel: And wishes.

Irina: Archangel Raphael says: “I greet you all, dear Spirits to my

heart, embodied on this planet in this period of time. What is New Year? This is a holiday that is dedicated to hope for a brighter future and saying goodbye to that old attitude towards the world, to those old stereotypes that remain this year. That is why every New Year is colored for you with such a bright feeling, even despite the understanding that you have exactly one year less time left for you for this incarnation. Understanding this cannot in any way darken your joy, because you hope that new energies will bring you more happiness, and this will indeed be the case if you remember that you are the children of our Creator, for the harmony of thoughts, for whom everything that you see exists, and everything you feel.

For the Creator, disbelief in yourself is only a generation of your illusory thoughts, which are generated, in turn, by negative emotions, feelings and various vicious passions that do not allow you to see the Light. Yes, in your world, unfortunately, this often occurs in one form or another.

If you are the ones in whom the Light has been lit, which I am now sending to you through my contactees, if each of you, who has realized this Light in yourself, will sincerely and selflessly give it to others in words, deeds, thoughts, feelings, then the percentage of those who have realized our Light of people will increase sharply, and we will all enter the Interstellar Union, and everyone will enter the Kingdom of Heaven that is inside it."

Maxim: Thank you very much! Gulya, congratulations from you personally, because you are a part, a structure in our project, and I would also like to hear congratulations from you to all our and your subscribers.

Guzel: I wish everyone a Happy New Year! In the New Year, I wish that the rays of Light in the Soul of every person will warm not only all those who are nearby, but also all those who are very far from you, and not only your relatives, but also all the people around. Be such a sunshine in your family, at your work, in your home... Here at our retreat after Loo, everyone was recharged, and they say that we will carry this sun to different parts of our country and not only ours, because there were participants from other countries . We will carry this sun.

Maxim: They reached us from Kamchatka.

Guzel: Yes, there are some from Kamchatka here. Therefore, I wish all subscribers, not only those who participate in our retreats, but also those people who take part in our sessions, to bring Light, to sow Love. And world peace!

Irina: They write how to contact us.

Maxim: I guess I'll try to finish. Guys, I can't miss this moment to join two wonderful healers and contactees. Happy New Year everyone! What can I say? Of course, every day is very busy for me, and for me all this is absolutely normal - the existence of extraterrestrial civilizations, the subtle material and Spiritual world. As my friend Ilya told me: "You are crazy there, you are drinking tea with the Archangels at home."

I want to wish everyone to be real people, to develop in themselves a feeling of love, joy, happiness and to be able to help others, to feel and understand that there is not only a physical body, but there is also a Soul and Spirit. In fact, the Spirit is primary, so when you do something next year, think: "What if my Spirit, not my body, but my Spirit did this, how would it react to it?" - and do everything through love.

I'm not perfect. And, as I say all the time: "Irina, it's all the big bald man's fault, blame it all on me." Therefore, I take full responsibility upon myself. If something is wrong, write, we will solve it and sort out the issues. The project is unique, and I am happy to develop it further and look forward to everyone in this project: scientists, contactees, healers, and energy practitioners. Guys, come, we are one big family, on this planet we are doing one big thing: raising the level of awareness and perception of every person on this planet through love.

Love is the energy that can be used to reflect our Creator, God, what is in us, and what builds us, lifts us, worships us. Guys, Happy New Year to everyone! Bye everyone, see you soon!

Irina: Bye everyone!

Broadcast December 30, 2020

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan – head of the International Center for Spiritual Development “Cassiopeia”;

Guzel is a conductor of Pleiadian energies of the Intergalactic Medical Service of the Pleiades, healer, doctor;

Ashtar Sheran – head of the space fleet of the Galactic Federation of Light;

Sithiraum - representative of the planet Burkhad, healer, biologist, responsible for healing sessions;

Laatar is a representative from the Pleiades cluster, a specialist of the Intergalactic Medical Service;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world;

Archangel Raphael is a representative of the Spiritual world, who is responsible for training plasmoid civilizations and disembodied Spirits, as well as for healing Spirits embodied in dense bodies.

#192 “Exocortex”? “Zombieing through gadgets”? “Conspiracy theories” and other “fear-horrors”.

https://blog.cassiopeia.center/ehkzokorteks-zombirovanie-cherez-gadzhety
https://www.youtube.com/watch?v=ixi4v4YxIvg

00:21 Introduction of participants.

Vladimir : Dear friends, hello. My name is Vladimir Goldstein. I'm in the suburbs of Chicago, and today we have another interesting conference. It is topical, and now you will understand why. Of course, we have Irina Podzorova here, our dear contactee. Hello Irina!

Irina : Hello, Vladimir, hello, dear TV viewers! My name is Irina Podzorova, I am a contactee with extraterrestrial civilizations. Today with us is my curator, a representative of the civilization Esler, MidgasKaus - a biologist, psychologist and specialist in alien life forms. Hello Mid.

01:00 "Exocortex". Biometric impression. Human management.

Vladimir : Well, friends, today we really have a very topical conference. We made it at the request of many of you, because not long ago a video appeared on the Internet.

There are many such videos on different topics, but we are talking about a specific video where a pretty woman is in the frame, and another woman is behind the scenes, and they talk about the so-called “exocortex”.

The point is that there is a certain system in the world and, in particular, in Russia (the video talks about Russia), with the help of

which you can connect to a person through gadgets, using electronic means, “with the synapse “person”.

First, you can read biometric information from it, create an individual portrait: psychological, biometric and energetic, perhaps.

Then, using the same devices, impose any ideas on him, force him to buy something or not buy something, or behave in some way.

Instill in him or make something hurt him, that is, turn us all into zombies. Control us using electronic individual devices: cell phones, computers, and so on.

Having received our cast: energy, biometric, implant information into us. The video calls it the “exocortex.”

It is also said that there are GOSTs, even in Russia, where all this is spelled out.

The female insider asks not to show her face and gives out information.

Next, it talks about ways to counter this zombifying system that will be introduced in Russia. In the West, it seems to have already been introduced. I told you a short background story.

02:49 The theory of human control.

Vladimir: Now I want to ask MidgasKaus. Dear MidgasKaus, in your opinion, is it really possible, with modern earthly technologies, to use gadgets to read information from a person, obtaining his biometric cast? Then, through synapses, connect to it and control it using gadgets, imposing certain ideas?

The video says that there is enough computer power in the world to process such information. There will be no problems, and we, in fact,

are already being controlled and will continue to be controlled to a greater extent. Please.

Irina : Hello, dear friends. From MidgasCause I say hello to everyone.

He says: I thank you for talking about this theory in detail. It is still hypothetical in your scientific world.

I studied the issue of biotechnology in your world, including those related to artificial intelligence. This theory of managing, reading and remembering various information about a person is possible, even genetic. No passwords! Each person has a genetic code that is strictly individual. This can be recorded and recorded on the device.

There are no genetic passwords yet. You can record external data, for example, height, weight, fingerprints, and so on, any individual characteristics, for example, voice. It's possible.

Vladimir : Please tell me how we can read using our devices, I don't quite understand, height and, most importantly, weight, and fingerprints. Fingerprints, if a fingerprint was left on the phone.

Irina : He is now showing me how to do this through a camera (not a receptor), but something like a receptor on a computer. The camera may have a beam that operates in the invisible range.

Vladimir : Now such technologies exist, have they been introduced, do they exist in mass-market devices? Secret from buyers.

Irina : I know that this exists in your developments. It's better to ask Irina what you sell in large quantities.

I understand what he's talking about. He talks about readers: when you approach, the light turns on. Like a likeness.

Vladimir : Okay, I'll ask differently: technology that is being

implemented and hidden from buyers and users.

Irina : Mid, we have been identified by our retina for a long time.

Irina : The camera reads the rays.

05:50 Biometrics, ultrasound of cells.

Vladimir : We are now talking through the computer with Irina and looking into the camera. Is it possible, secretly from us, to read information from the retina of the eye? I'm talking about technical feasibility. Do you know from the Earth's noosphere that this is being done on a massive scale? Is this possible right now?

Irina : Your technical characteristics, the rays can be read. To read means to quickly scan across the face, for example, across the retina of the eye, and send it to storage devices. It's possible.

The next step is reading at the cell level, biometrics. It is just developing for you. This requires a scanning beam that will vaguely resemble your ultrasound. You don’t have an ultrasound of the cell yet, you only have an ultrasound of the internal organs. This is pulsed ultrasound (Mead shows the dotted line) that is released in order to measure objects several nanometers in size.

Vladimir : That is, now we do not have such technologies, judging by your information.

Irina : I studied the work of your closed laboratories, including laboratories, through contactees who work there. I am an ecologist, and I have access to contact information from other civilizations that relates to my topic.

Vladimir : Hello, Bergastre. Joke.

Irina : He didn’t name the spies (laughs).

07:52 Ultrasound sensor. Ultraviolet sensor.

Vladimir : According to your information, this could be widely implemented somewhere or only at the development level? There is no perfect technology yet?

Irina : To read information at the DNA level so that it is accurate and individual, you need to invent something like an ultrasound sensor or an ultraviolet sensor. Whatever the wave, what energy, frequency, it must be able to pulse through different sections of tissue.

Each organ consists of a section of tissue: integumentary, vascular, nervous, and so on. A custom 3D image is taken. Projection. When you learn to do this with individual cells, you will be able to obtain information not about proteins, but from the records of nucleotides in the nuclei of these cells.

Vladimir : That is, it will be possible to obtain complete biometrics of a person.

Irina : Yes, it will be possible to get it. In the Interstellar Union, similar technologies were developed about ten million years ago.

Vladimir : We do not yet have such technologies in widespread use.

Irina : No. You have technologies at the level of motion sensors, sensors that read the individual structure of the retina, eye movement, camera rotation, and so on. Technologies that record large objects.

09:42 The brain of intelligent beings. The connection between the incarnate and non-incarnate parts of the Spirit. Short-term and long-term memory.

Vladimir : If there is no such reading, it is impossible to control people using gadgets, through synapses, and so on, that is, zombification is impossible?

Irina : As for management, it’s even more complicated. Our Interstellar Union specialists did experiments. Ten to twelve million years ago we were also interested in this topic: our cell. Experiments in alliance with beings of the Spiritual World in order to learn as much as possible, and not to be used to harm others.

We have clarified the fundamental difference between the brain of an animal and the brain of a creature into which a rational Spirit incarnates.

This difference consisted in a fundamentally different energetic and psycho-emotional content of the brain. We will talk about a person.

Thirty percent of the Spirit is embodied in the body of an earthling. Seventy percent remains in the Spiritual World. They are in continuous connection: the embodied and disembodied parts. This connection is two-way.

All information that is loaded into short-term memory through perception is the memory of the embodied part of the Spirit. Through a spiritual channel, it is sent for storage into the long-term memory of the disembodied Spirit. I'm oversimplifying so we understand what we're talking about.

Signals in the form of thought forms, premonitions, intuition, and some beliefs that are not determined by the environment come from the Higher Self of a person, from his disembodied part through the spiritual channel.

No matter how much people try to control the brain through synapses, causing certain emotional states or thoughts, the spiritual disembodied part cannot be controlled, since it is beyond the reach of any electromagnetic signals.

Vladimir : That is, this is impossible not because the technology is imperfect, but because we are controlled by seventy percent of the spiritual part, which are in the Spiritual world.

Irina : Control is possible to some extent. This control will be most complete if the spiritual mind is subordinated to the instinctive part.

13:37 Experiments on controlling living beings.

Vladimir : I see. Technically this is not yet possible, especially on a large scale.

Irina : No device will prevent you from developing spiritually, raising your vibrations, this is a more advanced model of your Internet. It manifests itself not in your devices, but in your consciousness. For the Higher Self, it doesn’t make much difference where you look at information: on your inner screen or on a computer screen. It will be obvious that you are using a technical device. Such experiments have not been carried out in our country for a long time; we have learned all this.

I want to appeal to the earthlings who are watching Irina. We conducted experiments on animals. The more primitive the animal's nervous system, the more complete control was achieved. There were, yes, and now there are planets that use similar developments. There was even a planet with a couple of colonies that left the Interstellar Union about seven hundred thousand years ago. They developed such technologies.

They voluntarily left the Interstellar Union. Their descendants developed these technologies so much that three hundred years after they left the Interstellar Union, wars began.

Currently, the descendants of the descendants have achieved such perfection in controlling these devices that they themselves do not fight, but direct armies of animals that are controlled like robots. They believe this is more efficient and cost-effective than building and destroying expensive robots.

15:55 Consciousness of a materialist. Biorobots. The Higher Self and the path to it into the depths of the Soul.

Vladimir: I see. With animals, it is possible, but with intelligent Spirits - no. Fine. Now I have a question after our discussion: your version, why and who needed this video, the purpose of its release?

Irina : I understand what you are talking about. What you said is a theory. It has not been confirmed by practice.

Vladimir: She presents it as practice, telling us.

Irina : If she presented it as a practice, she would indicate the specific devices for which these GOSTs are written.

Vladimir : Okay, but what is the goal, she's trying to cause...

Irina : She is not doing this out of malice. The goal is this: being in the state of a materialist scientist who does not quite understand what consciousness is, she considers it a product of the brain, a product of nerve cells that sends electrical impulses through a neural network. A complex Spiritual world is being created.

If a scientist thinks in this way, he can admit that if these impulses are created from the outside, and they build the Spiritual world, then a person, like a biorobot, can be subject to these impulses.

Materialists do not take into account the fact: if consciousness is generated by the neurons of their own brain, they are already biorobots, without artificially created programs.

These biorobots, as your science teaches, were created by someone unknown, using primates. Or rather, it was created by a random mutation.

Thus, the existence of biorobots that are controlled by their neurons is meaningless, since when the brain is destroyed, the neurons stop their activity along with consciousness.

This is the meaninglessness of the beliefs of materialists. They cannot explain even to themselves why they should live such a complex and multifaceted life, carry out an internal struggle, improve their spiritual qualities if they fade away and fade away along with consciousness.

Why do they do this? Because in the depths of the Soul of every materialist there is the Higher Self. This is one of the names.

Why is it called depth and not height? Before rising to the heights and entering the state of the Higher Self, a person goes inward, into the depths of his heart. Immerses oneself in a complex, multifaceted inner universe.

Consciousness gave birth to the body, gave birth to the brain, just as the Divine Spirit gave birth to all types of material and spiritual energies. This became known to galactic civilizations even before the creation of the Interstellar Union.

Vladimir : Yes, I understand. From this video it becomes clear that people, judging by the comments, experience fear, apprehension, believe that they are being controlled, and are being zombified. The video also talks about how to avoid this: it shows a very interesting example with a pendulum that rotates in one direction, and then it is spun in the other. It is clear to me that this is motor skills, and when you speak to a person, he subconsciously begins to spin the pendulum with micro movements in the other direction.

20:20 Materialism. Gosstandart. Spiritual maturity and consciousness of people. Is it possible to control people?

Vladimir: What is this all for? There is a feeling that there is some purpose behind this, conscious or unconscious, to instill fear in the audience. Is it possible to assume that plasmoid civilizations are behind this, which these ideas are instilled in the woman speaking off-screen? Does it, in turn, broadcast to everyone to generate a common collective energy of fear and condemnation of government structures?

Irina : If we assume that behind materialism there are low-vibration

Spirits, no matter who they are embodied in, we can say that these are plasmoid civilizations. But man is the same creator of reality as the plasmoid. Plasmoids, humanoids, and other people can be behind a person's thoughts and feelings. He can read the thought of one person, believe in it and carry it further.

To understand who it originally belonged to, you need to get to know the author of Gosstandart. What did he mean when he wrote this. What meanings did he put into the words? Words are only a shell for meaning, just as the body is a shell for the Spirit.

Vladimir : Okay, I won't ask any more questions about this video. In general, I think we understand the situation, and therefore a more general question.

Irina : This is a test of people for spiritual maturity, for consciousness. If a person feels like a Spirit, he will never believe and give his energy to destructive plasmoid civilizations, and will not believe the fears that the immortal Spirit, a divine particle, can be controlled. Those who feel themselves as bodies can believe this.

22:31 Evil forces trying to control people. Parties, sects, religions, secret government. Manichaeism.

Vladimir : I see. Based on the content of the video, everyone will be able to draw the final conclusions they see fit. We received all comments from MidgasCaus.

In this and other videos, the theme is that there is some powerful force or mysterious forces in the world that successfully control us. We don't know about them. These forces are above or behind government circles. We have already talked about this many times.

Mead, you said that you see no traces of a single evil force in the noosphere. But at the same time, you said, I remember this, that there are several such forces that conflict with each other. Not all of them know about each other. Could you name what these forces are in the world? Are these some kind of groups, parties and secret societies?

Call them directly, who they are, where they are. Let's bring them into the light. Who is trying to control us?

Irina : All parties of materialists, atheists, Satanists, various sects, as well as all religions and religious movements, political parties that put the goal for which they exist above the integrity of existence, above the value of the life of a reasonable person.

Vladimir : Okay, let's be specific.

Irina : There are these evil forces, a lot of them. What is their unity? I'll explain now.

There is such a concept - a single idea. When they say that you have a secret government that opposes people, the bright people, and they suffer from this secret government, we are talking about dividing the world into good and evil forces. These forces cannot defeat each other; they want each other to suffer.

This is a very ancient earthly belief that comes from the flow of Manichaeism. Manichaeism was born as a protest of plasmoid civilizations against God for His creation of a dense material world.

As for the people and the authorities. When they say that a dark force opposes the people, the light force, wants to destroy, but at the same time creates the appearance that it cares about the people, what is meant is not a political force, a party or a union of secret priests. We are talking about the struggle of ideas in the noosphere of the Earth.

Under the words secret government, deep state and others, lies the image of an idea. An idea can enter the minds of both politicians and ordinary workers. For example, the idea of destruction, self-destruction, could be instilled both in the person who created the spear and in the person who created the nuclear bomb.

We can say that they belong to the same movement, to the same government, although they live in different times. We can figuratively say that they belong to the same idea.

The consciousness of earthlings is associated with some administrative state apparatus, that is, an egregor. Your videos and articles, informational component, as media...

Vladimir : Yes, yes...

27:40 Imaginative thinking. Percentage of incarnate Spirit in races and civilizations.

Irina : The information component of your life is built on images. This is not surprising. Thirty percent of the Spirit is embodied in the body. And the higher the percentage, the more imaginative thinking.

By the way, in the reptilian and insectoid races, this percentage is somewhat lower. The lower the percentage of the embodied Spirit, the closer the consciousness of this creature is to nanochips and machines.

Vladimir : That is, not thirty percent of the Spirit is embodied in the reptilian and insectoid races, but less?

Irina : Yes, they have a higher percentage in the Higher Self. For example, about sixty percent is embodied in a Burkhad.

Vladimir : Once again. Sixty-five percent of the Spirit is embodied in the material body of the Burkhadians. Thirty-five percent remains in the Spiritual World, right?

Irina : Yes, they have a different percentage.

Vladimir : And in the reptilian and insectoid races?

Irina : About fifteen to nineteen percent are incarnated in insectoids, depending on the race.

Vladimir : That is, only twenty percent, not thirty. Eighty percent remains. Interesting.

Irina : Among insectoids, like Sho-Hariki, about twelve percent incarnate.

Vladimir : Only twelve percent.

Irina : They have a group mind, and everyone interacts with others.

Vladimir : Another sensational information for me.

Irina : We have special textbooks for high school. In the eighth grade, in your opinion, they study. In special tables it is written in which races what percentage of the Spirit is incarnated.

29:38 Masons. Egregorial images for political control of the masses.

Vladimir: As far as I understand, the group that we know as the "Freemasons" is one of such forces. She doesn't stand out in any way and doesn't control anything compared to the others. One of those who try to control, although they are not materialists. Do I understand correctly?

Irina : Who?

Vladimir : Masons.

Irina : They are not materialists.

Vladimir : They are one of these groups that do not have any priorities in management. Everyone believes that the world is ruled by Freemasons. They are one of those forces that try but fail to control. Is it so?

Irina : You see, if the world believes something, it means that this image was created by someone. Perhaps it was created by those who control the Freemasons to direct anger at them. These are the basics of creating political egregors.

Your educational institutions should include the subject of “imagery of political control of the masses with the help of egregors.” This will be a course in “construction of egregorial images.” They are called Masons or something else. As an example, the beating of Jews.

In different countries, certain circles of different nationalities, including Jewish ones, specifically initiated the image, created it in the noosphere and attracted people's attention to it. At the same time, they themselves left the country in advance so that the anger that was directed at them could be redirected to someone else.

Vladimir : I see, PR.

32:03 Materialism. Consequences of theft.

Irina : This is just a release of negative energy. These are primitive methods of management based on materialism. We call materialism not just the belief that matter rules everything. On your planet it is even possible that a person calls himself a believer, but in fact remains a materialist.

He gives all his energy, mind, and Soul to matter and believes in God only so that he can satisfy his material desires or save him from hell, which he understands as eternal punishment. He serves God not for love, but so that He will enroll him in some place, which appears to him as the greatest achievement of his career, as heaven. This is precisely why he serves God, gives sacrifices, prays, but not out of love. Such people are also considered materialists.

Vladimir : I see. God is used as a tool to obtain material benefits, but in a different format, for some material preferences.

Irina : Not out of unconditional love.

Vladimir : Clearly, they are using God.

Irina: We call such people materialists, even if they formally recognize God. Just on the lips. Formally, this is their form of recognition. They, inside their hearts, remain the same materialists. They are the ones who can try to control these egregors. He is now telling me: your criminal gangs are trying to control and treat the people unfairly, as they say “take their money” from you, to show these negative projections.

Vladimir : I see.

Irina : This is also ignorance. In our country, any schoolchild knows that those material resources, no matter in what form they are expressed, if taken away without the conscious consent of a being, then in the future this life energy flows from the one who took it to the one from whom it was taken.

34:55 Physical and astral contactees in the government. Kirsan Ilyumzhinov.

Vladimir : I understand, Mid. Okay, please tell me, based on your information, do the alien civilizations that are part of the Interstellar Union today, otherwise they are criminals, have physical contactees in the government structures of certain countries? Do top officials in leading countries know about these contacts, if they exist?

Irina : Who do we call the government now?

Vladimir : I’ll explain: the government includes members of the cabinet of ministers, party leaders from different countries, prime ministers and presidents. That is, everyone who is at the very top of power in different countries.

Irina : He is now interceding: one of the presidents told, and not

everything about, his contacts.

Vladimir : Do you mean Ilyumzhinov?

Irina : Yes.

Vladimir : We know that.

Irina: Yes, he had contacts for a long time.

Vladimir : He had contacts. He's not doing that now. I'm talking about the current ones.

Irina : He was the current president, and he met.

Vladimir : Yes, I know. We won't talk about this now.

Irina : One said this. There are others too.

Vladimir : Once again, give a clear answer, did I understand correctly that in government circles of different countries today there are physical contactees who, before their contacts were banned, communicated with the Interstellar Union on a physical level?

Irina : I am not familiar with the complete lists of physical contactees, but I personally believe that there are astral contactees. I see no obstacles to coming to power if he became a contactee in childhood.

Vladimir : We are not talking about the astral now, I asked about the physical.

Irina : I need to look at the lists of physical contactees of all civilizations. I think there are, but I haven't studied them in enough detail to correlate them.

Vladimir : Okay, okay.

Irina : To correlate images. The lists are not by last name, but as thoughts. They are written under codes. To understand who is recorded under the code, which contactee, in electronic form, there is an image behind it.

37:24 The possibility of meetings between the governments of earthlings and aliens.

Vladimir : Okay, I understand. The question is this: in your opinion, do members of the government of the United States or other countries constantly communicate or hold meetings with representatives of an alien civilization? Secret meetings at the physical level to resolve some issues that are hidden from the public. Is there such a thing?

Irina : I am a scientist. We have questions that Interstellar Union security may not disclose, just like you. We can speculate about them. Even if the security service of the Interstellar Union, represented by any representative or group of representatives, makes contact, which our public does not know about in the form in which it is given to us, then the purpose of the specialists of the Interstellar Union remains unclear.

If there are constant contacts at the government level, the first thing our specialists would pay attention to would be to raise the issue, for example, of ending the war in Nagorno-Karabakh at the next secret meeting.

Vladimir : Maybe they are raising these questions, we don’t know, the war has stopped.

Irina : They would have immediately raised this issue. And if these are contactees in the governments of leading countries, even more so. As I understand it, the largest nuclear powers in terms of territory and numbers? Did I understand you correctly?

Vladimir : Yes, including.

Irina : If only there was a constant dialogue with these countries in the form of secret meetings. Why are these meetings held? On the part of earthlings, why can they be carried out, especially secretly? In order for the Interstellar Union to help them in some matters. Why then could they carry out all this secretly?

Vladimir : They could conduct it from the side of the Interstellar Union in order to set them on the right path. They did this during the nuclear crisis. They took, as we know, representatives of the USA and the USSR to the Moon base. Theoretically, they can come to meetings and say: “You don’t do this, but do this, otherwise we will interfere,” and they are forced to listen.

40:13 Do the governments of the countries of Earth know about the conditions for joining the Interstellar Union? Options for resolving the military conflict in Nagorno-Karabakh.

Irina : I know for sure that the governments of all leading countries have been informed through contactees about the conditions for joining the Interstellar Union. They know it. Despite this, a war began with the use of weapons of mass destruction (not nuclear).

Vladimir : This is not widespread. With the help of weapons.

Irina : By massive, he does not mean nuclear, but destroying infrastructure and the death of civilians through explosions.

Because of a conflict that the two countries cannot resolve for several hundred years. Do you understand what I'm talking about?

Vladimir : I understand.

Irina : My personal point of view and that of many Interstellar Union specialists: if the governments of large countries surrounding Armenia and Azerbaijan wanted to stop this, they would have done it in two or

three days. This is very simple to do: the military forces of several countries, which are larger in size, land on the border of a particular state, and no matter how much the governments of aggressively minded countries incite soldiers to war, they could not do anything. At the same time, they issue a warning through a bullhorn to immediately stop hostilities and disperse. And divide the territory in half.

Vladimir : I see.

Irina : If they do not agree, tell them: we live on a common planet and will not allow you to pollute the Earth's noosphere with negative emotions - this is the first thing. Second: we will not allow you to take the lives of intelligent incarnate Spirits who were born on this territory, because they are citizens of planet Earth.

Vladimir : Yes.

Irina : If you continue the aggression, troops from our countries will land in the capitals of Azerbaijan and Armenia, arrest the culprits and put them in an international prison. This is done very quickly. The people will not resist. Residents themselves will hold elections for others. If desired, this could be arranged.

Vladimir : I see.

Irina : Specialists of the Interstellar Union, especially the security services, first of all, in such a conflict, would recommend it to your military if there were such meetings. Here is the scenario for the development of events.

Vladimir : Something similar happened.

Irina : Well, not really.

Vladimir : Maybe they recommended it.

Irina : They recommended something late, he says how many people died.

43:52 Secret folder with materials about aliens for presidents.

Vladimir : Okay, Mead, thank you. Do you think that before the inauguration, before the appointment, the presidents of leading countries are really handed over a secret folder from the special services, in which affairs related to aliens are listed? The President of Russia and the President of the USA.

Irina : I showed Mida.

Vladimir: Is such a folder given to the President of the United States and the President of Russia before they take office?

Irina : I think it’s quite possible. I am convinced that the intelligence services know about the contactees. What could be in this folder? There may be materials on contactees in the services themselves.

Vladimir : Maybe messages about those ships where the remains of aliens, a ship, and so on are located?

Irina : Perhaps there will be messages about this. Although I believe that the intelligence services, their highest ranks, can play their games here without informing the top management about some experiments and even downed ships. Perhaps because the psychology of people who have served for many years in such organizations already assumes secrecy and a desire to play their own game.

Vladimir : Even presidents may not know about this.

Irina: They can. He's not sure, but he's guessing.

45:28 Chemtrails.

Vladimir : I see. Say please. Specific question: We're still concerned about the chemtrails story. These are supposedly chemicals that are secretly sprayed from civilian aircraft over different countries for destructive purposes in order to control population growth, some diseases, something else. That is, certain chemicals that are secretly sprayed from civilian aircraft like fertilizers. Behind this are selfish rulers with their secret goals. What do you think about it? What should I say to people about this?

Irina : Answer that the rulers are pouring poison on themselves.

Vladimir : They say that they are not for themselves, but for some other cities and towns. Your point of view.

Irina : The wind will blow it away.

Vladimir : Let’s do it differently, I’ll tell you my point of view, and you tell me yours.

Irina : I heard what Irina said. They fly and spray poisons over Moscow, and the government lives there.

Vladimir : I’ll tell you my version: this is another horror story, everything was invented and needed by destructive plasmoid forces that give ideas to those who are ready for it. And they unknowingly pick them up and begin to actively disseminate them in the media. Do you agree with my version or not?

Irina : Yes, I agree with her. They take advantage of ignorance of the laws of aerodynamics and accept traces of fuel particles and water vapor, which spread at low temperatures and hang in the air for a long time. Remember, the same thing happens when fog forms, for example, water condensation.

Airplanes have recently begun to fly much higher, in the lower stratosphere, where there are different temperatures and different visual effects.

47:35 Open statement from representatives of the Galactic Federation of Light. Interception of signals from television and radio channels. Coalition observer detachment.

Vladimir : The answer is clear. I have four short questions left, these are the last. One is: has there been a case in the last century or two hundred years when representatives of the Interstellar Union openly declared themselves in front of a large crowd of people. Recently, when going on television, radio channels, etc., did they intercept the signal and give a message? Was there such a thing?

Irina : This is not the Interstellar Union, there were representatives of the Galactic Federation of Light.

Vladimir : So, that was it?

Irina : It was.

Vladimir : That is, the Galactic Federation of Light?

Irina : It was announced. Intercepted. One of them, the captain of the ship, is now alive, but has flown off to explore another Galaxy. Should be back by 2030.

Vladimir : Was this a message when they came out as Comcon? Coalition observer squad?

Irina : Coalition observer squad. These were the Pleiades.

Vladimir : Was this the ship's commander?

Irina : His leader, he decided so.

Vladimir : How? They violated the laws of the Interstellar Union, because it was open contact. They came out openly on television, as

far as I remember? Is this a crime?

Irina : Yes, they violated the law of the Interstellar Union. At first they had access to contacts, that is, they had contactees. They had the rights to study the earth's biosphere and the earth's noosphere. For what they had done, they were deprived of the opportunity to communicate for several decades and isolated, including from other planets. They had compensation for the punishment.

Vladimir : They didn't end up on the planet of criminals.

Irina : No, they didn't hit. They were aimed at studying those planets where there are no intelligent life forms that were not included in the Interstellar Union.

Vladimir : The Galactic Federation of Light, my dear, rules, of course.

Irina: The Galactic Federation of Light assured the Interstellar Union that this was not its decision.

Vladimir : Personal decision. Interesting. Well, okay, we'll deal with the Galactic Federation separately.

50:09 Hybrids of earthly people and aliens. Do earthlings live on bases and other planets?

Vladimir: Please tell me, do you know people living on Earth who are hybrids born from earthly women and aliens? Is there any such creature on Earth today?

Irina : If there is one on Earth, it's at the bases.

Vladimir : But not in everyday life?

Irina : Personally, I don't know, but I don't rule out this possibility. If

these are hybrids or representatives of Disaru. The same Saint Germain.

Vladimir : Regarding Disaru. Do you know the number of Disarutians who currently live among earthlings for research purposes?

Irina : No. I'm not interested in this. Why should I know about Disaru? I don't know about the Eslerites either. I have my own specialty, I do not control contacts. There are special services that control the number of arrivals, departures, those present, and their activities. I am not one of the commanding officers.

Vladimir : I understood you correctly that a certain number of earthlings and hybrids of earthlings and aliens live and can live on alien bases, and therefore on other planets.

Irina : It is prohibited to transport earthlings to the territory of the bases. They always answer you that there are no earthlings on other planets or at bases. Transporting earthlings to the bases of the Interstellar Union and other planets, if not for the purpose of physical contact, but permanent life, is prohibited. Contact cannot last more than 24 hours.

Vladimir : That is, this is a violation.

Irina : In 24 hours, in an earthly day, we must have time to do everything planned with the contactee.

Vladimir : If this exists, this is a violation of the laws.

Irina : This is a violation of the laws and is within sight. I, as a scientist, communicated a lot with Esler's representatives of the Galaxy's security service and often talked with Bergastr on Burkhad. He told me some schemes. I would not be surprised if there are such criminals, the question arises about their motivation. If they came up with a motivation, then we can assume that earthlings are at some bases, under the guise of biorobots or representatives of Disaru.

Vladimir : I see.

Irina : Nobody exercises special control over the genetic content of earthlings, especially at scientific bases.

Vladimir : Well, yes.

Irina : These are not military bases. I have a question about motivation. To transport an earthling and keep him in normal conditions, resources must be expended. For contact - understandable. This is the knowledge of the Universe, the fulfillment of the task of its embodiment, and so on. In the case of life outside planet Earth, namely life without contact, the question arises about the need for such.

Vladimir : Firstly, I heard that there are whole schemes that Bergastre knows.

Irina : I'm trying out how I could hold an earthling without telling the security service about him. For example, how could I bring Irina to my home?

54:32 Love between an alien and an earthling. Is it possible to fly to another planet?

Vladimir : Let's say an alien, for example, a Disarutian, fell in love with a dugout and wants to be with her. He took her to his home and hides her there. There is no goal - love.

Irina : How would I then get out of the situation so as not to become a violator? I know that genetically similar creatures live on Disaru. All I need is to contact the Disaru government and convince them to give an individual identification number to an Earthling to learn the language. This can be done using a computer integrated into the brain. There is nothing complicated.

Vladimir : What would be the punishment for the fact that an alien took

away the dugout?

Irina : If they found it?

Vladimir : They love each other. Everything is voluntary. He took her somewhere, secretly visits her or lives with her, just for the sake of love. What would be the punishment from the Interstellar Union?

Irina : For violating the rules of contact, if it is related to contacting, you will be suspended from contacting, possibly for life.

Vladimir : They have love, maybe they have children, a family. How would you look at it?

Irina : What you're saying is, would they destroy the family and bring it back?

Vladimir : And block memory, and destroy family, and love. But what about the love of our Almighty? Are the laws of the Interstellar Union higher than the laws of God?

Irina : They would have called both of them and asked her. Interstellar Union specialists have special psychologists who would talk about the reasons for her decision: why she left her planet, whether she has relatives there. You know that your planet is not part of the Interstellar Union.

Vladimir : She would say: “I know everything perfectly well, but I love him, I want to be with him.”

Irina : Yes, I understand.

Vladimir : You have no right to violate my free will.

Irina : They would say: “If your planet is not part of the Interstellar

Union, then your relatives, who love you, do not know that you are on another planet. Can they assume that you flew away? They did not find you and your body . The information that you are on another planet is hidden from them."

Vladimir : She would answer that she would tell them.

Irina : They wouldn't force her to come back, they would ask leading questions.

Vladimir : She would say that she herself flew away to the aliens, that they would never see her again and would not prove anything to anyone that she had disappeared. I want to be with my loved one, this is my decision. Since we met with him, if this happened, this is the will of the Almighty.

Irina : Psychologists would ask leading questions: how do you feel about the fact that you are destroying the lives of your relatives who are looking for you? And so on.

Vladimir : If she is an intelligent woman, she would say about the Mentor, about the decision of the Almighty: a meeting is needed for something, otherwise it would not be allowed by the Almighty, you do not have the right.

Irina : She would be offered to go to the Higher Self and ask the Mentors why she chose Earth to incarnate.

Vladimir : I understand. If you go through this entire chain.

Irina : If it is by voluntary consent, then the one who allowed it answers. She did not break the law, she does not belong to the Interstellar Union. No sanctions would have been applied to her. She doesn't know our laws.

If she voluntarily, after all the conversations, gave an answer that, despite the fact that her loved ones do not know about her fate, she is

ready to announce to them. She would be told that this is impossible since it is a form of evidence. She is ready to declare without evidence.

Vladimir : No evidence.

Irina : Appear in front of your loved ones on the ship, at night, and tell it like it is, without handing over the letter. She wouldn't be allowed to do it.

Vladimir : Yes.

Irina : I am ready to do this, I am aware of the full extent of responsibility, including to the Angels; I realize that I am causing suffering to my relatives, I realize that I am lowering my vibrations.

Vladimir : Maybe she’s an orphan, we don’t know.

Irina : An orphan is different. We're talking about relatives now.

Vladimir : Well, well.

Irina : They would ask her why she made such a decision. Maybe there is something on Earth that doesn’t suit her?

Vladimir : Could they still be allowed to stay together under some conditions?

Irina : Yes. If she said that it was voluntary, despite all the consequences, including spiritual development. Even if I incarnated on Earth, I chose the incarnation myself, I don’t want to live there. I am fully aware that I will not fulfill my task of incarnation and I take responsibility for this (precisely on Earth). If she had fully admitted, they would have left her. But in any case, he would have been banned from contact.

Vladimir : I see. Mead, were there any precedents of this kind in the history that you know?

Irina : I didn't hear. (He smiles).

Vladimir : There will be more. All. Thank you very much for your communication.

Friends, we say goodbye. We had a very interesting conference. We dedicated it to both the "exocortex" and the love between aliens and earthlings. Very informative. I thank Mead for the most interesting and important answers to my questions. Thank you Irina.

Until we meet again on air, all the best.

Irina : See you again.

Live broadcast 01/02/2021

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Vladimir Goldstein - journalist, Chicago, USA;

MidgasKaus is a representative of the planet Esler, a biologist, psychologist and specialist in alien civilizations.

https://www.youtube.com/watch?v=0HBn8l_6T9A

00:21 Presentation of conference participants.

Irina: Hello, dear friends. My name is Irina Podzorova. I am a contactee with extraterrestrial civilizations, and today next to me is my curator, biologist, psychologist and specialist in alien life forms - MidgasKaus from the planet Esler. Our guest today is Elena, she is a doctor by profession and wants to ask my supervisor a few questions. Hello, Elena.

Elena: Hello. Greetings to those who provide technical support today, and to our valued viewers.

Irina: Greetings. Mead says: “I greet you too. Thank you for coming to us with your interesting questions.” He is ready to answer.

Elena: Thank you.

01:12 Endosymbiotic theory. Motive Force controlled by Divine Mind. The role of plasmoids in the creation of the animal Soul.

Elena: First question. Is the endosymbiotic theory correct?

Irina: It’s better for him to have a few words of explanation; their terms may be different.

Elena: The hypothesis or theory is based on the fact that eukaryotes are the result of a symbiosis between different prokaryotes. And it is

assumed that the nucleus developed as a result of the isolation of DNA from the cytoplasm by invagination of the plasma membrane and enveloping the nuclear substance. The endoplasmic reticulum and the Golgi apparatus could have arisen in a similar way. This is what the endosymbiotic theory sounds like. Is she true?

Irina: Mead says, “Do you want to know what the Interstellar Union's view is on the natural evolution of microbiological life forms?”

Elena: Yes.

Irina: Our science is inseparable from the knowledge of the Spiritual World. This is true not only in physics, but also in biology. We believe that life did not arise by chance, if by chance we mean a mind-independent combination of various organic substances. We believe that there is a driving force in matter, which is controlled by the Divine Mind. In any atom, in any molecule there is a driving force that makes it possible to obtain more complex ones from simple substances without human intervention or anyone from the outside.

Our science has proven that even in the protoplanetary disk from which planets are formed, the synthesis of various organic substances and the emergence from them of the simplest forms of microorganisms that live practically on dust particles is already possible. We investigated this issue and found that even before the formation of planets, life in the form of microbes already appears on such formations.

On the issue of the boundaries between dead matter and a living self-organizing system: as you know, any cell consists of material components, that is, substances, what you call elements of the periodic table. The very elements of the periodic table that enter a living cell are, in essence, no different from the substances that enter dead matter. Only their structure differs.

A living cell, including a microbial one, or a virus cannot emerge until plasmoid civilizations create an animal Soul for it. In the case of germs and viruses, this is the so-called group Soul. It includes the vital force, which enters in the form of energy into the animal Soul, and the ability

to reproduce, irritate, and divide. Only then does the animal group Soul influence matter in such a way that the walls of the cell are assembled from the substances.

As for nuclear and non-nuclear forms, we did not consider this issue as particularly important. Because both nuclear-free versions of life are possible - viruses, and nuclear ones, which contain DNA - genetic information, separated from the cell itself when it becomes more independent. A viral life form must take material from the outside: for reproduction and construction of new viruses.

An autonomous cell already contains within itself the potential for synthesis, what you call the endoplasmic reticulum. And what came of it? The reason is the influence of the energy of the animal Soul created by plasmoids. This is not considered by you, because the Spiritual World is not taken into account by your scientists. We have this serious teaching, without which our science cannot exist. Otherwise, it is impossible to explain the spontaneous synthesis of rather complex protein molecules, nuclides and nucleotides and their assembly into one without the presence of intelligent force.

Elena: Okay, thank you.

07:18 Alzheimer's and Parkinson's diseases. Spiritual causes of illness. The main method of prevention.

Elena: There is still no unambiguous concept of the molecular basis of the pathogenesis of diseases such as Alzheimer's disease and Parkinson's disease. At the molecular level, Alzheimer's disease is caused by the aggregation of two proteins, amyloid beta and tau protein, leading to the destruction of nerve cells. Amyloid beta strands in the laboratory curl to the left, but amyloid from a patient's brain curls to the right. My next two questions are: are beta-amyloids and tau aggregates a cause or consequence of neurodegenerative diseases, and why are they formed? And the second question: is the blockage or blockage of the energy channel of low vibration energy the cause of the aggregation of these proteins or the cause of the disease?

Irina: The causes of Parkinson's disease and Alzheimer's disease are

always disorders, pathologies at the Spiritual level. The physical body of a person is a small part of the energy of the Spirit, part of which remains in a non-embodied form in the Spiritual World, what you call the “Higher Self”. Part, in the form of consciousness, is manifested through the brain of this person, and the densest part is manifested in the form of energy of the dense material body.

In order to be manifested in the form of energy of a material body, we create this body from substances that come from the nature of a particular planet, in this case the Earth. Various plasmoid civilizations, which are responsible for the creation of the elements of the Earth and the primary elements that make up the hydrogen, oxygen, etc. that you know, are actively taking part in this.

Regarding the causes of brain diseases: what you called degenerative processes is a process of reverse evolution. Evolution is the development of consciousness and the development of brain structures that occur under the guidance of Spiritual development. By Spiritual development we understand mental development, that is, the comprehension of something new for the sake of what is unknown to man and the development of feelings, that is, the expression of one’s feelings and directing them into more positive dynamics, and the development of Spiritual knowledge. Awareness of oneself as a Spirit, independent of the body, and the dissolution of this Spirit in the light of Love. All together: the development of the Mind, the Spiritual Heart and the development of the Will. We call all this Spiritual development.

We do not, as you do, divide development into the development of intelligence, the development of emotions, the development of attention, or anything else. We collectively call all this Spiritual development, since we do not divide the Spirit.

How does development differ from degradation? Because development allows the Spirit to be closer to its Source. Not just to be, but to feel closer. And the more developed the Spirit is, the more it feels like this Source, the more it merges with the Soul of the World, what you call “universal energy”, “cosmic consciousness”.

Regarding the brain: all the proteins that you named, and others, including more than a dozen proteins that are responsible for memory,

their structure can also be disrupted in Alzheimer's disease. And with Parkinson's disease, the movement system, the motor cortex of the brain, may be disrupted. Several dozen proteins are responsible for signal transmission and adequate muscle response to these signals. These are proteins.

All these structures: neurons, proteins, myocytes, etc. created with the goal of giving the Spirit the opportunity to develop in earthly conditions. The body, according to the teachings of the Interstellar Union, with the correct attitude towards it, is led by the Spirit. This is true on both sides. The body has an influence on the Spirit. And the Spirit has influence on the body. But with the development of will, consciousness, faith and the power of love in oneself, the Spirit becomes a manager. But this does not mean that the physical body becomes immortal or less vulnerable to physical illness. This means that the Spirit, in any case, performs the tasks for which it came into this incarnation. It must be remembered that the physical cause of death can be any. Death cannot occur (we mean natural causes, we do not mean violent deprivation of life from another intelligent Spirit) before the Spirit is ready for the transition.

The main method of preventing brain diseases in old age, including memory loss, spatial orientation, various hypochondriacal and hallucinatory states, is to live in the spirit of love, forgiveness and, most importantly, the desire to constantly learn new things. As soon as this disappears, a person no longer believes in goodness, becomes fixated on his past grievances, and the Spirit begins to return to the past to work through them. Why?

He has little time left before leaving incarnation. The Higher Self tells him. He returns to the past with his thoughts, his memory, focuses on past events in order to work through them and not go into the Spiritual World with a load of negative blocks. They will pull him to a low Spiritual level. Because of this, he does not focus on the present, does not fixate on its events, and quickly forgets the events that happen around him. He returns his consciousness to the past and can mistake the people around him for people from the past. Thinking that he is younger, or that he lives not in the same place at the moment, but where he lived 30 years before. He experiences fixation amnesia. This is the Spirit’s tool for working with its past mistakes, but it does this unconsciously.

If there is a person next to him who understands this process, he can direct him in a positive direction. Parkinson's disease has several causes. These are injuries, exposure to toxic substances, infections, spiritual reasons: hidden anger and aggression, due to which the Spirit, in order not to lower the vibration, further restricts the movements of the body.

Elena: Thank you. Sounds like motivation.

16:33 Cancer stem cells. Parasites, microbes, mutations are the causes of tumors. Mutating cells. Reduced immunity.

Elena: Next question. Do cancer stem cells exist and do they cause relapses? How can such cells be specifically eliminated?

Irina: What you call cancer cells, Interstellar Union researchers have found that in structure and nature these are different types of organisms.

These can be parasitic forms of organisms, similar to your protozoa: Giardia, Trichomonas, Toxoplasma, etc., which have lost the structural forms of their bodies and mimicked the cells of your body. Microorganisms that entered into symbiosis with various microscopic fungi and formed a tumor. These can be various blisters containing macroparasites created by helminths. Some of your doctors mistake them for cancer. These could be your own cells, which, as a result of DNA micromutations, have switched to a form of existence in which they cease to benefit the body, produce substances harmful to it and feed on the body’s tissues. Such mutations are possible with hidden negative emotions of resentment, anger, hatred, directed at the world around us or at oneself. Some of these cells seem to obey the Spirit and begin to destroy what they can destroy.

A common symptom of any cancer caused by parasites, microbes, mutations is reduced immunity. Cancer cells form in the body of any person, even small children.

About cancer stem cells. You call stem cells the cells from which the

entire organism grows in the mother's womb, as far as I understand?

Elena: Yes.

Irina: In rare cases, they can mutate into cancer cells. It depends on the energy of the parents. In the womb, at the time of birth and until the age of 14, the child is in a single biofield with mom and dad. They can influence him with their energy.

The child's problems at this age reflect the energetic and psychological problems of the parents, which they hide from themselves. This is their lesson. The child becomes a litmus test for their undeveloped spiritual problems, which they came to solve in this incarnation. They could agree with the Spirit of the child in advance, this happens quite often, that he will come and show them this problem through his illness.

It is possible that the stem cells will be cancerous, but this is rare. All cancer diseases have a spiritual cause. Cancer cells form in all people, but they turn into cancer when immunity is reduced, and there are spiritual reasons.

Elena: Thank you.

20:35 The place of pathogenic microspecies in the general system of evolution. Percentage of pathogens. The task of microbes on the planet.

Elena: Some microbiological species are complex biological nanosystems. They may have a stator, a rotor, or a rotating flagellum. Proton propulsion systems resemble electric motors. They are unique in that they regenerate themselves throughout their life, and even rotor replacement occurs while it is spinning. Evolution is built into the program of these species for sustainability. But pathogenic microspecies evolve faster than the human immune system can produce protective material.

My questions. What could this lead to? For what? To regulate the population on our planet? Or for our evolution?

Irina: According to the Interstellar Union, not all types of microorganisms have been discovered by earthlings. A smaller part has been discovered and described than what exists in nature.

Regarding pathogenic microorganisms, their percentage is 5-6 of all types of microorganisms. Most are harmless to you and animals, plants, and other biological forms. The task of microbes is to maintain the biobalance of the environment, when the former bodies of plants, animals and people enter nature, and they need to be decomposed into their component parts - this is the first thing. The second is to support life in still existing animals, plants and people in order to help them absorb various substances, adapt to the environment, etc.

Microorganisms are all around you in different forms. Without microbes you cannot get a single fruit or vegetable because soil fertility is impossible. Everything that falls into the soil, the dead remains of plants, animals and people, must be processed into substances that can be absorbed by plants. Without microbes this processing is impossible, since the substances that were part of the earth's bodies must be decomposed into simple substances, and this will not happen without microbes. Even over a long period of time, decomposition continues for various reasons. That's why there are so many different types of microbes.

Among microbes, in order to control their reproduction, their population, there are bacteriophage viruses that multiply in the microbes themselves and cause their death and their evolution, adaptation to these bacteriophages in order to control their numbers.

24:10 Peaceful coexistence of microbes and viruses with humans. The effect of lowering human and planetary vibrations on microbes. Symbiotic relationship between immunity and pathogens. Spiritual mood of a person and illness.

Irina: Pathogenic microbes. We managed to find out that long before the war, all microbes and viruses had the ability to coexist peacefully with humans, because humans had energy favorable to them. A microbe, like any living creature, is capable of feeling with its animal Soul, albeit a group one, warmth, care, love and goodness coming

from a rational being. He is capable of taking care of such a creature himself, with his enzymes.

With each decade after the war, people began to lower their vibrations more and more due to difficult living conditions and a general decrease in the vibrations of the planet, which occurred as a result of the war and the killing of a large number of people in one territory. For this reason, it has become difficult for light, high-vibration Souls to be in this space. Low-vibration people got the opportunity to come to power due to the lack of love for others, for themselves and its replacement with selfishness. Some types of microbes switched to feeding on living human tissue.

Before the war, this happened in weakened, old people who were injured, etc. The higher the consciousness, the less it is attacked by microbes, and the immune system is built correctly. The task of human immunity is not to destroy everything around, but to build the correct symbiotic relationship with conditionally pathogenic and non-pathogenic forms. The immune system reacts to any flora, even beneficial ones, in the intestines or mouth. The task of the immune system is to build the right relationship with the microcosm around it.

The correct relationship is to prevent microorganisms from damaging body tissue, and at the same time not to become so active that antibodies damage the body itself. That's the balance. The balance of the strength of the immune system and its ability to adequately respond to stimuli of various kinds depends on the spiritual mood of a person, on the vibrations of his Spirit, on his acceptance of himself and others as they are. If this is not enough, the functioning of the immune system is disrupted from a decrease to a local increase against some substances, which leads to autoimmune diseases, allergic reactions, and many other disorders.

27:58 Ancestral or animal egregors.

Elena: You said that before microbiophytes were created, an animal or ancestral Spirit had to appear.

Irina: Animal Soul.

Elena: Animal Soul. Could this create a generic or animal egregor? Or does it already exist?

Irina: We call egregors meetings, structures in the astral world, which consist of the energy of intelligent beings, their thoughts, feelings and desires. Since animals and microbes are not capable of consciously feeling and thinking like people, the creation of any egregors is impossible. They just live. They have no conscious thoughts, no complete thoughts. They react to this world as they perceive it. Egregors were created by intelligent beings, not animals or microbes.

29:17 Mycoplasma genitalium and ureaplasma urealiticum. Correct treatment. Effective drugs.

Elena: I have two questions. Mycoplasma genitalium and Ureaplasma urealiticum. They do not have a cell wall, but they have DNA, RNA, and the ability to reproduce. There is a peculiarity that they are treated for a long time, but this causes resistance to antibiotics. A question. Is treatment with a single dose of two grams of azithromycin effective? As an example.

Irina: Yes, I looked at several people with similar microbes. Here everything depends on the localization and prevalence of the process, on the immune response of body tissues and on the accompanying microflora. If protozoa, for example, Trichomonas, are detected along with ureaplasma, mycoplasma and chlamydia, then you need to remember that trichomonas, since they are predators, can feed on bioplasmas and other microbes that you listed. At the same time, mycoplasmas, ureaplasmas and chlamydia can survive for a long time inside trichomonas. If you first destroy the trichomonas identified during diagnosis, and do not treat the intracellular microorganisms, this will not be effective, since when the trichomonas disintegrates, its cell will die and the mycoplasmas and ureaplasmas that were in it will enter the cellular environment and begin their reproduction. First point.

The second point: without treating the second partner, even if there are no symptoms, the results are not effective. The third point: if there is suppression, a decrease in immunity, then we will definitely correct this with some kind of immunomodulators. Preferable, of course, is

polyoxidonium or galavit. If there is a serious violation of the immune system, then something like thymalin. If the accompanying microflora is gram-negative, which often happens in men with non-traditional forms of sex, if you mean the genitourinary environment. From places not typical of the reproductive tract, gram-negative forms enter the prostate gland. Various types of spirochetes, which are found in the oral cavity, or Escherichia coli, or proteus vulgaris, which is found in the intestines. This needs to be talked about, because many cannot cure inflammation of the genitourinary tract, which turns into pyelonephritis, kidney stones, high blood pressure, etc.

33:34 Artificial insemination. ECO. ICSI. The presence of the Spirit, Spiritual Guides, Angels at conception. Introduction of vital force into the cell. A vital thread for connecting with the body.

Elena: Now I have questions about obstetrics. IVF is fertilization without the exchange of energies between partners. If we take, for example, ICSI (this is intracytoplasmic sperm injection), the procedure is not painless. Follicles are obtained by puncture of the ovaries, and spermatozoa by puncture of the testicles. The fertilized egg is deprived of the common vital parent part of the energy. My question. Does this affect the results of implantation and a healthy pregnancy? Across Europe, this number ranges from 35 to 45%.

Irina: If conception is difficult using the usual method, and ectopic fertilization is required, this already indicates hormonal disorders in the body, or obstruction of the fallopian tubes. This is on a physical level. At the spiritual level, it is possible that the Spirit simply did not choose these parents for incarnation. Trying will not bring success. Even a successfully fertilized egg will not develop and will die in a few days, as the vital force contained in these cells will dry up. The spirit will not come for conception with its life force to be shared.

The fact is that any Spirit becomes a witness to its conception. We were all present at the moment when Mom and Dad conceived our body. We stood next to our Spiritual guides, the Angels, who led us into the material world when it was our turn to incarnate. We could have waited for this turn for a long time or not for long, but we came into this world with guide angels who brought us and had a plan for implementation: what we would do, what we would strive for, what qualities to develop, what to suppress.

When the egg unites with the sperm, whether it happens in the womb or outside the womb, or in any vessel, the Spirit, if present, at the union injects its life force into the first cell of its future body. Further, when she began to share, the Spirit is next to her mother. He can be absent, fly into the astral plane, but his life force is already present.

When the fetus reaches 7 weeks of age in an earthling, the Spirit can fully enter the body and begin to adapt to it. He can leave the body. When an ultrasound shows a child sleeping in the mother's womb, this indicates that the astral body (Spirit) is absent. The spirit is already connected by a vital thread to the physical body, like a sleeping person. The embryo, no matter what stage it is at, is no different from a born child, except for age. According to the rules of the MS, any embryo should have the same rights to life as a born child.

38:10 Infertility on the planets of the Interstellar Union.

Elena: Are there any infertile couples on your planet?

Irina: Couples are not infertile. Bringing the Spirit into the world is not their mission. They have a different mission.

38:30 Aura of the fetus.

Elena: Next question. Does the fetus have an aura?

Irina: The life force of the etheric body. The spirit came with its mind. He begins to form astral, mental shells around his aura. Your own mental body, astral body, etc. Then the child begins to experience his own feelings. The aura is the manifestation through the body of his intelligent Spirit.

39:13 The effect of ultrasound examination on the fetus.

Elena: How does ultrasound examination affect the fetus? According to my observations, future children do not really like it. They turn away,

cover their faces and ears.

Irina: They react not to the ultrasound itself, which is beyond the capabilities of their receptors, but to the fact that ultrasound causes vibrations in the amniotic fluid, through which unusual vibrations occur. Vibrations are not painful, they are scary. They can put pressure on the eyes and ears. The fetus is in an environment to which it is only adapting through its receptors, and it is difficult for it to understand what is happening in a new world for it. He reacts with his animal instincts, which any person has.

Elena: I see.

40:34 Childbirth on the planet Esler.

Elena: How is childbirth on your planet? Are there maternity hospitals, midwives, doctors?

Irina: They don't have the concept of "hospitals". Childbirth takes place at home. Every woman can do this. My husband can help. She can call a friend, mother, some other woman if her husband is absent. Sometimes older children help.

41:15 Managing labor pain on planet Esler.

Elena: How does a woman in labor manage her pain?

Irina: She perceives these sensations as muscle contractions that will lead to expulsion, and not as pain.

Elena: Fruit.

Irina: She is convinced that these sensations are absolutely normal. The woman convinces herself that she does not feel pain. Your women, if taught and prepared for this process, can experience minimal pain.

41:53 Preparing expectant mothers for contact with the fetus.

Elena: Does a woman have contact with her child during childbirth? And does contact help her, for example, not to get entangled in the umbilical cord and to correctly enter the birth canal?

Irina: She can communicate with the Fruit Spirit on a mental level. And dad can communicate with him. Our girls are taught this at school. They teach that when you become pregnant and carry a child, you can mentally talk to him, get in touch with his Soul. Ask: “Why did you choose me? Did you and I know each other in past lives? What are our common programs?” These issues can be clarified. Having gotten used to talking during pregnancy, a woman will come into contact with him during childbirth. If she did not speak (for example, a woman on Earth) during pregnancy, then it will be difficult for her to tune in during childbirth. I'm afraid she won't have time for this.

43:05 Presence at birth of Spirits from Spiritual groups and the ancestral egregor.

Elena: Are Spirits from the ancestral egregor or Spiritual groups present during childbirth?

Irina: Maybe, but not always. They can come with the permission of their mentors, Consulting Angels.

43:20 “Fontanelles” in newborns.

Elena: Why do newborns have large and small fontanelles in energy terms?

Irina: The formation of chakras on the energy plane is reflected in the physical body. Open fontanelles on the physical body show that the baby has an open window to the Spiritual World.

43:52 Blocking the flow of energy by stroking the head.

Elena: There is an opinion that it is not advisable to stroke children on the head, so as not to block the flow of energy. This is true?

Irina: This will not block the flow of energy. “Do not stroke the head” - out of fear that an adult may not measure his strength, put pressure on the child’s head and cause injury to him. It is energetically safe. Moreover, relatives do it with love.

Elena: Well, yes, I see.

44:34 Physiology of women on Esler.

Elena: I would like to ask a question to female curators, but then I’ll ask Mead. What is the menstrual cycle in women? Its duration? Do women suffer from menstrual pain? During menopause, do they experience menopausal symptoms?

Irina: There are no such periods in the physiology of our women. There are no periods of rejection in women of the layer of internal substance that is preparing to receive a child. This layer constantly exists in a woman’s birth canal. Due to the absence of hormonal periods, there is no need to shed this layer. The body does not produce progesterone, as women are constantly ready to accept an embryo and give birth.

Elena: Excellent.

46:00 Suppression of female hormones by male hormones in women.

Elena: Now questions from gynecology, which can also be psychosomatically or energetically interconnected. Why does the suppression of female hormones by male hormones occur in women? Is this related to the advantage of male incarnations?

Irina: The reasons are different. This may be due to her non-

acceptance of the female body, to her hidden resentment or anger at her mother, or at herself. To some part of her body that seems to her not as perfect as she pictured in her imagination. It may be associated with resentment towards the father and non-acceptance of his masculine qualities, and at the same time the desire to have them. A mild form of envy. And then the body begins to react with hormonal disruption to show her that her internal spiritual problems are associated with the male gender.

Elena: I see. Thank you.

47:18 The connection between unspoken emotions and women's health. Reasons for the formation of energy blocks. Consequences of hormonal imbalance.

Elena: Is there a correlation between the occurrence of ovarian cysts and uterine fibroids and unexpressed or suppressed emotions?

Irina: Yes. Uterine fibroids and cysts can occur for various reasons. Due to constant inflammatory diseases, sexually transmitted diseases, plus low immunity. They can be caused by hormonal imbalances, which are caused by negative blocks in the chakras. In the second chakra, which is responsible for childbirth and family. In the first chakra, which is responsible for the feeling of security, including in the society where a person is located.

Blocks are formed by unspoken grievances, claims, and non-acceptance of another person. It happens that a woman does not accept her feminine essence, does not believe that she can be interesting to men, or does not want to start a family for some reason. Her Spirit causes a hormonal imbalance so as not to experience sexual desire, not to be attractive to men, because of this, problems with the genital organs begin, for example, a benign tumor, premenstrual syndrome, endometriosis, which leads to the fact that the very thought of sexual intercourse is unpleasant for a woman. proximity.

Elena: I see. Thank you.

49:02 Uterine cancer. Unprocessed feelings. Creation of an energy block. The power of forgiveness.

Elena: Uterine cancer. The uterus is a reproductive organ, and there is a question. Is there a dependency in a woman's attitude towards her own children or those of others, for example, excessive love with suppression of the child's will or rejection, hatred, as the opposite feeling?

Irina: Uterine cancer can arise due to negative feelings towards your children or towards your husband, or towards the man who, for example, committed violence against a girl in childhood. Including sexual.

In your world, unfortunately, this problem is relevant. That is, sexual violence could have happened when the girl was still little, she did not tell anyone about it, because she did not trust her mother. Unprocessed feelings created a block, which in adulthood caused genital cancer, since her subconscious thoughts and aspirations were aimed at destroying this person. She cannot forgive him, believing that forgiveness is an excuse. But that's not true. Forgiveness is accepting a person as he is, with an understanding of the true reasons why he did what he did. Understanding that the criminal is part of God, but he has lowered his vibrations so much that he cannot feel happiness without hurting someone. Only the light of love directed towards him can dissolve this block and help him become a bright divine being.

Elena: Thank you.

51:09 What does lifespan depend on? The purpose of life.

Elena: The date of birth is tied to the fate that the Soul chose when viewing before the next incarnation. And the entire scenario is made up of Spirits. And also the birth scenario. How will the woman give birth, what kind of staff will be there, and so on. Is it the same with death? If the death scenario is drawn up by Spirits, then one cannot help but note that these creatures have a huge arsenal of options and even a sense of humor.

Irina: It is not always recorded about the Spirits existing nearby during childbirth. The causes of death and its duration are determined quite accurately. But the Spirit can change the course of life both to a lesser extent and to a greater extent. Depends on how he develops his qualities in this incarnation. If he develops them too quickly, there may be a two-fold decision from his mentors: either to leave him in incarnation for a period longer than planned, so that he can do in one life what he planned to do in two or three. There is an opposite decision: to terminate his life ahead of schedule, so that he can go with new qualities into incarnation, into another world, or he begins to work in the Spiritual World, because a collaborator with his vibrations is needed.

Elena: Where is the limit of these efforts?

Irina: It is important to determine the priority here. What are you living for? Is your goal to live on Earth as long as possible or to develop your Spirit? Your desires, feelings and dreams, which you will manifest through your brain, depend on your goal.

Elena: I see.

53:30 Asceticism without judgment. Moderate asceticism. Consequences of asceticism.

Elena: Asceticism. How does it affect raising vibrations and consciousness?

Irina: It has a positive effect if the ascetic limits himself to something without condemning these things, without judging people who do not limit themselves to this. Second: if this asceticism is moderate, that is, it does not harm the body. If asceticism is harmful to the body, then the idea that the body contains the Divine Spirit is rejected, that is, the body is not a temple for the Holy Spirit, but becomes an extra part of the Spirit that needs to be slowly destroyed.

This lowers vibrations. Asceticism is individual for each person. For the spiritual development of one, asceticism is suitable; for another, on the

contrary, those forms of spiritual development are suitable that exclude it, and allow oneself everything, but in moderation. This depends on the individual characteristics of the Spirit and on its attitude to the very fact of limitations.

For some, for example, restrictions on food, sexual behavior, etc. will help you shift your attention to higher spiritual spheres, distract yourself from material feelings, sensations of the body, and focus on your Spirit. For others, this same action will cause a negative reaction: despondency, sadness and constant memories of lost material pleasures. By the way, if they are given the opportunity to experience these pleasures, then, thanking God for them, they will develop spiritually and do good. Those who accept these pleasures with selfishness should limit them; those who accept them with gratitude should not limit them.

56:02 Fear hormones and their effect on the body. Decomposition of hormones into amino acids. The role of DNA in the production of enzymes.

Elena: Are there fear hormones from slaughtered animals in meat and its products, and what kind of energy do they provide?

Irina: Yes, there are fear hormones. What are fear hormones? Adrenaline, norepinephrine, cortisol are produced in your body, and not only when you are afraid, but also when you are irritable, despondent, etc. They are produced by your adrenal glands, enter directly into the blood and have an effect on the body: in small quantities it stimulates, and in large quantities it lowers immunity, causing problems with joints, muscles, heart, etc.

What happens to the hormones that enter through the digestive tract? Hormones are protein substances. As you know, such substances, including hormones, in Earth's medical medicines are administered mainly parenterally, that is, bypassing the gastrointestinal tract. You, as a doctor, know well the reason for such an introduction. The fact is that pepsin and hydrochloric acid in the stomach, trypsin and chymotrypsin in the pancreas effectively decompose any protein into amino acids. The same thing will happen with the hormone that gets to you through the digestive tract.

Let's take meat. The adrenaline contained in the blood and tissues of the animal will be broken down into amino acids, absorbed through the villi of the small intestine, go to the liver and be used to synthesize your proteins. If you eat a piece of beef, the proteins contained in the meat of this animal cannot become yours, since your DNA is different. Your proteins and the cow's proteins are not the same. The body must come up with something to transfer them into yours.

DNA produces enzymes that break down other people's proteins into their component parts, from which they build yours: it will be hemoglobin, adrenaline or skin protein. And if you eat beef liver, then the proteins included in the liver. If you eat fish, its protein composition is even more different from yours than protein from a cow. The plant protein of lentils is even more different from yours in the structure and structure of the proteins. All this must be recycled.

1:00:01 Consequences of eating meat in large quantities.

Irina: Eating meat in large quantities, more than 5% of the diet, which includes both fish and meat, what you call living life forms, automatically reduces the consumption of plant foods, which also contain the substances you need. Why are you cutting back? Because meat is an energy-rich and high-calorie product. If you eat a lot of meat, you won't want to eat anything else.

The second point: your pepsin, chymotrypsin and trypsin may not be enough to digest such an amount of meat. Unprocessed, it will enter the large intestine, where the necessary microflora lives, which will feed on this meat, decomposing it, which will result in hydrogen sulfide, blood acidosis, constipation and the like. These problems can be easily solved if they have started recently.

Eating large amounts of meat leads to increased sensitivity to colds, muscle weakness, headaches, lowers immunity, etc. Reason: microbes living in the intestines digest protein products that enter there, for which your enzymes are not enough. By suppressing intestinal motility with special enzymes, so that protein foods: meat, milk, plant products (peas, soy, etc.) remain in the intestinal lumen longer, microbes feed on it longer. This leads to atony, constipation,

bloating and intoxication. They love to eat deliciously what you bought with your money. Adaptive mechanism.

1:02:54 Levels of Spirits incarnating on Earth.

Elena: How do you see the egregor of Germany? What is the program of this country? Are there many highly developed Souls here?

Irina: I have not studied this issue by country. All countries have approximately the same number of high vibrational Souls. They most often incarnate on Earth from the 5th to the 15th spiritual level. These ten levels of the Spiritual World are embodied in approximately 60% of cases. Below the 5th and above the 16th are less common. The lower or higher the level, the less common it is. This data is about five years old. I received them from my mentor from the Spiritual World.

1:04:05 The predominance of spiritual values in India. Focusing on the spiritual and material aspects of reality. Features of schizoids as psychotypes.

Elena: Can we say that high vibrational Souls, above the 15th level, incarnate in India? Why is it so dirty there? I mean financially. There are many believers, many teachers, yogis.

Irina: He says these data are not for India, not for Germany, but for the Earth. In the Spiritual World, they take into account who goes to Earth.

Why is it like this in India? Firstly, they have a very large population. Secondly, they have a special attitude towards the physical world: physical reality is not important. Only the spiritual is important. This attitude may focus on achieving mental or spiritual qualities.

When a person focuses on one thing, he automatically loses interest in another aspect of reality. Materialists, for example, concentrating on the physical aspect - making money, forget the spiritual ones. Conversely, focusing on spiritual or intellectual qualities, they may forget about the physical aspects.

In your psychology this is known as a manifestation of schizoid character accentuation. A schizoid can think about some abstract abstract things in the Spiritual World and direct his attention so strongly that he becomes indifferent to his physical appearance, including the hygiene of his own body and clothing. This is not a pathology in the broad sense of the word. This is a sign that he is focused on one thing. Question: is this good or bad? We believe that these are lessons he must learn to harmonize with the body in which he has incarnated. Until he learns to properly manage his body, clothes, and home, he will not learn to develop spiritual qualities in himself and vice versa. Everything should be harmonious for a person.

Elena: Logical.

1:06:50 Lack of desire to learn. Inertia of the consciousness of earthlings and the DNA of primates. Aggression as a defense of the usual way of life.

Elena: Is stupidity an evolutionarily young Soul or a karmic work-off? Showing stupidity.

Irina: How do you understand? Like lack of knowledge? Or experience?

Elena: Lack of knowledge. Lack of desire to develop this knowledge.

Irina: A sign that the Spirit is not interested in exploring the world. Most often, the reason is hidden feelings of disappointment, despondency, rejection of this world, perhaps hidden resentment towards others. We do not have the concept of “laziness in acquiring knowledge.” There is despondency, that is, an unwillingness to direct one’s energy in a certain direction.

There are many reasons. The most important thing is that a person is used to living this way, and he does not want to change anything. I studied this phenomenon as a psychologist. The people of Earth have a very strong inertia of consciousness, which manifests itself in the rapid creation of a habit, good or bad, and in the long-term dominance

of this habit in human behavior.

One of his habits is an aggressive reaction to people who hold beliefs different from him. This aggression stems from self-defense, the instinct of self-preservation, the defense of a familiar and comfortable way of life, in which nothing needs to be changed. The fear of change arises precisely from this inertia of consciousness. Our scientists believe that this inertia of consciousness is manifested due to the fact that there is a lot of primate DNA in your body - 45%, more than in Burkhadians, for example. This percentage determines the inertia of matter in the manifestation of the entire spiritual mind.

1:09:35 Disbaptism. Baptism is a request to raise vibrations. The age of independent confession. Exit from the egregor of Christianity.

Elena: Question about those who have baptized themselves. They detach themselves, for example, from the Christian egregor and join the Ancestral one. What is lost or gained in this case if everything happens consciously and without negative emotional accompaniment?

Irina: Mirah Count was asked a question. The word “disbaptism” does not exist for an egregor. Whoever says the word “debaptism” does not understand the very essence of baptism. Baptism is not the creation of dependence on some egregorial structure, but a promise and, at the same time, a request to God, manifested in this or that Teaching, to increase one’s vibrations. If a person does not fulfill his promise, he does not automatically ask to raise his vibrations: to develop in himself the good qualities that are accepted in this religion. If he does not strive to demonstrate qualities in his affairs, in his practice, then he is automatically considered not to belong to this egregor. Even if he formally performs the rituals. They won't do him any good.

If he does not believe in the power of God, Christ, that he must carry the Christian Teaching within himself, if he does not strive to develop the qualities of Christ in himself, then Baptism for him is a simple formality that was once observed. He is no longer attached to this egregor. It is not the priest who attaches it to the egregor, but the person himself with his faith.

The child is baptized according to the faith of the parents. Parents pray for him, emitting egregor energies until the child becomes conscious and decides for himself whether to remain in this Teaching or leave.

For Christians who baptize children, the age of independent confession is usually seven years. Already at the age of seven, a person can decide whether he wants to fulfill the commandments and remain in this faith or not. If a person does not consider it necessary to confess his sins, take communion, or accept Christian morality and way of thinking, then he has already left it. He is not connected, as he was once connected by the faith of his older relatives and the priest. Having become conscious, he has manifested his will and does not emit these vibrations. Disconnects from the egregor.

Elena: I see. Thank you.

Broadcast January 5, 2021.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Elena – doctor, obstetrician-gynecologist;

MidgasKaus is a representative of the planet Esler, biologist, psychologist, specialist in alien civilizations.

#199 Report on the retreat in Abkhazia and the vote of the Interstellar Union on the provision of evidence. Higher Self

https://blog.cassiopeia.center/otchet-o-retrite-v-abhazii-i-golosovanii-ms-vysshe
https://www.youtube.com/watch?v=m-wyzkBz-YI

0:06 Introduction of the participants.

Maxim: Dear friends, hello everyone!

Irina : Hello everyone! Hello!

Maxim: We had technical difficulties with the first broadcast, we had to restart the broadcast. Tell me, how can you hear us?

Irina: Hello, can you hear us?

Maxim: Hello everyone! Hello Kyiv! Guys, please tell me how you can hear us? Great.

Irina: Okay. We are very glad, hello! We haven't seen each other live for a long time. For a long time you have been in touch with us only through our videos. Today is the first live broadcast of the new year 2021, so Happy New Year and Merry Christmas to everyone!

Maxim: Irish, let me make it lower so you can be seen better.

Irina: Okay.

Maxim: And we missed you. We had a wonderful retreat in Abkhazia. On New Year's Day the temperature in Abkhazia was plus 16-18 degrees. We were pleased with the weather. We had very interesting cases at the retreat; during morning exercises, our representatives of the Interstellar Union watched us on flying saucers, and many people saw this. Therefore, the retreat was very interesting in its structure, many people received feedback and became acquainted with the Light of true love that we talk about all the time.

Irina: This was my first time in Abkhazia. And in general, for the first time in my life I left the Russian Federation not on a flying saucer.

Maxim: They will say again: “Why are you laughing? Are you lying, perhaps?

Irina: No, it's true. I experienced a lot of things for the first time in 2020. It was the first time I went to sea, the first time I flew on an airplane, and the first time I left the Russian Federation not on a flying saucer.

Therefore, this year was a year of great discoveries for me. I hope, dear TV viewers, that for many of you this year has brought a lot of new, bright, joyful things. And the next year, 2021, will also undoubtedly bring us new experiences. And whatever it is, you should always try to see Light, goodness and love in it. This is the only way we can go through our life tasks.

Representatives of the planets are present with us: Burkhad - Raom Tiyan, Shimor - LiShioni and Esler - MidgasKaus. Everyone is familiar to you from our broadcasts. Today’s topic: “Results of the retreat in Abkhazia and the results of the voting of the Interstellar Union.” When we went on retreat, we were looking forward to the voting results with you. With this mood, we went to Abkhazia and began the retreat. And we celebrated the New Year with the same mood. Now the results are already known, and many of you read about it in our VKontakte group.

04:17 Intergalactic news. Travels of Jesus Christ around the Galaxy, visiting the planet Lianhunsheu. Appearance of reptilians from the planet Lianhunsheu.

Irina: Traditionally, Raom Tiyan would like to start the broadcast with greetings and Galactic news.

Maxim: Yes, Raom Tiyan, we are listening.

Irina: He says: “I greet you from the inhabitants of the capital of the Interstellar Union - the planet Pikran.” Pikran is the self-name of Burkhad.

Galactic News: The topic of discussion this week and in the coming days is the continuation of Jesus Christ's journey across the Galaxy. He is now located on the planet Lianhunsheu - this is on the border of the constellation Draco and Ursa Major. There live creatures of a humanoid type, not anthropomorphic, but of a reptilian type. He shows me an image: they bear little resemblance, for example, to the Selbetites. Firstly, they are smaller. They have dark brown and black skin color. Why are they reptilians? Because they look like lizards, but they have 6 limbs, 1.1–1.2 m tall. The head and face are like a reptilian, i.e. like a dinosaur, with scales, with round yellow eyes without pupils. This civilization is also part of the Interstellar Union.

Unfortunately, they do not have contactees on Earth, but, nevertheless, this is one of the most ancient civilizations. And now Jesus Christ is there on his visit. The next planet he plans to visit is also actively discussed - Disaru, Esler, etc.

And another subject of discussion, naturally, was the Council of the Interstellar Union, which took place in early January.

Here we move on to the next topic of our live broadcast, because this is also Galactic news that they already know.

07:34 Decision of the Interstellar Union to vote on the issue of physical evidence of contact. Reasons for refusal to provide

evidence.

Irina: The decision of the Interstellar Union to vote on providing evidence of the existence of the Interstellar Union.

The Interstellar Union actively discussed this topic, examined the state of the Earth's noosphere, all its political and religious egregors, studied public opinion and came to the conclusion that physical evidence of the existence of the Interstellar Union was inappropriate.

The main reason for this decision was that the governments of leading states know about the existence of the Interstellar Union from their contacts, including forced ones, with representatives of the Interstellar Union. He means when they shot down the plates, and in the early 60s they came into contact with representatives of the USSR and the USA. From all this they know about the existence of the Interstellar Union. And yet, by the decision of these political forces, this existence was not made publicly available. Accordingly, if evidence is now given to the people, by this the Interstellar Union can set up forces, cause aggression against power structures, which will cause irreversible military-political revolutionary movements on Earth.

And, by the way, representatives of the plasmoid civilizations of the Earth, who, as an exception, were invited to the Interstellar Union as full-fledged earthlings, actively opposed the evidence of the Interstellar Union. Their opinion was also taken into account, since they told a lot about the state of the Earth's noosphere. According to their observations, this will cause an escalation of the conflict between the authorities, who themselves do not want to reveal our existence to you, and the masses of people who want to join the Interstellar Union, especially after the announcement of the scientific, medical, spiritual and other benefits that await civilization , who entered it. For this reason, foreseeing the possible consequences of such an action, it was decided to refuse to provide evidence.

Another decision was made that directly concerns physical contact with Irina Podzorova. Now physical contact with Kirchiton or with any other representative of the Interstellar Union is possible for her only on purpose. What does targeted contact mean? This means that if the administrators of the Cassiopeia group, which has now been created,

decide where, to what planet and why she should go, then they will have to write a request to the Interstellar Union Contact Council so that Irina can be taken there without physical evidence. At the same time, you need to tell her what exactly she should see there, what to ask, and what information to bring back. And the second decision is that it is prohibited to transfer any objects to the Interstellar Union and its representatives.

Maxim: Previously, we gave various gifts, but we were forbidden to do this, there are very justified reasons for this.

Irina: Yes.

Maxim: Now we have been given the opportunity to choose which planet Irina should visit next. Accordingly, with the help of you and with the help of us, the administrators, we will decide where Irina will fly for contact, and what planet we will study, and we will ask questions about it.

Irina: Yes, you need to write to the Contact Council in advance which planet you consider necessary for me to visit. In this case, repetitions are possible, that is, returns to the same planet, if necessary. Write the reason why this particular planet. And you will need to write especially carefully the information about what exactly you need to find out, because the contact time is limited. Therefore, you will need to ask specific questions about what information the representatives of the Cassiopeia group want to receive, where videos about the Interstellar Union are directly published, what and about which planets you want to hear.

What is open for visiting Irina? Almost all the planets of the Interstellar Union of our Galaxy are open to her. If we are talking about planets that are not part of the Interstellar Union, but related to the Galactic Federation of Light or their colonies, then this is also with the permission, but of the Galactic Federation of Light. If we are talking about extragalactic worlds, then such opportunities will only exist after studying all 116 planets of the Interstellar Union.

Maxim: No, guys, this is actually a live broadcast. We just bring you

information from the very beginning. I'll sit closer to Irina.

14:10 About the healer Seraphim. Opening of the School of Contactees. Pay according to your heart. New projects of the Cassiopeia group.

Maxim: Guys, hello everyone! I have very good and not so good news for you.

Let's start with the good news. Starting February 1, we will open the School of Contactees, as I said. The conditions for getting into it are compliance with the project conditions, which I will outline in a separate video. In order to get into the School, you will need to fill out a form, which will be posted in our VKontakte group, as well as on our website, which will be prepared and launched in the near future.

Therefore, do not ask many questions, you will definitely see this form, which you will fill out in order to get into the School. Studying and living with us is only optional, i.e. according to my heart. How much do you think this training and accommodation cost you, is how much you will pay.

There is not very good news. We recently removed one of the healers from the project, I won’t even mention her name. I'll just tell you about the situation that happened. Of course, I knew that we were stepping on the tail of the financial hydra, but I didn’t think it would be to such an extent.

How was it? We took into the project a very interesting, as it seemed to us, rather self-centered healer, who was supposed to help you according to the donation structure, that is, without setting prices. Moreover, at the session she announced that she agreed with these conditions. But then suddenly I started receiving complaints from people, they wrote: “Sorry, I can’t pay that amount.” At first I didn't understand how much they had to pay. Then they told me that she was hinting that her services cost 2,000 rubles. Accordingly, when people hear: “2,000 rubles,” they begin to react and say that they cannot pay.

But that's not the point. The fact is that so much dirt and negativity rained down on me after I made the decision to remove the healer from the project, that I decided to tell you how some healers generally work. If someone sets prices for you, then this is definitely not in our project. In our project, none of the healers will ever set prices.

How do many healers work using the example of the person I took out of the project? They agree with you that you must pay for these sessions according to your heart. Let's say, if you then agreed on 1,000 rubles, then they assign you 20 sessions and ask you to pay for these sessions in advance. If you agreed on 2,000 rubles, then you are assigned 10 sessions, and you must pay for them immediately in order to be treated.

Irina: Good question: "How did her curator Archangel Michael comment on what happened?" I'll tell you about it now.

Maxim: Yes, we raised this topic with its curator. By the way, now she denies that her curator is Archangel Michael. She says that it is only Seraphim of Sarov, calling us liars and scammers. In general, I am some kind of tyrant, as she says, who breaks people like matches. She said so many nasty things to us, she said so many things while we were traveling to Abkhazia.

Irina: Now I will also express my opinion. I communicated directly with this person. I want to say right away that I received a lot of questions after the interview with Serafima about her participation in the project - from you, dear TV viewers, from administrators, volunteers. There were a lot of people, probably about 50 people, or even more, and Maxim also asked me relevant questions. Introducing her into the project was my personal decision. In fact, I don't regret it at all. We gained experience, a good lesson, and she also took the lesson. Nothing happens by chance in our world. Apparently we were supposed to meet.

I am in no way saying that she is not a contactee, that she is not a healer. I wrote directly to her and her students, who wrote to me. I hope that now many of them are watching us and know that this is so. I wrote that she has the right to set any prices for sessions, even in advance, even after, even in debt to treat people, but not in our project.

Why? Because the conditions of our project were known to her before she entered it. Moreover, in the interview that we had with her, I asked how she accepts people in our project? She said to the whole country: “Payment according to the heart.” I think “pay according to your heart”, what is it?

Maxim: Yes, this is the most important point. Because many people understand “pay according to your heart”, probably in their own way.

Irina: Yes, how I see people. I don’t want to say anything bad about her specifically as a healer and contactee. She was and remains a contactee. I want to talk about her concepts, to which she has the right, but for some reason she forgets that we in our project also have the right to our concepts. When she came to our project, she tried to transfer her concepts to work with us.

What specific concepts do we have about paying according to our hearts? This is when a person, regardless of whether he is a businessman or an old woman, decides for himself how much to pay for spiritual help. If no payment is received from him after a session of spiritual work, then payment according to the heart does not imply reminding this person about money at all. This remains entirely on his conscience, entirely on his responsibility. Not paying anything is his personal choice. There are such people, I will not hide it.

Maxim: Guys, in principle, I don’t want to talk about this topic for a very long time. I’ll tell you that now Seraphima is making some terrible, terrible videos about our project, calling me personally a tyrant, and that I somehow personally offended her, insulted her. No, I didn't insult her.

Dear Seraphim, you have failed to cope with your spiritual ego. You were greatly influenced by money, and people began to send me checks, which they began to pay you. You charge 47,000 rubles in advance, 60,000 rubles for 20 sessions. Our masters don’t earn as much in 2 months as you charge per person. More precisely, they don’t earn money, but exist on donations. You, throwing mud at us, talk about your high spirituality.

You know, I believe that my decision is absolutely justified. When I took you out of the project, I saw your completely true face. Look how many nasty things you said. Personally, as the project manager, I forgive you all the insults, hatreds, curses, and nasty things that you sent me and said about me. Personally, I wish you the Light of true love and awareness in your growth. Grow and develop, you can set absolutely any prices, you can come up with schemes for people on how you will take this money from them. You can talk about your high spirituality. But the videos that you shot and posted on the Internet speak about your spirituality. I'm ending this topic.

Guys, we will start training soon. And I would like people to come to us for training who really agree with the terms of the project and will carry spiritual knowledge only on condition of donation. If you do not agree with this condition, please do not come to the project. We don’t force anyone, we don’t drag anyone.

Irina: Yes, you need to think about it.

Maxim: You need to think carefully about whether it is worth agreeing with the terms of our project and coming to our project for further development. The project was specifically created to remove financial manipulation and the opportunity for scammers to work for spirituality, deceiving you about what you do not know, inventing different things in order to intimidate you and continue to take money from you.

I know that the healer I brought out of the project has been treating people for years: you need 10 more sessions, then 10 more sessions, and 10 more sessions. This is not in our interests. Our interest is for a person to engage in self-healing, so that he comes to a state of high awareness, high vibrations, and understands that the blocks he has are the illnesses he has. We don't want you to become dependent on healers. On the contrary, we want to develop you.

In our project, I will not allow people to be scammed out of money by figuring out how much he should pay, and indicating the number of sessions that he should undergo, and even more so by demanding, precisely demanding, this payment from people. If anyone wants, I can even show you the voice SMS messages, so as not to be unfounded, how she extorts money from people. At first I didn’t believe it, so I had

to remove this “highly spiritual” healer from our project, who did not understand what payment according to the heart is, and that sometimes people are not able to provide the wishes of the healer himself. Guys, I'm leaving you, thank you very much.

Irina: As a result of this topic, I want to say that we really found out from its curator Archangel Michael, since he is its direct curator, how he feels about this. Archangel Michael wanted to resolve everything peacefully so that Seraphim, Maxim and I, and this woman who called Maxim, whom she offended and brought to tears, could speak out.

Maxim: Yes, by the way.

Irina: We offered Seraphim to broadcast live with her at the request of her curator Archangel Michael, but she refused. We have a corresponding audio message about this.

In reality, she has the right to work as she wishes. But when entering any project, and I ask you to do this too, before entering any project, carefully read the rules, ask your heart. Not only are you ready to fulfill them now, but will you be ready to continue to fulfill them in the future? This is a serious step. Moreover, you will make a promise not only to us, not only to yourself, but also to God, who hears not only every word, but also your every thought.

Maxim: Guys, I honestly didn’t want to raise this topic, but on the eve of the opening of the School, I can’t help but say about it.

Irina: Yes, it was necessary to talk about this.

Maxim: You definitely need to talk about this. Because the financial egregor stands above people, that is, first of all, they think about the money they can take from you, and only then about the spirituality of development, healing qualities and everything else.

Irina: You write: “Ask Seraphima.” The fact is that we did not immediately remove her from the project. We offered her conditions under which she could stay there.

Maxim: We under no circumstances kicked her out. We went with her to dialogue, to talk. But this dialogue did not work out. She began to pour dirt on us and say that we were swindlers, swindlers, that she would go to complain about us to the Prosecutor's Office, to Metropolitan Kirill.

Irina: Do you want to listen to Seraphim's opinion? We offered her, but she didn't want to perform live with us. We cannot and do not have the right to force her to do this.

Maxim: Guys, I also want to warn you that projects have begun to appear that call themselves "Cassiopeia". There they offer you some services for money. I say again: none of the masters in the Cassiopeia project sets prices. And there will be no prices in the project, because this is a spiritual project. In addition to this project, we are also developing a physical development project and our own Wellness Center. In the project we will use new equipment that will see the aura and record etheric fields. And everyone who comes to us for training will definitely go through this equipment before and at the end of the training.

Plus, I want to tell you all that we have launched the "Cosmohealing" project, where you can undergo complementary healing sessions with our Guzel Malyarova. I am happy to see her in the project. She is very adequate, responsive, you can always find contact with her, talk and even have a personal session.

We have launched a new project, the link will be below after the broadcast ends. Now we have online "Cosmoenergetics and Synergy". That is, you can take cosmoenergetics and synergy sessions online.

At the School of Cosmoenergetics with the Petrovsky direction, you will be able to study online, because they allow this. Therefore, when the broadcast ends, I will give links to our new project, join the chat, take sessions on cosmoenergy and synergy.

We will be happy to wait for you at the Gihor School, which has joined our project with its wonderful leader Ivan Yonten. You will then see all

the information under this video.

Irina: Yes, Jesus Christ was at Shimora, LiShioni met with him. Probably many people want to hear his impressions.

Maxim: Guys, regarding payment according to your heart - this is a donation service. We cannot regulate and specify in the donation service what the minimum payment should be. Therefore, I understand what you write, but we cannot do it any other way. There is some minimum limit on the possibility of transferring donations to the donation service. Therefore, I understand you, but I can't do anything about it; we don't have any other option yet.

29:58 LiSioni about meeting Jesus Christ on Shimora. Jesus Christ's Proofs of His Divine Power.

Irina: LiSioni says hello to all of you! He did speak with Jesus Christ on Shimora, including telling him about voting to provide physical evidence and asking him his personal questions.

Regarding the evidence, Jesus Christ told LiScioni: "When I was incarnated in this body, when I lived in Israel, its inhabitants, including those who believed me and those who doubted, also asked for proof that I am the firstborn son of God . I gave them evidence not to become famous, but to help them heal their illnesses and protect them from the evil forces that they attracted to themselves with negative vibrations and emotions.

But the fact that I gave physical evidence of my Divine power only accelerated my execution, the death of my physical body. Why? Because in those people who were not ready to recognize the Light in themselves and follow the path of love, having seen evidence that I was telling the truth, an instinct of self-preservation arose, which caused the fear that they would be insolvent in a society that would follow the path of Light. Because of this fear, they became angry, and this hastened my end."

Maxim: That is, Jesus Christ, by giving evidence, accelerated his

death. Therefore, I agree with the Interstellar Union that we are absolutely not yet ready to receive this evidence. And our structures, political and spiritual systems are not yet ready at the moment.

Irina: Yes.

Maxim: But we can talk about it, talk about it. You ask: “Why are we avoiding the vaccine issue?” We do not get involved in politics or any financial structures.

Regarding vaccines. Everyone decides for themselves whether or not to get vaccinated, so there is no need to ask us, and then shift all responsibility onto us for whether you got it or not.

32:58 Has our civilization matured in 2,000 years? Raom Tiyan on moral murder. Governments, rulers and wars.

Irina: Regarding the fact that 2,000 years have passed and we have matured. Judging by the state of earthly civilization, yes, we have really matured. But the value of the life of the incarnate intelligent Spirit remained practically at the same level, because wars, violence, and murders, including unborn children, did not stop. This speaks of aggression and disregard for the life of the rational Spirit for the sake of satisfying its instincts and desires. This suggests that the sermons of Christ and the Light of his love were still not understood by the majority of earthly civilization.

Raom Tiyan says: “Do not shift your responsibility to the rulers, because the heads of the political egregor in any society are those who are attracted to vibrations by the bulk of the population.”

Maxim: As LiShioni correctly says, every nation deserves its own ruler. Initially, the people choose this ruler, and then, as always, they remain dissatisfied with something.

Irina: Raom Tiyan says: “Of course, you can say that you did not fight against wars. For viewers of this channel and many other esoteric resources, this is indeed the case. And we feel how you root for the

entire people with your soul, you want to increase vibrations, awareness and the quantum transition of the Earth into a new era.

But wars between states cannot stop where micro-wars exist in such social units as families and work collectives. These micro-wars are not necessarily accompanied by the murder of the physical body, but there is moral murder, humiliation with words - this is even worse than the deprivation of physical life."

Maxim: So, what kind of questions do we have next?

35:36 Practice communicating with your Higher Self.

Irina: They promised a very simple practice of communicating with the Higher Self. Burkhad.

Maxim: Yes, by the way, the practice of communicating with the Higher Self.

Irina: This is a very simple practice for communicating with the Higher Self. For whom is it simple? It is simple for those people who want to establish contact with their Higher spiritual essence.

To be willing to make this contact, a person must first believe that this Higher Spiritual Entity actually exists. This practice is suitable for those people who have at least already accepted in their consciousness the possibility of the existence of something other than matter. Even admitting such a hypothesis is an impossible task for many of the earthlings, because many have incarnated on this planet to go through the path of material existence. And this is another argument in favor of rejecting physical evidence.

Physical evidence of the existence of the Interstellar Union would show that it not only exists, but also claims that Spirit is the primary cause of the existence of matter. But many Spirits incarnating on Earth came here to understand material experience, and such evidence would cause irritation, rejection in them and would increase the likelihood of their degradation due to negative emotions. This really does happen.

Practice for those who have admitted the existence of the Spiritual world is the first thing.

And second, who admitted the possibility that you are not only beings of flesh and blood, but also spiritual beings. What is Spirit? Spirit is an eternal substance consisting of divine energy, which cannot be destroyed, and which is immutable without union with matter of any kind, that is, without incarnation in this matter.

Once you have accepted the existence of eternity, the existence of this substance, there is a very simple practice. To perform it, 20–30 minutes during the day are enough. It is very important to do it every day, at least for 10 days. After 10–14 days, success in connecting contact with the Higher Self occurs in almost everyone, provided, of course, the desire and faith in its existence. What kind of practice is this?

Maxim: They ask to give you water.

Irina: I just read it. Thanks a lot!

Maxim: Guys, thank you for reminding me. Indeed, I'm right there, asking myself constant questions and completely forgetting about water. Water is our strength. Unfortunately, we often don't appreciate it.

Irina: Thank you! This practice consists of the following actions. It is advisable to be alone, in a semi-dark room, so that the light does not interfere and sounds do not irritate you. Turn off the computer, TV, electronic equipment that distracts you from yourself.

It is better to take a sitting position so as not to fall asleep. If someone knows how to control himself well and is not tired, he can do this while lying down. But the optimal position is sitting, this makes it easier to concentrate your consciousness on the spiritual channel. When you sit down, do not cross your arms and legs. It is better to take a position where your hands are on your knees, palms up. Close your eyes and tilt your head forward slightly.

Pay attention to your breathing. As you inhale, trace the path of air through your airways to the center of your chest. And mentally imagine that a beam, a stream of white light enters you along with the air. You may not be able to imagine it visually, just thinking about it will suffice - it involves focusing on your etheric body.

After taking a few breaths in and out, pay attention to the energy that will be in your chest. Mentally give it the shape of a ball. It is usually white in color. Then begin to imagine that when you exhale, this ball expands, comes out through you along with the air and spreads into the space around you, illuminating it. By doing this you are sending Light. When you do this several times, you will feel calm and harmony.

After this, mentally or whisperingly ask yourself the question: “Who am I?” and “Where am I?” You should not answer that you are a person or say your name, but you should find the center of your consciousness and describe it. What shape, what color and where is it located?

When you try to do this in a state of harmony and calm, which will be achieved by breathing with visualization of energy, you will feel the sensation of your Spirit. You will switch from the perception of the external world to the perception of your Spiritual world, your Universe, which is hidden in each of you. Everyone will have different feelings. The common thing will be that you will feel the Light, you may feel that you are not the body, etc.

It will feel different for everyone. When they arise, you can make a request: “I want to talk to my Higher Self” or “I want to talk to my Super Self, my Divine Self, my Spiritual Self,” use any term that is close to you. Ask: “Is it possible to get an answer now?” And you can ask him a few questions.

How to distinguish answers from the thoughts of your mind? When making a request in this state, the first thought or thought form that comes into your consciousness is a response from the Higher Self. The main thing is to catch it, and do not analyze it. If you start to include analysis, analysis is the analysis of a thought, and start to figure out where this thought came from, from the Higher Self or not, you will thereby eliminate the possibility of contact and block it.

For you to succeed, faith in the existence of the Spiritual world and your trust in yourself are important. If these two components are present and provided that this simple 20-30 minute practice is performed daily, 96% of people will be successful in 10-14 days. For many, even much earlier.

As soon as you have received an answer, you can ask questions in the flow, that is, you have received a mental answer and immediately asked the next question. This way you can communicate on an intuitive level with your Higher Self.

This practice is very simple, and it will also be taught to students at the Cassiopeia School of Contactees, which is opened by Maxim and Irina. This will be one of the main methods, as it is very simple.

If you feel difficulties with this exercise, you can contact a specialist who will take you to the Higher Self; there really are such people at the Cassiopeia Center. And with the opening of the School there will be even more of them - now I'm speaking for myself. My task in this School will be not only to introduce you to your curators and your Higher Self, but to teach each of you to lead other people to the Higher Self.

Maxim: The main goal of the project is to give feedback to every person that he is not only a physical body, but also an embodied Spirit. And also our Center for not only Spiritual, but also Physical development. Therefore, we will tell you how to develop your physical body and all types of spiritual bodies that you have.

47:30 Communication using a pendulum or pendulum with the Higher Self.

Irina: If you communicate using a pendulum, that is, using a material object that shows you answers through micro-movements of your hand, then you can only receive "yes" or "no" answers. By mentally communicating with the Higher Self, you can receive any images and answers.

What is the disadvantage of communicating through a frame or pendulum with the Higher Self? If you do this often, you can train your Higher Self and your body to receive answers only through the body. And then it will take more time to accustom yourself to communicate mentally with images or words.

Maxim: Guys, I have a big request to ask of you, if you like our videos, please like them. Because this will attract new people who will also find new knowledge and new information here. Just like it so you can see us everywhere. By this we will understand that we can carry this information further.

48:39 Who can become a student at the School of Spiritual Development? Spiritual causes of health conditions.

Irina: My student can be a 60-year-old person who is involved in cosmic energy. If you have high blood pressure, then we will analyze the spiritual reasons for this condition of yours, and what is needed in order to restore your physical body.

Maxim: I just received text messages from people who were deceived by Serafima, she also demanded money from them. If anyone has complaints, please send them here. We will definitely look into these complaints and give you feedback. If necessary, we will refer you to specialists who will correct what Seraphima did.

49:30 About Marshall syndrome. Equipment of the Center for diagnosing the condition.

Irina: Elina, treating Marshall syndrome and any other syndrome with physical drugs alone will not give a positive effect in the long term. For this reason, the methodology and tactics of the Interstellar Union, and therefore mine and Maxim's as its contactees, are the same - first find out the spiritual cause of a given syndrome or group of syndromes. And only then, if necessary, ask MidgasKaus. We also have other diagnostic options, which will be discussed below.

Maxim: Yes, we will be opening a Center with new equipment through

which you can see your energy states, auric and internal cellular structures by vibration. We already have equipment that MidgasCaus approved and said: “Yes, indeed, it looks correctly and gives normal, correct feedback.”

50:39 Clearing negative blocks through contact with the Higher Self.

Irina: Can unpleasant thoughts and images appear when connecting with the Higher Self? This is indeed possible, but only if a person has negative blocks, or is connected to him by some low-vibration plasmoid entities that connect to his specific negative block created by him.

What are negative blocks? It is a clot of energy with information contained within, which consists of emotions, feelings and thoughts on a certain topic.

If this is a negative block, then it consists of negative energy - these are the emotions of resentment, hatred, fear, anger, uncertainty, mistrust and similar far from bright states of the human Soul. They can accumulate for years if a person does not express them, but accumulates them within himself and creates blocks in the chakras. And when reaching the Higher Self, these blocks may begin to emerge to the surface of consciousness. What to do in this case? If you saw some unpleasant image, or an unpleasant word came to you, the main condition for successful contact with the Higher Self in this case...

Maxim: Irina, you have already found a curator in our chat.

Irina: Thank you, how interesting. Do you want to become my curator?

Maxim: Blocks...

Irina: If you see an unpleasant image, or an unpleasant thought comes to you, under no circumstances leave the state of calm and harmony. Just tell yourself: “This is a cleansing of the negativity that I

have accumulated in my earthly life." To make this cleansing go faster and more successfully, mentally imagine a stream of Light and send it to this negative image. At the same time, mentally say: "I am sending you a flow of my love."

If some unpleasant thought comes, just imagine that this thought, for example, is written on the screen, and you are erasing it. Or imagine that it leaves forever, it is carried away by the wind, and you simply continue to absolutely calmly, harmoniously concentrate on contact with the Higher Self. Remember that you are completely safe, since you are surrounded only by the energy of God, from which everything is created.

Maxim: Regarding age restrictions - only adults, since no one has yet taken charge of our children's project. Then maybe someone will supervise it.

If you are in a conscious, healthy state, if you are 90 years old, we are waiting for you at our Center. This is absolutely normal, some people in their 90s have a lighter head than people in their 30s.

53:59 Who is more important in the Divine hierarchy: the Soul or the Higher Self? Personal receptions by Irina offline.

Maxim: A person asks: " Who is more important, the Soul or the Higher Self?"

Irina: What do you mean, more important?

Maxim: This is a question: "Who is more important, the Soul or the Higher Self?"

Irina: MidgasCaus also sends greetings to all of you. He now heard this question and said: "This question is due precisely to the predominance in the understanding of earthly man of the instinctive principle as logical patterns of the mind. This really happens when people, having no knowledge of the structure of the Spirit, mistake their own instinct, their instinctive attraction for the logical structure of

the mind of the Spirit. These are different things. Irina will talk about this.

In fact, it is impossible to answer whether the Soul or the Higher Self is more important or higher in the Divine hierarchy, since it is a single entity. Your Higher Self is yourself in the Spiritual world. This is your unincarnated part. She is not at all more important than you, and you are not at all more important than her. Simply, you are a single entity, part of which is embodied in this physical body. Incarnate, which means it creates this physical body from the material elements that were provided by the plasmoid civilizations of the Earth, composing them from its energies."

Maxim: Guys, I have more news for you. Irina switches from online to face-to-face appointments.

Irina: Yes, by the way, announce it.

Maxim: Because for a whole week, more precisely 2 weeks a month, she will deal with the students of the School. And the remaining 2 weeks that she will have will be taken in person, that is, online appointments will only be for those who live abroad. All others can register in person. Make an appointment with the administrator Anastasia. You can find Anastasia's phone number in the VKontakte group; there are also contacts for Irina and the administrator. At Anastasia's you can get an appointment with our specialists. We have very interesting, diverse specialists.

There are specialists who work on the Kundalini system. There are also specialists who guide you to the Higher Self as psychologists. There are specialists who lead to the Higher Self through the Spiritual world, through subtle structures. In principle, everyone can choose a heart specialist.

And I would also like to draw your attention to the fact that we have launched a project that has never had an analogue anywhere else. Subject to agreement with the rules of the School, sessions, training and dedication to cosmoenergy are subject to donation. That is, no one will charge you a price for training and undergoing

cosmoenergetics sessions through the Cassiopeia project. We want cosmoenergetics to become accessible to absolutely all people, so that they learn to use these energies and begin to help other people with these energies - to treat diseases, structure, harmonize the energy structure. The link to the chat, where you can go through the sessions and chat with the master, will be below the video after the end.

Irina: Yes, face-to-face reception in Voronezh. They ask: “Who is already registered with Anastasia, is everything still valid?” Tell me what the line is and what’s there, Maxim knows everything.

Maxim: Guys, everyone who is registered with Anastasia online, we cannot accept this queue - there are more than 2,000 people there. Therefore, if anyone is ready for online appointments, our Higher Self specialists accept them there. They work as contactees, trained by Irina.

Irina now accepts offline, that is, only personal appointments. Everyone who has an online appointment with Irina will not be able to see her now. We apologize, but we cannot accommodate such a huge number of people online.

Irina: They ask: “How to get to Voronezh?”

Maxim: When you sign up with Anastasia, she will tell you everything and do everything. Regarding payment for treatment. Yes, there is energy exchange. We are not saying that donation is free. Donation is not free, but payment according to your heart. This is what you can and consider necessary to afford. Therefore, it is not free, and we preserve the exchange of energies under the donation structure.

58:46 Why do diseases appear one after another? How to become a volunteer for the Cassiopeia project?

Maxim: Why do sores appear one after another?

Irina: There are different reasons. If one disease is cured and another

suddenly appears, the spiritual cause of the disease may not have been addressed or even recognized. In this case, physical methods of treatment, medications, operations, physiotherapeutic procedures, energetic and spiritual methods of treatment, how to eliminate the consequences may be ineffective, without recognizing and eliminating the spiritual cause of the disease, which is always strictly individual, even for the same disease in two different people. of people.

Maxim: Under this video I will give you the administrator's phone number to make an appointment, but I warn you right away, call her on WhatsApp.

Irina: Probably I should write.

Maxim: Yes. Due to the large flow, she does not have time to answer everyone. If she sees a missed call, she will definitely call you back later. There I will also leave a link to our project, where you can calculate your spiritual level and immediately read with what goals and objectives you came into this incarnation. We have a separate project on Instagram - Cassiopeia-Level.

Irina: They ask: "How to become a volunteer?"

Maxim: You can ask this question to the administrator in the VKontakte group, and they will answer you on how to become a volunteer, where to call, who to connect with, and much more.

They write: "Pay for treatment - don't look for a freebie." Guys, I tell you again that everyone evaluates according to their heart. It doesn't have to be money. Exchange can take place not only through money. Money is the easiest way of exchange.

In fact, you can help the project, participate in the construction of a large Center, which will take place in May on a hectare of land. Now we have a small Center - only 170 sq. meters, of which 70 sq. meters is a hostel and 100 sq. meters - the Center itself along with the Wellness Center.

Irina: Denis, I'll voice your question and answer about the cross. They ask: "What to do with contactees?"

Maxim: Like what?

Irina: What about accepting contactees?

Maxim: I didn't understand the question, what to do with receiving contactees?

Irina: What about my reception of contactees from Russia?

Maxim: Guys, please write applications for training and indicate that you are a contactee. We will look for ways to connect with contactees.

I say it again: Irina is switching to offline techniques. We cannot accommodate such a large number of people online. Therefore, in order not to offend anyone, we are switching to offline appointments, the administrator Anastasia will have an appointment.

All other specialists in the project can receive you online. We have more than one Ira; it is not a panacea. You can go to the Higher Self and get a consultation with other specialists. We have very good, wonderful specialists who work not for money, but to really help you increase your level of awareness and perception.

1:02:17 About the cause of various diseases.

Irina: I'm telling you again, about all diseases: stuttering, cerebral palsy, metastases - you need to find out the spiritual cause. If this is in a child under 7 years old or in an older child, but incapacitated, his parents, through whom he incarnated, go to the Higher Self. Any illness, especially such a serious one, has spiritual roots.

1:02:55 Is wearing a pectoral cross mandatory? Project "Cosmohealing". Help from the Intergalactic Medical Service.

Irina: Regarding wearing the cross. Can I wear it? Yes, you can wear a cross. But wearing a cross is not obligatory even for Christians. This is a person's good will, that is, he outwardly shows everyone else that he belongs to the Christian egregor. But he may not wear a cross and be a Christian. Or, conversely, wear it simply by right of baptism, but do not support Christianity. This is a personal matter.

Maxim: Guys, "Cosmohealing" is a project that involves more than just sound vibrations. This is a project where etheric doubles of the conductor are created and sent to you. After you have entered the project and given your informed consent, you are given a curator from the Intergalactic Medical Service, who then begins to supervise and helps you engage in self-healing. That is, movement occurs at the level of the physical, astral and mental bodies - this is a project.

Music is just a background so that you can easily relax, so that we all unite together in a single impulse of time, and it is easier for us to come and work with us. In no case are these any bindings, attachments, additions, connections or love spells, as many people think. We don't do such things. The meaning of our project is to bring Light and awareness to every person on this planet.

1:04:30 Possibility of visiting the planet Mantuk, where Miti lives.

Irina: Regarding my visit to the planet Miti. She is located in another Galaxy, if you are talking specifically about the planet Mantuk, where Mitya lives. It is located in the Andromeda Galaxy. Raom Tiyan said that my visit to the planets of other Galaxies would be possible only after studying all the planets included in the Interstellar Union in our Galaxy.

Maxim: By the way, we also talked about visiting the planet Miti.

Irina: About the planet.

Maxim: Yes. Initially, we must dock with Captain Bill and resolve this issue with him, so that later we will not be pitted against each other. And they didn't start saying that we carry completely different

information. This question needs to be clarified with Captain Bill, because information from Mitya goes through him and can be conveyed to people incorrectly.

1:05:32 The percentage of the incarnation of the Spirit of Jesus Christ could be variable.

Irina: Raom Tiyan, to what percentage was the Spirit of Jesus Christ incarnated?

Maxim: Do you mean earthly man?

Irina: Yes. To what percentage is it embodied now? The percentage of the incarnation of the Spirit of Jesus Christ into the body from the earthly mother and Burkhadian father varied. It could be variable - from 30%, like an earthling, to almost 90%. He had a physical body that combined the genes of earthlings and Burkhadians.

The percentage of Burkhadians was increased, and it also mattered that his parents had such high vibrations, which allowed him to be born into a body that could accommodate a larger percentage of Spirit.

The largest percentage was during the resurrection and after it for several days. This was practically a 100% incarnation due to the fact that with his Spirit he erased the program of death and aging in his body. And there was such a side effect that he was almost entirely in the physical body, and a radiance spread around him.

1:06:57 The most important incarnation of Maxim Rusan.

Maxim: They ask the question: “Maxim, what was your most important incarnation on the planet?” I will answer: I believe that my most important incarnation is here and now.

Irina: Yes.

Maxim: Because if I can convey, together with Irina, the information that I understand, the Light in which I am, then I believe that this is one of my most serious incarnations.

By education I am a lawyer, economist, and psychologist. I clearly understand our monkey nature. People are very interesting, peculiar, self-centered. And I'm not saying that ego is bad. Ego is volume. The main thing is that it all depends on what you fill this volume with. Therefore, my most important embodiment, I believe, is here and now. If I can develop this project on the planet, and you help me, then I will be grateful to my curators and mentors for the fact that right here and now I have incarnated on this planet.

1:08:03 Runes of Alhainta.

Question: Tell us about the Alhaint runes, where did they come from? And do they work?

Irina: Alhaint runes are such a new term. In order for me to answer this question, I must convey to the curators what it is and in what terminology. Can you tell me where you learned about them? And what are they? At least send me a drawing of such a rune on VKontakte, I'll ask.

Maxim: Guys, in fact, we are already coming to the end. If we get 2,000 likes, I promise you to continue broadcasting for another 10 minutes, just experiment. These likes make it possible for other people to see us. You simply highlight us, that is, just as we bring Light, these likes highlight us on the Internet, and, accordingly, more people will be able to know about us and subscribe to us.

I understand perfectly well that you have a huge number of questions. I also had a huge number of questions when I met Irina. And now that I have answered many of them, I understand the meaning of my life, my incarnation, that I had a huge number of these incarnations. And I look at this planet with great love and try to convey this knowledge, this information to each of you who watches and supports us.

1:09:29 Did Irina Podzorova refuse to transmit information through her vocal cords? Irina has chips. Second conference with the phantom of the Virgin Mary.

Irina: Why did Irina refuse MidgasCaus's offer to transmit information through her vocal cords? I know what this question is about.

Maxim: Thank you, we will add 10 minutes.

Irina: Thanks everyone!

Maxim: Thank you all so much!

Irina: This is about my conversation with Tolkynai, which is still available on the Internet on YouTube. Indeed, Tolkynai said there that MidgasCaus offers me to transmit information directly through the vocal cords. This was her personal perception of my chips, which were placed behind my vocal cords, a little behind, near the back of my head. These are 2 Esler chips that were installed in addition to the first chip delivered in 1999. These chips were installed in 2019, that is, exactly 20 years later.

Tolkynai correctly understood the essence of MidgasCaus's message, but since he transmitted information to her in mental images, and she was accustomed by her vibrations to contact with plasmoid civilizations of a different density, she understood him in such a way that his contact was through the vocal cords.

Each contactee receives information at the level of their awareness of perception and terminology. So I didn't refuse to transmit information through chips. I still pass it on, including doing it now. The chips allow me to transmit information through a stream of words that come to me from my handlers.

Maxim: Irin, we completely forgot to tell you that on January 21 we will have an interesting conference. This, of course, is thanks to our dear Vladimir Goldstein. We are organizing a conference with the phantom of the Virgin Mary, Father Michael will be present at it, a

video of which is on our channel. This is where he casts out demons and the devil from us. And whom did he not expel from us?

Of course, we were very afraid to organize this conference, but the only priest who is in office and ready to communicate at this level is Father Mikhail. I think this will be an interesting conference on Zoom, which will also be broadcast on YouTube. And due to the fact that Zoom for 1,000 people costs some money, that's why we pay for this conference according to our hearts. With this payment from your heart, you will help pay us for this Zoom and help the project develop further. In a week we will post this video on our channel, and you will all be able to watch this conference. Therefore, there is no need to immediately go online to this real conference and pay donations. It will be posted in a week on the channel.

Question: Cast out the devil?

Maxim: Yes, he cast out the devil and demons. It was very interesting.

1:13:04 What is the Voynich manuscript. Encrypted knowledge.

Irina: Voynich Manuscript. I'll definitely ask.

This is a medieval book that was written by contactees - both with plasmoid civilizations, and with the Spiritual World, and with humanoid civilizations. But the contact information there was transmitted in a code that was known to its creators. This book was written not by one author, but by several. Moreover, there are also several ciphers.

The information was about various plants, entities, levels of plasmoid worlds, the Spiritual World - everything that the curators gave.

For what reason was it written in code and the drawings were encrypted? At the time of its creation, there was still a strong influence of the Inquisition, and so that there was no danger of this text being read by those people who could persecute these contactees, it was decided to encrypt this knowledge.

1:14:26 About the upcoming conference with the phantom of the Virgin Mary.

Question: Did Father Michael survive that Mary was with you?

Maxim: No, he hasn't experienced it yet.

You know guys, to be honest, I'm even a little afraid of this future conference. And I can't imagine what form of dialogue Father Michael will have. But we asked him to behave very correctly at this conference, and he seems to agree.

I say again, you don't have to go to it online, you won't even need to ask questions. Then you can watch all this on our online channel.

1:15:02 Does the Veles rune have power? Interesting proposals for retreats.

Irina: Does the Veles rune have power? Any rune, any sign and symbol in which you believe has power, because it is not the rune or symbol itself that has power, but your faith.

Your faith is the spiritual power of Light. Where you invest it, it will have material power.

Maxim: Guys, I repeat to everyone once again, if you suddenly find out or hear that someone is setting a price in the Cassiopeia project, please either inform me personally as the manager, or write to the administrators. In the Cassiopeia project there will be no prices for spiritual knowledge.

Irina: Now we have received very interesting offers about retreats in Egypt near the pyramids, in Ukraine and even in Esler.

Maxim: By the way, does Ukraine know that there are pyramids there

too? They are just in a very closed state.

Irina: There was even an offer for a retreat at Esler. I really like this proposal. And an offer was made to invite Patriarch Kirill. I don't know, if there are believers, try writing to him, we don't mind.

Maxim: Judging by the way they are reacting to us, I think this is not a very good idea. The Christian religious egregor is a very powerful egregor. And I will, of course, try with all my might to support this egregor and harmonize with it. We don't want any problems with him under any circumstances.

1:16:43 Astral battles and their consequences. Safety in astral travel.

Irina: Astral battles. Indeed, some astral travelers have exits. And if these travelers have a lot of aggression in them, then they begin to see various entities. The vibrations of their astral body attract low vibrational entities to them, which create mental images of battle and fight.

What are the consequences of such practices in the Astral? The consequences of such practices are varied. This may be a loss of energy, such as during a nightmare. Almost every one of you has experienced this condition. If the astral body was damaged, and a person has a strong faith and feeling that this really happened, then this pain is not the damage itself, but the pain can also be felt by the physical body. This is similar to the type of burn that occurs during hypnosis, for example, that is, it is the power of faith, the power of suggestion.

This is also possible during astral travel with battles. To avoid getting into such troubles, it is enough to go to the Astral in a state of peace and self-confidence. And don't go out if you are offended by someone, afraid or condemn someone. LiScioni says: "Your main guarantee of safety in astral travel is your bright and pure thoughts, filled with goodness and love."

Maxim: Guys, we will finish now. Once again I would like to remind you that you can join any of our projects: “Cosmohealing”, Intergalactic Medical Service, “Cosmoenergetics and Synergy”, where you can learn and undergo cosmoenergetics sessions on a donation basis, and, accordingly, this is the “Cassiopeia” project , where we are always glad to see you at our retreats and at our training.

1:19:14 Report on the retreat in Abkhazia. A wish from LiSioni.

Maxim: By the way, there was a message: “Why didn’t we say anything about this retreat?”

Irina: Yes, a good retreat.

Maxim: Let me tell you. The retreat was wonderful. We went on three wonderful excursions.

Irina: Yes.

Maxim: We visited places of power in Abkhazia. We spent a wonderful New Year with a huge group of 150 people. On New Year's Day there were 167 people, and at the retreats themselves there were about 110 people who came specifically for training.

The training took place in a wonderful atmosphere. The groups consisted of 25 people, 4 masters passed on their knowledge and skills. There were additional classes, cosmohealing and cosmoenergetics sessions.

Ivan Yonten, under donation conditions, initiated 80 people into the Gihor School for cosmoenergetics.

The retreat went just great, with a bang! We tested new diagnostic equipment there. I think that everyone who was at the retreat can give you feedback either in chats or on our channels about how they went through this diagnosis and how much it corresponds to reality. That is, it’s not that I said this, but you heard about it from people who

underwent diagnostics on the new equipment that we will use in the centers.

I won't say yet what kind of equipment this is, I'll leave it as an intrigue. This is what Kryon from the Magnetic Service was talking about. About a new type of equipment that makes diagnostics based on the vibrations of your entire structure, all your cells, and determines diseases. And further, in our Center, in addition to determining the physical cause, we will definitely determine the spiritual cause of your illness so that you yourself can work with it and understand where these problems arise for you.

Guys, thank you very much! Irina, forgive me for interrupting. The broadcast already lasts 1:21, not everyone will watch us for such a long time. After an hour of broadcasting, 200 people had already left us, so bye everyone!

Irina: Bye everyone, see you soon!

Maxim: Call, write, I will always give you feedback. Irish, they will say that I interrupted you again.

Irina: Bye everyone, see you again! Happy Baptism of the Lord! For those who are planning to take a dip in the ice hole, good luck with your swimming.

By the way, we had a conference with Mira Count and representatives of the Interstellar Union in Abkhazia on January 6, and there we asked about Baptism, about bathing - very interesting things.

Maxim: Guys, by the way, in the morning we did hardening exercises, swam in the sea, and did energy practices. Everything was serious at the retreat. Everyone who wanted to hardened up with me, went swimming, and quite a lot of people supported us in this.

Irina: On these bright days, which are called "Holidays" from Christmas to Epiphany, many people tell fortunes and engage in magical practices, since according to the ancient belief, a window to

heaven opens, on these days Jesus Christ comes out.

1:22:43 A wish from MidgasCausa.

Irina: MidgasKaus says: “In fact, among our Slavic ancestors these days were special and were called “Bright Days of the Ancestors”, because portals with plasmoid civilizations were activated, it was easier to make contact with the Spiritual World.

On these Bright days, I want to wish you all more Light in the Soul of your family and friends. It is very easy to show love to me, Maxim, who is far from you, but the task of your incarnation is to realize that the most important thing is your love where it is needed most, among those loved ones who do not understand you, criticize you, do not understand your hobbies . They really need your love. I wish you the Light of this love. See you soon!"

Maxim: Seraphima, I forgive you for everything you did and said. I sincerely send you the Light of this love! Grow, develop, earn money, do what you want. That's it, bye everyone!

Irina: Bye everyone!

Live broadcast January 17, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interactions with the material world;

Raom Tiyan is a representative of the planet Burhad, a specialist in energy interactions in the environment.

Video in text

#201 Physical contact with the installation of the transmitting chip. Chess schools changing the world - from the Spirit of Capablanca.

https://blog.cassiopeia.center/shkoly-shahmat-menyayushchie-mir-ot-duha-kapablank
https://www.youtube.com/watch?v=LG5C8AK6guk

0:22 Start of the conference. Capablanca.

Vladimir: Hello. We are starting our next conference. To avoid being disturbed, I even took off my glasses to be closer to you. My name is Vladimir Goldstein. I'm in Chicago. Here with us today, together with me, is our dear contactee Irina Podzorova. Hello Irina!

Irina: Hello!

Vladimir: And also today Andrei Zhilkin is with us, he is in Spain. He is a very interesting person, as far as I have already understood, a contactee. He had physical contact, he said. We will now listen to the opinion of the Interstellar Union. Let's comment. But, in addition, what is very interesting, also his mentor or curator, or simply the Spirit who communicates with him, is the Spirit who had a very interesting

incarnation. He was in one of his earthly incarnations what we know as Capablanca, the most famous world champion, the most famous figure in the chess world. He conveyed to him very important information related to chess on a deep theoretical level. This information is available in a visual display. Then we will communicate and find out all this. Please, Andrey, you have the floor.

01:34 Physical contact through the eyes of earthling Andrei Zhilkin.

Vladimir: First, tell us about your contact in a little more detail. And then about everything else.

Andrey: This happened in 1990. I was 15 years old then. This happened in the Urals, between the villages of Nizhneye Selo and Kamenka. Five of us rode with the guys on two motorcycles. Both motorcycles stalled at one point in the middle of the field. It was in the evening, around eleven o'clock in the evening, maybe half past twelve. Suddenly we saw 3 balls in the field. Three spheres that glowed. I decided to approach them.

Without reaching literally three steps, there was a huge surge of energy, which was expressed both in vibration, and in sound, and in light. After which these 3 balls gathered together into one, flew over a hillock, across the river, and after that a huge ball, 500 meters in size, if not more, rose from behind the hillock. Huge, just very huge, greenish glow. After which, as I realized later, he simply disappeared into the depths of space with such enormous speed that it was impossible to determine the speed. Apparently at the speed of light. He just disappeared.

I don’t remember how I got home, how, but the fact is that when I woke up, I remembered that I dreamed of a book that was covered in writing, now I’ll even show you, with these symbols. Can you see the symbols?

Vladimir: A little closer, if possible, to the camera. Bring it a little closer. Yes, you can see the symbols, yes.

Andrey: The whole book was covered with such symbols. And, literally after that, I discovered the ability to remember all my dreams. And the information in these dreams was such that when I slept, for example, 6-7 hours, information for a week or a month was put into them. Those. I could post a story of what happened during the month. This is how time is calculated.

After this, in 2005, a second contact occurred. In 2001 I moved to Spain. I understood that at the first contact, somehow, either I was somehow marked, or something was implanted into me with this vibration, I encountered exactly the same vibration, but only in the opposite order. What happened? I was standing in the parking lot, it was again at night. All cars' radios began to turn on, all cars began to vibrate. I was very scared, after which the energy that came from the sound passed through me, and just one single word “Nepal” came out of my throat. Nothing else.

I was so scared that I completely withdrew from the world of technology and sat down to write papers. For 15 years, it came to me in my dreams, and, most importantly, after this incident, I dreamed of an earthquake in Nepal. After which, in 2008, in one of my dreams, I was given a new name. Spanish name, Ricardo.

After this, information began to arrive in these symbols, and the decoding of these symbols: how they are decrypted, and what they are all about. I was given 3 alphabets distributions. These are Russian, Spanish and English. I will now show you the numbers, what they look like, how they are made on that planet. The planet is called Fant. It is located in the constellation Sagittarius, this is the star Tau. And all the information went specifically to Tau. The numbers look like this. Look if you can see it well.

Vladimir: Yes, try to keep it stable, don’t move it.

Andrey: Pay attention to the number 40, how it looks.

Vladimir: The number is 40. Yes, in the middle, I see it. Looks like a fish, right?

Andrey: Great! Let's talk about this. This is such information. All these numbers are templates of the alphabets of so many civilizations that have been, have passed and will be, so to speak. The number 40, the English alphabet is encrypted under it. He looks like this. Now I will show it to you.

Vladimir: Ira, while Andrey is looking, maybe we can now tell you who we have.

Andrey: Now I'll show you what it looks like in our transcription. He looks like this. You can see it below. Please observe, the word "advice" is written here. This message is, in my opinion, in English, as far as I know.

Vladimir: Not quite like that in English. There is a word "advice", it means "council". The message is not exactly true, it is advice. Advice, give advice in this regard.

Andrey: Yes, advice, message. The fact is that they gave me a map of sounds. All these symbols have the character of sounds. I'll turn it over to you quickly now. There are only 56 of them. They look like this. Each symbol is enclosed in a circle. These are the sounds that reflect this symbol. They look like this. Let me leaf through them.

Irina: What sound does this symbol reflect? For example, this one?

Andrey: Now I will explain everything to you. There are 56 of them. They are all drawn here in a notebook. All 56 characters by which you can reflect it all. The audio transcription is shifted to the limits of audibility. It also comes in sound. If you play it on the piano, this is the note "C", as it sounds in hertz, i.e. its meaning. If you overclock this position and add 1420 hertz to it, it turns out that in the English alphabet, which is presented in this way, I'll show it to you again, these 6 sounds exactly reflect the WAF signal, which was caught, in my opinion, in '76 or 74, I don't remember. Such a signal was transmitted by the Big Ear telescope. Have you heard, right?

Vladimir: We heard it out of the corner of our ears, yes.

Andrey: Big Ear, located somewhere in America, in that part of the World. It matches completely if you add it according to the table they gave me, which is reduced with sound. All this can be contacted with the civilization that lives on the planet Fant. And they will answer. At least that's what I was told.

10:25 Planet Kisefurt (Likhors) and its inhabitants. Molebka, Molebskaya zone. The star Tau in the constellation Sagittarius.

Vladimir: Okay. Let us stop at this point, Andrey. Let's take a break before we go any further. I want to give my word. Ira, please imagine who is with us today in the astral, on the subtle plane. And maybe give some comments regarding everything that Andrei said. He named a specific planet of a specific constellation, etc. That's about it. Can?

Irina: MidgasKaus from the planet Esler and LiShioni from the planet Shimor are present with me now, because I told them that we would talk about the Spiritual world, about spiritual contacts with Capablanca. Regarding Tau Sagittarius, Mead says: “As far as I remember the table of correspondences of your star designations, in the region of the star Tau Sagittarius there is a planet Kisefurt. This is in Daraal language. He was told his self-name, most likely. This planet is part of the Interstellar Union, but Irina has not yet communicated with its representatives. They have a base near Molebka.”

Vladimir: Oh, so this is their base near Molebka? Andrey, can you hear us, was there a communication breakdown?

Andrei: Yes, yes.

Vladimir: The point was that representatives of the civilization you mentioned have a base near Molebka. This is what the people invited to Andrei Malakhov’s program, where Irina was recently, talked about. This Moleb zone turns out to be near the civilization with which you have contact. They have a base there, i.e. it is their activities there that are visible to us.

Irina: Regarding Tau Sagittarius. There is such a planet in the area of

this star; it has colonies. There are also in the constellation Pegasus, and in the constellation Andromeda, and in the constellation Aquarius, etc. She has many colonies. They also fly to Earth. They are allowed physical contact until a break is called. But Irina hasn't been there yet. Kirchiton did not take me to this planet.

Kisefurt is the name in Daraal, they know this from my memory because Kirchiton told me when he listed the planets with which there was physical contact. In Eslerian it will be called Likhors. They have different names. Kisefurt is the Daraal language they give to Irina. We agreed that through contactee Irina we work only with certain names so that a holistic picture of the world can emerge. Moreover, information is now transmitted to many earthlings through it.

Irina: Kisefurt people, they show me an image; indeed, I have never seen such aliens. They are tall, about 3 meters, and have thin bodies. They show me that they have long, elongated faces, and for some reason their ears are so large and rise up in this shape, a little back. Barely noticeable eyes, like slits. They have two eyes, and they are located as close to each other as one. This image shows. He asks: "Did you take them to their planet?" No, I don't remember such creatures. Their skin is red-brown, brown with some kind of reddish tint. And an elongated body, which from a distance may seem like sticks standing when they fold their limbs.

15:07 About possible purposes of contact. Why aren't earthlings taught the language of the curator, of other worlds?

Vladimir: Mid, please tell me, what do you think with LiSioni, was it physical contact? And this story with cars, with the word "Nepal"? Please comment on this. And then the information that we saw from Andrey, with alphabets, with sounds, if possible, all this.

Irina: He says: "I just commented on what I heard about the constellation Sagittarius. As for Andrey's contact, what he described as balls, flying, everyone talking at the same time, turning on the radio in all cars nearby, this is not typical for humanoid life forms. There is a technique that can activate this, but then questions arise: the purpose of the contact, because you need to come into contact with them. What was the purpose of attracting attention to oneself in this way, through

the sound of nearby cars?

And what energy the representatives of Kisefurt spent on this! If it were them, and, for example, not some kind of plasmoid civilization that works in voiceserve timing, which with electronic voices. There are plasmoid civilizations that spend their energy on this.

And if you turn on some radio devices at a distance with a beam that activates the electromagnetic spectrum, then this energy will be enough even to lift it with an anti-gravity beam and come into physical contact with it. Perhaps this is done in order to attract attention so that he believes in what is happening. You need to ask specific specialists who have done this.

I am not personally acquainted with any Kisefurt members, because I was not at their base. We work separately. Although they are part of the Interstellar Union."

Vladimir: And the alphabet that Andrey showed us. And everything related to sounds, can we talk about this?

Irina: Judging by the fact that they transmit information to him in a dream, there is still astral contact. The fact that they transmit information to him alphabetically, by numbers, by sounds, by symbols included there, this indicates that they have found a suitable nervous system, a suitable brain, suitable vibrations of the Spirit in order to give information about their planet, so that he could spread it.

But they can do this, for example, for the purpose of experiment. How, for example, will a person perceive this? Or for the purpose, for example, so that he can learn their language in the future. First they give the alphabet, and then the language. Again, as a biologist, as a scientist, I am now speculating as to why they need to transmit this information. Because the programs of the Interstellar Union do not provide for contactees to study the languages of other worlds, because This wastes the energy of the contactee, which can be spent on transferring spiritual and energetic knowledge. On the contrary, we, aliens, alien scientists, are learning the language of the contactee.

Vladimir: Okay, thank you.

18:58 Scandinavian runes and alien languages.

Vladimir: Andrey also mentioned that all earthly languages are embedded in one of the letters, in one of the symbols. As I understand it, those who gave all these languages communicate with him, or they know those who gave all these languages. They are apparently talking about some kind of unified system. Can you say a few words about this?

Irina: He showed the number 40. The fact is that this sign, which he showed as the number 40, is one of the Scandinavian runes. I don't know the Kisefurt alphabet, if this is them, for example. Some other aliens could have flown to him, because... the contactee can be from several civilizations at once. And what he says about Tau Sagittarius, contact information could have been given to him initially. Then different civilizations could come.

Specifically about runes. The runic alphabet is a simplified and slightly modified version of the Burkhad lettering. Self-name – Pikran. And here you need to ask specific specialists: "Why does he need to convey these sounds, these letters. What do they want to convey next?" Meade says: "As far as I know the rules of the Interstellar Union, it is much easier for us to learn the images and symbols of the contactee's language and convey information to him in his language than to teach him something. This applies to astral contacts, in which information is transmitted in the form of mental images. There are slightly different transmission laws. In this regard, I had several questions for Andrey."

Vladimir: Please.

1:20 Details of physical contact with Andrey Zhilkin.

Irina: How did the guys around you react to the appearance of this object when you were in the field with other people?

Andrey: With open mouths.

Irina: What did they talk about then?

Andrey: The reaction was that... I don’t know. I opened my mouth myself. Because it was very surprising. It’s amazing to such an extent, it feels like I was inside a computer game. Because I had never seen anything like this myself, it was somewhat of a shock for me. Big enough.

Irina: What did you talk about afterwards? Was the appearance of this object discussed, were any versions put forward?

Andrey: No. Didn't put forward any versions.

Irina: Not you, but your company.

Andrey: No, nothing, no versions were put forward. They immediately realized that this was something unearthly and that’s all.

Vladimir: But did you discuss this somehow?

Irina: Yes.

Andrey: No, they didn’t discuss it, because there were times, it was the 1990s, people were afraid to discuss anything at all.

Vladimir: Wait a second. You saw an object, you were shocked, then it all disappeared, you left and never said a word to each other about it? Yes or no?

Andrey: Yes, exactly. Exactly.

Irina: Yes, Vladimir, it’s really a little strange, because if the guys saw

it, probably somewhere here or here, they would only talk about it for two years.

Vladimir: Yes, I'm surprised.

Irina: But maybe for these people this is a completely normal event, an ordinary event that is not worth talking about.

Vladimir: Was this a joke now? I'm surprised, it's strange to me. OK.

Andrey: The fact is that I ended up in this village by accident. And I also met these guys by chance. We didn't know each other at all. I spent the summer there in one of the houses. And I never saw these guys again.

Vladimir: I see.

Andrey: Naturally, this was not discussed. Maybe they somehow discussed this contact among themselves, but I was not part of this company.

Vladimir: You don’t have any contacts of these guys, right?

Andrey: No, unfortunately.

Irina: So the next day you came home, woke up and didn’t try to find your new comrades? Okay, I understand you, okay.

Andrey: No, by the way, no.

Irina: I understand. This explains a lot. In fact, they may have discussed it, but he had already left this village, left it, could not find them. Therefore, I was not aware of the conversations of this group of people. He happened to be there by chance and saw it all. Mead says, "When that ball left, did you notice some loss of time?"

Andrey: Yes, of course.

Irina: Between visiting the village and the end of this visual contact of yours?

Andrey: The thing is that I absolutely don’t remember how I got home. I just woke up the next day at home where I lived. And the first thing I remembered was that I dreamed about this book.

Irina: That is. from the moment the ball flew away, you have a memory loss, and you only remember the next morning. Do I understand correctly now?

Andrey: Yes, that's right. Moreover, I absolutely don’t remember in which direction we then went on motorcycles. And how I got home, I don’t remember.

Irina: Do your parents or relatives say anything about what time you arrived home?

Andrey: No, no one said anything.

Irina: You were 15 years old, and at half past eleven at night you witnessed this contact, and no one noticed what time you arrived, do I understand correctly?

Andrey: The fact is that I was working in this village at that time. I worked as a watchman at a construction site and was hired. There was no one where I lived.

Vladimir: How old were you, again, Andrey? Please check.

Andrey: 15.

Vladimir: At the age of 15 you worked.

Irina: At 15, she can work quite well. With us, 14 can. It's clear. Do you remember the beginning of meeting these guys, and how you went to the field?

Andrey: Yes, of course.

Irina: Why did you go there? This may be important.

Andrey: We went from Nizhny Selo to the village of Kamenka.

Irina: Why at such a late hour?

Andrey: I think we were going to a disco. But I know for sure that I wasn't at the disco, that I didn't get to the disco.

Irina: What time did you leave the village? It may also be important.

Andrey: About eleven o'clock, maybe.

Irina: Do discos last so long in rural clubs?

Andrey: Then yes.

Irina: What time were you supposed to be in the neighboring village?

Andrey: I don't know, maybe around eleven o'clock.

Irina: How long did you have to travel?

Andrey: Between Nizhny Selo and Kamenka, in my opinion, it's only 5 km.

Irina: It’s around 10-15 minutes.

Andrey: Yes, it's very fast. It's very quick to get there by motorcycle.

Irina: Especially on motorcycles. It's clear. Sorry for asking this question, but Meade asks it, so I have to ask it again. When you were with the guys, were they your age or older or younger?

Andrey: They were all my age.

Irina: That is. you are all on motorcycles, about the same age.

Andrey: Yes. There were two people on one, three people on the other.

Irina: Have you met them recently?

Andrey: Yes. We met in the village. I remember that one of them was called Denis. I remember this very well. I can even now, for example, find the house where he lived. I know that his parents were high-ranking personalities from Pervouralsk, i.e. this is their dacha. Then I remember a girl, her name was Marina. I can also find her home just fine. But I don’t remember the other two, neither their names nor who they are.

Irina: Okay, it doesn’t matter anymore. How many of you were there?

Andrey: Five.

Irina: Five, yes. There are four of them. Three guys, one girl and you.

Andrei: Yes.

Irina: So, four guys, one girl. Did you go in a normal state of consciousness? You didn't take anything with you for joy, shall we say?

Andrey: No, the usual state of consciousness. Absolutely sober. I could write off that there is something there, but no. Absolutely sober.

Irina: I even asked this more for the viewers of our channel, because now they can interpret it differently. You understand that many people will be watching now. Fine. MidgasCaus says: "Did you feel anything unusual before this trip that you hadn't experienced before?"

Andrey: No, absolutely nothing, no premonitions. No.

Irina: Before this, were you interested in the topic of aliens, extraterrestrial life?

Andrey: No.

Irina: Have you read or heard that they exist? Or what could exist?

Andrey: I read several books of an esoteric nature before this.

Irina: For example.

Andrey: At that time I started reading Castaneda, but abandoned it. I didn't like her. After that I read Castaneda several times.

Irina: I see. So you're off. And when the engines stopped, the headlights remained on?

Andrey: No, no. When we arrived at that place, both engines stopped at the same time.

Irina: Did the headlights stop burning or did they continue to light?

Andrey: No, headlights too. Everything went out, went out. Fully.

Irina: What did you think? You personally?

Andrey: Oh, I don't remember what I thought.

Irina: How did you feel?

Andrey: We didn't feel anything. The engines just stopped instantly, the headlights went out, and literally after a few seconds we all turned our attention to these three balls. After which I decided to go there.

Irina: Do you remember what color and size they were? Distance, maybe approximately, direction?

Andrey: Yes. They were white, white, matte-luminous.

Irina: Big ones?

Andrey: The size was maybe like this.

Irina: In what direction were they in the sky: to your right, to your left?

Andrey: It's as if they were standing right in the field. It was as if they were standing there.

Irina: Were you standing?

Andrey: Yes. It was as if it were something staged. But when I approached, I realized that it was not staged, because as soon as I approached them, this vibration wave occurred. And they gathered into one ball and flew over the hill.

Irina: You saw that there were three balls. Did you go there alone or did they go with you?

Andrey: Yes, I went alone, the guys stayed near the motorcycles. I said, “I’ll go and see what it is.”

Irina: What did they say?

Andrey: Go.

Irina: And off you go. Was it dark on the field?

Andrei: Yes.

Irina: Have you gone far from the road?

Andrey: No. 20 meters away. They stood 20 meters away. Maybe 30.

Irina: You came closer, and what did you see?

Andrey: What I saw from afar, I saw up close. These three balls. Three spheres.

Irina: They didn’t come closer?

Andrey: No, they didn’t come closer. As they stood in one place, they stood.

Irina: You walked towards them, walked, did they stay in one place?

Andrey: Yes, they stayed in one place.

Irina: And what did you do next?

Andrey: Nothing. When this wave occurred, three balls gathered into one and flew away. All.

Irina: You continued walking, and suddenly they gathered together and flew away?

Andrey: Yes. But before that, a vibration wave occurred. I approached, there were literally two meters left, three, maybe, before them. The moment I crossed some distance, a vibration wave occurred and they flew away, gathering into one.

Irina: You said that the balls were not coming closer. And now they said that they were two meters away. So did they stay at the same distance, or did you get close to them?

Vladimir: Have they increased in size? You should have looked at them better. As you got closer, did you get a better look at them? Have they increased in size?

Andrey: No, they have not increased. As they were, so they are. Those. the visual distance of 20 meters to the road was as it was, 30 maybe, they were the same size. As I got closer they were the same size the whole time.

Vladimir: Wait, Andrey. Can I ask? This is an important point. Look. If you approach any object, it becomes larger for you because you are getting closer. That's what we're trying to find out.

Andrey: Of course. As he approached, they grew larger. But their size did not change.

Vladimir: But for you they visually became larger because you got closer, right?

Andrey: Yes, of course.

Vladimir: That was the same question.

Irina: You said that they were two meters away. Did you have the feeling that they were close, but at the same time the same size?

Andrey: No.

Vladimir: Mead, he just said that they visually increased for him, as they should when you get closer to the object. He didn't understand us.

Andrey: Yes. Normal visualization of an object; when you approach it, of course, it increases in size.

Irina: And what was their size when you came very close?

Andrey: Here they are.

Irina: So, from the field they were the same size when you looked from the road, and when they approached?

Andrey: From the road, not from the field. From the road they were, of course, smaller than when I approached them. When we were standing on the road, they were smaller, of course. It was as if it were actually a normal object: when you approach it, of course, it gets bigger.

Irina: Yeah. Everything is fine. You have arrived. At what height above the ground did they hang? Or were they standing right on the field?

Andrey: They formed an equilateral triangle, it was absolutely clear, clearly visible. Maybe the two that were below, they were a little higher than ground level, literally at the level of the grass that was there. They

reached a little higher than my height. My height is 1 m 83 cm.

Irina: It was a triangle pointing upward, as I understand it?

Andrey: Yes, triangle up, yes.

Irina: And the balls in this triangle were the same color and the same size?

Andrey: Yes, matte white.

Irina: And when you were walking, did you think about what it could be? What did you expect?

Andrey: I haven't thought about it at all, that is. it was interesting to me. I was really interested, just as an interest.

Irina: I see. You just decided to see what might be there. You have arrived. You said you felt a vibration. How did you feel about it?

Andrey: Whole body.

Irina: What was she like?

Andrey: Quite large, as if something was trembling.

Irina: Was the air trembling or the earth?

Andrey: No, air. In the air exactly.

Irina: It's like air vibrations.

Andrey: Hesitations, yes. Exactly like fluctuations.

Irina: Was there a change in temperature?

Andrey: In my opinion, no. No, it was not. There was no change in temperature.

Irina: What was it like? What can you compare it to? Maybe there was a gust, like the wind?

Andrey: No. Not the wind. Definitely not the wind.

Irina: What is this?

Andrey: As if someone, I don't know how to describe it. As if someone was touching you. A wave, just a wave. When you are standing at sea during a storm, this is the feeling you had.

Irina: Again, it depends on the description. Actually a wave of air, it will look like wind. Indeed, like a gust of wind. Again, this is purely a matter of feeling.

Andrey: It didn't look like a gust of wind. It was much stronger.

Irina: Was it difficult for you to stay on your feet?

Andrey: No. It was not difficult for me to stay on my feet, but I felt it. I felt it with my whole body.

Irina: It was a certain feeling that something was passing through you that made your body vibrate, but it was not wind.

Andrey: Yes, this is it. That's it.

38:43 Representatives of the MS about possible events during

physical contact.

Irina: Now LiSioni is giving advice. MidgasKaus also says, yes, it looks like that too. It looks like a scanning beam, yes. They can direct a scanning beam into the body to see its condition, whether it is energetically and physically ready for contact. What you saw as balls could be external sources of light, attracting, that stood in the field. They don't have to turn on the lighting to see their surroundings.

Vladimir: Andrey was lured into the field to be scanned.

Irina: Mead says: “It’s no coincidence that he was the one who went. It was not by chance that I asked about everyone. If they went out of a heightened instinct of self-preservation, then they would, in any case, stick together. It is much safer to explore an unknown object together. And since he went alone, it was like being selective. Even though there was a mental wave at first, he felt an unconscious call. Only the others rejected him, but he went. And he didn’t even build any versions himself. Why did a 15-year-old boy, who is already a completely independent person in this matter, in exploring the world, all this way to an object unknown to him, not even ask himself the question of what he sees? Because his consciousness was already changed. He had one program. The fact is that this mental call “Come to us”, he can perceive it simply in the form of desire. So he had no thoughts."

Andrey: Through dreams they explained later, much later, that this particular meeting with this triangle was prepared in advance and was programmed in advance, even before my birth.

Irina: He questions him, because what you say can only be the beginning of contact. And when you saw him fly away from you, that could have been the end of contact. You don’t tell us how you returned to the guys, because you don’t remember it.

Andrey: No, I don’t remember. I really don't remember.

Irina: The fact is that between the beginning of the contact and its end you could have been taken away. Actually they took it away. How

much time has passed at this facility or where you were taken, no one knows, except your curators and the Higher Self. And your comrades could, without waiting for you, simply leave, for example.

Vladimir : Andrey, but we can find out. If we want, we can find out all this. With your permission, but not now.

Andrey: Yes, of course.

Irina: What happened there was like a mental invitation to contact, and a scanning beam that checked whether the person was ready to fly, the basic physical and energetic characteristics. Some types of ships have a scanning beam. Not everyone has it. Some find out this first through the astral plane, through the screen on the ship, which shows the energetic and physical state of a person. And some are just a beam. Indeed, it can be felt, it shows this in sensations, like an internal vibration of the whole body from head to toe at the same time, moreover, of each organ separately, and at the same time absolutely calm air.

Andrey: Something like that, yes. About the same thing happened to me, yes.

Irina: Yes, he showed me just now by feeling. But it doesn't last long, usually a second or two.

Andrei: Yes, yes.

Irina: But at that time, all the main characteristics were taken from you, i.e. they saw on the screen who was standing in front of them, not their name or where you live, but physical parameters: height, weight, state of organs, state of energy, state of the brain, activity of consciousness, there are many parameters there.

Vladimir: So maybe he has a physical chip? Andrey mentioned this. Maybe they installed a chip?

Irina: Of course, it's possible. But you need to talk about chips either with the Higher Self or with those who brought him into contact. To find out exactly who contacted you. Are you in contact with your supervisor now, Andrey?

Andrey: Yes. His name is Bek TulaGorri.

Irina: Greetings, Bek TulaGorri. Can you talk to him mentally? That is, mentally ask questions and hear him?

Andrey: No. Mostly this all happens during sleep, or in a state of very deep meditation, turning off internal dialogue. Castaneda helped me a lot to contact him. I need to take a certain position, I need to lie down, turn off the internal dialogue and then progress further. This way I get in touch with him. This happens quite infrequently, because the information that he has already conveyed to me is considered ready absolutely and completely, and he advises me to convey it to the world in this way.

Irina: When he comes to you, can you ask him any questions?

Andrei: Practically yes.

Irina: You can ask him a question, for example, whether there was this contact with him, whether you were physically taken away, and whether the chip was installed? Main characteristics. And about the Interstellar Union, of course.

Andrey: After I watched a large number of your videos, I asked him a question whether he is a member of the Intergalactic Union. And he answered me that yes, that this is all happening with the permission of Archangel Gabriel.

Vladimir: One second. Let us clarify. Did he tell you in the Intergalactic Union or in the Interstellar Union? These are two different things.

Andrey: Intergalactic. That's it.

Irina: Archangel Gabriel, that’s understandable. By the way, it is not surprising that he named him, because this specialist understands perfectly well that the person who lives on Burkhad is known on Earth under this name.

Andrew: He said that he has many names, and one of them is Archangel Gabriel.

Irina: It’s clear who we’re talking about.

Vladimir: Yes, we understand too.

Irina: What can I say here? It's similar, LiSioni said, and Mead, they say what you just said about the balls and answered these questions, they were asked in order to understand whether there was a continuation after you went into the field. What did you see there, what could it be? Then the end of contact, when you saw that they were merging into one. Where did that big ball come from?

Andrey: He appeared from behind a hillock, from behind a river. First there was a river, then there was a hillock, because it was there that these three balls flew away, having gathered into one. And from there came this green ball. Greenish glow. Simply huge. 500 meters in diameter, that's for sure, if not more.

Irina: How far was he from you?

Andrey: It’s very difficult to say. Probably, it will definitely be two or three kilometers.

Irina: The thing is that you remember that it took off, and what is your next memory?

Andrey: My next memory is a book, and I wake up.

Irina: And you wake up, of course. And then you tried to find these guys, somehow talk to them?

Andrey : No, because very soon, literally in 2-3 days, I left this village.

Irina: I see. Didn't they come to your house, for example, on this day?

Andrey: No.

Irina: Okay. Did you wake up this morning?

Andrey: Yes, I woke up in the morning. I even remember what time the clock showed: it was nine in the morning.

Irina: For example, has nothing changed in your clothes or appearance?

Andrey: I don't know such details.

Irina: You will remember. Did you wake up in the same clothes you came in? Or in your usual night time?

Andrey : No, I was undressed.

Irina: I see. So your door was closed, right? Everything was fine, as if you had gone to bed.

Andrei: Yes.

48:43 About blocking the contactee's memory. How to consent to a request to the contactee database.

Irina: I see. So you could see the beginning of the contact when this

ball took off. He could take you further, etc. And you might not remember the end of the contact, in any case, if they erased your memory, blocked it, as they call it. They do this quite often for various reasons, so that, for example, the contactee does not tell if they see that it could harm him. It happens. They do this precisely on physical contact. They could bring you back. When a person is in a state immediately after exposure to a memory blocker, such a blocking field exists, he may not remember these events for another hour or two after it. Such residual effects do occur. You could automatically walk home and go to bed. Such descriptions do occur.

Andrey: I think that's exactly what happened. I think so, at least. I can't say this, but I think so because I can't think differently, because I found myself at home. I'm a fairly rational person about this, i.e. I think I got there on my own feet.

Irina: But the fact is that then we don't really know the time of contact and what happened.

Vladimir: In the future, we need to call those, if we succeed, those who were in contact with you. Or talk to your Higher Self.

Irina: For this, LiShioni or MidgasKaus say that they are both specialists in working with earthlings, they can, have the right to send a request about whose contactee you are and invite this specialist to contact you. To do this, you must agree to the request to the contactee database. "I give MidgasKaus consent to the request..."

Andrey: I think that it will become much easier for me myself. Because the information that is constantly sent to me in dreams, i.e. already perfecting various information, some reservations, agreements. I'd like to know, of course.

Irina: Mead now reminds me that Kirchiton at one time also tried to teach me Daraal.

Vladimir: We remember, we remember, yes.

Irina: I say: “I won’t teach anything.” And he stopped eventually. But if letters and numbers are transmitted to him through telepathic contact, this should have a purpose. If they teach him their language, no matter how it sounds, no matter what sounds it conveys. They do it.

Andrey: I am not taught any language at all. For example, I don’t know English. I was given a card in order to send a signal that these 4 schools of chess have already been introduced into the world. Only a specialist can evaluate them. I'm not a chess expert. My chess rating is 1300 in total, i.e. I can defend myself.

Irina: The curator who comes to you, whoever he is, if he tells you that these are our numbers, but these are letters, let’s say roughly, maybe they don’t sound like that. He gives you these badges that you wrote for a reason, because he has nothing else to do. This is his goal of contact. Why is he teaching you this? It would be better to ask him. But he has some purpose other than just passing the time.

Andrey: Of course, it’s not just to pass the time, no.

Vladimir: Let us now move on to a discussion specifically in relation to the school of chess. That incarnation of your curator, he was Capablanca, as we know. Let's talk about this now. We have LiShioni here. And the story with your physical contact. Now you give permission, they will send a request to the database, we will understand who contacted you. Let's maybe do a second series, right?

Irina: Say: “I, Andrey.”

Andrey: I, Andrey.

Irina: I give informed consent.

Andrey: I agree.

Irina: I give informed consent.

Andrey: I give informed consent.

Irina: MidgasKausu from the planet Esler.

Andrey: MidgasKausu from the planet Esler.

Irina: Upon request to the Interstellar Union contact database.

Andrey: To a request about contactees of the Interstellar Union.

Irina: Galactic Federation of Light.

Andrey: Galactic Federation of Light.

Irina: And other alliances, including extragalactic ones.

Andrey: And other alliances, including extragalactic ones.

Irina: There are contactees who are in another Galaxy, like Mitya.

Vladimir: It belongs to no one, and at the same time to everyone.

Irina: Yes, not Mitya anymore, but whoever is in contact with him is in another Galaxy. He was also given permission by the Interstellar Union, but, nevertheless, he may no longer be in the MS database, because he is in another Galaxy. He needs to make a request. As soon as he finds out the answer, in about 3-4 days, everything will be known. He will contact this specialist himself and find out whether we can invite him to contact, or he will answer you himself. MidgasCaus will contact him. Your supervisor can talk to you and explain everything. Did your supervisor give consent to interact with me and Mead?

Andrei: Yes.

Irina: So you already asked him this?

Andrey: Yes, I already asked him that, yes.

Irina: What did he say?

Andrey: He said: “Yes, of course. Let Irina get in touch.”

Irina: Okay. Since you are watching the video, if you have a chip, at least an energy one, not to mention a physical one, in any case, our videos are already familiar to your curators through you.

Andrey: I think so.

Vladimir: We can now move on to discussing the 4 schools of chess. We will postpone communication with your curator for the future. They will, I hope, find the person who had physical contact with you, if there was one, and issue a request. And now we can talk about the 4 schools of chess and Capablanca. You will now repeat the name, this was the name in Capablanca’s incarnation. Do you mind?

Irina: Yes, the name again. Moreover, it will probably be easier to find. Name again?

Andrey: Beck TulaGorri.

Irina: You see, what’s the matter, if your curator comes and tells me the name, I can perceive it in my own way. Moreover, I have a completely different chip. I can perceive at the level of my vibrations, not Bek TulaGorri, as you just called him, but somehow, I don’t know.

Andrey: Unfortunately, I don’t know how it works.

Irina: One more time.

Andrey: Bek TulaGorri, with two “r”.

Irina: I understand.

Vladimir: Bek TulaGorri. Then we can write in the chat.

56:33 Perception of names by the contactee.

Irina: I understand. Bek TulaGorri, if there is such a thing, i.e. the perception of names is individual for the contactee. I've seen this before. If someone calls me another name, it will not mean that it is not him. We hear differently, especially since their language is perceived by ear as another language, but to me and to you, in this case, it is transmitted in the form of thought forms, i.e. mental contact. I see Mead. He is, in fact, already there, somewhere next to you. Here he is hanging out there with you. I see an entity standing slightly behind and to the left of you.

Vladimir: On the left if you look from our side? Or to the left of him? From the left hand or from our left side?

Irina: No, from his side, right here.

Vladimir: From the side of his left hand, right?

Irina: A little behind.

Vladimir: Behind your left hand.

Irina: I see an astral entity. He has an astral body, it is not like the physical one, as the image was shown to me. Firstly, not so narrow, not the same skin color, but closer to yellow. This is an astral image. In some ways he looks like Ashtar, but his facial features are different.

Vladimir: It's not the Spiritual World that communicates with us, right? They come out in the astral world.

Irina: I still see an astral entity, but whether he is a humanoid or a disembodied Spirit, it is already necessary to talk to him directly. In any case, for me it will be astral.

Vladimir: Do you understand what we are talking about now, Andrey? We are trying to find out whether this entity comes to you, your curator, from the Spiritual world, or whether it is a physical alien who comes to you in the astral body. These are two different things.

Andrey: He told me in a dream that he has a body.

Irina: Capablanca. And he left our physical body on earth in what year?

Andrey: In 1943, March 8.

59:08 Communication between the contactee and the curator in the incarnation and after.

Irina: Theoretically, he could have already been born and raised on another planet, if a little time had passed between incarnations. Or maybe it was, Mead says, like with Messing. The fact is that it could have happened, that he was his curator, for example, too. Capablanca may have been his curator. And now Capablanca in the Spiritual World knows him very well. It happens that those who have left their earthly incarnation, and their curators remain alive on their planets, they continue to communicate in the astral plane. It happens.

59:55 Four new chess schools. Lucen.

Vladimir: Let's talk about these four schools now. We don't have much time left, let's talk about the knowledge that he passed on to you. Four schools of chess, right?

Andrey: Okay. I can send you the layout, i.e. full initial arrangement. For example, the first one, it takes place on a board that is ordinary, but according to the arrangement of chess pieces, a yin-yang symbol appears. The game is more spiritual because spiritual knowledge comes through it.

Vladimir: Can we take these rules now, your description, and play like a new game? Is this possible?

Andrey: Yes, of course.

Vladimir: Release a new game, teach it and you can play it?

Andrey: Yes, yes. I dedicated one person in total. I showed him, told him how it was done, all the rules of this game. I showed only one game, which takes place on a board of 64 squares.

Vladimir: And you have four of these. Did you show one of the four? Four different?

Andrey: Yes, yes. I showed him just one that can be played on the board we currently have. This person has a rating above 1800 units in chess. And this person said to me: “This is something brilliant, what you came up with.” Although I tried to explain to him that I didn’t invent anything, that it was conveyed to me in a dream. I can describe all four. I was told that I had to first describe three games, the first three. The fourth takes place on the transformation board. The board itself begins to transform, fields begin to be added to it according to the Fibonacci golden order, if you understand what I’m talking about.

Vladimir : I understand, yes.

Andrey: Depending on the moves, first one move is made, then another move is made, and the board is transformed. Then two moves are made, the board is still transformed. Then three moves are made, the board is transformed. Five moves are made, the board is transformed again. Then it transforms in the reverse order.

Vladimir: What is the goal? Illustrate these deeper systems you're talking about through games, right?

Andrey: No. The fact is that, as Capablanca, or better to say, Bek TulaGorri, because he responds to this name very well, told me, he said that these games will bring enormous spiritual development. And they will continue the system that was introduced 522 years ago by Lucen. There was this Lusen who introduced this system that we are playing now. It ended in '19.

Vladimir: Which system? Chess-related?

Andrey: The chess system. They explained to me that the chess system had ended. The one we have now, it ended in 1919 at the World Championship, when the first 12 games were drawn. The more drawn games there are in the world, the more development is hampered. Intellectual, mathematical, strategic, etc. The game data that was given to me differs in some respects from the model that was given to us 522 years ago.

Vladimir: We will still need to communicate with you, and perhaps someone who is in contact will come and talk with a chess specialist.

Irina: Just now he has moved a little to the right. Now I see a glowing silhouette from him, in the shape of a man, with rather broad shoulders. There is a white light behind his now right shoulder, very close, one might even say in his aura, which is speaking with him now, as I understand it.

Vladimir: Maybe the Spirit of Capablanca himself has already come to us?

Irina: Hello.

Vladimir: Hello, Capablanca. Fine. We now understand a little better about these systems and what they are needed for. And it would be necessary to bring here a chess specialist, a chess player with a rank, so that we speak the same language. Because neither I nor Ira are

experts in chess. I'm an amateur. I would like to ask our guests, Mead and LiScioni, to comment on the information related to the transfer of these games to us.

01:05:07 The meaning and symbolism of the game of chess and checkers in ancient times and in the modern world. Egregors of games.

Irina: The fact is that the game of chess itself is very ancient. The origins of both chess and checkers are similar. These games were invented by ancient priests to denote different forces in the human Soul and in the Universe under different symbols. Then it began to indicate that there was a struggle between Light and darkness. At first this struggle signified the unity of opposites, from which you later saw the unity and struggle of opposites. Opposites fight, but at the same time, are united. Initially, this did not mean a struggle, but a kind of alliance. MidgasCaus says: “As a psychologist, I studied these games. If now it is the case that one symbol is removed, another wins, another imitates some kind of military action, then earlier it was the influence of various forces of nature or the human Soul, or the Universe on each other. Each game symbolized, for example, the creation, the birth of the world and its end. The symbols were different then. The symbols that now represent an army on the battlefield used to mean something else.”

Vladimir: A certain code, in fact, is in this game.

Irina: Yes, a certain code that meant. It was invented, firstly, in order to convey information to students as an educational meaning, and secondly, in order to influence reality through this game. Like a magic ritual. By moving the figures in a certain way, two people create a certain egregor that changes the energies in space. There it was all connected with numbers.

Vladimir: Does this mean that even now, with the help of chess, if two people play, they can change space with this game?

Irina: Now they no longer invest energy in the symbols that they used to have. Now the goal of the game is to defeat each other. And then

there was no such goal. They were equal.

Vladimir: In 2019, this system associated with chess exhausted itself, which is why new systems are being transferred. Please comment on this.

Irina: There is an egregor of the game.

Vladimir: Chess?

Irina: Games in general. Competitive games that can develop a person intellectually. There are games with the computer: chess with the computer, there are some other games, or with each other. But why is he given information specifically about chess? And why do they want to add new meaning? Because the purpose of his contact, if I understood his curator correctly, the purpose of the contact is that what is close to the Soul of the contactee, to convey new symbols so that he can teach others what meaning they can play with.

Vladimir: We'll talk about games separately. Ira, I have a question for you. Maybe we'll ask curator Andrey to come to you now? There. And so that you can communicate with him directly? Is this possible, no?

Irina: Andrey, ask the curator to come to me.

Andrey: How to do this? I can only do this through sleep.

Irina: Do you feel his presence?

Andrey: No.

Irina: Nothing changes?

Andrey: No.

Irina: I can go to the astral plane and try.

Vladimir: We will need this time in the astral plane, it will not be fast. This must be done separately then, and we will have a pause. We can theoretically do this, but we must decide whether it is okay to interrupt the recording, interrupt the session.

Andrey: I think if you call him, he will come to you.

Irina: Is that what he said? I ask curator Andrey to move to me, please, if possible.

Andrew : I think you will feel a vibration in the 4th chakra.

Irina: I am Spirit. I wonder how you know this?

Vladimir: Who says this?

Irina: Who says this?

01:11:26 Contact with curator Bek TulaGorri, representative of the planet Kisefurt.

Irina: Yes, he is here with me. Yes, there is such a vibration. I wouldn't say that anything has changed much, but I feel his presence. Like a wave, from head to toe, different.

Vladimir: In my opinion, Andrey is not telling us something. He is in better contact with the curator than he tells us.

Irina: The contact can be such that a person says that I am in unconscious contact, but at the same time the contact can be much more conscious than he himself thinks. It happens.

Vladimir: Andrey is probably still afraid to say how everything really is. But no matter. Fine. I already understood this. In fact, everything is more conscious there. Fine. Let's talk to him, right, Ira?

Irina: He's talking to Mead now. I would like to ask you to introduce yourself to our new guest. What is your name? What planet are you from?

Vladimir: This is the first time we have such a situation. First. This is the first time a completely new sensational situation has occurred. We are listening.

Irina: He calls me what I hear as Payul. I'm saying that I can hear differently. He tells me it looks more like Pavel or Paol. It's about the same name, and for some reason I hear "yu" there. Payuli, something like that. This name is read through my vibration.

Vladimir: Can I ask him why Andrey perceives this name differently?

Irina: Because I have a different energy structure. Through my conceptual apparatus of the brain there are no vibrations that are characteristic of his planet. Mead says: "Other civilizations installed the chip, so this is the setting."

Vladimir: Please ask, can I ask him a couple of questions now related to Andrey, through you?

Irina: I realized that the sounds of your language are transmitted like this. I already understand, so it's better to communicate in thought forms, as it happens. Yes, this is my first time communicating with representatives of your planet. What is your planet? Yes, this is representative Kisefurt.

Vladimir: Can we ask a question? I'll ask a couple of questions related to Andrey?

Irina: Yes.

Vladimir: How to contact him? What is the name? Another name too?

Irina: I heard that when the contactee spoke, your name is Bek Taul.

Andrey: Bek Tula.

Irina: Bek Taula.

Andrey: No. Beck TulaGorri.

Vladimir: Bek TulaGorri.

Irina: Bek TulaGorry called you a contactee. Yes, in the second word the letter "T" is in front. Ah, got it. He says I heard Payyul, this is like the middle of his word. You can then, since he heard it like that, call me as the beginning. It will be clearer for you and for him. Just Beck.

Vladimir: Beck, dear Beck, I'm very glad to meet you. Thank you for coming to Irina. Say please. A few questions. First.

01:15:44 Real events of physical contact in 1990.

Vladimir: Did you have a direct relation to that contact, which he perceives as physical, perhaps that's what it was, Andrey? Or if not you, then what kind of contact was it?

Irina: These were my relatives.

Vladimir: Was it physical contact? Was he taken on the ship?

Irina: It was physical contact, and he was taken to the base, which is located on the Titan satellite.

Vladimir: He has a physical chip now, did they install it for him?

Irina: Two.

Vladimir: Where are they located?

Irina: He shows me, somewhere in the throat area, and in the area of the spine below, where the tailbone is, a little higher.

Vladimir: Thank you. Why is his memory blocked?

Irina: Because my relatives considered information about the contact of his mind to be premature.

Vladimir: I see, good. Thanks I got it. This means they considered it premature. Why was it considered premature?

Irina: Because he could react incorrectly to the contact and cause a decrease in his vibrations.

Vladimir: Okay. We will leave this topic for now. The question is this.

01:17:23 About Capablanca.

Vladimir: What is connected with Capablanca. So what exactly is your attitude? Spirit of Capablanca, please tell us about this. Is this one of your incarnations, or what is it?

Irina: I know him. We talked, I know him.

Vladimir: This is not your incarnation, but you just know Capablanca?

Irina: I am with him like a spiritual brother. It's not like a mentor, they're like equals. They met in the Spiritual World, as far as I

understand.

Vladimir: Okay, I understand. You met him in the Spiritual World.

01:17:59 The purpose of transferring new chess games.

Vladimir: What is the purpose of transferring these game systems to Andrey? Why is this being done now?

Irina: Transmission of games in order to convey, with the help of these symbols, in a language understandable to your consciousness, information about the world order, knowledge about the Spiritual world and the world of man himself. On Kisefurt, Mead says that the concept of the world, the work of their consciousness is quite different from the earthly one, much stronger than that of the Eslerites, for example. Therefore, it can be difficult to find adequate translations of terms into the earthly language, into Russian. He can only roughly describe it. Now LiScioni also talked to him. He says: “Beck found a good way out in that it was through chess, through a logical game, which contains elements not only of logic, but, as he said, of tactics, strategy, mathematics, spirituality, and symbolism, in this game, convey concepts about your idea of the world into earthly language.”

Vladimir: Beck, please tell me, from your point of view, you are talking about distributing, what is the best way to do this? Does this mean that we should replicate this game along with the rules? Distribute it so that people start playing it, like they play chess and checkers? Or, say, in virtual form, or in physical form? What is meant? So do I understand or not?

Irina: The virtual world is computers.

Vladimir: Yes, you can play chess on the computer.

Irina: It’s better to try, especially at the beginning, to put new meaning into an old game.

Vladimir: The old game of chess?

Irina: Yes, this game has a new meaning. He shows me an image of two people playing chess.

Vladimir: Andrey tells us that these are completely new 4 games. They have new rules, they are not the same as chess. Or are we misunderstanding?

Andrey: They are like chess, but the rules are different.

Vladimir: Oh, they are like chess. That's it, I understand, thank you. I understand better now.

Irina: The pieces are the same as in chess.

Vladimir: Yes, now I understand better.

Andrey: First school - yes. And the second, third and fourth are no longer there.

Irina: He said: “Especially at the beginning.” Some kind of beginning must be made. It will be difficult to produce and replicate something more or less en masse as long as people do not know this game. Therefore, you need to use the old platform first.

Andrey: Just the first game is an old platform. Old platform, but with different rules.

Vladimir: I understand. Beck, please tell me our entire conversation today and your permission for Andrey to contact with my help, with Irina, this was necessary, because from your point of view it was the best way now to convey this information from Andrey to a wide circle of people and, accordingly, information about these games?

Irina: Beck says: “Andrey saw information about Irina’s contact with the Interstellar Union just at a time when his consciousness could perceive it as reality. And when I saw this contactee through him, I asked on my planet. Since Esler is called differently in our language, shows a combination of numbers, a long chain of numbers, they told me that this is such a planet, and I mentally told him to contact you so that you can unite."

Vladimir: I see. We understood this too.

Irina: Indeed, through your group, if you find it possible, you can help him distribute his contact information. I'll be happy about it because I think the time has come.

Vladimir: Thank you very much. I want to ask one more question, and then give Andrey the opportunity to ask any questions that he considers necessary. This is my question.

01:23:16 Possibility of unlocking the contactee’s memory.

Vladimir: What can Andrey do if he wants it, how can his memory be unblocked, and is it possible on your part to get permission for this, about everything that happened to him there, especially since he now knows about it?

Irina: And his Spirit himself wants to remember what happened? That you were on Saturn's moon Titan. By the way, you came to its surface.

Vladimir: Came to the surface, yes.

Irina: Yes, at the base. We have a base on the Moon, but we took him to one of the bases on Titan, because the specialist who was needed to put the chip on him was present there. He couldn't fly to the moon.

Vladimir: How long did this contact last from the moment they took him onto the ship until the moment he got back to Earth? Earth time?

Irina: I remember his dossier or case that he got acquainted with. He was not present at the contact, but came later. Beck says: “I am a specialist in astral encounters. But I know those who were there." He says that there was contact for approximately 3.5-4 hours.

Vladimir: They returned him, and in an altered state of consciousness, without remembering this, he went home, undressed and went to bed, right?

Irina: When he walked, he remembered who he was and how he walked. And then, when he went to bed, he really wanted to sleep, and when he woke up, he could only remember the beginning of the contact.

Vladimir: Andrey, please, if you want, you can ask now.

Irina: Does he have a desire to remember what happened?

Vladimir: Now let’s listen to Andrey. Please, Andrey, you have the floor.

Andrey: Yes, of course, I have a desire to remember all this.

Irina: I'll show you this in a dream.

Andrey: Great.

Irina: He showed me images, like a movie, what the ship was like. I will show you in a dream, on an astral journey, what happened then. I will connect you to the database of your contact. And I will put energy into you, thanks to which, after returning to your body, you will remember.

01:26:09 Completeness of mental contact.

Vladimir: Beck, please tell me why Andrei does not have full conscious contact, like Irina, although the chips are there? Or is he not telling us everything? And he has all this?

Irina: His flow of mental information is quite dense, i.e. he perceives at a good level.

Vladimir: What does he need so that he can do it in this mode?

Irina: Just not in the “question-answer” mode, because he directs his consciousness to ask me about this. He has a more developed logical component of his mind, i.e. he himself has mathematical abilities, a logical component of the mind, so it is somewhat more difficult for him to relax and tune in to our wavelength. Therefore, he must enter a state of some kind of trance.

Irina, I’m talking to her now, has a lot of experience in altered states of consciousness. First of all, I see she is an astral traveler. It will be easier for her to do this. She may now be in an altered state of consciousness. She can even actually leave her body a little, and be in a semi-astral state. In the physical world, simultaneously perceive the astral. And at the same time she can still talk without losing awareness. This works well for astral travelers, since she does not lose consciousness in the astral plane. He asked me: “What time is it?” My record for astral travel in a state of awareness is probably about 2 hours. Meade has more than 8, I know.

Vladimir: About 2 hours. Andrey, if you wish, you can comment, say whatever you want. Or ask questions. It's not obligatory. If you wish.

Irina: Do you want to say or comment something?

Andrey: Actually, no. I have good contact in my sleep. I know a lot of things that can be conveyed.

Irina: Do you want to ask a question through me?

Andrey: They provided me with very extensive information, a large database.

Vladimir: We will help you disseminate this information if you want. We are ready to help. Undoubtedly, we will help in all our ways. We have many contactees who interact with us. And now would you like to ask something from your mentor, who is now with Irina, so that everyone can hear?

01:29:02 Previous incarnations of the contactee.

Andrey: Yes. I would like to know my previous reincarnation.

Irina: Yours?

Vladimir: Previous incarnation. Yes, him.

Irina: Beck says: “We discussed this with him. She was not on Earth. I don’t know this planet, he shows me an image of another planet. I do not know her. The Sirius system, one of the planets. There was a base there. Something to do with the Interstellar Union. He was on a base, he had a life in space."

Vladimir: Andrey, can you comment on this somehow?

Andrey: No. I don't remember any of this.

Vladimir: I see.

Irina: So he said that it was connected with Sirius. Was this a humanoid incarnation? Or a plasmoid? Because there is a plasmoid civilization on Sirius. Speaks humanoid, third level of density. This means that he flew there, because there are now asteroids around Sirius with bases on them. There used to be a planet there, but quite a long time ago. If he incarnated there, it was not in a previous life, because more than 12 thousand years ago this planet was destroyed.

Vladimir: Okay. Dear Beck, what was the most significant of Andrei's incarnations on Earth, we're talking about Earth? Was there an important, significant, perhaps some historical figure that we know? Or just meaningful?

Irina: He talked about this when he was with him on astral travel, in astral contact. As information received from his Spirit, which was on an astral journey, from his Higher Self, from the disembodied part of the Spirit. And in order to find out the most significant incarnation on Earth, you need to make a request, go to the Spiritual world, as we usually do.

Vladimir: I see. Then you need to go separately. Okay, do you have any more questions, Andrey?

Andrey: No.

Vladimir: No questions yet. We are a little limited in time, this recording lasts an hour and a half.

Irina: Yes, this will be a long post.

Vladimir: Then, Beck, you yourself can convey something to both the listeners and Andrey, to whomever you consider necessary. Next we will outline how we will interact with Andrey. And now you can say whatever you think is necessary to anyone.

Irina: She says that we should help spread this information. I answer that we cooperate with various contactees who come to the Cassiopeia team. If your contactee is ready to cooperate, then we will also be ready. He says that he hears me at a fairly good level, i.e. transmitting information through chips.

Vladimir: Now he has another contactee, Irina.

Irina: Beck says: "The second time where the cars started playing, it

wasn't our ship nearby. This was an influence from another world that does not belong to us."

Vladimir: It was a plasmoid world, Beck, what world?

Irina: It was higher frequency, i.e. our ship was not nearby at that moment. He only had physical contact with us once.

Vladimir: But nevertheless, he has physical chips, i.e. he is your full-fledged contactee. This means that he can communicate with you in a pure way, on a full scale, if he wants and builds a channel.

Irina: Yes.

Vladimir: Okay. Dear participants in the conversation, I sincerely thank everyone who was here.

Irina: Say hello to the contactees. You are not the only one who has contacts with him. He still has several contacts. You can return to him, to his space. We have already met, I see, Mead. Good Excellent. Then we'll talk. We can make an additional request if required. If necessary, we can hold a separate conference on this later, but I think we have already learned some things.

Vladimir: Andrey, you just introduced aliens to each other. Thank you for being with us. You organized a friendship here between Mead and Beck, this just happened, I'm not even joking now. We are glad that we also participated in this.

Irina: I thank you too, Andrey. Thanks Beck. I thank our viewers. And you, MidgasKaus, and you, LiShioni. And, of course, you, Vladimir, for arranging this meeting for us. Both contactees and curators. And I hope for further fruitful cooperation with both you and your curator. Is there anything you want to add, maybe say to our viewers?

Andrey: I thank all the intelligent people who took part in this contact, absolutely everyone, both the Interstellar Union and the Intergalactic

Union, which gave me information and which finally moved me to the point to contact Irina and you, Vladimir. Thanks a lot.

Vladimir: Friends, see you again on air! Once again I thank everyone, I hug everyone. See you again! Thank you.

Irina: Yes, see you again. Goodbye!

Andrey: Goodbye!

Vladimir: Goodbye, goodbye!

Broadcast January 21, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Vladimir Goldstein - administrator of the Cassiopeia project, journalist, host of the radio "People's Wave of Chicago", Chicago, USA;

Andrey Zhilkin – contactee from Spain;

LiShioni - representative of the planet Shimor, sociologist, specialist in the astral world and its interactions with the material world;

MidgasKaus - representative of the planet Esler, biologist, psychologist, microbiologist, specialist in alien life forms;

Bek TulaGorri is a representative of the planet Kisefurt.

#202 Everything about everything! Live broadcast with answers to questions from subscribers. The Ascension of the Earth and Humanity.

https://blog.cassiopeia.center/vse-obo-vsem-voznesenie-zemli-i-chelovechestva
https://www.youtube.com/watch?v=A3oIsSW7W-U

04:00 News about the opening of the Cassiopeia Training Center, goals and objectives of the project.

Irina: Hello!

Maxim: There is sound, everything is fine!

Irina: There's something with the microphone.

Maxim: It's okay. So. Dear friends, hello everyone! We have some good news to start with. On the first of the month, as we planned, we will open our Health Training Center "Cassiopeia", I will probably demonstrate this opening on the YouTube channel, right Irish?

Irina: Yes, we will go there and open it.

Maxim: Yes, we will go there and open it so that each of you can see the readiness of our Center to accept new students and, in general, in principle, to accept people. Why? Because there will not only be a training center there, but there will also be a health testing center. I have just arrived from St. Petersburg, bringing very interesting new equipment for bioresonance diagnostics of auric structures and, accordingly, etheric fields. That is, now we will not talk unfoundedly about the aura, about etheric structures, you will be able to see all this

with your own eyes on the computer thanks to the new equipment that I brought to our Center. So where do we start? Probably, as always, with interesting news. Whoever is present with us, let's start with this.

5:30 New alien base in the Voronezh region.

Irina: Hello, dear friends! Today we have with us MidgasKaus from the planet Esler and LiShioni from the planet Shimor, since today we have a free topic - answers to any questions that interest you. And as always, we will start with an already established good tradition - this is Intergalactic News. MidgasCaus says: “I greet you all! Recently, due to increased contacts with “Cassiopeia”, with specialists, contactees, LiSioni and I, and other specialists come to contactees, and therefore we follow galactic news less than usual. I am focused on planet Earth and the news that I want to share is related to the Voronezh region, where Irina lives. On the border, not far from the border of the Voronezh and Penza regions, in the forest..."

Maxim: Our microphone hisses, they are writing. Wait, now I’ll find out for sure whether it hisses or not. Talk for now.

Irina: In the Voronezh region, on the border of the Voronezh and Penza regions, a new alien base was recently opened in the forest, which was built by the planet Shimor.

Maxim: Please take off the microphone, I’ll move it, this is how we’ll do it now so that it doesn’t crackle to anyone.

Irina: Yes. The base is located underground at a depth of 522 meters, and its purpose is a scientific base, a research base, and there will be specialists from the planet Shimor, from the planet Esler, Burkhad, from almost all the planets of the Interstellar Union who work in the Cassiopeia project with contactees, and the opening of this base is timed to coincide with the opening of the Cassiopeia project school, which Maxim spoke about.

Now he is telling me that they are planning on this base to go to the Astral and coordinate the work of the school, to go with us to the

Astral, for example, to teach us how to select curators, for this purpose the base is so that specialists in the astral body can do this with less energy expenditure , than they do it with Shimora and so on. It's like another base. The closer they are to the scene of action in the physical world, the less energy they spend on being outside the body.

Maxim: Great! Very good news. We make our base, they make their base.

Irina: Yes, they built their Center.

Maxim: It's cracking again, well, guys, we can't fix anything yet while we broadcast like this, because we connected an additional microphone, our main microphone broke again, I can't do anything, my equipment is just flying in buckets, I I can't set up a normal sound sometimes, because there's a lot of energy here, and it all flies and breaks, I buy new equipment every time, so don't blame me, we do everything we can for you.

Irina: Oh, thank you very much! How old is Jesus? About ufologists with shovels. No, they have to dig very deep to 500 meters, they need a very large excavator, and even then it won't take out that much soil, and it's impossible to work unnoticed, and if they are noticed, they will send out such radiation that it will not be possible to notice this base. That is, they affect, for example, a person's inner ear, his perception, and the person simply passes by the entrance without noticing it. They have methods so that a person who was not invited there cannot enter.

11:30 How old is Jesus now?

Irina: About how old Jesus is. Do you mean earthly years? Well, if he was born in the fourth year before the beginning of the new era, then he will be 2025 years old this year.

11:45 How to get to the "Cosmohealth" project.

Maxim: Guys, you often ask me how to get to the "Cosmohealth" project with the Pleiades Intergalactic Medical Service, or how to get to

the “Meditation” project, or to “Cosmoenergy” and “Synergy”, everything will be below under this video, all links will be, so you can safely click on the links and you will get to where you need to go. I ask everyone who is watching, let’s put a “like” so that others can see us, so that we can be noticed, and so you will help us continue to carry information, just by clicking “like”, you don’t need to do anything else, and all your friends will notice us accordingly , familiar this video. The more “likes” he gets, the more he will get to the top. Let's ask questions. Guys, we have a common topic today, we didn’t prepare for anything today, because I just recently arrived from St. Petersburg on a plane with new equipment for the Center, and we decided today to make it light online and answer any of your questions.

12:50 How to make friends believe?

Maxim: How to make friends believe?

Irina: That’s a good question. It is impossible to make someone believe. I am sure that they would not like this attitude towards friends, just as you would not like your friend’s question about how to make you not believe. This is the choice of each person. You can only offer, tell about your experience, but if they tell you that they don’t believe, then the best way out is to say: “It’s your choice.” But if they try to convince you, you can gently say that it is my choice what to believe in, and this is my life, and you have the right to your choice - who to believe, and I have the right. In general, this is a matter of the Soul of every person. If a person internally does not agree with the information of the Interstellar Union, and I give information from the Interstellar Union and from the Spiritual world, this indicates that he has not yet completed those lessons in the material world that would allow him to be convinced from his own experience of the reality of that information, which is given through me.

Maxim: Guys, the equipment from St. Petersburg has already been analyzed, that’s why I went for it, that is, MidgasCaus looked at this equipment and looked at the equipment that we already have, and approved it quite well, gave good reviews, so in order for you now look at your internal energy structure, your diseases, your problems on the physical level, we don’t need MidgasCaus, well, of course we need MidgasCaus, but we can do it now without it, that is, we can do it using the equipment that we have we are there. A set of some equipment will

give the same effect as MidgasCaus, even down to the prescription of herbal preparations. We, fortunately or unfortunately, cannot prescribe medications, we do not have such powers, so we will work only on herbal preparations and prescribe these herbal preparations based on vibrations.

15:20 Is drinking packaged juice harmful?

Maxim: So, further. The question is, of course, such an interesting one. Is drinking packaged juice harmful? This is for Meade.

Irina: No, I can't show it to you so you can look at the vibration, I don't have it. This means you need to look at the composition. If there are no enhancers added to the juice, such as sweeteners, flavor enhancers, preservatives, or if it is just juice, then drinking it in moderation is not harmful. Now Mead says that the juice contains the same substances as the fruit or vegetable from which it was obtained, but it lacks pectin, most of the fiber and other substances that contribute to the absorption of those vitamins and microelements contained in juice, so he believes that it is healthier to eat this product than to drink juice from it. But if you just want to drink, then you can drink juice, but if it is too sweet, it is better to dilute it with water.

16:50 Are there living witnesses of human history among the representatives of the Interstellar Union?

Maxim: Are there living witnesses of human history among the representatives of the Interstellar Union?

Irina: Everyone?

Maxim: The entire history of mankind.

Irina: Three million years?

Maxim: Are there any representatives of the Interstellar Union?

Irina: Only in the Spiritual world. No, no one lives for three million years, not even Jesus Christ, he was either incarnated or disembodied.

17:20 Location of Eden.

Maxim: Are there any bases in Cyprus?

Irina: There are no bases in Cyprus, but they exist on the southern coast of Turkey, this is the Tumesout base, a very ancient one, which was built to explore the site of that old base, which was Eden. The base, which was Eden until 12 thousand years, when it was destroyed, and in place of this territory a huge hole appeared from the effects of weapons, and only then the Mediterranean Sea appeared. And at the bottom of the Mediterranean Sea, closer to the shores of Turkey, there are the remains of this base, only they are under alluvial bottom sediments.

18:30 Registration for school.

Maxim: Should I enroll in school or just come? Listen, definitely only through registration, just by arriving, you may not get anywhere, because Irina and the teachers and instructors will be busy, and the equipment may even be busy, so on the 27th, this is Wednesday, I will post the questionnaire on all our social networks : Odnoklassniki, Facebook, VKontakte, Instagram, and you will have to fill out this form and send it by email. It will be possible not to indicate personal data there, so you will just need to indicate your name and answer the questions that will be in the questionnaire. That is, we will collect questionnaires via mail. There will be no automated system for collecting questionnaires, an email will be given, and a questionnaire form will be given, you will need to download it, fill it out in Word and send it to us.

19:35 Why is it impossible to change your spiritual level while in the Spiritual world? Law of energy conservation.

Maxim: Why is it impossible to change your spiritual level while in the

Spiritual World?

Irina: Because in the Spiritual world there is no possibility for changing the Spirit. The possibility of changing the Spirit can only be given in matter, because it itself is changeable, and matter is the same eternal substance as the Spirit, but unlike it, it constantly changes its properties, but it also does not collapse, that is, it passes from one form to another. The first law of conservation of matter states that no substance arises or disappears, but passes from one form to another. This substance is dense matter. A similar law exists in the world of energies. It's called the Law of Conservation of Energy. And the constant variability of all types of matter, dense matter and subtle matter, just allows the Spirit, which has connected with it, to change its properties.

20:45 Evidence through a lie detector.

Maxim: Daniil Chusov: “Hello. Can you prove your abilities on a lie detector?” Daniel, I want to tell you that it is impossible to prove our ability on a lie detector; it is only possible to prove that we are not lying. Come, take a lie detector and we will be happy to film this material.

Irina: Yes, of course.

21:00 Abilities of the Atlanteans.

Maxim: Tell us about the ancient technologies of Atlantis.

Irina: Technologies?

Maxim: Yes. Were there any technologies in Atlantis that the civilization used that we do not use? Mid, what do you know about this?

Irina: According to the history of the Earth, which I studied, Atlantis did not have technology, but there were very well-developed abilities of

the psyche, brain, energy, which are very reminiscent of the ownership of their Spirit and their body among the Snow People. They could use material aids, but I would not call them technology. They could use huge crystals, for example, metal sheets made of copper, coated with a certain plant sap, which could enhance the properties of these metals, but they were not like, for example, modern computers, televisions or electric batteries, they played a different role - an accumulator of psychic energy and energy of their mentors, they were in very good contact with plasmoid worlds.

Maxim: Guys, come to school, study at school, study, and there you will ask these kinds of questions.

22:30 Who is Ruslan Romanov?

Maxim: Who is Ruslan Romanov? This is probably Nelnaro, if I'm not mistaken.

Irina: Yes.

Maxim: This is our friend, a contactee with extraterrestrial civilizations, he is a very interesting person, and I hope we will finally have a broadcast with him, we have been planning for a long time, but we were just traveling, and we still can’t it was before, therefore, Ruslan, we send you a huge greeting and we will wait for the time when the Mentors will connect us, it seems that something is preventing us from connecting, so Ruslan Romanov Nelnaro is a contactee, we confirm him as a contactee and are happy to work with him We'll even film a live broadcast.

23:10 Mother of the World.

Maxim: Is there now on Earth the embodiment of the Mother of the World, about whom Blavatsky and the Roerichs wrote?

Irina: If this is the Mother of the World that I am thinking about, she is now incarnated... In general, several entities call themselves the Mother of the World, including the Mother of God who calls herself

that, she is the mother of the entire Universe. Saraswati calls herself that, the essence that is now embodied in the world of the 38th density level, it is embodied in the 38th density level approximately in the projection of the center of the Milky Way Galaxy. There are several more entities that recognize themselves as women, and they are embodied in plasmoid worlds, some of which are located in the Spiritual World. That is, several people call themselves that.

24:20 Matrix Garyaeva. DNA.

Maxim: Mid, please tell me, they're asking about Garyaev's healing matrix, but in general, in principle, I'll paraphrase the question a little. What do you think about the sound wave structure of DNA?

Irina: We need to expand on this concept a little so that we can understand what we are talking about.

Maxim: Please tell me, DNA has vibration, right?

Irina: Essential?

Maxim: Essential. Maybe it has some kind of sound vibration?

Irina: Any dense material structure has vibration, that is, the vibration frequency of the structural chemical elements included in it and the fields that surround the atoms. And this vibration is strictly individual and species-specific for an animal or a person, and also strictly individual for an organism. If these frequencies are translated into audible sound frequencies, you can recode them in a certain way, yes, you will hear such a melody, one might say, at very high frequencies. That is, these sounds will not be chaotic, they will form a certain sound melody. I know that there are special devices, including those on Earth, that read the frequencies of your organs and can translate them into sound, and there are even devices that offer to listen to this sound in order to restore the original energy of these organs.

Maxim: Which is basically what we will do with the new equipment. Our new equipment has built-in functions of an ideal organ, and using

this equipment we can restore these organs through the sound wave structure, so we will try.

Irina: DNA can also be translated, for example, into text. That is, each DNA triplex, each nucleotide can even be translated into a certain letter, a certain syllable, combination, and then the DNA of each cell, the DNA helix of each cell - this will be a separate book in which everything is written about its structure and its functions.

26:55 The eternal body of Jesus Christ.

Maxim: How long does Jesus plan to be incarnated as an earthling?

Irina: He plans not to part with this body. That is, he entered it forever, and he cannot interrupt his incarnation only if he kills this body. It is immortal. It became truly immortal, this is the only physical immortal being known to us in the Universe.

Maxim: Weren't there others like you?

Irina: We don't know. And even the Angels are surprised at this that He went for it, not that He had enough strength, but that He went for it, connecting himself with a certain body in a certain psychophysical reality, and deprived himself of the possibility of incarnation in billions of worlds, and , and not only this cycle of the Universe, such a body cannot even be destroyed, these atoms that enter into it, they are simply forever renewed, they are eternally renewed, and its cells remain just as young, that is, they do not age, because , no matter how many divisions they go through, they always have the same strength and energy as they had at the beginning.

28:20 Physical contacts with contactees.

Maxim: Are physical contacts now prohibited for contactees other than Irina?

Irina: No, they are not prohibited, but they are also carried out using

targeted methods. That is, if it is not just a contact, but for some purpose that must be announced before the contact. A contactee who has the possibility of physical contact, he asks his curators astrally or mentally about what world he wants to visit, the same curators inform the Contact Council of the Interstellar Union, and there this issue is considered.

29:00 Can the dead see the living in this world?

Maxim: I came across a good question. Can the dead see the living in this world? That is, from the Spiritual level, can they see living people in this world?

Irina: I'll explain now. The fact is that the Spirit, that the astral body that left the physical temporarily, that the Spirit that left it forever, does not have receptors for perceiving the physical world. Is this how you see the physical world now? With your eyes. How do you receive information through your eyes? Light reflected from objects enters your eyes and creates an image on the retina of your eyes. This image is transmitted along the optic nerve to the brain, to the occipital part of the brain, and from the occipital part of the brain, through special neurohumoral connections, this information is transmitted to the Spirit through the etheric body, and so on. But when the Spirit leaves the body, the flow of photons through it, the flow of light energy will pass without stopping, that is, it does not have receptors, like physical eyes, it perceives everything, it will be like if someone went into the Astral, there is such method, when you don't turn on astral vision, you don't see anything, you feel it, and until astral vision turns on, it will be so. If you try to look at the astral world physically, it will only end in a return to the body. And there astral vision is already activated, that is, directing energy not to opening the eyes, but to directing the flow between the physical eyes. So he doesn't see, no. Since we see each other physically - no. Just as we will not see them in a physical body, they do not have physical eyes, they are already closed, and they remain with the body. But he can see through the eyes of other people, connecting to them, if they are compatible, through their fields, and he can see images in a person's mind, for example, a person is watching, who is in contact with this Spirit, a person is watching, for example, TV, what -it's a film, and the Spirit that comes to him through his perception, he sees these images too.

31:45 The main tasks of Angels-Mentors and Curators.

Maxim: Irin, what are the main tasks of curators, Mentors in this world for people? Let's explain what a Curator is, what a Mentor is, many don't even understand and confuse this.

Irina: We call curators any energy-informational entity at any level of density or from the Spiritual world that comes from another world, that is, not from the Earth of third density, not a person, but a humanoid or plasmoid or disembodied Spirit from any level that comes to a person, we call him a contactee, and transmits energy, information, or both. We call him a curator, from the word curare (curare) - to lead, the one who leads a person along the path of his contacts, his contacting. Each contact has a goal, and the curator leads him to this goal. And the mentors, usually in our project, according to the instructions of the Interstellar Union, according to the teachings of the Interstellar Union, mentors are usually called Angels, that is, the curators of the Spiritual world, so to speak, and not all Angels, not the Guardian Angel, but this is what the Angels are called who helped select the Spirit embodiment to realize its goals. Usually we call this the Consulting Angels, the Arhats Angels, who also help with this. We call them curators, we can call them mentors, that is, their task, why they are called mentors, is not just to supervise for the purposes of their contact, but to instruct, give spiritual guidance about the Spiritual world.

34:00 Neanderthals and Cro-Magnons.

Maxim: Who are Neanderthals and Cro-Magnons? This is probably not a question for our contacts. There you can open a book to read who the Neanderthals and Cro-Magnons are.

Irina: This is the name of your scientists, who called the first people who were after the war 12 thousand years ago, which ended, those tribes that just began to multiply after the war, you called them Cro-Magnons. And Neanderthals are some tribes that lived earlier, up to 40 thousand years, as far as I remember your chronology. (Mead speaking). Indeed, they find the remains of those people who lived in pre-war times, they determine their age using various methods, and they are older than the war; they lived before the war on Earth in different tribes.

35:00 LiSioni's audience with Jesus Christ. What Jesus Christ looks like.

Maxim: LiSioni, here are some questions for you. We know that you communicated with Christ at Shimora. Please tell us what you talked about with him? And what did you talk about, and in general, what does Christ look like, what are his tasks now? What did you talk about, what did you talk about?

Irina: He looks like this. Now LiSioni is showing it to me. He is taller than average, about one meter eighty, with a dark short beard, long dark hair down to his shoulders, an open wide forehead, but his skin is not as white as a Burkhadian's, but about the same as ours, pink. He has a long, wide forehead, and his face narrows a little in this way, his chin protrudes, it's so sharp, well, not square, but it's triangular, it's sharp, his big almond-shaped eyes. And they can change color with him, like the Burkhadians, then they become brown, then blue, this is typical for the Burkhadians.

Maxim: Changing eye color.

Irina: Yes, among the Burkhadians. And with him they can still glow. Depending on his mood, his energy influences the pigment of his eyes so that they change color. He has such a long straight nose and hands with long fingers.

What we were talking about? We talked about the fact that I am the curator of the Cassiopeia project from the Interstellar Union, Irina and Maxim. And they talked about our already common project "Cassiopeia". I asked him his opinion about the vote; it had not yet been completed in the Interstellar Union about giving evidence about the existence of the Interstellar Union and how he felt about it. I already gave an answer on the last live broadcast that he said that he was also asked to give evidence of his Divine origin, he gave it, but not in order to be believed, but to heal the sick and help them with this. Not even to attract people to you, but to give help. And he said: "By doing this I only hastened my execution. Because people are not ready to recognize themselves as the Light, they were afraid that I would bring the people with me, and they would become completely bankrupt. And

I want to say that those who made the decision to execute me, they understood exactly who I am. But that didn't stop them." He told me so. And I also asked about my own, about the purpose of the incarnation, how far I am fulfilling my tasks. He asked about whether it was possible that in the future I would have a wife and child. He said that this is not your path yet, but that I should be next to you in the Cassiopeia project. And he asked about his parents, I already have them in the Spiritual world, he looked where they are and so on: about my scientific project, which I did earlier together with my teacher - this is about finding a connecting link between matter and Spirit, We had some scientific work there, I asked him about it, and he gave me some valuable advice. Our entire audience lasted about an hour and a half, Earth time.

Maxim: So, what's the next question? I read questions, want to ask, and I always forget after listening to the information.

40:10 Awakening people.

Maxim: What major event is coming in the near future that will break the current system and lead to people waking up en masse?

Irina: What an interesting question. What major event is coming in the near future that will break the current system and lead to people waking up en masse? Big event for us? Opening of the School. For you? This event is individual for everyone, that is, everyone experiences their own little catharsis, one or more, their own individual quantum transitions, the transition to a new level of vibration and awareness. And the impetus for this can be anything: a book read, a video watched, a meeting with a bright person, or your own experience of overcoming obstacles, and sometimes a danger to health, a danger to life, when it has passed, allows you to evaluate, correctly assess the value of this physical life and each her moments, not only hers, but all people's. And this leads to the comprehension of the truth that you are united with all people in this desire to live, love and be loved.

Maxim: Yes, guys, I see your messages about "charlatan" and everything else, guys, we are not going to prove anything to anyone. I will tell you honestly, now a huge number of attacks are coming in our direction, and I understand that we have stepped on the tail of the

hydra, we accept people with payment according to their hearts, and people have earned a lot of money from this. Therefore, when you talk about charlatans, you must clearly understand that charlatans, their main task is to defraud you of money. We don't have such a task. We have a task - to give you information, and there is a task - to carry the Light of the true love of our Creators, and we can do this. Therefore, when you write such things, you obviously do not write here. We are not going to deceive you, and if you do not believe our information, just pass by, look for your level of growth and development, your level of awareness, we do not force anyone to listen to us, watch us and believe us.

Maxim: Yes. Next question. How to translate the mantra “Om Maya Ma Kita Raku Ana Piya Namu” into Russian. Mid?

Irina: They don’t know this language. At least they didn’t study it, it looks a little like Sanskrit, but it’s not clear what it says.

Maxim: Clearly, we need a specialist who knows this language.

Irina: Yes.

43:30 Remember past lives and experiences in the Spiritual world.

Maxim: How can you remember past lives and experiences in the Spiritual world, if this is possible?

Irina: Perhaps. By connecting with your Higher Self and sending questions to it. When you have been in contact with your Higher Self for a long enough time on your life issues, sometimes even on everyday issues, and you set up your spiritual channel so that you will turn on this flow at your conscious desire anywhere and at any time, then you can , being in a state of relaxation, turn on this channel, close your eyes and ask to be shown those past lives that are significant for your incarnation. And when certain pictures appear to you, you can mentally clarify what it is, where it is, but it is advisable, of course, to write it all down, record it, so that you don’t forget when you leave the state of altered consciousness. Yes, you can.

44:30 Armageddon.

Maxim: They ask: “Will there be Armageddon?”

Irina: Is Armageddon the end of the world? The final battle between good and evil.

Maxim: Yes.

Irina: We hope that the Earth will avoid this fate, since this will be the reason for forced mass contact. We hope that the increase in the vibration of the Earth, which has begun recently, will accelerate at an even faster pace, and the Earth will avoid the materialization of this prophecy. We hope so.

45:20 New Jerusalem. The duration of the existence of the Universe.

Maxim: Is there a New Jerusalem in Heaven? Guys, of course, you ask such interesting questions.

Irina: Is there a New Jerusalem in Heaven? This is a symbol of the Kingdom of Heaven. The word "Jerusalem" means the Holy World. Indeed, the name of the city of Jerusalem is taken from the ancient Hebrew language, it is simplified Tumesout, accordingly, it is the Sacred Divine World or the World of Yahweh. New Jerusalem - this suggests that... in general, the symbol of New Jerusalem is a symbol of the renewal of the entire material world, which will happen in the next cycle of the Universe, not in this one. Now, of course, it exists in the Spiritual world, but not yet in the material world. It exists only in the flow of time as one of the options for the continuation of those events that exist now.

Maxim: There is such a possibility, right?

Irina: This is in the next cycle of the Universe - renewal. Jerusalem is the renewal of the material Universe with energy from the Spiritual

world.

Maxim: How long is the cycle of the Universe in our time?

Irina: In our time? Well, somewhere around 28-30 billion years.

Maxim: So the Universe is compressing and decompressing or what?

Irina: It passes into the subtle-material planes, and then the subtle-material planes pass into the spiritual planes, they do not disappear, but pass into the spiritual, the energy that went into their creation, and all Spirits simply end up in the Spiritual World.

Maxim: These are two spirals, one in one direction, the other in the other direction, right?

Irina: You can look at this world this way. You can consider that they simultaneously appear and disappear, or you can imagine that they take turns, all this is relative, depending on the point from which you look at this process, from the Spiritual world or from the material.

48:10 What languages does Christ speak?

Maxim: They ask: “LiShioni, what language did Christ speak?” LiShioni, what language did you speak to Christ?

Irina: Mentally. He is a good telepath, Christ, he mentally transmitted thought forms. But Christ knows almost all the languages of the Interstellar Union. We said a few words in the language of the Interstellar Union, Shimorian is part of the languages of the Interstellar Union, he knows it, but we spoke mentally. He spoke a few words in Shimorese, but mostly we had a mental dialogue.

49:00 Alien women.

Maxim: Why don't we see female aliens in the Cassiopeia project?

Irina: Because there was no request. Those scientists who work with Irina are those who, firstly, are suitable in terms of vibrations for her energy field for transmitting information, and, secondly, who are specialists in those areas that interest her and you. If there is a need to involve female specialists, it will undoubtedly appear.

49:30 Qualities of a healer.

Maxim: So, the question is: "Which healers should I contact, and which healers should I not contact?" Maybe I'll say mine, and you'll say yours? Guys, if you see that a healer on the screen speaks negatively about other healers who begin to extol themselves, then you do not need to go to such healers. The healer must be humble, the healer must be self-possessed, and he must not have an inflated ego. I believe that you need to contact those healers to whom your heart is drawn. That is, according to the heart. If you feel that in your heart you want to get to this person, then go. What do you think, Irin, who, what healers should I contact, and which ones should I not contact?

Irina: Indeed, before turning to a healer, ask your spiritual heart, your Higher Self, and most importantly, find out the spiritual cause of the disease. And when you communicate with a healer, if he promises you healing in one or several sessions and gives a guarantee for this, this should alert you, because no healer and no curators know exactly how your body will react to this is a treatment, because it largely depends on you and on your reaction to this treatment, on how much the spiritual cause will be realized and corrected by you. An honest, pure healer will definitely tell you about finding out the spiritual cause of the disease and will never shift responsibility for your condition to some dark forces, sorcerers, reptilians, demons, and so on, but will always look for the cause of your condition in your Soul.

51:45 The next cycle of the Universe. Next Manvantara.

Maxim: The question is: "What exactly should happen in the next cycle of the Universe, Manvantara, with the material Universe?"

Irina: The material world, you simply divide it into material and spiritual, because that's what you're used to, and the world is one. Those particles that are in the material world will lose their density, that is, the atoms will begin to increase their vibrations so that the energies entering them will turn into radiation energy: electromagnetic waves, radiation, gamma radiation, and so on, until they pass into the subtle worlds . Then these subtle-material structures, the energies that make up these subtle-material worlds, they will further increase their vibrations in terms of density until they move into the Spiritual world. Not a single atom will disappear, it will turn first into radiation, then into a wave of subtle energy, and then into a stream of Spiritual Light, from which it originally arose. In fact, matter is still spiritual Light, but it is simply in a dense form. It can lose its dense form and acquire it again.

Maxim: Here people ask: "Why don't aliens fly to our School and personally teach people?"

Irina: Because it is proof of physical contact. Without the permission of the Interstellar Union, evidence of physical contacts cannot be given, since we have not yet entered the Interstellar Union, and if we give physical evidence of the presence of aliens on Earth, this will arouse interest in us from scientists, intelligence services, military, government structures, which will create the need mass contact at the level of development at which we are now, and we are not yet ready for it due to the psychophysical development of most people, the state of the noosphere, the concepts of people and the materialistic mind.

54:40 Why are the special services not interested in Cassiopeia?

Maxim: Why are the special services not interested in us? Well, guys, this question needs to be asked to the special services, I think that they are interested in us in any case. If I were an intelligence officer, I would, in any case, be interested in such structures as Cassiopeia, because I would find in it some specific destructive moments that would violate the political system, something else, that is, I would myself, if I were in the place of the intelligence officers, I would definitely pay attention to this, so if you want, you can check us, we have no other task than to bring knowledge, Light, love of our creators. We are not a sect, we do not belong to anyone, and I clearly declare that we have no other goals than to provide information about our creation, about energies, about the structure of the Universe, and all

this information has been written for many millennia in a book, you can go to bookstore to the esoteric department and see all this information about what we are talking about. Therefore, I think that in any case they are keeping an eye on us so that we do not violate our current Russian legislation and those ethical issues that exist in our state, so I am sure that they are watching. As soon as we violate this legislation, I think our activities will be stopped, but we are not going to do this and will continue to bring Light and the opportunity for people to learn new knowledge and acquire this knowledge.

Irina: Yes, I'll definitely go and have a drink now.

Maxim: And now we will finish, we have one or two more questions and we will finish.

56:20 Space and the Universe.

Maxim: Space and Universe - what's the difference?

Irina: Universe - in Russian, Cosmos - in Greek, but these are the same type of concepts, only the Universe denotes the known material world, and Cosmos denotes the material world, only in Greek, the created material world. You can say the Universe, but the Universe already includes the Spiritual World, you can say the Multiverse, that is, a Universe consisting of many dimensions. I want to say that, according to the understanding of the Interstellar Union, the word Cosmos, in contrast to earthly concepts, includes not only the dense material physical cosmos, but also subtle material worlds, portals into the world of which are projected into physical space, that is, at any level of density, but it's all the same Space, that's why they are called that: space plasmoids. The Earth is the same part of the Cosmos as Esler or Shimor, and earthlings are the same space inhabitants as the Shimors or Eslers, who simply live on a celestial body that revolves around the Sun.

57:55 Vanga's prophecy. Spiritual ascension of the Earth. Russia. "Cassiopeia".

Maxim: Here's an interesting question: "Vanga's prophecy: the spiritual ascension of the Earth will begin with Russia, was she talking about the Cassiopeia project?" Guys, let me tell you that we are actually still a very small project and the task of our project is really to increase the level of awareness of each person's perception. I am sure that when you graduate from our project, you will each have your own very interesting project. "Cassiopeia" may be a starting point for some, and maybe not only "Cassiopeia" will be a starting point, maybe other schools, such as, say, "Gichor", which merged into the structure of "Cassiopeia", but is separate project, we have Ivan Yonten now working on cosmoenergy, and he brings cosmoenergy to people, he tells and educates people, and what's most interesting is that he also doesn't set prices for his work, for his knowledge, for his structure. We also have a Cosmic Wellness project - this is where the Intergalactic Medical Service helps work with people, appoints curators for sessions, and no one sets prices for you either. The most important thing is that your level of awareness of perception is higher, and you can grow and develop yourself; this is our main task and main goal. And we don't want anyone to be dependent on us, we just want to create a big team and with this big team on this Earth to tell everyone that it exists, it is, it really is, and it can be developed, in this we can grow, and without this we will remain at the level of Cro-Magnons, Pithecanthropes, at the level of unconscious creatures, and even at the level of non-acceptance of the fact that in our Galaxy, in our Universe, there is a huge life and they are waiting for us there in this life, they are ready to accept us, but only when we increase our level of awareness of perception, therefore "Cassiopeia" is one of the points for the spiritual ascension of Russia, the Earth and our planet in general.

1:00:10 Phantom of Jesus Christ.

Irina: Is it even possible to invite Jesus to allocate a piece of time and be present on the air together with Mead?

Maxim: Yes, last question. Can we invite Jesus?

We cannot invite Jesus himself, we will invite the phantom Jesus. Why? Because if Jesus comes here, my TV will shut down, not just my microphone. I just understand what I'm talking about, here there are spiritual entities present in astral bodies and not only in astral bodies,

equipment flies only this way, that is, it breaks. Therefore, we will invite here a phantom who will fully reflect the goals and objectives of the questions she will answer, that is, this is part of the spiritual structure of Jesus Christ.

1:00:55 Yoga practices at the School.

Irina: Will there be yoga practice at our School? A very common question.

Maxim: There will be yoga practice in our School if someone who will lead this practice appears in our School. Therefore, we have identified masters, but not completely, therefore, masters, you can also write your applications for the School, we will also consider masters, we will look at the curators of these masters, and accordingly, harmonize with the new structures in our project. Yes, this is a small project for now, but our project will grow.

1:01:35 God is the Absolute.

Irina: And we were asked a very unique question that no one has probably asked yet: “Where did God the Absolute come from?” He always was, is and will be. He is the Eternal Spirit, and from the point of view of the material world, you too have always been, are and will be. You were born only in the Spiritual world, for Him you were born, but for this world you are not born, just like He, since you are part of Him.

Irina: I would like to ask Jesus a question about the Shroud of Turin. Everything has already been said about the Holy Fire, watch the video with Mira Count.

1:02:10 Children's project.

Maxim: They ask about the Children's Project. There will be a children's project, but now not a separate children's project, but only with the presence of parents. We are under no circumstances going to take care of children without parents. In the presence of parents, so

that later there will be no unnecessary questions for us from parents about what information we give, and so there will be Children's projects, but only in the presence of parents.

Irina: They want to see you.

Maxim: Yes guys, I think you will see me more than once. I once again want to thank everyone for your support, for your participation in our projects: Cosmohealing, Cosmoenergetics, Meditation, in the project of calculating the spiritual level, our dear Olesya will be happy to calculate this spiritual level for you, you can find out your goals and objectives by your spiritual level upon arrival here.

Irina: Jesus is shocked by this show.

Maxim: Look, we're not trying to convince anyone, it's a show or not a show, think as you want. We have no other goals than to convey information to you, and then think what you want about this, you want to recognize us as whoever you want, we have already listened to a huge amount of negativity in our direction, and I understand that bringing the Light is very not an easy task. Thank you all so much for being with us! Come on, Irish, let's say goodbye, right? Do you still want to answer someone's question? Well, come on, okay, one more question, I can't refuse you. Let me stop you with a question.

Irina: Anyone you can stop.

Maxim: Why, when vibrations increase, instead of specific people I see avatars, representatives of other civilizations, dragons, and so on.

Irina: Wow, how interesting.

1:04:05 Lingam.

Irina: Look at which question you stopped the arrow at: "Tell us the work of the lingam."

Maxim: What is this?

Irina: Lingam? This is a figurine that depicts the male genital organ. It is used in Shaivite religious practices; it is poured with milk and then drunk. A symbol of fertility, that is. The work of the lingam is that it is a symbol of fertility for plasmoid civilizations, which give their energy through this symbol. What else was there? What about dragons?

1:04:55 Astral vision, plasmoids, dragons.

Irina: Why, when vibrations increase, instead of specific people I see avatars, representatives of other civilizations, dragons, and so on. When you raise your vibrations, why do you see dragons instead of people or next to them, because your astral vision turns on and you can see plasmoids that are next to you in space, but at other density levels. It happens.

1:05:15 How to make an appointment.

Maxim: So, now I'll give Nastya a lot of work. You asked me for my phone number and how to make an appointment with us, how to make an appointment with specialists and generally inquire about information. This can be done on WhatsApp and Viber, you will dial the phone, if they don't answer you, you will need to wait until they call you back.

+7 980 534 74 99. You need to call on weekdays from ten to six in the evening. Guys, I hugged everyone again, bye everyone, links to our projects, where you can learn about Cosmoenergetics and get training, where you can go through the Intergalactic Medical Service for recovery, where you can learn meditation, will be under this video. Bye everyone!

Irina: Bye! Goodbye!

January 24, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

MidgasKaus - representative of the planet Esler, biologist, psychologist, specialist in alien life forms;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world.

#205 School and training program at the Center for Spiritual and Physical Development “Cassiopeia”.

https://blog.cassiopeia.center/shkola-i-programma-obucheniya-v-centre-kassiopeya
https://www.youtube.com/watch?v=GB9eFlLUYD8

Maxim : Guys, hello everyone.

Irina: Greetings to everyone on this last day of January, the last day of the month of winter.

Maxim : How can you hear us, please tell me? Great! We worked with the microphone. It took us a long time to connect people so that everything would work properly here, right down to using a tube microphone. Every time - these energies go off scale so much that all the equipment flies.

Believe it or not, I won’t even show myself, I’m sitting now in whitewashed sweatpants. On the 1st I wanted to launch our Center for Spiritual and Physical Development, but we are postponing the opening to the 5th, the opening will only be among our own. And on the 8th until 12 o’clock, we will already be waiting for the arrival of those people who are going to our first group. The first group is contactees and volunteers of our project.

Guys, I have a big request to ask of you; an incredible number of applications for training have been received. We will start processing applications only on the 2nd or 3rd, so wait, we will definitely give everyone feedback. We will call everyone who filled out the form. I am sure that everyone will attend the training. It may not be as fast as we would like, but in any case, we will not miss anyone. We will definitely

consider all your applications.

They write that something is in the way. The thing that hinders me is that I'm a little tired, why, because I've been doing repairs all day. I realized that the existing workers couldn't cope, and I had to get involved myself.

Who is present with us today, Irish?

02:58 Intergalactic news. Turtle-like humanoids from the planet Disuat. 65% of the population are biorobots, the likelihood of them rebelling against their creators, the first victims.

Irina: Hello, dear friends. Today, MidgasKaus from the planet Esler and LiShioni from the planet Shimor, our curators, are present and will talk to us and answer questions about the school.

LiScioni suggests starting traditionally with intergalactic news. Moreover, a couple of days ago something out of the ordinary actually happened in the galaxy. There is a planet in the constellation Monoceros called Disuat. There live humanoid creatures that evolved from creatures like your turtles. Their entire body is covered with a dark brown shell.

Maxim : You know, "Teenage Mutant Ninja Turtles" was actually written by a contactee (joke).

Irina: For the last 3,000 years, the inhabitants of the planet Disuat have been producing biorobots, and at the moment they have about 65% of the population on the planet. But about 2 years ago, a cyberneticist scientist flew to the planet Disuat from the planet Lisetor, which is located in the constellation Pisces. This is also a humanoid planet, it is part of the Interstellar Union. And this scientist flew to that planet to conduct an experiment to change the memory module of these biorobots. So that you can understand how programs will act by bypassing some nodes of the memory module.

And it turned out that during 2 years of these experiments, a virus was

born in the artificial intelligence of these biorobots, which they transmitted to each other via wave communication. This virus helps disable programs that are aimed at creating humanoid life, for which they were created. Only the self-preservation program remained in their memory. They now perceive attempts to repair them as attempts to destroy them. And they, in response (and they are 65% of the population there) resist, there are already hundreds of victims among the inhabitants of the planet. Representatives from Tumesout flew there.

Maxim : Artificial intelligence began to kill the creators themselves.

Irina: Some kind of virus has settled in them, as I understand from this image.

Maxim : But they didn't find out whether it was a virus introduced or introduced?

Irina: This scientist did experiments on changing the memory module, and these experiments led to the emergence of viruses in their artificial intelligence. They transmitted it to each other via wave communication. All this was hidden at first, and now there are too many biorobots infected with this program.

Maxim: Wow. The rise of the machines is real.

Irina: It turns out that machines have self-preservation programs, but they should not interfere with the execution of the programs of the robots for which they were created. And since these robots are broken, they perceive attempts to repair themselves as an attempt to destroy them. Therefore, the self-preservation program is activated.

Maxim: Guys, I have a huge request to you, please like it so that everyone else who doesn't see us can see us and join our broadcast. Why, because the topic is very interesting. Theme: school, learning. At this point in time, renovation work in the hostel and renovation work in the very center are almost complete. We are putting things in order, cleaning, arranging the beds, and from the 8th I will be calling back,

and the first races will already begin. And from the 5th we will do a live broadcast, we will definitely show you the hostel, we will show how everything worked out for us.

The first stage of training will be 7 days. In 7 days we will teach you how to communicate with your Higher Self, how to lead people to the Higher Self, and establish contact with curators and mentors. Irish, tell MidgasKaus more about what will happen there.

Irina: We already have a questionnaire on social networks.

Maxim: There is a form on social networks, you can fill it out, and it will be submitted for consideration.

Irina: They didn't do anything with this scientist (I just see your question). Representatives of Tumesout have now flown there to understand the situation. Let's hope they figure it out and many casualties among these humanoids can be avoided.

10:10 Training program at the school of spiritual and physical development "Cassiopeia".

Irina: Now about school. Yes, we are planning to accept students for the first time on the 8th. What will the training program consist of? The training program will consist of the fact that everyone will learn to communicate with their Higher Self and identify their curators. He will identify his life program, his life goals, and identify his blocks that interfere with spiritual development and impair physical health. Students will work with these blocks, dissolve them, fill their physical body with the light of our Creator's love (there is a special technique).

And the next lesson will be about how each student can lead other people to the Higher Self. Moreover, according to different types of perception. That is, I will tell you how to lead a person to the Higher Self if he has the type of perception through vision, through hearing, through the body, and so on.

I also have in my program communication with the Spirits of Nature

(through trees, how to ask them questions). I will also have a class on astral travel.

And, what is very important, Maxim and I and other teachers of the school - this will be Ilya (our teacher), will talk about how to integrate esoteric knowledge, information from the Cassiopeia group and your own information on contacts into ordinary earthly society. How to socialize, how to behave in the family, at work, so as not to differ from other people (well, maybe only for the better). So that no one turns away from you, no one condemns you, but so that you are an example to everyone. We will use examples to analyze your difficult situations with your relatives, work colleagues, and so on.

Maxim: We have no guarantee that people will learn to act for the good. We do not know how people will behave, but our task is to teach people to carry the light, see the light and be in the light.

Irina: Maxim will also talk about how it will be possible to set up the harmony of spiritual development and financial egregor. That is, how can you provide for yourself financially and at the same time engage in spiritual development and esotericism on a payment system according to your heart.

Maxim: Yes, I will have a separate program, a separate lesson. I won't tell everyone. If you agree to come on the terms of the school, then you will find out, it will be a big surprise for you, how you can harmonize, carrying spiritual knowledge on the structure of Donation, and how you can develop due to many points that you are not taught.

I have team building, integration and construction of a financial egregor. I will tell you what self-employment is, what an individual entrepreneur is, what a business is, and how it can be run in general. Therefore, in addition to the fact that we will teach you spiritual knowledge, we will assemble a large team that will help each other develop in the financial sphere. Therefore, do not worry, do not worry, spiritual knowledge in Donation is a small drop of what we can bring to this world. The main thing is the Soul, the Spirit, everything else is what you can already develop.

14:02 Online school “Cassiopeia”. Will there be video lessons? Are there any plans to open an online school?

Irina: About the online school, and, in general, a very common question is about online learning, will there be video lessons? You know, there are some things that are best taught in person. We will have articles that will be posted, perhaps we will post some recordings.

Maxim: We already have a huge number of people who have applied to study at the school - already more than 700 people. If we graduate 24 people a month, you can imagine how much time we need. In any case, we will try to bring you information online, and I will even try to make online recordings of the training that we will have at the Center. And we can also post these recordings online on the condition of donation, on the terms of payment according to the heart. Therefore, don’t worry, don’t worry, we will try to give feedback to each of you.

What is the payment? We pay only according to our hearts; we do not have any set prices. You will come yourself, we even have accommodation at the Center - also payment according to your heart. Decide for yourself at the end of the training how much this training cost you. Therefore, we do not and will not have prices. All spiritual knowledge in the structure of “Cassiopeia” comes only by paying for the donation - according to the heart.

15:35 Will aliens be involved in training? Will it be possible to see the curators during the training?

Irina: Now about whether you will see curators, will aliens participate, and will you see Mead in the astral plane? Indeed, we will learn to perceive the subtle world, we will learn to perceive the astral world in the lessons of astral travel. I will show how to go into the astral plane, take out several people, the rest will do it themselves.

And if those students who study with me are relaxed, trust this experience and follow my words, they will be able to go to the astral plane and see our curators. And the alien curators themselves will, naturally, participate in teaching at school, they will give us programs, and they will answer students’ questions.

And in the evenings we will conduct an analysis of the day together with our curators. Everyone will share their impressions and ask questions to the curators - this will be a very important part of the training.

Maxim: Guys, for 7 days you will be completely immersed in contacts, settings, alignment with the Higher Self, training, meeting curators and the opportunity to communicate with them at different levels. Therefore, this is 7 days of full drive.

17:00 Retreats. How is the retreat location selected?

Maxim : Regarding retreats. Yes, we are planning retreats in the summer. We will announce where these retreats will be, and, in general, we plan to hold retreats 4 times a year. We will choose a place, so guys, call and make an offer. For retreats we need accommodation for somewhere between 150-200, 250-300 people. If someone wants to invite us to some city, then you must understand that from 150 to 300 people will come to the retreat.

We can all consider. We are considering Georgia, we are considering Bulgaria, we are considering Turkey, which will be in the summer, so we will see. We plan to hold future retreats and outdoor events 4 times a year.

17:50 Where is the Cassiopeia school of spiritual and physical development located?

Maxim: We have a school in Voronezh, at the moment, a small school has been built, it is about 170 square meters. But as soon as it gets warmer, I will start building a large center. This is near Voronezh, there is a forest and a lake nearby. And there we will be able to train many more people and accept and accommodate many more people.

Therefore, I hope that this year we will organize the first summer camp on our site. That is, they will supply us with water, there will be light, and we will be located in a tent camp on our site, everyone can come there. I think we can do this in the summer, probably somewhere in the

middle of summer. When it’s warm, when it will be possible to put a frame pool there, in general, hold events and relax - two in one.

I can help with Turkey (reads out). Dial, Len, dial. We are always open to any suggestions, you can contact me personally. In general, at this point in time we already have suggestions about the right food products, about cosmetics, about oils and much more. In any case, we will consider these proposals. Why, because spiritual knowledge is good, but, in any case, the person who carries spiritual knowledge must learn to provide for himself and integrate into the world with these financial egregors.

19:45 At what age can you study at the Cassiopeia school?

Irina: Until what age is training? From the age of 18, definitely, until...

Maxim: And until the moment a person consciously perceives himself, the main thing is not to turn around, turn away and forget.

Connect the school with the secret tunnel of the Shimor base (reads out).

No, guys, we won't be able to connect. There won’t be any bases either; in fact, no one will let us in there. This is Irina - maybe, but they definitely won’t let us in.

In a large center, we will do everything for convenience so that children can be accommodated and accommodated, as well as adults can study normally. All this will be in a large center.

Will your online finance practice be on donation terms? (reads out)

Anel, I will give lessons on finance to those future employees of Cassiopeia who will be able to come to us and bring spiritual knowledge to the donation structure.

21:02 How is Irina Podzorova recovering?

Maxim: Irina, how are you recovering? Or are you not tired? Or do you have batteries somewhere we don't know?

Irina: Well, how am I recovering? After working with people, as Maxim has noticed many times, my best recovery is responding to people on social networks. That's how I like this job.

Maxim: Guys, she recovers when she gives you feedback

Irina: Yes, this just adds strength.

Maxim : Sometimes I have to come to visit you at one in the morning and say, Irina, are you still awake?

Irina: We need to open more schools, this is not enough (reads out).

I absolutely agree with you, Peter, and I hope that you will be one of the initiators of opening such a school in your city.

21:52 "Cassiopeia" franchise in any city in the world .

Maxim: Someone suggested that I do the Cassiopeia franchise. By the way, I registered our mark, we now have an officially registered mark of "Cassiopeia" in Rospatent. That's why they offered me a franchise, but I refused. Do you know why?

I will tell those people who come for training how to organize such a center. We will teach them how to work correctly with people in this center, and, accordingly, each of you who comes for training will be able to open this center in your city.

And I plan to train people by recruiting them by city, that is, in groups of 12 people from one city. These 12 people will be able to cooperate

in the future and together open a center in their city.

22:46 Where is the application form for participation in the training posted?

Irina: So, on which social network can you fill out the form? We have VKontakte and Facebook.

Maxim: Probably in Odnoklassniki. We have a Cosmohealing group, where we also posted a questionnaire. We have a group called “Cosmoenergetics”. By the way, guys, we invite you to our projects.

This is the Cosmohealing project, where the Intergalactic Medical Service deals with healing and teaches you self-healing. There, on this project, each of you is given a curator at each session who teaches you this.

We have a project “Cosmoenergetics”, where the teacher Ivan Yonten, he is a master, completely closed in all schools (Petrovsky school, Bagirovsky school), compiles his own matrices. And, accordingly, in this project, you also, on condition of donation, undergo cosmoenergy sessions, learn cosmoenergetics and much more.

Irina: Unfortunately, education on the Interstellar Union is not yet included in the school curriculum.

Maxim: Guys, we are a little out of line with the structure of the state in terms of the fact that we cannot be a religion. We have a single religion in our state, so we can only present knowledge.

Irina: From the school video. We will show this at the opening. When we have an opening, we will have a video.

Maxim: We are opening on the 5th on Friday, and I hope that I will already connect the Internet there, and we will be able to show you our school on video, walk around the center, around the hostel and show, in general, how and in what conditions you you will study.

24:25 Is it possible to study at the Cassiopeia school of spiritual and physical development if there is no ability?

Irina: If I don't have the ability, can I come to your school? Yes, of course you can come to our school. There is no person without abilities, because every person is an incarnate Spirit, every Spirit is a child of God, a child of God cannot but have abilities.

Maxim: The first to go to training, as I promised, will be the project volunteers. We have a large number of volunteers around the world who help us edit videos, support social networks, and give you feedback. Then there will be contactees who were identified through Irina, those who are willing, who work in a team. And we are now recruiting for training only those who will be on our team, the joint Cassiopeia team. We simply don't hire people for training. If you do not want to be on our team and learn, this is not yet possible. You can come to us, participate in our project, be on our team, and, accordingly, we will teach you absolutely everything that we ourselves know and can do.

Irina: Irina, the thing is that in such a period of time I will not be able to remember your phone number, the tape goes very quickly and please, if you have contact with plasmoids, please contact our administrator. There is already his phone number, it is published on all social networks, write to any administrator in the VKontakte group "Cassiopeia", they will give you a phone number.

26:05 Are aliens using Irina Podzorova?

Maxim : Hello, more, we saw an interview where she talks about Irina and talks about how Irina works hard. But in reality, this is just her idea. Irina, please tell me, they say that you are being used mercilessly. Who is using you mercilessly? Are there such people or maybe aliens?

Irina: She wasn't talking about the people there anymore.

Maxim: Well, aliens. Do you think aliens are using you for their own

purposes?

Irina: Thank you, my dears, for your excitement, for your concern for me. I love you all very much and really appreciate your concern. But in fact, working with people and spending all the time of my life on this, practical communication with people, answers on social networks, videos, personal work on Skype or in person - this is generally my complete choice.

About use. Personally, I believe that a person cannot be used if he himself in some indirect way does not want it. But it's not that he doesn't want to, I believe that all his friends treat a person the way he puts himself before them. That's how he puts himself before them, that's how they'll treat him.

I believe that my friends and staff at Cassiopeia and my friends treat me very well. We have mutually beneficial cooperation, true personal friendship and love for each other as children of God. And, indeed, we have formed, one might say, a kind of spiritual society in which we do not look at each other's actions, but immediately see their reasons. They treat me very well, I want to hope that I treat them well too.

Maxim: In general, guys, don't worry. Moreya, a huge hello to you and thank you very much for your concern for Irina, but no one really uses us, and I don't use Irina. On the contrary, I try to give her more days off. I sometimes complain that she works too much, in my opinion. But sometimes it is very difficult to stop her - she really breaks down.

Irina: Yes, he tells me: "Go for a walk." I'm talking about the fact that Maxim sits, edits the video, and we just go out to the balcony for a walk with him.

Maxim: There was a time when for six months we went for walks on the balcony. Why, because I really wanted to convey to you the information that you now see on our channel. This is all filmed in most cases (the first, probably 60-70 videos) with a walk on the balcony.

Irina: And, indeed, if I do not carry this Light, if I do not fulfill this

mission to this extent, I simply will not complete the task of my incarnation. This is the most important thing for me. Because our eternal home is in the Spiritual world, and here we come to fulfill our tasks, to increase our level of awareness and love. Therefore, I carry out my task as I feel at the present moment in time, and no one exploits me, because I myself want this work and want to bring you more Light. If just one in 100 people awakens to the realization that he is a son of God or a daughter of God, and he takes responsibility for himself and treats others the way he wants to be treated, then I have completed my task.

30:18 What to take with you to the Cassiopeia school of spiritual and physical development?

Maxim: So, ask your questions. We have very negative people on VKontakte who write that you cannot wash your laundry - you need to bring your laundry with you. Yes, guys, you come to school with your intimate accessories and your own bed linen. Why, because you come with it, you leave with it, it will be easy for you to wash it at home. Unfortunately, it is very difficult to find a cleaning lady and someone who will do the washing and ironing. Therefore, we have organized everything we could for you. For the rest, I hope you will follow the recommendations that we write to you.

We do not plan to open a school in Ukraine yet. There has been no such request yet. Due to the pandemic, it is generally very difficult to open anything in other countries now. Therefore, everyone who wants to open a branch of "Cassiopeia" in their city, we are waiting for you for training. After the training, we will be able to talk about the possibility of harmonizing existing schools that are already operating. For each school we will select separate conditions so that we can competently cooperate and competently bring this Light to the world to people and, in general, work with people.

Irina: You don’t need to take a pillow with you.

Maxim: No, you don’t need to bring a pillow and blanket. I just bought 16 pillows and 16 cool new duvet covers yesterday. Therefore, there is no need to bring a pillow and duvet covers, only bed linen. Pillow 70x70, bedspread 190x140, if I'm not mistaken.

Irina: They write a lot now: will we open schools in Armenia, Murmansk, Almaty? We will be happy to open schools, but since we ourselves live in Voronezh, it will be very difficult for us to do this without you, dear friends. Therefore, those who live in these cities, who want to be the initiator of opening a school, come to study with us. After you complete the training, we will issue everyone with special certificates of completion from the Cassiopeia school. You will already talk to us and will open branches in your cities. This could be either in your apartment or for rent. And there will be a school “Cassiopeia”, i.e. you will be a representative of our center in your city.

33:05 Testing students at school using the latest equipment.

Maxim: Yes, regarding testing for COVID at school. Of course, we will definitely test this. And the most interesting thing is, not only for COVID - we have completely new equipment. We will test your aura, we will test your etheric fields. And we will look completely at what you are like physiologically. Do you have any diseases, viruses, or any other issues? Why, because during these 7 days we will give you feedback - where it came from and how to work with it. That is, how to be healthy, happy, rich, self-saturated.

33:50 Meals at school and duty.

Irina: We are now filming from Maxim’s apartment. Now about food at school. We have our own meals. That is, school students will chip in with each other and buy groceries. We have a kitchen.

Maxim: We have a kitchen, a stove, a hotplate - a fully equipped room with hoods, with everything. Nutrition will be entirely your responsibility. We will have 2 people on duty. One person on duty will keep order, the other will oversee cooking and food. I hope our favorite chef will join us and cook for you. But if there is no cook, you will have to cook yourself.

If the aura is full of holes, won’t you take it? (reads out a question from the chat). Guys, let’s take it with a leaky aura, I’ll tell you honestly, we’ll try to sew up, patch up your aura.

Irina: How can we let you go with a holey aura, then we'll even take it to sew it up.

Maxim: In Telegram (we have chats in Telegram in which we communicate), the VKontakte group in which we communicate, Odnoklassniki, Facebook, a lot of information on other resources - look for it.

Irina: In Voronezh, we will give the address directly to the students, right?

Maxim: Yes, when we call you, we will give you the address where you need to come.

Irina: Where to buy groceries, and will there be time for this (question from the chat)? Well, of course, there will be time to buy groceries. We have a huge store right across the street. On the other side there are stalls with farm products, so you can buy something for every taste. And there will be time for this, of course.

Maxim: Food products are all nearby here. Drinking water with filters, everything is already installed - there is a double purification system for drinking water. Everything is fine, don't worry. Your task is only to agree to the terms of the project, accept these conditions and come to our team. We will train you.

36:12 What do Cassiopeia volunteers do?

Maxim: What do your volunteers do (question from the chat)?

Volunteers do a variety of things, from video editing to translating videos into texts. Next, drawing up different schedules, maintaining different chats, structures. That is, volunteers are engaged in different projects.

36:33 Living conditions in the hostel of the Cassiopeia school of spiritual and physical development.

Maxim: How are the students in the dormitory? (question from chat).

Well, we can say yes - this is too comfortable a place for a hostel. We will have rooms for 4 people, bunk beds, 12 people in total. We can only accommodate you in three rooms for 4 people for now.

Irina: Will we have a weekend event for a wide range of interested people, something like a conference (question from the chat)?

Most likely, we won't have time for this. All 7 days there will be classes every hour, there will be sessions of cosmic energy, there will be communication with the Higher Self.

And my task will be for you not just to get to know your Higher Self, but for each of you to already be able to lead other people to the Higher Self and ask questions about purpose, about curators, about blocks, and so on. That is, we will consider the structure of the intelligent Spirit, consider what the aura consists of, how blocks are formed. And we will consider this not just in theory, but with practical examples, for yourself.

37:42 Do they hire pregnant women for training?

Maxim: Do we accept pregnant women? Well, up to three months can still be taken; beyond three months I will under no circumstances take risks. Why, because it’s moving, it’s living in another city, in another place, in different energies, it’s working with energies. So I probably won't take any risks. I think that later, when you already give birth to a child, when the child can already be alone with someone, then you will come for training.

38:08 Tuition fees. How and when are tuition fees paid?

Irina: Payment for tuition and accommodation is paid according to your heart, it is made on the last day of training, before leaving.

38:20 How many hours a day are classes held?

Irina: About 8-10 o'clock, we'll look at the program there, but approximately, as I already said, we have everything planned out. And, moreover, 7 days is really not that little, we really don't have enough time, so during these 7 days we tried to create a program so that these 7 days would be enough for everything. Why exactly 7 days? This was done so that I could accommodate the maximum number of groups in a short period of time. Plus, I also deal with personal consultations with people who have particularly difficult life situations and who cannot go to my students yet.

Maxim: Guys, I'm giving you information, now we are switching completely to Telegram so that you can call Nastya. Besides Nastya, we also have Tamara, this is Nastya's assistant - we hired a second person who will help assign you to specialists, to curators. That is, we now have 2 people. In order for you to be able to call and be answered correctly, you need to write to Telegram, now we work only through Telegram.

Need a roof - please contact us (question from chat). I just recently did the roof, it doesn't leak, everything is fine.

Irina: If you rent a house? (question from chat)

Maxim: Rent a house? Guys, our program is designed for complete structuring and interaction, that is, there is no need to rent housing. Why is it not necessary, because in addition to training you, we also have something called team building, and team building is done while living together. That is, we must clearly understand how much you can work in a team, in the Cassiopeia team. I will only allow those people who are in a truly hopeless situation to live with others and film in other places, and they cannot do otherwise. But this will need to be explained to me personally, and we will resolve this issue.

Irina: Vegetarians and vegans will naturally have the opportunity to eat the way they are used to. Like omnivorous people, let's say, they will also have the opportunity to eat what they are used to. Since you have your own food, that is, if you see that people eat food that doesn't

suit you, you just buy it yourself in the store and cook it in your free time - all the conditions will be created for this. As for whether it is possible to prepare prasadam in the kitchen and distribute it to the devotees? But if people are ready to accept it, then of course it is possible, I don't see any obstacles to this, we personally are multi-religious and gladly accept food that was dedicated to God, no matter what name He is called.

Maxim: Will there be Sunday broadcasts or not? We will not cancel Sunday broadcasts, I will even tell you more, Sunday is the last day of school. We succeed - we teach for 2 weeks, Irina will receive people personally for 2 weeks and conduct personal receptions. Sunday is the last day of training, and we will conduct live broadcasts surrounded by students who have already completed training. They will even be able to give you feedback and tell you how the training went. In principle, we are ready to do all this online, so you will see the people who are studying with us, and you will receive feedback from them.

Maxim: How can I find you on Facebook (question from the chat)? Type "Cassiopeia" and I think you should find it by searching, we have a fairly well-promoted page there.

No, the recording is not 2.5 years in advance. I haven't approached the questionnaires yet. I was now personally involved in supervising the repairs and personally doing the repairs myself. Many people don't have time, they start telling me that this is impossible, I take it, do it with my own hands, and it turns out that all this is possible. Therefore, I will start sorting out the questionnaires from the 2nd to the 6th.

Don't worry, I will definitely give feedback, and each of you will get training, but not now. Not so, maybe quickly, but, in any case, everyone who wrote an application and who wanted to study at the school will get into the school. I hope we will find opportunities for online training and everything else, but for now we are forming a team, and we need to come in person. And I will tell many interesting things. There will be surprises for many people who come here. Surprises in relation to the delivery of spiritual knowledge.

Irina: Take it, first of all, I'll clean it and cook it (from the chat).

First of all, contactees and volunteers who have been in the project for a long time come to us, and who are now ready to work in the Cassiopeia project under our conditions.

43:57 Will they get rid of attachments at school?

Irina: Now I see the question here, will we get rid of bindings here. We will, naturally, through the Higher Self, identify all the connections, all the contacts that you have, and through the Higher Self you yourself will ask what is needed.

Binding is contact with plasmoid civilizations, that's what we call it. You yourself, through the Higher Self, will ask why this contact is needed, how did it appear, what does it give you, and do you need it at the present stage of development? If not, then the Higher Self, your Guardian Angel, with their energies, will be able to direct the energy in such a way that your field will be incompatible with such bindings. Most importantly, we will identify the cause of this attachment to you at your energetic level and eliminate it through a change in mental attitudes.

Maxim: Yes, guys, I hope you clearly understand that we do not exist to violate our Russian legislation, but to support it. If you see that we are violating our laws somewhere, I ask you to immediately report this to us. That is, if you think that we have violated something, be sure to write to us about it. Because sometimes we may not notice something, or not identify something, but I hope that my legal education gives us the opportunity to understand what we are doing, why we are doing it, how we are doing it, without violating our Russian legislation.

46:00 Is it possible to eat meat while studying? Does eating meat hinder spiritual development?

Irina: By the way, now I'll explain about meat. To eat meat or not to eat meat has nothing to do with spiritual development. Why is it not relevant? The fact is that Jesus Christ, the firstborn son of God and the great Spiritual Teacher of the Earth, said the following words, they are written in the Gospel: "What enters you through your mouth cannot defile you." What does it mean to defile? In the language of ancient people, this was what was called a decrease in spiritual vibrations. You

can only be defiled by what comes from your spiritual heart. Well, it listed various sins, negative actions and words of a person. This suggests that any material food that we accept with gratitude to God can only raise our vibrations. And any food that we take with judgment towards our neighbor can only lower our vibrations. It's all about our feelings.

Maxim: Vakhtang, you can go to a notary or anywhere, we don't forbid anyone from showing Irina or her broadcasts. You can stream Irina wherever you want.

Irina: He says: "I will shoot a video with LiShioni, can I put up these names if I have contact with him." Yes, you can, it's not plagiarism. There are already channels that post contacts with them.

Maxim: It's okay, we don't mind that someone communicates with representatives of the Interstellar Union. And it happens that someone is deceived, that they are communicating with representatives of the Interstellar Union - plasmoids who introduce themselves as these representatives. Therefore, everything is at your discretion, it is your personal choice. Who to believe, who not to believe, who to communicate with, who not to communicate with. What to post, what not to post, we have complete freedom of speech, freedom of will.

Irina: We will see this from the information. I communicate with MidgasKaus and LiShioni, and if I read or see information from them that is not the same (not said in other words depending on the perception of the contactee, I understand this), directly contradicts the words that he told me, I will understand - this person was communicating with a different entity than I was communicating with.

Maxim: Guys, if you have your own business and you want to come to our school and bring spiritual knowledge to Donation, of course, come. In no way do we lay claim to your business; we are saying that in our school we will teach only those who carry spiritual knowledge in the donation structure.

If you come to us, we don't need half of your business, we are not interested in it. We are interested in you sharing spiritual knowledge for

donation, for payment according to your heart, and giving half for the construction of the center. I'll tell you this, I definitely won't be able to control this, it will be your personal desire.

Therefore, these are recommendations from Cassiopeia; these are by no means guaranteed conditions for you to do this. You can do as you please, but in fact, come and we will train you, we are definitely not interested in your business.

49:17 How was the opening of the school received in the Interstellar Union?

Irina: How was the opening of the school in the Interstellar Union received (question from the chat)? Well received. They have been waiting for this event for a long time, as an opportunity through me, through Maxim, through Ilya, who are also contactees, to teach anyone who wants to communicate with their Higher Self, and, more importantly, to take anyone who wants to him, that is, their relatives, friends, your surroundings.

This will allow each person to look inside themselves, which the representatives of the Interstellar Union on their planets are already good at doing; they are taught this there from childhood.

48:55 Does MidgasCaus have contactees on Earth?

Irina: Does Mead have contactees on Earth? Yes, he does have contactees. When I was in Pitsunda, Abkhazia, a female contactee contacted me, who had an unconscious contact. She had contact with the entity, but she did not perceive it, since she does not have physical chips. She did not have a spiritual channel set up; she perceived it not as contact, but as her own thoughts. Accordingly, her Higher Self said, and Mead confirmed, that this contact was with him. That is, this is a MidgasCaus contactee.

But most often he communicates with those who enter the astral plane consciously. He shows them different planets, teaches them, tells them about the planet Esler, about the Interstellar Union and about the

Spiritual World. Why? Because astral contacts do not require permission from the Interstellar Union.

50:48 Health practices at the Cassiopeia school.

Maxim: Regarding training and treatment. We invite you not just to the center of some kind of spiritual development, but to the Center for Spiritual and Physical Development - we have a wellness center. And we will use not only spiritual knowledge, but also new spiritual technologies in testing the body and in health practices. These are bioresonance diagnostics, the Voll method, magnetic therapy and many other devices that will be in our center.

These are just new developments that can be used for non-medical health purposes. To improve your health, we will tell you and show you what devices you can use, how to use these devices, and how to open centers in your city along with this focus. Focused not only on spiritual knowledge, but also on improving the health of the physical body.

Therefore, when you come here, you will undergo not only sessions of spiritual knowledge and healing, but also physical knowledge and physical healing on completely new equipment, which is generally little used now, but it already exists.

Who is the author of the devices (question from the chat)? Guys, come to us, we will tell you who is the author, who is the performer of these devices, why am I going to talk about this now. Very interesting devices.

We actually don't have much time left.

Can I kiss you? (question from chat). Irina!

Irina: (Blows a kiss).

52:44 How to understand that a person has contact?

Maxim: How do I understand that I have a contact? There are different ways to understand that you have a contact. If something starts to bother you at night, you have some internal issues or questions. Many people have contacts now, because we are entering new energies, new vibrations, and these vibrations are changing. Therefore, now many people will be setting up contacts.

Irina: They write - we love you in any form, Maxim.

Maxim: Maxim, so expressive, I wonder how much patience he has for people, especially... (question from the chat).

Sometimes it's hard to balance yourself, to control yourself, when I see a lot of negativity pouring in our direction. When I see particularly direct insults, misunderstandings and condemnations of many contactees. But I will tell you this, if you see a person who says that he is engaged in spiritual development, treatment, knowledge, and he throws mud at other contactees and other people, never go to him for treatment, because he will give you exactly what he waters others.

Therefore, be careful with such people.

And, you know, many thanks to the curators and mentors that they built me into this structure in this way, because every time I work on myself, balance myself and every time I try to self-adjust.

Irina: Can I come sweep the yard and chop wood? (question from chat). These are the interesting questions we have today.

Maxim: When we build a large center where we can accommodate everyone, you can come: chop wood, help the center, feed the fish in the pond that is there, and go mushroom hunting in the forest. The center will be built big, we will be happy to welcome everyone in this center, especially those who are ready to help the center and are ready to work in our team.

There is no need to come and chop wood yet, we are still in the city.

If you can't rent an apartment, then it looks like a sect (comment from the chat).

Guys, you can rent an apartment and do whatever you want.

We have a condition: in order for us to teach you at least something in 7 days, you must try it all together on each other. And if you all live in different apartments, then instead of evening practical classes, you will not have an activity, but some kind of relaxation. Therefore, we are bringing everyone together not to load some information into the brain, but so that you yourself can try to use this knowledge and information on each other.

And I'm sure it will be very interesting for everyone at the round table with representatives of the Interstellar Union to spend time receiving feedback from them and receiving a huge amount of insights.

As I once did when I found Irina, when I spent whole nights and evenings asking them questions, receiving answers to them and was very happy and surprised. So as soon as I received it, I decided to show it to you. Therefore, you now see what now exists.

56:27 Do solfeggio frequencies help you heal? Music therapy.

Irina: The most common question that comes up here is: do solfeggio frequencies help you heal?

Mead as a biologist. 1111 Hz – do such frequencies help to heal? He says music therapy has long been a well-known trend in earthly health science. Music helps you calm down, tune into your inner world and connect with your Higher Self. As for the solfeggio frequency that you indicated, this frequency helps to harmonize the etheric body, harmonize it with the astral body. This can be expressed in the fact that while listening to music, various images and thoughts may come to mind, reflecting your emotional and energetic blocks. By working with them, you can be healed of the diseases they caused.

Maxim: Guys, we are not talking about any marijuana or any other

drugs. We are absolutely against the use of any psychotropic substances when taking courses in contacting, energy, and so on.

Maxim: How do I communicate with LiShioni (question from the chat)?

I communicate with LiSioni through my Higher Self, through the structure of insights. That is: “Oh, I understand, I need this. Oh, I understand, they’re telling me this.” I don’t have such direct contact as Irina.

For each of you, we will also establish contact through the Higher Self with your curators, mentors and other structures that will help you in your work.

So, let's have one last question and we'll end our live broadcast. We choose the last question. The most ineresting.

58:43 Will a reference book be published on the planets where Irina visits? Publishing books.

Irina: Will you try to publish a reference book on the planets where Irina visits (question from the chat)? I don’t know about the reference book, but there are already two books – in electronic form. They were written by our volunteers and assistants - Nadezhda and Vladimir. The books are already there, not yet completely finished, but I hope they will soon be available in electronic form.

Maxim: Yes, we already have books, the only thing is that we just need to publish them. And we have not yet decided on what structure we will publish these books. Because the project conditions are payment according to your heart. If in electronic form, yes, I think we can do it. But printing books probably only requires a fee.

59:37 Has Irina experienced alien medicine on herself?

Irina: Have I experienced alien medicine and technology? No. The

fact is that the Interstellar Union cannot be given evidence of contacts, as you already know. The use of alien medicine technologies that they have, and everything related to medicines, with the effect of their technology on the human body, is prohibited.

They even place the chips in such a way as to protect them as much as possible from detection by our scientific methods. Their specialists are taught how to do this, they have such technologies. We can say that installing chips is also an alien technology. Yes, I did to some extent. I don't know how medical it is, but biological, that's for sure.

Maxim: Question, how to find a wife? In fact, it's very simple, you just need to stop using the services of your mistress. And understand that women are much more emotional than us, learn to tolerate some moments. Then you can think about marriage. And the first question that should concern you is: do you need a wife? And not - how to find a wife?

1:00:45 News about Jesus Christ. Jesus Christ flew out of Burkhad.

Irina: Is there any news about Christ, LiSioni? He says that the last time he learned this information through the galactic communication network, data was distributed according to which Christ plans to visit one of the planets of the Interstellar Union of our creators - the planet Selbet.

Maxim: Oh!

Irina : Yes, he will be there. But that was a few days ago, 5 days ago.

Maxim: He makes interesting visits.

Irina: LiSioni says. I believe he will visit, if not all the planets of the Interstellar Union, then many. Because if he has flown outside of Burhad, then he wants to visit all the planets physically.

Maxim: I remind you once again, join us in projects, there will be a link under the video. We have projects “Cosmohealing”, “Cosmoenergetics”, “Meditation” and “Calculation of the spiritual level”. Join our projects, fill out forms, we have forms in the VK group. We will soon finish the site and launch it. The site will have absolutely all the information related to our projects, videos, audio and much more, and, most likely, there will be books there too.

Irina : No, we don’t need Kirchiton on air, thank you. He doesn’t like to come to the Astral; he comes in mental contact. If he comes to me, I won’t be able to talk to you, dear friends. I will be in contact with him, he has a different contact.

Maxim: I see that there are strange people in the chat who write different things, don’t worry, we are, in fact, absolutely open, we have no other task other than to bring Love, knowledge, Light and information. We, fortunately, live in a material world, and I really thank you all for your help, for your support, because we really need and important it. Thank you very much for having us.

Irina: 12,000 pension... (question from chat). Depending on where you live, I don’t know if you can come to us.

Maxim: How to get there, how to live, what to eat - we cannot decide this for you, we have already done the maximum possible for all of you. I think you will still appreciate this and will not ask us such questions. I think conscious people who come here to study should take care of this themselves.

That's why we love you all, guys.

Irina: How unnoticed an hour flew by with you, I didn’t even notice

Maxim: That's it, bye everyone, see you at school and at retreats.

Irina: See you soon, dear friends. And in fact, tomorrow, February 1, is the last month of winter, and in a week we will meet with you again and tell you a lot of interesting things, as they say, if it pleases God.

But I hope that everything will be ok with you and with us, so I send you the Light of my love.

Maxim: And don't forget to like, then everyone will see us, bye!

Aired January 31, 2021

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world.

Video in text
March 15, 2023

#209 Opening of the Center for Spiritual and Physical Development "Cassiopeia". Arrival of the first group of school participants.

---

https://blog.cassiopeia.center/otkrytie-centra-duhovnogo-i-fizicheskogo-razvitiya

https://www.youtube.com/watch?v=Gm8Nu8Kp9Xc

00:00 Greetings to meeting participants.

Irina: They ask you to tell a joke (laughs).

Maxim: Dear friends, hello everyone! Tell me, please, how can you hear us?

Irina: Hello everyone! How can you hear us?

Maxim: When will it be broadcast on Esler? Don't know. There will be air on Esler when we enter the Interstellar Union.

Irina: Good answer.

Maxim: How can you hear us? Great, great, great. Everything is great!

Irina: Hello everyone, good evening!

Maxim: We have a very interesting broadcast today, and you will find out a little later why it is so interesting. Irina, as always, we will begin to imagine who is present with us today.

Irina: Yes, okay, now. Should we start now or?

Maxim: Yes! Who is present with us today, and it is advisable to name the planet at least approximately, or the place where it is from.

Irina: Okay. Hello, dear friends. There are a lot of curators with us today. We'll explain a little later the reason why they are here. I ask everyone to introduce themselves. Yes, today the topic of our live broadcast is the first visit to the Cassiopeia school, which has already opened. I would like to ask everyone to introduce themselves...

Maxim: Wait. Come on, before introducing ourselves, maybe we can tell you some interesting intergalactic news? Right now from the first person you hear. Without even introducing who he is. Then he will introduce himself when he tells the news.

Irina: I want to tell you from the State Fiscal Service. I want to tell you from the State Fiscal Service, he has already told me five times.

01:56 Meeting representatives of the Galactic Federation of Light and the Interstellar Union. The beginning of cooperation. Healing. About the Cassiopeia Center.

Maxim: Come on from the Galactic Federation of Light, who is present today, let him tell the galactic news.

Irina: Okay, now. With us today are curators from various worlds of the Galactic Federation of Light and the Interstellar Union, and even from planets that are not part of any of these structures, but also work with earthlings on the astral level. Representatives of plasmoid civilizations are also present. Now one of them says: “My name is Tanais Peashours. I represent the planet Kuttirata, which is located in the constellation of the Pleiades and belongs to the Galactic Federation of Light." Just Tanais. Okay, I understand you. “In general, we are a very ancient colony of Tikhta, Pleiades. And now we are entering the Galactic Federation of Light, and here I am present with my contactee. The news that I wanted to convey to you is that the entire Galactic Federation of Light has issued a resolution on cooperation with the Interstellar Union on issues of healing and issues of working with earthlings. This is already an official order from the capital of the Interstellar Union, Futissa, which is a colony of Burkhad. This news serves as a sign of the rapprochement of these two organizations in our Galaxy. All this happened due to the work of specialists in contacts of the Galactic Federation of Light and the Interstellar Union with contactees of the planet Earth, including through the Cassiopeia project.

Maxim: Great, that is, we are at least a little helping to get closer.

Irina: Unite (laugh). Thank you, Tanais.

Maxim: Thank you very much. And then let's say, first of all, who is with us today. Let's list everyone. From the Galactic Federation of Light, we understand. Who else?

Irina: And there are also people here from the planet Shimor. Now three people from the planet Shimor approached me. One of the representatives of the planet Shimor is already well known to us all, LiShioni, who is the curator of our entire Cassiopeia project. In addition to him, there are several other Shimorians from other subraces on Shimora, seemingly other nationalities. They are also from the planet Shimor. Their names are KharaishTanhi, PuroshToithi and ArlekhonshSpainter.

Maxim: Come on, Irina, we won't talk about names.

Irina: Yes, these are the names.

Maxim: A huge number of them are present with us today, and then everyone will understand why there are such a huge number of them. Just list it further. Planet Shimor – three. Who else?

Irina: Yes, good! I understood you, LiSioni. The fact is that words in an alien language, names and names of planets are transmitted through an astral connection in such a way that it is necessary to select sounds in the language of the contactee through his perception, through his memory. Therefore, we can say approximately. Another thing is the names of the planets, which are more or less permanent, since the contactee constantly works with them. So who else is here? MidgasCaus, hello. MidgasCaus is here. Planet Esler, Galactic Federation of Light. Yes, I see you, hi. We have people here from Burkhad. His name is Arshamis. He is from the planet Burkhad.

Maxim: You don't have to say names, just say who is still present here with us.

Irina: Representatives of 3 planets of the Galactic Federation of Light are also present with us: from Futissa, from the planet Pashonia and from the planet Sambros. This is all the Galactic Federation of Light.

Representatives of plasmoid civilizations are still present here. There are more than ten of them, they are all different. I'll get ready now. Sirius, Orion, Betelgeuse, the star Mizar in the constellation Ursa Major. In short, we have here representatives of those civilizations with which I have not worked before and which are unknown to me. But they are here for a reason and not by chance, but for the reason that they moved here along with their contactees, who came to school today.

Maxim: Yes, so guys, I'll show you around a little bit. Wave and say hi to everyone.

Pupils: Hello everyone, hello, welcome everyone!

Maxim: How did you stop by?

Students: Great!

Maxim: Are the conditions normal?

Students: The conditions are great! We have all already become friends.

Maxim: Yes, that's why everyone who is present here today are the curators of our contactees, whom we will hopefully not torment for a whole week. I hope to enjoy the contact, to teach how to correctly walk to the Higher Self. We will introduce everyone to the Higher Self again, because Irina has already led many to the Higher Self.

Irina: Someone counted 9 people. Okay, well done, you did the math quickly.

Maxim: Three people will arrive tomorrow.

Irina: Yes, tomorrow.

Maxim: We have a set of 12 people. We have check-in on Monday before lunch. Therefore, everyone who wanted to came on Sunday to get to know each other better. Chat.

Irina: Three will arrive tomorrow.

Maxim: Regarding the live broadcast from school. Our last day of school is on Sunday, and we will have a live broadcast from the school, where we will interview probably every participant. If participants agree to be interviewed after the training, we will have a live broadcast of “Interviews with participants who have completed the school.”

Irina: Just next Sunday a week will have passed, and you and I will become completely different people, and you will tell us about it.

Maxim: You will become completely different aliens (laugh). And I will finally fulfill my cherished dream. I will ask questions! It will not be the audience who will ask, but I will personally ask questions about how the training went. It’s very interesting here - we only accept for training those who are ready to work together in the Cassiopeia team. That is, our project is both spiritual and physical development, and I am sure that the project will also be aimed at financial development. I will explain what our plans are and will communicate our financial development plans accordingly to our team. All members of the Cassiopeia team will carry spiritual knowledge only to the Donation. Donation is payment according to the heart. Pay according to the heart not of the one who gives this knowledge, but pay according to the heart of the one who receives this knowledge. Just on Sunday we will have an interesting stage, payment for training and accommodation, just on Sunday. Let's do a live broadcast and see how it all affects.

Guys, you can ask your questions. We will be happy to try to answer them. The broadcast will be very short. We broadcast until 21.00. Why? Because we still have a lot to do at the Center. Today is our first race, and we need to finish some things and hang up some pictures. We didn't have time to get everything done. Thank God that we at least managed to launch the Center for accommodation of our students.

13:02 Future project “Cassiopeia” for growing microgreens.

Maxim: Tell us about life after death. Process. You can read about life after death from Michael Newton. We asked about this. Michael Newton has a good description of life after death, death after life and much more. What are microgreens?

Irina: He writes that he will grow microgreens and wants to call his project “Cassiopeia” too.

Maxim: Let's try these greens together.

Irina: The project wants to be called “Cassiopeia” and can it count on the help of alien friends, LiSioni?

Maxim: I can say that you can definitely count on my help, and we’ll discuss everything else.

Irina: No, you don’t need to bring seeds.

Maxim: It is forbidden to bring seeds (laugh). Any evidence of contact is prohibited and we will not provide it.

Irina: What music do you listen to? Good question.

Maxim: Irina, they write that you look good today.

Irina: Thank you.

Maxim: Just today? (laughs)

14:17 Signal from space in Crimea in 2020.

Maxim: I only have a question today? Irina, there was news that a

signal from space was recorded in Crimea. Is it true, is it real?

Irina: It wasn't recorded.

Maxim: What happened?

Irina: No, it's not like that. This radio telescope is not working. Journalists wrote that scientists recorded a signal from space. One of the astronomers came up with an article about how we sent a signal back in the 70s. to aliens. And astrophysicists from America and Germany wrote an article saying that if you receive a signal from space, you don't even need to try to decipher it, because with this signal a virus can be introduced into your computers and we will be captured. This is what astrophysicists wrote.

Maxim: Yes?

Irina: Yes.

Maxim: I don't even know that.

Irina: Two serious astrophysicists from America and Germany wrote an article in a major scientific journal about what to do if we detect a signal of artificial origin from another planet on radio telescopes, this will be precisely proven and will need to be deciphered. The article said that there is no need to even try to decipher anything. It just needs to be destroyed. And don't tell anyone about it. Because even trying to decrypt on a computer can introduce a virus into that computer, and can be dangerous for the people decrypting it, because we don't know which civilizations sent it. It's just a signal. I imagine if a flying saucer arrived. What would they write?

16:35 Examination of students of the Cassiopeia school.

Maxim: Will there be tests and exams at our school?

Irina: Wow, what an interesting question.

Maxim: Yes, I think that the most important test and exam after leaving school is the test and exam with people.

Irina: This will be their exam.

Maxim: This will be the most interesting exam. Feedback from people about their work will be their exam. Anyone who will undergo training with us can, if desired, become a member of the Cassiopeia team and, accordingly, participate...

17:16 Author of paintings at the Cassiopeia Center. Elena Tkach.

Irina: Here they ask, who draws the alien guests?

Maxim: Lenochka, come here, come.

Irina: Who draws the alien guests, now we will show who draws them. Come here. This is the artist of our Interstellar Union. Her name is Elena.

Maxim: We will definitely show her paintings on video, we will walk through the center.

Irina: Introduce yourself.

Elena: Elena Tkach, artist.

Maxim: Lenochka, thank you very much.

Irina: Thank you, have a seat. Hello, Elena, they write.

Maxim: Guys, we are waiting for your questions. Give us your

questions. We will answer them and continue to work on school.

18:05 The contactee's dream.

Maxim: Irina, do you sleep at night or in the astral plane?

Irina: I sleep at night, but, like all people, naturally, my physical body sleeps, and my astral body travels, like all of you.

18:19 Juna - contactor?

Maxim: Was Juna a contactee?

Irina: Undoubtedly, she was a contactee, and not even with a single civilization! There were humanoids there. I don’t know about plasmoids, but representatives of the Spiritual World were definitely there.

18:31 What is tithe? Levites.

Maxim: Great. A question, perhaps, even for MidgasKaus, since he studied our history. What is tithe?

Irina: A tenth of something.

Maxim: Great answer.

Irina: Tithe of what? More specifically.

Maxim: Let the tithe ask what, really.

Irina: Then I will guess what he asked, okay? He asked about tithing in the Jewish community.

Maxim: Yes.

Irina: It was the law of the Torah that they gave a tenth of their income, not only money, but also their fruits, products from the livestock that they raised, to the Levite. Yes, there was such a law. For what reason did it exist? For the reason that the Levites are one of the 12 tribes of Israel. A knee is a collection of several dozen families or clans, as they were called. Today they would say their names. It was the knee. There were 12 of them, as we know, during the time of Moses and his followers, who continued his work after his disincarnation. The tithe law was due to the fact that the tribe of Levites was supposed to be engaged only in serving as priests and transmitting the law of God to other people. If all this is translated into modern Russian, then these were contactees and their students who passed on knowledge to people and performed various rituals for energy cleansing, for healing, in order to teach children to read, and so on. They had different functions, much like the Brahmins in India, only they were not considered the highest Varna there. They were forbidden to work physically. The Torah forbade them from having even a small plot of land, so that their time would not be diverted to something material. For this reason, provision for them and their families was entrusted to all Israel. Every adult male was required to give his tenth to the Levites, their wives and children. The Levites, since they practiced animal sacrifices, abandoned this custom, and this is described in the book of Leviticus, which is included in the Torah. It is also in the Bible, you can read it. There, in this book of Leviticus, it was written which part of the animal's carcass needed to be burned, sacrificed to the gods, plasmoids, and which part to take for food.

Maxim: Thank you.

21:53 Will everyone who wants to undergo training at the Cassiopeia school?

Maxim: The question was: "Everyone who submitted the application, will they get into the school?" Guys, we have currently suspended the recruitment of questionnaires because more than 900 applications have been received. We cannot accommodate such a huge number of people quickly. We can only accommodate 24 people per month. There are 12 people in a group, where we will spend a week studying

at school. And next week at the wellness center. People will come there, undergo various tests and get better, because we will use completely new equipment for testing and for getting better. Therefore, we can accept only 2 groups per month - that's 24 people. You can calculate for yourself whether 900 people will get there and when they will get there in the near future. In the near future, someone who is ready to work in a team, who wants to open centers, who wants to work together will get there. And starting next week I will be sorting out all these questionnaires. Therefore, if you don't get there, you will definitely get there later, when we build a big Center. There will be more classes, more opportunities to accept you for training.

23:12 Is it possible to study for free at the Cassiopeia school?

Maxim: Second question. Is it possible to visit you for free? It's not free. You can pay according to your heart to visit us. Why? Because we are recruiting a team of strong contactees for further cooperation and interaction. If everyone comes for free, then we will not be able to build centers, we will not be able to train you, or do anything at all. Paying according to your heart is your gift that you can contribute to the project. And I will prohibit everyone who undergoes training from working for free. As I decipher it, the demons pay. There is no value to the knowledge that you will receive, and there is no value to the knowledge that you will transmit. Regarding payment, the approach is this: whatever your heart tells you, that's the payment you will make. Let's have some more questions.

24:10 Is time travel possible on the physical and mental levels? Time Tape.

Maxim: Is time travel possible on a physical or mental level? We have already answered this question. Guys, Irina will now take a very long time to explain to you. I will tell you.

Irina: We already answered.

Maxim: Yes, we have already answered several times. No, you cannot travel through time in your physical body.

Irina: Mentally, it's possible. Move backwards along the Time Tape. But to see the events of the past through the perception of the one who is moving. This is inevitable, since all the images that will come to consciousness in this case still pass through the filter of perception, which is configured differently depending on the memory images.

24:49 Online training in the Cassiopeia project.

Maxim: "What will happen online?" Guys, we will have a lot of interesting things online. We will have online lessons, lessons on astral travel, and the Cassiopeia-Online school is opening. But to get into the team, to work on the project, you need to come offline. Because here we will communicate, here we will establish contact, here we will talk about the policy of the Cassiopeia project and together we will harmonize and unite. And online classes will be mandatory. During online classes you will be able to see the entire program that Irina will transfer to our contactees, but without the opportunity to participate in the project, without the possibility of harmonization in the project, or opening your own schools.

Irina: About dolphins. Dolphins, dolphins, dolphins. They also answered this question.

25:53 Aliens' opinion about the environmental disaster on Earth.

Maxim: What do aliens think about the growing environmental disaster on Earth?

Irina: Representatives of the planet Tikht, who are specialists in the ecology of planets, namely the planet Tikht most specializes in the ecology of planets, in terraforming and in cleansing planets from various pollutants, think that at this stage it is quite possible to prevent an environmental catastrophe on Earth. If we pass laws that will help reduce carbon dioxide emissions into the atmosphere and transition to alternative energy sources. Pay great attention to raising environmental awareness in every person, recycling those things that are no longer needed, so that they are not thrown into nature, but recycled. There must be a whole range of measures.

Maxim: I understand.

27:37 Marital status of Ashtar Sheran.

Maxim: Hello Ashtar Sheran! Is it true that he got married? Is it true that Ashtar Sheran got married?

Irina: When we talked with Ashtar Sheran, I didn't ask whether he got married or not. He said that he had wives before. I didn't ask about whether he has a wife now. I remember that we asked him if he was married. He said that he had several wives and that he now has a wife. And he has many children. And where it is located - we no longer asked these details.

28:18 Personal consultation with Irina Podzorova.

Maxim: Is it possible to come to you for a personal consultation? Will you answer or will I answer?

Irina: Better you, of course.

Maxim: You can get a personal consultation with Irina if you come for training. You will have 7 days of personal consultations. After Irina trains people, she will have 5 days of receptions. Anastasia makes personal appointments with us. You can find all phone numbers in our VK group. Svetlana will sign up for wellness treatments, events, and testing. I will also leave the phone numbers where to sign up under this broadcast. For a personal appointment via Skype, you will be able to get access to those who have already been trained by Irina and to those whom we recommend and will recommend to you so that they can lead you to the Higher Self, or work on guiding you on your issues. Therefore, at this point in time, you can only get a personal consultation now, probably, during training. Let's move on.

29:39 Devil's Bible. Lavey.

Maxim: Who wrote the "Devil's Bible", which is now kept in the Czech

Republic?

Irina: Is this Satan's Bible?

Maxim: Yes.

Irina: Lavey, if this is the book I'm thinking about. There is an American author, he wrote the Bible of Satan. I read it a little, but I haven't read it all, I don't have time. But what is written there says that this author had very good contact with representatives of the 5-6th level - demons and archons. This is their view of the world, of the universe, of God, of man. He was their contactee and transmitted their worldview and ideology.

30:30 Artifact or evidence. Cassiopeia website.

Maxim: " Show me the artifact." Guys, we can't show you any artifacts. Please read the group rules carefully. We say there that we do not provide any evidence. We will soon be opening our website, where you can see various articles, new videos, our team, our group, everyone who studied and wanted to further collaborate and work with us. We will open a website soon. You will find everything you want on it.

31:05 Make an appointment with Irina Podzorova.

Maxim: "Anastasia isn't recording, I've been trying since April." Guys, in order to sign up now, we have expanded the staff of volunteers for registration. Anastasia and Tamara take your calls. Therefore, I recommend that you write a message on Telegram. When you write a message on Telegram, they will definitely call you back. We are unable to receive and process the huge number of calls that have started to come in. Therefore, two specialists are now processing all your messages on Telegram. Try to log out via Telegram. This is the best way to sign up.

Irina: Sleep paralysis has already been talked about more than once.

Maxim: Next.

Irina: Next, about the recordings. “Anastasia doesn’t make appointments” - maybe the person means that she doesn’t make appointments with me temporarily, but she always makes appointments with my students, who are already accepting them now. There are already several people in our Cassiopeia center. Alexey, Ilya, Olga, Nikolay, Igor. She always writes to them.

Maxim: Guys, there is no link to Telegram, but I will give you the link. Using the phone number indicated by Anastasia, as an appointment specialist, you can find and write to her on Telegram.

32:32 Spyridon of Trimifuntsky and all Spiritual figures. Their place of residence. Time between incarnations.

Irina: Where is Spyridon of Trimifuntsky, as well as all the spiritual figures of Orthodoxy, Catholicism, Buddhism and other religions? You need to send a separate request about each and find out separately. In general, I can say that the average period after disincarnation until the next incarnation is approximately 250-300 years. But this is a very average period, which can be rejected in any direction. The Spirit can incarnate a thousand years after it comes out of incarnation, or the Spirit can incarnate literally a few years later if it did not complete its task, or its body was killed ahead of time, and it left incarnation without completing its task, or a new. It can come true very quickly. Look at the years of life and death of this person you are asking about. If he died relatively long ago, we can assume that he is incarnate. If it's recent, there's a good chance he's in the Spirit World. At what level? Read his biography, look at his icon. As far as I understand, he is a canonized saint. What vibrations will you feel from it? If these are light vibrations of goodness and love, it means that he is at some of the Angelic levels.

34:05 Calculation of spiritual level in a foreign language.

Maxim: It is possible to calculate your spiritual level in a foreign language. The main thing is to indicate your place of birth, and in what alphabet your name is written in your passport. Calculation of spiritual

level will be below in the link. You can always calculate your spiritual level and read what tasks you need to implement here.

A couple more questions and we'll finish. Guys, let's do this. Anyone who can, please click like now. Because when you click like, a huge number of people see us, and by doing this you are already helping the project spread information.

34:54 Luule Viilma and Vyacheslav Krasheninnikov - contact person?

Irina: About Luule Viilma and Krasheninnikov. Are you asking if they were contactees? If I heard something about Luule Viilma, that she wrote books, then even less about Krasheninnikov. In order for me to submit a request to the curators, I need to clearly present their images. Most often, they do not know contactees by last name. They may know by name, but most often they know their contactees and contactees of others by vibrations. They can answer whether this or that person is a contactee, for example, of such and such a civilization. I can say that, judging by what Viilma wrote to Luule, yes, she was a contactee. In any case, with the Spiritual world, with your Higher Self, with spiritual Angels, with spiritual entities for sure. She wrote those things that are usually given by disembodied spiritual entities.

As for Krasheninnikov, Vyacheslav Krasheninnikov, thank you for the clarification, I only heard that he was an Orthodox man, disabled, very religious, and that he gave a prophecy. He talked about what would happen in the future. I read that many of his prophecies had a negative meaning, but they were not fulfilled in the time frame that he spoke about. I want to say that the future has many options. If he gave a prophecy, it means he received it from some source. Usually, a prophecy is given either by plasmoid civilizations, telling their version of the development of events for different purposes, or by representatives of the Spiritual World. So, yes, undoubtedly, he was a contactee. But with whom, what is the purpose of the contact? In order to have a correct answer, one must ask his own Spirit or his own mentors about this.

37:07 Can a visual person get in touch with the Higher Self?

Maxim: If a person is visual, can he get in touch with the Higher Self?

Irina: Absolutely any person who not only believes in the existence of his Spirit, but believes that he is a spiritual being clothed in a physical body, that the Spiritual world exists, can come into contact with the Higher Self. Who wants to talk with his Higher Self and knows how to stop his internal dialogue, that is, relax physically and psychologically for a while. Relax for a short time, let go of control of your self-awareness.

37:54 Anastasia from Maigret's books is a contactee. Broadcast with Ruslan Romanov.

Maxim: Anastasia from Maigret's books is a contactee. She came into contact with very interesting thin-material plasmoids, earthly civilizations.

Irina: Both Ticht and Esler.

Maxim: And dense material civilizations. She really is a contactee. Will Ruslan Romanov and I have a recording of the stream? Yes, it will definitely be. Ruslan, honestly, is all about business. There's no time to even call. I send you a huge greeting. Keep doing what you're doing. We'll definitely call you a little later. I had a school opening. We simply had no time for streaming right now. We will definitely have a broadcast with Ruslan Romanov.

Irina: Who did Ed Leedskalnin contact with? Who is this?

Maxim: Irina, come on, we'll probably finish. We need to let our guys go and get ready for bed, for tomorrow. Tomorrow is our first day of acquaintance and classes.

Irina: Where is Hitler now, where is Stalin now and where is everyone else?

Maxim: At the school of contactees. Guys, Hitler, Lenin and Stalin are

all with us now. Bye everyone (laughs). Guys, bye!

Irina: Bye.

08 February 2021.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

Pupils of the Cassiopeia school;

MidgasKaus - representative of the planet Esler, biologist, psychologist, specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world.

Tanais Pishours - representative of the planet Kuttirata;

Arshamis - representative of the planet Burkhad;

KharaishTanhi, PuroshToithi and ArlekhonshSpainter - representatives of the planet Shimor;

Representatives of the Galactic Federation of Light.

#213 Completion of the 1st season of the Cassiopeia contactee school.

https://blog.cassiopeia.center/okonchanie-obucheniya-1-sezona-shkoly
https://www.youtube.com/watch?v=8nUncm5OsU4

00:01 Greetings from the broadcast participants. Intergalactic news about the travels of Jesus Christ.

Maxim: Guys, hello everyone. Finally we have a chat, we can now see you in the chat. You can write to us. Today we are graduating from the Contactee Training School. And today we have a huge number of curators, and nothing works at all. We were unable to start broadcasting from the Center today. The Center has generally become an anomalous zone.

Irina: So many portals were opened in a week.

Maxim: We really couldn't start the broadcast from more than one laptop in the Center; everything was completely frozen. As I understand it, the curators of our contactees, who have already graduated, want to communicate with you. As always, let's start with the news.

Irina: Hello, dear friends. Happy Valentine's Day to everyone, this is the day of showing love in our world. This is a reminder to us that such a feeling exists between lovers. I congratulate you all. How can you hear us?

Maxim: How can you hear us? Our main question is: how can we be heard, what is the audibility on the channel? Hello Tatarstan. Hello Belgium. How can you hear us? Great! Guys, thank you very much for your feedback. As always, we'll start the broadcast with...

I'm even afraid to ask who is present with us. The background here is

such that I was even lost as to who was present with us.

Irina: It’s easier to ask, who is not present?

Maxim: Yes, who is not with us today?

Irina: Representatives of Burkhad are here, Rayom Tiyan welcomes you! As always, traditionally, we will start with intergalactic news. And again about the journey of Jesus Christ. Since three earthly days ago he flew to the planet Tumesout, where there was one of his significant incarnations, the last one before his incarnation on Earth as Jesus Christ, in the body of a humanoid, who on Earth was called Yahweh. This was his very significant incarnation, because he was preparing his incarnation on Earth and the construction of a very large and influential Jewish and Christian egregor, large and influential religions for all subsequent generations on Earth. He is now present on the planet Tumesout, traveling to the places where he lived as Yahweh. Yesterday, during an astral journey, I met with the phantom of Jesus Christ. I told him that you, dear friends, want to ask him questions through me, just like there was a broadcast with his mother Maria. He said that he is ready to come to me in the form of a phantom and answer your questions, dear friends, any questions that you have.

Maxim: Where should I write questions? We haven't decided yet?

Irina: They are already writing.

Maxim: Let's define it this way, we will give a task. You can write all your questions under this video that you can direct to the phantom of Christ. Because Christ himself personally cannot come to us under any circumstances, because his energy is very strong for perception, so we will communicate with his phantom, which is charged with his energy.

We have a very interesting broadcast today, you will now find out why. Because here, if we look from the left side, there are students from our school, to whom we will be presenting certificates who have completed training today live. They will tell you how they completed their training, and you can ask them questions personally.

Irina: We decided to make you, dear friends, witnesses of an event that is significant for them and for all of us - the presentation of certificates.

Maxim: I will be on the sidelines. Are they already collected from groups? Volodya, from which groups? We don't understand what the question is?

Irina: Yes, they already have questions there.

Maxim: So, I won't name names so as not to strongly identify people. Or can I indicate surnames?

Participants: Yes, of course.

05:34. Branch of "Cassiopeia" in Moscow.

Maxim: So, Svetlana Slepova. I invite her to present the certificate. Svetlana, have a seat. This is the certificate Svetlana Slepova receives for completing the 1st stage of the "Higher Self" course. Svetlana, congratulations. I wish you spiritual and not only spiritual success. Because at our school we receive not only spiritual knowledge, but in recent days we have also studied financial literacy. Svetlana, how do you like studying at school or what would you like to say to other people who come to study with us?

Svetlana: Come study. Here you get a huge amount of knowledge that you will never get anywhere.

Here they give so much love and give the opportunity to reveal oneself, to understand the world that for an ordinary person, if he is not a dreamer, if he does not strive for God, if he does not have Light inside, then it will be difficult to get here. Therefore, come, plunge into the world of love, fantasy, reality and start living in a new way.

I want to share with you the news that our group is the first to open offices in Moscow.

Maxim: Let's do it this way. He is not opening offices, but now he will recruit people who in the future will be able to open not offices, but structural divisions, branches of the Cassiopeia project in Moscow. Svetlana has a rather interesting mission: she will gather you, receive calls from those people who want to bring the Light that we are talking about here with Svetlana and the Cassiopeia project. Each person who joined us on a project is a member of our team and therefore, when he goes to his home, he can form a team in the future. Moreover, Svetlana learned to lead to the Higher Self.

I think it will be very easy for you to type.

Svetlana: Of course.

Maxim: Are they asking me to be in the frame? Today I have a badge. I was given a MidgasCause today. Therefore, Svetlana has a task from the first stream, since she was included in the first stream - this is a recruitment of people, a recruitment of volunteers, people who want to continue the structure of the Cassiopeia project in the city of Moscow. Light, can you tell me the phone number live?

Svetlana: I won't tell you the phone number, but the link to the Cassiopeia Moscow school will be under this video.

Maxim: On Telegram?

Svetlana: Yes, the link is on Telegram.

Maxim: Are you afraid to give your phone number live?

Svetlana: Yes. I just looked at how many people are on the air right now...

Maxim: Only 962 people. Only a week of calls. We will provide a link to Svetlana's Telegram chat under this video. Svetlana, don't forget to pass on the link.

Svetlana: I already sent the link.

Maxim: Thank you very much, Svetlana. And I want to invite the next participant.

Svetlana: All the best. Good luck to all!

09:18 Financial literacy training at the Cassiopeia school.

Maxim: This is a really important event for us. Irina and Ilya (taught) for a whole week, and I had one day of classes on financial literacy. Why? Because we carry not only spiritual knowledge in the donation structure - payment according to the heart. This is an invaluable structure, but we also teach all our employees how to properly harmonize and interact with different types of egregors. One of these egregors is a financial egregor, and I am working on this project for one day. I explain to people, tell them what we can do in the project, how we can develop financially in this project, without violating the terms of the project - bringing spiritual knowledge to the donation structure. So, I invite Olga Semenova to present the certificate.

10:12 Equipment for the Wellness Center.

Maxim: This is the certificate Olga receives.

Olga: Greetings everyone.

Maxim: Ol, I present you with a certificate. I'm interested, and I hope all people are interested in hearing live: what sect did you join? What kind of sect is this? Tell me how you gave away your apartment and car.

Olga: My husband gave me money for travel. Hello to you. I would like to share this point so that you try to come as prepared as possible. Because in my case, it took more than 2 days to build my channel. Because it turned out to be not quite ordinary for me, not what I

thought it would be. Thanks to the joint work of the entire group, we were able to find out that it was not standard for me. Therefore, try to work with blocks as much as possible. By the way, I want to thank Lutius. This is a plasmoid, thanks to which three blocks were removed from me. I thank you from the bottom of my heart. I hope you are here.

I want to tell you that when we went to the park and worked with trees, this plasmoid saw me and another girl, our artist, that we were very cold. He said that these two girls are behind, they are so cold, go home.

Maxim: Now I can imagine what people who are completely out of the loop, who don't understand what she's talking about, think about us?

Guys, in fact, the world consists of a large number of energies, a large number of different spaces, entities and subtle civilizations. Therefore, one of the forms of communication with subtle civilizations is communication through nature, through trees. I want you to understand that we are against drugs, I say right away. We don't have drugs, I'm against using any nonsense that changes consciousness.

Olga : On this walk, Maria froze to a tree because she was talking to him. It was really very cold, and if it weren't for Lutius, we would still be standing there frozen. Overall, a huge thank you. And they changed the weather. We asked, the wind stopped blowing, it began to snow, a bird began to sing, and we just rolled back.

Maxim: One of our training days includes a trip to the forest and communication through the Spirits of Nature with subtle civilizations, which are the Spirits of Nature.

Irina: One of the days is dedicated to learning how to communicate with subtle-material civilizations, with plasmoids through trees. To do this, we go into the forest and communicate there. On this day the weather was (inclement) since it was February, there was ice and wind, but we went anyway.

Olga : Even getting there was difficult.

Maxim: Olya, when you come home and they ask you to take a drug test, please take it. So that they clearly understand that we do not have them, that we are adequate and do not use anything. Thank you so much.

Olga : I haven't said everything yet.

Maxim: Not all?

Olga: No!

Maxim: Once you've made it to the air, let's talk.

Olga: I also wanted to thank you for the medical equipment we used for testing.

Maxim: This is not medical equipment, this is health equipment.

Olga: You will tell us in more detail, but I wanted to thank you, because they reminded me not of my illnesses, but of some points that I had forgotten about. They were a hundred years ago, and the equipment showed it all, you know?

Maxim: Yes, in our Wellness Center (at the end we will tell you how you can get to us) there is a Kronoscope device that can give complete feedback on all your etheric fields, on all your energy information fields, on all your chakras. We have equipment - an aura chamber.

I know how many people feel about this equipment, but in any case, it works. It works in conjunction with the Crownoscope apparatus. This is a device that scans your etheric field using the Voll method, that is, scanning the etheric energies of each finger. Plus we have equipment for testing the physical body. We will not name the brand of this equipment; we are not a medical organization. We are engaged in testing, and our project is aimed at improving people's health.

Our students personally tried new magnetic resonance equipment to restore body structure fields and much more. That is, everything that is possible with new technologies...

Where am I looking? I try to look at the camera.

Using new technologies. We try to keep up with the times, we use the latest equipment, which helps to harmonize the entire human energy structure. Accordingly, from the spiritual side, we set up communication with the Higher Self.

If you remember, dear doctors, that you take the Hippocratic oath. Hippocrates also said that in order to treat the body, it is necessary to treat the Soul. But for some reason our doctors forget about this a little. In our center you can start treating - not treating, but healing your body. We will help you give feedback from the root cause of your problem - this is on a spiritual level.

Olya, how do you like your stay? Is it normal for me to live as a guest?

Olga: Fine. Everything is fine, everything is great. Call again.

Maxim: Are the beds large, normal, comfortable?

Olga: Normal, any size person can fit there.

Maxim: Great!

Olga: Can I have one more small wish? First of all, you need to learn not so much about contacts, yes, this is important. Learn to love each other. Start with your family, with your loved ones. First, let your love go there, then everything in life will change.

Maxim: Thank you very much, it’s very nice to hear after learning the program.

Maxim: The next person to be invited is Alexander Polozkov. Here you go, the certificate. Sash, the certificate confirms that you have completed the first stage “Higher Self” course.

Alexander: Thank you. Hello.

Maxim: Tell me, please, how was your training, what did they teach you here?

Alexander: Great training! I was taught to go to the Astral, communicate with my Higher Self, and I learned many other practices. I think the most important thing is to hear your Soul, the Creator within yourself - the first thing a person should become acquainted with when coming into this incarnation.

I believe this is a great mission for everyone. I thank Maxim for the great work they put into this project. It works, it's real. Thank you.

Maxim: Thank you very much, let's applaud!

I think that it is now very competent and timely to invite Alexander’s wife, this is Vasina Maria. Mash, come, sit down. We had a married couple who were studying. Please, Maria's certificate.

Maria: Hello!

Maxim: Congratulations, you have completed the first stage “Higher Self” course. I won’t ask anything, just tell me your impressions, your feelings. How was this week?

Maria: Hello everyone. This week has passed like a moment in space. There was and is a lot of love that every heart lacks. And here they teach to reveal this love in yourself, to establish yourself in the Light, to become strong, first of all, in God, in yourself. First of all, with your Higher Self. Having heard your Soul, you harmoniously hear the entire Spiritual world or any other worlds that can touch you.

In this place, having given you the very first basics of strengthening your Spirit in your emotions, actions in life, understanding of the world, you will be able to step further and touch the stars. Our respected spiritual guides will help you travel out of body, hear your Higher Self freely, without any obstacles. And more importantly, each of you will know how to become even stronger and brighter, strengthen yourself in this Light.

Maxim: Then set up the channels like this, she sits in the stream and talks.

Maria: I am the Supreme. I asked it too (to say). I didn't prepare **.**

Maxim: Well done. I felt that Light was coming from you, a flow. Flow of Light of Love for life, for the world.

Maria: We have touched so many Souls this week. These were the most diverse plasmoids, the Spiritual world, we talked with Burkhad, with the Mother of God, there was even a moment with Jesus Christ.

Maxim: With a phantom.

Maria: Yes, with a phantom (of Jesus).

Maxim: And with the phantom of the Virgin Mary.

Maria: Yes, and with the phantom of the Virgin Mary. This was when several contactees who doubted themselves, they reached out to their Higher Self and confirmed it. And the Higher Self said that they are really close in heart, and their curators are, for example, the Mother of God and so on. Then this contact happened, this conversation that illuminated many hearts.

Maxim: Thank you very much for such bright words. Let's applaud! Masha and Alexander are in the flow, they are husband and wife. And they found each other in this Light. It was a pleasure to train the husband and wife.

Maria: Thank you.

By the way, more than half of the children in training at our Center are volunteers. As we promised, first of all we train our volunteers who are present in the project and contactees who have already communicated with Irina over the year and are ready to further contribute to the idea of Cassiopeia and the promotion of the project as a whole.

22:26 Announcement of the art project “Cassiopeia”.

Maxim: Today I want to present a certificate after a week-long training course to our wonderful volunteer, plus she is a wonderful artist. She painted wonderful pictures for our Center. There will be a separate article on VK about these paintings, and I think there will be separate sketches on YouTube. The paintings are simply unreal, the paintings are simply masterpieces. I want to invite Elena Tkach.

Elena: Shall I put it in the background?

Maxim: Yes, of course. This is one of Elena's paintings, it's called... What's it called? I will hold.

Elena: Galaxy.

Maxim: Against the background of the Galaxy, interesting. Lenochka, I congratulate you and present you with a certificate. Well done, smart girl! You have completed the first course of training to the Higher Self. Now you can lead any person to the Higher Self. I hope you will fully adjust your astral travels.

In the first project, and not only in the first, but in any other, for every person we train, we can continue to build some projects with him.

With our dear Elena, we came up with a project. Lena knows how to draw, and she can draw any of your images that you can voice to her.

Elena: Which come to you in the Astral.

Maxim: Yes, which come to you in the Astral. You can voice these images to Elena, and she will sketch these images in her own way, in her own way, in her own way, in her own way. Lena is our streaming artist. She constantly draws in the flow, in the channel, that is, she is constantly in contact. And I have the simplest question: how do you like the weekly training?

Elena: Amazing! Surprisingly, this is something. Such a team, very lively, very witty. It's like being immersed in a stream of amazing, unique people. Can I say?

Going through school, opening up. Revealing their inner potential, each one is like a Supernova explosion.

Maxim: A little louder, they can't hear.

Elena: Representing a sea of possibilities of the energy of Light and space, the consciousness of Light directed outward. Coming as one people, we leave completely renewed. The creative theme that we decided to explore in the Cassiopeia project opens up a sea of possibilities for consciousness that many people are not even aware of. About the possibilities of entering the boundless space of the Spiritual, astral world. It's like a real miracle! All this is happening here and now. More and more contactees are appearing, people who have the ability to enter the astral world, into the world of lucid dreams. This is the boundless space of the environment, which gives birth to wonderful, amazing images, amazing places that our Soul can visit, the consciousness of a person in a lucid dream, immersed in the astral state of space.

I thank our entire team, very cheerful, witty guys and girls. It was an amazing week. A spark is ignited in the hearts, a flow of brilliant, interesting ideas and thoughts appears. Each one is individual and immensely interesting. I thank everyone who worked with us.

Maxim: Let's applaud! Thank you very much!

Elena: Thank you.

Maxim: Hold the picture. This is one of twenty... How many paintings have you painted in total?

Elena: Twenty-nine.

Maxim: Twenty-nine paintings! Guys, you know, every picture is so saturated with the deep meaning of the Universe, it is so saturated with Love and structure. I will photograph each picture separately and definitely show it to you. Why? Because it is a masterpiece, it is very beautiful. We will have a very interesting project, where we will exhibit paintings by all the people who are in our project. These are our team members. We will put them up for donation, at auction. Why? Because the paintings are simply unrealistically charged.

Maxim: So, let's continue.

Irina: She also drew aliens. We have a lot of paintings in the Center.

Maxim: We have pictures with Zaliatar, with Mead.

Irina: With MidgasKaus, LiShioni.

Maxim: Orions are drawn from different (civilizations).

Irina: My physical contacts with insectoids.

Maxim: There are pictures where Irina flew for physical contacts. Lena drew us all the pictures that were from the videos, from the articles. She invested her image, her Soul and described those situations when Irina even visited other planets.

Maxim: So. I invite Elena Kuznetsova to present the certificate. Helen, have a seat. Here is the certificate.

Elena: Great!

Maxim: Lena, congratulations. Lena is our project volunteer, plus she came in from the very first season, graduated and immediately took on another project. It will unite, structure, give feedback to all school students who are included in our project, who will further interact with the project, harmonize, look for a spiritual basis, for the development of not only the spiritual, and many other points. I have a simple question: how was your training?

Elena: I arrived and my hair was tied up, but now the spiritual channel has improved so much that it is almost impossible (to collect).

Maxim: That is, it makes your hair stand on end.

Elena: I would like to say a huge thank you to all the volunteers. Guys, you are invisible, but the work you do is enormous. Gratitude, low bow.

I wanted to say thank you to my guys, my team. Your knowledge, your emotions, your experience with which you came.

Maxim: Come on, I'll show the team so you can see. Here she is, the whole team is sitting. There are boys, they will come later, we will deal with the girls for now.

Elena: Each of you is unique. Thank you very much! I hope, I am sure, that we will also continue to keep in touch, communicate, and meet in the Astral. I love you just madly.

I wanted to say a huge thank you to Maxim, because without him we wouldn't be here, Irina wouldn't be here. Because organizing and controlling everything is very, very difficult. Because you and I live in the material world.

I wanted to say thank you to Irina. A lot of words, a lot of emotions! I can only tell you one thing, that you are my spiritual mother, I love you

very much!

To my curators separately, we will talk to them later. And I want to say thank you to myself. I came here as a lost wanderer with a suitcase of questions and doubts, and I am leaving with the words: “I am the Universe.”

Maxim: Thank you very much.

Maxim: There was a question: “Where are the boys?” Finally the boys came. Alexander Degtev is invited to present the certificate. He is also our project volunteer. He completed the “Higher Self” course, first stage. Let me show you the certificate that it is real. Please.

Alexander: Thank you.

Maxim: Tell us how you (be) a volunteer, how did you become a volunteer for the project, what did you expect from the training and what did you get from the training? You are our IT specialist, and you have a special mindset. You think differently, you have a more systematic way of thinking about processes. How did you get in, what did you expect and what did you ultimately get from the training?

Alexander: To get in, you didn’t have to do anything, just follow the flow of incoming information and not resist. That's all.

Maxim: Did something enter you?

Alexander: Yes, almost, to the head. Almost no hair even grows anymore. Do what suits your heart and it will respond to you. It will be a little difficult to get to school, but everything is possible. All those who signed up and are about to arrive, they are very lucky. Let everyone not rush to draw conclusions until school is over, even if something doesn’t work out or they don’t like something. Everything will work out and by the end of completion you will understand everything. And you will draw the right conclusions. I want to tell those who will come to the next stream, especially the girls, (that) there is a huge refrigerator, pristinely clean from magnets. Therefore, since they will come from

different cities, there is a large space for activity.

Maxim: Guys, you won't believe it, even refrigerators are flying. On the first day everyone moved in. We started dating, began to harmonize, build contacts, and immediately the refrigerator broke down. That is, not only the camera, but also all other equipment. I don't know. There are no lamp refrigerators, but we had to come up with something. I had to get a new refrigerator, yes.

Thank you very much, Sasha, both for your volunteering and for your words. I hope that you still received from the training that share of Light that is now in you.

Alexander: Even more!

Maxim: Thank you very much!

33:38 Maxim Rusan about the ideology of the Cassiopeia project.

Maxim: Please block Roma-Roma. I'll do it now. Guys, if you don't like our project, then don't talk nonsense about the project. Why? Rum, I'll tell you this: if you don't believe in something, it doesn't mean it doesn't exist. This means that in your structure of the universe there is no understanding of what we are talking about. We don't breed suckers, we don't look for problems, we don't get involved in politics. We give people feedback that all the problems in life, and you, Roma, also have all the problems in life, from how you think, what you do and how you treat other people.

In this project we teach absolutely everything. We teach not only spiritual knowledge, but we, as psychologists, also teach people so that they can continue to work with people and be good and competent psychologists for them.

Many people have a really hard time understanding that this world exists. What exists, besides this physical reality, is another reality. And our project is one of the opportunities to give you feedback on how we understand this reality. If someone has other realities, we will be happy

to listen to the reality that others have.

And with such a negative attitude, with such negative thoughts, I think that soon you will have to come to our Wellness Center and undergo health procedures. Why? Because all these thoughts, all these actions of yours will affect your physical body. The physical body is the last authority that knocks on your door and explains that you don't think like that, that you don't do it like that, that you don't think like that.

Therefore, if you do not like our project, do not enter this project, do not watch our videos and do not participate in our organizations, do not support us. Because you still need to grow and develop, and reach that moment of awareness, that level of awareness, that level of Light that our project brings to people and what it gives them.

I'll start a chat. "I found a cool place in Israel." Class! We are friends with everyone. If you have ideas, there is a desire to launch a Cassiopeia project of the same level in your city, in your country, then we are always happy to support you, teach you this, and give you feedback on what we can. In no case do we want to come into conflict with religious egregors with our knowledge.

I really love our church, I really love the Christian religious egregor, I really love Buddhists. I like the religion of Islam, it is quite tough, but at the same time fair. I like a lot of religions. And our task is not to enter into opposition and contradiction with religions, but, on the contrary, to support these religions and provide an opportunity to explain from our point of view (we do not claim the ultimate truth) how these religions are formed, who gave us these religions, and give the information that we have.

A huge low bow to Irina, our contactee, who can give feedback from various kinds of the Spiritual world, subtle-material, dense-material civilizations. I consider it a huge gift of fate that we can all see Irina together and understand what she is talking about, understand her contacts and hear those curators with whom she can communicate.

37:49 Cassiopeia branch in Omsk.

Maxim: So, I invite Tatyana Derbenev to present the certificate. Tatyana has a spiritual name, her name is Alleya. She is already a good master, she is an esotericist, an energy practitioner. She leads meditations on the Cassiopeia Meditations channel. She has her own wonderful projects. We will tell you about these projects later. She has very interesting contacts, she is in contact with the Galactic Federation of Light. And the most interesting thing is that this absolutely does not contradict our project. Why? Because we are for any harmonization, for any unification of any structures, any federations, any spiritual levels. I present you with this certificate. You also completed the first stage of “Higher Self” training with us.

The second step, I think, will be very easy for you, why? Because Alleya in our project is dense, dense, dense. She has already participated in many interesting aspects of our project. And I am sure that in the future, while she was undergoing training, she and I talked about implementing new projects. Yes?

Alleya: Yes, that's exactly right. Hello everyone. I thank this project. I think so and I know that I have been walking for a long time, perhaps even towards this project, towards realizing myself. And you know, dear friends, it is common for every person to doubt himself and his contacts. The Cassiopeia project, training in the Cassiopeia project removed all doubts and strengthened my Spirit. Every person has not only a body, but also a Spirit, Soul and your Higher Self. When you come to this wonderful project, for training, you will be surprised at how easy it is to build this channel with your Higher Self. And the most interesting thing is, that everyone has it, you just need to pay attention to it. This will greatly benefit you in communicating with your Higher Self.

You can solve any problems, projects, find out your tasks.

I also wanted to say about training. There is an amazing atmosphere here, you just need to come and experience it. Such wonderful people have gathered here - both contactees and volunteers. I thank Irina and Maxim for this amazing project, because, as far as I know, there is no project for donation payment. People approach this so consciously that you need to go into it and understand it. It's hard to explain really. Therefore, my friends, come, get trained, and you will see for yourself.

And I also want to say about the Wellness Center. I checked the result myself; I was tested on the Oberon machine. And with the Kronoscope device, this is the definition of the aura, etheric fields, personal structures, energy structures.

Maxim: Energy-informational components of a person. And they gave full feedback to each of our future employees of Cassiopeia in terms of his energies, in terms of his chakras, right down to his psychophysical state, energy state at the time of entering the project and at the time of leaving the project. There is a difference?

Alleya: The results are amazing, the difference is enormous. I was diagnosed today, my aura is purple, I'm amazed! The channel with the Higher Self, with my curators, has been built so much, I thank them for this, the entire Cassiopeia project. Diagnostics on the device, I only had 4 sessions of magnetic resonance therapy and already felt the result of the work of this device. Amazing, amazing!

What else do I want to say? A branch of the Cassiopeia project will open in the city of Omsk, come, we will work. As a healer, I will provide you with the opportunity to go to your Higher Self.

Maxim: I will try to provide the opportunity for your Cassiopeia branch to have exactly the same equipment as we have in our project. I will try to do this, and we will try to purchase magnetic resonance therapy and a Crownoscope. Little by little, over time, we will acquire everything. That's it, thank you very much!

43:24 Plans for the construction of a large Cassiopeia Center. Inviting volunteers to build a large Center.

Maxim: Yes. I would like to invite one of our volunteers to present a certificate. As a volunteer, we corresponded with him for a very long time. This is the person who organized the retreat for us in Abkhazia, this is the person who listened to all your arguments in order to get into the project, enrolled you there, structured it, created the website. Now this person will be involved in structuring the network that we will open on the basis of the Cassiopeia project. These are natural products of proper nutrition, these are energy information preparations, and many

other products. I won't tell you everything

I would like to invite Evgeniy Vyalkov to present a certificate for completing the course. Zhenya, have a seat. Well done! Here's the certificate. I would like to add that Zhenya has already fully integrated into our structure; it is probably no longer possible to kick him out. By the way, he is moving from his city to our city of Voronezh to help the Cassiopeia project build a network.

Evgeniy: Absolutely right.

Maxim: Zhenya, please tell me. You arrived early and initially saw the entire kitchen. How everything was done. How do you personally feel about yourself when you got into the project, when you ended up in the project and now? Is there any difference?

Evgeniy: Yes, of course. The entire process of learning and cognition is divided into several stages. Can be divided into theory, practice and communication. I want to say that communication with Maxim, with Irina, with the guys is truly magic! This magic is our essence. Here we are marinated in each other to such an extent, there was such an exchange of energies that sometimes the technology can't even stand it.

I would like to express my deep gratitude to all the guys, volunteers, Maxim, Irina. To all of you guys, girls who are watching us, who have not yet made it into the project, for training. But now, what's most interesting is that you're doing even better, big, big... I'm lost)

Maxim: Lost! What do they have more?

Evgeniy: With each new project, with each new launch, with a new stream, the school acquires more tools.

Maxim: Yes.

Evgeniy: We have now passed the first stream. It turns out that on

the basis of this flow, on the basis of this knowledge, on the basis of everything that we received, a little work is done on errors and analysis. And this analysis with the next stream, all this information, the entire learning process will be much more productive.

Maxim: Yes, yes, yes. You asked about the big school. Guys, in order for us to teach a large number of people, we need to build a large Center. I don't know how we will do this, but thanks to you I was able to do it faster than I would have done it myself. I have a hectare of land taken for the project just outside Voronezh. A hectare of land is located in a cottage village next to a forest, next to a lake. This year I am supplying it with a large volume of gas and a large volume of light. For what? In order to build a large school where we could educate a much larger number of people than we can now. Because the little Center that we have just made (we will definitely show it to you and take a photograph) was built partly through your gifts, partly through gifts from people who support our project, through my efforts in connection with the sale of some real estate, so that everything organize it.

But to build a big Center and a big project requires a lot of potential. And guys, when I start building and investing in this project in the spring, I definitely want to invite volunteers, guys who will be able to build this project with you. That is, I myself will personally participate, just as I participated here in the construction from the moment of laying the tiles to the moment of gluing the wallpaper and everything else. We have huge areas there, and you and I will need to cooperate together.

If you help me build this huge Center, then together with you we will be able to wean a much larger number of people. Now we can wean only 24 people a month. This is the maximum number of people who can comfortably stay with me as a guest in the Center that has been built. Comfortable learning, group dynamics are just right for twelve people. That is, a group of twelve people is very comfortable studying, very comfortable stimulating each other, very comfortable living together so as not to strain.

That's why I'm waiting for you guys. I'll tell you when I start building. Food, accommodation, I can provide everything. The main thing is that you help me lay these foundation blocks, fill it all with concrete, and build walls. If this is possible, I will be very grateful. It won't be possible, I will try with all my strength, with all my fibers of soul, to do

what I do. And I do this not only for the project, not only for someone personally, but also for all of you, because I consider every person who gets into the project to be a member of this project, that is, a member of this organization. And when you help us, you help yourself. Why? Because we are waiting for you at our place. All members of the team and the Cassiopeia project have the opportunity to participate in any projects, they can come to us, live, and undergo training on a donation basis. This is payment according to the heart.

Therefore, Zhen, thank you very much. I hope you and I have a great future ahead of us in developing a network that will help us build a large Center.

Evgeniy: Great! Thank you.

Maxim: So, we still have... Two of our people have already left. They received certificates and could not stay long. Therefore, we have the last member of the Cassiopeia team left. This is Nadeina Svetlana. Svetochka, hello again. Here is your certificate of completion, congratulations. I am very pleased to see you on our team. And I'll tell you more. Svetlana recently appeared in the project, she is our volunteer. I definitely won't tell all the secrets of volunteering in our project on the YouTube channel. I am not interested in the slavery of people, I am not interested when people begin to sacrifice themselves. I consider any team member to be my team, and with all my might, with every fiber of my soul, I support them in various ways. We come up with various projects with them so that we can volunteer harmoniously and competently. Right?

Svetlana: Yes, that's right.

Maxim: Svetlana is our administrator. Currently, she administers our Wellness Center for Physical Development. Our project is called "Health Center for Spiritual and Physical Development".

Svetlana administers the health center and keeps records at our Center. Now Svetlana will tell you a little about him. What's going on there?

Svetlana: Maxim, I wanted to tell you, but my emotions went wild after the training. I don't know, maybe we'll make a separate video about the Center, about the equipment? I would like to say about our group, about the incredible energy, about the incredible processes that took place during training. I thank the Universe, I thank God, I thank the Higher Powers that I had this opportunity.

By following our hearts, we get to where we need to be. Maxim and Irina are incredible people who created this. I believe this is for the benefit of many people. For the benefit, I am not afraid to say, of the entire human race on planet Earth. Perhaps even these vibrations are coming out. But they really come out because communicating with our space friends is worth a lot. It is incredible to spend time in this Center. Exactly this week. So many insights, discoveries, practices! So much Love, Light, so much energy, so much harmony.

I think that we still have to try to earn it, probably through more than one incarnation, in order to come to what we have all come to here. We were able to participate in this. I have the greatest gratitude to the organizers - Maxim, Irina. Without them none of this could have happened. And to our curators - the curators of the Center, our curators, the entire Spiritual world. There are not enough words, not enough emotions. There is only love and gratitude. I want to be filled with these energies, I want to share this with people, I want there to be bright, conscious people around me.

We invite everyone to our Center for training, we also invite you to the Wellness Center, because the equipment and methods are unique. These are our Russian developments, but truly unique. I won't talk now.

Maxim: Let's make a separate video. I see you cover everything with energy. You made me feel hot.

Svetlana: Yes, yes.

Maxim: Guys, we do not advertise ourselves in any way, we talk about who we are. We will continue to tell you how we are developing, how we are growing, how we strive to help you.

And thank you very much for coming. Because when you arrived, I somehow felt better. I understand that now there is someone to supervise the wellness direction in our Center for Spiritual Development.

Svetlana: I am very glad that I am participating. I'm very happy to help. I will do everything that depends on me, everything possible, even more. I'm very happy. Thank you.

Maxim: You see, even someone felt hot from you.

55:55 Cassiopeia projects: Cosmohealing, Meditations, Gihor School of Cosmoenergetics. Contacts of the Wellness Center.

Maxim: Of course, we are happy in our activities. Why? Because when you are engaged in realizing yourself as people, and you realize not only yourself, but also let other people realize themselves, this, of course, energizes. The endorphins are off the charts, and the project itself is very interesting, and the structure of the project is very interesting.

Guys, I thank everyone who helps our project. All details to help the project are below under this video. Participate in the Cosmohealing project. This Intergalactic Medical Service helps you build your energies and teaches you to engage in self-healing. Participate in the Meditation project, take part in the project of the Gihor School of Cosmoenergy. The “Synergy” school of cosmoenergy was included in our “Cassiopeia” project, for which I am very grateful to the wonderful master Ivan Yonten, who headed this school and who carries knowledge on the same structure as the “Cassiopeia” project. And the most interesting thing, the most important thing, guys, is that we are ready to harmonize, ready to unite with any structures, with any schools. We have no competitors. Why? Because we don’t create them for ourselves. We are ready to grow and develop with you. We are ready to receive and give feedback.

I am ready to personally work with my ego in order to further build and harmonize with you. And it doesn’t matter how many subscribers we

have, it doesn’t matter how much money we raised. We are ready to grow and develop together, because the main task of the project is to bring knowledge, this is the path to the Light of true Love, the path to harmonization, to the possibility of uniting all contactees on the planet.

I'll tell you a little secret. Guys, you are all contactees. Someone just forgot about it, someone doesn’t know about it, someone fell into materialism, someone lives in the lower three chakras. They are called biorobots. These are the people who live only on material needs, and much, much more. So guys, wake up and get healthy. All the projects we have are aimed precisely at this. We are ready to harmonize and unite not only with esotericists and energy practitioners, but also with other religious faiths.

I understand that I have aimed too high, but our concept does not contradict any religion. We are trying to harmonize, trying to explain from our point of view, from our side - what is it? And we are ready to make contact and dialogue with different religious groups and denominations. We are against the creation of sects for control, subordination and much more, that is, we will comply with the laws of our state. I adhere to the policy that the state has a ruler, and the ruler is chosen by the people, and accordingly the ruler is the dignity of his people. And if you want to change something in the environment in which you are, first of all you must change yourself. If you learn to change yourself and accept all the changes that happen to you with love, and continue to give this same love, continue to bring it to people, then we will be able to wake up with you all together, as they say.

I watched the program. "Go to hell" is it called? Yes, it's called "Going to Hell." When you ask a person: what does it mean to wake up? Waking up means opening and closing your eyes. Waking up is not only about opening your eyes, it is also about entering a different level of awareness. Awareness of perception of who you are, what you are, where you are and what you are for?

Guys, thank you so much for your support. Many thanks to all of you who came, trusted our project, and participated in this project. When we open a larger school, we will be able to accommodate a large number of students and teach on the same structure that we currently teach on.

Irina: Yes, of course, we will give the floor to the curators.

Maxim: Thank you very much. We will shoot a video separately.

Regarding registration at the Wellness Center, I'll tell you a little secret. We will provide a link under this video, a phone number where you can call Svetlana and find out what kind of Center it is, what testing we do, and what health procedures exist in our Center. I'm leaving you, Irishenka.

01:00:41 About opening branches, about helping the Cassiopeia project.

Irina: Yes, Maxim said very important information. He answered all the questions and explained everything in detail. You write: "Why don't the curators speak?" Because if Maxim misses something and doesn't explain how to call and where the links will be, then he will have to write 20 times. So he decided to do it right away. It's been a year and a half, even more; in April it will be 2 years since we met him and started this project.

Therefore, he is already a very experienced leader in representing contactees. Moreover, as he said, we are all contactees. And he too, just like any of you. But there are conscious contactees, and there are unconscious contactees. His contact is very well realized, he understands who is next to him. I've already talked about this. He can even show in the Astral where and who came, and what he looks like.

Maxim: But I have completely different tasks, guys. You will not believe. I now understand why contactees cannot build a center themselves, because they spend all their time on contact. I'm trying not to develop contacting abilities and features in myself now. And I'm trying to enter into complete harmonization in order to organize these centers so that you, together with Irina and with conscious people like you, can grow and develop in these centers.

Irina: Thank you very much for your congratulations on the school graduates, I thank you.

Now about the help. I read that a lot of people want to help, they write who is ready to open a branch in which city, who is ready to help in the construction of the center. Thank you very much. Thank you! Please email all suggestions to Maxim.

Maxim: I will also leave the email to which you need to write proposals under this video.

Irina: Yes, good.

Maxim: Now I need to write down what I should leave under this video. I'll turn away now, and like a fish, as always.

01:03:10 Review by curator LiShioni about the first season of the Cassiopeia school. First stage of education.

Irina: Now, what do our curators say about this week of training. They were next to us all the time, both my curators and Maxima, the curators of our Cassiopeia project. They came every day. They came to me, other Center specialists, and our students. Their own supervisors also helped set up contacts for them. They were very happy that their students had made contact with their Higher Self and could now consciously establish contact with them.

The plasmoids with whom we communicated in the forest were very glad that we came and addressed them with questions. Our curators are always happy to receive our attention, because they always have something to tell us. They also care about attention, they also care about the Light of our Love, just as we care about theirs. This is an interchange in the Single Stream of Light from our Heavenly Father.

Now LiScioni says: "I was there throughout the training. I am very pleased with the results of the level that the students have achieved. At what level in understanding the meaning of life, setting up a spiritual channel with the Higher Self were they a week ago, and now they are doing this more consciously. I believe that everyone to whom Maxim has now issued a certificate is ready to work with people and connect them with their Higher Self."

Maxim: The first stage means that the main task of the training project is acquaintance with the Higher Self, this is the opportunity to take another person to the Higher Self and the possibility of astral travel. This is the first stage of training. There will be further stages of training, but these stages will only occur when a large Center is opened. With this Center we will not create a school, but we will create an entire research institute. I will invite scientists, I will invite physicists, mathematicians, chemists, biologists. Why? Because our interstellar friends give us very interesting information, which can be studied and interesting projects can be developed on it. And many many others. Therefore, the first step is a trip to the Higher Self, the opportunity to lead to the Higher Self and the possibility of conscious astral travel.

01:06:12 Appeal to critics who disagree with the activities of the Cassiopeia project.

Irina: I'll see, they write about the removed (participants) from the chat. I want to say a few words. Please, I am contacting you, if you feel that our project or our words, or any of our energies, actions cause you some kind of negativity, I ask that if you do not agree with our activities in any way, then express it in a polite, correct form, without indicating personality. For example, calling people you don't know smart. This, first of all, characterizes yourself. Because a person who believes in something, firstly, has every right to do so. And secondly, this does not mean that a person who believes in the Spiritual world, that his intelligence is in some way lower than that of someone who does not believe.

Therefore, if you want to freely express your opinion on our channel, then I ask for your criticism, your disagreement, of course, you have the right to do this, to write in a correct form. What exactly is the correct form? In order to understand what the correct form is, please imagine that you have your own YouTube channel where you post information. And how would you like a person who disagrees with you to write this to you? Imagine yourself in our place and in the place of all the administrators of our YouTube channel.

Maxim: Guys, I understand perfectly well that people who are not in the subject come to our channel. To these people who are not in the know, I want to say: Guys, find another channel for yourself. If you just want to show yourself here, then at least do it in the correct form.

That's why I hug everyone, guys. Thank you so much for your support.

When I start building a large Center to train you all, I will definitely tell you. Plus, I'm now processing the applications and questionnaires that I received. And I will give you all feedback in the best possible form.

Of course, Irina checks the energy form of every person, and not only Irina.

01:08:31 How can a person attract a low vibrational entity?

Irina: I read Vladimir's message. He wrote about Svetlana that he saw her plasmoid channel. She has it, I know about it. He called it a funnel and so on. Yes, she has a plasmoid channel. I know, I saw him. And she knows about him, and establishes contact with her curators. You see it as a funnel, I see it differently, and it all depends on your perception. But I know about this channel.

Maxim: I don't want to interrupt you, Irin, but in any case, you attract low vibrational entities with your low vibrations.

Irina: Yes. She has high vibrations.

Maxim: If you want to know, will our students attract low vibrational entities? Even we don't know about it. Everything will depend on their level of conscious perception and on their level of vibrations that they will emit. But in our project we always talk about this. We always tell what low vibrations are, what high vibrations are, we test people. We test not only with the help of Irina and with the help of our interstellar friends. We have new equipment that can check your energy information structure, your etheric fields. These fields help to customize and harmonize.

Guys, bye everyone. We are waiting for you to visit us in the Wellness Center, because for one week we have training with a guest at my place. The next week after training we have a recreational week. That is, all project volunteers, all project contactees and people who want to come try new equipment can come to visit me this next week, at our

Center.

Irina: Where to write and contact? There are phone numbers of administrators under the video.

Maxim: I will leave everything under the video after we finish the broadcast. I can’t do this during the broadcast, guys, I just don’t have the blanks to write.

Irina: Goodbye, we are waiting for you.

Maxim: And please click like, I beg you. A lot of people will see us then. Just click like and that's it. And you can even click to share on your social networks. Guys, everyone was hugged. Bye everyone. Thanks a lot. See you again!!!

Broadcast February 15, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

Students of the 1st season of training:

Svetlana Slepova;

Olga Semenova;

Alexander Polozkov;

Maria Vasina;

Elena Tkach;

Elena Kuznetsova;

Alexander Degtev;

Tatiana Derbeneva (Alleyya);

Evgeny Vyalkov;

Svetlana Nadeina.

#217 Answers to the most provocative questions from viewers.

---

https://blog.cassiopeia.center/otvety-na-samye-provokacionnye-voprosy-zritelej
https://www.youtube.com/watch?v=Zr5aEeVz3-U

00:01 Presentation of conference participants.

Maxim: Dear friends, hello everyone! Attempt number 2 to start the broadcast.

Irina: Hello! How can you hear us?

Maxim: How can you hear us now? So, a big hello to everyone! Anapa, greetings! Good evening!

Irina: Fine.

Maxim: Yes, excellent sound, you can hear everything. Our sound seems good. Everything is fine, great. Then we will continue broadcasting from this camera. You can hear it very well.

We have a very interesting topic today. Today we have answers to all your provocative questions. You can ask absolutely any questions that come to your mind. And I will try to select the most provocative questions. That's the whole point of this broadcast. Irina, who is with us today?

Irina: Hello again, dear friends, from all cities and countries of our beautiful planet. Today our curators MidgasKaus from the planet Esler and LiShioni from the planet Shimor are present with us. They are with us almost constantly, so they are the ones who came to answer your most provocative questions. We are really ready for frank answers to them, you can ask any question, and we will not remove or censor anything, you can ask whatever you want.

01:54 The taking of vital energy from earthlings by the beetle civilization is a rumor. Xenophobia of earthlings. About Igor Mezentsev.

Maxim: Just a question: “Illegal taking of life energy from 5 million earthlings! The beetle civilization, part of the Interstellar Union, was illegally taking the life force from 5 million earthlings without their consent. Is it true?" Irina, it was the beetles that attacked... Really?

Irina: If only the Colorado ones, but they don’t take energy away from people. Although people have the same thing: how many nerves, weed...

Maxim: MidgasKaus, LiShioni, please tell us how it is even possible that beetles attacked the Earth and it was 5 million earthlings who

were deprived of their energy?

Irina: MidgasKaus says that such rumors, such visions in contacts among contactees are possible only because of the xenophobia of earthlings who are unfamiliar with the insectoid form of life. Those people who are prone to fear find it easier to believe in the malicious deeds of life forms that are unfamiliar to them, such as reptilians, insectoids, beetles, spiders, etc.

An unusual form of life makes you suspicious of its malicious intent. But this is taken advantage of by representatives of plasmoid civilizations, who take on the image of the most terrible creature for such people, and take away life energy, or it would be more correct to say, “exchange” life energy with such people, absorbing their energy of fear and condemnation of these beetles, in return they give energy of hostility and aggression.

Maxim: **“** About beetles - this is information from Igor Mezentsev, your employee.”

Irina: Yes, I know.

Maxim: Igor Mezentsev was in our project experimentally, at the last moment we decided to slightly suspend cooperation with their project, because we did not have harmonized information, and they simply did not want to harmonize with us further...

Irina: I already talked to him, and in a conversation with me, he personally told me that contactees told him about this.

Maxim: Yes, he didn’t talk about beetles himself.

Irina: He is familiar with contactees, but I explained to him the position of the Interstellar Union, of course, I explained it more than once. In a conversation with me, he agreed with this, perhaps for show, but he agreed.

Maxim: Igor, I really respect your work and what you do... It's quite serious research work, but I'll just ask you to be more careful with such information messages. Why? Because, firstly, they incite earthlings against aliens, and secondly, such words, which are not supported by anything, may just be the internal fears of your sleeper, who "went" and saw beetles there.

So, let's continue further. What do you know about contactee Evgenia Dolgorukova. Do you know something? I, too, have never heard of Evgenia Dolgorukova. You'll excuse us if we suddenly don't know you, because we haven't actually studied other contactees.

Irina: Look, these are the signs...

05:49 Time travel in the physical world.

Maxim: Why is it possible to incarnate in the physical world in another time, but it is impossible to travel to another time?

Irina: Because in the Spiritual world the very concept of time does not exist, eternity exists in it, and in the material world time exists as a continuous flow of changes in all particles and energies entering the space of the material world.

Why is time travel impossible in physical space? Because every moment the material Universe changes, and it is impossible to put all the particles and energies in the same position in which they were even a second ago.

Maxim: Guys, it's because of the bright light, because of the camera standing very close... Irina looks very good, I see her, she's all glowing with heat, so what you say that she's "pale" is, probably the camera.

07:01 Crystal of consciousness. The pineal gland is an instrument of human consciousness.

Maxim: They ask you to tell us about the crystal of consciousness

located in our brain and with age it enlarges to 2 millimeters.

Irina: MidgasKaus says that crystalline formations, similar to quartz formations, are in the endocrine gland, which is located in the middle of the brain - the “epiphysis” or the so-called pineal gland. Why are these called consciousness crystals? Because the research of your scientists shows that the pituitary gland plays a huge role in your emotional life, in the cycles of sleep and wakefulness and in other processes of brain activity, which, according to your scientists, determines the emergence of your consciousness and the processes occurring in it.

According to the teachings of the Interstellar Union, the pineal gland is one of the instruments of the Spirit, with the help of which it controls the body, releases special hormones, regulates their quantity and influences the spiritual visions of a person. It is located right in the middle of the brain. It is one of the instruments of consciousness, which is why it is called a crystal of consciousness.

Maxim: That is, this is a really existing structure that is being formed there.

Irina: He shows me grains of sand, they are inside this gland.

08:50 Galaxy News. Announcement of the graduation of students from the Cassiopeia Center. Preparation of the planet Arkhin for hybrids of representatives of the planets Tashig and Burkhad. Appearance of hybrids.

Maxim: Interesting. Irina, we started the broadcast and completely missed the point of the Galaxy news.

Irina: Ah... Yes!

Maxim: Galaxy News. They were completely forgotten because our broadcast was interrupted. MidgasCaus, LiSioni, what is the latest interesting news in the Galaxy?

Irina: We have some news. LiScioni says: “I returned to my planet - to Shimor, to my physical body, and there I announced to our news organizations, which organize news across Shimor and throughout the Galaxy, that the graduation of students had begun in Cassiopeia.” This, by the way, was one of the main news of the Galaxy.

Maxim: Made it into the Galaxy news!

Irina: Three days ago LiSioni reported this in their language, he translated it. This was news related to Earth. Because I, as a researcher, as a scientist who works with this civilization, translated into Shimor - one of the galactic languages that are used. I translated that that Center, founded by contactees, has produced students who will teach others to communicate with their consciousness, passing on to them, I will especially emphasize, the science of the teachings of the Interstellar Union.

Maxim: And the second?

Irina: And the second news, which is not related to your planet: near the Red Dwarf of the constellation Taurus, about 1500 light years from the Sun, there is the planet Arkhin, which was terraformed by representatives of the planet Burkhad, but not for themselves, but for representatives of their hybrids with representatives of the planet Tashig. Because the Tashigans have joint hybrids with the Burkhadians, at first they lived at the bases, and now there are a sufficient number of them.

Maxim: What to call them? Burgishans?

Irina: He shows me: a very tall Tashigan, but with white skin, like a Burkhadian, his facial features are more human, his head is not so wide.

Maxim: How long have they had these hybrids?

Irina: Large-scale experiments began more than 250 years ago, but first they lived on a base that was in the constellation Cygnus, and now

this planet in the constellation Taurus was terraformed for them. Their number has reached 2.5 million. And now they are being relocated from this base. Here's the news.

Maxim: I understand. They ask: how are things on the planet that was captured by biorobots? Actually, I want to share our inside news: we just launched the website.

Irina: Yes.

Maxim: And we immediately received an attack from 100 robots. Our site was taken down in the first two days; it didn't even have time to work properly. Some people still don't really like us with our structure and our website, since you organize such attacks. So what's the news from the planet where biorobots have taken over everything?

Irina: No more news was received throughout the Galaxy; they didn't hear about it, because... they didn't follow the news.

13:03 Bases in the Republic of Tyva.

Maxim: The man's button is jammed. I already see, probably, the 20th message: are there any bases in the Republic of Tyva?

Irina: LiShioni, I can't show you on the map, I don't remember it. Tyva, where is this? At least tell me the capital.

Maxim: I can open the map.

Irina: Because it's better to show him on the map so that he...

Maxim: Now I'll show you a card. Tyva Republic…

Irina: He says satellite is better...

Maxim: Satellite. Tyva. It's just above Mongolia.

Irina: Now a little closer so he can show.

Maxim: Just above Mongolia, bordering on Mongolia, Irkutsk, Abakan, Biysk.

Irina: He says: the nearest base is between the red circle and Irkutsk, closer to Baikal.

Maxim: Between the Republic of Tyva and Irkutsk, in this place.

Irina: The nearest base, but it is small and belongs to the Tashiga colony from the planet Astarankh. There are biorobots there now, and a large base is located not far from Lake Baikal, he shows me some rocks, mountains or something. It belongs to the Ashtar Sheran civilization, called Sirius.

15:00 Possibility of rebirth in another Galaxy, in a world with a different level of density. Planets Burkhad and Pikran. Constellation Ophiuchus.

Maxim: I understand. Can the Soul be reborn not in ours, but in another Galaxy?

Irina: Of course, the Soul can be reborn. Not only in another Galaxy, but also in a world with a different level of density.

Maxim: Guys, I have a big request to everyone: I want to know how interested you are in our channel. Please click like, I'll at least see how many people are watching us, and whether these live broadcasts are necessary.

So, further. "Why was another contactee told about Pikran that they flew there from the constellation Ophiuchus, and on your channel in the history of Burkhad it is written that the first intelligent race in the

Galaxy was on Burkhad?" This is probably, according to Pikran, the contactee who gave the card. Probably, he was given information that they flew from the constellation Ophiuchus.

Irina: MidgasKaus and LiShioni, the Burkhadians are not here now, say: "As far as we have studied the history of the planet Burkhad, this is the capital of the Interstellar Union, and its history is quite known in the Galaxy - we study it at school. This race was not formed on the planet Pikran itself. Perhaps the contactee had in mind or perceived the information in such a way that the Pikrans have colonies in different constellations, including Ophiuchus and the constellation Virgo; they have more than 200 colonies throughout the Galaxy.

16:44 Project for uniting contactees.

Maxim: We have a very interesting project brewing now: a project to unite contactees.

Irina: By the way, yes.

Maxim: And we are just talking about the difference in the presentation of information by different contactees. Contactors will unite and carry joint information and will be harmonized. I think that is exactly where we will describe these things. Why does one contactee present information this way, another - differently, but in fact they are talking about the same thing.

17:14 American presence on the Moon.

Maxim: So, Irina, the simplest question, many have not heard our programs. Were the Americans still on the moon?

Irina: Yes, the Americans were on the Moon in their physical body on a physical ship. They saw alien ships there, they had visual contact, without verbal contact, with representatives of the Pleiades civilization.

17:45 Preparing Venus for a new settlement. Bases on Venus.

Terraforming Venus. Changing the orbits of the planets.

Maxim: Is Venus really being prepared for a new settlement, and is the transformation now taking place at the terraforming stage?

Irina: At the completion stage...

Maxim: At the stage of completing terraforming.

Irina: LiSioni says. I haven't been to Venus for a long time, but I was there, at the base, about 4 Earth years ago, there are bases there that are located underground in a zone protected from high temperature and pressure.

Regarding terraforming. The forces of the planet Disaru are actually making attempts to cleanse the atmosphere by spraying special microbes that convert dangerous acids into harmless compounds. But this takes time, and for global terraforming it is necessary to change the orbit of Venus, move it further from the Sun. And for this we need to rebuild the entire solar system. Therefore, such a project has not yet received universal approval from the Interstellar Union.

But Disaru actively advocates for the continuation of such research. The remaining representatives of the Interstellar Union answer them that if the orbits of all the planets change, they will then have to make mass contact with the Earth, because this cannot go unnoticed by your political and military structures. This will mark the beginning of mass contact. Nevertheless, bases exist there, but the surface temperature and pressure on the surface are about 95 atmospheres - very high.

20:05 Incarnations of the Spirit of St. Nicholas the Wonderworker on Earth.

Maxim: Maxim, Irina, please tell us about Nicholas the Wonderworker, have you met him on Earth, and what level is he at? Thank you.

Yes, now St. Nicholas the Wonderworker is embodied on our planet.

We had the opportunity to communicate with part of the incarnate Spirit of St. Nicholas the Wonderworker; fortunately, he is a very adequate person, but we will not name him in any case. We agreed that we will not present this kind of information at all so as not to create idols. Why? Because every person on Earth is an individual, and let every person express himself as an individual.

Yes, he is now embodied here as part of him...

Irina: ...from level 18.

Maxim: From level 18. His Spirit had a huge number of incarnations...How many thousands of incarnations did he have?

Irina: I don't remember now... About 5,000 incarnations...

Maxim: A lot of incarnations...

Irina: That's the question. Provocative.

Maxim: Yes. How to suppress sexuality in yourself? We have already answered - there is a base in Ukraine, especially in Western Ukraine.

Tell us about the attack on Futissa. Do you know anything about the attack on Futissa?

Irina: There was no such news, the Intergalactic Federation of Light did not report this.

21:42 Where are the Greek gods from?

Maxim: What planet or civilization were the Greek gods from?

Irina: Mainly from the planets Burkhad, Futissa, from other

civilizations of the Pleiades, but there were also from Tumesout, and Tikht, and Esler, and plasmoids - Spirits of nature, Spirits of the forest, and so on, and deified priests, for example.

22:14 The reason for the aliens' refusal to provide evidence of the existence of other civilizations and the Interstellar Union.

Maxim: Why can't the Interstellar Union understand that opening up to earthlings... will only make people wake up faster. Irina, I'll say this, this is such a very slippery topic, and these are your personal arguments that people will wake up faster.

Irina: Now he will tell. The fact is that now all the conditions have been created for the process that you call to wake up, that is, to realize your spiritual nature. Several hundred years ago, conditions for such people were much more difficult: they were persecuted, they were forced to renounce their views, even depriving them of their health, property and life. And now in most countries you have created a system more or less free from totalitarianism. Contactees, prophets, mediums, esotericists and other people who are engaged in spiritual development are not so openly persecuted.

As for why the Interstellar Union won't open now. The Interstellar Union is not just a political body, like on Earth. Employees and participants of the Interstellar Union are in contact with the Spiritual world, with the highest Angels, Archangels, many of them are under supervision, that is, they have curators in the Spiritual world. Therefore, any decision of the Interstellar Union is made not only by voting, each participant in the Interstellar Union conducts voting in contact with his Angel-curator. When the question of voting on the provision of evidence arose, almost all participants in the Interstellar Union understood that mass contact would soon follow the evidence.

The refusal was because spiritual mentors from the Spiritual World unequivocally said that this was interference in the affairs of a young civilization. This is not just the presentation of information so that those who are ready will accept, and those who are not ready will remain to go through their path of material development, but this influence on the very development of civilization, and it is clearly premature. Because you have a proverb on Earth that a rider can lead a horse into a river,

but cannot force it to drink. Therefore, submitting evidence is just such a river. That is, a clear manifestation of extraterrestrial intelligence for you, but not just extraterrestrial intelligence, but intelligence that carries a spiritual message, which carries knowledge that on other stars and planets they believe in God, revere his commandments and laws, consider reincarnation to be true, and many others things. For those materialists who do not believe in this, aliens will only bring disharmony and destruction of their inner world, which will inevitably cause aggression.

26:34 How does masturbation affect a person's physical and energy levels.

Maxim: Yes, I see. After such a serious topic, the question is quite "serious". Does masturbation harm a person on an energetic and physical level? And does this reduce vibrations?

Irina: It all depends on the age of the person. Child, adult? Because they are different...

Maxim: I don't know. Well, 30 years.

Irina: MidgasKaus says that masturbation itself physically causes the release of the same hormones that are released during normal sexual intercourse. That is, physiologically this process is practically no different, especially for men. Women have their own specifics related to the psychological attitude towards the opposite sex, but by and large this does not have any consequences for the physical body.

As for energy: the fact is that, unlike sexual intercourse, masturbation causes the release of sexual energy into the astral space, not an exchange with a partner, as happens during sexual intercourse, but a release.

I want to emphasize that a person, after the act of masturbation has ended, is not able to retain this energy in himself; it still comes out of him, both in men and women. The loss of energy in itself is small, it is fully compensated by the energy that is in the human body, but that is

not the point. But it's not a matter of energy loss. The fact is that the energy that is released is charged with the feelings and thoughts of a person at that moment. Any energy is charged, as I already explained.

Since this moment is colored by positive emotional experiences, this energy is released in the form of some kind of luminous ball that goes into the Astral. Since she is highly charged with emotions, sparks seem to fly out of him. This ball becomes visible to those representatives of plasmoid civilizations who are quite far from this place. And they can be attracted to this energy. If the personal vibration of this person matches their vibrations, the plasmoids can absorb it, make it part of it, or “eat it,” as you put it. If they like this energy, then they can come to the person and provoke him to new thoughts, ideas, images and similar actions that he did in order to have a source of energy.

Does it harm a person? It is impossible to say for sure whether it is harmful or not. It all depends on the nature of the plasmoid or several plasmoids that will be attracted. They are different, as I already said, just like people. The fact is that if they provoke the release of this sexual energy through the act of masturbation (and they will call for this mentally), then later, when a person decides to find a sexual partner, plasmoids, if they are low-vibration, if they have anger, jealousy, may try not to come to terms with such a person’s choice and try to prevent him from finding a sexual partner, so as not to lose a constant source of energy. Such cases are known. Simply put, whether you masturbate or not is your choice. But if you're doing this, just be prepared for the possibility that you might have a contact in your life that you weren't expecting.

Maxim: Previously they frightened us with horror stories, but now with contact.

Irina: No, this energy is released, and it can simply dissipate, and no one will notice it, and if they notice it, they can fly in and eat it.

Maxim: In any case, this energy that you released could have been directed completely...

Irina: Yes, she could.

Maxim: ...for other more useful things. Therefore, whether speaking lowers or raises vibrations is just your attitude towards it.

Irina: It can be lowered if a person later has a feeling of guilt.

Maxim: Instead of masturbating, do normal things - study esotericism, psychology, and many other things.

Irina: MidgasCaus speaks. If you choose between promiscuity, which carries the risk of disease, as well as the risk of unwanted pregnancy, and masturbation, then, of course, the second is preferable. Any doctor will tell you this.

32:40 Are nerve cells being restored?

Maxim: Mid, please tell me, is it true that nerve cells are not restored?

Irina: Your latest scientific research shows that neurons are restored and can even form new cells and new connections.

Maxim: That's why, guys, the nerve cells are being restored.

32:56 Homosexuals, lessons for their Soul. The mission of homosexuals on the planet.

Maxim: Irina, why are there so many homosexuals among us, and what is their mission on our planet?

Irina: They have a mission not on the planet, but an individual mission of their own Spirit. A homosexual man or a homosexual woman are those Spirits who have many subconscious memories of life in a past body of a different sex. That is why they feel like a person of a different gender from the body in which they were born now.

But this is always a lesson for the Soul, a lesson in humility with one's body, accepting it as it is, and awakening in oneself that natural sexual energy that is inherent in this particular body in which one has incarnated. It is quite possible. I emphasize that now I am talking about true homosexuals, the number of whom is about 7%, almost at all times the same number.

Maxim: That is, in fact, these are people who remember their past lives as...

Irina: They don't remember that I lived, for example. And they remember about the body, but they may not know about the details at all, they may simply feel that this body is not their gender. That is, all the receptors are already configured this way, and there are no more than 7% of them in the population, and sometimes 10% - this is already a lot. I do not mean now precisely those homosexuals, the so-called pseudo-homosexuals, who can engage in full sexual intercourse, both with their own sex and with the opposite. These are people who have accustomed themselves to this here, not from their previous body... They have different lessons...

35:26 The incarnation of new Spirits on Earth, where they come from.

Maxim: I understand. A good question: where do new Spirits who have not yet incarnated come from? Do people incarnate on Earth who have never gone through a single incarnation?

Irina: Such Spirits are found, although quite rarely. They are waiting in line to be incarnated on our planet. But these are Spirits who have never incarnated in the world of humanoids. There are no Spirits embodied in the world of third density who have never incarnated in the body of a plasmoid, because according to Divine law, the first incarnation of a Spirit must take place in a world of at least 35 density levels.

Maxim: That is, before incarnating into a dense physical body, we in any case go through incarnation in subtle bodies.

Irina: To adapt to matter in general.

36:21 Qualities of earthlings that aliens laugh at.

Maxim: What qualities of earthlings do aliens laugh at?

Irina: Why are you smiling, MidgasCaus? They laugh at the question.

Maxim: Yes, what qualities of earthlings do aliens laugh at? And do they laugh at all?

Irina: He says: “We smile at the desire of many earthlings to find evidence of the Spiritual world through material means. And we also smile at the statement of materialists that people who believe in the Spiritual world are limited by their intellect in comparison with materialists. Why does this make us smile? Because, in fact, materialists also take on faith the postulates of materialism, just like those who take on faith the canons of their religions. But they themselves don’t understand this.”

Maxim: I see.

Irina: Really funny.

37:36 Energy stone in the Kaaba (Mecca).

Maxim: They ask what kind of stone is in the Kaaba, in Mecca? What kind of stone do they have that is so interesting?

Irina: Yes, we heard about him. This is a stone of earthly origin, but a particle of not a meteorite, but a stone, a mineral is placed in it - they show a white crystal, inside the stone is placed a particle of a crystal that the Tumesoutian Jabrail gave to Mohammed, and at that time the Interstellar Union allowed the transfer of gifts.

Maxim: And this is in the stone?

Irina: It was originally invested there.

Maxim: That is, with the help of alien technology, it was invested there, do I understand correctly?

Irina: Inside, not outside...

Maxim: I understand. That is, to find out, you need to break a stone in Mecca, right?

Irina: Yes. It is there inside, and it charges... It was not just a stone, it was charged in the Tumesout pyramid, in the pyramid ship, in the center of the Galaxy.

39:20 The reason for excluding ether from the periodic table.

Maxim: Interesting question. MidgasCaus probably treats you as a scientist. Why was ether removed from the periodic table? A provocative question indeed. We had ether in our periodic table, and for some reason it was removed from there. It was a zero element, if I'm not mistaken.

Irina: As far as I know, Mendeleev imagined ether not just as a supervolatile gas, but as a subtle material element. When I studied the history of your earthly science, it was written that this table was compiled in such a way that the first element was the one that reflected the idea of the energies of space.

Why was it removed? In order for only dense material elements to remain in the periodic table, starting with hydrogen. And the ether, as a hint at subtle-material energies or energy itself, was removed so that the appearance of these dense-material elements could not be explained through subtle-material structures, and then through the Spiritual world. That is, this is considered an element of materialism, an element of the victory of materialism in science.

41:05 Do aliens sing? Songs of MidgasCaus.

Maxim: MidgasKaus, they ask you: “Can you sing songs?”

Irina: “ I can,” smiles.

Maxim: What songs do you sing?

Irina: Creativity, poetry, and music are very developed at Esler. And they can sing songs. What songs does he sing? He sings about the stars, about Esler, about the Interstellar Union, about children, songs mainly about nature... He shows pictures, says: “An adequate translation is not always possible, but I can show images. For example, what fog looks like. About nebulae, how they are a reflection of the Spirit of love in my consciousness."

42:13 Project “Tree of Life”. Astro-numerology. Calculations of the Spiritual level of incarnation.

Maxim: So, thank you, Mead. Irina, they ask, what kind of “Tree of Life” project is this, and why did we create it? What is interesting about this project, or what does it reflect?

Irina: The fact is that MidgasCaus gave me the formulas of Esler numerology, which is used not only on Esler, but throughout the entire Interstellar Union. MidgasCaus said that these formulas were transmitted to their scientists from the Spiritual World by Consulting Spirits, who make calculations of incarnation plans for intelligent Spirits, taking into account material circumstances: planets, numbers, numerical codes of these numbers, etc.

Maxim: You can find out more about this project. We will leave the link under the video. For what?

Irina: What is the Tree of Life for? This is a tool for recognizing vital, generic, social tasks of embodiment and those qualities that are

included in the characteristics of the physical, astral and mental bodies, as well as recognizing these qualities that need to be harmonized to fulfill life tasks. All this is presented in the symbolic form of numbers.

Each number has a symbol, a corresponding planet. Each number and planet is characterized by spiritual, spiritual qualities. That is, the Tree of Life is compiled in order to recognize this.

All the formulas were handed over to me, we launched this project so that through it we could recognize the characteristics of incarnation. And since every plant, mineral and color on Earth also has its own numerical code, then, by using these numerical codes, you can strengthen or weaken certain qualities in yourself, influencing them indirectly through symbols.

Maxim: I see. Guys, you can see all the information about this project in the link under this video.

Irina: This is their astro-numerology.

Maxim: Yes. This is their Eslerian astro-numerology, which, in principle, applies to all incarnated intelligent Spirits.

Irina: And it was selected taking into account our alphabet, our astrology, etc.

Maxim: Irina, please tell me exactly how much spiritual levels of incarnation we still have. Meade also conveyed...

Irina: Yes.

Maxim: That is, we make calculations of the spiritual levels of incarnation. How accurately does this information convey the structure of the Spirit?

Irina: She transmits information on the condition that the name was taken from the birth certificate in the country of birth where the person was born. And the date of birth was taken from the birth certificate. It conveys the state of the Spirit at the end of the previous incarnation and at the beginning of the current one, since in the Spiritual world the level does not change.

46:12 Energy properties of photography.

Maxim: Thank you. Question: does photography take away a person's vital energy?

Irina: From whom?

Maxim: The person who is imprinted on it.

Irina: Photography doesn't take away anything. It bears the imprint of his energy, is charged with the energy of this person, especially if eyes are depicted there, through it you can determine, or rather feel the color of the aura, conduct a general diagnosis of his general auric and energy structures, physical body, and feel his mood. This energy, even without going into the astral space, can simply be viewed by a sensitive person. I taught Irina this, i.e. if we look into a person's eyes, try to feel his state and the thoughts that come to you, write down what the person feels, what his aura is, and so on. I taught her to do this.

47:22 Cassiopeia website.

Maxim: Guys, we have good news for those who don't know: we are launching a website, there will be a forum where you can chat about all interesting topics. By the way, Irina and I will also answer your questions. And there are many interesting things on our website, where you can see our subscribers, partners, volunteers, people who work with us, employees who work at Cassiopeia, who have already been trained and certified. Study it - there is a lot of information. The site is specially designed to make it easy for you to find this information. And there will be a lot of interesting things there.

48:10 Perpetual motion machine.

Maxim: Does a perpetual motion machine exist? Question for MidgasKaus.

Irina: Nothing eternal exists in the world of matter, except for the Spirit, which is embodied in it to a certain percentage.

Maxim: Is there any engine that runs for a very long time on some of its own energies? Let's say an engine that can generate electricity and runs for 50-60 years without any recharging. Are there such engines?

Irina: Of course! But they have an energy supply from outside.

Maxim: It's just that today we have the arrival of the second group of students, I'm meeting them.

Irina: We also have a lot of people here today... That's why the microphone was crackling. It's clear that the plasmoids brought them.

49:32 Date of birth of Jesus Christ.

Maxim: What is the real date of birth of Jesus Christ?

Irina: Mid-September 4th year BC.

49:43 Were the USSR cosmonauts on the Moon?

Maxim: I see. Were USSR cosmonauts on the Moon?

Irina: There is no such information in the Interstellar Union, at least there was only about the Americans. There is automatically information about automatic devices of the USSR that they took soil samples, took photographs, flew around the Moon, etc. But there was no information

about the USSR vehicles from which the Soviet cosmonauts landed.

50:18 Birthplace of the Soul.

Maxim: Is it true that the Soul is born within the radius of its previous place of death?

Irina: This happens, but not always. Depends on the purpose and task of the Soul during incarnation. She can incarnate on any planet, in any Galaxy or in general in the subtle world, in any country on this planet.

50:40 The existence of life on Mars.

Maxim: Is Mars inhabitable?

Irina: Of course. There is life on Mars. There are bases of representatives of the Interstellar Union, the Galactic Federation of Light, including the bases of Selbet - reptilians, there are bases of Disaru, Burkhada, there are their own plasmoid civilizations. There is an atmosphere, soil, and their plasmoids exist there.

51:16 Disclosure that Jesus Christ is alive.

Maxim: Why would Jesus reveal the whole truth, that he is alive, etc.?

Irina: If we ask a certain entity a question that knows about Jesus Christ, for example, Archangel Gabriel (Mirah Count) or the Mother of God Mary, there is no reason to hide this truth.

51:45 Origin of the Kyshtym dwarf Alyoshenka.

Maxim: Tell us, who was the Kyshtym dwarf Alyoshenka?

Irina: Yes, we heard this story...

Maxim: Was he a real alien?

Irina: We heard this story and believe that it was a creature of earthly origin, but it was a hybrid with an alien, that is, some kind of experiment, as a result of which it was born of a woman.

Maxim: Wow!

Irina: A female contactor. There were premature births due to genetic incompatibility. That is, this is the result of an experiment. We say this because we heard about it from other contactees, but we did not inquire in detail about whose contactee it was or what kind of experiment it was. If necessary, we will ask the Interstellar Union

Maxim: Yes, be sure to ask in order to answer it, it is asked very often.

Irina: Okay.

53:01 The monthly cycle of alien women.

Maxim: Only earthly women have periods?

Irina: No, not only earthly women have them, but also, for example, representatives of Burkhad and Disaru, but not all mammals have them, it depends on biology.

53:17 Life after death. Spiritual world.

Maxim: Is there life after death?

Irina: Yes.

Maxim: What kind of life is this, and where is it?

Irina: This is life in the Spiritual world, of which you, dear friend, are now. Your body is your instrument, thanks to which you can perceive this world with five senses, five sensations through receptors. You are the perceivers of this world, and you are not a function of the brain or any neuron in the brain. You are an immortal Spirit. After the body dies, you will leave it and go to the Spiritual world, your eternal home, from where you came here to solve your problems.

What is the Spiritual world? It is a boundless, endless world of Divine Light, which is the cause of the appearance of the material world, just as you, for example, are the cause of the appearance of your body. If you had not incarnated into him, your mother and father would not have conceived or given birth to you.

54:50 Princess of Tisul.

Maxim: Where did the Tisul princess come from, and who is she?

Irina: I remember. They believe that this is one of the rulers or priestesses of an earthly tribe that existed long before the war, maybe 200-300 thousand years before our time, when there were ancient city-states of your ancient ancestors, and there were still open contacts with aliens. She could have been in contact with aliens, but, according to the information we have, the aliens who died as a result of a war 12 thousand years ago were not buried here in such structures, but they did not have time to bury them in such coffins. They just died...

56:05 The reason for the refusal is to provide evidence of Irina's physical contact with aliens.

Maxim: Irina, here Larisa Viktorovna wrote to you a very provocative question, which for some reason you do not answer: "Why, with current technologies, are there not a single photograph of the curators with whom Irina communicates?"

Irina: Because any photograph...

Maxim: Why don't you take a camera with you to the flying saucer and

photograph aliens?

Irina: Because any photograph of an alien or a plate is evidence of physical contact. Once I have proof of physical contact, as stated by the Interstellar Union Security Service, Earth security representatives will prohibit me from further contact with aliens, take control of me and may even close our entire project so that people do not contact these aliens through me . This is roughly the answer. It is not safe.

Maxim: In general, they don't provide evidence. Photographs are one piece of evidence. We follow the rules that are given to us. And I think that those who are watching us now also follow the rules for presenting information. I think that the time has already come for us to be able to communicate openly and adequately on these topics, but we are not providing evidence. Written in the blood of contactees. So let's move on.

Irina: I asked you to imagine, if I have a photograph and it gets to journalists, what will happen? Will something happen?

Maxim: Irina, there are rules. I believe that we need to comply with them, and then we can competently harmonize and exist. By the way, we invite people from the scientific community to conferences, we are happy to see scientists who will ask us questions, and we are always ready to enter into dialogue with religious confessions, with any religious figures, teachings in order to give feedback from that information that representatives of the Interstellar Union bring to us. Therefore, write, call, there is information everywhere, mail and everything else.

Guys, it's time for us to finish. Our future students are sitting on our left side. They don't yet know where they ended up. Today I received feedback: “I thought that I would come, everything is scary here, but in fact, it’s not very scary.”

Irina: Yes, we've just arrived a little longer.

Maxim: We only have 6 or 7 people, tomorrow the remaining team will

arrive - 6 people. “Show the students.” Can we show the students? We can, right? Well, let's show - I'll show you quickly so that they believe that they exist. Here they are, they exist, everyone is sitting here, waiting. Hi all.

Irina: Great!

Maxim: I’ll leave the frame so as not to disturb you. So, guys, let’s have one last very provocative question, such that even I would be ashamed to ask it, so that my tongue wouldn’t dare to ask it, but I will ask it.

1:00:07 When did Hitler's Soul end up in the Spiritual World?

Maxim: Did Hitler shoot himself or was he hiding in Latin America?

Irina: Hitler’s soul was in the Spiritual world after 1945-1946, that is, he died in the mid-40s. “This is information from the Spiritual World,” MidgasKaus says.

Maxim: I see. This is for those people who say he was in Latin America. If you listen to how many Christs there were and where they were, you will clearly understand that there is a lot of information, and each contactee presents it in his own way.

Irina: Maybe he thought of the plasmoid as Hitler.

Maxim: Maybe.

1:00:54 Memory of smells and aromas from past incarnations.

Maxim: Can a person remember aromas and smells from past incarnations from other planets?

Irina: Subconsciously - maybe not so much as remembering... There

are people who remember images from other planets and, of course, smells - these are also certain images that arise in a person's memory.

1:01:18 Daily routine of Irina Podzorova.

Maxim: Irina, they ask you to tell me your daily routine. How is it going for you?

Irina: At 8 o'clock I get up, at 9 o'clock from Monday to Friday I go to the gym. At 10 o'clock I come home, put myself in order, have breakfast and at 11:00 I start receiving people, if this is my appointment time. At 11 o'clock I receive 2 people - until 13:00 if on Skype. If there are personal meetings, then until 14:00, then I have lunch.

At 15:00 I start seeing people again until about 18:00. Then I have a break for dinner, and at 19:00 - a conference with some of our administrators or with an outside person who asks questions on various topics to our dear interstellar friends so that these materials will later be posted on our YouTube channel.

And in the week when students come to me, I have almost the same routine, only I don't receive people, and I have classes from 11:00 from Monday to Friday. First, the theory - the first half of the day - I tell them about 3 hours, then a lunch break, then practice for 3-4 hours and rest, free time for the students so that they can rest, and for me. This is my daily routine. Sunday and Monday are my days off, but it often happens that guests come to me that I cannot receive at other times, but they urgently need help.

1:03:22 Does Irina Podzorova have telekinetic abilities?

Maxim: Irina, do you have the ability of telekinesis?

Irina: No.

Maxim: Is it possible to develop them?

Irina: Why?

Maxim: Why? To steal from a neighbor the things he is drying. So that he can move his eyes from balcony to balcony - and that's it. And there are no things on the balcony...

Irina: I am quite pleased with what God sends me through you, my dear TV viewers, through Maxim and through my interstellar friends. I am quite happy with my abilities, talents, thoughts, feelings, things that I have.

Maxim: Great. So guys, please give it a like because it will help me focus on the last question now. If we get 2000 likes, then I'll ask a couple more questions; if we don't get it, then I'll only ask 1 question.

1:04:30 The karma of the people as the totality of the personal karma of each Spirit. Why is the place of birth chosen?

Maxim: Yes. North Korea. What kind of karma do North Koreans have? Their will and freedom are completely limited. Yes, I feel like if I ask for 3000 likes, we won't leave.

Irina: The karma of any nation is determined by the totality of the personal karma of each Spirit that incarnates there. Why was this invented? In order for each Spirit, which incarnates in a certain people, to pass its lessons next to people with somewhat similar karma, but as a result of the fact that most countries of the earthly world have opened their borders for movement, a person often changes his country of residence .

But his place of birth still shows him the place where he should take his lessons. In your language, rework in yourself those qualities that brought him to this family, to this city, etc. You can ask all this from your Higher Self. And indeed, each Spirit, together with the Consulting Angels, chooses for itself the planet of birth, country, city of birth, parents, family, ancestral egregor as a whole, and so on.

1:06:18 The reason for the destruction of the Twin Towers in New York.

Maxim: Is it true that the twin towers in New York were blown up by the intelligence services?

Irina: Perhaps... (no sound) ...As if by destroyers...

Maxim: They say the sound is gone. There was no sound.

Irina: Yes?

Maxim: Yes.

Irina: Yes, plasmoid, get off the camera!

Maxim: Okay, let's do the following.

Irina: Don't cry.

Maxim: Hello? There is sound, no?

Irina: As for the USA, they turned it off. Look, it's real.

Maxim: I can hear everything. Let's have one last question. If our sound is turned off, that means it's necessary. Give it another like! And we will continue to place students on our territory.

Irina: " Repeat about the towers."

Maxim: I repeat. Is it true that the Twin Towers were blown up by the intelligence services?

Irina: Meade said that...(no sound)...Any options are possible, but for us, for all representatives of the Interstellar Union, any person or group of people, no matter what uniform they wear and no matter what documents they have, if they are going for the sake of their ideas to kill other reasonable people, to destroy their lives and the lives of their families, then for us these people are the real criminals and terrorists.

Maxim: That's it. On that great note, bye everyone, guys!

They are already sitting on the channel. All. Our site was “banned”, now they will take over the channel, as I understand it.

Guys, we hug everyone, see you all again!

Irina: That's it. Bye! See you again!

Maxim: By the way, next Sunday we will have a very interesting live broadcast. There will be a report and feedback about those who completed their studies at school. I am sure that it will be very interesting, and you will get a lot of impressions from this feedback. Guys, bye everyone! See you again!

Irina: See you again!

February 22, 2021

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world.

Video in text
March 19, 2023

#218 Structure of civilizations of the Interstellar Union. Level of spiritual development of planet Earth.

https://blog.cassiopeia.center/struktura-civilizacij-mezhzvezdnogo-soyuza
https://www.youtube.com/watch?v=wVNHsFL56Os

00:26 Welcome to the participants.

Irina: Hello, dear friends. My name is Irina Podzorova. I am a contactee with extraterrestrial civilizations, and today with us are: my curator, a representative of the planet Esler, MidgasKaus - a biologist, psychologist and specialist in alien life forms. Also present with me today are representatives of the Interstellar Union from the planet Shimor, RiihuKyuri, he is a specialist in celestial navigation and orientation in three-dimensional space.

Laur and Riihu are present here. Laur is a specialist in creating a system for setting up a ship for flight to different Star systems. Laur is one of the starship's engineers. He creates space computer programs that allow you to send a ship from one point to another.

I invited them because we will talk about civilizations, and since this is the field of celestial navigation, they will answer these questions, since stars and planetary systems are called differently in the languages of the Interstellar Union. To answer these questions, a specialist in earthly names was needed to study them. It is very difficult to understand this without knowledge of terrestrial and cosmic star maps. They will also tell you about the Interstellar Union what is within their knowledge.

Maria: Hello, dear friends. My name is Maria. I am a member of the

Cassiopeia crew. Today I will ask questions from our readers. I thank them very much for their patience and long wait and am happy to forward their questions.

03:00 Atinat and Billena are alien names for Earth.

Maria: What does the Interstellar Union call our planet?

Irina: Firstly, in the Interstellar Union several dozen languages are generally accepted. We have automatic translators from language to language, which are widespread everywhere, so there are no problems with mutual understanding. As for the traditional name for the Earth, which has taken root in the Interstellar Union, it is customary to call this planet in the language of the planet Tumesout, which was the first to participate in its discovery. In the Tumesout language the planet Earth is called Atinat.

Maria: Atinac?

Irina: Atinat. As for the Daraal language, the first curator Kirchiton, who gives all names in his own language, calls the Earth Billena.

Maria: What a beautiful name. Do they have any meaning, for example, the name Atinat?

Irina: Does Atinat have a meaning? This means a special kind of blue color, for example, blue world, planet. Billena also means something like a blue gem.

Maria: Opal.

Irina: Blue diamond or something like that.

Maria: We also call our planet blue, so the name is very similar.

Irina: This is the traditional name of your planet, because when you approach it from space on an alien ship, you can see that among the vast darkness and outer space a huge blue luminous ball grows, above which small white clouds are visible. The color is exactly blue. This picture delights all space travelers, especially those who saw it for the first time. Therefore, they immediately have an impulse to name this planet that way.

Maria: Our cosmonauts have the same associations.

Irina: Yes, of course, this is such beauty that can amaze any Spirit, no matter where it is embodied.

Maria: We completely agree.

06:03 Motto and emblem of the Interstellar Union.

Maria: Please tell me, does the Interstellar Union have an anthem, emblem and other symbols?

Irina: We don't have an anthem, but a motto.

Maria: Interesting to know.

Irina: If roughly translated into Russian, it means: "All the rudiments of reason in any of these worlds are manifestations of the Divine mind. All aspirations of the multiple worlds of the Interstellar Union are a manifestation of the Divine will of embodied entities, the Divine light." They further list: "Reason, will, light, knowledge, the desire for knowledge - this is a manifestation of the expanding consciousness of Divine energy, which recognizes itself in all its manifestations."

Maria: Very beautiful.

Irina: But this is a very approximate translation into Russian, as we said.

Maria: And we felt these very beautiful, sublime words. Is there some kind of emblem, a star, for example?

Irina: Representatives of the Interstellar Union show me the star.

Maria: Eight-pointed star?

Irina: Yes, now I'll count how many ends there are. It's not flat.

Maria: Volumetric.

Irina: Yes, the rays are down, up, they are wide at the base, and as they move away from the center they narrow.

Maria: Does it look like the Cassiopeia emblem we came up with?

Irina: Yes, only it is flat, and this one is three-dimensional and rotates. What does this emblem mean? It means the spread from the United Center of God's consciousness of its energy of true Love and life to all directions of the Universe, the Universe.

Maria: Very good image. OK, got it.

09:05 Maintenance of alien bases on Earth. Alien salaries.

Maria: Our readers are interested: how much does it cost to maintain your databases?

Irina: How much do workers get paid, and how many such payments are needed to pay rent, do they understand correctly?

Maria: Yes.

Irina: For example, workers receive MidgasCaus salaries.

Maria: Yes, very interesting.

Irina: How much work do you need to work to pay, for example, for the rent of the Shimor base? He says that if the government sends its researchers to another site, then it is not the researcher himself who pays, but the government. How much of your salary will the government pay for you to explore there? Yes, in terms of an earthly month.

Maria: Yes, 30 days.

Irina: If you rent, for example, 30 Earth days. Laur knows how much, because Shimorians very rarely rent... Laur heard how much it costs to rent the Burkhad base. Meade tells me to explore alone for 30 days at a Burkhad base like the one in Crimea, my government must pay 178-180% of my earthly salary.

Maria: Period?

Irina: Yes, for the same month.

Maria: Yes, inexpensive, truly symbolic.

Irina: As for civilizations not included in the Interstellar Union, this fee could be about 350%. That's what they say. There they also have robots, biorobots, devices, all of this is supported by electricity, not earthly electricity, but as a type of energy of the Earth, which can be taken, for example, by their special device from the heat of the earth.

Maria: That is, they do not connect to our power plants, but use...

Irina: There are enough of the same radioactive elements in your Earth, from which energy can be extracted very efficiently, thereby reducing radiation in your own earth’s crust.

Maria: Great.

11:53 Legislation of the Interstellar Union. Arbitrage practice. Crime, court.

Maria: Also interested in what the legal rules or laws of the Interstellar Union are called?

Irina: MidgasKaus says: “I know that there are laws that may be very similar to the legislative acts of your Civil Code, Criminal Code and so on. As for Criminal Law, translated into Russian, we have a rule that Besides this, as you said, the Criminal Code, there are also rules for the security service of the Interstellar Union, which are developing the very tactics of restrictive actions against criminals.

That is, the rules, laws, articles of the laws of the Criminal Law of the Interstellar Union take into account, for example, the dependence of the period of restriction on the rights of freedom. For example, placing criminals on the planet depending on this period, and not only on a specific crime or the number of victims of this crime, but also depending on the reasons that led to this crime. We do not have a separate judge like you, who applies the same article to everyone equally.

In our country, it is not the judge, but the assembly that determines the fate of the criminal. This is not called a court, only, in fact, a court. Several humanoids participate in the meeting on equal terms, and they can be from different planets. There will definitely be someone from the criminal’s home planet, and humanoids independent of him, perhaps even more than one. There will certainly be representatives of those who suffered from his crime, or they themselves will be part of those who determine his fate. There will definitely be someone from the family or close friends or circle of this criminal. And there will definitely be criminal psychologists who determine why he did this, who contact the Spiritual world to determine the reason for his crime. Those who conducted the investigation."

Maria: Psychics.

Irina: Yes, they contact the mentors of this humanoid. They find out why he lowered his vibrations so much, what happened. This will all be announced at the meeting.

They all make a decision together. It is always individual, because they see the cause of the crime and what needs to be done to correct it.

Law enforcement practice in the Interstellar Union is not only not systematized, but it is not formalized, like yours, by separate legislative acts that must be implemented, regardless of the reason that led him to this crime. In our country, it is adapted not for punishment, not for revenge for a crime on the part of society.

Maria: Not punitive.

Irina: It is adapted to help someone who has broken the law to raise their vibrations and be able to work on themselves while their rights are being restricted.

Maria: Yes, we still have a lot to learn, a lot to grow in. Maybe it would be nice for us to have some excerpts from this law?

16:19 Punishments for killing a humanoid in MS. Corrective measures.

Irina: It is individual for them. Tell me, how much do they give for killing your humanoid, not an earthly person? We have from 5 to 15 years, although also more or less individually. Not everyone is given 10 or 15 or 6 years, namely individually.

Maria: Sometimes it happens for life.

Irina: Yes, I mean that there is a lower limit, and there is an upper limit for killing one person. How much can you have as a lower limit, and how much can there be an upper limit for murder, for removing a rational Spirit from the incarnation.

Maria: We have a gradation with reasons. If there was an unintentional murder or a state of passion in an altered consciousness, then this is a more lenient punishment than if a person killed deliberately, especially cruelly and maybe more than once, or maybe for life.

Irina: Mead says that this is not such a simple question, lower limit, upper limit. Maybe even for one murder, life imprisonment on the planet of criminals. Or maybe, if the murder was committed under certain circumstances, which will be considered, and it will be clear that he can correct this reason in his Soul, eradicate this negativity, then he will be given less, for example, one cannot say 1 or 2 years, or 10 years . He is always given enough time to process this negative block in himself.

Maria: I think it depends on the lifespan of that humanoid.

Irina: Yes, it depends on the duration. Again, if he takes part in this trial, and representatives of the relatives of the murdered man take part, then they will have the right, looking him straight in the eyes, to ask the question: “Why did you do this?” Much will depend on the answers he gives, that is, how much he can explain it all.

Maria: Do they have lawyers?

Irina: Like you: prosecutor, lawyer, judge, we don’t have a system where one side speaks towards the prosecution, the other towards the defense, and the judge decides whose to choose. This should be a formal approach.

With us, any of the circle of beings who are judges can speak out either for the restriction or against it, and he can change his opinion. This is finally decided by popular vote.

Maria: A very reasonable system, I am more and more convinced that we have a lot to learn and a reason to strive to get into the Interstellar Union.

19:51 Galaxies within the Interstellar Union.

Maria: Please tell me how many galaxies are known in the Interstellar Union, how many galaxies have you already studied?

Irina: More than 700 thousand galaxies.

Maria: 700 thousand galaxies.

20:07 Types of gradations and systematization of civilizations in MS.

Maria: Tell me, what gradations of civilizations exist in the Interstellar Union, for example, by vibrations, by spirituality? You told us that there is a 30-level gradation in technology. Earth is on the twelfth. Do you somehow systematize civilizations?

Irina: Yes, these are practical gradations; they exist, probably, for any scientist or any group of scientists who, at one or another institute of the Interstellar Union, study various civilizations.

There is a gradation along the technical path of development. What is on the twelfth level is on a 30-level scale. In this case, each level describes a specific technical system. For example, on this scale, civilizations up to level 12 are characterized by the use of nuclear weapons, space flights, and so on, but on another scale it can be level 30 or 6.

In fact, there are many developers of such scales; we do not have one generally accepted one. When discovering a new planet and when working with it, we pay attention not only to technology, to the technical or social system, we evaluate everything together. We describe this planet, what kind of system it has or whether there are many of them there, whether it is in a state of war, and so on.

Many scientists begin to describe the planet in non-scientific language, but figuratively.

22:11 Spiritual level of the Earth. Vibrations of the Earth's egregors. From what spiritual levels do they incarnate on Earth?

Maria: It's interesting to know at what level on the spiritual-social, spiritual-social scale is our planet?

Irina: Since so many civilizations visit the Earth in astral bodies, that is, they pass through the noosphere of the Earth, through the astral sphere, it is customary for them to measure these energies, which are located in astral spaces, by the level of vibration. For example, what percentage of egregors are located in the lower astral? What is the percentage of energy egregorial components in the average astral plane and how much is higher? Like that.

This figure varies, but for the last 70 years of the Earth it has been fairly stable. If you are interested in the figure, then Mead will tell you now.

Maria: Very interested, I think.

Irina: He says that about 15% of earthly egregors are on the 1st to 3rd floors. This is the lowest astral. About 57-62% are on average from levels 4 to 6, fourth, fifth, sixth. On the 7th, this is the highest astral, which passes into the world of disembodied Spirits, where there is a transition, there are about 17-20% of egregors.

Maria: It turns out that there are slightly more highly spiritual egregors than the low spiritual 15%.

Irina: Yes, there is a slight advantage. This indicates that you are above average. The predominance over both of them fully reflects the levels of the Spirits who most often incarnate here. Most often, Spirits from the 6th to the 15th level incarnate on Earth.

Maria: From the 7th to the 15th.

Irina: No, it is from the 6th level that people incarnate here more often.

Maria: The sixth one also often incarnates?

Irina: From the 6th to the 15th levels they are most often incarnated. As for the 1st to 5th and 16th to 24th levels, they are incarnated, but less often.

25:22 Quantum transition of the Earth. Consequences.

Maria: There is an opinion that now many high light Souls are coming to help the planet, civilization in the quantum transition with an increase in vibrations.

Irina: Every year your quantum transition will accelerate until all people move to a new level of vibrations, which corresponds to conscious life in the Light, but at the same time physically you will remain the same.

You will also be born and die physically. But at the same time, even while in the body, you will feel like eternal beings. And that's all.

Maria: Great.

Irina: The body itself will contribute to this, because it will also increase the level of its vibrations.

Maria: Accordingly, life expectancy may increase.

Irina: Yes, naturally, when the vibrations of the Earth increase. They will gradually increase for everyone, and those who cannot go through this transition will simply be taken out of incarnations in different ways. And only those who are ready to go through will be sent to incarnate, but this does not mean that there will be no low-vibration Spirits.

Those low-vibration Spirits who are ready for this transition will be sent for incarnation. But, naturally, during the process of incarnation they can change their minds; this is their free will. They will be ready, but they may not take advantage of their readiness.

Maria: Thank you. Yes, we feel and notice that those people who have begun to wake up, they see what changes are taking place. Our "Cassiopeia" is such a bright sign that a lot of people are waking up and starting to take an interest in their spiritual development.

27:34 What are the main disagreements in the Interstellar Union and the Galactic Federation of Light?

Maria: Please tell me what are the main disagreements in the Interstellar Union and the Galactic Federation of Light on the issue of unifying civilizations, and why they cannot unite?

Irina: The main differences are the policy of non-interference in the affairs of young races, not just Earth. There are such civilizations in the Pleiades and in other star clusters: in the constellation Orion, in the constellation Ursa Major. There are many civilizations that did not enter the Interstellar Union. Also in the constellation Cassiopeia. The Galactic Federation of Light insists on more active participation in the affairs of these races, even to the point of overthrowing politicians they dislike in various ways, including, to put it mildly, not very humane ones. The Interstellar Union believes that the karma of the common national egregor is absolutely not taken into account.

The Interstellar Union also had a history of such relations with young races. It counts more than 20 attempts at such interventions in the affairs of young races, and this did not lead to anything good, to progress, to the development of civilizations. Ultimately, they never became full members of the Interstellar Union. This is the first disagreement.

The second disagreement is the disagreement over the policies of Tashig and its colonies, actively supported by Selbet, for example, in the study of genetic hybrids, the hybridization of various experiments on artificial intelligence and its connection with a living humanoid

organism. Various scientific communities and institutions are very active in Tashig, Selbet and their colonies. They are actively criticized by our friends from the Galactic Federation of Light, allegedly for departing from the Divine essence of love. But the Interstellar Union gives complete freedom to those researchers who study the material world, provided that participation remains voluntary.

Maria: Free will.

Irina: Because we believe that representatives of the political community have no right to somehow influence the study of the laws of the Universe. This limits the horizons of knowledge, the desire for knowledge among our youth and ultimately brings more harm than good. Interesting.

Maria: Very interesting, because the Galactic Federation of Light has contactees, channelers who transmit information.

Irina: I can imagine what these contactees will write. They will watch. I welcome all GFS contactees and assure you that everyone has the right to their opinion. The main thing is to remember that we are all one in the Light of our creator God.

Maria: It's like we, on our planet, have different parties with different beliefs, and they can even be members of the same family.

Irina: And the further difference is that the GFS also includes plasmoid civilizations, and the MS fundamentally decided to include only humanoid civilizations due to too great a difference in psychology, psychotypes and methods of perception.

Maria: Apparently, the GFS accepts humanoid civilizations.

Irina: Yes, there are humanoid and plasmoid civilizations there.

Maria: Yes, 218 civilizations, if my memory serves me correctly, which are members of both communities.

Irina: Yes, every civilization, naturally, has the right to be a member of both, if it follows the rules of the MS. But not plasmoid, but humanoid civilizations.

Maria: Please tell me, do low-vibration and destructive civilizations have the same associations?

Irina: Someone sighed. Can you even sigh in the astral plane? By the way, LiScioni has arrived.

Maria: LiShioni, I greet you.

Irina: One of the Shimorites has already left us; he needs to go to work. Laur, LiShioni and MidgasKaus stayed with us. Yes, LiScioni says that he is exploring the issue of low-vibration plasmoids together with Mead. They explore, including the astral and plasmoid worlds, including low vibration ones.

34:22 The mystery of the discovery of gravitational engines. Gravity beacons. Low vibration civilizations. Intergalactic Security System. Types of movement in space.

Maria: Do low-vibration humanoid civilizations have their own associations, like the Interstellar Union?

Irina: Do you mean those who are not accepted?

Maria: Yes, obviously not accepted. But they are at a fairly high technological level of development, those that are also uniting.

Irina: They have smaller associations, but usually they do not go beyond several nearby Star systems, and this is at best. Because they don't have the technology that would allow them to use gravity engines. They have not yet come to this discovery. The secret of this discovery belongs to the Interstellar Union. We share it only if we join the MS and the GFS, since its main planet Futissa, the Burkhada

colony, naturally took this technology with it. And he also shares it with all the humanoid civilizations that have entered there.

The decision about a gravitational engine is not so obvious, especially since those gravitational beacons that are located throughout the Galaxy, and which allow you to correctly exit jumps, they are tuned only to ships of the GFS, MS and ships from other galaxies that have received a special marking that these lighthouses notice them.

This is done for security reasons. If some low-vibration world discovers the theory of very fast movements around the Galaxy, so that they cannot use our gravity beacons and fly to another star system unexpectedly. Then they will have to invent their own gravity beacons and use them. It will take some time for us to notice this activity.

Maria: I see. That is, there are no aggressive humanoid civilizations in our environment that could attack us.

Irina: There are many other principles of movement in space. They are slower, for example, the same photon engines, ion engines, and so on, which use the release from the free energy of the vacuum. Intergalactic ships convert the free energy of vacuum into kinetic energy and thus accelerate. They are more difficult to build, the release of this energy requires a large power of its plasma field, and they are easy to notice. They don't need gravity beacons, there are no jumps.

Maria: Are you keeping an eye on them, and they won't get close to us undetected?

Irina: The MS also has bases on the outer approaches to the Solar System. Including the ships of Ashtar Sheran, which can go beyond the Solar System, and can also return and be near the Solar System. Bases on the planets and on the satellites of the outer planets of the gas giants, and on the Moon, and all the way to the Earth, are all equipped with special equipment that will notify you of the approach of an unfamiliar ship.

Maria: Everything is very good there.

38:51 Social system on the asteroid Ceres. Bases on an asteroid. Planet Laurnha.

Maria: Please tell me what is the social system like on the asteroid Ceres?

Irina: Neither MidgasCaus, nor LiShioni, nor Laur were there. But, based on the fact that there is no life on asteroids due to the absence of an atmosphere, the almost complete absence of an atmosphere, to be precise, naturally, there is no independent humanoid life there. As for bases, there were bases on Ceres for the planet Laurnha. These are creatures that glow in the dark; their skin contains a lot of phosphorus. They also flew to Earth, but their last visit was about 40 years ago. Laurnhas look like humans, but at the same time they have six limbs, like insects, and glow. Their faces are like people's, only elongated and greenish in color. They flew from the Scutum constellation, from the planet Laurnhi. Now they are busy studying and developing other planets. They have already studied the earth and are temporarily not flying here. And before they had a base there. As for Laurnha's contactees, if they exist, they are only astral, not physical. This should be a request to their government.

Maria: I see. In fact, the Universe is very densely populated.

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interaction with the material world;

RiihuKyuri - representative of the planet Shimor, specialist in celestial navigation, orientation in three-dimensional space;

Laur is a representative of the planet Shimor, a specialist in creating flight tuning systems, and a starship engineer.

#224 Video report on the Cassiopeia project retreat in Abkhazia Quantum transition into the New Year.

---

https://blog.cassiopeia.center/videootchet-o-retrite-kassiopei-v-abhazii
https://www.youtube.com/watch?v=NzBciMOOdBQ

00:09 Egregorial ritual.

Pop-up comment: First time. Exclusive stories from the New Year's retreat in Abkhazia.

Ivan Yonten: Celebrating the New Year, at its core, is a certain egregorial ritual, with the help of which we let go of the old and open up to the new.

00:17 Density level.

Pop-up comment: Contacts with extraterrestrial civilizations.

Irina: What density level are you from? From the eighth. What does it mean? His body is several times less dense than ours.

00:30 Source of Light, Strength, Energy.

Pop-up comment: Ivan Yonten. Master of Cosmoenergetics. School of Cosmoenergetics "Gikhor". Initiation into the Master of Cosmoenergetics.

Ivan Yonten: A source of Light, Strength, Energy appears in the chest. There is more of it. And now the entire physical body is filled with Strength, Light, Energy. There is even more energy. And even tighter. And even more powerful.

(music sounds)

00:47 First initiation into the Master of Cosmoenergetics.

Pop-up comment: Group trance immersion. Opening of cosmic energy channels. Healing energies of the Universe. The first initiation into the master of cosmoenergetics Irina Podzorova.

Ivan Yonten: We stopped at your story about your first initiation into a master of Cosmoenergetics. At the moment when you were shown the moment of the crucifixion of Jesus Christ. You saw him. And then what happened?

(music sounds)

1:28 Sound resonance therapy session.

Pop-up comment: Invited masters of sound resonance therapy with Tibetan singing bowls.

Lecture and session.

Master: This is a woman, this is a man.

1:49 Harmonizing dives.

Pop-up comment: Harmonizing immersions for retreat participants.

1:53 Lecture by Irina Podzorova.

Pop-up comment: Exclusive lecture by Irina Podzorova.

Irina: We come into this world not entirely as a blank slate, since we have gone through many incarnations. To prevent these incarnations from influencing the experience gained here, our memory is blocked. Not our entire Essence, but only the embodied part. The spirit is not fully embodied in the body. A part remains in the Spiritual World. It is called, in our interpretation, the Higher Self.

(music sounds)

Irina: What is our incarnate Spirit? The Incarnate Spirit is an immortal, intelligent, free, willful Essence.

2:30 Master class by Irina Podzorova.

Irina: I am...

Retreat participant: I am...

Pop-up comment: Training to communicate with the Higher Self. The master class is conducted by Irina Podzorova.

Irina: Who are you?

Retreat participant: Spirit.

Pop-up comment: The master class is conducted by Irina Podzorova.

Irina: You can lead to your own Spirit.

Pop-up comment: Participants' emotions from diving.

Irina: How do you feel?

Retreat participant: It's as if something enters through your hands and envelops you.

Irina: Do you like my energy?

Retreat Participant: Yes.

Irina: What is your name?

Retreat participant: Vladimir.

2:59 A set of practices.

Pop-up comment: Maxim Rusan. A complex of energy, physical and breathing practices.

Maxim Rusan: I wake up and form a constructive, positive intention with gratitude.

With gratitude to our Spirit, which gave us the opportunity to take lessons on this wonderful planet of free choice.

Three four.

The first breath is from the stomach, the second breath is from the chest. Great. All. Guys, let's applaud each other. Well done. The greatest feat you have accomplished...

3:46 Human energy structure.

Irina: You immediately began to outflow.

Participant Retreat: Yes.

Pop-up comment: Diagnosis of human energy structure.

Irina: Okay. What it is? Now.

3:55 Blocks and bindings.

Pop-up comment: Identifying and removing blocks and anchors.

Irina: You have enough vitality.

(music sounds)

Retreat participant: Irochka, dear, how I love you. Thank you so much.

Irina: Thank you for your feelings.

4:09 Retreat Conference.

Pop-up comment: Conference with representatives of the Interstellar Union. Planet Shimor. Planet Esler. Planet Burhad.

Irina: Today the conference will be attended by: a representative of

the plasmoid civilization of the 46th density level Agni, Archangel Gabriel and our curators: MidgasKaus from the planet Esler, biologist, psychologist and LiShioni from the planet Shimor, a specialist in astral interactions.

4:28 Training in fire magic.

Maxim: Now, when we stand and look at the fire, in our mental images we attract the Spirits of fire.

Pop-up comment: Training in working with fire energy.

Retreat participants: Aum Sri Agni Surya Jaya Ram.

4:40 Initiation into a master of Cosmoenergetics.

Pop-up comment: Second initiation into the master of Cosmoenergetics.

(music sounds)

Pop-up comment: Occult rituals. Impression of dedication.

Irina: When you came up to me, I only felt you, but I was no longer in the body.

Ivan Yonten: Yeah.

Irina: You already felt it, right? I understood how you felt.

(music sounds)

5:20 Second initiation.

Pop-up comment: Irina Podzorova. Full interview after the session.

Irina: The initiation on the second day began with the fact that humanoids from Gihor - the patrons of Cosmoenergetics - came to me. Then they showed me the inhabitants of the planet Saama. All such white men, eyes, such a head...

March 06, 2021

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

Ivan Yonten – Highest Master of Gikhor Cosmoenergetics.

#225 All about retreat and training in Belarus. Center for Spiritual and Physical Development "Cassiopeia".

---

https://blog.cassiopeia.center/vse-o-retrite-i-obuchenii-v-belarusi
https://www.youtube.com/watch?v=J5DqsDrqAdg

00:03 Greetings to meeting participants.

Maxim: Friends, hello everyone! We can be seen perfectly.

Irina : Greetings!

Maxim: Today is a very interesting broadcast. Firstly, it comes from our new Center.

Irina: First time.

Maxim: Yes, the first time. That is, before that we broadcast together with Irina at my home. And now, finally, this long-awaited broadcast, when we make it from our new Center. Now there are students from the Cassiopeia project school here. Moreover, Ivan Yonten came to visit us, one might say, at the opening of the third stream, to look at the students, to finally get acquainted with the Center that he created. This is our cosmoenergy. He joined and harmonized with our School and the “Cassiopeia” project with his project “Gikhor” School. So let's welcome Ivan.

01:09 About the Gikhor School. Ivan Yonten about cosmoenergetics.

Maxim: Ivan, please tell us a little about your School “Gikhor”, what do you do there? What is cosmoenergetics? Otherwise, many people think that by moving their hands, everything will go away for them right away.

Ivan: It won’t work.

Maxim: It won’t work?

Ivan: Just moving your hands, of course, won’t work. Good evening, dear friends, dear colleagues!

Cosmoenergetics is a modern energetic spiritual practice that allows, in a fairly short time, to give good results in healing a person’s physical

health, his Soul, and help a person improve his spiritual level, that is, in personal and spiritual growth.

Cosmoenergetics operates with channels and energy information flows of cosmic origin. The school is named after the planet Gihor, which is located in the constellation Virgo. This planet was once visited by Irina Podzorova. And, in fact, the School was born precisely thanks to our cooperation and joint creativity.

Maxim: I call this more our joint harmonization, that is, we have a common goal on this planet. And in this single goal, a single impulse towards this goal, we decided to unite and harmonize. Therefore, thank you very much for having us.

Ivan: Thank you!

Maxim: I apologize, I quietly got into the explanation of cosmoenergetics.

Ivan: Okay, well, by the way, you added to the point. So, it turned out that the planet Gikhor is the planet on which the coordinators of cosmoenergy live, the inhabitants of this planet are the Gikhors. Their description can be found in Irina's report on her visit to this planet. I won't go into detail now - I don't have much time.

We were able to establish direct contact with the main coordinator of cosmic energy from this planet. Through communication with him and numerous conferences with Irina, as well as through additional work by a group of cosmoenergetic contactees we have already prepared, we constantly receive new interesting data, which makes it possible to improve the processes of initiation into cosmoenergetics, training in it, and directly all healing activities, what cosmoenergetics lead.

Therefore, our School today and specifically the "Gihor" project under the auspices of "Cassiopeia", I apologize for some advertising of this statement, but in essence it is really so, we carry the knowledge that is given directly from the coordinators of cosmoenergy, thanks to which we can teach faster, easier, simpler and give our students the

opportunity to practice again without unnecessary unnecessary rituals, without unnecessary beauties and without complicating their already quite complex path of development in the energy sector. This is the practice.

Maxim: I would like to add that Ivan has a closed master's degree in two schools of cosmoenergy - Bagirovskaya and Petrovskaya. And above all - DEIR School. You have so many different regalia that sometimes I even get confused. When did you do all this?

Ivan: I just did only this, that's all. Not for long, but very persistently.

Maxim: The meaning of life, I understand.

Ivan: What should I do?

04:32 Introduction of alien participants of the meeting.

Maxim: Irish, somehow we, as a male team, infiltrated a little. Maybe you should introduce yourself to those people who have never seen you before? I think so, there are people on the air who are doing it for the first time and don't understand what's going on. Who are these two men? One of them is bald and big, talking about some kind of cosmic energy.

Irina: Behind each of the men and women sitting here, and the three of us are sitting here, is his curator. Silmani, hello!

Hello, dear friends! On behalf of myself, the Interstellar Union and all the Cassiopeia employees, I sincerely congratulate you on the upcoming holiday - Women's Day on March 8th. Today we have our first live broadcast from our Center. The third cohort has already come to us for training.

Maxim: By the way, if you want, we can walk around with a camera and show you our Center. That is, if there is such a desire and request, then I will definitely do it. At the same time, you will see the students

whom we will highlight. Perhaps someone doesn't want to, but we will show them.

Irina: Our curators are present today: MidgasKaus from the planet Esler, LiShioni from the planet Shimor, and for the first time with us live on the air, Silmani Grikhtori from the planet Gikhor. All these planets are part of the Interstellar Union.

In the chat they write: "Show the Center, it's very interesting to see." Okay, let's show you the Center.

Maxim: I thought that Irina would introduce herself and say: "Hello, I'm Irina Podzorova, I am a contactor with extraterrestrial civilizations."

Irina: I am a contactee with extraterrestrial civilizations. And three representatives of different civilizations of our Milky Way Galaxy are here in astral bodies. This is MidgasKaus - biologist, psychologist and specialist in alien life forms, planet Esler, constellation Boötes, LiShioni - specialist in astral interactions, planet Shimor, constellation Andromeda and Silmani Grihtori - specialist in external energy healing fields for anthropomorphic humanoids, here on Earth this is called "cosmoenergetics", the main coordinator of the creation and use of these fields is the planet Gihor, constellation Virgo. They all greet you.

07:26 About the meaning and objectives of the Cassiopeia project. About the upcoming construction of the new Center. Pay according to your heart. Congratulations on March 8th.

Maxim: For those who are watching us for the first time: "Guys, we are not giving interviews from a mental hospital." I want to say that my name is Maxim Rusan. I am the director of the Cassiopeia project. Moreover, our project is a health project for healers, energy practitioners, all people and, in general, for the planet.

That's why our Center is called "Center for Spiritual and Physical Development "Cassiopeia". And everything that you see now, everything that is happening on this screen now is absolutely real. This is not a joke, not a show or a production. And the task of our project is

to increase the level of awareness of each person's perception.

I would like to remind everyone, so that you clearly understand the meaning and purpose of our project, that neither our healers, nor energy practitioners, nor those who are part of our project set any prices. All payments that are made for various kinds of manipulations, let's call them that, actions performed by school graduates, healers working in the project - they all work on the condition of donation, that is, on the condition of payment according to the heart.

This project was made specifically according to such a system in order to remove the deception of those people who are trying to make money from you, lead you into fears and delusions and charge you some unrealistic prices in order to save you from these fears either from reptilians, subsoilers or from something else. That is, in our project we are trying to explain everything correctly, and there is no point in scaring you. On the contrary, to give you feedback from the structure of the universe, in general, in the place where we live, on that planet, in the form in which we are embodied.

For this reason, we have organized a training center, where accommodation, training and everything else are on donation terms. That is, those people whom we have selected study at the Center and pay according to their hearts after training, according to their capabilities, desires and according to the inner state with which they leave here.

In general, how did it all start, and why did we organize this broadcast today? When we opened the Center, more than 1,500 people applied for training, I say without any exaggeration. We have not started accepting further applications yet. Why? Because we clearly understood that at this point in time we will not be able to wean such a large number of people willing. We can train about 25, maximum 30 people per month. If we start training 1,500 people, imagine how much time we will need in our Center.

I have already told you that I bought a hectare of land in a picturesque place near Voronezh, where there is a forest and a lake nearby. And there we will organize a new Center, which will include the schools "Gihor", "Cosmohealing" and the School of Healing Practices.

We will also organize an Institute, to which we will definitely attract people from the scientific community, who, on the basis of material nature, will be able to understand, identify, and explain more to materialists - people who are not yet aware of everything that is happening, what is happening in the universe, and how it is formed. Therefore, due to the fact that we cannot train a large number of people, we decided to organize a training retreat. This is an absolutely unprecedented action, this has never happened before. In Belarus, we have agreed with a very interesting health resort, where we will conduct large-scale training.

This is teaching you how to go to the Higher Self, communicate and establish contact with curators. We will provide feedback to highly qualified psychologists and contactees. In this sanatorium you can undergo not only training, but also recovery at the physical level. And, accordingly, healing at the energy level, where Ivan Yonten will conduct sessions and practices in the morning.

There in Belarus, Ivan will watch and select people whom he will initiate into the channels. No one will set a price for your dedication either. Our task is to disseminate this sacred knowledge and information by the greatest possible methods, in ways to the greatest number of people. Plus, Guzel Malyarova will work with you in the evening, you already know her. We have a project called “Cosmohealing”, in which Guzel Malyarova, as a guide, will establish contact with you and curators from the Intergalactic Medical Service, who will help you engage in self-healing.

In the chat they write: “Ivan – a wonderful speech, a pleasure to listen to!” Ivan – Goldstein is telling you this. Volodya, hello! I really like it when you are also present on our broadcasts, but from a completely different side.

I would like to thank all the project volunteers, about 90 of them around the world, who help us and do it absolutely with all their hearts. And my heart also belongs to you, our dear volunteers.

Plus, tomorrow we will have a holiday - International Women's Day. And on behalf of the entire Cassiopeia project, I want to congratulate

all women, girls, grandmothers, the entire female population of our planet on this wonderful holiday. I can't even imagine what we would do without you. You are the basis of creativity, our love, our flow, which we transmit and develop due to the fact that we want you to be with us. We want you to love us, and, accordingly, we want our love for you to come from all our hearts, from all our souls.

I want to tell you honestly: "I love you all!" Without being disingenuous to myself, I want to wish you the same strong inner deep love, the same patience for us, humility with us - men. You are doing a very powerful job on Earth. You, as a mother, are the continuer and the birth of a new life. You are the foundation of this planet. Therefore, I sincerely want to once again congratulate you all on this wonderful holiday!

Irina: Great, I agree with all Maxim's words. Indeed, we will have a retreat. They are asking for galactic news. Come on, we'll answer the questions and then show the Center.

15:29 Intergalactic news. About the creation of an apparatus for interaction between humanoids of various types from different planets - an interface for transmitting information.

Maxim: Come on, galactic news.

Irina: Galactic news.

Maxim: I want to ask Silmani Grikhtori for galactic news.

Irina: While I was listening to Maxim and at the same time the negotiations of our curators, they all - LiShioni and MidgasCaus said: "Silmani Grikhtori, tell me the news." Because it's live for the first time.

He says: "I will tell you scientific news that is related to biophysics and at the same time to the science of the brain - neurobiology. The fact is that there is a planet on which the reptilian race lives, it is called Oaldaramus - this is in the Gihor language. It is part of the Interstellar Union. But, unfortunately, the inhabitants of this planet are rarely on

Earth. However, a scientist from this planet, a biophysicist, neurobiologist Harnap, created a device that can interact between the brain of an anthropomorphic humanoid and the brain of a reptilian humanoid. It can transmit language and information to them, like a library.

Previously, there were such separate devices only among anthropomorphic, reptilian and insectoid races, because they had different types of nervous activity. This scientist has created a device that can directly transmit information to the nervous system of various types of humanoids. That is, this device allows you to create a single interface for transmitting information to humanoids from a variety of planets.”

Silmani spoke and at the same time showed me what it looks like - this is a disk that is in the room. They connect to it not through a helmet, but through electromagnetic fields, and tune into it.

Just sit next to him and a light purple screen will appear in the air. You can talk out loud with this device, because... it has a built-in automatic voice recognition system in 189 languages of the Galaxy. This helps to take information from this device about any planet, language, history, including anthropomorphs. I don’t know whether it will be compatible with earthlings, most likely yes, since their type of nervous activity is very close to the Burkhadians or reptilian races. This is the news today.

19:42 About 21st century equipment at the Cassiopeia Center for diagnostics and healing of the body. "Crownoscope", "Aurabook".

Maxim: Interesting. I hope we will soon come to such equipment, but I can tell you that our Wellness Center for Spiritual and Physical Development also has very interesting equipment. We are testing it. I so cleverly translated it to our news.

Irina: Yes, we also have news.

Maxim: We are testing the body. Come to the Wellness Center, we have a lot of interesting new equipment here. Moreover, the most interesting thing is that it is really new - this is equipment of the 21st century. We examine and test a person, all his organs, his entire system, and we can give a breakdown for each of the organs based on the vibration of all the structures that are in the person. Each cell, bacteria, fungus has its own vibration, and we have equipment that reads these vibrations. Based on these vibrations, one can clearly give feedback regarding what lives in a person, where it is located, what it contributes to the formation of disease, and much more.

Plus, we contacted a group of St. Petersburg researchers and took equipment that provides feedback from the etheric, auric field and from many other energy-informational formations in a person.

Now, in order to understand that there is a person - Spirit, you can take measurements from your etheric and astral fields and give you feedback on 50-100 sheets on astrology, numerology and many other things. This very interesting new equipment is called the Crownoscope.

We have an aurabook, but this is not the aurabook that was shown in the program, where something is weighted with something, some kind of batteries, programs. This is really interesting equipment that takes readings from the aura. And for the moment here and now it gives the correct readings of these auric structures.

We also have the equipment that Kryon spoke about - this is magnetic resonance equipment, when a person is placed in a special magnetic field with a certain vibration, and all the organs and functions of a person begin to be restored in it. They begin to interact with each other and work correctly. Chemical elements begin to be released correctly. We also have this equipment in our Wellness Center. Therefore, I invite everyone to undergo testing on our equipment and, accordingly, health procedures.

Behind us are people who came to visit and are undergoing rehabilitation on this equipment. I hope there will be some pleasant feedback, but maybe not pleasant. I don’t know, maybe someone won’t get better at the end, so we’ll wait for reviews. And we will post

all this on our newly opened website.

Irina: Yes, indeed. I'm still reading the chat, they write very interesting things. We will definitely ask our curators to congratulate all the women of the Interstellar Union on March 8th.

MidgasKaus, LiShioni and Silmani Grihtori, please congratulate from us all the women of the Interstellar Union and, in general, the entire Galaxy.

Maxim: I wonder if we will congratulate everyone in the Galaxy on this earthly holiday?

Irina: Yes, we will have a single egregor, and March 8 was chosen as Women's Day for a reason. This is spring time, and spring has always represented the emergence of new life as well as the energy of a woman.

Maxim: So will there be congratulations or what? Or can I continue talking?

Irina: They just write: "Congratulate the women of the Interstellar Union from us."

24:30 At what level of the Spiritual world does Lucifer live, and how to contact him? Devil.

Irina: They write questions here. I see a very pressing question for one person: "How to contact the devil?"

Maxim: Let's make it easy. Come here - to our Center, at twelve o'clock at night we turn off the lights everywhere and connect you with the devil.

Irina: I wonder: is he your curator, or is it just your curiosity to talk with this particular person?

If you mean Lucifer specifically, then he lives on the 6th level of the Spiritual World. To talk to him, it will probably be enough to acquire the same vibrations as his. And with these vibrations consciously go out into the astral world. In principle, there should not be any difficulties there. What vibrations does the devil have? This was well described by Jesus Christ in chapter 8 of the Gospel of John. Please re-read it, there is a detailed description of this personality.

Maxim: Irina, I think there is no need to repeat ourselves, we have already talked about this, talked about it on many broadcasts.

25:42 Opening of new projects at the Cassiopeia Center. Why will the retreat take place in Belarus? Cost of accommodation, treatment, schedule of classes at the retreat.

Maxim: I would also like to tell you: due to the fact that many people cannot get to our Center for training, we are opening a parallel project, which is more focused on psychology. This is a project where you will be taught how to communicate with your Higher Self, how to get healthy, how to engage in self-healing. This project will be led by Ilya Alexandrov.

This is also a week-long project where you will engage in psychological training, carry out trips to the Higher Self. You will engage in internal physio-psychological studies, work with blocks. This is an additional opportunity to get to the Center for training for those people who cannot come for contact training, that is, this is an almost similar project, but at the same time the emphasis will be more on psychology and physics.

I see that today we have only 764 people. What is this connected with? This is probably due to the fact that tomorrow is March 8th.

Irina: Yes, now everyone is preparing for the holiday, especially since the theme has been announced “Retreat in Belarus”. Many people want to look about this topic later, because they expected that the questions would be on this topic.

Maxim: Dear friends, I completely forgot to say, why Belarus?

Irina: Belarus.

Maxim: Yes, Belarus. Why Belarus? Because people can come there from all over Europe, this country is accessible for arrival and residence.

I was asked about the price of accommodation. A room with accommodation and 3 meals a day, with a swimming pool included - they have a large swimming pool, a sauna costs about 2,000 rubles, in my opinion, 1,870 rubles - this is for residents of Russia, if we all come in a big crowd. This sanatorium has very interesting devices for healing. That is, we are also going there to gain experience for our Wellness Center. Passing on this equipment costs 300 or 500 rubles per day.

How will our retreat go? In the morning there will be classes on cosmoenergetics, then healing on equipment, then from 14:00 to 19:00 - a class on teaching the Higher Self and many other things, from 21:00 to 22:00 - cosmohealing sessions. There you will be able to test and try out the skills that we will pass on to you during the training process.

Irina: What is the advance payment?

Maxim: Guys, let me repeat it again: we are having an unprecedented training retreat. For this retreat we take only those people who want to join the Cassiopeia team and are ready to open centers in their cities of the same type, with the same health-improving focus. Those people who are ready to teach and lead to the Higher Self. Therefore, this retreat is not for everyone absolutely willing, but for those who are ready to continue the work of “Cassiopeia”. As a leader, I will give everyone feedback on how to do it correctly and competently, how you will carry spiritual knowledge on donation terms. And at the same time, you will have the opportunity, at the expense of health centers, to support your centers, employ specialists in these centers and do many other things. But I will talk about this at the retreat to those people who are now ready to come on a volunteer basis, learn how to go to the

Higher Self, start leading other people to the Higher Self and try to open a Center in their city.

Also, a huge number of the best graduates of the School will come to this retreat; there are already a lot of them there. You will be able to conduct a personal session with School graduates, that is, personally attend an appointment with School graduates. They bring you to the Higher Self, what we all talk about. All other structures will go further through the Higher Self.

Therefore, the retreat will be very interesting, rich in terms of health, spiritual practices, initiations, cosmoenergetics sessions, cosmohealing and many other interesting moments. Irin, you looked like that, do you have any interesting questions?

Irina: Interesting questions?

Maxim: Yes.

30:43 Group and single Souls of animals. Where does the Soul of an animal go after disincarnation? Pets.

Irina: If possible, tell us about the Souls of Pets.

Maxim: Briefly, Irish. I know that you will now begin to explain and tell for a very long time who subtle-material civilizations are.

Irina: The souls of animals, unlike rational Spirits, which incarnate into rational beings with the appropriate type of higher nervous activity, are embodied in bodies in which there is no possibility for a rational Spirit to incarnate. Accordingly, in contrast to the rational Spirit, which is born of God, the Soul of animals is created by plasmoid civilizations from different types of energy - these are subtle-material entities.

Animal souls can be group or single, depending on the type of animal. Microorganisms and insects are also considered a species of animal with only a very small physical body. Group Souls of animals are

embodied in them, and single animal Souls are embodied in mammals. They can also transform into animals of their own species, their own order, and not necessarily this particular species.

Unlike intelligent Spirits, animal Souls are still mortal, that is, when they exhaust the supply of vital forces invested in them by plasmoids, they fall asleep in the Astral after leaving their next incarnation. Their energies fall into pieces and are used to create new animal Souls, plasmoids or ethereal bodies for the Souls of people.

Maxim: Well, that's it, at least briefly.

32:41 About further retreats. Datsan. Lama Itigelov. Resources to find information about the Cassiopeia Project.

Maxim: Guys, about our future retreats. We have plans to organize a retreat closer to Lake Baikal in August. We want to visit places of power. We are asked to visit Datsan with Lama Itigelov, get in touch with him and pass on information from him, give feedback.

In principle, we have already talked with our curators and mentors - yes, this can be done, and, most likely, in August we will be on Lake Baikal with a retreat aimed at places of power and contact with Lama Itigelov. Therefore, follow our website, there will be absolutely all new information, subscribe to our groups.

We are on absolutely all social networks: Facebook, VKontakte, Yandex Zen, YouTube, Instagram. We tried to cover all the platforms that were possible to cover as much as possible. Therefore, write, be interested, and the administrators of these resources will give you feedback on retreats, if possible.

Regarding the Wellness Center: the link and phone number are under the video, as well as making an appointment with specialists for the Higher Self - the same thing, all the links are under the video. Under the video you can find a huge sheet where you can read absolutely everything about us, including place, time, phone numbers, passwords, appearances and everything else.

In the near future I will receive documents for the registered Cassiopeia project, for registration of an autonomous non-profit organization. And we will officially hold all these retreats and events. Irina, what else can you add about retreats?

Irina: Training will take place there. Me, Maxim and Ivan will conduct training.

Maxim: Ilya Alexandrov. By the way, I forgot - Gulechka, I congratulate you on March 8th. Guzel Malyarova, I repeat once again, is our wonderful cosmohealer, a specialist in contacts with the Intergalactic Medical Service. Gulya, a huge hello to you!

Irina: People are asking me to tell you about Prometheus. We have never asked such a question before.

Maxim: Irin, I invite everyone to attend our retreat, where you can ask many questions about Prometheus.

Irina: It's just that our theme is "Retreat" and everything connected with it. As for ancient Greek myths, Animal Souls, contacts with the Higher Self - all this was discussed in previous videos, or will be discussed in those videos that will soon appear on our channel.

When I am not studying at school, almost every day I hold conferences with those who want to ask our curators questions, dear TV viewers. And many videos are waiting their turn to be released on our Cassiopeia channel.

And the topic of our live broadcast today is "Retreat in Belarus," because for us personally, I hope, and for you, this is a vital event that we are looking forward to.

Maxim: Yes, because 50 percent of those present at this retreat will be Russian-speaking people from Europe, America, Asia, and Eurasia in general. We are ready to convey our sacred knowledge to absolutely all corners and parts of the world. We will wait for people who are ready to further carry this knowledge and participate in the

Cassiopeia project.

So, well, should we show the Center?

37:05 Can all people engage in cosmic energy? Blocked chakras. What is energy?

Irina: This is probably a question for Ivan: “Can people with blocked chakras engage in cosmic energy?”

Maxim: Yes, answer.

Ivan: Good question. Of course they can. The fact is that cosmoenergy allows you to comprehensively heal any human problems. I think I don’t need to prove that energy is primary. That is, if we can correct a person’s energy problem, then his physics are controlled automatically. And what is energy – this is the etheric body, other energetic and spiritual bodies and, of course, the system of central flows and chakra structures.

With the help of channels, we can easily optimize all those processes that occur within human energy. Of course, if a person has a problem with chakras that do not work well enough, then this can be solved with the help of cosmoenergetics.

A person, regardless of his current energetic or physical state, can not only receive cosmic energy sessions from cosmic energists, but also receive initiation himself, learn cosmic energy and independently work effectively with himself and with other people, because cosmic channels work, and they don’t care at all, in what state their patient is in, whether he himself is a conductor of cosmic energy or an external patient. So the answer is very simple - yes, of course.

Irina: Well, and of course, about the land.

Maxim: They ask: what is your School of Cosmoenergetics - Petrovskaya, Bagirovskaya?

Ivan: The Gikhor school is the founder of a new line of cosmoenergy, which we call the Gikhor line. In turn, the Gikhorskaya line is a continuation of the Petrovskaya line of space energy. That is, yes - we are the successors of the Petrovskaya line.

38:49 Is the earth round or flat?

Irina: Well, and of course, this question has already become traditional; it comes up on every live broadcast, and this suggests that this topic worries people very much. Is the Earth round or flat?

We will ask another of our curators - Silmani Grikhtori, because the previous ones have already answered.

Maxim: I really want to ask a question about the head - is it round or flat?

Irina: Silmani Grikhtori says: “It all depends on your type of perception. If you, dear Divine Soul, who wrote this question, are a humanoid in this incarnation, then for you it will represent the shape of a ball, and more specifically, a shape close to a ball, that is, a geoid.

And if you, dear Divine Soul, are in this incarnation a subtle-material being - a plasmoid of some types, then for you it will represent a plane, a polyhedron, a cube, a pyramid and any other geometric shapes of quantum fields that your receptors can perceive.”

Maxim: That is, the Earth has its own shape for each structure of perception. I'm just translating what was said for people, because apparently some people don't understand and ask this question every time.

It all depends on the structure in which you are embodied by the intelligent Spirit. If this is a humanoid structure, then in any case you will have the physical volume that we see with you - round. If you are embodied in a subtle structure, then everything will depend on the structure in which you are embodied; there may be pyramids, cubes,

lines, squares.

For our awareness and understanding, this will be an energy-informational shell, and the vision of this energy-informational shell depends on the shell in which you are embodied.

40:47 How to make an appointment with Irina Podzorova? About the development of the project and the Cassiopeia website.

Irina: You can find out from our administrators whether I conduct appointments online, whether MidgasCaus diagnoses, etc.

Maxim: Yes, by the way, now Irina is holding personal receptions. For residents of Europe and those who cannot get there, she sometimes receives via Zoom, Skype, but she only receives residents of Russia in person. Therefore, under this video you can see the phone number, link, how you can make an appointment with Irina. There are also links on how you can sign up for testing at the Wellness Center, and then you will decide whether or not you need to undergo wellness procedures and many other things.

Irina: We already have a website, you can go there and sign up.

Maxim: Yes, we have a website, we are filling it now. In principle, it has already been launched, and there is a lot of new and interesting things there. There is already feedback on many things. But due to the fact that we now have a very large structure, we will gradually fill this site.

Our website will contain not only information, but also radio “Cassiopeia” and the online store “Cassiopeia”. But an online store is just a conditional understanding; there will be many things there that we cannot provide free of charge, on donation terms.

We produce bioactive nutritional supplements and sportswear. Now we have developed a uniform for Cassiopeia employees - very interesting overalls, similar to alien costumes.

Do we have anything to show? Now I will show you a sketch so that you don't think that we are talking unfoundedly about how we are developing together with you. We have prepared sketches, today we ordered layouts. Let me show you, I hope this is our future form. Every employee of the Cassiopeia project will be able to walk in this form and carry that knowledge, that Light that we are talking about.

They write in the chat: "The suit is super!", "The uniform is excellent!"

So, about the retreat in Belarus.

43:30 Will Aunika participate in the retreat in Belarus?

Irina: They asked a question about the retreat in Belarus: "Will Aunika participate there?"

Maxim: Aunika? Guys, unfortunately, Aunika is not participating in this retreat. She is busy with her own internal affairs. She probably just doesn't have enough time, because... it is visited by a large number of people.

44:00 Demonstration of the Center for Spiritual and Physical Development "Cassiopeia".

Maxim: What I want to tell you about the retreat. All payments for the retreat that you make according to your heart will go towards the construction of a large Center on a hectare of land near Voronezh, 5 minutes from the airport. There is a very accessible transport interchange, the Moscow direction along the M4 highway, and all this is nearby.

I propose to show our Center and here we will probably end the broadcast.

Irina: Yes, now we will show the Center.

Maxim: So, there's a wonderful painting hanging up here. It was drawn by our wonderful artist Elena Tkach. She studied at our School and donated these paintings. This is the painting "The Creator".

Here we have a cool ceiling - the sky. If this sky still moved, it would be good.

These are our students. I can show the students, is anyone against it?

Students: No.

Maxim: So, these are our students. Let's try to go further and show the most interesting place. Here we provide stone therapy. True, I can't bring anything closer, I can only remove it.

So here we have the Wellness Center. Fohou massage is performed here - this is a new type of massage. And for this there are special massage beds.

Now I'll go here, please hold the laptop, otherwise your hand will fall off, just be careful not to press anything. Here is the Wellness Center. I won't go far there, I'll show you here. No, I won't show you, we won't be able to go any further here. So let's move on, here we have the reception area. And further we go...

Irina: To our Center.

Maxim: Yes, we go to our Center, where the hostel is located. Here we have paintings hanging. By the way, these paintings were also given to us by Elena Tkach, and they are based on Irina's contacts and her flights. This is a flight to the planet Shimor.

Irina: Yes, and then to the planet with the insectoids.

Maxim: This is a flight to insectoids, this is to reptilians. We move on, here we have a wonderful kitchen.

Irina: Yes, here she is.

Maxim: This is the kitchen we have.

Irina: This is for students.

Maxim: This is for students, with such a wonderful table. We move further, we probably won't be able to show it - it's dark.

Here we have cool bunk beds for students, 4 rooms, but it's hard to see. Oops, I almost ended the broadcast. We don't need to end the broadcast.

Let's go further there. Irishka and I are together. This is another wonderful picture. Let's go here. These are our paintings, also from Elena Tkach. This is a painting given to us at the retreat. I hope whoever gave it recognizes his painting. This is such a wonderful picture. Another picture is also from Elena Tkach. And, accordingly, this is what our Center looks like if you look at it from below.

Irina: Yes, the sky and many, many suns, like in the Pleiades.

Maxim: Let's move back, sit down and finish the broadcast competently and with dignity. Have a seat.

March 07, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia project and the Center for Spiritual and Physical Development;

Ivan Yonten - director and founder of the Gikhor school of cosmoenergy;

Pupils of the Cassiopeia school;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interactions with the material world;

Silmani Grikhtori is a representative of the planet Gihor, a specialist in creating external fields to restore the energy structures of humanoid types of civilizations.

Video in text
March 23, 2023

#226 Women on other planets. How to maintain youth and beauty? What is women's happiness?

https://blog.cassiopeia.center/zhenshchiny-na-drugih-planetah
https://www.youtube.com/watch?v=zXt2NeEC2pc

00:21 Introduction of participants.

Irina: Hello, dear friends! My name is Irina Podzorova. I am a contactee with extraterrestrial civilizations. Today, my curator MidgasKaus from the planet Esler, a biologist, psychologist and specialist in alien life forms, is present next to me, and for the first time, the daughter of representative Burkhad Raom Tiyan, who is known to you from previous conferences, is participating in such a conference. Her name is Sain Tilini. According to earthly chronology, she is 32 years old, and according to Burkhad's time, she is about 80 years old. Sain Tilini is a young geneticist, she has a boyfriend on the planet, but no children yet.

Maria: Very nice.

Irina: (They show me the image) She has a white, elongated face, long hair.

01:55 Women scientists on alien bases. Causes of infertility. Level of desires of earthlings.

Maria: Great. We are very pleased to welcome you to our meeting. We rarely have women at conferences. Question from our subscribers. Please tell me, are there any women scientists at your bases, on Earth and on other planets?

Irina: Yes, we have women scientists at our earthly bases, but since women's nature has a greater attraction to their native planet and home, a natural attraction to their children, parents, nature, therefore there are much fewer women on the bases than men. Because women themselves want to remain the most beloved and beautiful stars for their men, husbands, brothers and fathers who fly to other planets.

Maria: Thank you! Very nice answer. Now I will ask a few questions about women's health. Probably Mead will help us more here. For example, why is infertility given? Do we need to fight it?

Irina: We need to find out the reasons. There may be various reasons. Physical illnesses: infections, infectious diseases, hormonal disorders, and when the Spirit in the Spiritual World can choose a mom or dad to incarnate, but cannot do this due to physical defects.

Maria: I see. That is, this is not a direct indicator that the Spirit does not want to incarnate? First you need to know the causes of infertility?

Irina: Yes, first you need to find out the causes of infertility at all levels: physical, energetic, spiritual. Start with a spiritual reason. It happens that everything is physically fine, but conception does not occur in a person: a man or a woman. The reason is spiritual: either this does not correspond to the life task of people, or they are simply not psychologically ready at the moment for such a responsible activity as raising a child.

This reflects the level of their desires. Desires can come from the Higher Self in the form of intuition, and from the instinctive part of the spiritual heart, from feelings, mental attitudes in society. You need to understand where the desire comes from. I could answer about an Eslerite or a representative of Burkhad, how they distinguish where their desire comes from, from what part of their Spirit. In the case of people, I know well that you are not taught to distinguish between your own spiritual impulses and the aspirations of their nature.

05:30 Psychological attitude and spiritual purity. Loss of the ability to conceive a child. Correct passage of menopause.

Maria: I see. If a woman does not become a mother, how does this affect her body and health?

Irina: It all depends on her psychological mood and spiritual purity. If she is in high vibrations and does not blame herself for her inability or unwillingness to have children, she will not succumb to the attitudes of society that say that having a child is normal and wanting a child is normal, and everything else is a deviation. If she does not succumb to these suggestions, but is in the Light of Love and fully accepts her fate as it is and thanks God for it, then she will not have spiritual causes of illness.

Maria: Thank you. Why is the hormonal period of women very short?

Irina: Compared to what?

Maria: With life expectancy, for example.

Irina: Do you mean the reproductive period?

Maria: Yes, reproductive, before menopause.

Irina: This is for the reason that a woman loses the ability, in most cases, to conceive a child. Her body is so adapted: approximately 15-20 years before the probable death of the physical organism. For the reason that she would not leave the child small and helpless in a world unfamiliar to him, if she moves into the world of disembodied Spirits.

Maria: Very wisely arranged. What determines the duration and symptoms of menopause? Are healing processes possible? If yes, which ones? This is a rather difficult period for women, menopause.

Irina: Every woman has already gone through this period in her adolescence. The period of transition from childhood to adulthood that you call “adolescence.” It is very similar to menopause, but it was only

directed in the opposite direction and was also difficult for many.

This period helps to pass correctly, without complications, spiritual and physical suffering, the recognition that the processes are natural, the absence of fear of old age, impending helplessness and death. You must remember that at the time when you were young, other people who are no longer physically on your planet were old people. There will come a time for you when others will be young and you will be older, wiser people. If you meet every day of your life with gratitude to God for the continuation of incarnation, and every night of your life you meet with prayers for the readiness to part with the body, with the same readiness to both fall asleep and part with the body as to go to the Astral during sleep. Say before going to bed: “My heavenly Father, God of the entire Universe! I realize that the sleep of my body may be eternal, but at the same time the life of my Soul is endless.”

10:00 Factors influencing the state of the physical body. An important factor for the body is living water. Awareness of the beauty of your Spirit. Rejuvenation.

Maria: Very wise words, very beautiful words. Thank you! Mead, can you advise our women any methods of rejuvenating the body as a whole, some recommendations. How to keep your body and body young?

Irina: The appearance of the physical body depends on several factors: genetic factor, psychological factor, intoxication and so on. I have already said more than once that the youth of men and women is prolonged by positive emotions, physical movements, physical labor in the fresh air, and communication with nature. The absence of fears, stress, especially ideas of self-blame and inferiority, the absence of bad habits, such as smoking, which disrupts hormonal status and this makes the skin, even of a young person, look like that of an elderly person.

What is rejuvenation? This is tissue regeneration. In order for your skin and internal organs to always rejuvenate, you need a sufficient amount of biological material for cell regeneration. You must provide the body with the opportunity to build them and remove waste products from old cells from the body. To do this, you need good nutrition and a sufficient

amount of fresh, clean water.

Maria: These are truths known to all of us.

Irina: It's surprising that the simplest truths are sometimes not known to you. Why don't they tell you about them at school? I have seen people who use anti-aging and moisturizing creams on their skin. Skin with normal moisture looks younger than dry, so they moisturized it with various oils, creams that last for several hours, and the skin can get used to them, but at the same time, they experienced an acute deficiency of fluids. What is the use of moisturizing the skin from the outside if a sufficient amount of living water does not enter it through the capillaries?

We preserve our youth and beauty by realizing the beauty of our Spirit. The body is only a reflection of thoughts in your Soul about yourself. If you do not accept something in your Soul, it will definitely affect the appearance of your body. I want to tell you that any body on Earth is beautiful. If you judge your body for a seemingly imperfect part of it: excessive fatness or thinness, facial features, then you are causing body illnesses because you do not accept it. Your cells here or elsewhere begin to slowly die.

14:09 Responsibility for the child. It is a conscious choice and right not to give birth. Sexual energy. Prevention from pregnancy.

Maria: Thank you. Very wise advice and very wise explanation. This is true. Please tell me, can there be negative consequences for the Souls of parents who do not want to have children and protect themselves from pregnancy in various ways?

Irina: It depends on what their motive is. If they don't want to, because objectively they cannot take care of this child, and they protect themselves from pregnancy so that the woman does not have an abortion. That is, she consciously made a choice: not to give birth. This is her right and there are no negative consequences. Every woman, before the moment of conception, must make a choice whether she is ready to be responsible for this child or not.

According to the laws of the Cosmos and the laws of God, parents bear responsibility for the child until he comes of age: for upbringing, physical nutrition and spiritual education - upward mobility, for his adaptation to the world of adults, a woman and a man bear.

If they do not want responsibility and their decision is conscious, God respects their right and there are no consequences for them. If they wish to physically love each other, that is their right. Connection of Souls: they have common aspirations, common goals in life, love for each other. Sexual energy is a form of love that is designed to enjoy each other and the physical body. Not only for the birth of children, like an instinct in animals. Intelligent Spirits enjoy the process itself.

Methods of contraception that do not harm the health of men and women and are not abortifacient are completely acceptable.

17:08 Conversation with the Higher Self is a replacement for contraceptives. Impact on a woman's energy at Esler. Abortion contraception on Earth. Intrauterine device. Mini abortion.

Maria: Please tell me what technologies does your civilization use? Do you use contraceptives at all?

Irina: We don't use contraceptives. With us, every woman and man can go into the Spiritual world, talk with their Higher Self and ask in advance, for example, a year in advance, two years in advance, whether the Soul is going to incarnate.

They ask their mentors if the Spirit is going to incarnate, they can ask which one and talk to him. There are such techniques. If a woman or man is not ready to embody it, then they negotiate with this Spirit so that it comes later or to other parents.

In case of a conflict between the Spirit of a child and the Spirits of mom or dad - this happens - when he says that I need to incarnate with you at this time, and she refuses, since she has her own plans for this period, they turn to medicine.

She has every right. This is not protection, but an impact on its energy with a special apparatus, in which the living Soul cannot join at a certain time. This is a bioenergetic effect on her aura, on her subtle bodies.

This happens quite rarely. Isolated cases. Usually it is possible to agree on when she will implement it and why, but first she will fulfill her plans. For example, Duhu explains: “I need to fly into space, and there will be no one to take care of you.” A compromise is still found.

In order for earthlings to do this, they need to communicate on a conscious level with their Higher Self, with their spiritual Mentors. 88 percent of the population cannot yet do this.

Maria: What methods of contraception are the safest for earthly women?

Irina: The safest are barrier methods, not chemical ones. At the same time, they should not be abortifacient. Abortion methods include the intrauterine device. Mini-abortion occurs due to the ignorance of women. Many people don't know what it is. The embodied Soul has not yet entered the body, but two cells - male and female - have united, and the Spirit is nearby. He lets his energy into the first cell. This is his future body, no matter how small it may be. The intrauterine device disrupts the implantation of the baby's first cell into the wall of the mother's uterus. Since this cell has not attached and has not received the opportunity for nutrition and development, it dies. Mead does not support this method.

21:25 Absence of periods of “patriarchy” and “matriarchy” in Burkhad and Esler. The value of a woman in the religions of the Earth.

Maria: Thank you. This is a very harmful method, and women suffer a lot from side problems. Please tell me, did you have periods of development described as “matriarchy” in our development of civilization?

Irina: Matriarchy - the predominance of the role of women in political and religious governance?

Maria: Yes, and socially.

Irina: On Esler or on Burkhad?

Maria: On Esler and Burkhad. We are interested in both civilizations.

Irina: (Sain Tilini wants to say) I greet you all, dear friends. I am very excited, this is my first time at such a conference.

Burkhad went through different periods of his development: periods of dark ignorance, a period of wars. This is what we call the Dark Ages. As for patriarchy and matriarchy, I study history and have not found such distortions in the elevation of any gender. Our society was divided into different classes, like your castes. It was divided not into different nationalities - we have the same skin color - but into federal districts, which had different meanings.

As for men and women: strong, physically and mentally, women often became socially superior to men, as well as vice versa. We valued strength, intelligence, and quickness of thought. Both men and women could have this.

What about Mead? He says there were no such periods. There is no such thing as someone being superior to another. Everyone pays attention, as far as I have studied history, we do not have instinctive programs configured to prioritize the power instinct.

Maria: That is, we can say that in no civilization has there been such a period of time when there was cruel treatment of the female half of the population, discrimination against the female half.

Irina: I don’t remember such a civilization based on gender. On the contrary, as far as I know the history of earthly civilization, true patriots of their fatherland and true knights have always valued a woman and

in all religions, even in Christianity, it is the woman who is named above all Angels, Cherubim and Seraphim. Not a man, not the great Saint John the Baptist, but a woman.

In ancient cults, the Mother Goddess was also revered as a symbol of the fertility of the earth, from which fruits can grow. Because in ancient times, and now, every man understands that, no matter how physically strong or intellectually intelligent he is, he came from a woman's womb. There were some marginal representatives of humanity who did not appreciate this, the reason being a difficult relationship with their mother in childhood.

25:26 The ratio of working and non-working women in Burkhad and Esler. Honorary position of mother in the Interstellar Union.

Maria: Yes, indeed, you can say so. Friends, tell me, in your society, what proportion of women work, look at the percentage. How many women do you work in public works, are they involved in public life, in the political and social process?

Irina: I would say approximately 70 percent work, the rest are housewives. Approximately, since we do not keep such statistics. This is only according to my friends (Sain Tilini says) On Esler the ratio is approximately 50 to 50.

There are fewer women working there.

Maria: Do women prefer to stay at home with children?

Irina: A housewife has the same honorable attitude as a scientist.

Maria: Like a working man?

Irina: She has the most prestigious profession for many - preparing the incarnate Spirit from the Spiritual World for the conditions on Esler.

Maria: So, we can say that the state and the entire system supports the woman financially?

Irina: Yes, of course!

Maria: Even if she is without a husband, could she raise a child?

Irina: The Interstellar Union has issued special laws according to which every mother, from the moment the child is born until he comes of age, receives special benefits in the currency that is accepted on the planet. This is enough to provide for her and the child's needs if she does not work. If she works extra, that's her right. Everything is calculated based on the needs of baby food, mother's nutrition, travel, various purchases, and developmental programs.

27:51 The difference between men and women in energy on Esler. Sexual energy to stimulate abilities.

Maria: I see. Do your men and women differ in specific characteristics, like ours, for example? Do they have any gender specific characteristics? For example, our women are more emotional, and men are more rational.

Irina: We differ in energy. A woman is not that emotional, she is more sensitive, she is more inclined to empathy, giving, to share her energy with children, this is how she shares her milk with them. And a man is more inclined to acquire and analyze the situation and evaluate it not with his feelings, not with his heart, but with his mind. He is less likely to have to deal with a small child who cannot speak but asks for something.

An adaptive function that is written into the genes of every woman, no matter where she was born. The function is reflected in behavior and activities, but, if desired, a man can develop these qualities in himself, but a woman may not. These are just inclinations.

Maria: Okay, I see. That is, such characteristics are not clearly expressed? You can tell them apart. It is believed that a special

energy, almost magical, accumulates in the uterus of women. Is it so?

Irina: Not in the uterus. This means sexual energy, which is not just accumulated, but passes from the vital force of the Spirit through the second chakra, which in women is located at the level of 5 fingers below the navel. This is the area of the uterus.

This is sexual energy that can become a stimulus for physical pleasure. When using this vital energy for something else - with special practices, techniques, they are all described - to stimulate, for example, creative abilities. I gave Irina this technique of accumulating energy and raising it along the spinal etheric channel to the fifth and sixth chakras.

This does not make the sexual energy in the chakra itself less, it is simply redirected - a function in the etheric body. All this is controlled mentally, triggered by intention, desire, and accompanied by visualization, since image visualization is the best way to manage psychic and mental energy.

31:14 The true power of a woman. Energy fullness of a woman. A woman's happiness. The value of life.

Maria: What is the true power of a woman and how to properly manage and direct it?

Irina: A woman’s true strength lies in her spiritual heart, just like a man’s. This is the Light of Unconditional Love. If she realizes that she is part of it and, at the same time, a daughter of God and His collaborator in this world, who is called to carry this Unconditional Love. Love is an all-conquering force, more powerful than which nothing can be, because it gives birth to life.

Maria: Thank you. Is it true that the material well-being of the entire family depends on a woman’s energy level?

Irina: Of course. Energy fullness is the vigor of the Spirit, the ability to set goals and achieve them, physical, spiritual and moral strength,

including for earning money and the ability to use it rationally.

If a person has earned money but has little energy, he will spend it irrationally. When experiencing a lack of energy, he may automatically buy more food at the store than necessary, because the subconscious mind tells him that he needs to restore energy. Some of this food is not used and may be thrown away, even though the money is spent. There are a lot of little things like this that can be collected.

Maria: That is, we can say that a happy, holistic, one with her Spirit and with God, a woman nourishes a man, gives him energy to attract material wealth to the family, harmonizes him.

Irina: They give each other energy: she gives him, and he gives her. They exchange it, including for finance. Energy for finance is determination, vigor of spirit and body.

Maria: Okay. This question is: where do your women see their happiness? In your civilizations.

Irina: In love for yourself, for a man, for children, for the whole society, for every incarnate and non-incarnate Spirit, as a part of God. Every child with us knows from childhood that any new day could be the last on this planet, in this world, the last day of incarnation, and therefore he appreciates it. And the value of life increases happiness.

Maria: Who answered just now?

Irina: Now Sain Tilini. She said, Mead added.

Maria: That is, the Interstellar Union has the same idea of happiness.

Irina: Yes, this is the value of life, which is relevant for a person's personality in a given place of occurrence. For life to be valuable to a person, he must realize that it can end at any moment on Earth. And this is true. So that you value every person close to you, think about the fact that in just a day you may not talk to them about the important

thing you were planning to talk about.

35:32 Biorobots are household assistants. Characteristics of biorobots.

Maria: Yes, that's true. We have a couple more fun questions from our readers. A woman runs the household alone for years while her husband travels around the Galaxy. This is a question for Meade. Are there such long business trips, long trips that your women are left alone for many years?

Irina: Of course, there are long business trips. They live at the bases for a long time. Not only on Earth, but throughout the Galaxy. Sometimes they fly to other galaxies. The woman runs the household with the children. If there are no children or other relatives, then she runs the household with biorobots. The biorobot can be purchased on any planet of the Interstellar Union.

Maria: What do biorobots look like?

Irina: They are made by factories on one planet or another to look like inhabitants. They have differences in height, skin color, structure of eyes, ears, so that it is clear that this is a biorobot. My pet biorobot (Mead says) named Trimply. It means efficient, energetic. (They show me) About the same height as Mead, with yellow skin. Not brown and without wrinkles. He has black eyes without pupils and short white hair.

Maria: What do biorobots look like on Burhadek?

Irina: On Burkhad they look like us (they show me). They wear a special uniform: gray with a green stripe down from one shoulder. Biorobots are equipped with batteries that are charged by sunlight. At night they can remain active. Photocells convert light energy into energy for muscle movement.

Maria: Do they do any housework?

Irina: Yes. They understand speech, can speak, act as translators, do housework, and can remind the owner about examining his body using a special device, which is usually built into the wall of the apartment. The Galactic Federation of Light has the devices. They appeared a long time ago and are very common. I believe that such people will soon be on Earth.

38:57 Marriages with representatives of different civilizations. Sain Tilini's wishes to earthlings. MidgasCaus's wish to earthlings.

Maria: Is flirting between aliens possible? Do people fall in love with representatives of other civilizations?

Irina: Are there joint marriages?

Maria: Yes, joint marriages and is such a possibility possible?

Irina: There is such an opportunity in the Interstellar Union. Such marriages exist if there is genetic compatibility and they are going to have children. There are no obstacles to this. Any citizen of the Interstellar Union can marry a representative of any planet of the Interstellar Union. For example, between the planets Esler and Gumuretta, which are similar genetically. Between the Shimorians and their colonies. Between the Burkhadians and Disaru. They are compatible.

Maria: We wanted to hear your wishes and advice to our women in prison.

Irina: Sain Tilini from the planet Burkhad, daughter of Raom Tiyan. She says: “I wish that your beautiful planet, which my dad loves very much and which I began to study, and am already in love, like he is, with its nature, the people who live here... I wish that you fall in love with it, your beautiful world.

When you love and accept your planet, direct the Light of your Love to it, and most people stop treating nature as a consumer, but treat it as

their own home, then you will be much closer to joining our Interstellar Union. We wish this event to happen as soon as possible. I live and am a citizen of the Interstellar Union, so I say that our government knows how to take care of its residents, and not a single citizen is neglected."

Maria: Thank you. Very good wishes.

Irina: Now Mid. He says: "I can wish everyone who watches this video to listen to their Soul and find that Light of Love that lives in each of you. Every person loves someone, loves something. If love is accompanied by rejection of something, it is not perfect, but only the first spark of an endless flame that supports your life. Remember, if it weren't for the love of mom and dad between each other, you would not have appeared on this beautiful planet, as Sain Tilini said.

If you do not show love to yourself and to your neighbor, you will stop this flow of life, both physical and spiritual, which will lead you to a lack of happiness and suffering. I wish you awareness in understanding that happiness is love and life."

Maria: Thank you on behalf of all our women, our wonderful subscribers. Please say hello to Raom Tiyan. Many thanks for supporting our Project, for supporting each of us with your invaluable knowledge, which helps to open up our awareness.

Irina: Sain Tilini says: "I came and for the first time came into contact with the energy of an earthly person. This is my first experience, and perhaps I will submit an application for consideration to be included in the number of specialists in contacts with your planet in order to become a curator of one of you."

Maria: With great pleasure!

Irina: I thank you too. And thank you, dear viewers! On that great note, I wish you a pleasant viewing of this and the rest of the videos. See you again!

March 8, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maria Sokalskaya - administrator of the Cassiopeia team;

MidgasKaus - representative of the planet Esler, biologist, psychologist, specialist in alien civilizations;

Sain Tilini is a representative of the planet Burhad, the daughter of Raom Tiyan, a young specialist in genetics.

#229 Third edition of the Cassiopeia School, a new health program, educational retreat in Belarus.

---

https://blog.cassiopeia.center/tretij-vypusk-shkoly-kassiopeya
https://www.youtube.com/watch?v=1YlBXFiAX9Y

00:02 Welcome to the participants. Galactic news. Explosion in the Galaxy.

Maxim: Hello everyone! Great. Now I'll adjust the camera a little.

Irina : Hello everyone!

Maxim: Dear friends, hello everyone! We are broadcasting live. We were so tired today that we didn't even want to spend it. There are three topics for broadcast. First topic: third edition of the School. Today you will see some students who have already graduated from the Cassiopeia School of Contactees. The second topic is very interesting. We have a new program. This program is not aimed at teaching contact making, but at healing oneself through the Higher Self. But I will talk about this a little later. We have a senior teacher - Ilya, who will now give feedback and talk about this school.

Irina : Tape...

Maxim: We'll turn on the tape now **.**

Irina : Yes. Knowable.

Maxim: To see the questions, right?

Irina : Yes. To find out how we can be heard.

Maxim: Third topic. We will tell you about the training retreat that will take place in Belarus. You will be given feedback by Evgeniy, who accepts your applications, processes them and transfers them to administration at the retreat. First topic. Galactic news.

Irina : Yes. Hello, dear friends! Today, our curators are present next to us: MidgasKaus, LiShioni, as well as curators from Burkhad and Tumesout. Also the students are present. We will introduce you to them later. Their curators are also present.

MidgasCaus wants to tell you galactic news that happened three Earth days ago. In the chromosphere of the star Betelgeuse, another, one of many, mini-explosion occurred, which transfers this star to another energy level. But it is not yet very extensive, although its energetic mass and power would be enough to completely turn 50-60 Earth-sized planets into a cloud of dust.

But considering that the mass of Betelgeuse itself is 10 times greater than the mass of the Sun, this explosion is insignificant. However, the outer shell of the chromosphere escaped from the surface of the star and caused a gravitational vortex in space that destroyed 15 gravity beacons in the vicinity of Betelgeuse. Because of this, several ships went off course. One of the ships from the Nguihaax system, which is a colony of Tumesout, has still not been found. This is a passenger ship.

Maxim: How does this explosion affect our Earth? And does it have any effect at all?

Irina : No, the Earth is far away. This explosion has no effect. It is in the vicinity of Betelgeuse. Since this area of the Galaxy is one of the central tourist routes, there are many gravity beacons there.

Maxim: I see. Yes, guys, don't think about it, I'm smiling in my Soul. I'm just so tired today: it was the last day of classes. Gave feedback to all students of the School: on the School, on the School's development plans.

Irina : He says there are suspicions that this ship with Nguihaax came out of a gravitational jump and, due to the fact that there were no gravitational beacons, fell into a star. There is such a possibility. Now they are looking for him, including through the Astral and Spiritual world. But for now the information is closed.

05:20 Registration of the "Health Center for Spiritual and Physical Development", brand "Cassiopeia". Retreat in Belarus.

Maxim: Guys, regarding the organization of centers. Here we train those people who are ready to leave and open centers in their cities. I registered an autonomous non-profit organization "Health Center for Spiritual and Physical Development". You can look at the Tax Inspectorate database. I received documents to register the Cassiopeia brand at Rospatent.

That is, at this point in time, we are ready to train people, send them to

cities and open branches of the Cassiopeia Center. We provide training to those people who are ready to open branches in their cities.

Regarding the retreat in Belarus. Belarus is not just a retreat, not just a trip. People who are ready to open branches of the Project in their cities and countries and work on improving people's health, both spiritually and physically, will go there. There will be a process of training specialists for opening centers, spiritual knowledge and combat training will be given: questions and answers with possible situations for opening centers.

What can the centers do? What kind of health equipment is in the centers? How will we receive people? How will we recruit a team? At the retreat in Belarus we will talk about team building and opening centers.

07:14 Presentation of certificates for completing the first stage of the "Higher Self" course. Link to the Cassiopeia website.

Maxim: Let's move on to the main part. We have good news. The third stream, the graduation of the School of Contactees "Cassiopeia", has ended. I would like to invite a ready-made specialist to the third place that you see on our screen. The most interesting thing is that this girl is from my homeland, from Kyiv, who was trained by us. How she got here, I still can't understand. Says MidgasCaus delivered on a plate like coronavirus. I no longer doubt that this is so. I would like to invite Marina Vyacheslavovna Makeeva here. This is the certificate Marina receives for completing the first stage of the "Higher Self" course. Here you go, Marina. I congratulate you.

Marina: Thank you!

Maxim: What a great certificate! Marina, look, she's been trained. A week has already passed. Fast, long, how?

Marina: It didn't even fly by like one day. Like one hour.

Maxim: Were your expectations met regarding why you came here?

Marina: I went because MidgasKaus really called me. It was only thanks to him that I came here. I realized that this is a very important mission. I already had information that I should receive spiritual knowledge that is so unique.

The first thing that is important is that I learned something about myself that I didn't know before. This is unique spiritual knowledge about ourselves within us. This is the connection of the Spiritual world and the material world. At the Cassiopeia School they are received in full. This happens in unconditional Love! Incredible! Therefore, with great joy and blessing I am grateful to Maxim and Irina, the curators of MidgasCaus, LiShioni, and the entire Interstellar Union for this opportunity. I am very proud that I was able to do this with joy. We will open both a spiritual and wellness Center in the near future.

Maxim: Marina is leaving for Kiev. I want you to open a Center in Kyiv. I, for my part, with my structure, will definitely help with anything that can be helped. If anything, you and I will talk about the equipment we use. This is about the latest technologies. Thank you so much! Good luck to you there, in Kyiv, in opening the Center!

Marina: Thank you!

Maxim: Yes, I forgot to ask. Did no one want to take your apartment away from you?

Marina: No!

Maxim: Some people worry that here we have something like a sect, where people are deceived. They give them some strange things. Something strange is happening to them. Guys, nothing strange is happening here.

Irina: Look what they write: "Bring me to Irina!!!!"

Maxim: To Irina? Yes. Nothing strange is happening here. We don't need your apartments, your cars. Our main task is to teach every

person to communicate with their Higher Self, with their highest spiritual structure. To do this, we will conduct retreats and train you. We don't need anything from you except mutual respect and revenue, compliance with the Cassiopeia Project.

I would like to present a certificate to a very good, obedient, wonderful student. You will now find out how much she liked it. Sakhutdinova Tamara Petrovna. Take a seat so our viewers can see you. Let's tell it like it is. Does the school meet your expectations? What did you get at school that you didn't? What happened to you anyway?

Tamara: Guys, I want to say that I have been hiking, now I call it to the "Higher Self" for more than fifteen years. I was wondering: what else can I learn here? And before going here, I received information: "Go, there are some highlights." I got the highlights here. Not complicated, not written in books, which come from the heart, from the Soul. You see, they come not from the brain, but from the heart. And they are precious.

I got what I wanted at the School. First of all, their hearts merged. I love, I adore everyone, we have such a team, it feels like there is one family here. When I was driving here and we met here, I thought: "Well, thank God, I found my people." I am also going to open a Center in Krasnoyarsk upon my arrival home. This is not the end goal. After consulting with my supervisors, I know that I will have more than one Center. The launch site is in Krasnoyarsk, and then it's in my program - the curators said: "When you come, we'll tell you everything." So I'm waiting for their advice.

Maxim: Thank you. Thank you so much!

Tamara: I'm so grateful! Thank you! Thank you for being here. Why did you start such a thing? That's why no one has yet started a business unselfishly, with the Soul and for all humanity, and not for some select few. Thank you, Irochka! Thank you! Thank you!

Maxim: Krasnoyarsk, hold on! A specialist is coming to you who will open more than one Center in Krasnoyarsk. We give feedback for opening the Center to everyone who comes to us. Not only spiritual

knowledge, but also financial knowledge. Knowledge of how to properly organize the Center, how to correctly convey spiritual knowledge through the “donation” system and at the same time provide the Center with everything necessary. Regarding the opening of the School, you will learn further about St. Petersburg.

I would like to invite Vyacheslav Viktorovich Karetnikov to present the certificate. Slava, this is the certificate. Tell me how you were tortured here? How were you zombied here and were you zombied at all?

Vyacheslav : Yes, the week was very busy. The information that Irina gives is simply priceless. Not only Irina, there are other specialists behind the scenes.

Maxim: By the way, how do you like our Ilya?

Vyacheslav : Ilya. It has a special resonance. Thank you, Ilya, you are in my heart, like Irina, like Maxim, like all my colleagues, like friends. The week was very full of information that we received here, it is priceless. I am filled with Love here, here the whole space is filled with Love. I do not know what to say. My Soul is singing. I am very happy and grateful that I am here, that my mentors or someone else brought me here. First of all, myself.

Maxim: Do you plan to open a Center or join open Centers?

Vyacheslav : I plan to be with Cassiopeia, first of all. I'm already here. And in the future my path with Cassiopeia will be connected. Time will tell about the center. My dear fellow countrymen from Nizhny Novgorod, I have been trained and can lead you to your Higher Self. I will try to help each of you connect with your Higher Self. Hear your true self. Join us.

Maxim: Thank you very much, Ilya. Thank you very, very much. Well done.

Guys, about how to contact those who open Centers in cities? We have all the information in the VK group. We also provide information

under the video. We have “Cassiopeia” chats: Ukraine, Stavropol, Rostov, etc. Many cities have their own chat rooms. You can join these chats in your cities. In your cities, find out about specialists who have completed training, how to complete this training, and where to sign up. In chats by city, which will be listed on our website.

We have opened a website cassiopeia.center (https://taplink.cc/cassiopeia.center) You can go to this website and see all the information about issues, specialists, and retreats. All information should be there. The site is currently under development, but there is already a large amount of information there about the Cassiopeia Project.

I would like to present you with a certificate. You asked about Peter. We have a wonderful specialist in this issue. I would say such a combat specialist who is already ready to open more than one center. She talked to me about the equipment. I'm ready to give her the equipment, if only she wouldn't pester me. She means business. There will definitely be a branch of the Cassiopeia Center in St. Petersburg.

I would like to introduce you to Irina Vasilievna Videlnikova. This is the certificate Irina receives. Keep the certificate. I want to tell you one very interesting news. Ekaterina did not undergo training alone, she underwent training with a future Cassiopeia specialist, but I won’t tell you what kind of specialist this is. It's a big secret. But, if this specialist appears, he will be a very serious help to the Cassiopeia Project.

Irina, please tell us how your training went? What was the training? How do you feel?

Irina Videlnikova : I thank you. Thank you for being. Me, Maxim, Irina and our whole team. It was amazing. Amazing trip. The training exceeded all my expectations. Even more. I was traveling with the goal of opening a Center in St. Petersburg. It will open soon. That's for sure.

Maxim: I know you already have a room. There are possibilities for this. We talked about equipment. In the future, we will equip this center with equipment together. And we will launch it to the maximum extent possible and as quickly as possible. I know the deadlines are tight.

Irina Videlnikova: Yes, I have an idea. Yes, we'll launch it. This will be a Center for both physical and spiritual healing. Connecting with your Higher Self on a physical level as well. I think that everything will be worked out in its entirety. Thank you! Thank you!

Maxim: Good luck with the opening of the Center! We had 13 people in this stream for training. But we will not introduce everyone to you, because we have very little time. I want to introduce you to a wonderful person. This is a naturopath, bioenergeticist. A person who deals with herbs knows about the energy structure of Hartmann fields. This man is from Crimea. Now we are sending a swallow to Crimea. Crimeans, this person will definitely have a Center, he already has a place. I invite Sergei Vasilievich Badnikov. Here is the certificate. Congratulations!

Sergey : Good evening, friends! I represent Crimea. Honestly, the trip here, in general for me, a prepared person, was an atomic bomb inside my consciousness. I am grateful to the leaders and teachers who taught us here, promoted us and, most importantly, revealed new possibilities in us. I can tell you from the bottom of my heart that you will not find such a school anywhere in the world. I say this consciously, because, having a higher education and having received the highest knowledge, I honestly say that these are unique people who teach.

I thank Maxim Rusan and Irochka Podzorova for creating a powerful team that gave us this knowledge. I can compare this to one. If you place a jeweled ball in a person’s head, which will attract all the positive emotions of the globe, they have it all. I speak responsibly. These are the most unique people. I think they will create a lot of schools around the world. And this divine fire will illuminate our entire earth and, I think, will extinguish all the negativity very quickly. Therefore, I thank you from the bottom of my heart. Thank you for being.

Irina: Thank you very much!

Maxim: Thank you!

Sergey : Once again, thank you very much! Have a good journey, health and prosperity.

Maxim: When you come to your place, please put out a shell from me.

Sergey : Guys, I also want to add, just a minute. Kohl touched on this topic. At one time, scientists and I worked out protection against geopathogenic zones. This is unique knowledge, which, I think, we will spread across all our teams, because there are very few specialists who possess this knowledge. I will pass on this knowledge with love and joy. Thank you, we already have the filling.

Maxim: In this graduation, at the third school, our curators and mentors brought a specialist who in the future will deal only with cancer diseases. That is, we now have a specialist who will deal with cancer patients of all stages at the energy-informational level. We'll talk about this later. We are currently preparing and coordinating this project. Due to the fact that many cannot come to study with us, we do not yet have such capacity. So far we have not built a large center and institute for teaching exactly this knowledge, new technologies and spiritual literacy.

23:33 Opening of the "School of Wellness through the Higher Self."

Maxim: We are planning to open a "School of Wellness through the Higher Self." One week will be dedicated to the School of Contactees, the other to the School of Wellness. I would like to invite Ilya to the live broadcast now, the senior teacher of the "School of Wellness through the Higher Self." Ilya, hello! Ilya, please tell us what your impression is of the third wave of students. I honestly feel like "Mamai has passed." When I let my students go, I then have a whole day of restful sleep. How do you feel after graduating from school?

Ilya : A huge number of different energies, in particular, Burkhad, from which I "sausage" from the inside. From the energies of Gihor, I have an unreal expansion and an inner sensation that is very difficult to convey. And when all our friends gather somewhere in our class, it turns out to be some kind of huge synergy.

Maxim: Excuse me, Ilyusha! I will now explain to you what is happening in general. Ilya will lead the School, but it will not be a School of Contactees. At the new School you will receive feedback from Ilya, as a teacher, as a contactee. What is health? How to improve your health through contact with your Higher Self? In the morning he will work with you, teach you contact with the Higher Self, and in the afternoon you will undergo wellness treatments here at the Center with a 50% discount, like our partners, like our friends. We have an affordable category of these wellness treatments. We'll tell you everything when you sign up. You will receive feedback. I don't know how we're going to record people? Shall we give you a link then?

Ilya : Yes. A link will be given to a website where you will need to answer 5-6 questions. What is your name, return phone number. We will contact you and agree on the time of arrival, booking a hostel, etc. We will discuss all conditions with you over the phone.

Maxim: The school will be taught by Ilya. We have already received feedback from our people who came to study. From our curators. We see his work and his program. Plus, Irina, you don't know about this yet, on the last day, you and Ilya have a joint lesson, so that people can get feedback from you at the wellness center. We have the latest equipment using new magnetic resonance and bioresonance technologies. This is not fantasy.

Here we can restore and heal not only the body, but also through training - the Soul. I would like to remind everyone that all doctors who took the Hippocratic Oath know that Hippocrates said the following phrase: "In order to treat the body, one must learn to treat the Soul." One without the other is useless. Therefore, in our Center you will undergo both spiritual and physical healing. We will give all the information on how to sign up for these health groups a little later. Ilya, is there any program? Program structure. How long is it designed for?

Ilya: The program lasts six days. From the first day we will connect with the Higher Self. We bring each group member to the Higher Self. Every day there will be group sessions of connecting with the Higher Self, working through blocks, working through grievances. We will teach to sincerely forgive everyone with whom we have grievances, to let go and dissolve these blocks. We will shape our future reality, learn

to correctly express our intentions, and form our thoughts. So that our curators, Angels, everyone who guides us, hears and understands precisely in order to shape our future reality around us, the happy and harmonious one that you and I dream about.

Maxim: This project is not aimed at teaching people contact with civilizations, but at teaching contact with the Higher Self. Through the Higher Self, we will give feedback about the spiritual causes of your diseases. By recognizing the spiritual cause of your illnesses and working with it, you will be able to physically recover using completely new devices using new technologies that already exist to improve the health of the body. We are not a medical center and do not engage in treatment, we are engaged in health improvement. Therefore, we are waiting for you. Your center oversees...

Irina: FSB of Russia.

Maxim: No need to speak out loud. This is scary. Guys, we are always happy to welcome you here. There is no reason in our Center. It was built with love for you, for every person. We wait.

Irina: If you have a document, at least one, then all the data about you is already there. Moreover, in this organization in which we are registered.

Maxim: There will be a Cassiopeia website. I will now ask the administrators to indicate this site under the video, in the descriptive part. Supervised by the US CIA. Guys, you decide who supervises us! I'd like to know for sure. Yes.

Irina: And I liked one: “Is it possible to write to Mead...”

Maxim: Guys, this is a very serious structure. And I respect this structure. Why? Because she oversees security in our country. I am always open to any structures and am ready to work, in terms of security, in our country. This is the most basic thing. I would like to live in a country where love, happiness and joy flourish, and where security exists. Without this structure it is very difficult to talk about security.

Irina: One wrote: “I want to write to Mid, give me his WhatsApp.”

Maxim: Guys, I believe that all the structures that have been created in our country support law and order and legal consciousness. Then it all depends on your fears, how afraid you are. For example, I am not afraid, because I do not do any illegal actions, I comply with the constitution and legislation of the Russian Federation. I try to do everything within the framework of the law of our country. Everything is official with us, there are no underground moments, closed structures, no one whispers behind our backs. I am happy to, if I suddenly break the law, I am ready to communicate with another structure. Let them explain it to me. Maybe I do this unconsciously or irresponsibly.

If there are complaints or any questions to me, as the head of the autonomous non-profit organization that I opened, I am always ready to answer any questions. I have no internal destructive goals. I am ready to support the structure of the state, the Christian religious egregor and other religious egregors that are in our state. I am ready to harmonize with my autonomous non-profit organization into any egregorial structures.

Irina: By the way, the Charter of the non-profit organization spells out all the nuances of our activities.

Maxim: The charter will be posted on the website along with an order appointing me as the head of the organization and with a certificate confirming the registered brand. They don't care about us because we are not destructive. The audience who watches us raises this question, which is why we talk about it. As the head of an organization, I have nothing to fear. I do everything in accordance with the letter of the law of our state.

Ilya, we will post information later. I think that on the next live broadcast we will already give a link to the School, and people will be able to start signing up.

Ilya: Yes.

Maxim: Ilya, thank you very much! So, guys, our broadcast is not so extended. We still have a very interesting topic. This is an upcoming training retreat where we are bringing together a huge team from all over the world. This is Europe, Asia. We will be able to pass on our knowledge so that people can travel all over the world and be able to open similar Centers in their own countries.

A non-profit organization has the right to open branches throughout the world. Not only in our country.

33:58 Preparation for the retreat in Belarus. About the retreat in Buryatia.

Maxim: I would like to invite Evgeny Vyalkov so that you can understand what is happening with the retreat. As I understand it, many did not receive feedback. Applications have been submitted. This person is responsible for structuring all events and organizing the Cassiopeia project. They write to me that they have not received feedback via SMS. What to do when you have submitted an application, when to wait? How does this happen? I can't control everything.

Evgeniy: Yes, we received a huge number of applications. We didn’t expect there to be so much, so we don’t have time to process...

Maxim: How many applications are there today?

Evgeniy: More than five hundred.

Maxim: And of these we can accept no more than one hundred and eighty, right?

Evgeniy: Yes. We can accept one hundred and eighty people.

Maxim: Is this the maximum?

Evgeniy: Yes. Because we have limited space in the conference room where we will conduct the training session. We are preparing this retreat in the format of a training session in order to cover the geography of Russia as much as possible. Sorry, I'm nervous, even though this is my second time on air, but...

Maxim: Zhenya, I always say: "The most important thing is to breathe." Evgeniy also went through school. It leads to the Higher Self. All our Center specialists do this. When you call about a retreat - our team and I agreed that each person will have to go through the Higher Self before going to the retreat - the team approves you for the retreat. There will be specialists from the Center. They may not be super professionals, but they are specialists who have completed their training and who will connect you to your Higher Self.

From the Higher Self you will learn why you need this retreat, whether you need to go there, open a branch of the Center, work in the Cassiopeia project. Going to the Higher Self to give feedback: how much you need it. When will we give feedback to people who have applied? Will we stop accepting applications?

Evgeniy: We have already stopped accepting applications.

Maxim: Stopped?

Evgeniy: Yes. Therefore, we can accept one hundred and eighty people. Most of the applications have already been processed. For those who have not been reached by telephone, we will send out a mailing to those people who cannot attend this retreat. Understand us, we cannot embrace and invite everyone. The initial task was to invite those people who want to open Centers in Russia and the world. If you have not received an invitation, you will be able to go to the centers that will be opened by people from the retreat.

Maxim: So we will give feedback to everyone who submitted an application?

Evgeniy: Yes.

Maxim: Sorry, you didn’t make it to the retreat...

Evgeniy: Therefore, check your email. We send mailings to the addresses you wrote. For those applications that we accepted on WhatsApp or Telegram, be sure to look at the announcements. We will create closed chats where we will provide information about our next actions.

Maxim: (Laughter about the message in the chat) Guys, when you get rid of yours, come to us, we will look at you, relieve you of fears and worries, and connect you with your Light of Truth and Love. Come to retreats. In the near future, as soon as it gets warmer, I will begin the construction of a huge Center, where we will have both the Cosmoenergetics Center and the Cosmohealing Center, a research institute where scientists and I will study the topics of the Interstellar Union. There will be meetings with curators, mentors, work with extraterrestrial civilizations and the subtle world.

It seems to me that our state should accept and acknowledge that this exists, and many people are talking about it. Our task: not to recruit you, not to scare you, but to make every person on Earth a full-fledged specialist who can participate in astral travel, mental research, and research on topics provided by the Interstellar Union. This is not a scam. You come here and I give you feedback. I am teaching you how you can earn money and at the same time carry spiritual knowledge on the “donation” structure, on the “payment according to the heart” structure.

The main goal of the project is to transfer all spiritual knowledge, the transfer of this spiritual knowledge, spiritual treatment, and health improvement to the structure of “payment according to the heart” so that it is available to every person. All other health procedures that exist at the Center are paid for. Payment will be available to every person, even a pensioner with a pension of 10-12 thousand rubles. And what you write there: officers are not officers. Guys, I served in the army, I’m not an officer, but a senior sergeant. I don't have any other title. Don't worry, don't worry, I'm a former government civil servant. I am a former professional athlete.

The fact that I am big and bald does not mean that I work for some

kind of intelligence agency. I would love to work if I were invited, but, unfortunately, no one invites me and, I hope, no one will invite me. I don't even have enough time for people who need to give feedback. Until two or three o'clock in the morning, sometimes I personally answer the SMS you write. I try to provide feedback to every person.

Today I thought about not doing this broadcast because I was very tired. The guys won't let you lie. Today we spent a colossal amount of energy to harmonize the process, to bring it into compliance, and then work in this harmonized process, so...

Irina, do you have something to say? Zhenya, thank you very much. I will ask you live: "Please give feedback to every person who wrote an application, gave us time, so that he understands and knows whether he is going or going." In the coming days from this broadcast. Will ten days be enough?

Evgeniy: Less. I can do it in a week.

Maxim: Can we give feedback in a week?

Evgeniy: Yes, of course.

Maxim: Guys, don't worry. In a week, we will give feedback to everyone who spent time with us: wrote an application, expressed their desire to study. Our next retreat will be on Lake Baikal, in Buryatia. After Belarus we go to communicate with Lama Itigelov. Don't tell this secret to anyone. We're probably going in August. There we will try to find contact, communication with him, communicate at the place where he is. Datsan. Irina, do you have anything to add?

Irina: Yes. I will be happy to answer your questions or our curators. We won't be able to go to Bulgaria now...

Maxim: I will answer. We take new information from other sources. Please check in other sources what date the information was posted. We see a lot of our information in other sources. If you think that we take information from somewhere, then you are mistaken. We receive

information from representatives of the Interstellar Union. They copy us, a lot of fakes have appeared on Odnoklassniki, VKontakte, and Instagram. Please be careful. Photos are inserted with my and Irina's names. Fraudsters do not sleep. They will try to give the lessons that some people need. Therefore, before working with a specialist, please see if there are links to him on our website. Ask a specialist if he has this Cassiopeia certificate.

Irina: Why don't they call me about the Cassiopeia retreat form? They have already said: because there are a lot of applications. They don't have time to process them.

Maxim: Skip a little here. It's about the connection being broken. We just talked about this.

Irina: When will Ruslan Nelnaro be on air?

Maxim: This issue should be resolved with Ruslan.

Irina: Yes.

Maxim: We will be happy to broadcast with him. We are not hiding from him, we don't have enough time. We have a huge amount of internal affairs, training, and sometimes I realize that I sleep for 3-4 hours. Now I understand Nikola Tesla, who slept for 3-4 hours. Because the idea of presenting information to the world makes it possible to get enough sleep in 3-4 hours, and you get up and go to destroy and create.

45:12 Teachers and masters at a retreat in Belarus. The light of Divine Love in the heart to set up a channel with Christ. "Donation" - payment according to your heart.

Irina: Guzel will be at the retreat in Belarus.

Maxim: Ivan Yonten will be at the retreat in Belarus. You will have cosmoenergy sessions in the morning. He will conduct training and

initiation into the channels of cosmic energy. Everything is on “donation”. In the evening, Guzel will conduct cosmohealing sessions with our Intergalactic Medical Service, with our interstellar friends. Everyone will get their own curators. During the day, Ilya, as a teacher, psychologist and contactee, will give you feedback on the psychology of interaction with people. Irina, as a contactee with extraterrestrial civilizations, will give feedback on the structure of the Spiritual World and astral travel of the Interstellar Union.

Irina: Do you need a church to set up a channel with Christ? The word “church” does not mean a stone building or a complex of such buildings. This is the Temple. The Church is a collection of people who believe in Christ. If a person sincerely believes in Christ, prays to Him, loves Him and, more importantly, fulfills His Commandments, which are in the New Testament and has a connection with it.

Although Christ is on Burkhad, spiritually He hears all His followers. And He considers as His followers everyone who does His work on Earth. If such people form a community, no matter what it is called on Earth, they have a connection with Him. The church, as a collection of people, can have a connection with Christ. An individual does not have to belong to any particular denomination. It is enough to sincerely bring the Light of Divine Love to every person, to yourself, to God. And then you will be with Christ in your heart, no matter what religion you belong to.

Maxim: Question: from what level did my Soul come here to solve its issues? From the sixteenth spiritual level. I have a transitional level, from sixteenth to eighteenth, which is quite difficult. There were times when in this incarnation I dropped to level six. Maybe lower.

Irina: Wow!!!

Maxim: “The mentally ill” write to us.

Irina: Their button is stuck.

Maxim: Guys, so that your button doesn’t get stuck, come to the

training. We will give feedback.

Irina: The mentally healthy don't look at the mentally ill for an hour.

Maxim: Guys, we are waiting for you at the Wellness Center, in a new program, which will be taught by a wonderful teacher Ilya. It's called "Spiritual Wellness Through the Higher Self." We are waiting for you at our Contactee School, led by Irina and Ilya. You will learn to communicate with your curators through the Higher Self. We are waiting for you at the retreat in Belarus, where we will tell you about everything we have. We will provide knowledge, information on the structure, opportunities to work, equipment, and opening of the Center. Everything will be told at the retreat.

Irina: Allow **...**

Maxim: Guys, I want to remind you once again that "donation", "payment according to the heart" is not free. So that you understand that paying according to your heart is an opportunity to help the Cassiopeia Project continue to grow and develop and open Centers. To do this, I created a non-profit organization, which you and I will fill: open branches in cities, build children's projects, health centers so that people with any income can get into them.

The Wellness Center, which already exists, has a service: every day one person comes for a "donation" - "payment according to the heart" for any procedures. This is my gift to the Universe, which I am ready to introduce into any Center, wherever it is open: in St. Petersburg, Moscow, Rostov, Crimea. Be sure to take people who cannot pay for medical health services, but they have a desire to improve their health.

One person per day per "donation" is a prerequisite. This is a gift from the Universe, your gift to people. Even if you are not paid anything, know that it was paid according to your heart. A person "after his heart" will do something: either help the Center. When opening Centers, take one person every day for health improvement, on a trip to the Higher Self.

To go to the Higher Self, we only have “donation”. For wellness treatments, you pay according to your heart. We will also have a massage therapist who will work in our Center on a “pay according to his heart” basis.

We are waiting for you in our wellness center. Here you will receive feedback that will not be given in other Centers.

Bye everyone. I hope we've discussed everything. Look for information on the website cassiopeia.center, Cassiopeia, dot, center. There are chats about retreats, new information. All information will be on our website. Guys, bye. Thank you for being with us. Carry the Light of true Love with us. We are waiting for you in our Cassiopeia team.

Broadcast March 04, 2021

Participants:

Irina Podzorova - contactor with extraterrestrial civilizations;

Maxim Rusan - head of the Cassiopeia Project and the Center for Spiritual and Physical Development;

LiShioni is a representative of the planet Shimor, a specialist in the astral world and its interactions with the material world;

MidgasKaus - representative of the planet Esler, biologist, psychologist and specialist in alien civilizations;

Participants of the third edition of the Cassiopeia School.

#232 Project Association of contactees. First meeting 03/08/2021 Single Divine Source.

https://blog.cassiopeia.center/proekt-obedinenie-kontakterov
https://www.youtube.com/watch?v=WqZK3OdBK3o

00:23 Goals and objectives of the project to unite contactees and esotericists.

Maria: Dear friends, I am glad to welcome you all to our meeting. First of all, I want to congratulate our ladies on a wonderful holiday - March 8th! This holiday has been associated for me lately with the balance of energies. For me, this is a reflection of the fact that all energies must be in balance. Both male and female. I hope that in the future this pendulum, which swings from matriarchy to patriarchy and from patriarchy to matriarchy, will finally stop in the center, stop in balance, in harmony, and we will be able to balance these energies. I thank you, women, for the light and love that you bring to this world. For tenderness, affection, patience, sacrifice and understanding every day, and I hope that we can, by harmonizing our energies with masculine ones, bring our world to a bright, wonderful balance, to those energies to which we all strive.

I will now explain to our TV viewers and our friends why we have gathered today. Friends, we are starting a very interesting, very important project, a unique movement to unite contactees and esotericists of various directions. We want to show with this movement the unity of our Universe in all its diversity, in all its uniqueness. We are all different, we have different worldviews, we have different channels, different perceptions of the Universe, but we are all united in the Light of our Father God.

We want to show you that we respect, love, accept each other well, and follow each other's activities with interest. By telling you about us, about our projects, giving you the opportunity to ask questions in subsequent meetings, we want to show that we are united together, we have common goals. Today our contactees will introduce themselves and tell us about themselves.

Perhaps we will have time to talk about various interesting topics. At the next meetings, you will have the opportunity to ask them questions on topics that interest you, get to know them, and visit their portals and resources. We are going to attract as many new, interesting contactees as possible to our project. I give the floor to Alexander Zharkov, our only man at this meeting. Sasha, you have the floor.

03:58 Alexander Zharkov - Veles Darius - healer, parapsychologist, clairvoyant. Alexander Zharkov about his task and the purpose of uniting contactees.

Alexander: Yes, good health to everyone. First of all, once again, I continue to congratulate all the women present here and those who will be watching in the recording. I truly hope that your hearts are filled, you are supported, inspired, you feel connected to your Soul, to Mother Earth. I wish from the bottom of my heart: "May you always love and be loved. In all its manifestations, as you understand it."

I would like to talk a little about the fact that this movement partly - maybe this is how it should be - has repeatedly begun to unite by different groups of people. You know, there is an ancient Slavic expression "for everything there is a time." It somehow didn't work out before. They wrote to someone, I wrote, other contactees wrote: "Let's do something." Everyone didn't have time. And now, so symbolically, on March 8, we still gathered at the time when this should happen. I tried to initiate this movement. The Higher Powers carry out everything wonderfully through me. I understand that this is how it should be naturally, there should be some kind of male seed, and women are already further developing this business, giving birth to this project.

I'll tell you a little about myself. My name is Alexander Zharkov, Vedic name Veles Darius. I am a healer, parapsychologist, clairvoyant. I am trying to restore the culture of our people. I am studying the ancient

Slavic initial letter, runic and swastika symbols. My main task is what I would like to see in this project - to share knowledge and help each contactee, first of all, to create a unified system, if this works, to awaken beginners, to help everyone find a specialization and reveal their abilities, to show that this is possible . I believe that if we come a little closer to unlocking our potential, then we will fulfill our main purpose: to be God, to be the Creator, the Absolute.

My task here on this project is to exchange experiences, share, and be useful to someone. First of all, I would be happy to support, share my experiences, hear, and perhaps I said this before - to support the idea of trips to different places of Power; perhaps, you know, they were carried out before. Anyone who will be in Ukraine will be happy to accept, help, carry, etc.

I believe that our work should not only be on the subtle plane and online, it should also be on physics. And perhaps this movement will allow others to make a push to unite. In ancient times, in the Slavic system, everything began with leading people. One way or another, we position ourselves as leaders. Our Souls have chosen the path of transferring knowledge and skills. We must show by example how to find commonality in different things and how to create something worthwhile from these different things that will live, grow, and develop. Have your own consciousness, without violating the law of Free Will of everyone, with respect, on the basis of Love and Joy. That's all I wanted to say. Thank you.

Maria: Thank you, Alexander. I will ask Selena, our Lenochka, to tell us a little about herself.

08:15 Selena about her activities, about uniting contactees and about the importance of the project.

Selena: Good afternoon. I also want to congratulate everyone on a wonderful holiday. In my opinion, what else is magnificent? Today, while I was thinking about this topic, I realized that the number eight, March 8, is not just that? Eight, we know, is the sign of infinity. But it is also seen as a Mobius strip, in which two principles tend to each other. This is an eternal constant movement, when in the center there is interweaving, connection, then separation again. This is a multi-level

symbol, but in the part of March 8 it well shows the masculine and feminine principles, the desire for each other, connection, separation, eternal movement between two principles. This is wonderful. Such a great holiday. Let us always have this eternal movement. Someday we will unite, and there will probably not be men and women, but when they are, it is wonderful. You yourself know this better than me.

I am a contactee, Selena. This is the name I am known online. My contacting began at the end of 2011. I didn't do anything for this. I don't know about my other colleagues, but they just opened a channel for me, apparently the time has come. Sasha said correctly: "Everything has its time." There was a woman who used crystals to heal, and these crystals helped and activated my contact history. Since then, already the tenth year, a lot has happened. A lot of channeling texts have been written, because I write mainly text channelings. When this started in 2012, I had no idea what "contacting" and "transition" were. I didn't know such a word, except for the usual Russian word "underground passage." I had to dive into it. It was interesting. They then told me: "You have five years, relax, have fun. In five years, serious work will begin."

Five years later, they never lie, the work began in earnest. In 2017, I was "led" to conduct various seminars, including seminars on preparing for opening channels with people. These people are brought by Teachers who strive to open channels of communication with the Higher Self. Masha attended such a seminar. The next year they let me down smoothly, although I resisted, I didn't want to write personal channelings, or help people in any way. All contactees do this, and this is correct until people hear themselves and there is no connection with the Soul.

Back in 2012, the idea arose that there were so many contactees - then there were much fewer of them than now, now there are a lot of them and this is gratifying - that we need to unite. In 2012, I wrote to everyone I could contact. I wrote the "Contactee Code" and began to take this matter seriously, but apparently it was not the time for this process. Now, apparently, it's starting up again. This is a task that will give new powers and open up a lot in us.

And in this regard, I want to say how I see this association and what it is for. Firstly, this is an association on a professional basis: we are all

colleagues, we all have a lot of experience. We can help each other, unite with each other, exchange information. But that's not the point. The more important thing is that all the Higher Powers say that we must unite and unite. Walk together towards the Unified Planetary Consciousness. Of course, each consciousness has its own path of development, and this is respected, but one of the stages of development is the unification of humanity into a single consciousness.

Therefore, who else but us should start, as they say, one of the first, because we are the first to “hear”, and it seems to me that we should begin to implement all this. When we show that we can unite, that we do not work as media on a 3D level, competing, we do not have this understanding. We cooperate, we do everything on the principles of mutual respect, understanding the role of everyone. Each contactee leads its segment of people in a specific direction. All directions are important. All information is important. Each contactee gives a certain piece of information that another cannot give, because he has his own unique prism of perception. That is, to show that we do not compete.

Second, show different visions, the multidimensionality of processes from different sides, because what others say, which is not similar to yours, does not mean wrong. In this example, our listeners, our readers who stand and follow us - in some part they intersect, but there are also different sectors - they will also begin to unite. They will try to understand that if there is no disagreement between the levels of information, then there should be no disagreement between them. I'm interested in meeting all my colleagues.

In addition, I understand that the time has come to learn multidimensional thinking, I am now at such a stage. An interesting proposal is to conduct broadcasts with different contactees answering questions from viewers. I myself would be interested to see that I see it this way, and my colleague sees it differently. I want to try to understand this side, combine it in myself, try to open multidimensional thinking. Discovering multidimensional thinking in yourself will make channelings multidimensional. That's how I think. Then people who perceive and read will begin to understand everything more multidimensionally. Then humanity will stop quarreling, arguing - as it happens on forums, who is right and who is wrong - and understand that everything has a place to be, everything is multidimensional, there are simply different angles of information. We will understand where we are going, how to get there, millions of ways. Therefore, this project

is very interesting for me. I will participate in it in every possible way and try to support it.

So as not to waste time, I'll say two more words about myself. Contactees have different areas of interest. There are many levels and essences of the universe, consciousness, with which you can talk on a telepathic level, as we do, but each has its own interests. Some of the contactees are talking with civilizations. This is also an aspect. I'm more interested in the hierarchical aspect. I find it interesting to walk through different hierarchies and see different information perspectives. Receive various pieces of information from there. I am grateful to my colleagues, who, in my opinion, uniquely and very accurately receive information on civilizations, where they directly tell what color their Sun is, how the planet works, what is happening there. This saves a lot of time, for example, mine, because it's impossible to ask everything, but it's interesting. Therefore, such interaction will help bring some new knowledge, including to my circle. I hope that everything will work out for you and me, or rather, I don't hope, but I am sure that everything will work out for you and me. All. Thank you.

Maria: Selena, thank you. Thanks a lot. I would like to ask Ligita to tell our dear readers and viewers about herself.

Ligita: Now. Let's give the floor to Irina or Morea first, and I'll give the floor a little later.

Maria: Okay, as you wish. Marinochka, please introduce yourself.

16:22 Morea about direct Knowledge, about the way of knowing the world and oneself, about the Truth.

Morea: My name is Marina, the same as Ligitu, who tried to sit behind our backs. It's very difficult for me to speak. You know me as Moreya, but for five years now the path I have chosen is different from the usual contactee path. Contacting has come into my life since 2010. Then it was a feeling of something lighter, something freer.

Very quickly, in less than five years, the knowledge came that

contacting and the essence of knowledge of any level that is obtained from the level of contacting is not complete knowledge. This is part of Knowledge. There was a huge desire to become this Knowledge. Not to those who transmit other people's knowledge, that is, not with a talking head, not with a radio on the air, not even with a very good transmitter, but to know what Knowledge is directly, without the one who transmits. I saw and felt from other colleagues that everyone took one side or part of the “elephant”. They judged by the tail, by the tusk, by the hoof and argued whether it was an elephant. I realized that it's not about us.

The point is that all this points to a different path. There is a path of knowledge through intermediaries, and there is a path of penetration into direct Knowledge. What is called Knowledge comes directly from the Creator, was created by the Creator, it does not need intermediaries. This is the path of achievement for any person. It doesn’t matter whether he is a contactee or an ordinary person, this path is the easiest and fastest way to understand the World and know oneself. It starts with knowing yourself.

For the last five years, my path has been connected with knowing myself and learning what is directly Knowledge and Peace. I'm sure we're not special at all. The very question of unification makes me smile, because we are not separated. We are not disconnected at all. It is impossible to unite those who are already one. It's like butter. I have no idea about separation. There is an idea about different views. This is the view of the mind, the intellect, it is not the view of the entity that we are. My path now is connected with giving an opportunity, prompting, showing or pushing people who meet on my path to know themselves, to know what is Truth without intermediaries.

I can be said to be something of an anti-contacter, because I believe that the most important knowledge is located inside a person. And this knowledge is called Truth. This Truth, this path is open to every person born on Earth. Everyone can succeed, be it a scientist, a janitor, a housewife. It doesn't matter how many times he was born on Earth. This is only possible due to the fact that we are created and are children of God, created in the image and likeness of God.

I support everyone who goes in this direction. I am interested, on the one hand, in participating in this project, on the other hand, I will

always, as our youth say, “drown” for the fact that the Truth is not somewhere nearby, it is inside everyone. I consider the awakening of this Truth within everyone to be the only interesting reason for living on Earth. This is what I've been doing lately, whether someone likes it or not. Something like that.

Maria: Marinochka, thank you very much. I think that all of our guests today will agree with you. It's true: we are one. And the goal of the project is to show this to others. It is not an end in itself that we unite, but to show our subscribers, readers, and listeners. Very often I receive questions from those who read other portals, other contactees. They come and ask: “Who is telling the truth? Where is it right? Have you heard, read, Morea writes like this? And Selena says like this.” Basically, in order to help our subscribers, our followers, reach the same level of understanding as you and everyone else here, we show them by our example.

Morea: I would just like to emphasize, girls and boys, that I will not be very comfortable, because I believe that we are not the ultimate truth. It does not depend on us how people will perceive the World. Only how we perceive the World depends on us. And no matter how much we talk about the sweetness of life and perception of the Truth, until a person feels it within himself, it is useless to tell him about it. This is the first.

Second: no one can be taught to love life. You can only show your love for this life with your own love. And everything else is like a poster on the road: “Be happy, women of Russia.” But if you don’t make any woman happy, if you yourself, as a woman, are not happy, then this poster is a mockery. But this is in my opinion. When it comes to opposites, people will always look for opposites. Even if we describe the Sun, they will still find the opposite. The opposite exists in people's heads, not in life. I see my task as turning people back to life.

Why am I still in this project? I was thinking whether to participate or not to participate. I know you all as individuals, and I respect and love you very much, without any contactor crowns, halos, wings behind your backs or teachers who hang around there. They are far below you in the life that exists. I drank tea with each of you, with the exception of Elena and Alexander, and I know you in life.

Selena: Marishechka, everything is still ahead. I have no doubt that we will have tea again. And everything you say is true.

Morea: Yes. Therefore, I came solely out of affection for you. Something like that.

Maria: Thank you very much. I really value people's own opinions and straightforwardness. Courage and determination to go even against someone's opinion or, as they say, the mainstream. Therefore, you are a very valuable member of this movement. Irochka Podzorova, please introduce yourself to us.

25:03 Irina Podzorova about herself, about Truth, about the law of unconditional absolute Love and the task of the Cassiopeia Project.

Irina: Hello, dear friends, dear fellow contactees of all levels, of all Worlds. I've already looked a little. Hello, Maria, Marina, Ligita, Tatyana, Elena, Alexander. Once again, I congratulate all women on March 8th. I join in the words that have been spoken about unity and truth within everyone.

I want to tell you a little about myself. My name is Irina Podzorova. I have been a contactee with extraterrestrial civilizations of the Interstellar Union (IU) of the Milky Way Galaxy since I was 13 years old, that is, since 1999. More than 20 years. I had a long period of physical contact. They still continue, but I spend less time on it. From the moment I entered the Internet space, I was given the opportunity to contact also subtle-material civilizations and the Spiritual world to answer questions from my group. I was given the knowledge of how to connect a person with his own essence - the Higher Self, the very Truth that exists in everyone.

There is Truth in every person. All other information, including books, teachers, from whatever planet they are: from Earth, Mars, Burkhad, from the Spiritual world, be it Archangel Michael, aliens or your teacher at school. All personalities are only an instrument of God so that you can truly know the World and know yourself. Without knowing yourself, adequate knowledge of the World and manifestation of yourself in it is

impossible.

Why do we need these civilizations and contacts with any individuals? In order to receive information and find unity in the worldview of all these individuals. And through this unity we comprehend the only law of the divine will under which we live in this reality. This is the law of unconditional absolute Love. All the laws and commandments of religions and philosophical systems existing on Earth, and not only on Earth, lead us to the fact that the most important task of intelligent beings in the Universe, wherever they incarnate, is to develop in themselves the energy of absolute Love. Because without Love it is impossible to comprehend the Truth either in oneself or in another, or to feel absolute happiness. I understand absolute happiness as a state that causes the need to share it with others, increasing the overall level of awareness, perception and feeling of unity with everyone.

My task at the moment is to teach every person who is brought to me by mentors to communicate with their Higher Self, to consciously communicate with their curators. I emphasize, not with mine, but with my own. Communicate at the level of equal individuals, without elevating curators or lowering them. At the level of equal individuals, aware of the right of choice for everyone, both the curator and the contactee.

My most important task and the task of the entire Cassiopeia project, in which we are participating together with Maria, who arranged this meeting for us, together with Maxim Rusan, he is now with our students at school. The task of the Cassiopeia project is to turn a person towards himself in Truth, Love, creativity and absolute happiness.

The project in which we are participating helps to increase vibrations, the level of awareness, and Love. We will answer people's questions depending on our perceptions and life experiences. In our words we will try, consciously or unconsciously, to see a single meaning. With this we will create a collective thought form, an egregor. It will help our students who voluntarily follow us, watch our information, and try to implement the spiritual advice of our curators, to whom they ask questions.

In order for us, our Light, to be believed, we need a personal example of Love, a relationship between us that will be an example for this World. It's not for nothing that under socialism there was a saying: "A pioneer is an example to all the guys!" Pioneer means first. In this world we are Light, Lights, guiding beings for other people.

Why guides? Because many people look not only at our words or our curators, they look at our communication with each other, at our behavior in everyday life. If a person, woman or man is unhappy, and at the same time talks about happiness, they can only evoke an ironic smile, but not the desire to follow them. Only the person who loves himself, his neighbors and God can be truly happy, no matter how banal it may sound. This eternal truth is reflected at all levels and planes of existence. Thank you for attention.

Maria: Irina, thank you very much. Ligita, please introduce yourself.

33:04 Ligita about herself, about investing in centers of spiritual growth, automatic writing for reincarnation channelings, transcripts of the Akashic Chronicles, about contact with the Mother of God.

Ligita: Yes, I am ready to perform with great pleasure. First of all, congratulations to all the lovely ladies. You are the best that God has created. Secondly, when we were preparing this conference, there were questions in the telegram channel: "Why organize presentations when everyone can see information about us on forums, on our websites, on our resources."

Two words about why I don't have my own website and my own resource. In 2012, when I opened my channel, I had already existed as a business consultant for 35 years. I had two types of business. Production and consulting. If my clients from the Facebook list recognized me in this capacity, their reaction would be, to put it mildly, unpredictable and ambiguous. Therefore, the less I am on the Internet, the calmer I feel. Over the years I have done a lot of consultations about 4D business.

My awakened businessmen are already ready to invest in centers of

spiritual growth. They open up. I hope I will be on these resources too. One of my tasks in this project is to unite these centers of spiritual growth, because awakened Souls thirst for unification, they are ready for this. Now me and my channelings can only be seen on the websites of “Quantum Reality”, “Magic School” and on Instagram.

Now a few words about myself. I have a channel, as I already said, since 2012. At first it was an automatic letter, then sound joined. I use automatic writing for reincarnation channelings, which show the main incarnations and experiences of the Soul. I have two types of channels. One, through the Higher Self, where I can ask questions of any entity, from Archangel Michael to Christ, and receive answers. The second, besides my consciousness, is when I don’t remember what I said. Only by turning on the voice recorder do my listeners talk. The effect of the second channel, the unconscious, telepathic, is much greater, because it is on this channel that my clients meet their mentors from the Teacher System. Know their scripts. With the help of this channel, mentors from the Teacher System close old programs, for example, fear of manifestation, and unpack new opportunities depending on people’s vibrations. Typically, programs such as energy vision, protection, and financial flows are opened for many businessmen. I have to work a lot with Luka, with healing. Luka diagnoses the chakra column and very quickly cures chronic diseases, which I have ceased to be surprised by.

The last thing I would like to say is why I was drawn to this project. I have been going through a very powerful transformation lately. They unpacked a new program for me. This is a reading of historical transcripts from the special storage of the Akashic Chronicles, because the era of Kali Yuga is over, and everything secret becomes clear. I began to read documents and have already published channelings, for example, “The Last Two Hours of Mayakovsky’s Life.” About the connection between Rasputin and Yesenin. Dialogue between Shuisky and Godunov. All this can be read on the Quantum Reality channel. Now I have been told some amazing information about Hitler. It’s so scary that, frankly, I want to discuss with my colleagues whether it should be published. What to do now with this new type of channeling, I would really like to consult with my friends.

And the last thing that happened. The Mother of God took me by the hand, pulled me out of this space and out of linear time. It turned out to be much cooler than channeling. I suspect this is what Morea said.

Throws you out of this space and this time. It is impossible to describe in words. Now I'm trying to adapt to new energies in new fields and try not only to unpack the capabilities of my clients, but also to adapt my new capabilities. I understand that for this it will be impossible for me to stew in my own juice. I really want to discuss and share this. I really want to hear the opinions of my friends, whom I endlessly love and respect. Therefore, my tasks here are clear. Not only the development of our own channels and unpacking the channels of others, but also the unification of spiritual centers that have been created during this time, and, I hope, will continue to be created. I love you all.

Maria: Ligita, thank you very much, I'm very glad to see you in our project. Now I give the floor to Achula.

39:07 Achula about the revival of feminine energy, about their names, antennas, about the "Telos" trilogy and the unification of contactees.

Achula: You can hear me, right? Hello everybody. Congratulations to everyone, the most beautiful, the sweetest, the most reliable, the most courageous. Today is still March 8th. It's a day like this for a reason. I'm repeating myself, but you see, there is a revival of feminine energy. This should not be forgotten either.

What to say? After listening to everyone, I agree with absolutely everyone. I am expressing my point of view. As for Marina and Yulia, yes, this is a new wave of activity on Earth. But you need to understand that the levels of consciousness of all people are different. And this is the front line of contacting, on which someone is now (Marina and Yulia have risen higher). The truth is in each of us, and that's right. To understand it, the former line of contact helps. This is the Higher Self to reveal.

Ligita: Tanyusha, which Julia are you talking about, tell me?

Achula: About Ligita, about you.

Ligita: Thank you, dear, that's what I understood.

Achula: About you, dear. Like this. What can I tell you about myself? I started communicating in contact work, in this activity, since childhood. Why didn't I pass! What levels of discrimination there are! And they scolded me with various words and so on.

In 2011, I accidentally bought the Telos trilogy. She happily lay on the shelf for a whole year. A year later, when I read it in one gulp, all three books, Adam contacted me and gave me the name Achula. This is how this activity began. Now I have several cosmic names, and this confuses many people. Let me explain. The fact is that my direction is to work creatively with the Earth. Creativity projects with the Earth. I accept diagrams and comments. Teams are created and we conduct activations with them. It depends on the level. I was Achula at this level for several years. Then another Spirit came: "You, like Achula, have completed your tasks. Now you are Kasachena."

So like this. This doesn't bother me at all. It's very good to have one channel. Let's say, Rona Herman has one channel of Archangel Michael. This is very good. But when there are a lot of them, I don't know how to explain it. My like-minded friend Ramona, a clairvoyant, saw that I had many antennas. "How," he says, "does she walk?" This is my path.

I am very glad that we are starting to unite. Back in 2012, my teachers talked about this. I wrote to many contactees. But then I was a novice contactee, I got hit on the head and abandoned this idea. Very pleasant memories of Belukha. Morea (Marina Dudina) contributed a lot to us. Until now, the pictures that we painted under her leadership are in front of me. Nice memories.

I really like visiting various places of Power. I've been to a lot of places. And in Ephesus with Mother Mary. The fact is that my daughter lives in Turkey. And there are a lot of places of Power there. And the Mother of God is there, and the god Zeus, and Cybele, many, many. I had an idea: to gather all of you in Turkey, like-minded people. But the idea did not pass in 2012. If there is such a thought now, then we can organize it. The coronavirus will pass for a reason. This will all end. And all this can be done.

But the fact that Ligita and Morea are with such people is a very

interesting moment. Marinochka, this is not anti-contact. This is a new wave of contacting. This is completely new. I know people who have reached another level, they are all open. Some are afraid of this, some are afraid of something.

That's probably all. Sorry, this is my first time and I'm a little nervous. That's it, thank you.

Maria: Thank you very much. You performed wonderfully. Don't worry, please, you are among friends. You are among like-minded people. We all love you very much too, I'm very glad that you are with us.

Friends, I thank you. I heard warm words from everyone today. It is no coincidence that today is March 8th. An interesting day, with interesting energies. At the beginning of the conversation, before the recording was turned on, Alexander began to tell interesting things about this day. Maybe this would be an interesting topic today. Male and female energies and their manifestations in our World. Maybe everyone will want to say something about this. What does he think, what does he feel? What are your associations with this day? Sasha, I give you my word.

45:46 Meanings of the "eight". Activation of magnetic transformation. Ancient Slavic initial letter. First hour of the morning in Svarog.

Alexander: Lena was talking about the G8. What are "eights"? We all know. These are fire, water, earth, air and ether in the center. This is one option. The second option is a Mobius strip. The third option is an upward and downward flow. This is infinity. This is what gives transformation, rebirth. And feminine energy gives transformation. First of all, it is magnetism. And, as we know, we have the electric one, the divine one on top, and the feminine magnetic one.

The energy of today is doing one of the most important things. It activates magnetic transformation. In women, they open up. These days you can work through a lot of ancestral programs and close contracts from past lives. Moreover, one of the most unique things that my research personally led to: during magnetism, we are as close as

possible to interacting with our parallel incarnations in other dimensions. At this time, it is easy to tune in to those developments where you are mermaids or the fifth, sixth, fifteenth dimensions. It is very easy to feel these energies.

These are very interesting times. I am engaged in the restoration of knowledge on the ancient Slavic initial letter using our original language, which forms our reality, the matrix structures of the Absolute. They are manifested through language. In this case, we only see graphic displays and interpret them in the language in which we communicate. The 16 drop caps that were removed are male caps. In modern times: Women will become more feminine as men regain their potential. It's synchronous. As Maria said: “Everyone will plunge into himself, but through interaction with the whole.” If we keep busy, the process will start.

Because in the Slavic system of traditions, the numbers of God (every month, every summer) were described in the calendar a very long time ago. It is now the first hour of the morning in Svarog. Kali Yuga has ended. The night of Svarog is over. It's only the first hour. Until 2024 we open our eyes. I am sure that now is the time when women should begin to open their eyes from the pitch-dark sleep that they had there for no less than 25 thousand 920 years, at least in this cycle of incarnations. According to the ancient traditions of our ancestors, the main thing for the evolution of consciousness and the transition of the Absolute was the purification of our Soul and the improvement of the Spirit. Only through the purification of the Soul and the development of the Spirit can we become who we are.

Therefore, I recommend to you women on this day (and men): the more you manifest yourself, the more you will give life. What is feminine energy? This is the letter "Belly". This is the letter "Life". How is it structured? Look how interesting it is. The initial letter “Belly”: this is in fact a male tick, a female tick, they are connected by a divine wand on top. This is life force. That is, the Creator approved and united masculine and feminine on all levels (divine and earthly). We understand these things only in one case: if we have the will, the right thoughts, consciousness and actions. Only then can a person be called alive. Only then can a person be called truly feminine, the one who manifests our life.

Use every opportunity every day, especially such bright holidays, to enhance your feminine essence and magnetism. Men show their masculinity so that your women feel as fulfilled as possible. In the ancient Slavic tradition, a man addressed a woman: “My soul,” and a woman addressed a man: “The light of my eyes.” A man represents yang energy, and a woman represents yin energy. This is what I sincerely wish for all of you. Thank you.

Maria: Thank you, Sasha. As far as I remember, you told about the story that in the Slavic tradition this holiday was somehow celebrated. Has a connection with a modern holiday.

51:28 “Rule the world.” Reverence for nature. Offerings as energy exchange. The meaning of round dance. “Holy days” is an element of knowledge of the Truth.

Alexander: Yes. In the Slavic tradition there is the goddess Lada-Mother, the goddess of femininity. Any holidays personified different levels, they were called holy days. Because we enhance all possible energies through form. We tune in with beings, our relatives, gods in order to move to their level of consciousness and the energies that will descend. This is the so-called “rule the world.”

There were many elements, such as reverence for nature. If you have not visited the forest or park today, you should do so. Hug a tree, thank Mother Earth, thank the feminine principle for giving us life, and we are part of the whole. Thank all the women in your family, and if you are a woman, thank yourself. This is very important to manifest.

For an unambiguous manifestation, our ancestors gave demands and offerings. What you want to give as interaction, as energy exchange. Previously, this was done in special places of Power, on temples. Even if you don’t have such a place nearby, you can just go and feed the birds with all your heart, or leave some kind of offering in the forest. The spirits and Mother Earth will accept. The higher aspects will gladly help you, reveal your capabilities, abilities, and assist you. We know that in order to receive something, we must first give something.

Our ancestors believed that Love is the people of God who know, this

is a transition to higher levels. One of the most basic things we have forgotten: our ancestors never used this word before. Everyone said: “I know you.” I understand, I vibrate, I try to cognize this truth. If you reached a level of awareness, a new level, then they said: “I love you.” I hope that you will gather in your circle today and congratulate all women.

As a rule, any holidays, celebrations, in addition to decrees, glorifications, traditions and food, are a round dance. What it is? When we do a round dance or join hands, this is the launch of a stream of collective consciousness. When we launch this divine energy, we connect with the Divine Cosmos, with the Galaxy, the Universes. We are part of the Divine Universal Absolute and its beginning.

If you do this, you will be able to attract, materialize, improve all your desires, and most importantly, reveal your inner abilities. Our ancestors knew that “holy days” are one of the elements of knowing the truth. By preserving traditions and using energies, we can reach the level of the Absolute, the level of “As”. If you come close to this today, you will not lose, but gain. I truly wish you to have a wonderful day, fill yourself with energy, become more feminine, more blessed and more fulfilled in all aspects. Thank you.

Maria: Thank you, Sasha. Very interesting information. Who would like to say anything else about today, today's energies?

56:00 Completion of the “spring cleaning” of 2020.

Morea: I would like to continue. After the wave of feminine energies, in 3 days, on the eleventh, there will be a wave of cleansing of what has ceased to serve. This is one of the last days of spring cleaning of 2020. The year did not end on December 31, 2020. It ends only now. On the eleventh, the male point is at the end of what has ceased to serve.

We will be filled with strength, and on the eleventh there is an opportunity to part with what has ceased to serve, not just throw it in the trash. We need to lay down why we are doing this. Cleaning for the sake of cleanliness, bread for the sake of satiety of loved ones, beauty

for the sake of happiness of loved ones. What will drive the next year. It's not just to remove what has ceased to serve, you need to lay down a powerful vector of development. Vectors aimed at development will be best supported: what do I want to achieve as an individual in this World, as a person.

There should be maximum honesty in this matter. You can't lie there. If a person wants to build himself a house and live in it, but says: "I want to love God," he will not succeed in either. It's better to honestly say: "I want to build a house, give birth to a son, plant a tree," and honestly go. These actions will also be directed towards God. The 11th is an important day in 2021, which is coming. I advise you not to miss it. Everything I wanted to say.

Maria: Thank you. Very interesting, very valuable information. See how our diversity, different channels and worldviews enrich each other.

Ligita: If it's possible, I'll also add a little bit, okay?

Maria: With pleasure, of course.

58:41 Parable about androgynes. Love comes from excess. A conscious choice is to share energy.

Ligita: There is a beautiful parable of Aristophanes about androgynes. About perfect beings who combined masculine and feminine principles. Their strength and power threatened the Gods, so Zeus picked up a sword and cut the androgyne into two parts. Since then, there is an idea that every person is looking for his soul mate.

It was like this all the time. But now, with the end of the era of Kali Yuga, this idea that I am half an apple, I am something not whole, and I need the other half for integrity, is being transformed, because the idea of love as filling some There's emptiness inside.

In 4D, the relationship between a man and a woman is not from lack, but from redundancy, when I am not half an apple, I am a self-sufficient whole apple, but I consciously choose the path to connect

with someone because I have something to share. I will express myself through the role of wife, mother, friend. Not because I need some other half, but because I am ready to share the level of happiness that I feel inside.

Therefore, now, during the transition to another space, relationships are experiencing a very rapid transformation. It's time for awareness. This Mobius strip (I agree with my colleagues), this infinite energy, it is available to everyone, but without a certain kind of awareness it will not be possible to use it. Therefore, I believe that our mission is also to give people the opportunity to feel this endless “yin-yang” energy. Thanks for your attention, friends.

Maria: Thank you, Ligita. Thank you. Who else wants to take the floor?

1:01:10 Mary Magdalene about the uniqueness of feminine energy. Truth is Love.

Selena: Let me say two words, Masha. Everyone said wonderful things and will probably say more about femininity, Women’s Day, about the current state of energies, about tasks. Ligita said the right thing about awareness. I would also like to add that feminine energy is unique. Although the men's one is unique. But the role of a woman is fulfillment, right? I just talked with Mary Magdalene, I’m interested in exploring this topic in more detail. She says interesting things about how a woman works with space, a woman works with scents. A woman fills the space, structures it, builds it efficiently. And this is a very interesting aspect.

The extent to which we, women, can master this quality, structure and fill the space around us, people, men, children, with Love (Irina correctly said that there can be nothing else). I think what Marina said: “Truth is Love.”

In all my channelings and stories, I can only talk about Love in its various manifestations. Here on Earth it manifests itself in different ways. And this is also wonderful, because you can experience different facets of Love, its different aspects, in order to fully understand what it

is. It is impossible to know her with the mind, I agree on this with Marina and with others who spoke on this topic. The love that we are all learning, and that women carry, is very interesting, important, amazing, huge, I don't even know what epithets to choose.

Let's fill ourselves, space, men, they will fill us. This Mobius strip is launched consciously, as Ligita said. I would really like this to happen not only on March 8 and after it, not only for the whole year, but in general for our whole lives. We understand what kind of energies we are, what tasks we perform, and consciously accept them. And then the World will become beautiful, and Love will bloom in our World. Therefore, I want to wish everyone only Love in all its manifestations. Thank you.

Maria: Thank you very much, Selena. Thank you. Irisha, also tell us something interesting about today, about feminine and masculine energies.

1:03:53 Time of the spring equinox. Unified calendar of ancient peoples. "Week of Ancestors" Men's Day and Women's Day.

Irina: They said a lot of the right beautiful words. I join what you said, my dear colleagues. I would also like to add a little about this day, what I learned from the curators.

They told me about the ancient calendar, which Alexander and Marina talked about a little. Ancient people have long noticed the starting point of time from which the day begins to increase. I'm talking now about the time of the spring equinox. If we translate it into today's calendar, it is March 21, 22. The point in the ancient calendar was before the war 12 thousand years ago and a little later. Time has changed, but the ancient tribes, the so-called Proto-Indo-Europeans, who lived then, knew about it. It is known to modern scientists what the language and alphabet were. Interesting question.

There are many variants of ancient alphabets and languages, but what these peoples have in common is that they had a single calendar. It was a lunar calendar divided into 28 days, 12 months. There were additional days in each month according to the solar calendar. The

starting point of this calendar was New Year's Day, according to the modern calendar, at the end of March.

The lunisolar calendar had 360 days. Not 365 or 366 in a leap year, but 360. Those days that remained until the end of the year were added to the end of the year before the New Year, March 21. They constituted the so-called “week of the ancestors.” These were the days when our ancestors said goodbye to the old and built a new reality. There were special ceremonies, rituals of communication with the Spirits of ancestors, with high-vibration plasmoid civilizations, with one’s Soul, etc.

If we look at the modern calendar, we see that approximately two weeks before the ancient New Year falls on March 8th. If we count back a little less than two weeks, it falls on the beginning of the twentieth of February, when we celebrate Men's Day. You see, the holidays are not arranged by chance.

In ancient times, as I was told, at the end of the year there were days called “weeks” when they did nothing in the field, in the forest, or while hunting, but gathered for rituals. After the adoption of Christianity, they began to be called “resurrection”. The week itself was called a week, that is, seven days. The first day of the week was then called a specific day. The names of the months were different then.

The first day of the week, which was dedicated to men, was about a month before the New Year. There was a different calendar. A week was considered a day. The day that is now reflected as February 23rd is the day of men. At that time, it was a day of honoring warriors, a day of initiation of boys who were entering adolescence into the male customs of the tribe, that is, the admission of men into the egregor, if we use modern language. They did not know such expressions, but it was so.

About a week later, a little more, after 10 days, it turns out, there was a week of women. A day that was dedicated to feminine energies, to all mothers, daughters, and women of the tribe. Rituals were held for pregnant women, for young girls, etc. It was Women's Day.

A week after Women's Day, the week before the New Year began, which was dedicated to the ancestors. This is how men's week, women's week and a week dedicated to ancestors passed, and only then the New Year's Eve.

We see that this is projected onto the modern calendar in such a way that February 23 is Defender of the Fatherland Day, March 8 is Women's Day, March 21 is its celebration, and has been preserved among the Arab and Central Asian peoples.

Alexander, I understand and speak the versions that were told to me. It is no coincidence that these holidays are celebrated in the modern World. This is a reflection of our ancient egregor, our noosphere of the Earth. Even people who do not understand the true origin of these holidays celebrate them.

1:12:44 Meanings of numbers 8 and 3 in the date of the holiday. Chislobog's Circulelet, Malta Plate and Phaistos Disc.

Irina: If we talk about the meanings of the numbers 8 and 3, March is the third month from the beginning of the year, which were transmitted to me according to Esler and the numerology of the Interstellar Union (IC), they may be different for you, it depends on the view of the numerology of the civilization that works with you. I was told that 8 is the energy of Uranus, 3 is the energy of Mars.

What does this mean collectively? The energy of Uranus is responsible for contact with other Worlds, with the Spiritual world, with the subtle world, with one’s Higher Self. This is contact with that world that is not visible with ordinary physical eyes, and is our own inner world. Uranus is responsible for these contacts. Mars is the energy of activity and courage.

March 8 carries a message for women so that they actively contact their Spiritual world, teach this to their children and their men. Thank you for attention.

Maria: Thank you very much. Very interesting. I give the floor to

Achula and Tatyana.

Achula: I am very grateful that I was here with you. I liked it very much. What do I want to say from myself? We unite with our hearts, pour out our heartfelt love into all space, restore all lines of communication with the House of the Soul, with the House of the Primary Source, and teach people this. Let us cognize the Truth, this is necessary, and manifest it in life. Our whole life is learning, knowledge, recognition, advancement. Let us wish that every Soul on Earth is reborn to the Light, to its happiness of Existence. Joy, Love, Happiness and Prosperity to everyone! So tnank you.

Maria: Thank you very much, Tanechka. Thank you for being with us today. We were very glad to meet you. I see Alexander wants to add more.

Alexander: Yes, I'll add it now. If we started talking about calendars, this is the ancient Slavic calendar according to which our ancestors lived. There is a mention of this calendar in the Circle of the God. This is the Maltin plate on the Phaistos disc.

1:16:03 Transformation of space. An important lesson about the unity of Light. The uniqueness of each person's development.

Alexander: But the most important thing that I would like to say during Women's Day is that women are endowed with a very interesting feature. On the energetic plane, as I began to develop vision, I noticed something incredible.

At chest level, a woman processes energy. She transforms space with her Love. Women who love children, their work, their life, simply, being in space - here she goes, no matter where - bend the space, process the negative. Thus, they raise their vibrations.

It's incredibly beautiful. When you look at this beauty, it is simply wonderful. I am more than confident that the day will come when the transformation will be so powerful that we will be able to move into what we have been talking about - into the 4th, 5th and higher

dimensions. Therefore, women will be more feminine and men will be more masculine when everyone does their own thing and manages their energies.

Of course, we are now moving into a time when we must become self-sufficient and share our abundance. To do this we must find ourselves. And for this we must work very hard every day. If we work and get to know ourselves, then of course, sooner or later, we will come to this. Thank you again for being here.

Maria: Thank you, thank you very much. So many warm words today. I am sitting in a cloud of Love, tenderness and Light. Friends, in conclusion, I would like to ask everyone who sees fit to address our viewers, those who will see you, including members of other channels. What would you like to convey, wish, say on your own in conclusion?

Alexander: Let me go. Then I will pass the baton.

Maria: Okay, continue, Sasha.

Alexander: I hope that we will continue our meetings. And you will find mentors, perhaps teachers in our faces, just colleagues, friends. Perhaps you will remember that you are part of one big spiritual Family and say: “Oh, I raced there with you in past lives, we flew on planets.”

Our main task, it seems to me, is to help everyone awaken, find themselves and begin to act. Start being active, try to know yourself in all its manifestations. If this recording or this broadcast has caused you to develop, think about what you can do, what you want, what is your ultimate goal. If you consider it necessary to write a question, write. If you want to make an offer, make an offer.

Let us crystallize with each of our ethers and transform our activities as a conscious group of people - and we are one whole - into a big huge crystal of Love. And this will manifest itself in actions that will increase real awareness. This awareness will be recorded in space. We will see the level of personality development. Since we are all in different spaces, our energy will be so strong that it will be able to transform the

World.

If with the help of our activities we can improve and transform reality, then we are doing everything right. I wish that everyone treats each broadcast consciously, with great love and kindness. And in good conscience, respecting others, do everything possible to make this happen. I thank you for the wonderful time and space to be, to get to know you and to be present always and everywhere. Peace be with Love and Joy! Glory to Rod!

Maria: Thank you. Okay, friends, I give the floor to those who consider themselves ready to wish something to our viewers, take the floor with pleasure.

Irina: I am very pleased with our joint meeting, I listened carefully to each of you. Your words resonated in my heart. I am grateful to Maria and to all of you. This is a good initiative to unite all our efforts to increase awareness and Love in every earthling.

Our efforts individually mean much less than if we together, as a single stream of Light, carry it into the World. The fabulist Krylov also wrote the fable “The Swan, the Pike and the Crayfish” about how even the bright aspirations of each individual in different directions do not lead to the results they strive for. In such a simple image, for children, we are given a very important lesson that in fact the Light is one.

Whatever information we receive, whether it contradicts our ideas or not, the most important thing is to remember the unity in Light and Love of us, our creators and curators. We are neither inferior nor superior to them. We are truly equal to them, with them in the same light of our God.

With this in mind, we will continue our mission. I am ready to participate in joint answers to questions. Once again I congratulate everyone on the holidays. Congratulations to you, Alexander, on your belated Men’s Day. Congratulations to you, dear women, on Women's Day. I wish us all more awareness, tolerance towards each other, Love and understanding.

Maria: Thank you, thank you very much, Irochka. Selena, Lenochka.

Selena: Thank you very much. I want to say that knowledge is endless. It is fascinating, deep, bewitching, beautiful. The more information I receive, the more I will honestly say, despite the vicissitudes of the World that exist in space, I admire the filigree of how it was created, how it works, and how we can manifest ourselves and exist. This is a unique thing.

The interesting thing is that everyone's development is so individual, unique, inimitable that there are no better and worse, higher and lower, right and wrong. Each one is unique and inimitable. Everyone brings their own color to this beautiful creation, as to a huge beautiful picture of the Universe, which needs dark colors that give contours, and shadows, and empty white spaces, and colored spots, and more consciously drawn pictures. Therefore, knowing the picture of the Universe and yourself in it is an endless story.

Know yourself. I am now addressing not so much my colleagues, they know all this, but rather our readers and listeners. Get to know, go deep into yourself, outside yourself, I don't really distinguish this. This is one story. The division is conditional. We perceive both within ourselves and outside ourselves. This knowledge will lead to truth, to God, to Love, to what all my colleagues talked about today.

I also want to thank everyone. I listened to everyone with great joy. I am glad that you and I started this wonderful story. I'm sure it will continue and be wonderful. It was interesting for me to listen and observe the manifestation of each of us. I won't even say "of you" because we are all one. Each of us, right? You can say this: "I love every me or every me that is now manifesting itself in this space." We are all learning to love each of us, which will manifest itself in all other spaces, be outside and inside us.

I am very happy too. I want us all to powerfully launch this energy that we are now launching, and let it spread for the benefit of our development, to help people and for the benefit of the whole World, as appropriate, possible and harmonious. Thank you.

Maria: Thank you. Thank you Lenochka. Friends, who would like to take the floor?

Morea: May I? My grandchildren and children are already crowding here.

Ligita: Come on, I'll follow you then.

Morea: I want to address those behind the screen. My friends, remember that you are earthlings, you are on Earth. If we talk about happiness, then you need to live every day as a person, as a “Man in charge of the century.” Man, that is, the one who opens his heart as the Sun rises. Every day. It doesn’t matter what the clouds are, what the weather is like, it doesn’t matter whether people want this Sun or not. The sun rises every day. It rises and shines.

So is man. He can wake up and shine every day. I wish you all to live your lives this way. And then there will be no “excruciating pain for the years spent aimlessly.”

I congratulate you on the fact of being born on Earth, where there are all the conditions for you, having lived as a human being, to become created by God. It will happen either in this birth or in the next. I'm sure. I hug you all with my heart. Let me leave, because my many grandchildren are crowding at the door and shouting: “Baba Marina, congratulations!” Goodbye.

Maria: Thank you very much, thank you. We congratulate you and have a wonderful day with your family.

Ligita: I, too, am already tormented by my family, so goodbye. I’ve been living here for a long time, so Tsvetaeva’s creation resonates with me.

The gold of my hair

Quietly turns gray.

- Don't be sorry! Everything came true

Everything in my chest merged and sang.

It sang - how the whole distance merged

In the groaning pipe of the outskirts.

God! Soul come true:

Your intention is the most secret.

I wish you that your Souls come true, that life begins to come true, my dears.

Maria: Thank you. Wonderful lines, wonderful words. Thank you for being with us today. I was very glad to see you. Thank you for joining our movement.

Ligita: Where would I be without you now, my dears.

Maria: Where are we without each other?

Ligita: Where are we without each other?

Maria: Yes. We are now the last ones on our air. So smoothly we came to the end of our acquaintance, our first meeting. I think we had a wonderful conversation, met new contactees, new beautiful divine Souls. I am sure that our meeting will find a huge resonance among our subscribers, among our viewers. I will be very glad if next time we find time to meet and chat with our subscribers and our friends.

Ligita: If it weren’t for you, you would have moved mountains! Really.

If it weren't for you, none of this would have happened. Thank you from the Heart.

Maria: Thank you very much. I thank each of you. This is the Soul of each of you, these are the curators of each of you, who brought you to this project, brought us together, some earlier, some later, some just now. I'm very happy. I am simply sure that more and more such bright Souls will pour into our project, support each other, share their knowledge, their Light, their Love. Thank you, my friends.

1:30:28 Plans for the project “Union of Contactees”.

Selena: Mashenka, maybe two words in conclusion. Please tell me, we’ve already discussed this once, because people have already met and seen what kind of project it is. What's next? They will probably have a question. Two words about how this will be organized further, so that they understand and, whoever is interested, would be involved in participating in our wonderful stories together.

Maria: Of course, we have already discussed this with you. At the next meetings, we are going to give our listeners the opportunity to ask questions that all meeting participants can answer as they see it. The only thing we can think about is whether we will collect these questions in advance in order to stay within the time frame. I understand that if we do this live, it could greatly extend the scope of our meeting. We'll talk about this and how to do it better. I propose to put this broadcast on your resources. Provide this information to your subscribers, your viewers. We will subsequently provide the opportunity to ask questions either in advance or live. We will think about this all together.

Alexander: Such a masculine, practical question. Probably many will want to hear the intensity, that is, how often will it be?

Maria: It depends on everyone’s capabilities. I think that once a month we can still find time. We’ll just think about it, write to each other and see if someone has an interesting topic or proposal. Whoever can meet spontaneously, with pleasure. We'll announce it in advance.

Alexander: Thank you. Thankfully I accept it and multiply it.

Maria: Friends, if anyone has any wishes to say goodbye...

Irina: Masha, this needs to be organized so that there are questions that we will answer. Will this be exhibited?

Maria: Of course.

Irina: I don’t know whether to broadcast it live or collect questions?

Maria: We'll think about it. We can try how it works. We can collect questions in advance: each on their own resource. Select the most interesting ones that will be interesting for the participants to answer, and organize the broadcast around ready-made questions. Or give the opportunity to ask questions live and select interesting questions during the conversation.

Selena: Anyway, let's get started somehow, shall we? Let's try. We and the listeners of this project will like some forms, and we and the listeners of this project will not like others; we will decide along the way. Other options for interaction will emerge, not just answering questions.

Maria: Okay. Amazing. Thank you, friends, I was very glad to see everyone, and see you again.

Irina: See you again!

Alexander: See you again! All the best, goodbye.

March 18, 2021.

Participants:

Irina Podzorova – contactor with extraterrestrial civilizations;

Maria – volunteer of the Cassiopeia project, organizer of the meeting;

Alexander Zharkov - healer, parapsychologist, clairvoyant;

Selena (Elena Sidelnikova) – contact person;

Morea (Marina Dudina) – contactee;

Achula (Tatiana) – contactee.

Video in text
March 27, 2023

#233 Irina Podzorova. Abkhazia. Retreat. Who are we? Daemon. Human. Spirit. God. Goals. Answers on questions.

https://blog.cassiopeia.center/kto-my-demon-chelovek-duh-bog-celi
https://www.youtube.com/watch?v=_xen5TsTWoM

00:00

Irina: Does everyone have the same impressions from this retreat as I do? You've already seen three specialists, right?

Retreat Participant: Yes.

Irina: You have already learned a lot. They talk about the same thing

in their own way. Today we will describe our day like this: for the first two hours we will talk about who we are. Who is a person, what does he consist of? What does his Spirit consist of, and why does he come here? What is the purpose of human development? This will be a conversation and answers to questions. Let us consider, if it is not clear to anyone, the structure of the Spirit, because this knowledge (theoretical) is the most important thing in order to understand why we came here for this incarnation. From three o'clock in the afternoon until seven o'clock in the evening, with a short half-hour break, we will have practices. Practices of determining a person's energy structure, his blocks, connections to plasmoid worlds, etc. And I will show you how to channel the energy to dissolve these blocks. Then we will have the practice "Hike to the Higher Self." If one of you goes, I will lead him, the rest will watch. Then there will be practice (as we have time), either about astral travel, or activation of the third eye for everyone. You choose what interests you.

Retreat participant: Astral.

Irina: Astral. We won't be able to do both because there are too many people. Hello everybody. Have you set it up? Great, good.

02:17 What is a person? The relationship between the incarnate and non-incarnate parts of the Spirit.

Irina: We will start the conversation with what a person is. What is a person?

Retreat participant: Chip.

Irina: What trick? Earthly essence?

Retreat participant: And part of God.

Retreat participant: Part of God in a bodily shell.

Retreat participant: Monkeys.

Irina: Is the bodily shell a part of God?

Retreat Participant: I think so, because she adjusts.

Retreat participant: The bodily shell is a part of God, it is the Soul.

Irina: Who created the body?

Retreat participant: By God.

Irina: From what?

Retreat participant: Made of matter.

Irina: What matter?

Retreat participant: Matter is primary, it is the material from which everything is created.

Irina: Primary before what?

Retreat participant: She is secondary to the Spirit. First is Spirit, then comes matter.

Irina: What does it consist of?

Retreat participant: It consists of molecules, atoms.

Irina: What are atoms made of?

Retreat participant: From neutrons, protons.

Irina: This is all clear. What are all these particles made of?

Retreat participant: There is an electromagnetic field in them that holds all these particles.

Irina: What do the particles themselves consist of?

Retreat participant: From energy, so to speak.

Irina: Where do the energies come from?

Retreat participant: Energies move from the primary, i.e. from God.

Irina: So, what is matter?

Retreat participant: Part of God is probably correct to say.

Irina: So this is the divine essence in the part of God that we call the body, right? Interesting answer.

What is a person?

Retreat participant: The totality of the material and spiritual.

Irina: The combination of material and spiritual, good. Indeed, yes, it is. A person (I will speak all the information based on the materials of the Interstellar Union (IC) that they give me) on Earth, a reasonable person, is a Spirit embodied in a body. MS representatives know every child about this. They talk about this both in the family and at school when they are studying. When they come (relatively speaking) to the 1st grade, the teacher tells them that you are Spirits embodied in a body, and you came here for a reason, but to fulfill your task. Is this what they tell us at school?

Retreat participant: No.

Irina: Do you think it would be useful to say this?

Retreat participant: Of course. Coming soon.

Irina: That is. Are you in favor of your children learning this?

Retreat Participant: Yes.

Irina: What are they Spirits, what is the Spiritual world, how to go there, how to communicate? Are you in favor of studying this?

Retreat Participant: Yes.

Retreat participant: We don't have an idea right now. And this is one of the ideas that will give a person a vision of where to move and how to move. If I had known in advance what you teach here, many things, for example, would not have happened in my life.

Irina: Of course. Fine.

Retreat participant: I would simply behave as you are telling me now. And now there is no spirituality at all.

Irina: That's right, you are absolutely right, because a person behaves depending on what he strives for. And what he will strive for depends on what is dear to his heart. If a person is brought up in materialistic ideas, some things will be dear to him, and if he is raised in spiritual ideas, others will be dear to him. This means that the behavior will be different.

We do not come into this world as a completely blank slate. We have already gone through many incarnations. But in order for these incarnations not to influence the experience acquired here, our

memory is blocked. Not our entire Essence, but only the embodied part. The spirit is not fully embodied in the body. He retains a part in the Spiritual world, which in our interpretation is called the Higher Self. For an earthling, this ratio is 70 to 30. 30% is incarnated, 70% remains in the Spiritual world. The average figure, it fluctuates, maybe 33%, 35% - this will already be realized. The percentage can be increased, it is changeable. For other races this ratio is different. There are less of us and more of us. We are somewhere in the middle, approximately.

07:01 How is a living body different from a dead one? Soul of man.

Irina: Let's consider what the incarnate Spirit is. How is it different from the body? To understand how the Spirit differs from the body, you need to answer the question: “How does a living body differ from a dead one?” Or rather, is a sleeping body different from a dead body?

Retreat participant: There is no vital energy there.

Retreat participant: The soul leaves.

Irina: The soul leaves. Any materialists present?

Retreat participant: Yes, we were all brought up on materiality, so now we are changing our view.

Irina: I now hear answers as if I were sitting on the MS council.

Retreat Participant: That's right.

Retreat participant: We’ve been here for the 4th day already, we’ve listened to everything.

Retreat participant: These two bodies differ in that the dead one does not have enough energy for some vital processes.

Retreat participant: It just died, it doesn't work. There is no blood circulation, there is nothing. It does not breathe, does not consume, does not give out.

Irina: But the blood remained.

Retreat participant: The blood remains, but it has settled and does not move.

Irina: What makes her move?

Retreat participant: Heart.

Retreat participant: Energy.

Retreat participant: The heart makes you move.

Irina: What makes the heart move?

Retreat participant: Everything is controlled by the brain.

Retreat participant: Nervous system.

Retreat participant: Everyone there has a photon brain. There is a pacemaker, so the heart moves.

Irina: Pacemaker, what is he controlled by?

Retreat participant: Nerve impulses.

Irina: An impulse is an electromagnetic wave?

Retreat participant: Of course.

Irina: So, these are energies, in any case.

Retreat Participant: Yes.

Irina: Even when we take a cardiogram, we see that this energy is shown there in the form of impulses of a certain rhythm. So, this rhythm is missing, it goes away. And if we approach from the point of view of materialism, then there is such a law. It's called the law of conservation of energy. It sounds like this: energy does not disappear and is not created, it passes from one form to another or from one type to another. If energy moved the heart, brain, muscles, tissues, and then it disappeared from the body, left, it no longer exists, we do not observe it in a dead body, according to the law of conservation of energy, which is quite materialistic, could it disappear?

Retreat participant: No. She switched to another state.

Irina: This means that even according to the teachings of materialism, the Soul exists - strictly according to the teachings of materialism, which is completely proven.

Retreat participant: Logical. Mikhail Lomonosov painted and agreed on all this.

Irina: Then the question arises, why don't they tell us about our Soul at school?

Retreat participant: In some countries they tell.

Retreat participant: I think we have started now too. True, I haven't gone to school for a long time.

Irina: Who has children? What do they say there?

Retreat participant: It's just simple about religions. About religions

and everything.

Irina : What do they say about religions?

Retreat participant: That they are.

Irina: We had a wonderful subject called MHC. Who else came through? World Art. They read myths to us there: myths of Ancient Greece, Ancient Rome, etc.

Retreat participant: At school they taught all this, ancient history. We even played the evening of Ancient Greece - all the myths were there: Perseus, Jason and all that.

10:39 The importance of imaginative thinking. Should I read it?

Irina: I want to say that reading fiction, myths, poems, novels, classical literature enriches the human Soul and develops imaginative thinking, which then helps to tune in to contacts with the Higher Self and the Spiritual world. A person who reads little, who only watches films (ready-made images, already created), has weak imaginative thinking. It is not developed. The mind, which is in the brain and manifests itself through the brain, is accustomed to being shown ready-made things, from cartoons to films.

Previously, in ancient times, when there were no televisions, there was no YouTube, there were only books and oral stories, human imaginative thinking was much more developed. He was more capable of spiritual contacts and astral travel than he is now.

Now a person can do all this, but it all needs to be remembered. It is necessary to develop imaginative thinking, concentration, memory, all the structures of the Spirit.

12:04 What is the incarnate Spirit? How to feel like a Spirit?

Irina: What then is our incarnate Spirit? The Incarnate Spirit is an immortal, intelligent, free-willed entity that is an integral part of God, a stream of thoughts in His Mind. To feel like the Spirit, all you have to do is close your eyes. Close all your eyes. Say the two words “I am.” How did you feel?

Retreat participant: I am.

Retreat participant: Light.

Irina: Yes, light. Light, goodness, everything is there. And then ask yourself the question: “Who am I?” Who am I? What answer?

Retreat participant: It's me.

Irina : And who am I? Yes, that's right, the chakras begin to activate because you begin to concentrate on Spirit. Now that your eyes are physically open and your ears are listening to what is happening, your consciousness is focused on the material world. On the outside world.

But inside you there is another world, much richer. Our inner Universe. It is called your inner Spiritual world. He appears to you when you are alone with yourself, when you dream, when you make plans, when you communicate with your Higher Self and your curators. The curators who come become temporarily part of your inner Spiritual world.

13:46 The uniqueness of man.

Irina: I want to say that each of you is unique. Every person is unique. Never, in the entire history of the Earth, has there ever been such a person and never will be again. You are a unique combination of Spirit, Soul and body. And when we in Christianity believe that a person lives once, if a person considers the totality of the Spirit, Soul and Body, yes - this is so. You, as a person, only live once. Your Spirit will never again unite with this body of yours - it will disintegrate into elements.

14:27 Why was matter created?

Irina: So, why do you think the intelligent free light essence, the ray of Divine Love comes into the world of matter? Who thinks so?

Retreat participant: To organize some kind of forward movement in this matter.

Irina: Why does she need this?

Retreat participant: Everything must develop, everything must move. She can't just sit there dead. Receiving these energies, matter begins to move and begins to change.

Irina: Yes, matter was created to change, because change is life.

15:04 Reasons for the birth of Spirits. God's love. Freedom of choice.

Irina: Why did God give birth to us all? Did He give birth to us all at the same time before the creation of the material world? Or is he still doing it now? You know, both answers are correct, because he did and does it outside of time. For God, at the same time we were not yet born, and at the same time we have already lived all our lives. It is timeless: they have no past, present and future. Both options are correct. We all appeared together at the same time before the creation of the material world, and we continue to appear continuously. Why does he give birth to us? It is by his will that we appear.

Participant Retreat: Development.

Irina : Yes, the development of one energy, which is the essence of God. What energy is the essence of God?

Retreat participant: Love.

Irina: Love, okay. What kind of love? How do you understand Love?

Retreat participant: Love is a positive attitude towards everything around you, without demanding anything back. Free of charge.

Irina: God, since he is absolute Love, absolute Love cannot be alone. She always needs someone nearby whom she can love. Because of this, we appeared before the creation of the material world. The more love a creature has, the more children it produces. And if love is infinite and eternal, then children are born endlessly and eternally.

Retreat participant: Because of the potential difference, is there a need for a potential difference?

Irina: Potentials. A potential difference is needed. I understand what you are talking about. Indeed, God loves, one might say, diversity. How is it shown? The fact is that he gave all Spirits freedom of choice. He even called him Free Spirit.

18:00 Freedom of choice. Development of negative qualities. Commandments.

Irina: Freedom of choice. The most important thing is that the Spirit is given the opportunity to both love God and draw closer to him, and to leave him into darkness, denial of Light and develop in the opposite direction. You can develop anything, including negative qualities - they also develop. Anything can be improved. You can improve yourself, for example, in ballet, or you can improve yourself in creating weapons. Both will be improvement in this direction, i.e. improvement of some qualities.

The fact is that God is such Absolute Love that he has given us the opportunity to develop in any direction. And at the same time he does not take away his Love from anyone. There are different levels of the Spiritual world, on which it is not he who places us, but we who place ourselves with our choice, our development. For him, any choice, any level, is important, necessary and sacred. He loves the one who is on the 1st level of the demon, the lowest, in the same way as the one who is on the 24th and higher. This is unconditional Love. He does not demand from the Spirit a state similar to his, he simply gives advice

that if you become like me, in Love, you will be infinitely happy. I wish this for you. But if you don't want it, that's your full right, don't be happy. Of course, I may regret your choice, but I will not take it away from you.

Do you understand what he is like? What Love? In order to be an infinitely happy loving bright being, divine, we need to develop in ourselves just such unconditional Love for everyone, including ourselves, for ourselves first of all.

Christ told one of the highest spiritual teachers and gave two of the most important commandments. I understand the commandment not as a prohibition, but as spiritual advice. He gave two spiritual pieces of advice. We can comply if we want, or we can not comply. The consequences of these elections will be different, they will depend only on us. First, love God with all your heart, with all your mind, with all your thoughts. The structures of the Spirit that God must fill with his presence are listed.

21:00 Love for God. Blocks.

Irina: When you love God, he fills you. He already fills you up, but when you love him, you feel it, you open up to him. Do many people understand what I'm talking about?

Retreat participant: It turns out to be conditional love - we give it to him, he gives it back to us.

Irina: This is not like conditional love. We can choose whether to give in to it or not. And he doesn't force us to do it. I see, right? We open ourselves to this Light and receive it. And if we are closed from it, then it exists in us, but we make the choice not to feel it. We are closed. We close ourselves off from the Light with some of our own blocks, energy blocks created by us, from emotions, thoughts, feelings that are far from divine. They are divine, of course, but they are simply negative in this case.

Retreat participant: And if you remember about duality, all this

exists, was it also created by God?

Irina: Yes.

Retreat Participant: So it has all of this?

Irina: It has potential for everything. But he, by his free choice, chose to be absolute Love. Absolutely free choice.

22:22 Desires of God. Be happy even in the face of suffering.

Retreat participant: That is. does he have no desires?

Irina: He has a desire for love, goodness, happiness. These are also desires.

Retreat participant: These are his most important desires, leading ones.

Irina: Yes. And the desire to give us life, freedom, happiness. In this he takes pleasure. God is an absolutely happy being. His absolute happiness is not even hampered by the presence of his low-vibration children, who have chosen the path of suffering in all worlds. This does not interfere with his happiness at all. Why? Because he gave freedom.

Retreat participant: Freedom of choice. If you want, vibrate this way, if you want, vibrate differently.

Irina: Yes. I gave you everything for a happy life, I gave you (if this happens on Earth) commandments through spiritual teachers, different religions suitable for different types of people, egregors, etc. If you follow no religion, if you follow materialism and atheism, that is your choice, I respect it. But I will not stop being an absolutely happy creature, even if I see you suffering. Because it's your choice and I respect it.
